Payment of the Redemption Amount shall be made on the Final Payment Date pursuant to the provisions of § 6 of the Special Conditions.
- (2) *Automatic Early Redemption (k):* If, with respect to an Early Redemption Observation Date (k), an Early Redemption Event (k) has occurred, the Securities will be automatically early redeemed on the immediately following Early Payment Date (k) by payment of the respective Early Redemption Amount (k) on the respective Early Payment Date (k) pursuant to the provisions of § 6 of the Special Conditions.

§ 4

Redemption Amount, Early Redemption Amount

- (1) *Redemption Amount:* The Redemption Amount corresponds to an amount in the Specified Currency which will be determined by the Calculation Agent as follows:
 - If no Barrier Event has occurred, the Redemption Amount will be determined as follows:
 - o If a Final Redemption Event has occurred, the Redemption Amount corresponds to the Maximum Amount.
 - o If no Final Redemption Event has occurred, the Redemption Amount corresponds to the Final Redemption Amount.
 - If a Barrier Event has occurred, the Redemption Amount will be determined as follows:
$$\text{Redemption Amount} = \text{Calculation Amount} \times R(\text{final}) / \text{Strike}$$

However, the Redemption Amount will not be higher than the Calculation Amount.
- (2) *Early Redemption Amount:* The Early Redemption Amount (k) for an Early Payment Date (k) is specified in § 1 of the Product and Underlying Data.

§ 5

Issuer's Extraordinary Call Right

Issuer's extraordinary call right: Upon the occurrence of a Call Event the Issuer may call the Securities extraordinarily by giving notice pursuant to § 6 of the General Conditions and redeem the Securities at their Cancellation Amount. Such call shall become effective at the time indicated in the notice.

The **"Cancellation Amount"** shall be the fair market value of the Securities as of the first Banking Day before the extraordinary call becomes effective, determined by the Calculation Agent acting in accordance with relevant market practice and in good faith under then prevailing circumstances.

The determination of the fair market value is based on the economic equivalent of the Issuer's payment obligations to the Security Holders consistent with the provisions for the redemption profile, interest or other additional amounts of the Securities that would otherwise be due after the day on which the extraordinary call becomes effective and which is adjusted for taking into consideration the following parameters as of the first Banking Day before the extraordinary call becomes effective: the price of the Underlying, the remaining time to maturity, the estimated volatility, the expected dividends (if applicable), the current market interest rate as well as the interest spread associated with the credit default risk of the Issuer and any other relevant market parameter that can influence the value of the Securities.

The Cancellation Amount will be paid within five Banking Days following the date as of which the extraordinary call becomes effective, or at the date specified in the above mentioned notice, as the case may be, pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards.
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the legal interest rate ('*Saggio degli Interessi legali*'), pursuant to Section 1284 CC, without prejudice to any other mandatory provisions under Italian law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on an Observation Date, the respective Observation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Observation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days, the Calculation Agent shall determine acting in accordance with relevant market practice and in good faith the respective Reference Price required for the calculations or, respectively, specifications described in these Terms and Conditions. Such Reference Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Milan local time) on this 9th Banking Day, taking into account the financial position of the Security Holders.

If within these 8 Banking Days traded Underlying Linked Derivatives expire and are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Underlying Linked Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in these Terms and Conditions. In that case, the expiration date for those Underlying Linked Derivatives is the respective Observation Date.

§ 8

Adjustments, Type of Adjustment, Replacement Specification, Reversal of Adjustment, Notifications

- (1) *Adjustments:* If an Adjustment Event occurs the Calculation Agent is authorised to adjust these Terms and Conditions (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 acting in accordance with relevant market practice and in good faith, taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

Within the context of an Adjustment the Calculation Agent proceeds as follows:

- (a) *Adjustment in accordance with the Determining Futures Exchange:* In general, the Calculation Agent will undertake the Adjustment in terms of content and timing in a way that to the greatest extent matches the designated Adjustment by the Determining Futures Exchange regarding the Underlying Linked Derivatives. The Calculation Agent is, however, also authorised to make an Adjustment if there is no adjustment made to the Underlying Linked Derivatives by the Determining Futures Exchange. In this case the Calculation Agent will make the Adjustment, if any, in accordance with the rulebook of the Determining Futures Exchange with respect to the Underlying Linked Derivatives.
- (b) *Deviating Adjustments:* In particular in the following cases the Calculation Agent is authorised to make Adjustments deviating from the adjustments made by the Determining Futures Exchange in order to take into account the Adjustment Goal in an appropriate manner:
 - (i) The adjustment envisaged by the Determining Futures Exchange regarding the Underlying Linked Derivatives is impossible for the Issuer or the Calculation Agent or technically not feasible within reasonable economic efforts; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.
 - (ii) The adjustment envisaged by the Determining Futures Exchange regarding the Underlying Linked Derivatives is unreasonable for Security Holders, the Calculation Agent or the Issuer (e.g. because the Issuer would have to breach internal trading restrictions in order to hedge its payment obligations under the Securities); whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.
 - (iii) The adjustment envisaged by the Determining Futures Exchange regarding the Underlying Linked Derivatives is not suitable to meet the Adjustment Goal; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.
- (2) *Type of Adjustment:* In the context of an Adjustment the Calculation Agent may undertake in particular the following measures in accordance with paragraph (1) above:
 - (a) *Adjustment of Adjustable Product Data:* The Calculation Agent may redefine the Adjustable Product Data based on an adjustment factor (e.g. in case of a capital increase against cash contribution, issue of securities with options or conversion rights in shares, a capital increase from company funds, a distribution of special dividends or other measures undertaken by the company, that issued the Underlying or a third party, that impacts the computed value of the Underlying not only in an insignificant way, based on a change of a legal or economic situation, in particular a change of the fixed assets or equity of the company).
 - (b) *Replacement of the Underlying:* In case of a take-over or a merger or similar measure with respect to the Underlying the Calculation Agent can replace the Underlying with the share of the successor of the issuer of the original Underlying or with another share of – inter alia – comparable liquidity and industry affiliation as the original Underlying (the "**Replacement Underlying**"). Furthermore, until completion of the take-over or merger (excluding), the Calculation Agent may determine that either the shares submitted for sale or submitted for exchange are to be the Replacement Underlying.

In case of a split or a similar measure with respect to the Underlying the Calculation Agent may determine (i) a basket of shares and/or securities or (ii) a basket of shares and/or securities and a cash component to be the Replacement Underlying. The Calculation Agent may exclusively select, in deviation from the Adjustment made by the Determining Futures Exchange, the share

with the highest market capitalisation or another share from the basket of shares determined by the Determining Futures Exchange with – inter alia – comparable liquidity and industry affiliation as the original Underlying to be the Replacement Underlying. In this case the Calculation Agent will, if necessary, determine an adjustment factor by itself to meet the Adjustment Goal and will undertake an Adjustment according to paragraph 2 (a) above.

If the Calculation Agent designates a Replacement Underlying, from the Adjustment Date on (as defined in paragraph (5) below), every reference to the Underlying in these Terms and Conditions shall be a reference to the Replacement Underlying, unless the context requires otherwise.

- (3) *Replacement Specification:* If a published price of the Underlying as required pursuant to these Terms and Conditions is subsequently corrected and the correction (the "**Corrected Value**") will be published by the Relevant Exchange after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify the respective value by using the Corrected Value (the "**Replacement Specification**") and publish it pursuant to § 6 of the General Conditions.
- (4) *Reversal of Adjustment:* If an Adjustment Event that has occurred subsequently ceases to exist (for example, if the effectiveness of a merger subsequently ceases to exist due to the agreement on the merger or a sovereign prohibition or lack of approval), the Calculation Agent shall be entitled to reverse a previously made Adjustment pursuant to this § 8 if this corresponds to the Adjustment Goal.
- (5) *Notifications:* All Adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Security Holders according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.

What are the key risks that are specific to the Issuer?

Potential investors should be aware that in the case of the occurrence of one of the below mentioned risk factors the Securities may decline in value and that they may sustain a total loss of their investment. The following risks are key risks specific to the Issuer:

Risks associated with the UniCredit Group's activities in different geographical areas: Despite the Group's business being materially connected to Italy and, therefore, to the state of its economy (Italy accounted for approximately 44% of the Group's revenues in 1H25, computed as sum of Italy, Germany, Austria, Central & Eastern Europe and Russia) the UniCredit Group is also present in Germany (accounting for approximately 22% of the Group's revenues in 1H25), in Austria (accounting for approximately 10% of the Group's revenues), in Central & Eastern Europe (accounting for approximately 18% and covering Czech Republic and Slovakia, Hungary, Slovenia, Croatia, Bulgaria, Romania, Bosnia & Herzegovina and Serbia). UniCredit also has marginal activities in Russia (accounting for approximately 5% of the Group's revenues in 1H25). The exposure to which has been reduced (including over the first quarter of 2025), since the start of the Ukrainian crisis. The UniCredit Group's geographical spread will also continue to expose it to risks and uncertainties of a varying nature and magnitude affecting each of the various countries in which it operates and which could be more complex in relation to countries outside the European Union. Central and eastern European countries in particular have historically experienced volatile capital and foreign exchange markets, often coupled with political, economic and financial instability (at present potentially increased due to the Ukrainian crisis). The evolution of the geopolitical landscape remains under continuous monitoring by UniCredit, with current factors including recent and constantly evolving U.S. trade policy decisions, that could have potential implications on global trade relationships both with upsides (e.g. new trade partnerships) and downsides (e.g. impact on export/import) as possible outcomes. This area is at the early stage of evolution and potential impacts, if any, on UniCredit's primary geographies will be duly taken into account as part of the normal processes of the risk management framework. At the date of the Registration Document, the Issuer's presence in Russia exposes it to the specific risks connected to the ongoing Ukrainian crisis. Such risk exposure also requires the Issuer to constantly employ a significant amount of resources for the dynamic management of risks and ongoing assessment of the possible effects of the geopolitical crisis, while maintaining an overall prudent and sustainable approach to distributions. With regard to the assets and liabilities of Russian subsidiaries, the Group holds investments in Russia through AO UniCredit Bank and its subsidiaries OOO UniCredit Garant, and OOO UniCredit Leasing. The line-by-line consolidation determined the recognition of total assets for Euro 6,306 million vs. Euro 5,597 million as at 31 December 2024, mainly attributable to a change in financial assets at amortised cost for the application of the updated exchange rate.

As at 30 June 2025, the revaluation reserves, whose treatment envisages the recycling through P&L in case of derecognition of the associated assets and liabilities, are equal to Euro -2,624 million mainly arising from the foreign exchange revaluation reserve resulting from the conversion of assets and liabilities of these companies in EUR; the positive delta for Euro 697 million vs. year-end 2024 (Euro -3,321 million), is mainly due the appreciation of the Russian Ruble over the period.

As of 2Q2025 the loss of control over AO UniCredit Bank would determine the derecognition of net assets having a carrying value of Euro 6,426 million (also embedding the negative revaluation reserves), with a correspondent negative effect through P&L, in case the events leading to the derecognition would not envisage cash-in receivables; under a regulatory perspective over CET1 capital, the negative effect related to the revaluation Reserves (Euro -2,624 million) is basically neutral since it is already considered according to its nature and sign (also taking into account regulatory filters). In the first half 2025, the consolidated carrying value of AO UniCredit Bank has increased, as an effect of the results of the Bank and of the appreciation of the Russian Ruble. The extreme loss scenario impact on UniCredit CET1 ratio as of June 2025 is equal to -78bps or -88bps including impact from threshold deduction, if this were applicable at the time the event occurs.

Credit risk and risk of credit quality deterioration: The financial and capital strength, as well as the profitability of the UniCredit Group also depend on the creditworthiness of its customers. An unexpected change in the creditworthiness of a counterparty exposes the Group to the risk of a change in the value of the associated credit exposure, requiring it to be partially or totally written down. Such credit risk is inherent in, and material to, the traditional activity of providing credit. As at June 30, 2025, the value of the UniCredit Group's non-performing exposures ("NPEs") was equal to Euro 11.7 billion (with a gross NPE ratio of 2.6%), stable Y/Y; the stock of loan loss provisions ("LLPs") was equal to Euro 5.3 billion with a coverage ratio of 45.4%. As at June 30, 2025, the Group's net NPEs stood at Euro 6.4 billion (equal to 1.5% of total exposures of the Group). The UniCredit Group's CoR stood at 9 bps as at June 30, 2025 and Group's overlays on performing exposures was approximately Euro 1.7 billion. The UniCredit Group is also exposed to the non-

traditional counterparty credit risk arising in the context of negotiations of derivative contracts and repurchase transactions (repos) on a wide range of products if a counterparty becomes unable to fulfil its obligations towards the UniCredit Group.

Risks associated with the exposure of the UniCredit Group to sovereign debt: The book value of sovereign debt securities exposures of the UniCredit Group as at June 30, 2025 amounted to Euro 129,983 million (Euro 116,130 million as at December 31, 2024) of which more than 74% is concentrated in eight countries: Italy (Euro 47,626 million), Spain (Euro 17,252 million), Germany (Euro 8,148 million), France (Euro 7,842 million), Czech Republic (Euro 4,284 million), Austria (Euro 4,156 million), United States of America (Euro 4,023 million) and Romania (Euro 3,108 million). Worsening of the spread between the return on government bonds and risk-free benchmark rates, downgrading of a sovereign entity's rating might impact negatively the value of UniCredit's securities portfolio may be detrimental to the capital position and operating results of the Issuer, although there were no indications of defaults over the course of 2025. The Group's sovereign debt exposure to Russia (Euro 763 million, as of June 30, 2025) is almost totally held by the Russian controlled bank in local currency and accordingly classified in the banking book.

In addition to the exposures to sovereign debt securities, loans given to central and local governments and governmental bodies must be taken into account, amounting to Euro 27,617 million as at June 30, 2025 (as at 31 December 2024 it amounted to Euro 26,515 million).

Liquidity risk: The UniCredit Group is and will be exposed to the possibility of being unable to meet its current and future, anticipated and unforeseen cash payment and delivery obligations without impairing its day-to-day operations or financial position. The liquidity risks specific to the activities of UniCredit concern funding/market liquidity and mismatch/contingency risks. As of December 31, 2024, the Liquidity Coverage Ratio (LCR) of the UniCredit Group was equal to 144% whereas at December 31, 2023 it was equal to 154% (calculated as the average of the 12 latest end of month ratios). As of December 31, 2024, the Net Stable Funding Ratio (NSFR) was above 128%. The regulatory liquidity indicators as at June 30, 2025 were as follows: (i) LCR above 140%, (ii) preliminary NSFR above 125% and (iii) Loan to Deposit Ratio equal to 88%.

Risks associated with capital adequacy requirements: Following the results of the SREP 2024, capital requirements to be met by UniCredit involve a P2R at 200 bps (minimum of 1.13% as CET1 capital and 1.50% as Tier 1 capital), a leverage ratio (P2R-LR) of zero and no additional liquidity requirements. As of June 2025, UniCredit is required to keep: (i) OCR at 10.46% in terms of CET1, at 12.34% in terms of Tier 1, and at 14.84% in terms of Total Capital, and (ii) OLRR at 3% on a consolidated basis. As of June 30, 2025, consolidated CET1 Capital, Tier 1 and Total Capital ratios were equal to, respectively: 16.0%, 17.7% and 20.4%, while the LRE was 5.70%. All in all, the outcome of the 2024 SREP as summarized by the P2R is in line with previous years' assessment, and there are no other impacts stemming from that relating to 2024. Furthermore, following the communication received by the SRB and the Bank of Italy in April 2025, UniCredit is required to comply, on a consolidated basis, with: (i) MREL requirement equal to 22.18% of RWAs – plus the applicable Combined Buffer Requirement (the "CBR") – and 5.98% for Leverage Ratio Exposures ("LRE"); and subordinated MREL (i.e., to be met with subordinated instruments) equal to 14.49% of RWAs plus the applicable CBR – and 5.98% for the LRE.

Redemption as at the Final Payment Date

Provided that no Call Event and no Early Redemption Event (k) has occurred, the Securities will be redeemed on the Final Payment Date by payment of the Redemption Amount as follows:

- If no Barrier Event has occurred and a Final Redemption Event has occurred, the Redemption Amount corresponds to the Maximum Amount.
- If no Barrier Event has occurred and no Final Redemption Event has occurred, the Redemption Amount corresponds to the Final Redemption Amount.
- If a Barrier Event has occurred, the Redemption Amount corresponds to the Calculation Amount multiplied by the quotient of R (final) divided by the Strike. The Redemption Amount is not greater than the Calculation Amount.

Extraordinary termination right: Upon the occurrence of one or more call events (for example, if price quotation of the Underlying on the Relevant Exchange is suspended indefinitely or permanently discontinued and no Replacement Exchange is available or could be determined) (the "**Call Event**") the Issuer may call the Securities extraordinarily and redeem the Securities at their Cancellation Amount. The "**Cancellation Amount**" is their fair market value.

Adjustments to the Terms and Conditions: The Calculation Agent may adjust the Terms and Conditions of the Securities if an adjustment event (for example, each measure taken by the company that has issued the Underlying or by a third party which, as a result of a change in the legal and financial position, affects the Underlying) (the "**Adjustment Event**") occurs.

Status of the Securities: The obligations of the Issuer under the Securities constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer, ranking (subject to any obligations preferred by any applicable law (also subject to the bail-in instruments as implemented under Italian law)) *pari passu* with all other unsecured obligations (other than obligations ranking junior to the senior notes from time to time (including non-preferred senior notes and any further obligations permitted by law to rank junior to the senior notes following the Issue Date), if any) of the Issuer, present and future and, in the case of the senior notes, *pari passu* and rateably without any preference among themselves.

Where will the Securities be traded?

Admission to trading: No application for the Securities to be admitted to trading on a regulated market has been made.

Listing: Application to trading will be made with effect from 2 September 2025 on the following multilateral trading facilities (MTF): EuroTLX managed by Borsa Italiana S.p.A. ("**EuroTLX**")

UniCredit Bank GmbH (the "**Market Maker**") undertakes to provide liquidity in accordance with the market making rules of EuroTLX, where the Securities are expected to be traded. Moreover, the Market Maker undertakes to apply, in normal market conditions, a spread between bid and offer quotes not higher than 1.00%.

What are the key risks that are specific to the Securities?

Credit risk of the Issuer and risks in relation to resolution measures in relation to the Issuer: The Securities constitute unsecured obligations of the Issuer vis-a-vis the Security Holders. Any person who purchases the Securities therefore relies on the creditworthiness of the Issuer and has, in relation to his/her position under the Securities, no rights or claims against any other person. Security Holders are subject to the risk of a partial or total failure of the Issuer to fulfil obligations which the Issuer is liable to perform under the Securities in whole or in part, for example, in the event of the Issuer's insolvency. The worse the creditworthiness of the Issuer is the higher is the risk of a loss. In the case of realization of the credit risk of the Issuer the Security Holder may sustain a total loss of his/her capital, even if the Securities provide for a Minimum Amount at their maturity. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail. The obligations of the Issuer under the Securities are not secured, guaranteed by third parties or protected by any deposit protection or compensation scheme.

Risks related to market value-influencing factors: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to sell the Securities at a specific time or for a specific price. The market value of the Securities will be affected by a number of factors. These are inter alia the creditworthiness of the Issuer, the relevant prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability and, if applicable, the remaining term of the Securities as well as additional Underlying-related market value-influencing factors. The market value of the Securities as well as the amounts distributable under the Securities primarily depend on the price of the Underlying.

Risks related to the Redemption Amount: The Redemption Amount may be less than the Issue Price or the purchase price or even be zero. This means, the Security Holder only achieves a return if the Redemption Amount exceeds the individual purchase price of the Security Holder. A participation in a favourable performance of the Underlying beyond the Maximum Amount is excluded. **A total loss is possible.**

Risks related to a Barrier Event: If a Barrier Event occurs, a more advantageous pay-out formula will be disappplied. In any case the Security Holder may lose his invested capital in total or in part.

Risks arising from missing ongoing payments: The Securities do not bear interest or grant any other conditional or unconditional rights for ongoing payments which could compensate possible losses of principal.

Risks related to an Automatic Early Redemption: If an Early Redemption Event occurs, the Security Holder will neither participate in any future favourable performance of the Underlying nor be entitled to further payments under the Securities after an early redemption. In addition, the Security Holders are exposed to the risk that they may only reinvest the principal received due to an early repayment of the Securities to less favourable conditions.

Risks related to shares: The Securities are associated with similar risks for the Security Holders as in case of a direct investment in the shares specified as Underlying. The price of a share can fall sharply or it can become worthless, e.g. due to the insolvency of the issuer of the share.

Risks related to potential conflicts of interests: Conflicts of interest in relation to the relevant Issuer or the persons entrusted with the offer may arise, which may result in a decision to the Security Holder's disadvantage.

Quali sono i principali rischi specifici dell'Emittente?

I potenziali investitori devono essere consapevoli che, qualora si verifichi uno dei seguenti fattori di rischio, il valore degli Strumenti Finanziari potrebbe ridursi con la conseguente perdita totale del capitale investito. I seguenti rischi sono i principali rischi specifici dell'Emittente:

Rischi connessi alle attività del Gruppo UniCredit in diverse aree geografiche: Nonostante il business del Gruppo sia sostanzialmente legato all'Italia e, quindi, allo stato della sua economia (l'Italia rappresenta circa il 44% dei ricavi del Gruppo nel 1H25, calcolati come somma di Italia, Germania, Austria, Europa Centrale ed Orientale e Russia), il Gruppo UniCredit è presente anche in Germania (che rappresenta circa il 22% dei ricavi del Gruppo nel 1H25), in Austria (con una quota di circa il 10% dei ricavi del Gruppo), in Europa centrale ed orientale (con una quota di circa il 18% e comprendente Repubblica Ceca e Slovacchia, Ungheria, Slovenia, Croazia, Bulgaria, Romania, Bosnia-Erzegovina e Serbia). UniCredit ha anche attività marginali in Russia (circa il 5% dei ricavi del Gruppo nel 1H25). L'esposizione è stata ridotta (anche nel corso del primo trimestre 2025) dall'inizio della crisi ucraina. La diffusione geografica del Gruppo UniCredit continuerà inoltre a esporlo a rischi e incertezze di varia natura e portata che interessano ciascuno dei vari paesi in cui opera e che potrebbero essere più complessi in relazione ai paesi al di fuori dell'Unione Europea. I paesi dell'Europa centrale e orientale, in particolare, hanno storicamente sperimentato mercati dei capitali e dei cambi volatili, spesso associati a instabilità politica, economica e finanziaria (attualmente potenzialmente aumentata a causa della crisi ucraina). L'evoluzione del panorama geopolitico è costantemente monitorata da UniCredit, con fattori attuali che includono le recenti decisioni in continua evoluzione della politica commerciale statunitense, che potrebbero avere potenziali implicazioni sulle relazioni commerciali globali sia con aspetti positivi (ad esempio, nuove partnership commerciali) che negativi (ad esempio, impatto su esportazioni/importazioni) come possibili risultati. Quest'area è nella fase iniziale di evoluzione e i potenziali impatti, se ve ne sono, sulle principali aree geografiche di UniCredit saranno debitamente presi in considerazione nell'ambito dei normali processi del framework relativo alla gestione del rischio. Alla data del Documento di Registrazione, la presenza dell'Emittente in Russia lo espone ai rischi specifici connessi alla crisi ucraina in corso. Tale esposizione al rischio richiede inoltre che l'Emittente impieghi costantemente una quantità significativa di risorse per la gestione dinamica dei rischi e la valutazione continua dei possibili effetti della crisi geopolitica, mantenendo un approccio complessivamente prudente e sostenibile alle distribuzioni. Con riferimento alle attività e alle passività delle controllate russe, Il Gruppo detiene partecipazioni in Russia attraverso AO UniCredit Bank e le sue controllate OOO UniCredit Garant e OOO UniCredit Leasing.

Il consolidamento integrale ha determinato la rilevazione di un totale attivo per Euro 6.306 milioni rispetto a Euro 5.597 milioni al 31 dicembre 2024, principalmente attribuibile alla variazione delle attività finanziarie al costo ammortizzato per l'applicazione del tasso di cambio aggiornato. Al 30 giugno 2025, le riserve di valutazione, il cui trattamento prevede il rigiro a Conto economico, in caso di cancellazione contabile delle relative attività e passività, sono pari a Euro -2.624 milioni derivanti principalmente dalla riserva oscillazione cambi risultante dalla conversione di attività e passività di queste società in euro; la variazione positiva per Euro 697 milioni rispetto a fine anno 2024 (Euro -3.321 milioni) è principalmente dovuta all'apprezzamento del rublo durante il periodo.

Al 2Q2025 la perdita di controllo su AO UniCredit Bank determinerebbe la cancellazione contabile di patrimonio netto avente un valore di bilancio pari a Euro 6.426 milioni (che include anche le riserve di valutazione negative), con conseguente impatto negativo di Conto economico, nel caso in cui gli eventi che determinano la *derecognition* non prevedano il pagamento di un prezzo; da un punto di vista regolamentare l'impatto negativo sul CET1 relativo alla riserva di valutazione (Euro -2.624 milioni) è sostanzialmente neutrale in quanto è già considerato in base alla sua natura e al suo segno (anche tenendo in considerazione i filtri regolamentari). Nel primo semestre 2025, il valore contabile consolidato di AO UniCredit Bank è aumentato, per effetto dei risultati della Banca e dell'apprezzamento del rublo russo. L'impatto dello scenario di perdita estrema sul coefficiente CET1 di UniCredit a giugno 2025 è pari a -78 punti base o -88 punti base includendo l'impatto della deduzione della soglia, se applicabile al momento del verificarsi dell'evento.

Rischio di credito e rischio di deterioramento della qualità del credito: La solidità finanziaria e patrimoniale, nonché la redditività del Gruppo UniCredit dipendono anche dall'affidabilità creditizia dei propri clienti. Un cambiamento inatteso nell'affidabilità creditizia di una controparte espone il Gruppo al rischio di una variazione del valore dell'esposizione creditizia associata, che richiede una svalutazione parziale o totale. Tale rischio di credito è intrinseco e rilevante per l'attività tradizionale di erogazione del credito. Al 30 giugno 2025, il valore delle esposizioni non performing ("NPE") del Gruppo UniCredit era pari a 11,7 miliardi di euro (con un NPE ratio lordo del 2,6%), stabile A/A; lo stock di accantonamenti per perdite su crediti ("LLPs") su esposizioni non performing era pari a 5,3 miliardi di euro con un coverage ratio del 45,4%. Al 30 giugno 2025, le esposizioni non performing nette del Gruppo erano pari a 6,4 miliardi di euro (pari all'1,5% delle esposizioni totali del Gruppo). Il CoR del Gruppo UniCredit si è attestato a 9 punti base al 30 giugno 2025 e gli overlay sulle esposizioni performing di Gruppo ammontavano a circa 1,7 miliardi di euro. Il Gruppo UniCredit è inoltre esposto al rischio di credito di controparte non tradizionale derivante dalla negoziazione di contratti derivati e di operazioni di riacquisto (pronti contro termine) su un'ampia gamma di prodotti, nel caso in cui una controparte non sia in grado di adempiere ai propri obblighi nei confronti del Gruppo UniCredit.

Rischi connessi all'esposizione del Gruppo UniCredit al debito sovrano: Il valore contabile delle esposizioni in titoli di debito sovrano del Gruppo UniCredit al 30 giugno 2025 ammontava a 129.983 milioni di euro (116.130 milioni di euro al 31 dicembre 2024), di cui oltre il 74% è concentrato in otto paesi: Italia (47.626 milioni di euro), Spagna (17.252 milioni di euro), Germania (8.148 milioni di euro), Francia (7.842 milioni di euro), Repubblica Ceca (4.284 milioni di euro), Austria (4.156 milioni di euro), Stati Uniti d'America (4.023 milioni di euro) e Romania (3.108 milioni di euro). Il peggioramento dello spread tra il rendimento dei titoli di Stato e i tassi di riferimento privi di rischio, il declassamento del rating di un'entità sovrana potrebbero influire negativamente sul valore del portafoglio titoli di UniCredit e potrebbero avere un impatto negativo sulla posizione patrimoniale e sui risultati operativi dell'Emittente, sebbene nel corso del 2025 non vi siano state indicazioni di casi di inadempienza. L'esposizione del Gruppo al debito sovrano della Russia (763 milioni di euro al 30 giugno 2025) è quasi interamente detenuta dalla banca controllata russa in valuta locale e pertanto classificata nel portafoglio bancario.

Alle esposizioni Sovrane in titoli di debito vanno altresì aggiunti i finanziamenti erogati a governi centrali e locali e agli enti governativi, pari a 27.617 milioni di euro al 30 giugno 2025 (26.515 milioni di euro al 31 dicembre 2024).

Rischio di liquidità: Il Gruppo UniCredit è e sarà esposto alla possibilità di non essere in grado di far fronte ai suoi obblighi di pagamento e consegna in contanti attuali e futuri, previsti e imprevisi, senza compromettere le sue operazioni quotidiane o la sua posizione finanziaria. I rischi di liquidità specifici delle attività di UniCredit riguardano la liquidità di finanziamento/mercato e i rischi di disallineamento/contingenza. Al 31 dicembre 2024, il Liquidity Coverage Ratio (LCR) del Gruppo UniCredit era pari al 144%, mentre al 31 dicembre 2023 era pari al 154% (calcolato come media dei 12 ultimi rapporti di fine mese). Al 31 dicembre 2024, il Net Stable Funding Ratio (NSFR) era superiore al 128%. Gli indicatori regolamentari di liquidità al 30 giugno 2025 erano i seguenti: (i) LCR superiore al 140%, (ii) NSFR preliminare superiore al 125% e (iii) Loan to Deposit Ratio pari all'88%.

Rischi connessi all'adeguatezza patrimoniale: In base ai risultati dello SREP 2024, i requisiti patrimoniali che UniCredit deve soddisfare prevedono un P2R a 200 bps (minimo dell'1,13% come capitale CET1 e dell'1,50% come capitale Tier 1), un coefficiente di leva finanziaria (P2R-LR) pari a zero e nessun requisito di liquidità aggiuntivo. A giugno 2025, UniCredit è tenuta a mantenere: (i) OCR al 10,46% in termini di CET1, al 12,34% in termini di Tier 1 e al 14,84% in termini di capitale totale, e (ii) OLRR al 3% su base consolidata. Al 30 giugno 2025, i coefficienti consolidati di CET1, Tier 1 e capitale totale erano pari, rispettivamente, a: 16,0%, 17,7% e 20,4%, mentre l'LRE era pari al 5,70%. Nel complesso, il risultato dello SREP 2024, come sintetizzato dal P2R, è in linea con la valutazione degli anni precedenti e non vi sono altri impatti derivanti da quello relativo al 2024. Inoltre, a seguito della comunicazione ricevuta dal SRB e dalla Banca d'Italia nell'aprile 2025, UniCredit è tenuta a rispettare, su base consolidata, i seguenti requisiti: (i) un requisito MREL pari al 22,18% delle RWAs – più il Requisito Combinato di Riserva (Combined Buffer Requirement, "CBR") applicabile – e al 5,98% delle esposizioni per il coefficiente di leva finanziaria (Leverage Ratio Exposure, "LRE"); nonché un requisito MREL subordinato (cioè da soddisfare con strumenti subordinati) pari al 14,49% delle RWA più il CBR applicabile – e al 5,98% delle LRE.

Sezione 3 – Informazioni fondamentali sui Titoli

Quali sono le principali caratteristiche dei Titoli?

Tipologia di Prodotto, Sottostante e forma dei Titoli

Tipo di Prodotto: Titoli Express (Express Securities) (con Liquidazione in Contanti) (Titoli Non-Quanto)

Sottostante: Engie SA (ISIN: FR0010208488 / Prezzo di Riferimento: Prezzo di chiusura)

I Titoli sono regolati dalla legge italiana. I Titoli sono strumenti di debito in forma dematerializzata ai sensi del Testo Unico in materia di intermediazione finanziaria (Testo Unico della Finanza). I Titoli saranno rappresentati mediante scrittura contabile registrate sul sistema di contabilizzazione del Sistema di Compensazione (Clearing System). Il trasferimento dei Titoli avviene mediante registrazione sui relativi conti accessi presso il Sistema di Compensazione. Il codice internazionale di identificazione dei Titoli (International Securities Identification Number - ISIN) è indicato nella Sezione 1.

Emissione e Durata

I Titoli saranno emessi il 26/08/2025 in Euro (EUR) (la "Valuta Specifica") fino a 200.000 Certificati. I Titoli hanno una durata definita.

Generale

Il valore dei Titoli durante la loro vita dipende principalmente dal prezzo del Sottostante. In linea di principio, il valore dei Titoli sale se il prezzo del Sottostante sale e scende se il prezzo del Sottostante scende.

Interessi

I Titoli non maturano interessi.

Rimborso

Rimborso Anticipato Automatico

A condizione che nessun Evento di Riscatto si sia verificato, i Titoli prevedono un rimborso anticipato automatico al relativo Importo di Rimborso Anticipato (k) alla rispettiva Data di Pagamento Anticipato (k), se sia verificato un Evento di Rimborso Anticipato (k).

Si verifica un Evento di Rimborso Anticipato (k), se R (k) ad una Data di Osservazione di Rimborso Anticipato (k) è pari o superiore al rispettivo Livello di Rimborso Anticipato (k).

Rimborso alla Data di Pagamento Finale

A condizione che nessun Evento di Riscatto e nessun Evento di Rimborso Anticipato (k) si sia verificato, i Titoli verranno rimborsati alla Data di Pagamento Finale con il pagamento dell'Importo di Rimborso come segue:

- Se non si è verificato alcun Evento Barriera e si è verificato un Evento di Rimborso Finale, l'Importo di Rimborso corrisponde all'Importo Massimo.
- Se non si è verificato alcun Evento Barriera e non si è verificato un Evento di Rimborso Finale, l'Importo di Rimborso corrisponde all'Importo di Rimborso Finale.

Diritto di riscatto straordinario: Al ricorrere di uno o più eventi di riscatto (ad esempio, se la quotazione del prezzo del Sottostante sul Relativo Mercato (*Relevant Exchange*) è sospesa in modo indefinito o interrotta in modo permanente e non è disponibile o poteva essere determinato alcun Mercato Sostitutivo (*Replacement Exchange*)) (l'"Evento di Riscatto") l'Emittente può riscattare in via straordinaria i Titoli e rimborsare i Titoli al loro Importo di Riscatto. L'"Importo di Riscatto" è il valore equo di mercato di questi ultimi.

Rettifiche dei Termini e delle Condizioni dei Titoli: L'Agente di Calcolo potrà rettificare i Termini e le Condizioni dei Titoli qualora si verifichi un evento di rettifica (ad esempio, ciascuna misura adottata dalla società che ha emesso il Sottostante o da una terza parte che, come conseguenza di un cambiamento nella posizione giuridica e finanziaria, influenza il Sottostante) (l'"Evento di Rettifica").

Stato dei Titoli: Gli obblighi dell'Emittente derivanti dai Titoli costituiscono obbligazioni dirette, incondizionate, non subordinate e non garantite dell'Emittente, avranno pari priorità nell'ordine dei pagamenti (fatte salve le obbligazioni privilegiate da qualsiasi legge applicabile (anche soggette allo strumento del bail-in, come implementato ai sensi della legge italiana)) rispetto a tutte le altre obbligazioni non garantite dell'Emittente e ad ogni altro obbligo presente e futuro, non garantito e non subordinato, dell'Emittente (salvo, quando previsto, le obbligazioni junior rispetto alle obbligazioni senior (incluse le obbligazioni senior non privilegiate e le eventuali ulteriori obbligazioni junior, rispetto a obbligazioni senior, consentite dalla legge successivamente alla Data di Emissione), ove previste).

Dove saranno negoziati i Titoli?

Ammissione alla negoziazione: Non è stata presentata l'istanza per l'ammissione a negoziazione dei Titoli presso un mercato regolamentato.

Quotazione: Sarà presentata istanza per l'ammissione a quotazione dei Titoli con efficacia dal 02/09/2025, presso i seguenti sistemi multilaterali di negoziazione (MTF): EuroTLX gestito da Borsa Italiana S.p.A. ("EuroTLX")

UniCredit Bank GmbH (il "**Market Maker**") si impegna a fornire liquidità in conformità alle norme sul *market making* di EuroTLX, dove ci si attende che i Titoli saranno negoziati. Inoltre, il Market Maker si impegna ad applicare, in condizioni normali di mercato, uno spread tra le quotazioni denaro e lettera non superiore all'1%.

Quali sono i principali rischi specifici dei Titoli?

Rischio di Credito dell'Emittente e rischi relativi alle misure di risoluzione che riguardano l'Emittente: I Titoli costituiscono obbligazioni non garantite dell'Emittente nei confronti dei Titolari. Pertanto, chiunque li acquisti è soggetto al merito creditizio dell'Emittente e non ha, in relazione alla propria posizione nell'ambito dei Titoli, alcun diritto o pretesa nei confronti di qualsiasi altra persona. I Titolari sono sottoposti al rischio di una parziale o totale inadempienza dell'Emittente per gli obblighi che il medesimo è tenuto ad adempiere in tutto o in parte ai sensi dei Titoli, ad esempio in caso di insolvenza. Peggiora la solvibilità dell'Emittente, maggiore è il rischio di perdita. Qualora il rischio di credito dell'Emittente si realizzi, il Titolare può subire una perdita totale del proprio capitale, anche se i Titoli prevedono un Importo Minimo alla loro scadenza. Inoltre, i Titolari possono essere soggetti a misure di risoluzione nei confronti dell'Emittente qualora il medesimo è in fallimento o a rischio di fallimento. Gli obblighi dell'Emittente ai sensi dei Titoli non sono garantiti, garantiti da terzi o protetti da un sistema di protezione dei depositi o di compensazione.

Rischi correlati a fattori che influenzano il valore di mercato: I Portatori dei Titoli sono esposti al rischio di forti fluttuazioni del prezzo di mercato dei Titoli nel corso della loro durata nonché al rischio di non poter vendere i Titoli in un determinato momento o ad un determinato prezzo. Il valore di mercato dei Titoli sarà condizionato da una serie di fattori. Questi sono, inter alia, il merito creditizio dell'Emittente, i relativi tassi di interesse e di rendimento prevalenti, il mercato per titoli simili, le condizioni economiche generali, politiche e cicliche, la negoziabilità e, se del caso, la durata residua dei Titoli nonché ulteriori fattori relativi al Sottostante che influenzano il valore di mercato. Tanto il valore di mercato quanto gli importi pagabili ai sensi dei Titoli dipendono principalmente dal prezzo del Sottostante.

Rischi correlati all'Importo di Rimborso: L'Importo di Rimborso potrebbe essere inferiore al Prezzo di Emissione o al Prezzo di Acquisto o anche zero. Ciò significa che il Titolare otterrà un rendimento solo se l'Importo di Rimborso sarà superiore allo specifico prezzo di acquisto pagato dal Titolare. È esclusa

la partecipazione ad una performance favorevole del Sottostante oltre l'Importo Massimo. **Una perdita totale è possibile.**

Rischio correlato a un Evento Barriera: Se si verifica un Evento Barriera, non verrà applicata una formula di pagamento più vantaggiosa. In ogni caso, il Titolare potrebbe perdere il proprio capitale investito integralmente o in parte.

Rischi derivanti dal mancato pagamento di importi nel corso della durata dei Titoli: I Titoli non sono soggetti a interessi e non garantiscono diritti - condizionati o non condizionati - per il pagamento degli importi nel corso della durata dei Titoli che possano compensare eventuali perdite di capitale.

Rischi correlati a un Rimborso Anticipato Automatico: Se si verifica un Evento di Rimborso Anticipato, il Titolare non beneficerà di alcuna futura performance favorevole del Sottostante, né avrà diritto ad ulteriori pagamenti derivanti dei Titoli dopo un rimborso anticipato. Inoltre, i Titolari sono esposti al rischio di poter reinvestire il capitale ricevuto a causa di un rimborso anticipato dei Titoli solo a condizioni meno favorevoli.

Rischi connessi ad azioni: I Titoli sono associati a rischi per i Titolari simili a quelli di un investimento diretto nelle azioni specificate come Sottostante. Il prezzo di un'azione può diminuire notevolmente o può diventare di nessun valore, ad esempio a causa dell'insolvenza dell'emittente dell'azione.

Rischi legati a potenziali conflitti di interesse: Possono insorgere conflitti di interesse relativi all'Emittente o ai soggetti incaricati dell'offerta che possono determinare decisioni svantaggiose per i Titolari dei Titoli.
