2. RATINGS

The Certificates to be issued have not been rated.

3. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER

Save for fees, if any, payable to the Dealer, and so far as the Issuer is aware, no person involved in the issue of the Certificates has an interest material to the offer.

The Dealer and its affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business.

Société Générale will ensure the roles of provider of hedging instruments to the Issuer of the Certificates and Calculation Agent of the Certificates.

The possibility of conflicts of interest between the different roles of Société Générale on one hand, and between those of Société Générale in these roles and those of the Certificateholders on the other hand cannot be excluded.

Furthermore, given the banking activities of Société Générale, conflicts may arise between the interests of Société Générale acting in these capacities (including business relationship with the issuers of the financial instruments being underlyings of the Certificates or possession of non public information in relation with them) and those of the Certificateholders. Finally, the activities of Société Générale on the underlying financial instrument(s), on its proprietary account or on behalf of its customers, or the establishment of hedging transactions, may also have an impact on the price of these instruments and their liquidity, and thus may be in conflict with the interests of the Certificateholders.

(*Structured Certificates only*)

The value of the Certificates, the payment of a Coupon amount on a relevant Interest payment date to a Certificateholder, the payment of an automatic early redemption amount on a relevant automatic early redemption date, and the payment of a redemption amount to a Certificateholder on the Final Exercise Date will depend on the performance of the underlying asset(s), on the relevant valuation date(s).

The value of the Certificates is linked to the positive or negative performance of one or several underlying instrument(s) within the basket. The amount(s) to be paid is/are determined on the basis of the condition which is satisfied (or not) if the performance of one or several underlying instrument(s) within the basket is lower than or equal to a predefined barrier performance.

During the lifetime of the Certificates, the market value of these Certificates may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.

The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.

The audit report does not contain any qualification.

Key risks that are specific to the guarantor :

Due to Société Générale's role as guarantor and counterparty to the Issuer's hedging transactions, investors are essentially exposed to Société Générale's credit risk and have no recourse against the Issuer in the event of the Issuer's default.

WHAT ARE THE KEY RISKS THAT ARE SPECIFIC TO THE SECURITIES?

The investor bears the risk of total or partial loss of the amount invested at redemption of the Certificates on the Final Exercise Date or the event the Certificates is sold by the investor before that date.

Although it is subject to market making agreement, the liquidity of the product may be affected by exceptional circumstances that make it difficult to sell the product or at a price that results in a total or partial loss of the amount invested.

Certificates may be early redeemed automatically when the level of the Underlying(s) reaches a certain level. Investors will not benefit from the performance of the Underlying(s) subsequent to such event.

The market value of the Certificates depends on the evolution of market parameters at the time of exit (price level of the Underlying(s), interest rates, volatility and credit spreads) and may therefore result in a risk of total or partial loss on the amount initially invested.

Events unrelated to the Underlying(s) (e.g. change in law, including tax law, force majeure) may lead to early redemption of the Certificates and thus to total or partial loss of the amount invested.

Events affecting the Underlying(s) or hedging transactions may lead to adjustments, de-indexation, substitution of the Underlying(s), or and consequently to losses on the amount invested, including in the case of capital protection.

If the currency of the investor's main activities is different from that of the product, the investor is exposed to currency risk, especially in the event of exchange controls, which may reduce the amount invested.

The performance of foreign exchange rate(s) is dependent on the supply and demand for the relevant currencies, which are subject to economic and political factors. Such factors could have a negative impact on the performance of the foreign exchange rate(s) and consequently on the value of the Certificates. Foreign exchange rate(s) risks can be expected to intensify in periods of financial turmoil.

Questo prodotto è un certificato regolato dalla legge inglese.

Questo prodotto è concepito per pagare un premio condizionato su base periodica. E' possibile che il prodotto sia automaticamente rimborsato anticipatamente in base a condizioni predefinite. Sia il Premio periodico che l'importo di liquidazione del capitale (anticipata o a scadenza) sono legati alla performance del Sottostante di Riferimento. Il capitale investito sarà da considerarsi totalmente a rischio investendo in questo prodotto.

Il Sottostante di Riferimento è un paniere equipesato composto dai Tassi di Cambio suindicati.

Premio periodico:

Ad ogni Data di Valutazione del Premio, se il Livello del Sottostante di Riferimento è pari o inferiore alla Barriera sul Premio, si riceverà, alla relativa data di pagamento, il Premio moltiplicato per il numero dei periodi trascorsi dall'emissione del prodotto, meno la somma dei Premi già pagati.

Altrimenti, non si riceverà il Premio.

Il Premio periodico è espresso come percentuale del Valore Nominale.

Un periodo corrisponde a tre mesi.

Liquidazione Anticipata Automatica:

Ad ogni Data di Valutazione della Liquidazione Anticipata, se il Livello del Sottostante di Riferimento è pari o inferiore alla Barriera di Liquidazione Anticipata, il prodotto sarà rimborsato anticipatamente e si riceverà il 100% del Valore Nominale.

In alternativa, il prodotto non prevede la liquidazione anticipata e l'investimento prosegue.

Liquidazione Finale:

Alla Data di Scadenza, a condizione che il prodotto non sia stato rimborsato anticipatamente, si riceverà un importo finale di liquidazione condizionato:

- Se il Livello Finale del Sottostante di Riferimento è pari o inferiore alla Barriera sul Capitale, si riceverà il 100% del Valore Nominale.

- Altrimenti, si riceverà:

(1) 100% del Valore Nominale, meno

(2) la performance del Sottostante di Riferimento. In questo scenario, si andrà incontro ad una perdita parziale o totale sul capitale investito. Nel caso peggiore, si perderà il 100% del capitale investito.

Ulteriori informazioni:

- Il Livello del Sottostante di Riferimento è la media aritmetica dei Livelli dei Tassi di Cambio suindicati, dove il Livello di ciascun Tasso di Cambio ad una certa Data di Valutazione è il rapporto percentuale tra il Tasso di Cambio alla Data di Valutazione e il Tasso di Cambio iniziale.

- Il Tasso di Cambio iniziale è il Tasso di Cambio alla Data di Valutazione Iniziale.

- Il Livello Finale del Sottostante di Riferimento è il Livello del Sottostante di Riferimento registrato alla Data di Valutazione Finale.

- La performance del Sottostante di Riferimento è calcolata come il Livello Finale del Sottostante di Riferimento meno il 100%.

- Degli eventi straordinari potrebbero causare delle modifiche dei termini del prodotto o il suo rimborso anticipato. Ne potrebbero risultare delle perdite sul vostro investimento.

Rischi chiave specifici del garante

Considerando che Société Générale è garante e controparte delle operazioni di copertura dell'Emittente, gli investitori sono essenzialmente esposti al rischio di Société Générale e non hanno ricorso nei confronti dell'Emittente in caso di inadempimento dell'Emittente.

QUALI SONO I RISCHI CHIAVE SPECIFICI DEI TITOLI?

La vendita dei Certificati prima della prevista data di scadenza determinerà la perdita della protezione totale dell'importo investito.

Benché sia oggetto di impegni di market making, la liquidità del prodotto può essere influenzata dal verificarsi di circostanze eccezionali che potrebbero rendere difficile vendere il prodotto o comunque ad un prezzo che produce la perdita totale o parziale dell'importo investito.

I Certificati possono essere rimborsati anticipatamente automaticamente quando il livello del(i) Sottostante(i) raggiungono un certo livello. Gli Investitori non beneficeranno della performance del(i) Sottostante(i) successivamente a tal evento.

Il valore di mercato dei Certificati dipende dall'evoluzione dei parametri di mercato al momento dell'uscita (livello dei prezzi dei Sottostanti, tassi di interesse, volatilità e credit spreads) e può pertanto comportare un rischio di perdita totale o parziale dell'importo inizialmente investito

Il verificarsi di eventi non legati al Sottostante (quali la modifica di previsioni di legge, inclusa la normativa fiscale, eventi di forza maggiore) possono determinare il rimborso anticipato dei Certificati e quindi la perdita totale o parziale dell'importo investito.

Il verificarsi di eventi relativi al Sottostante ovvero a operazioni di copertura può determinare la necessità di rettifiche, de-indicizzazioni, sostituzione del Sottostante, e di conseguenza a perdite del capitale investito, anche in caso di prodotti a capitale protetto.

Se la valuta di riferimento delle attività principali dell'investitore è diversa da quella del prodotto, l'investitore è esposto al rischio di cambio, in particolare in caso di controlli sul cambio, che potrebbero ridurre l'importo investito.

L'andamento dei tassi di cambio dipendente dall'offerta e dalla domanda delle valute, le rilevanti valute sono soggette a fattori economici e politici. Tali fattori potrebbero avere un impatto negativo sull'andamento dei tassi di cambio e di conseguenza dei Certificati. I rischi legati al tasso di cambio possono intensificarsi in periodi di turbolenze finanziarie.
