

FINAL VERSION APPROVED BY THE ISSUER

MiFID II product governance / Retail investors, professional investors and ECPs only target market – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Securities, taking into account the five categories in item 19 of the Guidelines published by the European Securities and Markets Authority ("ESMA") on 3 August 2023, has led to the conclusion that: (i) the target market for the Securities is eligible counterparties, professional clients and retail clients, each as defined in Directive 2014/65/EU (as amended, "**MiFID II**"); and (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Securities to retail clients are appropriate – investment advice, portfolio management, and non-advised sales, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable. Responsibility

The Issuer accepts responsibility for the information contained in these Final Terms. To the best of the knowledge of the Issuer (who has taken all reasonable care to ensure that such is the case), the information contained herein is in accordance with the facts and does not omit anything likely to affect the import of such information.

PART B - OTHER INFORMATION

1. Listing and Admission to trading - De listing

Application will be made for the Securities to be admitted to trading on the Multilateral Trading Facility EuroTLX (managed by Borsa Italiana S.p.A.). The Issuer is not a sponsor of, nor is it responsible for the admission and trading of the Securities on the EuroTLX and no assurance can be given that any such application will be successful.

2. Ratings

Ratings:

The Securities have not been rated.

The long-term credit rating of the Issuer is A+ from S&P Global Ratings Europe Limited ("**Standard & Poor's**").

The long-term credit rating of the Guarantor is A1 from Moody's and A+ from Standard & Poor's.

As defined by Moody's, an "A" rating means that the obligations of the Issuer and the Guarantor under the Programme are judged to be upper-medium grade and are subject to low credit risk. Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aaa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category.

As defined by Standard & Poor's, an obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the relevant Issuer and Guarantor's capacity to meet its financial commitment on the obligation is still strong. The addition of a plus (+) or minus (-) sign shows relative standing within the major rating category.

Standard & Poor's is established in the European Union and is registered under Regulation (EC) No. 1060/2009 (as amended) (the "**CRA Regulation**"). Moody's is not established in the European Union and has not applied for registration under the CRA Regulation. The ratings issued by Moody's have been endorsed by Moody's France SAS in accordance with the CRA Regulation. Moody's France SAS is established in the European Union and registered under the CRA Regulation.

3. Interests of Natural and Legal Persons Involved in the Offer

Investors shall be informed of the fact that Deutsche Bank S.p.A.. (the "**Distributor**") will receive from the Issuer placement fees implicit in the Issue Price of the Securities equal to a maximum amount of 2,5% (all tax included) of the issue amount. All placement fees will be paid out upfront.

Investors must also consider that such fees are not included in the price of the Securities on the secondary market and, therefore, if the Securities are sold on the secondary market, fees embedded in the Issue Price will be deducted from the sale price.

Save as discussed in the "*Potential Conflicts of Interest*" paragraph in the "*Risks*" in the Base Prospectus, so far as the Issuer is aware, no person involved in the offer of the Securities has an interest material to the offer.

4. Reasons for the Offer, Estimated Net Proceeds and Total Expenses

On each Conditional Coupon Payment Date, you will receive a cash amount equal to the sum of the Conditional Coupon Daily Amounts recorded each business day during the relevant Conditional Coupon Observation Period.

The Conditional Coupon Daily Amount, in respect of a business day during any Conditional Coupon Observation Period, is calculated as the Coupon Percentage multiplied by the Remaining Amount and divided by the number of business days in the relevant Conditional Coupon Observation Period.

The Remaining Amount, in respect of a business day during any Conditional Coupon Observation Period, is equal to 70% of the Notional Amount *minus* 17.5% multiplied by the number of Barrier Events that have occurred up to that business day. By way of example only, on the occurrence of the Barrier Event₂ (which assumes that Barrier Event₁ has also occurred), the Remaining Amount becomes 35% (=70% - 17.5% x 2) of the Notional Amount as of the business day immediately following the business day on which the Barrier Event₂ occurs.

If, prior to the start of any Conditional Coupon Observation Period, all Barrier Events have occurred, no Conditional Coupon will be paid on the corresponding Conditional Coupon Payment Date.

Where:

■ The Barrier Event_i (with i = 1, 2, 3 and 4) occurs if the closing price of the Underlying, observed daily, from the Strike Date (excluded) to the Redemption Valuation Date (included) is equal or lesser than the Barrier Level_i (with i = 1, 2, 3 and 4 as applicable).

- Barrier Level₁: 95% of the Initial Reference Price of the Underlying
- Barrier Level₂: 90% of the Initial Reference Price of the Underlying.
- Barrier Level₃: 85% of the Initial Reference Price of the Underlying.
- Barrier Level₄: 80% of the Initial Reference Price of the Underlying.

■ The Enhanced Performance_i (with i = 1, 2, 3 and 4) of the Underlying is the difference between its Final Reference Price and the Barrier Level_i, divided by the Barrier Level_i.

■ The Performance of the Underlying is equal to the difference its Final Reference Price and its Initial Reference Price, divided by its Initial Reference Price.

■ Coupon Percentage: 5.80%

■ The Conditional Coupon Observation Period is the period between the Start Date of the Conditional Coupon Observation Period (included) and the End Date of the Conditional Coupon Observation Period (included) corresponding to the Conditional Coupon Payment Dates.

■ The Initial Reference Price is the closing price of the Underlying on the Strike Date.

Most material risk factors pertaining to the guarantor

3. The BNP Paribas Group may incur significant losses on its trading and investment activities due to market fluctuations and volatility
4. The BNP Paribas Group's access to and cost of funding could be adversely affected by a resurgence of financial crises, worsening economic conditions, rating downgrades, increases in sovereign credit spreads or other factors

What are the key risks that are specific to the securities?

Most material risk factors specific to the securities

There are also risks associated with the Securities, including:

1. Risks related to the structure of the securities:

The return on the securities depends on the performance of the Underlying Reference(s) and investors may be exposed to a partial or total loss of their investment

2. Risks related to the underlying and its disruption and adjustments:

Index Securities are linked to the performance of an underlying index (an "Index"), which may reference various asset classes such as, equities, bonds, currency exchange rates or property price data, or could reference a mixture of asset classes. Investors in Index Securities face the risk of a broader set of circumstances that mean that the assets underlying the Index do not perform as expected compared to an investment in conventional debt securities. Accordingly, the return on an investment in Index Securities is more likely to be adversely affected than an investment in conventional debt securities. Exposure to indices, adjustment events and market disruption or failure to open of an exchange may have an adverse effect on the value and liquidity of the Securities.

3. Risks related to the trading markets of the securities:

The trading price of the Securities may be affected by a number of factors including, but not limited to, the relevant price, value or level of the Underlying Reference(s), the time remaining until the scheduled redemption date of the Securities, the actual or implied volatility associated with the Underlying Reference(s) and the correlation risk of the relevant Underlying Reference(s). The possibility that the value and trading price of the Securities will fluctuate (either positively or negatively) depends on a number of factors, which investors should consider carefully before purchasing or selling Securities.

4. Legal risks:

The terms of the Securities will contain provisions for calling meetings of holders of such Securities to consider matters affecting their interests generally. These provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

Premio/i Condizionato/i: è previsto il versamento di un premio condizionato (il "Premio Condizionato") alla/a ogni Data di Pagamento del Premio Condizionato, relativo al corrispondente Periodo di Osservazione del Premio Condizionato. A ogni Data di Pagamento del Premio Condizionato riceverete un importo in contanti pari alla somma degli Importi Giornalieri del Premio Condizionato registrati ogni giorno lavorativo durante il relativo Periodo di Osservazione del Premio Condizionato.

L'Allocazione Rimanente, rispetto a un giorno lavorativo durante qualsiasi Periodo di Osservazione del Premio Condizionato, è **pari al 70%** dell'Importo Nozionale diminuito di un importo commisurato al 17.5% moltiplicato per il numero di Eventi Barriera verificatisi in quel giorno lavorativo. Quali sono i principali rischi specifici dei titoli?

Fattori di rischio più significativi specifici dei titoli

Esistono anche rischi relativi ai Titoli, compresi:

1. Rischio relativo alla struttura dei Titoli:

Il rendimento dei Titoli dipende dall'andamento dell/i Sottostante/i di Riferimento e dall'applicazione delle clausole di Knock-in o Knock-out. I Prodotti di tipo *auto-callable* includono un meccanismo di rimborso anticipato automatico. Sulla base della formula applicabile, in caso si verificasse un evento di rimborso anticipato automatico, gli investitori potrebbero essere esposti a una perdita parziale dell'investimento. Gli investitori possono essere esposti a una perdita parziale o totale dell'investimento.

2. Rischio relativo al Sottostante e a eventi di turbativa e rettifica:

A differenza di un investimento diretto in una o più Azione/i, una o più Azione/i Stapled, GDR e/o ADR dell/i Sottostante/i di Riferimento (in seguito denominate congiuntamente la/e "Azione/i"), un investimento in Titoli legati ad Azioni non autorizza i Portatori dei Titoli a votare o ricevere dividendi o distribuzioni (salvo diversamente specificato nelle Condizioni Definitive). Di conseguenza, il rendimento dei Titoli Azionari non sarà lo stesso di un investimento diretto nella/e Azione/i pertinente/i e potrebbe essere inferiore a un investimento diretto.

L'esposizione alle azioni, rischi di mercato simili a un investimento diretto in azioni, eventi di rettifica o eventi straordinari e di turbativa sul mercato o la mancata di apertura di un mercato azionario (borsa) possono avere un effetto negativo sul prezzo e la liquidità dei Titoli.

3. Rischi relativi ai mercati di negoziazione dei Titoli:

Il prezzo di negoziazione dei Titoli può essere influenzato da una serie di fattori tra cui, a titolo esemplificativo ma non esaustivo, il prezzo, il valore o il livello dell/i Sottostante/i di Riferimento, il tempo rimanente fino alla data di liquidazione/rimborso dei Titoli, la volatilità implicita o realizzata associata all/i Sottostante/i di Riferimento e al rischio di correlazione dell/i Sottostante/i di Riferimento. La possibilità che il prezzo di negoziazione dei Titoli fluttui (positivamente o negativamente) dipende da una serie di fattori che gli investitori dovranno considerare attentamente prima di acquistare o vendere i Titoli.

4. Rischi legali

Le condizioni dei Titoli conterranno disposizioni per la convocazione di assemblee dei Portatori di tali Titoli per valutare questioni che riguardano i loro interessi. Tali disposizioni consentono a maggioranze predefinite di vincolare tutti i Portatori, inclusi i Portatori che non hanno partecipato o votato all'assemblea in questione e i Portatori che hanno votato in modo contrario rispetto alla maggioranza.
