Under the Debt Instruments Issuance Programme (the **Programme**), each of Société Générale, SG Issuer, SG Option Europe and SGA Société Générale Acceptance N.V. (each an **Issuer** and together the **Issuers**) may from time to time issue Notes (the **Notes** such definition to include CDIs, as defined below, where applicable) denominated in any currency agreed by the Issuer of such Notes (the **relevant Issuer**) and the relevant Purchaser(s) (as defined below).

When securities to be issued pursuant to this Base Prospectus are qualified as "certificates" (such expression including the Italian Certificates, as defined in the section headed "*Terms and Conditions of the English Law Notes and the Uncertificated Notes*"), any reference in the relevant section of this Base Prospectus and in the applicable Final Terms to "**Notes**" and "**Noteholders**" shall be deemed to be a reference to "**Certificates**" and "**Certificateholders**".

Notes issued under the Programme may either be unsecured (**Unsecured Notes**) or secured (**Secured Notes**), as specified in the applicable Final Terms and as further described herein.

Payments in respect of Notes issued by SG Issuer, SG Option Europe or SGA Société Générale Acceptance N.V. will be unconditionally and irrevocably guaranteed by Société Générale (the **Guarantor**).

Subject as set out herein, the Notes will not be subject to any minimum or maximum maturity.

The Notes will be issued on a continuing basis to one or more of the Dealers specified in the "*General Description of the Programme*" and any additional dealer appointed under the Programme from time to time (each a **Dealer** and together the **Dealers**). Notes may also be issued to third parties other than Dealers. Dealers and such third parties are referred to as **Purchasers**. The terms and conditions of the English Law Notes (the **English Law Notes**) and the Uncertificated Notes (the **Uncertificated Notes**) are set out herein in the section headed "*Terms and Conditions of the English Law Notes and the Uncertificated Notes*" and the terms and conditions of the French Law Notes (the **French Law Notes**) are set out herein in the section headed "*Terms and Conditions of the French Law Notes*".

English Law Notes may be issued in bearer form (**Bearer Notes**, which include Bearer SIS Notes (as defined in the section headed "*Terms and Conditions of the English Law Notes and the Uncertificated Notes*") or registered form (**Registered Notes**) or in uncertificated form (**EUI Notes**) or as Uncertificated SIS Notes (as defined in the section headed "*Terms and Conditions of the English Law Notes and the Uncertificated Notes*"). Bearer Notes and Registered Notes may be represented by one or more Global Notes (as defined in the section headed "*Terms and Conditions of the English Law Notes and the Uncertificated Notes*").

Bearer Notes (other than Bearer SIS Notes) will be deposited with a common depository (**Common Depository**) or, in the case of new global notes (**New Global Notes** or **NGN**), a common safekeeper (**Common Safekeeper**) on behalf of Euroclear Bank S.A./N.V. as operator of the Euroclear System (**Euroclear**) and Clearstream Banking, société anonyme (**Clearstream, Luxembourg**). Bearer SIS Notes (certified in a Permanent Global SIS Note) will be deposited with the Swiss securities services corporation SIX SIS Ltd (**SIS**) or any other intermediary in Switzerland recognised for such purposes by SIX Swiss Exchange Ltd (**SIX Swiss Exchange**).

Uncertificated Notes shall include Uncertificated Nordic Notes, Uncertificated SIS Notes and EUI Notes (all as defined and further described in the section headed "*Form of the Notes*"). Uncertificated Notes will be issued in uncertificated and dematerialised book-entry form, in each case, as more fully set out in "*Form of the Notes*" herein. Noteholders may hold EUI Notes through Euroclear UK & Ireland Limited (formerly known as CRESTCo Limited) (such clearing system, **EUI**) either directly (**CREST Notes**) or through the issuance of CREST Depository Interests (such securities, **CDIs**) representing underlying Notes (CREST Notes and CDIs together to be known as EUI Notes). CDIs are independent securities constituted under English law and transferred through CREST. CDIs will be issued by CREST Depository Limited pursuant to a global deed poll dated 25 June 2001 (as subsequently modified, supplemented and/or restated, the **CREST Deed Poll**), as all more fully described in the section headed Book Entry Clearance Systems. French Law Notes (as defined below) may be issued in dematerialised form or materialised form.

English Law Notes and French Law Notes will constitute *obligations* under French law, within the meaning of Article L.213-5 of the French *Code monétaire et financier*, if so specified in the applicable Final Terms.

Application has been made to the *Commission de Surveillance du Secteur Financier* (the **CSSF**) in its capacity as competent authority under the *loi relative aux prospectus pour valeurs mobilières* dated 10 July 2005, as amended, which implements the Prospectus Directive (the **Luxembourg Act**) to approve this document as a base prospectus. Such application does not extend to money market instruments (as defined in the Prospectus Directive) having a maturity of less than one year. By approving this Base Prospectus, the CSSF gives no undertaking as to the economic or financial opportuneness of the transaction or the quality or solvency of the Issuers in line with the provisions of article 7(7) of the Luxembourg Act. Application has also been made to the Luxembourg Stock Exchange for Notes issued under the Programme to be admitted to trading on (i) the Luxembourg Stock Exchange's regulated market and to be listed on the Official List of the Luxembourg Stock Exchange and (ii) the multilateral trading facilities Euro MTF of the Luxembourg Stock Exchange (the **EuroMTF**). The regulated market of the Luxembourg Stock Exchange is a regulated market for the purposes of the Markets in Financial Instrument Directive 2004/39/EC of 21 April 2004 (a **Regulated Market**). The EuroMTF is not a regulated market within the meaning of the Markets in Financial Instrument Directive 2004/39/EC of 21 April 2004 but it is subject to the supervision of the CSSF. Notes issued under the Programme may also be unlisted or listed and admitted to trading on any other market, including any other Regulated Market in any Member State of the EEA and/or offered to the public in any Member State of the EEA. The applicable Final Terms in respect of the issue of any Notes (as defined below) will specify whether or not such Notes will be listed and admitted to trading on any market and/or offered to the public in any Member State of the EEA and, if so, the relevant market.

Application has also been made to SIX Swiss Exchange to approve this document as an "issuance programme" for the listing of derivatives and an "issuance programme" for the listing of bonds, both in accordance with the listing rules of SIX Swiss Exchange. In respect of Notes to be listed on SIX Swiss Exchange, this Base Prospectus and the applicable Final Terms will constitute the listing prospectus pursuant to the listing rules of SIX Swiss Exchange.

The CSSF has neither reviewed nor approved any information in this Base Prospectus pertaining to Notes listed on SIX Swiss Exchange and the CSSF assumes no responsibility in relation to issues of Notes listed on SIX Swiss Exchange.

Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes which are applicable to each Tranche (as defined in the Terms and Conditions of the Notes) of Notes will be set out in a final terms document (the **Final Terms**) which (except in the case of Private Placement Notes) (as defined in the sections entitled "*Terms and Conditions of the English Law Notes and the Uncertificated Notes*" and "*Terms and Conditions of the French Law Notes*") will be filed with the CSSF. The Programme provides that Notes may be listed or admitted to trading, as the case may be, on such other or further stock exchanges or

markets as may be agreed between the relevant Issuer, the Guarantor and the relevant Purchaser. Each Issuer may also issue unlisted Notes and/or Notes not admitted to trading on any market.

The Notes may be rated at the latest on the relevant Issue Date by one or more rating agencies. The rating(s) of the Notes (if any) will be specified in the applicable Final Terms, including as to whether or not such credit ratings are issued by credit rating agencies established in the European Union, registered (or which have applied for registration) under Regulation (EC) No 1060/2009 of the European Parliament and of the Council dated 16 September 2009, as amended by Regulation (EU) No 513/2011 of the European Parliament and of the Council dated 11 May 2011 (the **CRA Regulation**) and are included in the list of registered credit rating agencies published at the website of the European Securities and Markets Authority (www.esma.europa.eu).

In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the European Union and registered under the CRA Regulation unless the rating is provided by a credit agency operating in the European Union before 7 June 2010 which has submitted an application for registration in accordance with the CRA Regulation and such registration is not refused. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change, or withdrawal at any time by the assigning rating agency without notice.

On 29 April 2013, Société Générale, SG Issuer, SG Option Europe and SGA Société Générale Acceptance N.V. issued a base prospectus describing the Programme. This Base Prospectus supersedes and replaces this base prospectus and the supplements thereto for the purpose of Notes admitted to trading on a Regulated Market in any Member State of the EEA and/or offered to the public in any Member State of the EEA and issued after the date of this Base Prospectus.

B.4b	Known trends affecting the issuer and the industries in which it operates	[<i>[If the Issuer is Société Générale</i> : The euro zone and, in particular, France are very gradually moving towards recovery. Furthermore, the improved economic climate in the United States remains contingent on how the country will make an exit from its quantitative and fiscal monetary policies. In the emerging countries, markets are contending with a surge in capital flight. Current developments could weigh on emerging country growth, but not to the extent of triggering systemic financial crises akin to those observed in the 1990s. Several regulations on market activity operations are continuing to come into effect in Europe and the United States. New fundamental developments in retail banking are also expected. In a restrictive macro-economic environment, the major goal of market place discussions is to produce a sustainable growth model for the financial sector which maintains banks' ability to finance the economy amid more restrictive budget policies. However, it is clear that the addition of new regulatory constraints, compounded by potential competitive bias between countries, will weigh significantly on the profitability of some activities. They may therefore influence the development model of certain players in the banking sector. The Société Générale Group continues to adapt the structure of its business lines and embarked on the second step of its transformation plan

		<p>to refocus its structure on three pillars of excellence:</p> <ul style="list-style-type: none"> • French Retail Banking; • International retail Banking and Financial Services (IBFS); • Global Banking and Investor Solutions (GBIS).] <p><i>[If the Issuer is SG Issuer, SG Option Europe or SGA Société Générale Acceptance N.V.: The Issuer expects to continue its activity in accordance with its corporate objects over the course of 2014.]</i></p>																																							
B.5	Description of the issuer's group and the issuer's position within the group	<p>The Group offers a wide range of advisory services and tailored financial solutions to individual customers, large corporate and institutional investors. The Group relies on three complementary core businesses:</p> <ul style="list-style-type: none"> • French Retail Banking; • International Retail Banking, Financial Services and Insurance and • Corporate and Investment Banking, Private Banking, Asset and Wealth Management and Securities Services. <p><i>[If the Issuer is Société Générale: The Issuer is the parent company of the Société Générale Group.]</i></p> <p><i>[If the Issuer is SG Issuer or SG Option Europe or SGA Société Générale Acceptance N.V.: The Issuer is a subsidiary of the Société Générale Group and has no subsidiaries.]</i></p>																																							
B.9	Figure of profit forecast or estimate of the issuer	Not Applicable. The Issuer does not make any figure of profit forecast or estimate.

RISK FACTORS

Prospective purchasers of Notes should carefully consider the following information in conjunction with the other information contained in this Base Prospectus, any Supplement thereto, the 2013 Registration Document of Société Générale and its related updates (see the section “Documents Incorporated by Reference”) and any Final Terms before purchasing Notes.

Each Issuer and the Guarantor believe that the following factors may affect the relevant Issuer's ability to fulfil its obligations under Notes issued under the Programme and/or the Guarantor's ability to fulfil its obligations under the Guarantee in relation to such Notes, respectively. Most of these factors are contingencies which may or may not occur and none of the Issuers or the Guarantor is in a position to express a view on the likelihood of any such contingency occurring.

In addition, factors which each Issuer and the Guarantor believe are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

Each Issuer and the Guarantor believe that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the inability of the relevant Issuer or the Guarantor to pay interest (if any), principal or other amounts on or in connection with any Notes may occur for other reasons which may not be considered significant risks by the Issuers and the Guarantor based on information currently available to them or which they may not currently be able to anticipate. As a consequence, the above described risk factors linked to an investment in the Notes of any Series shall not be considered as exhaustive.

The order of presentation of the above described risk factors is not an indication of the likelihood of their occurrence.

1. GENERAL

1.1 Independent review and advice

Each prospective investor in the Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Notes is fully consistent with its financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it and is a fit, proper and suitable investment for it, notwithstanding the clear and substantial risks inherent in investing in or holding the Notes.

A prospective investor may not rely on the Issuers, the Guarantor, the Arranger or the Dealer(s) or any of their respective affiliates in connection with its determination as to the legality of its acquisition of the Notes or as to the other matters referred to above.

1.2 Assessment of investment suitability

Each potential investor in the Notes must determine the suitability of that investment in light of its own financial circumstances and investment objectives, and only after careful consideration with their financial, legal, tax and other advisers. In particular, each potential investor should:

- have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;

- have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear applicable risks.

Some Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured and appropriate addition of risk to their overall portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio. Some Notes which are complex financial instruments may be redeemable at an amount below par in which case investors may lose the value of part or their entire investment.

1.3 No legal and tax advice

Neither the Issuer nor the Guarantor is giving legal or tax advice to the investors. Each prospective investor should consult its own advisers as to legal, tax and related aspects relating to an investment in the Notes. A Noteholder's effective yield on the Notes may be diminished by the tax on that Noteholder of its investment in the Notes.

2. RISKS RELATING TO THE ISSUERS, THE GROUP AND, AS THE CASE MAY BE, THE GUARANTOR

2.1 The Group is exposed to the risks inherent in its core businesses

The Group's risk management focuses on the following main categories of risks, any of which could materially adversely affect the Group's business, results of operations and financial condition: credit and counterparty risk (including country risk), market risk, operational risks (including accounting and environmental risks), investment portfolio risk, non-compliance risk (including legal, tax and reputational risks), structural interest and exchange rate risk, liquidity risk, strategic risk, business risk, risk related to insurance activities, risk related to specialised finance activities, specific financial information, regulatory ratios and other risks.

For any further information on the risks factors relating each Issuer, the Group and the Guarantor, investors should refer to the English version of the 2013 Registration Document of Société Générale incorporated by reference into this Base Prospectus (See the section "*Documents Incorporated by Reference*").

2.2 Factors that may affect each Issuer's ability to fulfil its obligations under the Notes issued under the Programme and the Guarantor's ability to fulfil its obligations under the Guarantee in relation to such Notes

2.2.1 Creditworthiness of each Issuer and, as the case may be, the Guarantor

The Notes constitute general and unsecured contractual obligations of each Issuer and of no other person and the Guarantee constitutes general and unsecured contractual obligations of the Guarantor and of no other person, which will rank equally with all other unsecured contractual obligations of the relevant Issuer and the Guarantor, respectively, and behind preferred liabilities, including those mandatorily preferred by law. The Issuers issue a large number of financial instruments, including the Notes, on a global basis and, at any given time, the financial instruments outstanding may be

substantial. Noteholders rely upon the creditworthiness of the relevant Issuer and, as the case may be, the Guarantor and no other person and where the Notes relate to securities, Noteholders have no rights against the company that has issued such securities, and where the Notes relate to an index, Noteholders have no rights against the sponsor of such index and where the Notes relate to a fund, Noteholders have no rights against the manager of such fund. Further, an investment in the Notes is not an investment in the underlying asset(s) and Noteholders will have no rights in relation to voting rights or other entitlements (including any dividend or other distributions). The Notes are not in any way sponsored, endorsed or promoted by any issuer, sponsor, manager or other connected person in respect of any underlying assets and such entities have no obligation to take into account the consequences of their actions on any Noteholders.

2.2.2 Risks related to Notes issued by SG Issuer, SGA Société Générale Acceptance N.V. and SG Option Europe with limited recourse against the relevant issuer but which are unconditionally and irrevocably guaranteed by Société Générale

Each holder of a Note or Notes issued by SG Issuer, SGA Société Générale Acceptance N.V. and SG Option Europe is deemed to have acknowledged and undertaken, on its acquisition of such Note(s), that, in the event of a payment default by SG Issuer, SGA Société Générale Acceptance N.V. or SG Option Europe, as the case may be, of principal (and premium, if any), interest or any other amount in respect thereof (including, without limitation, any Final Redemption Amount(s)) on any such Note(s) whenever such payment falls due (such payment defaults, **Defaulted Payments**), such holder shall not institute any proceeding, judicial or otherwise, or otherwise assert a claim against SG Issuer, SGA Société Générale Acceptance N.V. or SG Option Europe, as the case may be, to enforce such Defaulted Payments and waives all rights to institute such proceedings or make such claims in respect of such Defaulted Payments against the relevant Issuer.

As a consequence prospective investors in Notes issued by SG Issuer, SGA Société Générale Acceptance N.V. and SG Option Europe should note that in the case of Defaulted Payments the entitlement of the Noteholders will be limited to the sums obtained by making a claim under the Guarantee, and the relevant provisions of the Guarantee, and in relation to Secured Notes only, from the sums obtained following enforcement of the relevant Pledge Agreement (See "*Risk Factors – Additional Risks Associated with Secured Notes – Shortfall on Realisation of Collateral Assets and Limited Recourse of Noteholders*" below).

Nevertheless, Noteholders will continue to be able to claim against the Guarantor in respect of any unpaid amount.

Holders of Notes issued by SG Issuer which are not Secured Notes should also note that the Collateral Assets contained in a Collateral Pool will not be available to satisfy amounts due to them in respect of their Notes.

2.2.3 Risks associated with the lack of independence of each Issuer and, as the case may be, the Guarantor

Société Générale will act as issuer under the Programme, as the Guarantor of the Notes issued by SG Issuer, SGA Société Générale Acceptance N.V. and SG Option Europe and also as provider of hedging instruments to each Issuer. As a result, investors will be exposed not only to the credit risk of Société Générale but also to operational risks arising from the lack of independence of Société Générale, in assuming its duties and obligations as the Guarantor and provider of the hedging instruments. The potential conflicts of interests and operational risks arising from such lack of independence are in part intended to be mitigated by the fact that different divisions within the Guarantor will be responsible for implementing the Guarantee and providing the hedging instruments and that each division is run as a separate operational unit, segregated by Chinese walls (information barriers) and run by different management teams. Whilst compliance procedures require effective segregation of duties and responsibilities between the relevant divisions within the Guarantor, the possibility of conflicts of interest arising cannot be wholly eliminated. See also "*Additional Risks Associated with Secured Notes - Potential Conflicts of Interest between Noteholders and the Collateral Agent and Note Valuation Agent*"

and "Additional Risks Associated with Secured Notes - Potential Conflicts of Interest between Noteholders and a Counterparty" below.

2.2.4 Conflicts of interest

The Issuers provide a full array of capital market products and advisory services worldwide including the issuance of "structured" Notes where interest and/or principal is/are linked to the performance of underlying assets. The Issuers and the Guarantor and any of their subsidiaries and affiliates, in connection with their other business activities, may possess or acquire material information about the underlying assets. Such activities and information may cause consequences adverse to the Noteholders. Such actions and conflicts may include, without limitation, the exercise of voting power, the purchase and sale of securities, financial advisory relationships and exercise of creditor rights. The Issuers, the Guarantor and any of their subsidiaries and affiliates have no obligation to disclose such information about the underlying assets or the companies to which they relate. The Issuers, the Guarantor and any of their respective subsidiaries and/or affiliates and their officers and directors may engage in any such activities without regard to the Notes or the effect that such activities may directly or indirectly have on any Note.

In particular, the following potential conflicts of interest could exist in connection with any issue of Notes in the context of this Programme:

- SG Issuer, SG Option Europe and SGA Société Générale Acceptance N.V. are subsidiaries and are within the scope of application of the corporate governance of the Group. It is not excluded that potential conflicts of interest between SG Issuer, SGA Société Générale Acceptance N.V. and SG Option Europe and the Guarantor could affect the Noteholders;
- the Calculation Agent, the Arranger, the Dealers, the Paying Agents, the Registrar, the Transfer Agent and the Exchange Agent are all part of the Group. A deterioration of Société Générale's credit risk would also affect its affiliated companies and thus have a negative impact on the obligations of each of the entities listed above in relation to the Notes. If one of these entities does not respect its obligations towards the relevant Issuer and/or the Guarantor, this could have a negative impact on the Noteholders;
- in the normal course of their activity, Société Générale and its affiliated companies could be in business relationships and act as the financial advisor for companies whose shares or notes are underlying assets and/or Notes and could be deemed to be contrary to the interests of the Noteholders;
- in the normal course of their activity, Société Générale and its affiliated companies could possess or acquire information which is not public knowledge on the underlying assets and which are or could be important to the Notes. Neither the Calculation Agent, the Arranger, the Dealers, the Paying Agents, the Registrar, the Transfer Agent nor the Exchange Agent intend to make this information available to the Noteholders;
- the composition of, and the methodologies used in connection with, certain indices to which Notes are linked may be determined and selected by Société Générale or any of its affiliates (see "*Conflicts of interest in connection with SGI indices*" below);
- the potential for a fund manager to earn performance-based compensation (including a manager that is affiliated with Société Générale) may encourage such fund manager to trade in a more speculative manner than it otherwise would (see "*Funds managers may be eligible to earn incentive compensation*" below); and
- the Issuers and the Guarantor, or one or more of their affiliates, may engage in trading and other business activities relating to the underlying fund(s) or their underlying assets that are not for the

Noteholders' accounts or on behalf of the Noteholders (see "*Certain business activities may create conflicts of interest with Noteholders*" below).

See also "*Additional Risks Associated with Secured Notes - Potential Conflicts of Interest between Noteholders and the Collateral Agent and Note Valuation Agent*" and "*Additional Risks Associated with Secured Notes - Potential Conflicts of Interest between Noteholders and a Counterparty*" below.

2.2.5 Hedging and trading activity by each Issuer, the Guarantor and their respective affiliates could potentially affect the value of the Notes

In the ordinary course of their business, whether or not they will engage in any secondary market making activities, the Issuers, the Guarantor and/or any of their respective affiliates may effect transactions for their own account or for the account of their customers and hold long or short positions in the reference Asset(s) (as defined below) or related derivatives. In addition, in connection with the offering of the Notes, the Issuers, the Guarantor and/or their respective affiliates may enter into one or more hedging transactions with respect to the reference asset(s) or related derivatives. In connection with such hedging or any market-making activities or with respect to proprietary or other trading activities by the Issuers, the Guarantor and/or the Group, the Issuers, the Guarantor and/or their respective affiliates may enter into transactions in the Reference Asset(s) or related derivatives which may affect the market price, liquidity or value of the Reference Assets and, consequently, the Notes and which could be deemed to be adverse to the interests of the relevant Noteholders.

The above situations may result in consequences which may be adverse to Noteholders. The Issuer and the Guarantor assume no responsibility whatsoever for such consequences and their impact on Noteholders.

3. RISKS RELATED TO THE STRUCTURE OF A PARTICULAR ISSUE OF NOTES

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which present particular risks for potential investors. Set out below is a description of the most common such features, which may increase the risk of investing in such Notes:

3.1 Limitations on recourse and rights with respect to underlyings assets

There are certain factors which are material for the purpose of assessing the risks associated with an investment in Notes issued under the Programme. Such factors will vary depending on the type of Notes issued, in particular in relation to Notes, the interest and/or redemption amount of which is linked to the value of one or more index, share, inflation index, unit, interest or share in a fund, or the combination of any of the foregoing or such other underlying or basis of reference.

3.2 Open end Notes issued by SG Issuer

Potential investors who take into account to purchase Open end Notes should consider that this type of Notes does not have a determined maturity. Therefore, the duration of the Notes is dependent on an optional redemption by the relevant Issuer, if any (see also "*Notes subject to optional redemption by the relevant Issuer*" below) or on an optional redemption by the Noteholder, if any. If there is no secondary market, there might be no possibility for the investors to sell the Notes.

3.3 Notes subject to optional redemption by the relevant Issuer

An optional redemption feature of Notes is likely to limit their market value. During any period when the relevant Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This may also be true prior to any redemption period.

3.4 Early redemption and reinvestment risks

The relevant Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

3.5 Trigger redemption at the option of the Issuer

In respect of certain issues where so specified in the applicable Final Terms, the Notes may be redeemed early in the event that the outstanding nominal amount falls below 10% of the initial nominal amount of such Notes or such other level stipulated in the applicable Final Terms. In such event the relevant Issuer will have the option to redeem any outstanding Notes early upon the giving of notice. This could lead to investors receiving an amount at redemption earlier than had been anticipated in circumstances over which the investors have no control and may affect the value of their investment.

3.6 Partly-Paid Notes

The relevant Issuer may issue Notes where the issue price is payable in more than one part payment. Failure to pay any subsequent part payment could result in an investor losing some or all of his investment.

3.7 Interest rate risks

Investment in Fixed Rate Notes or any Note with a fixed rate component involves the risk that subsequent changes in market interest rates may adversely affect the value of such Notes.

3.8 Variable rate Notes with a multiplier or other leverage factor

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include those features.

3.9 Inverse Floating Rate Notes

Inverse Floating Rate Notes have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as LIBOR. The market values of those Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

3.10 Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Where the relevant Issuer has the right to effect such a conversion, this will affect the secondary market and the market value of the Notes since the relevant Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the relevant Issuer converts from a fixed rate to a floating rate in such circumstances, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the relevant Issuer converts from a floating rate to a fixed rate in such circumstances, the fixed rate may be lower than then prevailing rates on its Notes.

3.11 Notes issued linked to certain events

The interest rate or redemption amount of certain Notes may be linked to the occurrence or non-occurrence of certain events which are not connected with the Issuers or the Guarantor such as credit, weather or sporting events. The occurrence of such events is beyond the control of the Issuers and the Guarantor and Noteholders are exposed to the risk of such event occurring or not, as the case may be.

3.12 Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount to or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

3.13 Zero Coupon Notes

The prices at which Zero Coupon Notes, as well as other Notes issued at a substantial discount from their principal amount payable at maturity, trade in the secondary market tend to fluctuate more in relation to general changes in interest rates than do the prices for conventional interest-bearing securities with comparable maturities.

3.14 Notes containing limited events of default

The holder of any Note may only give notice that such Note is immediately due and repayable in a limited number of events of default. Such events of default do not include, for example, a cross-default of the relevant Issuer's other debt obligation or of the Guarantor.

3.15 Notes underlying CREST Depository Interests

The CDIs will be delivered, held and settled in CREST, by means of the CREST International Settlement Links Service.

The settlement of the CDIs by means of the CREST International Settlement Links Service may involve the following risks to investors:

Investors will not be the legal owners of the Notes underlying the CDIs (the **Underlying Notes**). The CDIs are separate legal instruments from the Underlying Notes to which they relate and represent an indirect interest in such Underlying Notes.

The Underlying Notes themselves (as distinct from the CDIs representing indirect interests in such Underlying Notes) will be held in an account with a custodian. The custodian will hold the Underlying Notes through a clearing system. Rights in the Underlying Notes will be held through custodial and depository links through the appropriate clearing systems. The legal title to the Underlying Notes or to interests in the Underlying Notes will depend on the rules of the clearing system in or through which the Underlying Notes are held.

The CDIs will be issued by CREST Depository Limited to investors and will be governed by English law. The CDIs will represent indirect interests in the interest of CREST International Nominees Limited in the Underlying Notes.

Rights under the Underlying Notes cannot be enforced by investors except indirectly through the intermediary depositories and custodians described above. The enforcement of rights under the Underlying Notes will therefore be subject to the local law of the relevant intermediary. This will include English law. The rights of investors to the Underlying Notes are represented by the entitlements against the CREST Depository which (through the CREST Nominee) holds interests in the Underlying Notes.

This could result in an elimination or reduction in the payments that otherwise would have been made in respect of the Underlying Notes in the event of any insolvency or liquidation of the relevant intermediary,

in particular where the Underlying Notes held in clearing systems are not held in special purpose accounts and are fungible with other securities held in the same accounts on behalf of other customers of the relevant intermediaries.

The CDIs issued to investors will be constituted and issued pursuant to the CREST Deed Poll. Investors in the CDIs will be bound by all provisions of the CREST Deed Poll and by all provisions of, or prescribed pursuant to, the CREST Reference Manual dated 22 November 2010 as amended, modified, varied or supplemented from time to time (the **CREST Reference Manual**) and the CREST Rules (contained in the CREST Reference Manual) applicable to the International Settlement Links Service and investors must comply in full with all obligations imposed on them by such provisions.

Investors should note that the provisions of the CREST Deed Poll, the CREST Reference Manual and the CREST Rules contain indemnities, warranties, representations and undertakings to be given by holders of the CDIs and limitations on the liability of the relevant Issuer of the CDIs, CREST Depository Limited.

Investors may incur liabilities resulting from a breach of any such indemnities, warranties, representations and undertakings in excess of the money invested by them. The attention of investors is drawn to the terms of the CREST Deed Poll, the CREST Reference Manual and the CREST Rules, copies of which are available from Euroclear UK & Ireland at 33 Cannon Street, London EC4M 5SB or by calling +44 207 849 0000 or under the CREST section of the website of Euroclear UK & Ireland (www.euroclear.co.uk).

Investors should note that holders of CDIs may be required to pay fees, charges, costs and expenses to CREST Depository Limited in connection with the use of the International Settlement Links Service. These will include the fees and expenses charged by CREST Depository Limited in respect of the provision of services by it under the CREST Deed Poll and any taxes, duties, charges, costs or expenses which may be or become payable in connection with the holding of the Notes through the International Settlement Links Service.

Investors should note that neither the relevant Issuer nor any Paying Agent will have any responsibility for the performance by any intermediaries or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations.

3.16 Reliance on DTC, Euroclear and Clearstream, Luxembourg procedures

Notes issued under the Programme may be represented on issue by one or more Global Notes that may be deposited with a common depository for Euroclear and Clearstream, Luxembourg or may be deposited with a nominee for DTC (see the section headed "Book Entry Clearance Systems"). Except in the circumstances described in each Global Note, investors will not be entitled to receive Notes in definitive form. Each of DTC, Euroclear and Clearstream, Luxembourg and their respective direct and indirect participants will maintain records of the beneficial interests in each Global Note held through it. While the Notes are represented by a Global Note, investors will be able to trade their beneficial interests only through the relevant clearing systems and their respective participants.

While the Notes are represented by Global Notes, the Issuer will discharge its payment obligation under the Notes by making payments through the relevant clearing systems. A holder of a beneficial interest in a Global Note must rely on the procedures of the relevant clearing system and its participants to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in any Global Note.

Holders of beneficial interests in a Global Note will not have a direct right to vote in respect of the Notes so represented. Instead, such holders will be permitted to act only to the extent that they are enabled by the relevant clearing system and its participants to appoint appropriate proxies.

Special rules apply to SIS Notes.

3.17 Notes constituting "Obligations" under French Law

The applicable Final Terms may specify that the Notes will constitute obligations under French law (within the meaning of Article L.213-5 of the French *Code monétaire et financier*). Investors' attention is drawn to the fact that this characterisation is a legal characterisation and not a prudential one. Each potential investor should consult its legal advisers and where applicable its regulator(s), accountants, auditors and tax advisers to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing, (iii) Notes are eligible as regulated assets (where applicable), (iv) Notes are an appropriate investment for it from a prudential point of view and (v) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

3.18 Risks linked to the non application of certain tax clauses

If the Issuer or, as the case may be, the Guarantor, elects not to apply Conditions 5.2.1, 5.2.2 and 6.2, the Issuer will not be able to early redeem the Notes for taxation reasons. **All payments under the Notes shall be effected by the Issuer after deductions or withholdings for any taxes, duties, assessments or governmental charges in respect of such Notes as the case may be.** In such case, the Issuer will withhold or deduct such taxes, duties, assessments or governmental charges from the due and payable amount and pay the deducted or withheld amounts to the competent tax authorities. **As a result, the amounts that the Noteholder will effectively receive under the Notes may be substantially less than the due and payable amounts.** The Issuer shall not be obliged to pay any additional amounts to the Noteholder for any such deductions or withholdings.

4. RISK FACTORS RELATING TO STRUCTURED NOTES

4.1 General

The relevant Issuer may issue Notes with principal or interest determined by reference to an index or formula, to changes in the prices of securities or commodities, to interest rates, to credit risk, to movements in currency exchange rates or other factors (each, a **Relevant Factor**). In addition, the relevant Issuer may issue Notes with principal or interest payable in one or more currencies which may be different from the currency in which the Notes are denominated. Potential investors should be aware that:

- they may receive no interest;
- payment of principal or interest may occur at a different time or in a different currency than expected;
- they may lose all or a substantial portion of their principal;
- a Relevant Factor may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- if a Relevant Factor is applied to Notes in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the Relevant Factor on principal or interest payable likely will be magnified;
- the timing of changes in a Relevant Factor may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Factor, the greater the effect on yield; and
- the market price of such Notes may be volatile and may depend on the time remaining to the relevant redemption date and the volatility of the level of the index or indices.

The historical performance of an underlying asset should not be viewed as an indication of the future performance of such underlying asset during the term of Structured Notes. Accordingly, each potential investor should consult its own financial and legal advisers about the risk entailed by an investment in any Structured Notes or Dual Currency Notes and the suitability of such Notes in light of its particular circumstances.

4.2 Investors' yield may be lower than the yield on a standard debt security of comparable maturity

Unlike conventional fixed rate or floating rate debt securities, Structured Notes whose payments (whether in respect of principal and/or interest and whether at maturity or otherwise) are calculated by reference to an underlying asset, may not provide investors with periodic payments of interest. Further, with respect to the Final Redemption Amount or Early Redemption Amount or Automatic Early Redemption Amount or Optional Redemption Amount (the **Redemption Amounts**), the effective yield to maturity of the Notes may be less than that which would be payable on a conventional fixed rate or floating rate debt security. The return of only the Redemption Amount of each Note at maturity may not compensate the holder for any opportunity cost implied by inflation and other factors relating to the value of money over time.

4.3 Adjustment, substitution or extension of maturity – Early redemption of the Notes

The Calculation Agent may, in certain circumstances, proceed to adjustments or substitutions, or even decide the extension of the initially planned maturity date or to stop the indexation of the Note on the underlying asset(s) and to pass in a money market rate, in particular upon the occurrence of events affecting the underlying instrument(s). In the absence of manifest or proven error, these adjustments, substitutions or early redemption decisions will be binding upon the relevant Issuer, the Guarantor, the Agent and the Noteholders. The relevant Issuer may also have a discretionary right to redeem the Notes early. In all such cases, the early redemption of the Notes may result in the total or partial loss of the amount invested.

4.4 Risks relating to Structured Notes linked to an Index

Structured Notes based on an index are subject to risks broadly similar to those attending any investment in a broadly-based portfolio of assets including, without limitation, the risk that the general level of prices for such assets may decline. The following is a list of some of the significant risks associated with an index:

- historical performance of the index does not indicate the future performance of this index. It is impossible to predict whether the value of the index will fall or rise during the term of the Notes; and
- the level of the index or indices may be affected by the economic, financial and political events in one or more jurisdictions, including the stock exchange(s) or quotation system(s) on which any securities comprising the index or indices may be traded. The index may reference equities, bonds or other securities or it may be a property index referencing certain property price data which will be subject to market price fluctuations. A property index may include valuations only and not actual transactions and the property data sources used to compile the index may be subject to change, which may adversely affect the return on the Notes.

The policies of the sponsor of an index (including a sponsor that is affiliated with Société Générale) as regards additions, deletions and substitutions of the assets underlying the index and the manner in which the index sponsor takes account of certain changes affecting such underlying assets may affect the value of the index. The policies of an index sponsor with respect to the calculation of an index could also affect the value of the index. An index sponsor may discontinue or suspend calculation or dissemination of information relating to its index. Any such actions could affect the value of the Notes. See the section headed "*Additional Terms and Conditions for Index Linked Notes*" for more details.

In addition, indices may be subject to management fees and other fees as well as charges that are payable to the index sponsor(s) and which can reduce the Redemption Amount payable to Noteholders. Such fees may be paid to index sponsors that are affiliates of Société Générale.

4.4.1 Conflicts of interest in connection with proprietary indices

Société Générale has developed an expertise in creating, structuring and maintaining indices for which it acts as index sponsor (the "**proprietary indices**"). These indices are calculated by an external

calculation agent in accordance with rules which describe the methodology for determining the composition and the calculation of these indices (the “**Index Rules**”).

- (i) In respect of the proprietary indices discretionarily composed by Société Générale or an affiliate of Société Générale to which Notes are linked, Société Générale may face a conflict of interest between its obligations as the issuer of such Notes and as the composer of such indices, as the determination of the composition of such indices may have an impact on the value of the Notes.
- (ii) In respect of the proprietary indices composed by a third party to which Notes are linked, Société Générale may face a conflict of interest between its obligations as the issuer of such Notes and as sponsor of such indices as it may, subject to the Index Rules, amend or supplement the relevant Index Rules which may have an impact on the value of the Notes.
- (iii) In respect of the proprietary indices which are composed by applying a mathematical formula without any discretion from Société Générale or any third party, Société Générale may face a conflict of interest between its obligations as the issuer of such Notes and as sponsor of such indices as it may, subject to the Index Rules, modify certain parameters (such as the funding spread) which may have an impact on the value of the Notes.

Société Générale or any of its affiliates may have banking or other commercial relationships with third parties in relation to a proprietary index, and may engage in trading in such index (including such trading as Société Générale and/or its affiliates deem appropriate in their sole and absolute discretion to hedge their market risk on any such other transactions that may relate to proprietary indices), which may adversely affect the level of such index.

If the hedging activities of Société Générale or any of its affiliates in connection with a particular index are disrupted, Société Générale or the relevant affiliate may decide to terminate calculations in relation to such index sooner than another index sponsor would in comparable circumstances. Such a termination may trigger the early redemption of the Notes.

The above situations may result in consequences which may be adverse to Noteholders. The Issuers and the Guarantor assume no responsibility whatsoever for such consequences and their impact on Noteholders.

4.5 Risk Factors specific to Structured Notes linked to a Share or an ADR/GDR or a Dividend

4.5.1 *No beneficial interest in the underlying shares*

A holder of the Notes will not be a beneficial owner of the underlying shares or ADR/GDR and therefore will not be entitled to receive any dividends or similar amounts paid on the underlying shares or ADR/GDR, nor will a Noteholder be entitled to purchase the underlying shares or ADR/GDR by virtue of its ownership of the Notes. Moreover, holders of the Notes will not be entitled to any voting rights or other control rights that holders of the underlying shares or ADR/GDR may have with respect to the issuer of such underlying shares or ADR/GDR. The Redemption Amount will not reflect the payment of any dividends on the underlying shares or ADR/GDR. Accordingly, the return on the Notes will not reflect the return which could be realised with the reception of dividends if any, paid on those securities being the owner of the underlying shares or ADR/GDR. Therefore, the yield to maturity based on the methodology for calculating the Redemption Amount will not be the same yield as would be produced if the underlying shares or ADR/GDR were purchased directly and held for a similar period.

4.5.2 *Limited antidilution protection*

The Calculation Agent may make adjustments to elements of the Notes as described in the Additional Terms and Conditions for Share Linked Notes or in the Additional Terms and Conditions for ADR/GDR Linked Notes. The Calculation Agent is not required to make an adjustment for every corporate event that may affect the underlying shares or ADR/GDR. Those events or other actions by the issuer of underlying shares or ADR/GDR or a third party may nevertheless adversely affect the market price of the underlying shares or ADR/GDR and, therefore, adversely affect the value of the Notes. The issuer of

underlying shares or ADR/GDR or a third party could make an offering or exchange offer or the issuer of underlying shares or ADR/GDR could take another action that adversely affects the value of the underlying shares or ADR/GDR and the Notes but does not result in an adjustment.

4.5.3 Risks arising from conduct of issuers of shares

The issuers of underlying shares or ADR/GDR are not involved in the offer of the Notes in any way and have no obligation to consider the interests of the Noteholders in taking any corporate actions that might affect the value of the Notes. The issuers of underlying shares or ADR/GDR may take actions that will adversely affect the value of the Notes.

4.6 Risk Factors relating to Structured Notes linked to a Fund¹

The fund units used as underlying assets of the Notes may be issued by hedge funds or mutual funds (hereafter the underlying funds).

4.6.1 Investors should investigate the underlying fund(s) as if investing directly

To the extent the underlying(s) of a series of Notes include(s) a fund or portfolio of funds, investors should conduct their own diligence of the underlying fund(s) as they would if they were directly investing in the underlying fund(s). The offering of the Notes does not constitute a recommendation by Société Générale or any of its affiliates with respect to an investment linked to an underlying fund (including in respect of funds that are managed by managers affiliated with Société Générale). Investors should not conclude that the sale by the Issuers of the Notes is any form of investment recommendation by the Issuers or any of their affiliates to invest in the underlying fund(s).

4.6.2 Risks relating to underlying funds that are hedge funds

Fund units, and investments in hedge funds generally, are speculative and involve a high degree of risk. Neither the relevant Issuer nor the Guarantor gives any assurance as to the performance of fund units.

To the extent the underlying(s) of a series of Notes include(s) a hedge fund or portfolio of hedge funds for a series of Notes, the Notes of such series will be subject to some of the risks of an investment in a hedge fund or portfolio of hedge funds. The lack of oversight and regulation associated with funds that are hedge funds may increase the likelihood of fraud and negligence by the fund's managers and/or the investment advisors, their brokerage firms or banks.

Hedge funds may involve complex tax structures and delays in distributing important tax information and may have high fees and expenses that may offset the hedge fund's trading profits.

Substantial redemptions on a hedge fund on a particular day could require such funds to liquidate positions more rapidly than would be otherwise desirable.

Hedge funds, including the funds on which Structured Notes may be indexed, generally do not make information about their operations and holdings public. Even if the relevant Issuer, the Guarantor or any affiliate of Société Générale may have arrangements with a fund managers to obtain information required to calculate the value of the fund, it may not have access to the activities of the fund on a continuous basis or at all. There are currently no regulatory requirements compelling funds to release information of the kind that would allow the relevant Issuer, the Guarantor or any affiliate of Société Générale to value a fund or to accurately determine the value of the fund units and, consequently, the Redemption Amount of the relevant Notes.

Société Générale and certain of its affiliates from time to time obtain information regarding specific hedge funds that may not be available to the general public. Any such information is obtained by Société Générale and certain of its affiliates in the ordinary course of their businesses, and not in connection with the offering of the Notes (including in respect of funds that are managed by managers affiliated with

¹ Statements in this section concerning funds and fund managers also apply to any portfolio or basket of funds and any related portfolio manager.

Société Générale). In connection with the ordinary course of their businesses, Société Générale and certain of its affiliates may recommend, or determine not to recommend, specific hedge funds to their clients. Hedge funds as to which Société Générale and certain of its affiliates have formed investment recommendations may now or may in the future be among the underlying funds used in the redemption formula of Notes. Any views that may be held by Société Générale and certain of its affiliates with respect to the expected future performance of one or more of the funds (including in respect of funds that are managed by managers affiliated with Société Générale) would not be an indication of the future expected performance of the fund, and neither Société Générale nor any of its affiliates has formed a view with respect to the expected future performance of a fund.

4.6.3 *Volatility of the markets may adversely affect the value of the fund units*

Volatility is the term used to describe the size and frequency of market fluctuations. If the volatility of the underlying fund(s) increases or decreases, the market value of the Notes may be affected.

Funds' performances (especially hedge funds) may be highly volatile. Movements in the net asset value of the fund tracked by the fund units may vary from month to month. Trades made by fund managers may be based upon their expectation of price movements as the relevant investments approach and reach maturity several months following initiation of the trades. In the meantime, the market value of positions may not increase, and may in fact decrease, and this will be reflected in the net asset value per share.

Investments made by the underlying funds can involve substantial risks. The nature of these investments means that the value of the fund units may fluctuate significantly during a day or over longer periods. Consequently, the performance of the fund units over a given period will not necessarily be indicative of future performance.

Market volatility may produce significant losses on the fund units.

4.6.4 *The use of leverage may increase the risk of loss in the value of the fund units*

The underlying funds may have recourse to leverage i.e. borrow amounts that represent more than 100 per cent. of the value of their assets to invest further in assets that involve additional risks. Accordingly, a small downward movement in the value of a fund's assets may result in a significantly larger loss for the fund.

4.6.5 *Fund managers may be eligible to earn incentive compensation*

The potential for a fund manager to earn performance-based compensation (including a manager that is affiliated with Société Générale) may encourage such fund manager to trade in a more speculative manner than it otherwise would. Therefore, because the incentive compensation of the fund's managers and/or investment advisors to hedge funds is often directly influenced by the performance of such funds, each fund manager may consequently have an incentive to take greater risks when making investments that may result in greater profits. By taking greater risks when making investments consequently there is greater scope for significant losses. In addition, the fund managers and/or the investment advisors may receive management, advisory or performance fees even though the fund has not realised any gains.

4.6.6 *Fund managers' investments are not verified*

None of the Issuers, Société Générale as Guarantor or as Calculation Agent under the Notes or Société Générale's affiliates are or will be responsible for verifying or ensuring that the fund managers comply with its stated trading strategy (including a manager that is affiliated with Société Générale).

The fund's managers (including a manager that is affiliated with Société Générale) do not have any obligations to the Noteholders, or other role in connection with the Notes, including any obligation to take the needs of the Noteholders into consideration for any reason. The fund managers (including a manager that is affiliated with Société Générale) are not responsible for, and have not endorsed or participated in, the offering, placement, sale, purchase or transfer of the Notes. The fund managers

(including a manager that is affiliated with Société Générale) are not responsible for, and will not participate in, the determination or calculation of the amounts receivable by Noteholders.

Underlying funds that are hedge funds are not subject to the same regulatory regime, or regulated to the same extent as, mutual funds or registered securities or securities offerings. Changes to the current regulatory environment could affect the investment, operations and structure of the underlying funds and could adversely affect the performance of the underlying funds.

The underlying funds may invest in assets that involve further risks and such risks may not be fully disclosed at the time of investment by the relevant Issuer. The fund managers and/or the investment advisors to hedge funds may invest in and trade in a variety of financial instruments using sophisticated investment techniques for hedging and non-hedging purposes. Such financial instruments and investment techniques include but are not limited to the use of leverage (i.e., borrowing money for investment purposes), short sales of securities, transactions that use derivatives such as swaps, stock options, index options, futures contracts and options on futures, transactions that involve the lending of securities to certain financial institutions, the entry into repurchase and reverse repurchase agreements for securities and the investment in foreign securities and foreign currencies. Furthermore, hedge funds may borrow an amount of more than 100 per cent. of its assets on a consistent basis to increase its leverage. While these investment strategies and financial instruments allow the fund managers and/or the investment advisors the flexibility to implement a range of strategies in an attempt to generate positive returns for the fund, they also create the risk of significant losses that may adversely affect the fund.

Hedge funds may invest in securities listed or traded on foreign exchanges. The execution of transactions on foreign exchanges might involve particular risks including but not limited to: higher volatility, government intervention, lack of transparency, lack of regulation, currency risk, political risk and economic social instability.

4.6.7 Reliance on fund managers and/or investment advisors of the underlying fund(s)

Investment in the Notes is speculative and entails substantial risks. The Redemption Amount is based on changes in the value of the underlying fund(s), which fluctuates and cannot be predicted. Moreover, any persons relying on the performance of the underlying fund(s) should note that such performance will depend to a considerable extent on the performance of the fund's managers and/or investment advisors of the fund(s). None of the Issuer, or Société Générale as Guarantor or as Calculation Agent under the Notes, or Société Générale's affiliates are in a position to protect the Noteholders against fraud and misrepresentation by unaffiliated fund managers or the investment advisors. Investors should understand that they could be materially adversely affected by any such acts. Noteholders do not have and are not entitled to any beneficial interests in the underlying fund(s) and as such, have no recourse against the underlying fund(s), any investment advisor or manager either contractually or statutorily. Furthermore, as a practical matter, it may be difficult to bring an action, or to seek to enforce a judgment obtained in an action, against any of the aforementioned entities. In addition, the fund managers and/or the investment advisors may be removed or replaced, the allocation of assets may vary from time to time and the various positions of the investments of the underlying fund(s) may be economically offsetting, all of which may affect the performance of the underlying fund(s).

The fund managers and/or the investment advisors may manage or advise other funds and/or accounts and may have financial and other incentives to favour such other funds and/or accounts over the underlying fund(s). Also, the fund managers and/or the investment advisors may manage or advise for their own accounts and the accounts of their clients and may make recommendations or take positions similar or dissimilar to those of the underlying fund(s) or which may compete with the underlying fund(s).

4.6.8 Fees, deductions and charges will reduce the Redemption Amount

Fund fees will be deducted from the net asset value of the fund, reducing the value of the fund units. Accordingly, to the extent that the Redemption Amount is linked to the net asset value of a fund, the Redemption Amount payable to Noteholders will be less than it would have been absent these fees,

deductions and charges, Société Générale or any of its affiliates may be the beneficiary of such fees or obtain rebate on such fees from third parties.

4.6.9 Net Asset Value

The market value of the Notes is likely to depend substantially on the then-current net asset value of the underlying fund(s). If an investor chooses to sell its Notes, such investor may receive substantially less than the amount that would be payable at any relevant payment date based on that net asset value because of, for example, possible market expectations that the net asset value of the underlying fund(s) will continue to fluctuate between such time and the time when the final net asset value of the underlying fund(s) is determined. Political, economic and other developments that affect the investments underlying the underlying fund(s) may also affect the net asset value of the underlying fund(s) and, thus the value of the Notes.

4.6.10 The illiquidity of the underlying fund's investments may cause the payment of the Final or Early Redemption Amount and/or any Intermediary Amount to be reduced or delayed.

The intermediary amounts or final redemption amounts due to investors in Notes having funds as underlyings may be based on the redemption proceeds that would be paid in cash by the underlying fund to a hypothetical investor as a result of a valid and timely notice for redemption given by such hypothetical investor with effect as of the relevant valuation date. To meet a redemption request, the underlying fund would likely sell its own assets but such investments may not be readily saleable on or shortly after the valuation date for various reasons, including, but not limited to:

- infrequent redemption opportunities allowed by such underlying fund (for example, many hedge funds only allow monthly or quarterly liquidity);
- "gating," lock-ups, side pockets or discretionary redemption delays or suspensions imposed by such underlying fund (for example, many hedge funds have provisions whereby redemption requests are scaled back if the aggregate amount of such requests reaches a predetermined limit); and
- such underlying funds' own investments may be illiquid;

In these situations, (i) the payment of any intermediate amounts may be postponed by the Calculation Agent too soon after the date on which the underlying fund pays all the redemption proceeds in respect of a valid and timely redemption order given after the occurrence of an event as described above or to the maturity date of the Notes and/or (ii) the payment of the final redemption amount will occur on the basis of the redemption proceeds paid by the underlying fund in respect of a valid and timely redemption order given after the occurrence an event described above. If the redemption proceeds have not been paid by the underlying fund on the maturity date of the Notes, the payment of the intermediate amounts or final redemption amounts may be postponed after the maturity date up to a maximum period of two years. If at the expiry of this two-year period, the underlying fund has not paid in full the redemption proceeds, the intermediate and final redemption amounts shall be determined by the Calculation Agent on the basis of what has actually been paid by the underlying fund. The amount received by the investors in the Notes may be as low as zero.

If certain extraordinary events occur affecting an underlying fund, such as but without limitation the insolvency, nationalisation or merger of the underlying fund, a resignation or termination or replacement of the administrator, custodian, investment adviser or manager of the fund, or a breach by the underlying fund of its investment strategy, the Calculation Agent may decide to terminate soon after the occurrence of such extraordinary event, the exposure of the Notes to the underlying fund and the intermediate amounts and/or the final redemption amounts and (i) pay any intermediate amount due to the investor in the Notes either immediately or at the maturity date of the Notes on the basis of the redemption proceeds paid by the underlying fund in the liquidation of the exposure to such underlying fund and/or (ii) pay the final redemption amount at the maturity date of the Notes on the basis of the redemption proceeds paid by the underlying fund in the liquidation of the exposure to such underlying fund. If the underlying fund is also subject to liquidity problems as described above, the postponement of

the payment of the intermediate amounts and/or final redemption amount up to a maximum period of two years may also apply.

Given recent experience in the hedge fund industry, it is likely that such delay would have an adverse impact on the amount payable to you under the Notes.

4.6.11 *If the underlying fund(s) invest(s) through a master-feeder structure, the latter may have an adverse effect on the underlying fund(s) and, therefore, the Notes*

The underlying fund(s) may invest through a "master-feeder" structure. As such, the underlying fund(s) will contribute substantially part or all of its assets to the master fund and may do so alongside other investors, including other feeder funds. The relevant master fund may also establish or allow investment by additional investors or feeder funds in the future.

The master-feeder fund structure, in particular the existence of multiple investment vehicles investing in the same portfolio, presents certain unique risks to investors. The underlying fund(s) may be materially affected by the actions of other investors, investment vehicles and feeder funds investing in the master fund, particularly if such investors have large investments in the master fund. For example, if a larger investment vehicle or entity with a large investment in the master fund redeems from the master fund, illiquidity in certain securities or markets could make it difficult for the master fund to liquidate positions on favourable terms to effect such redemption, which could result in losses or a decrease in the net asset value of the master fund. In addition, to satisfy such redemptions, the sub-manager may need to liquidate the master fund's most liquid investments; leaving remaining investors (including the underlying fund(s)) invested in more illiquid instruments. Such withdrawals may also leave the master fund with a less diversified pool of investments. This may increase the overall portfolio risk of the master fund, and, ultimately, the Notes. Conversely, the sub-manager may refuse a redemption request if it believes that such request, if fulfilled, would have a material adverse impact on the remaining investors of the master fund. This may negatively impact the liquidity of the master fund and, therefore, the underlying fund(s) and the Notes.

4.6.12 *Certain business activities may create conflicts of interest with Noteholders*

The Issuers and the Guarantor, or one or more of their affiliates, may engage in trading and other business activities relating to the underlying fund(s) or their underlying assets that are not for the Noteholders' accounts or on behalf of the Noteholders. These activities may present a conflict between a Noteholder's interest in the Notes and the interests of the Issuers and the Guarantor, or one or more of their affiliates, may have in their proprietary account. Such activities may include, among other things, the exercise of voting power, financial advisory relationships, financing transactions, derivative transactions and the exercise of creditor rights, each of which may be contrary to the interests of the Noteholders. Any of these trading and/or business activities may affect the value of an underlying fund(s) and thus could be adverse to a Noteholder's return on the Notes. The Issuers, the Guarantor and their respective affiliates may engage in any such activities without regard to the Notes or the effect that such activities may directly or indirectly have on Notes of any series.

In addition, in connection with these activities, the Issuers, the Guarantor and/or their respective affiliates may receive information about the underlying fund(s) or their underlying assets that will not be disclosed to the Noteholders. The Issuers, the Guarantor and their respective affiliates have no obligation to disclose such information about the underlying fund(s) or the companies to which they relate.

4.6.13 *Additional investments in, or withdrawals of amounts previously invested in, the fund may adversely affect the value of the fund units*

In the ordinary course of their business, whether or not they will engage in any secondary market making activities, the Issuers, the Guarantor or one or more of their affiliates may effect transactions for their own account or for the account of their customers and hold long or short positions in the underlying fund(s), underlying assets of the underlying fund(s) and/or related derivatives. In addition, in connection with the offering of any series of Notes and during the term of such series of Notes, each Issuer, the

Guarantor or one or more of their respective affiliates in order to hedge its obligations under the Notes, may enter into one or more hedging transaction with respect to the underlying fund(s), underlying assets of the underlying fund(s) and/or related derivatives.

In connection with any of such hedging or any market making activities or with respect to proprietary or other such trading activities, the Issuers, the Guarantor and/or their respective affiliates may enter into transactions in the underlying fund(s), underlying assets of the underlying fund(s) and/or related derivatives which may affect the market price, liquidity or value of the underlying fund(s) or their underlying assets, and therefore the Notes. The Issuers, the Guarantor and/or any of their respective affiliates may also issue or underwrite other securities or financial or derivative instruments with returns linked or related to changes in the performance of the underlying fund(s) or their underlying assets. Any of the above situations may result in consequences which may be adverse to a Noteholder's investment. The Issuers and the Guarantor assume no responsibility whatsoever for such consequences and their impact on a Noteholder's investment.

Investors should be aware that, as a result of hedging decisions by the hedging counterparty, transfers into or out of the fund by the hedging counterparty may affect the value of the fund units and, in turn, the Redemption Amount of the Notes.

Furthermore, the relevant Issuer may issue additional Tranches of Notes that are fungible with the Notes, or other bonds, notes or instruments that, while not fungible with the Notes, may be linked to an index with a component which has the underlying funds as the reference asset. If such Notes are issued, Société Générale is likely to make additional investments in the underlying funds to hedge exposure incurred in connection with such transactions related to such Notes. Any such investment in the underlying funds could adversely affect the performance of the fund units, which could adversely affect the trading value of the Notes and the Redemption Amount.

4.6.14 Legal, tax and regulatory changes

Legal, tax and regulatory changes could occur during the term of the Notes that may adversely affect the underlying fund(s). The regulatory environment for hedge funds is evolving, and changes in the regulation of hedge funds may adversely affect the value of investments held by the underlying fund(s). In addition, the securities and futures markets are subject to comprehensive statutes, regulations and margin requirements. Regulators and self-regulatory organisations and exchanges are authorised to take extraordinary actions in the event of market emergencies. The regulation of derivatives transactions and funds that engage in such transactions is an evolving area of law and is subject to modification by government and judicial action. The effect of any future regulatory change on the underlying fund(s) could be substantial and adverse and consequently may adversely affect the value of the Notes.

4.6.15 No ownership rights in any underlying fund(s)

An investment in the Notes does not entitle Noteholders to any ownership interest or rights in any underlying fund(s), such as voting rights or rights to any payments made to owners of the underlying fund(s). Instead, a Note represents a notional investment in the underlying fund(s). The term "notional" is used because although the value of the underlying fund(s) will be used to calculate your payment under the Notes, your investment in the Notes will not be used to purchase interests in the underlying fund(s) on your behalf.

The relevant Issuer, or an affiliate of such Issuer, may purchase interests in the underlying fund(s) in order to hedge its obligations under the Notes but it is under no obligation to do so. Such interests, if any, are the separate property of the relevant Issuer or such affiliate and do not secure the Notes. Therefore, in the event of a failure to pay the Redemption Amount by the relevant Issuer under the Notes, the Noteholders will have no beneficial interest in or claim to any such interests in the underlying fund(s). Accordingly, any claims by Noteholders pursuant to the terms and conditions of such Notes will be *pari passu* with all other unsecured, unsubordinated, unconditional creditors of the relevant Issuer.

4.7 Risk Factors relating to Structured Notes linked to a Commodity

Commodity Linked Notes may be redeemed by the relevant Issuer at their par value and/or by the physical delivery of the underlying assets and/or by payment of an amount determined by reference to the value of the underlying assets. Accordingly, an investment in Commodity Linked Notes may bear similar market risks to a direct investment in the relevant commodities and investors should take advice accordingly. Interest payable on Commodity Linked Notes may be calculated by reference to the value of one or more underlying assets. The value of the underlying assets may vary over time and may increase or decrease by reference to a variety of factors which may include global supply and demand of commodities to which the underlying assets refer, production and selling activities of the respective commodities by producers, central banks and international organisations, demand for end-products based on the respective commodity, net investment demand and industrial demand.

4.8 Risk Factors relating to Structured Notes linked to Credit

Capitalised terms used in this section, but not otherwise defined in this Base Prospectus shall have the meaning given to them in the Additional Terms and Conditions for Credit Linked Notes

In the event of the occurrence of certain circumstances (which may include, amongst other things, Bankruptcy, Failure to Pay, Obligation Acceleration, Obligation Default, Governmental Intervention, Repudiation/Moratorium or Restructuring) in relation to a Reference Entity or, with respect to Basket Notes and Tranche Notes, Reference Entities, in each case as specified in the applicable Final Terms, the obligation of the relevant Issuer to pay principal at maturity may be replaced by (i) an obligation to pay other amounts which are equal to either certain fixed amount(s) as specified in the applicable Final Terms or amounts calculated by reference to the value of the underlying asset(s) (which may, in each case, be less than the par value of the Notes at the relevant time) and/or (ii) an obligation to deliver the underlying asset(s). In addition, interest-bearing Credit Linked Notes may cease to bear interest on or prior to the date of occurrence of such circumstances.

Accordingly, Noteholders may be exposed as of the First Credit Event Occurrence Date mentioned in the applicable Final Terms (which may be earlier than the date of their decision to invest in the Notes or the Issue Date) to the full extent of their investment in the Credit Linked Notes to fluctuations in the creditworthiness of the Reference Entities. Their exposure to the Reference Entities may be leveraged by their investment in the Notes compared to a direct investment in the obligations of such Reference Entities.

In respect of Basket Notes, the greater the number of Reference Entities subject to a Credit Event, the lower the Cash Redemption Amount will be.

In respect of Tranche Notes, as soon as the aggregate of the Loss Amount and Unwind Costs for all Reference Entities subject to a Credit Event exceeds the Tranche Subordination Amount, the greater the number of Reference Entities subject to a Credit Event, the lower the Cash Redemption Amount will be.

4.8.1 Unwind Costs

Where Unwind Costs is specified as Applicable in the applicable Final Terms the Cash Redemption Amount or the Physical Delivery Amount may be reduced by an amount equal to (i) the amount determined by the Calculation Agent where Standard Unwind Costs is applicable or (ii) the amount specified in the applicable Final Terms.

4.8.2 Increased risk in respect of First-to-Default Notes and Tranche Notes

First-to-Default Notes or Tranche Notes create leveraged exposure to the credit risk of Reference Entities as the investors can lose a significant part or the totality of their investment (i) in the case of Tranche Notes even if all the Reference Entities in the Reference Portfolio have not been subject to a Credit Event and (ii) in the case of First-to-Default Notes, as soon as only one single Reference Entity has been subject to a Credit Event.

4.8.3 Concentration risk

The concentration of the Reference Entities in any one industry or geographic region would subject the Notes to a greater degree of risk with respect to economic downturns relating to such industry or geographic region.

In respect of Basket Notes, irrespective of the creditworthiness of each Reference Entity, the fewer Reference Entities there are in a Reference Portfolio, the greater is the degree of risk with respect to the occurrence of each Credit Event.

In respect of First-to-Default Notes, the more Reference Entities there are in the Reference Portfolio, the greater the degree of risk. In respect of such First-to-Default Notes, the first Reference Entity in respect of which a Credit Event occurs will lead to a redemption of such First-to-Default Notes as though such First-to-Default Notes were Credit Linked Notes relating to a single Reference Entity. Accordingly, investors will be exposed to the credit risk of each stipulated Reference Entity.

4.8.4 Discretion to determine if a Credit Event has occurred and to decide whether to give notice or not

The Calculation Agent will determine, in its sole and absolute discretion, the occurrence or not of a Credit Event in respect of any of the Reference Entities, provided certain other conditions described in the Additional Terms and Conditions for Credit Linked Notes are satisfied. Such determination by the Calculation Agent, which is under no obligation to act in the interest of the Noteholders, will (in the absence of manifest error) be final and binding on the Noteholders. Moreover, the Calculation Agent has sole and absolute discretion to decide whether to give notice or not that a Credit Event has occurred with respect to any Reference Entity. A Noteholder may disagree with Publicly Available Information contained in the Credit Event Notice delivered by or on behalf of the Issuer to the relevant Clearing System for the Noteholders' information, but will nevertheless be bound by that determination under the terms of the Notes.

4.8.5 Valuation and settlement in case of Credit Event

Under the terms of the Notes, where Société Générale acts as Calculation Agent, it may, for the purposes of determining the Cash Redemption Amount under the Quotation Dealers Method or the Physical Delivery Amount following one or more Credit Event(s), select obligations with the lowest price of any obligations which meet the relevant criteria. In making such selection, the Calculation Agent will not be liable to account to the Noteholders, or any other person for any profit or other benefit to it or any of its affiliates which may result directly or indirectly from such selection.

Under the Notes, the Final Value is one of the factors in the determination of the redemption amount of the Notes at their Maturity Date in addition to Unwind Costs.

4.8.6 Floating recovery

Where Floating Recovery is specified in the related Final Terms, the terms of the Credit Linked Notes provide that the Calculation Agent will, depending on the election mentioned in the related Final Terms, determine the Final Value either by obtaining quotations from Quotation Dealers in respect of Selected Obligation(s) or by reference to Transaction Auction Settlement Terms (unless no Auction Final Price is available following any relevant Transaction Auction Settlement Terms in which case the Calculation Agent will determine the Final Value in respect of Selected Obligation(s) by obtaining quotations from Quotation Dealers). In this regard, investors should note that: (i) the Final Value as determined by reference to Transaction Auction Settlement Terms may differ from the Final Value determined otherwise and a lower Final Value will typically reduce the amount payable to Noteholders upon redemption of the Notes; and (ii) the Calculation Agent may have a conflict of interest as further described in the paragraph "Conflict of Interest" below.

If Transaction Auction Settlement Terms are not published within a certain period and if it is not possible to obtain quotations from Quotation Dealers for the Selected Obligations within a further period, the

Final Value of the Selected Obligations will be deemed to be zero and therefore the Cash Redemption Amount will be equal to zero. In addition, the above-mentioned periods between Credit Event and valuation may amount to as many as 180 Business Days following the date on which the existence of a Credit Event is established, therefore, settlement, or as the case may be, notice that no amount is due under the Credit Linked Notes, may occur several months after the relevant Credit Event on a date which may be much later than the Scheduled Maturity Date of the Notes.

Where Quotation Dealer is applicable, factors affecting the Quotations Dealers may have a negative impact on the quotations obtained from Quotation Dealers (which may be lower than the value of the relevant obligations) and may as a result adversely affect the Cash Redemption Amount. The Cash Redemption Amount may be equal to zero if it is not possible to obtain quotations from Quotation Dealers for the selected obligations.

4.8.7 Fixed Recovery

Where Fixed Recovery is specified in the related Final Terms, the terms of Credit Linked Notes provide that the Final Value of a Reference Entity in respect of which a Credit Event Determination Date has occurred will be equal to the fixed percentage specified in the related Final Terms (including in particular where such fixed percentage is equal to zero).

This percentage may be lower than the recovery value, which would have been determined by reference to prices quoted by market participants in respect of such Reference Entity. Such recovery values may vary from zero per cent to one hundred per cent. In particular, this percentage may be lower than the recovery value which would have been determined using an auction valuation method usually organised on the credit derivatives market, such as the Auction Final Price determined further to the relevant Credit Derivatives Auction Settlement Terms published by ISDA or the quotations obtained from Quotation Dealers (if Floating Recovery was specified in the applicable Final Terms).

Noteholders will not benefit from any recovery value determined by reference to prices quoted by market participants in respect of such a Reference Entity and are therefore exposed to the risk that the loss resulting from such fixed percentage be significantly bigger than the loss which would have resulted from referring to the recovery value determined by reference to prices quoted by market participants in relation to any such Reference Entity.

If the Fixed Recovery is equal to one hundred per cent, the Notes may be redeemed at par at the Maturity Date which may be later than the Scheduled Maturity Date.

4.8.8 Deferral of valuation and/or payments

In certain circumstances including but not limited to Unsettled Credit Events or in case of Physical Settlement if the Calculation Agent determines that the Specified Deliverable Obligation(s) are Undeliverable Obligation(s), (i) the timing of valuation of the Notes may be deferred and as a result the amount of principal and/or interest payable to the Noteholders may be adversely affected and (ii) payment of principal and/or interest due to the Noteholders may be deferred without compensation to the Noteholders.

4.8.9 Adjustment – Early redemption

Investors should be aware that unless otherwise specified in the applicable Final Terms, an issue of Credit Linked Notes includes provisions to the effect that:

- following the occurrence of certain events affecting any Reference Entity(ies) or any Hedge Positions entered into or to be entered into by the Issuer or any of its affiliates (as more fully described in the Additional Terms and Conditions for Credit Linked Notes), the Calculation Agent may determine, in good faith, the appropriate adjustment(s), if any, to be made to any of the terms of the Terms and Conditions and/or the applicable Final Terms to account for that event and determine the effective date of that adjustment. Such adjustments may in certain circumstances include the selection by the Calculation Agent of a replacement Reference Entity which would not

otherwise be a successor to the affected Reference Entity but which nevertheless meets certain requirements as to rating and/or credit risk and/or geographic criteria. Such adjustment may have an adverse effect on the Final Redemption Amount, the value and liquidity of the affected Credit Linked Notes; or

- following the occurrence of certain events affecting the Hedge Positions entered into or to be entered into by the Issuer or any of its affiliates (as more fully described in the Additional Terms and Conditions for Credit Linked Notes), the Issuer may redeem the Notes at their Market Value. Following such redemption, an investor may not be able to reinvest the redemption proceeds on equivalent terms.

4.8.10 Conflicts of interest

The Noteholders are informed that each of the Issuer and the Dealer may from time to time hold Obligations of the Reference Entities. The rights and obligations of the Issuer under the Notes or any loss suffered by the Noteholders under the Notes are both irrespective of whether the Issuer has a credit exposure to a Reference Entity or has suffered any loss in relation to a Reference Entity.

Société Générale and its affiliates may, at any time, be in possession of information in relation to any Reference Entity or Reference Obligation that is or may be material in the context of the issue of the Notes and that may not be publicly available or known to other third parties. There is no obligation on Société Générale and its affiliates to disclose to the Noteholders or any other party any such relationship or information whether before or after the Issue Date.

Investors should note that the Issuer or the Calculation Agent or the Guarantor may have a conflict of interest to the extent that it participates in any of the ISDA Credit Derivatives Determinations Committee.

In such a role, in relation to any Succession Event or Credit Event or Transaction Auction Settlement Terms, it can (i) submit questions to the ISDA Credit Derivatives Determinations Committee or refuse that such question be submitted to the ISDA Credit Derivatives Determinations Committee and/or (ii) vote in favor or against any resolution of the ISDA Credit Derivatives Determinations Committee following any questions raised to the ISDA Credit Derivatives Determinations Committee. Any such participation may have a negative impact on the Cash Redemption Amount to be received by the Noteholders.

Furthermore, the Issuer or Calculation Agent or Guarantor may participate as a dealer in any auction process used to determine the Final Value in relation to any Reference Entity in relation to which a Credit Event has occurred and whether or not such auction process is organized by ISDA or by the Issuer or Calculation Agent or Guarantor itself. In such a case, the Issuer or Calculation Agent or Guarantor may have a conflict of interest by influencing any such pricing mechanism and therefore the Cash Redemption Amount to be received by the Noteholders.

4.8.11 Credit Rating

Noteholders should be aware that credit ratings do not constitute a guarantee of the quality of the Notes or the Reference Entity(ies). The rating assigned to the Notes by the rating agencies, if any, is based on the Reference Entity(ies)'s current financial condition (or, as the case may be, the Reference Entity(ies)'s long term unsubordinated debt rating) and reflects only the rating agencies' opinions. In respect of the Reference Entity(ies), rating agencies do not evaluate the risks of fluctuation in market value but attempt to assess the likelihood of principal and/or interest payments being made. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time by the assigning agency. Nevertheless, the rating agencies may fail to make timely changes in credit ratings in response to subsequent events so that a Reference Entity(ies)'s current financial condition may be better or worse than a rating indicates. Accordingly a credit rating may not fully reflect the true risks under the Notes.

4.8.12 Amendment to Additional Terms and Conditions for Credit Linked Notes

The Calculation Agent may, acting in good faith and in a commercially reasonable manner, from time to time amend any provision of the Additional Terms and Conditions for Credit Linked Notes and/or the applicable Final Terms (i) to incorporate and/or reflect and/or take account of (x) further or alternative documents or protocols from time to time published by ISDA with respect to credit derivative transactions which may, without limitation, relate to one or more Reference Entities or Reference Entity types and/or the settlement of credit derivative transactions and/or (y) the operation or application of determinations by any Credit Derivatives Determinations Committee and/or (ii) in any manner which the Calculation Agent, acting in good faith and in a commercially reasonable manner, determines is necessary or desirable (including from the perspective of Societe Generale or one of its Affiliates) to reflect or account for market practice for credit derivatives transactions and/or to eliminate or account for any provisions of the Hedge Positions with the aim of ensuring no mismatch or discrepancy between rights and obligations under the Hedge Positions and under the Notes. Such amendments may include, without limitation, varying any date or timing or procedures provided for in the Additional Terms and Conditions for Credit Linked Notes and/or the applicable Final Terms and any such amendments may have an adverse effect on the value of the Notes. PROVIDED THAT, subject as set out below, such amendments may not include changes to the currency of the Notes, the amount of interest payable on the Notes, the Final Redemption Amount payable on the Notes or the Maturity Date of the Notes.

In the event that such amendments lead to a revised Reference Entity then a Credit Event may be triggered on such revised Reference Entity and the consequential provisions of the Additional Terms and Conditions for Credit Linked Notes will apply in the usual manner.

4.9 Risk Factors relating to Structured Notes linked to a Bond

Capitalised terms used in this section, but not otherwise defined in this Base Prospectus shall have the meaning given to them in the Additional Terms and Conditions for Bond Linked Notes

In the event of the occurrence of certain circumstances (which may include, amongst other things, Bond Default, Bond Acceleration, Bond Failure to Pay, Bond Early Redemption or Bond Restructuring) in relation to a Bond or, with respect to Basket Bond Linked Notes, Bonds, in each case as specified in the applicable Final Terms, the obligation of the relevant Issuer to pay principal at maturity may be replaced by an obligation to pay other amounts which are equal to either certain fixed amount(s) as specified in the applicable Final Terms or amounts calculated by reference to the value of the underlying asset(s) (which may, in each case, be less than the par value of the Notes at the relevant time). In addition, interest-bearing Bond Linked Notes may cease to bear interest on or prior to the date of occurrence of such circumstances.

Accordingly, Noteholders may be exposed as of the First Bond Event Occurrence Date mentioned in the applicable Final Terms (which may be earlier than the date of their decision to invest in the Notes or the Issue Date) to the full extent of their investment in the Bond Linked Notes to fluctuations in the creditworthiness of the relevant Bond Issuer, or to the imposition or increase of withholding taxes or other adverse performance of the Bonds. Their exposure to the Bonds may be leveraged by their investment in the Notes compared to a direct investment in such Bonds.

In respect of Basket Bond Linked Notes, the greater the number of Bonds subject to a Bond Event, the lower the Cash Redemption Amount will be.

4.9.1 Concentration Risk

The concentration of the Bond Issuers in any one industry or geographic region would subject the Notes to a greater degree of risk with respect to economic downturns relating to such industry or geographic region.

In respect of Basket Notes, irrespective of the creditworthiness of the relevant Bond Issuer, the fewer Bonds there are in a Reference Portfolio, the greater the degree of risk with respect to the occurrence of each Bond Event.

4.9.2 Discretion to determine if a Bond Event has occurred and to decide whether to give notice or not

The Calculation Agent will determine, in its sole and absolute discretion, the occurrence or not of a Bond Event in respect of any of the Bonds, provided certain other conditions described in the Additional Terms and Conditions for Bond Linked Notes are satisfied. Such determination by the Calculation Agent, which is under no obligation to act in the interest of the Noteholders, will (in the absence of manifest error) be final and binding on the Noteholders. Moreover, the Issuer has sole and absolute discretion to decide whether to give notice or not that a Bond Event has occurred with respect to any Bond. A Noteholder may disagree with Publicly Available Information contained in the Bond Event Notice delivered by or on behalf of the Issuer to the relevant Clearing System for the Noteholders' information, but will nevertheless be bound by that determination under the terms of the Notes.

4.9.3 Publicly Available Information

There may be no obligation to provide Publicly Available Information in relation to a Bond Event. Societe Generale and/or the Issuer may be the sole source of information that a Bond Event has occurred. Furthermore, Societe Generale and/or the Issuer have no obligation to disclose the source of the information that a Bond Event has occurred.

4.9.4 Valuation and settlement in case of Bond Event

Under the Notes, the Bond Final Value is one of the factors in the determination of the redemption amount of the Notes at their Maturity Date.

4.9.5 Floating recovery

Where Floating Recovery is specified in the related Final Terms, the terms of the Bond Linked Notes provide that the Calculation Agent will determine the Bond Final Value by obtaining quotations from Quotation Dealers in respect of the Bonds. In this regard, investors should note that: (i) the Bond Final Value as determined by the Calculation Agent may differ from the Bonds market value determined otherwise and a lower Bond Final Value will typically reduce the amount payable to Noteholders upon redemption of the Notes, and (ii) such Bond Final Value cannot exceed 100% (unless otherwise specified in the applicable Final Terms) of the Bond Notional Amount irrespective of the Bonds market value determined otherwise.

The coupon payable on the Bonds is a factor in the price: *ceteris paribus*, a lower coupon of the Bond is expected to result in a lower Bond Final Value. If it is not possible to obtain full or partial quotations from Quotation Dealers for the Bonds within the further periods described in the Additional Terms and Conditions for Bond Linked Notes, the Bond Final Value of these Bonds could be deemed to be as low as zero and therefore the Cash Redemption Amount will be equal to zero.

In addition, the period between the Bond Event Determination Date and the First Quotation Day may amount to as many as 20 (or such other number as specified in the related Final Terms of the Notes) Business Days following the Bond Event Determination Date. The Additional Terms and Conditions for Bond Linked Notes specify that a Bond Event Determination Date may occur with no maximum delay following the occurrence of a Bond Event. As a consequence, it should be noted that no or a reduced Cash Redemption Amount is due under the Bond Linked Notes and settlement (whether American Settlement or European Settlement is specified in the related Final Terms), may occur several months or years after the relevant Bond Event and on a date which may be later than the Scheduled Maturity Date of the Notes.

4.9.6 Fixed Recovery

Where Fixed Recovery is specified in the related Final Terms, the Additional Terms and Conditions for Bond Linked Notes provide that the Bond Final Value of a Bond in respect of which a Bond Event Determination Date has occurred will be equal to the fixed percentage specified in the related Final Terms (including in particular where such fixed percentage is equal to zero).

This percentage may be lower than the recovery value, which would have been determined by reference to prices quoted by market participants in respect of such Bond. Such recovery values may vary from zero per cent to one hundred per cent. In particular, this percentage may be lower than the recovery value which would have been determined using an auction valuation method usually organised on the bonds market, such as the quotations obtained from Quotation Dealers (if Floating Recovery was specified in the related Final Terms).

Noteholders will not benefit from any recovery value determined by reference to prices quoted by market participants in respect of such Bonds and are therefore exposed to the risk that the loss resulting from such fixed percentage may be significantly greater than the loss which would have resulted from referring to the recovery value determined by reference to prices quoted by market participants in relation to any such Bond.

4.9.7 Breakage Cost Amount

If the Breakage Cost Amount option is specified as applicable in the related Final Terms and a Bond Event Determination Date occurs in respect of a Bond, Noteholders are exposed to the mark-to-market variation between the First Bond Event Occurrence Date and the Bond Final Value Determination Date of (i) a repurchase transaction (if any) with the Bond as underlying asset (whose purpose is to refinance the relevant Bond) and (ii) a repurchase transaction (if any) with the Collateral Assets as underlying asset (whose purpose is to refinance the relevant Collateral Assets). As a consequence, the Cash Redemption Amount to be received by the Noteholders may be reduced, potentially down to zero.

4.9.8 Deferral of valuation and/or payments

In certain circumstances including but not limited to Unsettled Bond Events (i) the timing of valuation of the Notes may be deferred and as a result the amount of principal and/or interest payable to the Noteholders may be adversely affected and (ii) payment of principal and/or interest due to the Noteholders may be deferred without compensation to the Noteholders.

4.9.9 Adjustment – Early redemption

Investors should be aware that unless otherwise specified in the applicable Final Terms, an issue of Bond Linked Notes includes provisions to the effect that:

- (i) following the occurrence of certain events affecting any Bond(s) or any Hedge Positions entered into or to be entered into by the Issuer or any of its affiliates (as more fully described in the Additional Terms and Conditions for Bond Linked Notes), the Calculation Agent may determine, in good faith, the appropriate adjustment(s), if any, to be made to any of the terms of the Terms and Conditions and/or the applicable Final Terms to account for that event and determine the effective date of that adjustment. Such adjustment may have an adverse effect on the Final Redemption Amount and the value and liquidity of the affected Bond Linked Notes; or
- (ii) following the occurrence of certain events affecting the Hedge Positions entered into or to be entered into by the Issuer or any of its affiliates (as more fully described in the Additional Terms and Conditions for Bond Linked Notes), the Issuer may redeem the Notes at their Market Value. Following such redemption, an investor may not be able to reinvest the redemption proceeds on equivalent terms.

4.9.10 Conflicts of interest

The Noteholders are informed that each of the Issuer and the Dealer (and their respective affiliates) may from time to time hold obligations of the Bond Issuers. The rights and obligations of the Issuer under the Notes or any loss suffered by the Noteholders under the Notes are both irrespective of whether the Issuer has a credit exposure to a Bond or has suffered any loss in relation to a Bond.

Société Générale and its affiliates may, at any time, be in possession of information in relation to any Bond Issuer or Bond that is or may be material in the context of the issue of the Notes and that may not be publicly available or known to others. There is no obligation on Société Générale and its affiliates to

disclose to the Noteholders or any other party any such relationship or information whether before or after the Issue Date.

The Issuer or Calculation Agent or Guarantor may participate as a dealer in any auction process used to determine the Bond Final Value in respect of a Bond in relation to which a Bond Event has occurred. In such a case, the Issuer or Calculation Agent or Guarantor may have a conflict of interest by influencing any such pricing mechanism and therefore the Cash Redemption Amount to be received by the Noteholders.

4.9.11 Credit Rating

Noteholders should be aware that credit ratings do not constitute a guarantee of the quality of the Notes or the Bonds. The rating assigned to the Bonds by the rating agencies, if any, is based on the Bond Issuers current financial condition (or, as the case may be, the Bond Issuers long term unsubordinated debt rating) and reflects only the rating agencies' opinions. In respect of the Bond Issuers, rating agencies do not evaluate the risks of fluctuation in market value but attempt to assess the likelihood of principal and/or interest payments being made. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time by the assigning agency. Nevertheless, the rating agencies may fail to make timely changes in credit ratings in response to subsequent events so that a Bond Issuers current financial condition may be better or worse than a rating indicates. Accordingly a credit rating may not fully reflect the true risks under the Notes.

4.10 Risks relating to Physical Delivery Notes

In the case of Notes which are redeemable by delivery of assets, if a Settlement Disruption Event occurs or exists on the due date for redemption of the Notes, such delivery shall occur on the first succeeding day on which delivery of the Physical Delivery Amount can take place through the relevant Clearing System unless a Settlement Disruption Event prevents delivery for a period of 20 Clearing System Days immediately following the original date that would have been the Settlement Date. In that latter case, the relevant Issuer shall, in lieu of delivering the Physical Delivery Amount, pay, in respect of each Note, the fair market value of the number of Underlying(s) (the **Fair Market Value**) or, in respect of Credit Linked Notes, the Cash Redemption Amount per Undeliverable Obligations as defined in the Additional Terms and Conditions for Credit Linked Notes to be delivered converted into the Specified Currency at the current exchange rate, if applicable. The Fair Market Value will be determined by the Calculation Agent on the basis of the market conditions on the first Business Day following the Delivery Period.

In the case of Notes to be admitted to trading on a Regulated Market and/or subject to a Public Offer, no share in Société Générale will be delivered. If the share in Société Générale should be delivered, such share in Société Générale will be replaced by, in due proportion, an equivalent amount in cash.

4.11 Risks relating to Preference Share Linked Notes

The relevant Issuer may issue Preference Share Linked Notes where the amount payable on redemption is determined by reference to the changes in the value of the preference shares (**Preference Shares**) issued by Solentis Investment Solutions PCC (the **Preference Share Issuer**), which may fluctuate up or down depending on the performance of the relevant underlying(s) or basis of reference to which the Preference Shares are linked (the **Preference Share Underlying**) as set out in the terms and conditions of the Preference Shares (the **Terms of the Preference Shares**). If, as a result of the performance of the Preference Share Underlying, the performance of the Preference Shares is negative, the value of the Preference Share Linked Notes will be adversely affected. Purchasers of Preference Share Linked Notes risk losing all or a part of their investment if the value of the Preference Shares falls.

Potential investors in Preference Share Linked Notes should be aware that an investment in Preference Share Linked Notes will entail significant risks not associated with a conventional debt or equity security. Potential investors in Preference Share Linked Notes should conduct their own investigations and, in deciding whether or not to purchase the Preference Share Linked Notes, prospective investors should

form their own views of the merits of an investment related to the Preference Shares based upon such investigations and not in reliance on any information given in this document.

Preference Share Linked Notes will be subject to early redemption if an Early Redemption Event occurs. In these circumstances the Issuer may redeem the Notes at the Early Redemption Amount. The Early Redemption Amount may be less (and in certain circumstances, significantly less) than investors' initial investment.

4.11.1 Exposure to the Preference Share Underlying

The Preference Share Underlying may be a specified index or basket of indices, a specified equity or basket of equities, a specified commodity or basket of commodities, a specified fund share or unit or basket of fund shares or units or such other underlying instruments, bases of reference or factors as may be determined by the Preference Share Issuer and specified in the terms and conditions of the relevant issue of Preference Shares.

Consequently potential investors should also consider the risk factors in respect of the risks involved in investing in Notes (in this case the Preference Shares) linked to certain underlying reference asset(s).

The Terms of the Preference Shares provide that the Preference Shares will be redeemable on their final redemption date (or otherwise in accordance with the Terms of the Preference Shares). On redemption, the Preference Shares will carry preferred rights to receive an amount calculated by reference to the Preference Share Underlying.

Investors should review the Terms of the Preference Shares and consult with their own professional advisers if they consider it necessary.

4.11.2 Credit risk of the Preference Share Issuer

Preference Share Linked Notes are linked to the performance of the relevant Preference Shares. Investors bear the risk of an investment in the Preference Share Issuer. The value of the Preference Share Linked Notes is dependent on the value of the Preference Shares, which will depend in part on the creditworthiness of the Preference Share Issuer, which may vary over the term of the Preference Share Linked Notes.

4.11.3 Potential conflicts of interest

Unless otherwise specified in the applicable Final Terms, Societe Generale is the Calculation Agent in respect of Preference Share Linked Notes and also acts as calculation agent in respect of the Preference Shares (the **Preference Share Calculation Agent**). The Issuers and Societe Generale are affiliates. As a result of this relationship, potential conflicts of interest may arise for the relevant Issuer and Societe Generale in acting in their respective capacities. Subject to any relevant regulatory obligations, the relevant Issuer and the Preference Share Calculation Agent owe no duty or responsibility to any Noteholder to avoid any conflict or to act in the interests of any Noteholder. The Preference Share Issuer may also rely on other Societe Generale group entities (including the Preference Share Calculation Agent) or other service providers to perform its operational requirements. In the event any relevant Societe Generale group entity or other service provider fails to perform any obligations, this may adversely affect the value of the Preference Shares and potentially the amounts payable under the Notes.

In addition to providing calculation agency services to the Preference Share Issuer, Societe Generale or any of its affiliates may perform further or alternative roles relating to the Preference Share Issuer and any issue of Preference Shares including, but not limited to, being involved in arrangements relating to any Preference Share Underlying (for example as calculation agent). Further, Societe Generale or any of its affiliates (including the Issuers) may contract with the Preference Share Issuer and/or enter into transactions, including hedging transactions, which relate to the Preference Share Issuer, the Preference Shares or any Preference Share Underlying and as a result Societe Generale may face a

conflict between its obligations as Preference Share Calculation Agent and its and/or its affiliates' interests in other capacities.

4.11.4 Determination of Extraordinary Events and Additional Disruption Events

The Calculation Agent may determine the occurrence of a Merger Event, Tender Offer, Insolvency or Additional Disruption Event in relation to the Preference Share Linked Notes. Upon such determination, the relevant Issuer may, at its option redeem the Preference Share Linked Notes in whole at the Early Redemption Amount which may be less than the amount invested in the Preference Share Linked Notes. Noteholders will not benefit from any appreciation of the Preference Shares that may occur following such redemption.

4.11.5 No ownership rights

An investment in Preference Share Linked Notes is not the same as an investment in the Preference Shares and does not confer any legal or beneficial interest in the Preference Shares or any Preference Share Underlying or any voting rights, right to receive dividends or other rights that a holder of the Preference Shares or any Preference Share Underlying may have.

4.11.6 Hedging activities of the relevant Issuer and its affiliates

The relevant Issuer or its affiliates may carry out hedging activities related to the Preference Share Linked Notes, including purchasing the Preference Shares and/or purchasing or entering into contracts relating to the Preference Share Underlying, but will not be obliged to do so. Certain of the relevant Issuer's affiliates may also purchase and sell the Preference Shares and/or purchase and sell or enter into contracts relating to the Preference Share Underlying on a regular basis as part of their regular business. Any of these activities could adversely affect the value of the Preference Share Underlying and, accordingly, the value of the Preference Shares and the Preference Share Linked Notes.

4.12 Risks relating to Warrant Linked Notes

Each Issuer may issue Warrant Linked Notes where the amount payable on redemption is determined by reference to the changes in the value of warrants issued by the Warrant Issuer (**Warrants**). The value of the Warrants may fluctuate up or down depending on the performance of the relevant underlying(s) or basis of reference to which the Warrants are linked (the **Warrant Underlying**) as set out in the terms and conditions of the Warrants (the **Warrant Conditions**). If, as a result of the performance of the Warrant Underlying, the performance of the Warrants is negative the value of the Warrant Linked Notes will be adversely affected. Purchasers of Warrant Linked Notes risk losing all or a part of their investment if the value of the Warrants falls.

Potential investors in Warrant Linked Notes should be aware that an investment in Warrant Linked Notes will entail significant risks not associated with a conventional debt or equity security. Potential investors in Warrant Linked Notes should conduct their own investigations and, in deciding whether or not to purchase the Warrant Linked Notes, prospective investors should form their own views of the merits of an investment related to the Warrants based upon such investigations and not in reliance on any information given in this document.

Warrant Linked Notes will be subject to early redemption if a Warrant Termination Event occurs or, if applicable, an Additional Disruption Event occurs. In these circumstances the Issuer may redeem the Notes at the Early Redemption Amount. The Early Redemption Amount may be less (and in certain circumstances, significantly less) than investors' initial investment.

4.12.1 Exposure to the Warrant Underlying

The Warrant Underlying may include an index or basket of indices in each case comprising listed equities or commodities, a specified listed equity or basket of listed equities or a specified commodity or basket of commodities.

Consequently potential investors should also consider the risk factors in respect of the risks involved in investing in Notes (in this case the Warrants) linked to certain underlying reference asset(s).

Investors should review the Warrant Conditions and consult with their own professional advisers if they consider it necessary.

4.12.2 Credit risk of the issuer of the Warrants

Warrant Linked Notes are linked to the performance of the relevant Warrants. Investors bear the risk of an investment in the issuer of the Warrants. The value of the Warrant Linked Notes is dependent on the value of the Warrants, which will depend in part on the creditworthiness of the issuer of the Warrants, which may vary over the term of the Warrant Linked Notes.

4.12.3 Potential conflicts of interest

In the case of Warrant Linked Notes, the relevant Issuer may also be the issuer and/or the calculation agent in respect of the Warrants underlying the Notes. Potential conflicts of interest may arise for the relevant Issuer in acting in each of these capacities. In addition as issuer or calculation agent in respect of the warrants underlying the Notes, the relevant Issuer or any of its affiliates may perform further or alternative roles including, but not limited to, being involved in arrangements relating to any of the underlying reference assets (for example as a calculation agent).

4.12.4 Determination of Extraordinary Events and Additional Disruption Events

The Calculation Agent may determine the occurrence of a Warrant Termination Event or Additional Disruption Event in relation to the Warrant Linked Notes. Upon such determination, the relevant Issuer may, at its option redeem the Warrant Linked Notes in whole at the Early Redemption Amount, which may be less than the amount invested in the Warrant Linked Notes. Noteholders will not benefit from any appreciation of the Warrants that may occur following such redemption.

4.12.5 No ownership rights

An investment in Warrant Linked Notes is not the same as an investment in the Warrants and does not confer any legal or beneficial interest in the Warrants or any Warrant Underlying or any rights that a holder of the Warrants or any Warrant Underlying may have.

4.12.6 Hedging activities of the relevant Issuer and its affiliates

The relevant Issuer or its affiliates may carry out hedging activities related to the Warrant Linked Notes, including purchasing the Warrants and/or purchasing or entering into contracts relating to the Warrant Underlying, but will not be obliged to do so. Certain of the relevant Issuer's affiliates may also purchase and sell the Warrants and/or purchase and sell or enter into contracts relating to the Warrant Underlying on a regular basis as part of their regular business. Any of these activities could adversely affect the value of the Warrant Underlying and, accordingly, the value of the Warrants and the Warrant Linked Notes.

4.13 Risks Factors relating to Structured Notes linked to a Foreign Exchange Rate

4.13.1 Factors affecting the performance of the relevant Foreign Exchange Rate may adversely affect the value of the Notes

The performance of Foreign Exchange Rates, currency units or units of account are dependent upon the supply and demand for currencies in the international foreign exchange markets, which are subject to economic factors, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, fiscal and monetary policy, government debt, currency convertibility and safety of making financial investments in the currency concerned, speculation and intervening measures taken by governments and central banks. Such measures include, without limitation, imposition of regulatory controls or taxes, issuance of a new

currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates as well as the availability of a specified currency. Any such measures could have a negative impact on the value of a Foreign Exchange Rate and consequently the value of the Notes.

4.13.2 Currency exchange risks are heightened in the current climate of financial uncertainty

Currency exchange risks can be expected to heighten in periods of financial turmoil. In periods of financial turmoil, capital can move quickly out of regions that are perceived to be more vulnerable to the effects of the crisis with sudden and severely adverse consequences to the currencies of those regions as a result. In addition, governments around the world have recently made, and may be expected to continue to make, very significant interventions in their economies, and sometimes directly in their currencies. It is not possible to predict the effect of any future legal or regulatory action relating to a currency. Further interventions, other government actions or suspensions of actions, as well as other changes in government economic policy or other financial or economic events affecting the currency markets - including the replacement of entire currencies with new currencies - may cause Foreign Exchange Rates to fluctuate sharply in the future, which could have a negative impact on the value of the Notes.

4.14 Risks Factors relating to Structured Notes linked to an Exchange Traded Fund

4.14.1 Where the underlying Asset is an Exchange Traded Fund, there is a risk that such Exchange Traded Fund will not accurately track its underlying share or index

Where the Notes are linked to an Exchange Traded Fund (an “ETF”) and the investment objective of such ETF is to track the performance of a share or an index, the investors of such Notes are exposed to the performance of such ETF rather than the underlying share or index such ETF tracks. For certain reasons, including to comply with certain tax and regulatory constraints, an ETF may not be able to track or replicate the constituent securities of the underlying share or index, which could give rise to a difference between the performance of the underlying share or index and such ETF. Accordingly, investors who purchase Notes that are linked to an ETF may receive a lower return than if such investors had invested in the share or the index underlying such ETF directly.

4.14.2 Action or non-performance by the management company, fund administrator or sponsor of an ETF may adversely affect the Notes

The management company, fund administrator or sponsor of an ETF will have no involvement in the offer and sale of the Notes and will have no obligation to any purchaser of such Notes. The management company, fund administrator or sponsor of an ETF may take any actions in respect of such ETF without regard to the interests of the purchasers of the Notes, and any of these actions could adversely affect the market value of the Notes. In its day-to-day operations and its investment strategy, an ETF will rely on the fund advisor, the investment advisor, the management company and/or on third parties providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments used by such ETF to employ its investment strategy. The insolvency or non-performance of services of any such persons or institutions may expose an ETF to financial loss. Failure of procedures or systems, as well as human error or external events associated with an ETF's management and/or administration may cause losses to an ETF and affect the market value of the Notes.

4.14.1 Exchange traded funds are not actively managed

An ETF is not actively managed and may be affected by general movements in market segments related to the index or other asset it is tracking. An ETF invests in instruments included in, or that are representative of, the index or other asset it is tracking regardless of their investment merits.

4.14.1 Exchange traded funds may engage in securities lending

Securities lending involves the risk that the ETF may lose money because the borrower of the ETF's loaned securities fails to return the securities in a timely manner or at all.

4.14.1 Exchange traded funds are subject to market trading risks

An ETF faces numerous market trading risks, including but not limited to the potential lack of an active market for its shares, losses from trading in secondary markets, periods of high volatility, limited liquidity and disruption in the creation or redemption process of such ETF. If any of these risks materialises, this may lead to the ETF shares trading at a premium or discount to the net asset value.

4.15 Risks Factors relating to Structured Notes linked to Inflation

4.15.1 The level of an Inflation Index may lag or otherwise not track the actual level of inflation in the relevant jurisdiction

Inflation Indices may not correlate with other indices and may not correlate perfectly with the rate of inflation experienced by purchasers of the Securities in such jurisdiction. The value of the Securities which are linked to an Inflation Index may be based on a calculation made by reference to such Inflation Index for a month which is several months prior to the date of payment on the Securities and therefore could be substantially different from the level of inflation at the time of the payment on the Securities.

4.15.2 Exposure to certain events in relation to an Inflation Index and the discretion of the Issuer

Upon the occurrence of certain events in relation to an Inflation Index, e.g., the Inflation Index level has not been published or is discontinued or is corrected or such Inflation Index is rebased or materially modified, then, depending on the particular event, the Issuer has discretion to determine the level, substitute the original Inflation Index, adjust the terms and conditions of the Securities or redeem the Securities. Any such event and consequent exercise of discretion by the Issuer may have an adverse effect on the value of the Securities.

4.16 Risks Factors relating to Structured Notes linked to a Reference Rate

An investment in a Reference Rate will entail significant risks not associated with an investment in a conventional debt security. On redemption or exercise, as the case may be, of Securities linked to a Reference Rate, Holders will receive an amount (if any) determined by reference to the value of the underlying Reference Rate(s). While the market value of a Reference Rate under normal circumstances is relatively insensitive to changes in interest rates, the income received (if any) is highly dependent upon the value of the Reference Rate over the life of the investment. Total return may be less than anticipated if future interest rate or Reference Rate expectations are not met.

4.17 Risks relating to Dual Currency Notes

The Issuers may issue Dual Currency Notes (or other Notes linked to currencies) where the amount of principal and/or interest payable are dependent upon movements in currency exchange rates or are payable in one or more currencies which may be different from the currency in which the Notes are denominated. Accordingly an investment in Dual Currency Notes may bear similar market risks to a direct foreign exchange investment and potential investors should take advice accordingly.

Potential investors in any such Notes should be aware that, depending on the terms of the Dual Currency Notes, (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time or in a different currency than expected and (iii) they may lose a substantial portion of their investment. In addition, movements in currency exchange rates may be subject to significant fluctuations that may or may not correlate with changes in interest rates or other indices and the timing of changes in the exchange rates may affect the actual yield to investors, even if the average level is consistent with their expectations.

Exchange rates between currencies are determined by factors of supply and demand in the international currency markets which are influenced by macro economic factors, speculation and central bank and government intervention (including the imposition of currency controls and restrictions which could result in the receipt of reduced payment and/or otherwise make it impossible or impracticable for the relevant Issuer to meet its repayment obligations in the original currency of the Notes). In recent years, rates of exchange between some currencies have been volatile. This volatility may be expected in the future. Fluctuations that have occurred in any particular exchange rate in the past are not necessarily indicative, however, of fluctuation that may occur in the rate during the term of any Note. Fluctuations in exchange rates will affect the value of Dual Currency Notes.

If the amount of principal and/or interest payable is dependent upon movements in currency exchange rates and are determined in conjunction with a multiplier greater than one, or by reference to some other leverage factor, the effect of changes in the currency exchange rates on principal or interest payable will be magnified.

The market price of such Notes may be volatile and, if the amount of principal and/or interest payable are dependent upon movements in currency exchange rates, may depend upon the time remaining to the relevant redemption date and the volatility of currency exchange rates. Movements in currency exchange rates may be dependent upon economic, financial and political events in one or more jurisdictions.

4.18 Risks Factors relating to Notes denominated in CNY

4.18.1 *CNY is not freely convertible and the liquidity of the Notes denominated in Renminbi may be adversely affected*

CNY is not freely convertible at present. The PRC government continues to regulate conversion between CNY and foreign currencies, including the Hong Kong Dollar, despite the significant reduction over the years by the PRC government of its control over routine foreign exchange transactions under current accounts. The People's Bank of China (**PBOC**) has established a CNY clearing and settlement system for participating banks in Hong Kong pursuant to a settlement agreement relating to the clearing of CNY business between PBOC and Bank of China (Hong Kong) Limited. However, the current size of CNY and CNY denominated financial assets in Hong Kong is limited, and its growth is subject to many constraints which are directly affected by PRC laws and regulations on foreign exchange and may adversely affect the liquidity of the Notes.

4.18.2 *CNY currency risk*

All payments of CNY under the Notes to the Noteholders will be made solely by transfer to a CNY bank account maintained in Hong Kong in accordance with the prevailing rules and regulations and in accordance with the terms and conditions of the Notes. The relevant Issuer cannot be required to make payment by any other means (including in bank notes or by transfer to a bank account in the PRC or anywhere else outside Hong Kong). CNY is not freely convertible at present, and conversion of CNY into other currencies through banks in Hong Kong is subject to certain restrictions. In particular, for personal investors, currently conversions of CNY conducted through CNY deposit accounts are subject to a daily limit (as of the date hereof, such limit being up to CNY20,000 per person per day), and investors may have to allow time for conversion of CNY from/to another currency of an amount exceeding such daily limit.

In addition, there can be no assurance that access to CNY for the purposes of making payments under the Notes or generally may remain or will not become restricted. If it becomes impossible to convert CNY from/to another freely convertible currency, or transfer CNY between accounts in Hong Kong, or the general CNY exchange market in Hong Kong becomes illiquid, any payment of CNY under the Notes may be delayed or the relevant Issuer may make such payments in another currency selected by the relevant Issuer using an exchange rate determined by the Calculation Agent, or the relevant Issuer may redeem the Notes by making payment in another currency.

4.18.3 **CNY exchange rate risk**

The value of CNY against the Hong Kong dollar and other foreign currencies fluctuates and is affected by changes in the PRC and international political and economic conditions and by many other factors. The relevant Issuer will make all CNY payments under the Notes in CNY (subject to the second paragraph under the heading "CNY currency risk" above). As a result, the value of such payments in CNY (in Hong Kong dollar or other applicable foreign currency terms) may vary with the prevailing exchange rates in the marketplace. If the value of CNY depreciates against the Hong Kong dollar or other foreign currencies, the value of an investor's investment in Hong Kong dollar or other applicable foreign currency terms will decline.

4.18.4 **CNY interest rate risk**

Where applicable, the value of CNY payments under the Notes may be susceptible to interest rate fluctuations, including Chinese CNY Repo Rates and/or the Shanghai inter-bank offered rate (**SHIBOR**).

5. **GENERAL, MARKET AND OTHER RISKS**

5.1 **Risks related to Notes generally**

Set out below is a brief description of certain risks relating to the Notes generally:

5.1.1 **Modification**

The conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

5.1.2 **French Insolvency Law**

Under French insolvency law as amended by ordinance n°2008-1345 dated 18 December 2008 and by law n°2010-1249 dated 22 October 2010 applicable as from 1st March 2011, holders of debt securities are automatically grouped into a single assembly of holders (the **Assembly**) in order to defend their common interests if a safeguard procedure (*procédure de sauvegarde*), accelerated safeguard procedure as from 1st July 2014 (*procédure de sauvegarde accélérée*), accelerated financial safeguard procedure (*procédure de sauvegarde accélérée*), or a judicial reorganisation procedure (*procédure de redressement judiciaire*) is opened in France with respect to any one of the Issuers.

The Assembly comprises holders of all debt securities issued by the Issuers (including the Notes), whether or not under a debt issuance programme (such as a Euro Medium Term Note programme) and regardless of their governing law.

The Assembly deliberates on the proposed safeguard plan (*projet de plan de sauvegarde*), proposed accelerated safeguard plan (*projet de plan de sauvegarde accélérée*), proposed accelerated financial safeguard plan (*projet de plan de sauvegarde financière accélérée*) or draft judicial reorganisation plan (*projet de plan de redressement*) applicable to the Issuers and may further agree to:

- increase the liabilities (*charges*) of holders of debt securities (including the Noteholders) by rescheduling due payments and/or partially or totally writing off receivables in the form of debt securities;
- establish an unequal treatment between holders of debt securities (including the Noteholders) as appropriate under the circumstances; and/or
- decide to convert debt securities (including the Notes) into securities that give or may give right to share capital.

Decisions of the Assembly will be taken by a two-thirds majority (calculated as a proportion of the debt securities held by the holders expressing a vote). No quorum is required to convoke the Assembly.

For the avoidance of doubt, the provisions relating to the Representation of the Noteholders described in this Base Prospectus as completed by the applicable Final Terms will not be applicable to the extent they are not in compliance with compulsory insolvency law provisions that apply in these circumstances.

5.1.3 Change of law

The conditions of the Notes (including any non-contractual obligations arising therefrom or connected therewith) are based on relevant laws in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to such laws, or the official application or interpretation of such laws or administrative practices after the date of this Base Prospectus.

5.1.4 Legality of purchase

Neither the relevant Issuer, the Arranger, the Dealer(s) nor any of their respective affiliates has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective investor in the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective investor with any law, regulation or regulatory policy applicable to it.

5.1.5 Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

5.1.6 Taxation

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or documentary charges or duties in accordance with the laws and practices of the country where the Notes are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available in relation to the tax treatment of financial instruments such as the Notes. Potential investors are advised not to rely upon the tax summary contained in this Programme but to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, holding, sale and redemption of the Notes. Only such adviser is in a position to duly consider the specific situation of the potential investor. This investment consideration has to be read in connection with the taxation sections of this Base Prospectus.

5.1.7 EU Savings Directive

Under Council Directive 2003/48/EC on the taxation of savings income, Member States are required to provide to the tax authorities of other Member States details of certain payments of interest or similar income paid or secured by a person established in a Member State to or for the benefit of an individual resident in another Member State or certain limited types of entities established in another Member State.

On 24 March 2014, the Council of the European Union adopted a Council Directive amending and broadening the scope of the requirements described above. Member States are required to apply these new requirements from 1 January 2017. The changes will expand the range of payments covered by the Directive, in particular to include additional types of income payable on securities. The Directive will also apply a "look through approach" to certain payments where an individual resident in a Member State is regarded as the beneficial owner of that payment for the purposes of the Directive. This approach may apply to payments made to or by, or secured for or by, persons, entities or legal arrangements (including

trusts), where certain conditions are satisfied, and may in some cases apply where the person, entity or arrangement is established or effectively managed outside of the European Union.

For a transitional period, Luxembourg and Austria are required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments. The changes referred to above will broaden the types of payments subject to withholding in those Member States which still operate a withholding system when they are implemented. In April 2013, the Luxembourg Government announced its intention to abolish the withholding system with effect from 1 January 2015, in favour of automatic information exchange under the Directive.

The end of the transitional period is dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries. A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment, neither the relevant Issuer nor the Guarantor (as the case may be) nor any Paying Agent (as defined in the Conditions of the Notes) nor any other person would be obliged to pay additional amounts in respect to any Note as a result of the imposition of such withholding tax. The Issuers are required to maintain a Paying Agent in a Member State that is not obliged to withhold or deduct tax pursuant to the Directive.

5.1.8 The proposed financial transactions tax (FTT)

The European Commission has published a proposal for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the **participating Member States**).

The proposed FTT has very broad scope and could, if introduced in its current form, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances.

Under current proposals the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

The FTT proposal remains subject to negotiation between the participating Member States and is the subject of legal challenge. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate. Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

5.1.9 The US Foreign Account Tax Compliance Act (FATCA) withholding risk

FATCA generally imposes a 30 per cent. withholding tax on certain payments to certain non-US financial institutions that do not enter into and comply with an agreement with the U.S. Internal Revenue Service (the **IRS**) to provide certain information on its U.S. accountholders (including the holders of its debt or equity). The IRS is still in the process of developing and issuing guidance on the implementation of FATCA and the full extent and implications of the legislation are presently unclear in the market. Therefore, it is not certain whether FATCA will ultimately impose obligations on certain Noteholders or the Issuers (see "Taxation – Other Jurisdictions – United States").

FATCA IS PARTICULARLY COMPLEX AND ITS APPLICATION TO THE ISSUERS IS UNCERTAIN AT THIS TIME. EACH NOTEHOLDER SHOULD CONSULT ITS OWN TAX ADVISER TO OBTAIN A MORE DETAILED EXPLANATION OF FATCA AND TO DETERMINE HOW THIS LEGISLATION MIGHT AFFECT EACH HOLDER IN ITS PARTICULAR CIRCUMSTANCES. FOR MORE INFORMATION SEE SECTION "TAXATION".

5.1.10 *The Dodd-Frank Wall Street Reform and Consumer Protection Act*

The Dodd-Frank Wall Street Reform and Consumer Protection Act (**Dodd-Frank**), which provides for substantial changes to the regulation of the futures and over-the-counter (**OTC**) derivative markets, was enacted in July 2010.

Dodd-Frank requires regulators, including the CFTC, the Securities and Exchange Commission (the **SEC**) the Department of the Treasury, the Financial Stability Oversight Council (the **FSOC**), the Office of the Comptroller of the Currency, and the Federal Deposit Insurance Corporation to adopt regulations to implement many of the requirements of the legislation. While certain regulations under Dodd-Frank have been adopted, much of the significant rule-making remains to be done, and the ultimate nature and scope of the regulations cannot yet be determined.

Under Dodd-Frank, the CFTC has approved a final rule to impose limits on the size of positions that can be held by market participants with respect to 28 physical commodity futures contracts as well as futures and swaps that are economically equivalent to those contracts. Moreover, the CFTC's rule on position limits was vacated by federal court in September 2012, and in November 2012, the CFTC decided to appeal against the court's decision. While the precise scope and effect of the final rule is therefore not yet known, these limits, once final, will likely restrict the ability of market participants to participate in the commodity, future and swap markets and markets for other OTC derivatives to the extent and at the levels that they have in the past. These factors may have the effect of reducing liquidity and increasing costs in these markets as well as affecting the structure of the markets in other ways.

In addition, these legislative and regulatory changes will likely increase the level of regulation of markets and market participants, and therefore the costs of participating in the commodities, futures and OTC derivative markets. Without limitation, these changes will require many OTC derivative transactions to be executed on regulated exchanges or trading platforms and cleared through regulated clearing houses. Swap dealers are already required to be registered, to comply with business conduct standards and to clear certain classes of interest rate and credit default swaps through registered derivatives clearing organizations (unless an exception to clearing applies). In the future, swap dealers will likely be subject to various additional regulatory requirements, including capital and margin requirements, although CFTC rules relating to capital and margin have not yet been finalized. The various legislative and regulatory changes, and the resulting increased costs and regulatory oversight requirements, could result in market participants being required to, or deciding to, limit their trading activities, which could cause reductions in market liquidity and increases in market volatility. These consequences could adversely affect the return on and value of the Notes.

Dodd-Frank also requires the SEC to promulgate rules generally prohibiting firms from underwriting or sponsoring an asset-backed security, including certain synthetic structured products, that would result in a material conflict of interest with respect to investors in that security; establishes the FSOC to oversee systemic risk, and provides regulators with the power to require companies deemed "systemically important" to sell or transfer assets and terminate activities if the regulators determine that the size or scope of activities of the company pose a threat to the safety and soundness of the company or the financial stability of the United States; requires covered entities to provide a credible plan for resolution under the Bankruptcy Code, and provides sanctions that include divestiture of assets or restructuring in the event the plan is deemed insufficient; and requires several regulators to jointly promulgate rules implementing prohibitions and restrictions on proprietary trading and certain interests in, and relationships with, hedge funds and private equity funds (the **Volcker Rule**). Once the Volcker Rule becomes effective, it could prohibit Société Générale from owning the Issuer or guaranteeing payments on the Notes (including previously issued Notes and outstanding Notes).

Given that the full scope and consequences of the enactment of Dodd-Frank and the rules still to be enacted thereunder are not yet known, investors are urged to consult their own advisors regarding the suitability of an investment in any Notes under the Programme.

Further, the Issuer could be required to register as a commodity pool operator and to register one or more issue of Notes as commodity pools with the CFTC through the National Futures Association. Such

additional registrations may result in increased reporting obligations and also in extraordinary, non-recurring expenses of the Issuers thereby materially and adversely impacting a Note's value.

In addition, other regulatory bodies have proposed or may propose in the future regulations similar to those required by Dodd-Frank or other regulations containing other restrictions that could adversely impact the liquidity of and increase costs of entering into derivatives transaction. For example, the European Commission recently published a proposal to update the Markets in Financial Instruments Directive (MiFID II) and Markets in Financial Instruments Regulation (MiFIR), which proposes regulations to establish position limits (or an alternative equivalent) on trading derivatives, although the scope of any final rules and the degree to which member states will be required or permitted to adopt these regulations or additional regulations remains unclear. If these regulations are adopted or other regulations are adopted in the future, they could have an adverse impact on the return on and value of the Notes. Furthermore, potential inconsistency between regulations issued by different regimes could lead to market fragmentation.

5.1.11 European Market Infrastructure Regulation and Markets in Financial Instruments Directive

In addition, European Regulation 648/2012, known as the European Market Infrastructure Regulation (**EMIR**) entered into force on 16 August 2012 and took direct effect in the member states of the European Union in February 2014. Under EMIR certain over-the-counter (**OTC**) derivatives that are traded in the European Union by financial counterparties (**FCs**), such as investment firms, credit institutions and insurance companies, and certain non-financial counterparties (**NFCs**) have to be cleared (the **clearing obligation**) via an authorised central clearing counterparty (a **CCP**). In addition, EMIR requires the reporting of OTC derivative contracts to a trade repository (the **reporting obligation**) and introduces certain risk mitigation requirements in relation to OTC derivative contracts that are not cleared by a CCP.

Under EMIR, a CCP will be used to meet the clearing obligation by interposing itself between the counterparties to the eligible derivative contracts. CCPs will connect with derivative counterparties through their clearing members. Each derivative counterparty will be required to post both initial and variation margin to the clearing member, which will in turn be required to post margin to the CCP. EMIR requires CCPs to only accept highly liquid collateral with minimal credit and market risk. A Non-FCP may also be subject to the clearing obligation and the reporting obligation, subject to its positions in OTC derivatives contracts exceeding certain thresholds. Whilst it appears that an entity like the Issuer would be considered a Non-FCP under EMIR, the position remains to be fully clarified. Thus, it cannot be excluded that the Issuer will be subject to the clearing obligation in the future. Non-FCPs which enter into an OTC derivative contract which are not "eligible" for clearing would have to ensure that appropriate procedures and arrangements are in place to monitor and minimise operational and credit risk.

The Issuer may have to apply certain risk mitigation techniques in relation to timely confirmation, portfolio reconciliation and compression, and dispute resolution that are applicable to OTC derivatives contracts that are not cleared by a CCP. Further, the Issuer will be required to deliver certain information about any Swap to a registered or recognised trade repository. The European Securities and Markets Authority (**ESMA**) has developed certain regulatory and implementing technical regulation standards in connection with EMIR that have been adopted by the European Commission. According to these standards the starting date for such reporting obligation depends on the point in time when the responsible trade repositories in the various jurisdictions become registered. If no registered trade repository is registered by 1 July 2015, the reporting obligation will commence on this date and contracts will have to be reported to ESMA. Therefore, to date, it is not entirely clear when the reporting obligations for the Issuer under EMIR will start to apply. According to the regulatory technical standards adopted as Commission Delegated Regulation (EU) No 149/2013 of 19 December 2012 that entered into force on 15 March 2013, the obligations in relation to certain risk mitigation techniques (portfolio reconciliation, portfolio compression and dispute resolution) will apply as of 15 September 2013. EMIR also imposes a record-keeping requirement pursuant to which counterparties must keep records of any

derivative contract they have concluded and any modification for at least five years following the termination of the contract.

The EU regulatory framework relating to derivatives is set not only by EMIR but also by the proposal to update the existing Markets in Financial Instruments Directive (**MiFID II**) which have not been finalised. In particular, MiFID II is expected to require all transactions in OTC derivatives to be executed on a trading venue. In this respect, it is difficult to predict the full impact of these regulatory requirements on the Issuer.

Investors in the Secured Notes should be aware that the regulatory changes arising from EMIR and MiFID II may in due course significantly raise the costs of entering into derivative contracts and may adversely affect the Issuer's ability to engage in transactions in OTC derivatives. As a result of such increased costs or increased regulatory requirements, investors may receive less interest or return, as the case may be. Investors should be aware that such risks are material and that the Issuer could be materially and adversely affected thereby. The full impact of EMIR and of MiFID II remains to be clarified and the scope of their possible implications of for investors in the Secured Notes cannot currently be predicted. As such, investors should consult their own independent advisers and make their own assessment about the potential risks posed by EMIR and MiFID II and technical implementation in making any investment decision in respect of the Secured Notes. ///

5.1.12 Eurosystem eligibility for New Global Notes and Registered Global Notes

New Global Notes and Registered Global Notes issued under the new safekeeping structure (NSS) may be issued with the intention that such Notes be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem, either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria as specified by the European Central Bank. However, there is no guarantee that such Notes will be recognised as eligible collateral. Any other Notes are not intended to be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem.

5.1.13 Notes where denominations involve integral multiples: Definitive Bearer Notes

In relation to any issue of Bearer Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Bearer Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a Definitive Bearer Note in respect of such holding (should Definitive Bearer Notes be printed) and would need to purchase a principal amount of Bearer Notes such that its holding amounts to a Specified Denomination.

If Definitive Bearer Notes are issued, holders should be aware that Definitive Bearer Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

5.1.14 Transfer restrictions

The Notes may be subject to certain transfer restrictions. In particular, any Notes offered and sold or intended to be transferred in the United States or to, or for the account or benefit of, U.S. Persons, can only be sold or otherwise transferred to certain transferees as described under "*Subscription, Sale and Transfer Restrictions*". Such restrictions on transfer may limit the liquidity of such Notes. Consequently, a purchaser must be prepared to hold such Notes for an indefinite period of time and potentially until their maturity.

Any sale or transfer of Notes in the United States or to, or for the account or benefit of, U.S. Persons in violation of the transfer restrictions that would cause any Issuer to become required to register as an investment company under the Investment Company Act will be void *ab initio* and will not be honoured by the relevant Issuer, except to the extent otherwise required by law. In addition, the relevant Issuer

may, in its discretion, redeem the Notes held by such purchaser or other transferee or compel any such purchaser or other transferee to transfer such Notes. Any such redemption or forced transfer may result in a significant loss of a Noteholder's investment.

5.1.15 *Investment Company Act*

Neither SG Issuer, SGA Société Générale Acceptance N.V. nor SG Option Europe has registered with the United States Securities and Exchange Commission (the **SEC**) as an investment company pursuant to the Investment Company Act. Investors in the Notes will not have the protections of the Investment Company Act.

If the SEC or a court of competent jurisdiction were to find that the relevant Issuer is required, but in violation of the Investment Company Act, has failed, to register as an investment company, possible consequences include, but are not limited to, the following: (i) the SEC could apply to a district court to enjoin the violation; (ii) investors in the relevant Issuer could sue such Issuer and recover any damages caused by the violation; and (iii) any contract to which the relevant Issuer is party that is made in, or whose performance involves, a violation of the Investment Company Act would be unenforceable by any party to the contract unless a court were to find that under the circumstances enforcement would produce a more equitable result than non-enforcement and would not be inconsistent with the purposes of the Investment Company Act. Should the relevant Issuer be subjected to any or all of the foregoing, such Issuer would be materially and adversely affected.

5.1.16 *A Noteholder's actual yield on the Notes may be reduced from the stated yield by transaction costs*

When Notes are purchased or sold, several types of incidental costs (including transaction fees and commissions) are incurred in addition to the current price of the security. These incidental costs may significantly reduce or even exclude the profit potential of the Notes. For instance, credit institutions as a rule charge their clients for own commissions which are either fixed minimum commissions or pro-rata commissions depending on the order value. To the extent that additional – domestic or foreign – parties are involved in the execution of an order, including but not limited to domestic dealers or brokers in foreign markets, Noteholders must take into account that they may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (third party costs).

In addition to such costs directly related to the purchase of securities (direct costs), Noteholders must also take into account any follow-up costs (such as custody fees). Prospective investors should inform themselves about any additional costs incurred in connection with the purchase, custody or sale of the Notes before investing in the Notes.

5.1.17 *There is a risk that trading in the Notes and/or Underlyings will be suspended, interrupted or terminated*

If the Notes are listed on one (or more) markets (which may be regulated or unregulated), the listing of such Notes may – depending on the rules applicable to such stock exchange – be suspended or interrupted by the respective stock exchange or a competent regulatory authority upon the occurrence of a number of reasons, including violation of price limits, breach of statutory provisions, occurrence of operational problems of the stock exchange or generally if deemed required in order to secure a functioning market or to safeguard the interests of investors. Furthermore, trading in the Notes may be terminated, either upon decision of the stock exchange, a regulatory authority or upon application by the Issuer. Where trading in an Underlying of the Notes is suspended, interrupted or terminated, trading in the respective Notes will usually also be suspended, interrupted or terminated and existing orders for the sale or purchase of such Notes will usually be cancelled. Investors should note that the Issuer has no influence on trading suspension or interruptions (other than where trading in the Notes is terminated upon the Issuer's decision) and that investors in any event must bear the risks connected therewith. In particular, investors may not be able to sell their Notes where trading is suspended, interrupted or terminated, and the stock exchange quotations of such Notes may not adequately reflect the price of such Notes. Furthermore, a trading suspension, interruption or termination of Underlyings of the Notes may cause a suspension, interruption or termination of trading in the Notes and may as well result in an

artificial or wrong valuation of the Notes. Finally, even if trading in Notes or Underlyings is suspended, interrupted or terminated, investors should note that such measures may neither be sufficient nor adequate nor in time to prevent price disruptions or to safeguard the investors' interests; for example, where trading in Notes is suspended after price-sensitive information relating to such Notes has been published, the price of such Notes may already have been adversely affected. All these risks would, if they materialise, have a material adverse effect on the investors.

5.1.18 Risk of difficulties regarding assertion of rights against an Issuer and/or Guarantor established and operating in another jurisdiction than the investor's home jurisdiction

In the event of a dispute with the Issuer and/or Guarantor, investors who are not resident in, or does not have their habitual residence in, the state of the Issuer, are exposed to the risk of severe assertion and enforcement of their rights resulting from the Notes.

5.1.19 Risk relating to Resolutions of Noteholders

If the Notes provide for resolutions of Noteholders, either to be passed in a meeting of Noteholders or by vote taken without a meeting, a Noteholder is subject to the risk of being outvoted by a majority resolution of the Noteholders. As resolutions properly adopted are binding on all Noteholders, certain rights of such Noteholder against the Issuer under the Terms and Conditions of the Notes may be amended or reduced or even cancelled.

5.1.20 Risk relating to the financing of the purchase of Notes by loan or credit significantly increases risks

If a prospective investor in the Notes decides to finance the purchase of Notes through funds borrowed from a third party, it should make sure in advance that it can still continue to service the interest and principal payments on the loan in the event of a loss. It should not rely on gains or profits from the investment in the Notes which would enable it to repay interest and principal of the loans when due and payable.

5.1.21 Risk that investors base their investment decision on erroneous analyst opinions or prognoses

Investors often make their investment decision based on statements, market estimates and forecasts of analysts. The same applies to general market expectations, on which investment decisions are often based. There can be no assurance that statements, opinions and expectations of analysts, and certain market expectations will be achieved. There is a risk that statements, opinions and expectations of analysts as well as certain market expectations are incorrect. In case of non-occurrence of, or deviations from, analyst and market expectations, statements, forecasts and opinions, there is a risk that the price and yield of the Notes developed disadvantageous. In case of insolvency of the issuer, it may also result in a partial or total loss of the invested capital.

5.1.22 Risk of irrational factors

There is a risk that the price and the yield of the Notes will be significantly adversely affected by rumors, opinions and trends that do not match with reality.

5.2 Risks related to the market generally

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk.

5.2.1 The secondary market generally

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes

generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes.

Moreover, although pursuant to Condition 5.13 of the General Terms and Conditions of the Notes, the relevant Issuer can purchase Notes at any moment, this is not an obligation for the relevant Issuer. Purchases made by the relevant Issuer could affect the liquidity of the secondary market of the relevant Notes and thus the price and the conditions under which investors can negotiate these Notes on the secondary market.

In addition, Noteholders should be aware of the prevailing and widely reported global credit market conditions (which continue at the date of this Base Prospectus), whereby there is a general lack of liquidity in the secondary market for instruments similar to certain of the Notes which may be issued hereunder. Such lack of liquidity may result in investors suffering losses on the Notes in secondary resales even if there is no decline in the performance of the Notes, any underlying or reference, or the assets of the Issuers and/or the Guarantor. The Issuers cannot predict whether these circumstances will change and whether, if and when they do change, there will be a more liquid market for the Notes and instruments similar to the Notes at that time.

Although applications have been made for the Notes issued under the Programme to be listed and admitted to trading on the Luxembourg Stock Exchange and/or SIX Swiss Exchange, there is no assurance that such application will be accepted, that any particular Tranche of Notes will be so admitted or that an active trading market will develop.

5.2.2 Exchange rate risks and exchange controls

The relevant Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency-equivalent value of the principal payable on the Notes and (3) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

5.2.3 Interest rate risks

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.

As regards Floating Rate Notes, a key difference between Floating Rate Notes and Fixed Rate Notes is that interest income on Floating Rate Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of Floating Rate Notes at the time they purchase them and therefore their investment return cannot be compared with that of investments having longer fixed interest periods. If the terms and conditions of the notes provide for frequent interest payment dates, investors are exposed to reinvestment risk if market interest rates decline. That is, investors may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing. In addition, the Issuer's ability to also issue Fixed Rate Notes may affect the market value and the secondary market (if any) of the Floating Rate Notes (and vice versa).

5.2.4 Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

In general, European regulated investors are restricted under Regulation (EC) No 1060/2009 of the European Parliament and of the Council dated 16 September 2009, as amended by Regulation (EU) No 513/2011 of the European Parliament and of the Council dated 11 May 2011 (the **CRA Regulation**) from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended).

The applicable Final Terms will specify whether or not such credit ratings are issued by credit rating agencies established in the European Union, and whether or not the relevant credit rating agency is registered (or has applied for registration) under the CRA Regulation and is included in the list of registered credit rating agencies published on the website of the European Securities and Markets Authority (www.esma.europa.eu).

5.2.5 Market value of the Notes

The market value of the Notes will be affected by, amongst other things, the creditworthiness of the relevant Issuer and/or that of the Guarantor. The credit ratings of the relevant Issuer and the Guarantor are an assessment of their ability to pay their obligations, including those on the offered Notes. Consequently, actual or anticipated declines in the credit ratings of either the relevant Issuer and/or the Guarantor may affect the market value of the relevant Notes.

The market value of Secured Notes will also depend on various other factors relating to the Type of Collateralisation provided for such Notes, in relation to which please refer to section 6 – *Additional Risks Associated with Secured Notes* below.

In addition, the market value of the Notes will be affected by the creditworthiness of the Issuers and/or that of the Group and a number of additional factors, including the market interest and yield rates and the time remaining to the maturity date.

The value of the Notes depends on a number of interrelated factors, including economic, financial and political events in France and elsewhere, including factors affecting capital markets generally and the stock exchanges on which the Notes are traded. The price at which a Noteholder will be able to sell the Notes prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase price paid by such purchaser.

6. ADDITIONAL RISKS ASSOCIATED WITH SECURED NOTES

6.1 Nature of security

The security granted by SG Issuer under a Pledge Agreement is a security interest over the accounts in which the Collateral Assets are held and does not extend to any interest or distributions paid on such Collateral Assets (to the extent such amounts are not held in the relevant Collateral Account).

Unless otherwise specified in the applicable Final Terms, no security interest will be granted by SG Issuer over any of its rights under any agreement (including, without limitation, any Hedging Agreement) under which it acquires any Collateral Assets or its rights against the Collateral Custodian or any other

Collateral Arrangement Party. This means that neither the Security Trustee (in the case of English Law Notes) nor the Security Agent (in the case of French Law Notes) will have any ability to compel SG Issuer to enforce its rights (or to enforce such rights on behalf of SG Issuer) under any agreement against a counterparty to such agreement.

6.2 Structure of Collateral Accounts

The Collateral Custodian may, to the extent permitted in the Collateral Custodian Agreement, pursuant to its standard terms of business and in accordance with local regulations and market practice for custodian or sub-custodian entities or as required pursuant to any contractual arrangements between the Collateral Custodian and its sub-custodians, hold certain cash and/or securities sub-accounts with other custodial entities. Collateral Assets which, pursuant to the terms of the Additional Terms and Conditions for Secured Notes and the Collateral Custodian Agreement, are to be held with the Collateral Custodian in a Collateral Account may therefore in practice be held by the Collateral Custodian in sub-accounts with other custodial entities. In such circumstances, although primary responsibility for the Collateral Assets remains with the Collateral Custodian, Noteholders will be exposed to the risk of any potential operational disruption or any other adverse impact related to custodial entities (including disruption caused by any insolvency proceedings which may be commenced in respect of such custodial entities) with whom the Collateral Custodian holds sub-accounts containing Collateral Assets.

6.3 Type of Collateralisation

The security provided for a Series of Secured Notes is limited to the Collateral Assets constituting the Collateral Pool applicable to such Series (and to all Series of Secured Notes secured by the same Collateral Pool in the case of a Multiple Series Collateral Pool). The amount of Collateral Assets constituting such Collateral Pool will depend, amongst other things, on the Type of Collateralisation specified as being applicable in the applicable Final Terms, on the Collateralisation Percentage specified in the applicable Final Terms, on whether or not Collateral Valuation at Nominal Value is applicable or on whether or not a Haircut is specified in the applicable Final Terms. There is no guarantee that the applicable *Type of Collateralisation* will be sufficient to ensure that, following enforcement of a Pledge Agreement, the amounts available for distribution or the value of the Collateral Assets available to be delivered by the Security Trustee (in the case of English Law Notes) or the Security Agent (in the case of French Law Notes) will be sufficient to pay all amounts due to Noteholders in respect of the relevant Series of Secured Notes (see "*Shortfall on Realisation of Collateral Assets and Limited Recourse of Noteholders*"). In addition, depending of the Type of Collateralisation, the claim of holders of Non-Waived Notes may differ from the Collateral Value (See Condition 5.5 of the Additional Terms and Conditions for Secured Notes).

6.4 Verification by the Collateral Monitoring Agent and tolerance threshold between the Collateral Value and the Required Collateral Value

On each Collateral Test Date, the Collateral Monitoring Agent shall verify that the Collateral Test is satisfied, i.e. that (i) the Collateral Rules relating to such Collateral Pool are satisfied and (ii) the Collateral Value is greater than or equal to 97 per cent of the Required Collateral Value for such Collateral Pool (taking into account any Haircut value(s) to be applied to the Collateral Assets and the aggregate value of any Waived Notes). It is tolerated that the Collateral Value can be 3 per cent lower than the Required Collateral Value in order to avoid numerous transfers of Collateral Assets to and from the Collateral Pool for small values and/or quantities and consequently avoid the costs that would be associated with such transfers. However this tolerance threshold amplifies most of the risks associated with Secured Notes described herein and in particular, but not limited to, the risk that following enforcement of a Pledge Agreement, the amounts available for distribution or the value of the Collateral Assets available to be delivered by the Security Trustee (in the case of English Law Notes) or the Security Agent (in the case of French Law Notes) will not be sufficient to pay all amounts due to Noteholders in respect of the relevant Series of Secured Notes (see "*Shortfall on Realisation of Collateral Assets and Limited Recourse of Noteholders*").

6.5 Change of law – Implementation of the Collateral Directive under Luxembourg Law

The provisions relating to Secured Notes in the General Terms and Conditions of the Notes (including the Additional Terms and Conditions for Secured Notes), each relevant Pledge Agreement and the other programme documentation are based on relevant law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact on Noteholders of any possible judicial decision or change to such laws, or the official application or interpretation of such laws or administrative practices after the date of this Base Prospectus. In particular, significant changes to the Collateral Act 2005 implementing Directive 2002/47/EC on financial collateral arrangements (the **Collateral Directive**) in Luxembourg may have an adverse impact on the rights of the Noteholders. Neither SG Issuer, the Guarantor nor any other party makes any representation as to the interpretation of, or any amendments to, any of the provisions of the Collateral Directive or its implementation in Luxembourg.

6.6 Potential lack of diversification of the Collateral Assets

Investors should note that, depending on the relevant Eligibility Criteria and Collateral Rules, the Collateral Assets in a Collateral Pool with which a Series of Secured Notes are secured may be, unless otherwise specified in the relevant Eligibility Criteria and Collateral Rules, limited to one or a few assets or types of assets.

Low diversification of Collateral Assets in a Collateral Pool may increase the risk that the proceeds of realisation of the Collateral Assets may be less than the sums due to the relevant Noteholders under the relevant Secured Notes. If the Collateral Pool is comprised of a limited number of different types of assets, any depreciation in the value of such assets in the period between the most recent Collateral Test Date and the realisation of the Collateral Assets in the corresponding Collateral Pool will have a proportionally larger impact on any shortfall as the amount recovered in respect of the Collateral Assets on their sale will be dependent on the then current market value of a smaller range of Collateral Assets.

None of SG Issuer, the Guarantor, the Security Trustee, the Security Agent, the Collateral Agent, the Collateral Monitoring Agent or the Collateral Custodian is under any obligation to ensure that the relevant Eligibility Criteria or Collateral Rules provide for the diversification of Collateral Assets in a Collateral Pool.

6.7 Illiquid Collateral Assets

Depending on the relevant Eligibility Criteria and Collateral Rules, certain of the Collateral Assets may not be admitted to trading on any public market and may be illiquid and not easily realisable in certain market circumstances. Where there is limited liquidity in the secondary market relating to Collateral Assets, the Security Trustee (in the case of English Law Notes) or the Security Agent (in the case of French Law Notes), or, in either case, the Disposal Agent on their behalf, may not be able to readily sell such Collateral Assets to a third party or may only be able to sell such Collateral Assets at a discounted value. Where the Security Trustee (in the case of English Law Notes) or the Security Agent (in the case of French Law Notes), or, in either case, the Disposal Agent on their behalf, is unable to sell such Collateral Assets, the Security Trustee (in the case of English Law Notes) or the Security Agent (in the case of French Law Notes) will instead be required to deliver such Collateral Assets as if Physical Delivery of Collateral Assets were applicable in relation thereto.

6.8 Correlation between the value of the Collateral Assets and the Creditworthiness of SG Issuer and the Guarantor

Depending on the Eligibility Criteria and the Collateral Rules applicable for a Series of Secured Notes, the Collateral Assets relating to such Series could be composed of assets whose value may be positively or negatively correlated with the creditworthiness of SG Issuer and the Guarantor. In the event that there is a positive correlation between the value of the Collateral Assets and the creditworthiness of SG Issuer and the Guarantor, the value of the Collateral Assets will vary in the same way as the creditworthiness of SG Issuer and the Guarantor.

Where the value of the Collateral Assets is positively correlated with the creditworthiness of SG Issuer and the Guarantor, for example where the Collateral Assets consist of securities (such as debt or equities) issued by other financial institutions, a default by SG Issuer and the Guarantor in relation to their obligations under the Secured Notes may be associated with a fall in the value of Collateral Assets securing such Secured Notes.

6.9 Difference between the calculation of Secured Note Market Value and Market Value following an Event of Default

Secured Notes Market Value is the market value of the relevant Secured Note determined by the Note Valuation Agent on the basis of such valuation method as the Note Valuation Agent may, acting in good faith and in a commercially reasonable manner determine in its discretion and will take into account SG Issuer's and Guarantor's creditworthiness. Unlike the Secured Note Market Value, following an Event of Default, the Market Value determined by the Calculation Agent in accordance with Condition 5.8 of the General Terms and Conditions of the Notes (which determines the claim that a holder of Non Waived Notes has on SG Issuer and/or the Guarantor), will not take into account SG Issuer's or the Guarantor's creditworthiness. As a result, there may be a difference between the Secured Note Market Value determined before an Event of Default and the Market Value determined after an Event of Default.

6.10 Specific risk due to the difference between the calculation of Secured Note Market Value and Market Value following an Event of Default for the Market Value Type of Collateralisation

Investors should note that when "MV Collateralisation", "Min (MV, NV) Collateralisation" or "Max (MV, NV) Collateralisation" is specified as applicable in the applicable Final Terms of a Series of Secured Notes, the level of collateral required to secure such Secured Notes (i.e. the Required Collateral Value) and therefore the amount of Collateral Assets actually in the Collateral Pool (i.e. the Collateral Value) will be based on the Secured Note Market Value which as indicated above will take into account SG Issuer's and the Guarantor's creditworthiness. Consequently, everything else being equal, the Secured Note Market Value may decrease when SG Issuer's and the Guarantor's creditworthiness deteriorates and so may the Required Collateral Value and the Collateral Value whereas, following an Event of Default, the Market Value determined by the Calculation Agent in accordance with Condition 5.8 of the General Terms and Conditions of the Notes, will not decrease. As a result, the holders of Non Waived Notes where MV Collateralisation, "Min (MV, NV) Collateralisation" or "Max (MV, NV) Collateralisation" is specified as applicable in the applicable Final Terms of a Series of Secured Notes may end up in a situation where the amount of Collateral Assets securing the obligation of SG Issuer under such Notes, is significantly lower than their claim on SG Issuer and/or the Guarantor.

6.11 Specific risk due to the difference between the aggregate nominal value of the Non Waived-Notes and Market Value following an Event of Default for the Nominal Value Type of Collateralisation

Investors should note that when "NV Collateralisation", is specified as applicable in the applicable Final Terms of a Series of Secured Notes, the level of collateral required to secure such Secured Notes (i.e. the Required Collateral Value) and therefore the amount of Collateral Assets actually in the Collateral Pool (i.e. the Collateral Value) will be based on the aggregate nominal value of the Non Waived-Notes. The aggregate nominal value of the Non Waived-Notes may not evolve the same way as the Market Value determined by the Calculation Agent in accordance with English Law Condition 5.8 or French Law Condition 5.8. As a result, the holders of Non Waived Notes where "NV Collateralisation" is specified as applicable in the applicable Final Terms of a Series of Secured Notes may end up in a situation where the amount of Collateral Assets securing the obligation of SG Issuer under such Notes, is significantly lower than their claim on SG Issuer and/or the Guarantor.

6.12 Multiple Series Collateral Pools

Where the applicable Final Terms in respect of a Series of Secured Notes specify that "Multiple Series Collateral Pool" will be applicable, security over the Collateral Pool may be shared by a number of

Series of Secured Notes and Noteholders will, by acquiring and holding such Notes, be deemed to acknowledge, accept and agree to the rights of existing and future Noteholders of different Series of Secured Notes to share equally in such security.

6.13 Adjustments to Collateral Pool

Following a Collateral Test Date, SG Issuer (or the Collateral Agent on its behalf) may be required to deliver, or procure the delivery of, additional or replacement Collateral Assets to or from the Collateral Account such that after such adjustment of Collateral Assets the Collateral Test will be satisfied. Investors, nevertheless, will be exposed to the difference between the Required Collateral Value and the Collateral Value prior to any such adjustment. Prior to such adjustment there is also a risk that the Collateral Assets may not meet the Eligibility Criteria and/or that the Collateral Rules will not be satisfied.

The acquisition of Collateral Assets necessary to make the required adjustments to the Collateral Assets contained in a Collateral Pool may be effected pursuant to the terms of any Hedging Agreement or otherwise. For a description of the risks associated with the operation of a Hedging Agreement, see "Risk of non-performance of obligations by a Counterparty" below.

6.14 "Haircut" applied to Collateral Assets

When determining the Collateral Value in respect of Collateral Assets in a Collateral Pool, the Collateral Agent will, if so specified in the applicable Final Terms, apply the Haircut (being the percentage amount by which the value of each type or class of Collateral Assets in a Collateral Pool is reduced) specified in the applicable Final Terms. Although the level(s) of Haircut specified in the applicable Final Terms is intended to reflect the risk of a depreciation in the value of Collateral Assets in the period between the most recent Collateral Test Date and the date on which such Collateral Assets may be realised, investors should note that the value of a Collateral Asset may change over time and the Haircut applied to the Collateral Assets may become outdated and may not provide suitable protection against a potential depreciation in value of the relevant Collateral Asset. No duty of care towards investors is implied or accepted by SG Issuer, the Guarantor, the Collateral Agent or the Collateral Monitoring Agent in relation to the level(s) of Haircut to be applied to the Collateral Assets in a particular Collateral Pool.

6.15 Waived Notes

If "Waiver of Rights" is specified as applicable in the applicable Final Terms, certain Noteholders intending to hold Secured Notes (including, but not limited to, in their capacity as a market maker) may waive their rights to receive the proceeds of realisation of the Collateral Assets securing such Secured Notes (or where Physical Delivery of Collateral Assets is specified as applicable in the applicable Final Terms, delivery of the Collateral Assets) following the enforcement of the relevant Pledge Agreement. As a consequence, when calculating the Required Collateral Value, the Collateral Agent and the Collateral Monitoring Agent shall only take into account the value of the Secured Notes that have not been subject to such waiver.

Upon any transfer of Waived Notes the holders thereof shall be required to notify the Collateral Agent. The Collateral Business Day following such notification will be deemed to be a Collateral Test Date and on such date the Collateral Agent shall determine the revised Required Collateral Value and any required adjustments to the Collateral Pool necessary to ensure that the Collateral Test will be satisfied. Until any such adjustments to the Collateral Assets have occurred, the value of Collateral Assets held in a Collateral Account securing a Series of Secured Notes may be less than the revised Required Collateral Value.

If the number of Waived Notes actually held on a Collateral Test Date relating to a particular Collateral Pool is less than the number of Waived Notes notified to the Collateral Agent (such event being a **Waived Note Notification Error**), then the Required Collateral Value calculated on such Collateral Test Date will be lower than would otherwise be the case if there was no such Waived Note Notification Error.

If the relevant Pledge Agreement were to be enforced prior to the correction of a Waived Note

Notification Error, the proceeds of realisation of the Collateral Assets available to be distributed, or where Physical Delivery of Collateral Assets is applicable the value the Collateral Assets available to be delivered, to Noteholders whose Notes are secured on such Collateral Pool will be less than would have been the case in the absence of such Waived Note Notification Error.

Neither SG Issuer, the Guarantor, the Collateral Agent nor the Collateral Monitoring Agent shall be responsible for any incorrect, inaccurate or incomplete information relating to the number of Waived Notes held in relation to any one or more Series of Secured Notes that may have been provided to the Collateral Agent by or on behalf of any holder of Waived Notes and none of SG Issuer, the Guarantor, the Collateral Agent nor the Collateral Monitoring Agent shall be under any duty to verify or otherwise confirm the number of Waived Notes so held.

6.16 Frequency of Collateral Test Dates

In order to ensure that a Series of Secured Notes is collateralised in accordance with its terms, the Collateral Value and the Required Collateral Value will be determined on the Issue Date of such Series of Secured Notes, on each periodic Collateral Test Date thereafter as specified in the applicable Final Terms and on any additional date which is deemed to be a Collateral Test Date pursuant to the terms of the Additional Terms and Conditions for Secured Notes. The lower the frequency of the periodic Collateral Test Dates specified in the applicable Final Terms and hence the greater the period of time in between each such periodic Collateral Test Date the more likely it is that upon enforcement of the relevant Pledge Agreement, the proceeds of enforcement that a Noteholder will receive or, where Physical Delivery of Collateral Assets is applicable, the value of the Collateral Assets delivered, will be less than the amounts due to Noteholders in respect of the relevant Series of Secured Notes.

In respect of certain Series of Secured Notes, the applicable Final Terms may specify that there will be no periodic Collateral Test Dates, in which case there will be no periodic adjustments to the Collateral Assets in the Collateral Pool during the life of the relevant Secured Notes other than on any date which is deemed to be a Collateral Test Date pursuant to the terms of the Additional Terms and Conditions for Secured Notes. In this case, if the security created under the relevant Pledge Agreement is enforced, the proceeds of enforcement that a Noteholder will receive or, where Physical Delivery of Collateral Assets is applicable, the value of the Collateral Assets delivered, may be less than the amounts due to Noteholders in respect of the relevant Series of Secured Notes.

6.17 Substitution of Collateral Assets

If "Collateral Substitution" is specified as applicable in the applicable Final Terms, SG Issuer (or the Collateral Agent on its behalf) may withdraw and/or replace Collateral Assets from any Collateral Account provided that following such adjustment the Collateral Test continues to be satisfied. SG Issuer (or the Collateral Agent on SG Issuer's behalf) may give instructions for the substitution of Collateral Assets any number of times over the term of the Secured Notes and is not required to obtain the consent of the Collateral Monitoring Agent or any other party prior to effecting the proposed substitution of Collateral Assets. Until any further adjustments to the Collateral Assets have occurred, the value of Collateral Assets held in a Collateral Account securing a Series of Secured Notes may be less than it would have been were it not for the substitution of Collateral Assets.

6.18 Early redemption or cancellation at the option of SG Issuer upon a Collateral Disruption Event

Secured Notes will be subject to Collateral Disruption Events (as defined in the Additional Terms and Conditions for Secured Notes) which may increase the possibility (in comparison with Unsecured Notes) of the Secured Notes being redeemed or cancelled early. Upon the occurrence of a Collateral Disruption Event, SG Issuer may, in its sole and absolute discretion, redeem or cancel, as applicable, all of the relevant Secured Notes at the Early Redemption Amount following the occurrence of a Collateral Disruption Event specified in the applicable Final Terms. Following the early redemption of the Secured Notes, a Noteholder may not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Secured Notes being redeemed and may only be able to do so at a

significantly lower rate or in worse investment conditions. Potential investors should consider reinvestment risk in light of other investments available at that time.

6.19 Secured Note Acceleration Event and Enforcement of the security

If a Secured Note Acceleration Event occurs, all Secured Notes which are secured by the same Collateral Pool as the one securing the Accelerated Secured Note will also become immediately due and repayable. Following the occurrence of a Secured Note Acceleration Event, all Noteholders whose Notes have become immediately due and payable will first be entitled to claim for any outstanding amounts due to them under the terms of the Guarantee.

The Security Trustee (in the case of English Law Notes) and the Security Agent (in the case of French Law Notes) are only obliged to enforce a Pledge Agreement after having received a Collateral Enforcement Notice from a Noteholder (or the Representative of the Masse in the case of French Law Notes acting pursuant to the request of a Noteholder). A Noteholder (or the Representative of the Masse in the case of French Law Notes acting pursuant to the request of a Noteholder) is only entitled to send a Collateral Enforcement Notice to the Security Trustee (in the case of English Law Notes) or the Security Agent (in the case of French Law Notes) if neither SG Issuer nor the Guarantor (pursuant to the terms of the Guarantee) has paid all amounts due to such Noteholder within a period of 3 Collateral Business Days following the occurrence of the relevant Secured Note Acceleration Event.

The existence of the 3 Collateral Business Days period means that there will be a delay between the occurrence of a Secured Note Acceleration Event and the enforcement of the corresponding Pledge Agreement during which period there may be a depreciation in the value of the relevant Collateral Assets, thus reducing the amount available to satisfy the claims of Noteholders upon realisation of the Collateral Assets.

Where the Collateral Assets consist of debt securities, shares or other tradable securities, liquidation of all the Collateral Assets simultaneously may increase the risk that the proceeds of realisation of the Collateral Assets may be less than the sums due to the relevant Noteholders under the relevant Secured Notes because liquidation of all the Collateral Assets in the Collateral Pools at the same time could, in particular market circumstances, lead to a reduction in the market value of some or all of the Collateral Assets.

In addition, following the realisation of the Collateral Assets, an investor may not be able to reinvest any Collateral Enforcement Proceeds Share that it receives at an effective interest rate as high as the interest rate on the Secured Notes that have become immediately due and payable following the occurrence of a Secured Note Acceleration Event and may only be able to do so at a significantly lower rate or in worse investment conditions. Potential investors should consider reinvestment risk in light of other investments available at that time.

6.20 Shortfall on Realisation of Collateral Assets and Limited Recourse of Noteholders

The security provided for a Series of Secured Notes is limited to the Collateral Assets constituting the Collateral Pool applicable to such Series (and to all Series of Secured Notes secured by the same Collateral Pool in the case of a Multiple Series Collateral Pool). The value realised for the Collateral Assets in the relevant Collateral Pool or, where Physical Delivery of Collateral Assets is applicable, the value of the Collateral Assets delivered, upon enforcement of the relevant Pledge Agreement may be less than the amounts due to Noteholders in respect of the relevant Series of Secured Notes and as a result, investors may lose a substantial portion of their investment. The level of risk will particularly depend on the Haircut value(s), the Collateral Rules, the Eligibility Criteria and on the collateralisation method (either MV Collateralisation, NV Collateralisation, Max (MV, NV) Collateralisation or Min (MV, MV) Collateralisation) as specified in the applicable Final Terms.

Investors should also note that the Collateral Assets may suffer a fall in value between the time at which the relevant Pledge Agreement becomes enforceable and the time at which the Collateral Assets are realised in full or, where Physical Delivery of Collateral Assets is applicable, delivered. In extraordinary

circumstances, the Collateral Assets forming part of the Collateral Pool available at the time at which a Pledge Agreement becomes enforceable could lose all or a substantial proportion of their value by the time of realisation and distribution or delivery, as applicable.

If there is any shortfall in amounts due to a Noteholder then such Noteholder shall have no further claim against SG Issuer, the Security Trustee (in the case of English Law Notes) or the Security Agent (in the case of French Law Notes) in respect of such amounts which remain unpaid following enforcement of the relevant Pledge Agreement (including, for the avoidance of doubt, payments of principal, premium (if any) and/or interest in respect of the Notes). In addition, no Noteholder shall be entitled to take any steps or proceedings to procure the winding-up, administration or liquidation (or any other analogous proceeding) of SG Issuer.

For the avoidance of doubt, in such a scenario, Noteholders will continue to be able to claim under the terms of the Guarantee against the Guarantor for any unpaid amounts and any such shortfall will therefore constitute an unsecured claim by such Noteholder against the Guarantor. Investors should therefore be aware that if the value realised for the Collateral Assets or the value of any Collateral Assets delivered is less than the amounts due to them under their Notes, they will be exposed to the creditworthiness of the Guarantor for the remaining amount due to them.

6.21 Subordination of Noteholders to payment of expenses and other payments

Following the enforcement of a Pledge Agreement, the rights of holders of Non Waived Notes to be paid amounts from the proceeds of such enforcement and the realisation of the related Collateral Assets or, where Physical Delivery of Collateral Assets is applicable, to be delivered Collateral Assets, will be subordinated to and therefore rank behind claims relating to any amounts payable to Secured Parties ranking prior to the holders of Non Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms and any rights of preference existing by operation of law.

6.22 Physical Delivery of Collateral Assets

If Physical Delivery of Collateral Assets is specified in respect of a Series of Secured Notes, upon enforcement of a Pledge Agreement, the Security Trustee (in the case of English Law Notes) or the Security Agent (in the case of French Law Notes) will not sell, or cause to be sold, the Collateral Assets (unless there is a Physical Delivery of Collateral Assets Disruption Event and other than in order to pay any amounts payable to Secured Parties ranking prior to the holders of Non Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms) but will deliver the Collateral Assets Entitlement to each Noteholder in the manner set out in the Additional Terms and Conditions for Secured Notes.

When Physical Delivery of Collateral Assets is applicable, if a Physical Delivery of Collateral Assets Disruption Event occurs or exists on the relevant Collateral Delivery Date, settlement will be postponed until the next Collateral Business Day on which there is no Physical Delivery of Collateral Assets Disruption Event. If such Physical Delivery of Collateral Assets Disruption Event continues for a continuous period of eight Collateral Business Days after the original Collateral Delivery Date, the Security Trustee (in the case of English Law Notes) or the Security Agent (in the case of French Law Notes), or the Disposal Agent on their behalf, will procure the sale of such Collateral Assets in lieu of delivery of the relevant Collateral Assets Entitlement. The amount received by a Noteholder following such sale of Collateral Assets may be lower than the amount which a Noteholder would have received if the relevant Collateral Assets had been delivered to it and the Noteholder held the relevant Collateral Assets to the maturity date of such assets or sold such assets at a different point in time.

6.23 Risk of a delay in the realisation of the Collateral Assets in the event of the insolvency of the Issuer, the Security Trustee, the Security Agent and/or the Collateral Custodian

Each Pledge Agreement will be governed by the Luxembourg act dated 5 August 2005 on financial collateral arrangements, as amended. Article 20 of the Collateral Act 2005 provides that pledge agreements are valid and effective against all third parties, including any receiver or liquidator,

notwithstanding any reorganisation procedure, liquidation procedure or any other situation leading to a competition amongst creditors, whether Luxembourg or foreign. From a Luxembourg law perspective, no Luxembourg or foreign insolvency, reorganisation or liquidation proceeding rules should impede the enforcement of a Pledge Agreement. Therefore, each Pledge Agreement should not be materially impacted by insolvency proceedings initiated against SG Issuer in Luxembourg.

Despite the provisions of the Collateral Act 2005 described above, in the event of the insolvency of SG Issuer, the Security Trustee, the Security Agent or the Collateral Custodian, the realisation of the Collateral Assets may be delayed either by the appointment of an insolvency administrator or other insolvency official in relation to SG Issuer, the Security Trustee, the Security Agent or the Collateral Custodian or by measures ordered by a competent court. Such delay could adversely affect the position of the Noteholders in the event of a depreciation in the value of the Collateral Assets during such period.

In addition, in the case of an insolvency of SG Issuer, as the Collateral Agent (being Société Générale or its successor thereto) and SG Issuer are part of the Group, in the event of the insolvency of the Issuer it is possible that the Collateral Agent may also be insolvent. Such circumstances may lead to a delay in the administrative processes involved in the realisation of the Collateral Assets. However, as the entities responsible for the enforcement of the Pledge Agreement and the realisation of the Collateral Assets, namely the Collateral Custodian, the Disposal Agent, the Substitute Paying Agent, the Security Trustee (in the case of English Law Notes) and the Security Agent (in the case of French Law Notes) are not part of the Group, the impact of any insolvency of SG Issuer on such enforcement and realisation should be less material than it would have been if the Collateral Custodian, the Disposal Agent, the Substitute Paying Agent, the Security Trustee and/or the Security Agent were part of the Group.

The Collateral Custodian, the Disposal Agent, the Substitute Paying Agent, the Security Trustee and the Security Agent are (unless otherwise specified in the applicable Final Terms) part of the same group and in the event of the insolvency of one entity it is possible that another entity may also be insolvent. Such circumstances may lead to a delay in the realisation of the Collateral Assets. The Collateral Custodian Agreement, Collateral Monitoring Agency Agreement, the Disposal Agency Agreement, the Substitute Paying Agency Agreement, the Security Agency Agreement and each Security Trust Deed will contain provisions permitting the replacement of the Collateral Custodian, Collateral Monitoring Agent, Disposal Agent, Substitute Paying Agent, Security Trustee and Security Agent, as applicable, in certain circumstances, including following insolvency, as further provided in such agreements and the Additional Terms and Conditions for Secured Notes.

6.24 Potential Conflicts of Interest between Noteholders and the Collateral Agent, the Note Valuation Agent and the Calculation Agent

As the Collateral Agent, the Note Valuation Agent and the Calculation Agent are affiliates of SG Issuer or their relevant successor, potential conflicts of interest may arise between the Collateral Agent, the Note Valuation Agent, the Calculation Agent and the holders of the Secured Notes, including with respect to the making of certain determinations and the exercise of certain discretions (including as to the calculation of the Secured Note Market Value of the Secured Notes, the Collateral Value and the Required Collateral Value). In addition, whilst the Collateral Agent, the Note Valuation Agent and the Calculation Agent are obliged to carry out their duties and functions in good faith and using their reasonable judgment, neither the Collateral Agent nor the Note Valuation Agent acts or will act as a fiduciary or as an advisor to the Noteholders in respect of their duties as Collateral Agent and Note Valuation Agent, respectively.

The risk to Noteholders of any conflict of interest between Noteholders and the Collateral Agent is mitigated by the fact that any Collateral Test Notice is either reviewed, and the contents thereof verified by or otherwise agreed with, a Collateral Monitoring Agent not belonging to the Group or else is subject to a predetermined Collateral Test Dispute Resolution Procedure.

6.24 Security Trustee and Security Agent

The Security Trustee (in the case of English Law Notes) and the Security Agent (in the case of French Law Notes) will enforce the security under the relevant Pledge Agreement upon the delivery of a Collateral Enforcement Notice and will either (i) liquidate or realise or will give instructions to the Disposal Agent to liquidate or realise the Collateral Assets in the Collateral Pool which secures a Series of Secured Notes and subsequently distribute the relevant Collateral Enforcement Proceeds Share (as defined in the Additional Terms and Conditions for Secured Notes) to the relevant Noteholders or (ii) where Physical Delivery of Collateral Assets is specified as applicable in the applicable Final Terms, arrange for delivery of the relevant Collateral Assets Entitlement (as defined in the Additional Terms and Conditions for Secured Notes) to the relevant Noteholders, in each case in accordance with the Order of Priority specified in the applicable Final Terms.

A failure by the Security Trustee (in the case of English Law Notes) or the Security Agent (in the case of French Law Notes) to perform their obligations with respect to the Collateral Assets or to perform their obligations in an efficient manner may adversely affect the realisation of the Collateral Assets and the amount distributable or deliverable to Noteholders.

The risk to Noteholders of a failure by the Security Trustee (in the case of English Law Notes) to perform its obligations under a Pledge Agreement with respect to the Collateral Assets is mitigated by the fact that the Security Trustee will covenant in the relevant Security Trust Deed to exercise its rights under the relevant Pledge Agreement on behalf of and as trustee for the Noteholders and will declare a trust in favour of the Noteholders and the other relevant Secured Parties over the rights granted to it under the relevant Pledge Agreement. As a result, should the Security Trustee, having become bound to do so, fail to perform its enforcement obligations with respect to the Collateral Assets, Noteholders will be entitled to directly enforce the terms of the relevant Pledge Agreement. In addition, where the Security Trustee has failed to perform its enforcement obligations with respect to the Collateral Assets, Noteholders will be entitled to appoint a replacement Security Trustee to enforce the terms of the relevant Pledge Agreement. The Collateral Custodian, by virtue of being party to the relevant Pledge Agreement, shall be deemed to have acknowledged the ability of Noteholders to appoint a replacement Security Trustee in such circumstances.

The risk to Noteholders of a failure by the Security Agent (in the case of French Law Notes) to perform its obligations under a Pledge Agreement with respect to the Collateral Assets is mitigated by the fact that the Security Agent will be appointed as security agent pursuant to article 2328-1 of the French Code Civil in the Terms and Conditions of the French Law Notes. In case of failure by the Security Agent to perform its obligations in respect of a Pledge Agreement, the Representative of the Masse of the Noteholders will directly enforce the terms of such Pledge Agreement on behalf of the Noteholders. The Collateral Custodian, by virtue of being party to the relevant Pledge Agreement, shall be deemed to have acknowledged the ability of the Representative of the Masse of the Noteholders to directly enforce the terms of such Pledge Agreement on behalf of the Noteholders in such circumstances.

The Security Trustee (in the case of English Law Notes) or the Security Agent (in the case of French Law Notes) may appoint an agent (the **Disposal Agent**) which, following receipt of instructions from the Security Trustee (in the case of English Law Notes) or the Security Agent (in the case of French Law Notes), will liquidate or realise the Collateral Assets in each Collateral Pool. The initial Disposal Agent is The Bank of New York Mellon, London Branch. A failure by the Disposal Agent to perform its obligations with respect to the Collateral Assets will adversely affect the realisation of the Collateral Assets and the amount distributable to Noteholders.

6.25 No Fiduciary duties

In performing their duties under the Programme, neither the Collateral Agent, the Collateral Monitoring Agent, the Note Valuation Agent, the Collateral Custodian, the Disposal Agent or Substitute Paying Agent will act as a fiduciary or as an advisor to the Noteholders in respect of their respective duties and do not act as a trustee for the Noteholders.

6.26 Potential Conflicts of Interest between Noteholders and a Counterparty

Various potential and actual conflicts of interest may arise between the interests of the Noteholders and a Counterparty, which may be an affiliate of SG Issuer. Subject to compliance with applicable laws and regulations, neither a Counterparty nor its affiliates are required to resolve such conflicts of interest in favour of the Noteholders and may pursue actions and take such steps that it deems necessary or appropriate to protect its interests.

6.27 Risk of non-performance of obligations by a Counterparty

It is expected that Société Générale will be the Counterparty for most Series of Secured Notes. A failure by a Counterparty to perform its duties and obligations with respect to a Hedging Agreement may adversely affect the availability of the Collateral Assets, and consequently adversely affect the realisation of the Collateral Assets and the amount distributable to Noteholders.

6.28 Risks arising on an insolvency of a Counterparty

In the event that a liquidator or administrator were to be appointed in respect of the business and property of a Counterparty, SG Issuer believes that pursuant to the terms of the relevant Hedging Agreement the Collateral Assets will not form part of the property of the relevant Counterparty available to a liquidator or administrator of such Counterparty for distribution to the general creditors of the Counterparty. There can be no assurance, however, that a court would reach the same conclusion.

It is possible that a liquidator or administrator appointed in relation to the business and property of a Counterparty may commence proceedings to challenge the validity and effectiveness of a Hedging Agreement with a view to including the Collateral Assets in the property and estate of the relevant Counterparty. If insolvency proceedings were commenced in respect of a Counterparty, and in particular against the Issuer in relation to a Hedging Agreement, delays in realising the Collateral Assets, possible reductions in the realisation amount of the Collateral Assets and limitations on the exercise of remedies in relation to the enforcement of a Pledge Agreement could occur.

INTRODUCTION

The purpose of this section or “User Guide” is to provide a simple tool for investors to help them navigate throughout the various documents made available in relation to Notes issued by Société Générale, SG Issuer, SG Option Europe and SGA Société Générale Acceptance N.V. HOW TO READ THE FINAL TERMS

The applicable Final Terms are divided in three parts:

- ✚ Part A, named “CONTRACTUAL TERMS”, which provides the specific contractual terms of the Product;
- ✚ Part B, named “OTHER INFORMATION”, which provides other information specific to the Notes; and
- ✚ Only in the case of Notes offered to the public and/or admitted to trading on a Regulated Market in the European Economic Area, a third part is annexed to the applicable Final Terms constituting the issue specific summary of the Notes (which comprises the summary of the Base Prospectus, as adapted to reflect the provisions of the applicable Final Terms).

Exhaustive information on the Products defined on Parts A and B of the applicable Final Terms is available in the Base Prospectus. The following diagram provides the links between the various clauses Parts A and B of the applicable Final Terms and the corresponding sections of the Base Prospectus.

HOW TO READ THE ADDITIONAL TERMS AND CONDITIONS RELATING TO FORMULAE

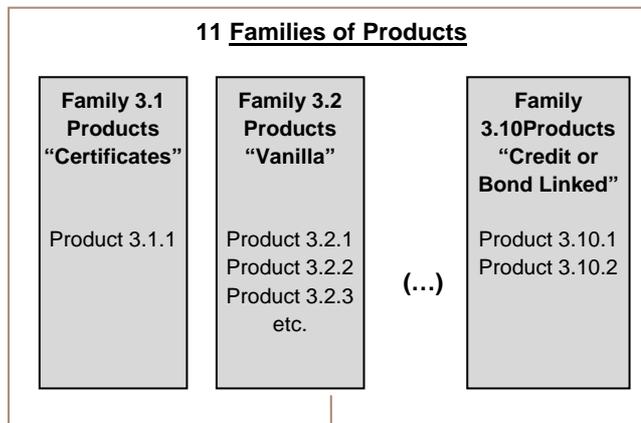

The section “ADDITIONAL TERMS AND CONDITIONS RELATING TO FORMULAE” is the section of the Base Prospectus where all payoff formulae are detailed.

This section contains:

- ✚ an exhaustive list of Products with their respective Product Formulae, regrouped in Families of Products (*Condition 3 of the Additional Terms and Conditions relating to Formulae*);
- ✚ an exhaustive list of Reference Formulae (*Condition 4 of the Additional Terms and Conditions relating to Formulae*);
- ✚ the definitions of all Variable Data needed as input in the different Product Formulae (*Condition 5 of these Additional Terms and Conditions relating to Formulae*); and
- ✚ the definition of all add-ons that may be used as an additional feature of a Product Formula (*Condition 1.4 of these Additional Terms and Conditions relating to Formulae*).

For ease of reading, the Products with similar characteristics are regrouped in **Families of Products** (such as “Vanilla”).

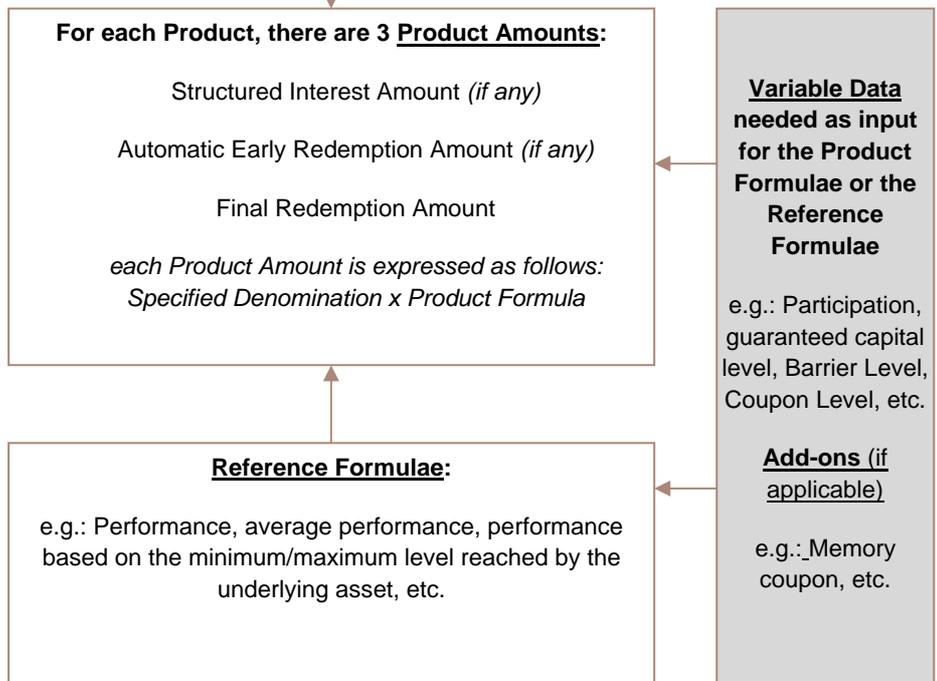

Each Product is identified with a **Reference of the Product** and a **Product Name** (such as “3.2.1 European Call”)

Each Product Amount describes an amount due under the Notes:

- during the life of the product: the **Structured Interest Amount** (coupons)
- in case of an automatic early redemption: the **Automatic Early Redemption Amount** or “AERA”
- at maturity: the **Final Redemption Amount** or “FRA”

Each Product Formula of each Product Amount will be based on a **Reference Formula** (such as “Performance” forming part of “4.1 Family of “SimpleLevel”)

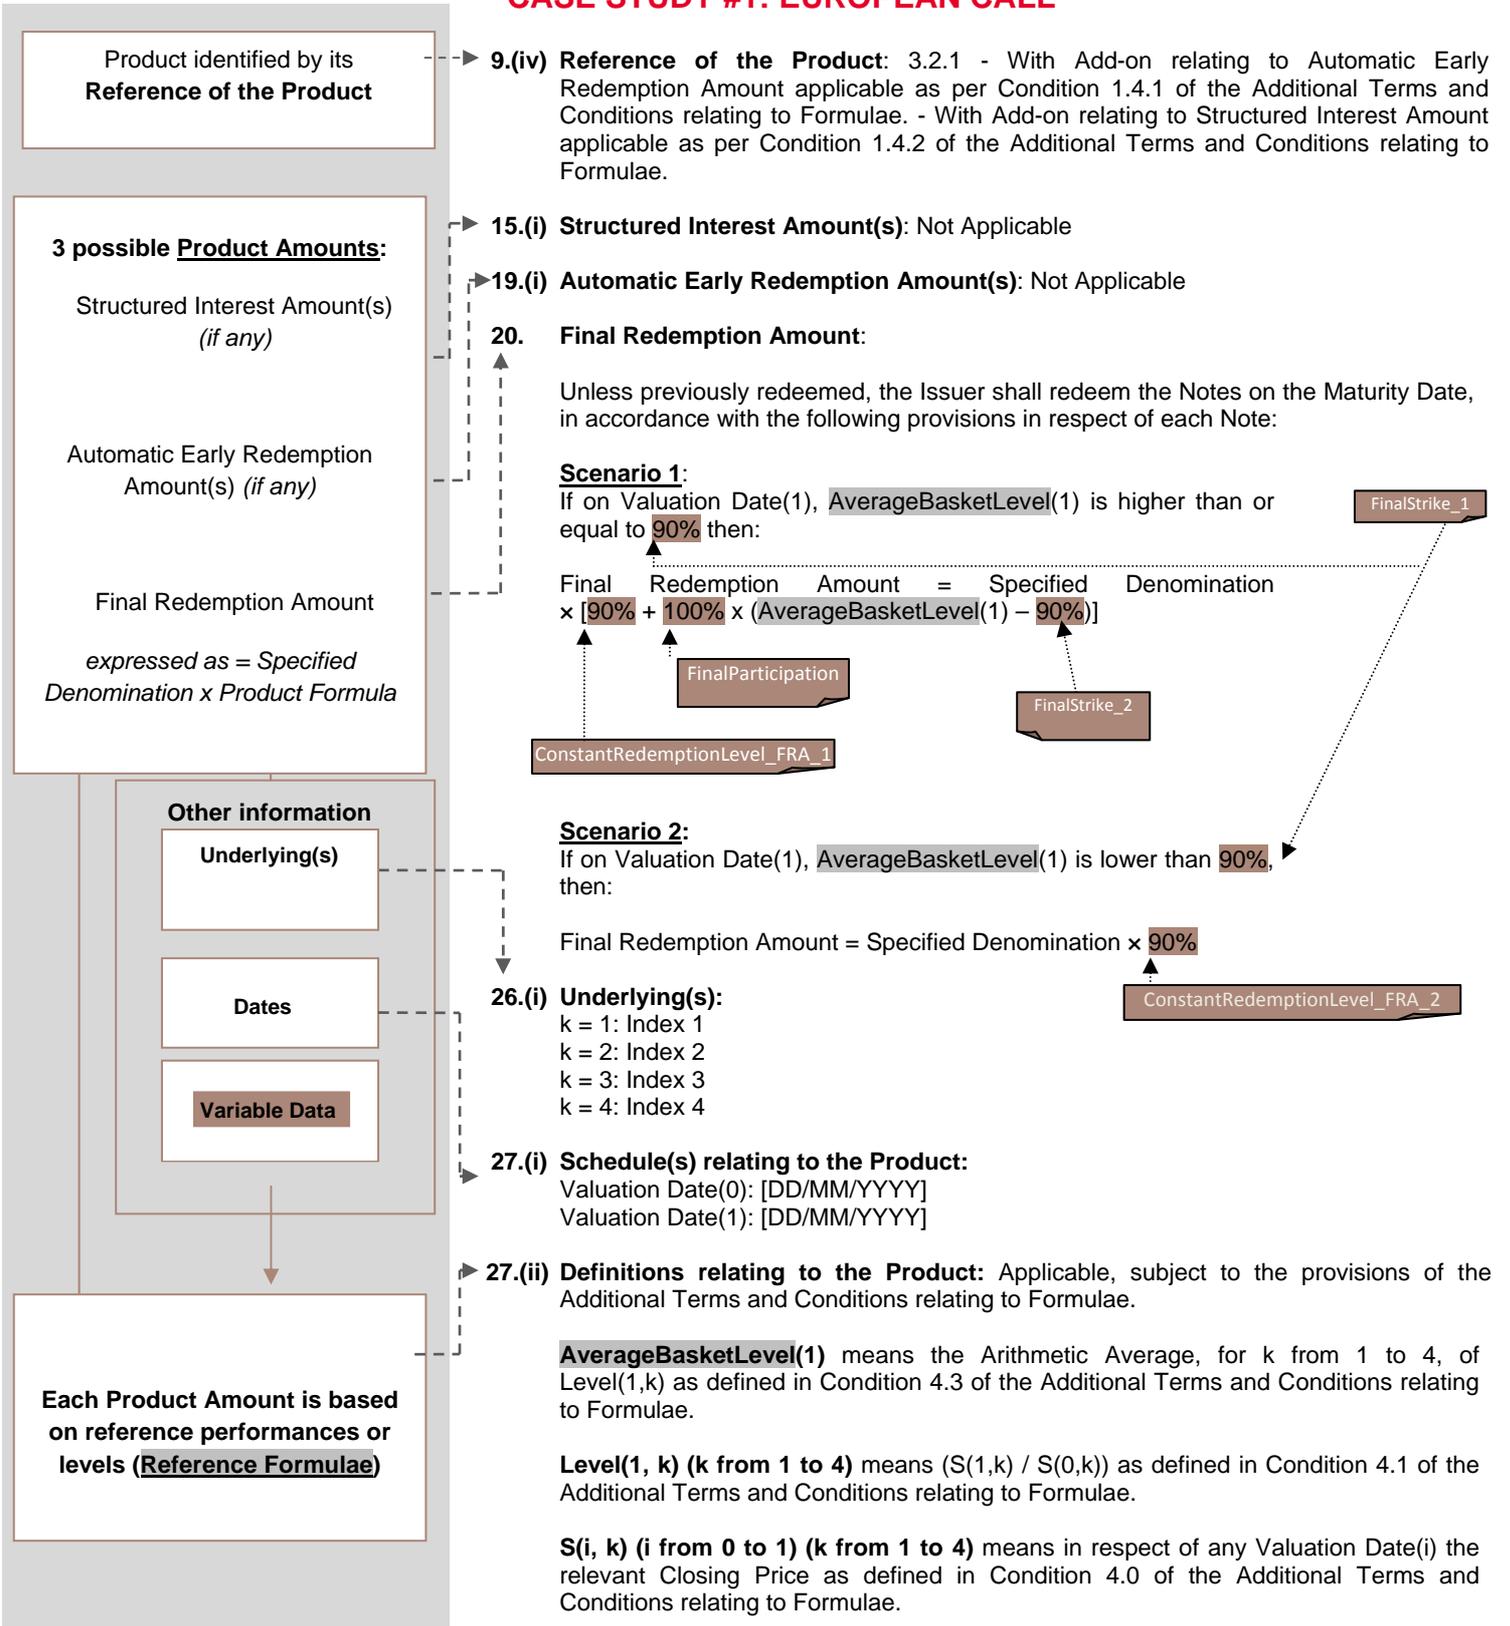

EXAMPLES OF APPLICABLE FINAL TERMS: FOCUS ON PART A – PAYOFF FORMULA

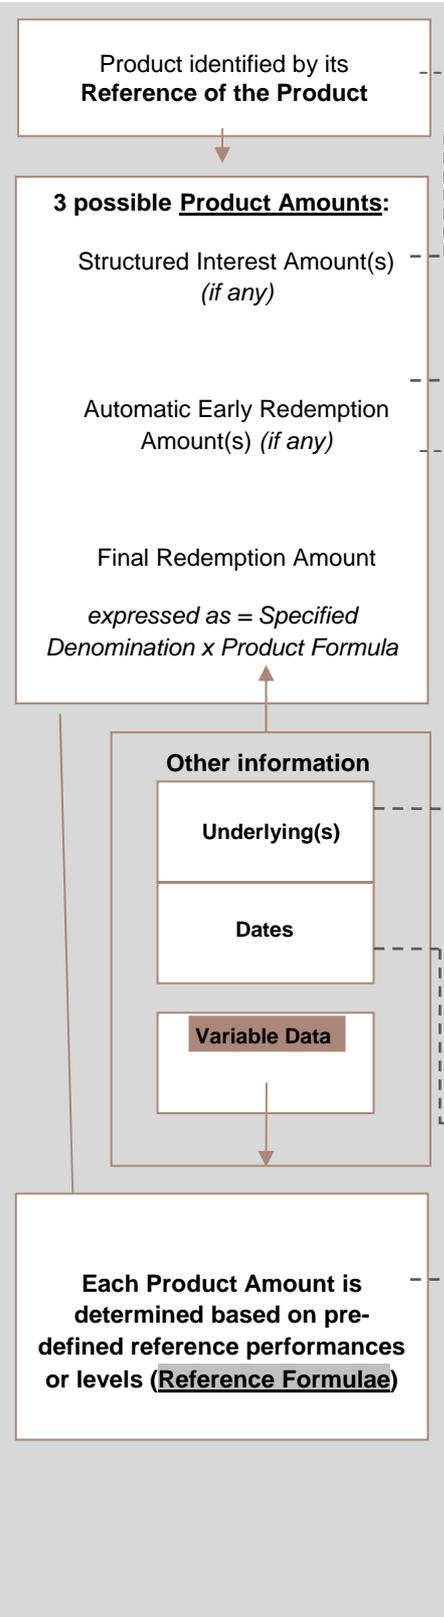

The best way for an investor to understand a Product is to start reading the applicable Final Terms as they provide all the main information relating to the Notes.

Three case studies can be found below, aiming to provide a step-by-step guide for reading the Final Terms. The numbers specified before each section below reference the corresponding clauses in the applicable Final Terms.

IMPORTANT INFORMATION RELATING TO THE USE OF THIS BASE PROSPECTUS AND OFFER OF NOTES GENERALLY

This Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Base Prospectus and the offer or sale of Notes may be restricted by law in certain jurisdictions. None of the Issuers, the Guarantor, the Arranger or the Dealers represent that this Base Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, unless specifically indicated to the contrary in the applicable Final Terms, no action has been taken by the Issuers, the Guarantor, the Arranger or the Dealers which is intended to permit a public offering of any Notes outside the European Economic Area (EEA) or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus or any Note comes must inform themselves about, and observe, any such restrictions on the distribution of this Base Prospectus and the offering and sale of Notes (see the section headed "*Subscription, Sale and Transfer Restrictions*").

An investment in Notes does not constitute a participation in a collective investment scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes (CISA). Therefore, the Notes are not subject to authorisation or supervision by the Swiss Financial Market Supervisory Authority FINMA (FINMA) and investors will not benefit from protection under the CISA or supervision by FINMA.

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisers whether it:

- (i) has sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained in, or incorporated by reference into, this Base Prospectus or any applicable supplement and in the applicable Final Terms;
- (ii) has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) has sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understands thoroughly the terms of the Notes and is familiar with the behaviour of any relevant underlying and financial markets; and
- (v) is able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Legal investment considerations may restrict certain investments. The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules

The Notes and any guarantee thereof have not been and will not be registered under the U.S. Securities Act of 1933, as amended, (the **Securities Act**) or under any state securities laws and none of the Issuers nor the Guarantor have registered or will register as an investment company under the U.S. Investment Company Act of 1940, as amended (the **Investment Company Act**). Accordingly, the Notes may not be offered or sold in the United States or to, or for the account or benefit of, U.S. persons except pursuant to an exemption from the registration requirements of the Securities Act in a transaction that will not cause the Issuer or the Guarantor, as the case may be, to become required to register under the Investment Company Act. The Permanently Restricted Notes (as defined below) may not at any time be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, any U.S. person, and may not be legally or beneficially owned at any time by any U.S. person (as defined in Regulation S, a **U.S. Person**) and accordingly are being offered and sold outside the United States to persons that are not U.S. Persons in reliance on Regulation S under the Securities Act (**Regulation S**). By its purchase of a Note (other than a Permanently Restricted Note), each purchaser will be deemed to have agreed that it may not resell or otherwise transfer the Note held by it except (a) to the Issuer or any affiliate thereof, (b) inside the United States to a person that is a qualified purchaser within the meaning of Section 2(a)(51) of the Investment Company Act and the rules thereunder (a **QP**) reasonably believed by the Seller to be a qualified institutional buyer (a **QIB**), as defined under Rule 144A under the Securities Act (**Rule 144A**), purchasing for its own account or for the account of a QIB that is also a QP in a transaction meeting the requirements of Rule 144A, (c) outside the United States in compliance with Rule 903 or Rule 904 under the Securities Act, or (d) pursuant to an effective registration statement under the Securities Act, in each case in accordance with all applicable U.S. State securities laws. By its purchase of a Permanently Restricted Note, each purchaser will be deemed to have agreed that it may not resell or otherwise transfer any Permanently Restricted Note held by it except outside the United States in an offshore transaction to a person that is not a U.S. Person. **Non-U.S. Registered Notes** means Registered Notes sold exclusively outside the United States in reliance on Regulation S and permanently restricted from sale, transfer or delivery in the United States or to a U.S. Person.

Permanently Restricted Notes means Non-U.S. Registered Notes, Uncertificated Notes which are designated as such if the applicable Final Terms specify that the clause "*Permanently Restricted Notes*" is as stated as being "Yes" and Dematerialised Notes which are designated as such if the applicable Final Terms specify that the clause "*Permanently Restricted Notes*" is as stated as being "Yes".

Notes in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to United States persons, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 (the **Code**) and the U.S. Treasury regulations promulgated thereunder.

This Base Prospectus has been prepared on the basis that, except to the extent subparagraph (ii) below may apply, any offer of Notes in any Member State of the EEA which has implemented the Prospectus Directive (each, a **Relevant Member State**) will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of Notes. Accordingly any person making or intending to make an offer in that Relevant Member State of Notes which are the subject of an offering contemplated in this Base Prospectus as completed by final terms in relation to the offer of those Notes may only do so (i) in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer, or (ii) if a prospectus for such offer has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State and (in either case) published, all in accordance with the Prospectus Directive, provided that any such prospectus has subsequently been completed by final terms which specify that offers may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State, such offer is made in the period beginning and ending on the dates specified for such purpose in such prospectus or final terms, as applicable and the Issuer has consented in writing to its use for the purpose of such offer. Except to the extent subparagraph (ii) above may apply, neither the Issuer nor any Dealer has authorised, nor does it authorise, the making of any offer of Notes in circumstances in which an obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

Each U.S. purchaser of Registered Notes (other than Permanently Restricted Notes) is hereby notified that the offer and sale of any Registered Notes (other than Permanently Restricted Notes) to it may be being made in reliance upon the exemption from the registration requirements of the Securities Act provided by Rule 144A; provided that Permanently Restricted Notes may not be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, a U.S. Person, and any offer, sale, resale, trade, pledge, redemption, transfer or delivery made, directly or indirectly, within the United States or to, or for the account or benefit of, a U.S. Person will not be recognised.

Each purchaser or holder of Notes represented by a Rule 144A Global Note or a Combined Global Note (each as defined below) or any Notes issued in registered form in exchange or substitution therefor (together **Legended Notes**) and each purchaser or holder of Permanently Restricted Notes will be deemed, by its acceptance or purchase of any such Legended Notes or Permanently Restricted Notes to have made certain representations and agreements intended to restrict the resale or other transfer of such Notes as set out in the section headed "*Subscription, Sale and Transfer Restrictions*". Unless otherwise stated, terms used in this paragraph have the meanings given to them in the section headed "*Form of the Notes*".

The Notes and the Guarantee (in the case of any Series of Notes in respect of which the Guarantee is stated as being applicable, see the section headed "*Terms and Conditions of the English Law Notes and the Uncertificated Notes*" and/or "*Terms and Conditions of the French Law Notes*") have not been approved or disapproved by the U.S. Securities and Exchange Commission (the **SEC**), any State securities commission in the United States or any other U.S. regulatory authority, nor have any of the foregoing authorities passed upon or endorsed the merits of the offering of the Notes or the accuracy or adequacy of this Base Prospectus. Any representation to the contrary is a criminal offence in the United States.

FINAL TERMS OR DRAWDOWN PROSPECTUS

In this section the expression “**necessary information**” means, in relation to any Tranche of Notes, the information necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuers and the Guarantor and of the rights attaching to the Notes. In relation to the different types of Notes which may be issued under the Programme, the Issuers and the Guarantor have endeavoured to include in this Base Prospectus all of the necessary information except for information relating to the Notes which is not known at the date of this Base Prospectus and which can only be determined at the time of an individual issue of a Tranche of Notes.

Any information relating to the Notes which is not included in this Base Prospectus and which is required in order to complete the necessary information in relation to a Tranche of Notes will therefore be contained either in the applicable Final Terms or in a Drawdown Prospectus. Such information will be contained in the applicable Final Terms unless any of such information constitutes a significant new factor relating to the information contained in this Base Prospectus in which case such information, together with all of the other necessary information in relation to the relevant series of Notes, will be contained in a Drawdown Prospectus.

For a Tranche of Notes which is the subject of Final Terms, those Final Terms will, for the purposes of that Tranche only, complete the Terms and Conditions of the Notes and this Base Prospectus and must be read in conjunction with this Base Prospectus. The terms and conditions applicable to any particular Tranche of Notes which is the subject of Final Terms are the Terms and Conditions of the Notes as completed to the extent described in the applicable Final Terms or Drawdown Prospectus, as the case may be. The terms and conditions applicable to any particular Tranche of Notes which is the subject of a Drawdown Prospectus will be the Conditions as supplemented to the extent described in the relevant Drawdown Prospectus. In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the applicable Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise.

An Issuer and, if applicable, the Guarantor, may agree with any Dealer that Notes may be issued, offered to the public, and/or admitted to trading on a regulated market in a form not contemplated by the Terms and Conditions of the Notes described in this Base Prospectus, in which event a Drawdown Prospectus will be submitted for approval to the relevant competent authority and will be made available. In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the applicable Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise. The terms and conditions applicable to any particular Tranche of Notes which is the subject of a Drawdown Prospectus will be the Terms and Conditions of the Notes as supplemented, amended and/or replaced to the extent described in the relevant Drawdown Prospectus.

In accordance with Article 5.3 of the Prospectus Directive, the Drawdown Prospectus will be drawn up as a single document, incorporating by reference, if applicable, the relevant parts of the Base Prospectus.

SUPPLEMENT TO THE BASE PROSPECTUS

If at any time the Issuers shall be required to prepare a supplement to this Base Prospectus pursuant to Article 16 of the Prospectus Directive, the Issuers will prepare and make available an appropriate amendment or supplement to this Base Prospectus or a further Base Prospectus which, in respect of any subsequent issue of Notes to be listed and admitted to trading on a regulated market shall constitute a supplement to the Base Prospectus as required by Article 16 of the Prospectus Directive and shall supply each Dealer with such number of copies of such supplement hereto as such Dealer may reasonably request.

The Issuer has given an undertaking to the Dealers that if at any time during the duration of the Programme there is a significant new factor, material mistake, inaccuracy or omission relating to information contained in this Base Prospectus which is capable of affecting the assessment of any Notes and whose inclusion in or removal from this Base Prospectus is necessary, for the purpose of allowing an investor to make an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuer, the Group and the rights attaching to the Notes, the Issuer shall prepare an amendment or supplement to this Base Prospectus or publish a replacement Base Prospectus for use in connection with any subsequent offering of the Notes, and shall supply each Dealer with such number of copies of such supplement hereto as such Dealer may reasonably request.

Following the publication of this Base Prospectus, the Issuers and the Guarantor will, in the event of any significant new factor, material mistake or inaccuracy relating to information included in this Base Prospectus which is capable of affecting the assessment of any Notes, prepare a supplement to this Base Prospectus (a **Supplement**) in accordance with Article 16 of the Prospectus Directive or publish a new prospectus for use in connection with any subsequent issue of Notes. Such Supplement as prepared will have to be approved by the CSSF and SIX Swiss Exchange, in accordance with the listing rules of SIX Swiss Exchange. Statements contained in any such Supplement (or contained in any document incorporated by reference therein) shall, to the extent applicable (whether expressly, by implication or otherwise), be deemed to modify or supersede statements contained in this Base Prospectus or in a document which is incorporated by reference in this Base Prospectus. Any statement so modified or superseded shall not, except as so modified or superseded, constitute a part of this Base Prospectus.

In the case of Notes subject to a non exempt offer to the public, in accordance with Article 16.2 of the Prospectus Directive, investors who have already agreed to purchase or subscribe for Notes before any Supplement is published have the right, exercisable within two working days after the publication of this Supplement, to withdraw their acceptances.

Each Tranche of English Law Notes will be either Bearer Notes (with or without Receipts or Coupons attached) issued outside the United States in reliance on the exemption from registration provided by Regulation S or Registered Notes (without Receipts or Coupons attached) issued outside the United States in reliance on the exemption from registration provided by Regulation S and/or within the United States in reliance on Rule 144A.

2.1 Bearer Notes

Each Tranche of Bearer Notes will be initially issued in the form of a Temporary Global Note or, if so specified in the applicable Final Terms, a Permanent Global Note which, in either case, will:

- if the Global Notes are intended to be issued in new global note (hereinafter **New Global Note** or **NGN**) form, as stated in the applicable Final Terms, be delivered on or prior to the original issue date of the Tranche to a common safekeeper (the **Common Safekeeper**) for Euroclear and Clearstream, Luxembourg; and

Bearer Global Notes as defined under the Terms and Conditions of the English Law Notes and the Uncertificated Notes will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg as the case may be.

The Bearer Notes of each Tranche offered and sold in reliance on Regulation S may not be offered or sold in the United States or to, or for the benefit or account of, a U.S. Person, and such Bearer Notes will bear a legend regarding such restrictions on transfer. Any future transfer, resale, pledge or delivery of such Bearer Notes or any interest therein may only be made in compliance with the resale provisions set forth in Regulation S of the Securities Act.

In the event that a Global Note held on behalf of Euroclear and/or Clearstream, Luxembourg (or any part thereof) has become due and repayable in accordance with the Terms and Conditions or that the Maturity Date has occurred and, in either case, payment in full of the amount due has not been made to the bearer in accordance with the Terms and Conditions, the Global Note will become void. At the same time, accountholders with Euroclear and/or Clearstream, Luxembourg having such Notes (other than

Definitive Bearer Notes, as defined in the Terms and Conditions of the English Law Notes and the Uncertificated Notes) credited to their accounts will become entitled to proceed directly against the relevant Issuer, on the basis of statements of account provided by Euroclear and/or Clearstream, Luxembourg, under the terms of a deed of covenant (the **Deed of Covenant**) dated 29 April 2014 and executed by each Issuer.

2.2 Registered Notes

The Registered Notes of each Tranche offered and sold in reliance on Regulation S, which will be sold to non-U.S. persons outside the United States, will initially be represented by a Regulation S Global Note or a Non-U.S. Registered Global Note (in each case, as defined in English Law Condition 1.2.9). Beneficial interests in a Regulation S Global Note may not be offered or sold to, or for the account or benefit of, a U.S. Person save as otherwise provided in English Law Condition 1.2 and prior to the expiry of the Distribution Compliance Period (as defined in the Agency Agreement) may not be held otherwise than through Euroclear or Clearstream, Luxembourg and such Regulation S Global Note will bear a legend regarding such restrictions on transfer.

Non-U.S. Registered Notes, or any interest therein, may not at any time be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, a U.S. Person and any offer, sale, resale, trade, pledge, redemption, transfer or delivery made, directly or indirectly, within the United States or to, or for the account or benefit of, a U.S. Person will not be recognised. Non-U.S. Registered Global Notes may not be legally or beneficially owned at any time by any U.S. Person and accordingly are being offered and sold outside the United States to persons that are not U.S. persons in reliance on Regulation S, interests therein may not be held otherwise than through Euroclear or Clearstream, Luxembourg and such Non-U.S. Registered Notes will bear a legend regarding such restrictions on transfer.

The Registered Notes of each Tranche offered and sold in the United States or to U.S. Persons in private transactions to QIBs that are also QPs will initially be represented by a Rule 144A Global Note (each as defined in English Law Condition 1.2.9). Any Rule 144A Global Note will be subject to certain restrictions on transfer set forth therein and will bear a legend regarding such restrictions.

The Registered Notes of each Tranche eligible for sale in the United States to QIBs pursuant to Rule 144A and to non-U.S. persons outside the United States in reliance on Regulation S may initially be represented by a Combined Global Note (as defined in English Law Condition 1.2.9). Any Combined Global Note will be subject to certain restrictions on transfer set forth therein and will bear a legend regarding such restrictions.

Registered Global Notes (being Rule 144A Global Notes, Regulation S Global Notes, Combined Global Notes or Non-U.S. Registered Global Notes) will either (i) be deposited with a custodian for, and registered in the name of a nominee of, the Depository Trust Company (hereinafter the **DTC**) (in the case of Rule 144A Global Notes and Regulation S Global Notes only) or (ii) be deposited with a Common Depository for Euroclear and Clearstream, Luxembourg, and registered in the name of a common nominee of, Euroclear and Clearstream, Luxembourg or, in the case of Registered Global Notes issued under the new safekeeping structure (the **NSS**), registered in the name of a nominee of one of the ICSDs acting as Common Safekeeper, as specified in the applicable Final Terms. Persons holding beneficial interests in Registered Global Notes will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of Definitive Registered Notes (as defined under the Terms and Conditions of the English Law Notes and the Uncertificated Notes).

For so long as any of the Notes is represented by a Registered Global Note issued under the NSS and held by a Common Safekeeper on behalf of Euroclear and/or Clearstream, Luxembourg, each person who is for the time being shown in the records of Euroclear and/or Clearstream, Luxembourg as entitled to a particular nominal amount of Notes shall be deemed to be the Holder of such nominal amount of Notes for all purposes other than with respect to the payment of principal, premium (if any), interest or other amounts on such Notes, for which purpose such Common Safekeeper shall be deemed to be the

Holder of such nominal amount of Notes in accordance with and subject to the terms of the relevant Global Note.

Payments of principal, interest and any other amounts in respect of the Registered Global Notes will, in the absence of provision to the contrary, be made to the person shown on the Register (as defined in English Law Condition 4.4) as the registered holder of the Registered Global Notes. None of the Issuer, the Guarantor, or any Agent will have any responsibility or liability for any aspect of the records appearing on the Register or payments or deliveries made on account of beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payments of principal, interest or any other amount in respect of Definitive Registered Notes will, in the absence of provision to the contrary, be made to the persons shown on the Register on the relevant Record Date (as defined in English Law Condition 4.4) immediately preceding the due date for payment in the manner provided in that English Law Condition 4.4.

Interests in a Registered Global Note may, subject to compliance with all applicable restrictions, be transferred to a person who wishes to hold such interest in another Registered Global Note. No beneficial owner of an interest in a Registered Global Note will be able to transfer such interest, except in accordance with the applicable procedures of DTC, Euroclear and Clearstream, Luxembourg, in each case to the extent applicable.

2.3 Eurosystem eligibility

New Global Notes and Registered Global Notes issued under the NSS may be issued with the intention that such Notes be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem, either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria as specified by the European Central Bank. However, there is no guarantee that such Notes will be recognised as eligible collateral. Any other Notes are not intended to be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem.

2.4 Swedish Notes

Beneficial interests in the Swedish Notes will be held in uncertificated and dematerialised book-entry form with a Swedish central securities depository (**Swedish CSD**) which will be Euroclear Sweden or any successor acceptable to the Issuer. Euroclear Sweden is a subsidiary within the Euroclear group of companies. Euroclear Sweden is a limited liability company. It is authorised and regulated by the Swedish Financial Supervisory Authority as a central securities depository within the meaning of the Swedish Financial Instruments Accounts Act (*Sw. lag (1998:1479) om kontoföring av finansiella instrument*) (as amended) and as a clearing organisation within the meaning of the Swedish Securities Markets Act (*Sw. lag 2007:528) om värdepappersmarknaden*) (as amended). All transactions relating to the beneficial interests in the Swedish Notes (such as issuance, sale and transfer, pledge arrangements and other dispositions and redemptions) are executed as computerised book-entry registrations. Consequently, in order to effect such entries beneficial owners must establish a book-entry account through a credit institution or a securities firm acting as an account operator with Euroclear Sweden. More information regarding Euroclear Sweden and its rules and operating procedures can be found at its internet web site at <http://www.euroclear.eu>.

Any and all Global Notes issued in respect of Swedish Notes will be deposited upon issuance with a common depository for Euroclear, as operator of the Euroclear system and Clearstream. This Series of Swedish Notes will be shown in the records of Euroclear as being held by the Swedish CSD. The Swedish CSD will hold all interests in this Series of Swedish Notes for the sole purpose of enabling clearing and settlement of such interests in uncertificated and dematerialised book-entry form in the records maintained by the Swedish CSD in accordance with the CSD Rules for the benefit of the ultimate beneficial owners. Beneficial interests in the Swedish Notes will be shown in the records of the Swedish CSD pursuant to such agreement(s) as may be entered into between the Issuer and the

Swedish CSD in relation to this Series of Swedish Notes. Such beneficial interests in the Swedish Notes shown in the records of the Swedish CSD will be treated as negotiable instruments and not subject to any restrictions on free negotiability under Swedish law. No beneficial owner is entitled to transfer (and the Swedish CSD will not allow any such transfer), any Swedish Note directly to the records of Euroclear and thereby removing such Swedish Notes from the records of the Swedish CSD. Other than as described in the provisions regarding exchange into Definitive Bearer Notes described in the section "Exchange upon the occurrence of an Exchange Event", no global or definitive Notes or other physical notes or certificates will be issued in respect of any Swedish Notes shown in the records of the Swedish CSD.

The Swedish Notes will be shown in the records of the Swedish CSD pursuant to such agreement(s) as may be entered into in relation to any Series of Swedish Notes between, *inter alia*, the Issuer and the Swedish Issuer agent (the **Swedish Issuer Agent**) specified in the applicable Final Terms.

3. EUI NOTES

EUI Notes will be held in registered uncertificated form in accordance with the Uncertificated Securities Regulations 2001, including any modification or re-enactment thereof for the time being in force (the **Regulations**) and as such are dematerialised and not constituted by any physical document of title. The EUI Notes are participating securities for the purposes of the Regulations. Title to the EUI Notes is recorded on the relevant Operator register of corporate securities. The EUI Agent on behalf of the Issuer shall, in relation to the EUI Notes, maintain a record of uncertificated corporate securities in accordance with the records of Euroclear UK & Ireland Limited (**EUI** or **CREST**) (formerly known as CRESTCo Limited) (the **Record**) and shall procure that the Record is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator. Subject to this requirement, (i) each person who is for the time being shown in the Record as the holder of a particular number of EUI Notes shall be treated by the Issuer and the EUI Agent as the holder of such number of EUI Notes for all purposes (and the expression **EUI Holder** and related expressions shall be construed accordingly), and (ii) neither the Issuer, the Guarantor nor the EUI Agent shall be liable in respect of any act or thing done or omitted to be done by it or on its behalf in reliance upon the assumption that the particulars entered in the Record which the EUI Agent maintains are in accordance with particulars entered in the Operator register of corporate securities relating to the EUI Notes. For the avoidance of doubt, in the event of any differences in information contained in the Record and the register of EUI Notes in registered form kept at the Issuer's registered office, the register kept at the Issuer's registered office shall prevail for Luxembourg law purposes.

No provision of the Conditions of any EUI Notes shall apply or have effect to the extent that it is in any respect inconsistent with (i) the holding of title to EUI Notes (ii) the transfer of title to EUI Notes by means of a relevant system or (iii) the Regulations. Without prejudice to the generality of the preceding sentence and notwithstanding anything contained in the Conditions of any EUI Notes, so long as the EUI Notes are participating securities, (a) any EUI Notes which are not for the time being in all respects identical to, or do not for the time being have rights attached thereto identical in all respects to those attached to, other EUI Notes of the same Series shall be deemed to constitute a separate Series of EUI Notes, (b) the Operator register of corporate securities relating to the EUI Notes shall be maintained at all times in the United Kingdom, (c) the EUI Notes may be issued in uncertificated form in accordance with and subject as provided in the Regulations; and (d) for the avoidance of doubt, the Conditions of any EUI Notes shall remain applicable notwithstanding that they are not endorsed on any certificate for such EUI Notes.

As used herein each of "Operator register of corporate securities", "participating securities", "record of uncertificated corporate securities" and "relevant system" is as defined in the Regulations and the relevant "Operator" (as such term is used in the Regulations) is EUI (formerly CRESTCo Limited) or any additional or alternative operator from time to time approved by the Issuer, the Guarantor and the EUI Agent in relation to the EUI Notes and in accordance with the Regulations. Any reference herein to the Operator shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator from time to time and notified to the EUI Holders.

Any indication herein that the Operator "shall" do, or similar expression or phrase indicating that they are obliged to or will carry out any role or obligation described in these Conditions and/or the applicable Final Terms, as the case may be, is given without any assumption by the Issuer, the Guarantor, the EUI Agent or the Calculation Agent, of responsibility or liability for the performance of the Operator.

In respect of dematerialised CREST depository interests (**CDIs**), investors will hold CDIs constituted and issued by CREST Depository Limited and representing indirect interests in the Notes. The CDIs will be issued and settled through CREST.

Neither the Notes nor any rights thereto will be issued, held, transferred or settled within the CREST system otherwise than through the issue, holding, transfer and settlement of CDIs.

Holders of CDIs will not be entitled to deal directly in Notes and accordingly all dealings in the Notes will be effected through CREST in relation to holding of CDIs.

All references in this Base Prospectus to "EUI Notes" shall, where the context admits, include CDIs.

EUI Notes and any non-contractual obligations arising out of or in connection with the Notes will be governed by English law.

If the applicable Final Terms specify that the clause "Permanently Restricted Notes" is stated as being "Yes": Uncertificated Nordic Notes may not be legally or beneficially owned at any time by any U.S. Person and accordingly are being offered and sold outside the United States to persons that are not U.S. Persons in reliance on Regulation S.

If the applicable Final Terms specify that the clause "Permanently Restricted Notes" is stated as being "No": Uncertificated Nordic Notes, or any interest therein, may not be offered or sold in the United States or to, or for the account or benefit of, a U.S. Person except pursuant to an exemption from the registration requirements of the Securities Act in a transaction that will not cause the Issuer or the Guarantor, as the case may be, to become required to register under the Investment Company Act.

Uncertificated Swedish Notes will be governed by Swedish law, Uncertificated Finnish Notes will be governed by Finnish law, Uncertificated Norwegian Notes will be governed by Norwegian law and Uncertificated Danish Notes will be governed by Danish Law.

Exchange (SIS or any other such intermediary, the **Intermediary**). The applicable Final Terms will indicate whether SIS Notes are CHF SIS Notes or Other SIS Notes or Uncertificated SIS Notes.

5.1 Bearer SIS Notes

Each Tranche of Bearer SIS Notes will be represented by a permanent global Note (**Permanent Global SIS Note**) which will be deposited by the Principal Swiss Paying Agent with the Intermediary on or prior to the original issue date of the Tranche. Each holder of Bearer SIS Notes shall have a quotal co-ownership interest (*Miteigentumsanteil*) in the Permanent Global SIS Note representing such Bearer SIS Notes to the extent of his claim against the Issuer, provided that, for so long as the Permanent Global SIS Note remains deposited with the Intermediary, the co-ownership interest shall be suspended and such Bearer SIS Notes may only be transferred by the entry of the transferred Bearer SIS Notes in a securities account (*Effektenkonto*) of the transferee.

The records of the Intermediary will determine the number of Bearer SIS Notes held through each participant of the Intermediary. Special procedures must be followed for CHF SIS Notes in order for such Notes to be exempt from Certification (as defined below). Each of the relevant Dealers must have represented and agreed in the Programme Agreement that (a) it will comply with U.S. selling restrictions in so far as they apply to CHF SIS Notes and (b) the offering and sale of the CHF SIS Notes has been and will be conducted in accordance with Swiss laws and regulations. The following criteria must be fulfilled in order for the limited exception to the certification requirement of the TEFRA D Rules to apply:

- the interest on, and the principal of, the CHF SIS Notes are denominated only in Swiss Francs;
- the interest on, and the principal of, the CHF SIS Notes are payable only in Switzerland;
- the CHF SIS Notes are offered and sold in accordance with Swiss customary practice and documentation;

No physical delivery of the Bearer SIS Notes shall be made unless and until Definitive Bearer SIS Notes have been printed. The relevant Permanent Global SIS Note will only be exchangeable, in whole, but not in part, for Definitive Bearer SIS Notes and Definitive Bearer SIS Notes may only be printed upon

Upon the occurrence of a Bearer SIS Notes Exchange Event, the Principal Swiss Paying Agent or the relevant lead manager, as the case may be, shall provide for the printing of Definitive Bearer SIS Notes without cost to the holders of the relevant Bearer SIS Notes. If Definitive Bearer SIS Notes are delivered, the relevant Permanent Global SIS Note will immediately be cancelled by the Principal Swiss Paying Agent or the relevant lead manager, as the case may be, and the Definitive Bearer SIS notes shall be delivered to the relevant holders against cancellation of the relevant Bearer SIS Notes in such holders' securities accounts.

Bearer SIS Notes and any non-contractual obligations arising out of or in connection with the Notes will be governed by English law.

5.2 Uncertificated SIS Notes

Each Tranche of Uncertificated SIS Notes will be entered into the main register (*Hauptregister*) of the Intermediary on or prior to their issue date. Once the Uncertificated SIS Notes are registered in the main register of the Intermediary, the Uncertificated SIS Notes will constitute Intermediated Securities.

So long as the Uncertificated SIS Notes constitute Intermediated Securities, they may only be transferred by the entry of the transferred Uncertificated SIS Notes in a securities account of the transferee.

Any future transfer, resale, pledge or delivery of such French Law Notes, or any interest therein, may only be made in compliance with the resale provisions set forth in Regulation S of the Securities Act.

French Law Notes which are not designated in the applicable Final Terms as Permanently Restricted Notes, or any interest therein, may not be offered or sold in the United States or to, or for the account or benefit of, a U.S. Person except pursuant to an exemption from the registration requirements of the Securities Act in a transaction that will not cause the Issuer or the Guarantor, as the case may be, to become required to register under the Investment Company Act.

6.1 Dematerialised Notes

Title to Dematerialised Notes will be evidenced in accordance with articles L.211-3 *et seq.* and R.211-1 of the French *Code monétaire et financier* by book entries (*inscriptions en compte*). No physical

Upon the initial deposit of such Temporary Global Certificate with the Common Depository, Euroclear or Clearstream, Luxembourg (or, if a subscriber holds an account with a clearing system other than Euroclear or Clearstream, Luxembourg which holds an account directly or indirectly in Euroclear or Clearstream, Luxembourg, such other clearing system) will credit the account of each subscriber of such Notes with a nominal amount of Notes equal to the nominal amount thereof for which it has subscribed and paid.

7. CERTIFICATION AS TO NON-U.S. BENEFICIAL OWNERSHIP

7.1 English Law Bearer Notes

Whilst any Bearer Note (except any Bearer SIS Notes, which are represented by Permanent Global SIS Notes as described above) is represented by a Temporary Global Note, payments of principal, interest (if any) and any other amounts payable in respect of the Notes, due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Global Note if the Temporary Global Note is not intended to be issued in NGN form) only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Note are not U.S. Persons or persons who have purchased for resale to any U.S. Person (hereinafter **Certification**), as required by U.S. Treasury regulations, (i) has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the Certifications it has received) to the Fiscal Agent or, (ii) in the case of a Temporary Global Note or Temporary Global Certificate held otherwise than on behalf of Euroclear and/or Clearstream, Luxembourg, from the holder thereof.

On and after the Exchange Date (as defined below), interests in the Temporary Global Note will be exchangeable (free of charge) upon a request as described therein either for, as applicable, (i) interests in a Permanent Global Note or (ii) Definitive Bearer Notes of the same Series with, where applicable, Receipts, Coupons and/or Talons attached (as indicated in the applicable Final Terms and subject, in the case of Definitive Bearer Notes, to such notice period as is specified in the Permanent Global Note), in accordance with the terms of the Temporary Global Note against Certification as to beneficial ownership as described above and as required by U.S. Treasury regulations unless such Certification has already been given pursuant to the provisions set forth above; provided, however, that if the relevant Global Note is issued in respect of a Tranche of Bearer Notes described as Partly Paid Notes in

the applicable Final Terms, such Global Note may be exchanged for Definitive Bearer Notes and (if applicable) Coupons, Receipts and/or Talons as described above only if the final part payment on all such Partly Paid Notes then outstanding has been paid. Exchange of a Temporary Global Note for interests in a Permanent Global Note will only be made if Definitive Bearer Notes have not already been issued. If Definitive Bearer Notes have already been issued, the Temporary Global Note may only thereafter be exchanged for Definitive Bearer Notes pursuant to the terms thereof. The holder of a Temporary Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due Certification, exchange of the Temporary Global Note for an interest in a Permanent Global Note or, in the case of Bearer Notes, for Definitive Bearer Notes is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Global Note (including Permanent Global SIS Notes) will be made through Euroclear and/or Clearstream, Luxembourg, and/or SIS as applicable, to or to the order of the holder thereof (against presentation or surrender (as the case may be) of the Permanent Global Note if the Permanent Global Note is not intended to be issued in NGN form) without any requirement for Certification.

7.2 French Law Materialised Notes

French Law Notes represented by a Temporary Global Certificate will be exchangeable in whole, but not in part, free of charge to the holder, on or after the Exchange Date (as defined below) for materialised bearer Notes in definitive form (any such Notes, **Definitive Materialised Bearer Notes**), with, where applicable, Receipts, Coupons and/or Talons attached:

- if the applicable Final Terms indicates that such Temporary Global Certificate is issued in compliance with the TEFRA C Rules or in a transaction to which TEFRA rules are not applicable; and
- otherwise, upon certification as to non-U.S. beneficial ownership in the form set out in the French Law Agency Agreement (as defined in the Terms and Conditions of the French Law Notes) for Definitive Materialised Bearer Notes.

On or after the Exchange Date, the holder of a Temporary Global Certificate may surrender such Temporary Global Certificate to or to the order of the Fiscal Agent (as defined in the French Law Agency Agreement). In exchange for any Temporary Global Certificate, the Issuer will deliver, or procure the delivery of, duly executed and authenticated Definitive Materialised Bearer Notes. Definitive Materialised Bearer Notes will be security printed at the expense of the Issuer in accordance with any applicable legal and stock exchange requirements in or substantially in the form set out in the French Law Agency Agreement.

For the purposes of this section "*Certification as to non-U.S. beneficial ownership*", the **Exchange Date** shall be the day immediately following the later of (i) 40 days after the Temporary Global Note or, as the case may be, Temporary Global Certificate is issued and (ii) 40 days after the completion of the distribution of the relevant Tranche, as certified by the relevant Dealer (in the case of a non-syndicated issue) or the relevant lead manager (in the case of a syndicated issue).

8. DEED OF COVENANT

If any Global Note (other than Permanent Global SIS Note) has become due and repayable in accordance with its terms and conditions or if the Maturity Date of such Note has occurred and payment in full of the amount due has not been made in accordance with the provisions of the Bearer Global Note, then the Bearer Global Note will become void at 8.00 p.m. (London time) on such day. At the same time, holders of interests in such Bearer Global Note credited to their accounts with Euroclear and/or Clearstream, Luxembourg, as the case may be, will become entitled to proceed directly against the Issuer on the basis of statements of account provided by Euroclear and/or Clearstream, Luxembourg on and subject to the terms of the Deed of Covenant.

9. EXCHANGE UPON THE OCCURRENCE OF AN EXCHANGE EVENT

The applicable Final Terms with respect to any English Law Notes issued in global form (other than SIS Notes) will specify that the relevant Permanent Global Note or Registered Global Note (as applicable) will be exchangeable (free of charge), in whole but not in part, for Definitive Bearer Notes with, where applicable, Receipts, Coupons and/or Talons attached, or, as the case may be, Definitive Registered Notes, upon not less than 60 days' written notice given to the Fiscal Agent from or on behalf of, as the case may be, Euroclear and/or Clearstream, Luxembourg acting on the instructions of any holder of an interest in the Permanent Global Note or Registered Global Note as described therein (unless otherwise specified in the applicable Final Terms) or, in the case of a Permanent Global Note, if such Note is held otherwise than on behalf of Euroclear or Clearstream, Luxembourg, the bearer thereof, in the event of the occurrence of any of the circumstances described in (i), (ii), (iii), (iv) or (v) below (each, an **Exchange Event**) or by the Issuer in the event of the occurrence of the circumstances described in (iv) below:

- (i) if applicable, an Event of Default (as defined in English Law Condition 8) has occurred and is continuing;
- (ii) in the case of Registered Notes registered in the name of a nominee for DTC, either DTC has notified the Issuer that it is unwilling or unable to continue to act as depository for the Notes and no alternative clearing system is available or DTC has ceased to constitute a clearing agency registered under the Exchange Act;
- (iii) in the case of a Permanent Global Note or a Registered Global Note registered in the name of a common depository for Euroclear and/or Clearstream, Luxembourg, the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or announce an intention permanently to cease business or have in fact done so and no successor clearing system is available;
- (iv) on the occasion of the next payment in respect of any Bearer Notes, the Issuer would be required to pay additional amounts as referred to in English Law Condition 6 and such payment would not be required were the Notes in definitive form; provided, however, that if the relevant Global Note is issued in respect of a Tranche of Bearer Notes described as Partly Paid Notes in the applicable Final Terms, such Global Note may be exchanged for Definitive Notes and (if applicable) Coupons, Receipts and/or Talons as described above only if the final part payment on all such Partly Paid Notes then outstanding has been paid; or
- (v) in the case of Registered Notes, the Issuer has or will become subject to adverse tax consequences which would not be suffered were such Registered Notes represented by a Registered Definitive Note.

The Issuer will promptly give notice to Noteholders in accordance with English Law Condition 13 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, DTC, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Registered Global Note) may give notice to the Fiscal Agent or, as the case may be, the Registrar requesting exchange and, in the event of the occurrence of an Exchange Event as described in (v) above, the Issuer may also give notice to the Registrar requesting exchange. Any such exchange shall occur not later than 10 days after the date of receipt of the first relevant notice by the Registrar.

In respect of Bearer SIS Notes, the Permanent Global SIS Note will not be exchangeable at the option of the holders of such Bearer SIS Notes, but may be exchanged for Definitive Bearer SIS Notes, in whole, but not in part, if the Principal Swiss Paying Agent deems:

- (i) the printing of definitive Notes, Receipts or Coupons to be necessary or useful, or

- (ii) the presentation of definitive Notes, Receipts or Coupons to be required by Swiss or foreign laws in connection with the enforcement of rights (including in cases of bankruptcy, consolidation or reorganisation of the Issuer).

In respect of Bearer SIS Notes, each such circumstance constitutes a **Bearer SIS Notes Exchange Event**.

If Definitive Bearer SIS Notes are delivered, the relevant permanent Global Note will immediately be cancelled by the Principal Swiss Paying Agent or the relevant lead manager, as the case may be, and the Definitive Bearer SIS Notes shall be delivered to the relevant holders against cancellation of the relevant Bearer SIS Notes in such holders' securities accounts.

AND THE UNCERTIFICATED NOTES**

The following general terms and conditions applicable to every Series of Notes (the **General Terms and Conditions**), with, if applicable, the additional terms and conditions for Structured Notes, Formulae and Secured Notes (the **Additional Terms and Conditions**) constitute the terms and conditions of the Notes to be issued under English law, including SIS Notes (as defined in Condition 1) (the **Terms and Conditions**) and will be attached to or incorporated by reference into each Global Note and each Definitive Note, in the latter case only if permitted by the relevant stock exchange or other relevant authority (if any) and agreed by the relevant Issuer and the relevant Purchaser(s) at the time of issue but, if not so permitted and agreed, such Definitive Note will have endorsed upon or attached thereto such Terms and Conditions.

The following Terms and Conditions will, if the context so permits, apply to Uncertificated Notes. The applicable Final Terms in relation to any Tranche of Notes will complete the following Terms and Conditions for the purpose of such Notes (including, for the avoidance of doubt, Uncertificated Notes). The applicable Final Terms (or the relevant provisions thereof) will be endorsed on, attached to or incorporated by reference into, each Temporary Global Note, Permanent Global Note and Definitive Note and shall be deemed to apply to Uncertificated Notes.

Words and expressions defined in the Agency Agreement (as defined below) or used in the applicable Final Terms shall have the same meanings where used in these Terms and Conditions unless the context otherwise requires or unless otherwise stated and provided that, in the event of any inconsistency between the Agency Agreement and the applicable Final Terms, the applicable Final Terms will prevail.

This Note is one of a Series (as defined below) of Notes issued with the benefit of an Agency Agreement. References herein to (i) the **Issuer** shall be references to the party specified as such in the applicable Final Terms (as defined below) and, in the case of any substitution of the Issuer in accordance with the provisions of Condition 12, the **Substituted Debtor** as defined in Condition 12 and (ii) the **Guarantor** shall mean Société Générale in its capacity as guarantor pursuant to the Guarantee (as defined in Condition 2.5) in respect of any Notes issued by SG Issuer, SGA Société Générale Acceptance N.V. and SG Option Europe. 1. FORM, DENOMINATION, REDENOMINATION AND TITLE – TRANSFER

1.1 Form, denomination, redenomination and title

The Notes, except for Uncertificated Notes and Registered Notes, are Bearer Notes, and, in the case of Definitive Bearer Notes, serially numbered, in the Specified Currency and the Specified Denomination(s) specified in the applicable Final Terms. Notes of one Specified Denomination may not be exchanged for Notes of another Specified Denomination.

Uncertificated Notes are in uncertificated and dematerialised book-entry form. No global or definitive Notes will be issued in respect of Uncertificated Notes and these General Terms and Conditions shall be construed accordingly. Uncertificated Notes will be transferable only in accordance with the legislation, rules and regulations applicable to, and/or issued by, the relevant central securities depository and clearing institution; provided that Uncertificated Notes, or any interest therein, may not at any time be transferred to a transferee in the United States or a U.S. Person. Title to Uncertificated Notes (other than Uncertificated SIS Notes) will pass by registration in the register that the Issuer will procure to be kept by a central securities depository and clearing institution on behalf of the Issuer. Where a nominee is so evidenced it shall be treated as the holder of the relevant Uncertificated Notes.

A **SIS Note** is either a Bearer Note (a **Bearer SIS Note** which term includes CHF SIS Notes and Other SIS Notes) or an Uncertificated Note (an **Uncertificated SIS Note**) which is, or is intended to be, deposited or registered with and cleared through SIS or any other clearing institution in Switzerland recognised for such purposes by SIX Swiss Exchange (SIS or any such intermediary, the **Intermediary**). SIS Notes may be denominated in Swiss Francs or other currencies approved by the Intermediary. The applicable Final Terms will indicate whether SIS Notes are CHF SIS Notes, Other SIS Notes (each as defined below) or Uncertificated SIS Notes.

Bearer SIS Notes are represented by a permanent global Note (**Permanent Global SIS Note**) without Coupons that will be deposited with the Intermediary on or prior to the original issue date of the Tranche. Once the Permanent Global SIS Note representing the Bearer SIS Notes has been deposited with the Intermediary and entered into the accounts of one or more participants of the Intermediary, such Bearer SIS Notes will constitute intermediated securities (*Bucheffekten*) within the meaning of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*) (**Intermediated Securities**). Bearer SIS Notes denominated in Swiss Francs benefit from a limited exception to the certification in bearer form requirement of the TEFRA D Rules, if such Bearer SIS Notes fulfil the relevant requirements set out below. Bearer SIS Notes denominated in Swiss Francs which fulfil these requirements are hereinafter referred to as **CHF SIS Notes**. Bearer SIS Notes denominated in Swiss Francs that do not fulfil these requirements and Bearer SIS Notes denominated in a currency approved by the Intermediary other than Swiss Francs are hereinafter referred to as **Other SIS Notes**.

Unless this possibility is expressly excluded in the relevant Final Terms and to the extent permitted by applicable law, the Issuer may at any time request from the central depository identification information of the Noteholders such as the name or the company name, nationality, date of birth or year of incorporation and mail address or, as the case may be, e-mail address of holders of Dematerialised Notes in bearer form¹.

The following criteria must be fulfilled in order for the limited exception to the certification requirement of the TEFRA D Rules to apply:

- (a) the interest on, and the principal of, the CHF SIS Notes are denominated only in Swiss Francs;
- (b) the interest on, and the principal of, the CHF SIS Notes are payable only in Switzerland;

¹ The possibility for the Issuer of requesting from the central depository identification information of the Noteholders such as the name or company name, nationality, date of birth or year of incorporation and mail address or, as the case may be, e-mail address of holders of Dematerialised Notes in bearer form (*au porteur*) is provided by the current draft *Ordonnance portant diverses dispositions de droit des sociétés prises en application de l'article 3 de la loi n° 2014-1 du 2 janvier 2014 habilitant le Gouvernement à simplifier et sécuriser la vie des entreprises*. This *Ordonnance* is scheduled to be adopted at the latest on 3 August 2014.

- (c) the CHF SIS Notes are offered and sold in accordance with Swiss customary practice and documentation;
- (d) the relevant Dealers agree to use reasonable efforts to sell the CHF SIS Notes within Switzerland;
- (e) the CHF SIS Notes are not listed, or subject to an application for listing, on an exchange located outside Switzerland;
- (f) the issuance of the CHF SIS Notes is subject to guidelines or restrictions imposed by Swiss governmental, banking or securities authorities; and
- (g) more than 80 per cent. by value of the CHF SIS Notes included in the offering of which they are part are offered and sold to non-Dealers by Dealers maintaining an office located in Switzerland.

Uncertificated SIS Notes will be entered into the main register (*Hauptregister*) of the Intermediary on or prior to their issue date. Once the Uncertificated SIS Notes are registered in the main register (*Hauptregister*) of the Intermediary, such Uncertificated SIS Notes will constitute Intermediated Securities.

In the case of SIS Notes, no printing of definitive Notes, Receipts or Coupons will occur (except as provided herein with respect to Bearer SIS Notes only). No Holder of Bearer SIS Notes shall at any time have the right to effect or demand the conversion of the Permanent Global SIS Note representing such Bearer SIS Notes into, or the delivery of, Bearer SIS Notes in definitive form (**Definitive Bearer SIS Notes**) or uncertificated form. If (i) the relevant lead manager (in the case of any Bearer SIS Notes that are listed on SIX Swiss Exchange) or the Principal Swiss Paying Agent (in the case of any Bearer SIS Notes not listed as aforesaid) deems the printing of definitive Notes, Receipts or Coupons to be necessary or useful, or (ii) the presentation of definitive Notes, Receipts or Coupons is required by Swiss or foreign laws in connection with the enforcement of rights (including in cases of bankruptcy, consolidation or reorganisation of the Issuer) (each such circumstance, in respect of Bearer SIS Notes, a **Bearer SIS Notes Exchange Event**), the relevant lead manager (in the case of any Bearer SIS Notes which are listed on SIX Swiss Exchange) or the Principal Swiss Paying Agent (in the case of any Bearer SIS Notes not listed as aforesaid) will provide for the printing of such definitive Notes, Receipts and Coupons at the expense of the Issuer and without cost to the relevant Noteholders. The Issuer irrevocably authorises the relevant lead manager (in the case of any Bearer SIS Notes that are listed on SIX Swiss Exchange) or the Principal Swiss Paying Agent (in the case of any Bearer SIS Notes that are not listed as aforesaid) to provide for such printing on its behalf. If Definitive Bearer SIS Notes are delivered, the relevant Permanent Global SIS Note will immediately be cancelled by the Principal Swiss Paying Agent or the relevant lead manager, as the case may be, and the Definitive Bearer SIS Notes shall be delivered to the relevant holders against cancellation of the relevant Bearer SIS Notes in such holders' securities accounts.

This Note may be a Fixed Rate Note, a Floating Rate Note, a Zero Coupon Note, a Structured Note, a Fixed/Floating Rate Note, a Physical Delivery Note, a Dual Currency Note or a Partly Paid Note or an Instalment Note or a combination of any of the foregoing, depending upon the Interest/Payment/Redemption Basis shown in the applicable Final Terms.

Any reference herein to **Physical Delivery Notes** shall mean any Series of Notes specified as such in the applicable Final Terms, which Notes are linked to the Deliverable Asset(s) (as defined in Condition 5.12) described in the applicable Final Terms.

Subject as set out below, title to Bearer Notes, Receipts and Coupons will pass by delivery. Subject as set out below, the Issuer, the Guarantor and any Paying Agent will (except as otherwise required by law) deem and treat the bearer of any Bearer Note, Receipt or Coupon as the absolute owner thereof (whether or not overdue and notwithstanding any notice of ownership or writing thereon or notice of any previous loss or theft thereof) for all purposes but, in the case of any Global Note, without prejudice to the provisions set out in the next succeeding paragraph.

For so long as any of the Bearer Notes (other than SIS Notes) or the Registered Notes is represented by a Global Note held on behalf of, or in the case of Registered Notes, by a Common Depository or in the case of New Global Notes and Registered Global Notes held under the NSS, a Common Safekeeper, on behalf of, Euroclear Bank S.A./N.V. In the case of Bearer SIS Notes, each holder thereof shall have a quotal co-ownership interest (*Miteigentumsanteil*) in the Permanent Global SIS Note representing such Bearer SIS Notes to the extent of his claim against the Issuer, provided that, for so long as the Permanent Global SIS Note remains deposited with the Intermediary, the co-ownership interest shall be suspended and the Bearer SIS Notes may only be transferred by the entry of the transferred Bearer SIS Notes in a securities account of the transferee. Uncertificated SIS Notes may also only be transferred by the entry of the transferred Uncertificated SIS Notes in a securities account of the transferee. The records of the Intermediary will determine the number of SIS Notes held through each participant of the Intermediary. In respect of SIS Notes held in the form of Intermediated Securities (*Bucheffekten*), the holders of such SIS Notes will be the persons holding such SIS Notes in a securities account (*Effektenkonto*) that is in their name, or, in the case of intermediaries (*Verwahrungsstellen*), the intermediaries (*Verwahrungsstellen*) holding such SIS Notes for their own account in a securities account (*Effektenkonto*) that is in their name (and the expressions "Noteholder" and "holder of Notes" and related expressions shall be construed accordingly).

For so long as The Depository Trust Company (**DTC**) or its nominee is the registered owner or holder of a Rule 144A Global Note or a Regulation S Global Note, DTC or such nominee, as the case may be, will be considered the sole owner or holder of the Notes represented by such Rule 144A Global Note or Regulation S Global Note for all purposes under the Agency Agreement and the Notes except to the extent that in accordance with DTC's published rules and procedures any ownership rights may be exercised by its participants or beneficial owners through participants (and the expressions "Noteholder" and "holder of Notes" and related expressions shall be construed accordingly).

Notes which are represented by a Global Note held on behalf of Euroclear, Clearstream, Luxembourg or DTC will be transferable only in accordance with the rules and procedures for the time being of Euroclear, Clearstream, Luxembourg or DTC, as the case may be. References to DTC, Euroclear and/or Clearstream, Luxembourg and/or SIS shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms.

The Notes may also be held in registered uncertificated form (such Notes the **EUI Notes**) in accordance with the Uncertificated Securities Regulations 2001, including any modification or re-enactment thereof for the time being in force (the **Regulations**). The EUI Notes are participating securities for the purposes

of the Regulations. Title to the EUI Notes is recorded on the relevant Operator register of corporate securities. The EUI Agent on behalf of the Issuer shall, in relation to the EUI Notes, maintain a record of uncertificated corporate securities in accordance with the records of Euroclear UK & Ireland Limited (**EUI**) (formerly known as CRESTCo Limited) (the **Record**) and shall procure that the Record is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator. Subject to this requirement, (i) each person who is for the time being shown in the Record as the holder of a particular number of EUI Notes shall be treated by the Issuer and the EUI Agent as the holder of such number of EUI Notes for all purposes (and the expression **EUI Holder** and related expressions shall be construed accordingly), and (ii) neither the Issuer, the Guarantor nor the EUI Agent shall be liable in respect of any act or thing done or omitted to be done by it or on its behalf in reliance upon the assumption that the particulars entered in the Record which the EUI Agent maintains are in accordance with particulars entered in the Operator register of corporate securities relating to the EUI Notes. For the avoidance of doubt, in the event of any differences in information contained in the Record and the register of EUI Notes in registered form kept at the Issuer's registered office, the register kept at the Issuer's registered office shall prevail for Luxembourg law purposes.

No provisions of these Conditions amended in accordance with any applicable Final Terms shall (notwithstanding anything contained therein) apply or have effect to the extent that it is in any respect inconsistent with (i) the holding of title to EUI Notes (ii) the transfer of title to EUI Notes by means of a relevant system or (iii) the Regulations. Without prejudice to the generality of the preceding sentence and notwithstanding anything contained in these Conditions or the applicable Final Terms, so long as the EUI Notes are participating securities, (a) any EUI Notes which are not for the time being in all respects identical to, or do not for the time being have rights attached thereto identical in all respects to those attached to, other EUI Notes of the same Series shall be deemed to constitute a separate Series of EUI Notes, (b) the Operator register of corporate securities relating to the EUI Notes shall be maintained at all times in the United Kingdom, (c) the EUI Notes may be issued in uncertificated form in accordance with and subject as provided in the Regulations; and (d) for the avoidance of doubt, these Conditions and the applicable Final Terms in relation to any EUI Notes shall remain applicable notwithstanding that they are not endorsed on any certificate for such EUI Notes.

As used herein each of "Operator register of corporate securities", "participating securities", "record of uncertificated corporate securities" and "relevant system" is as defined in the Regulations and the relevant "Operator" (as such term is used in the Regulations) is EUI (formerly CRESTCo. Limited) or any additional or alternative operator from time to time approved by the Issuer, the Guarantor and the EUI Agent in relation to the EUI Notes and in accordance with the Regulations. Any reference herein to the Operator shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator from time to time and notified to the EUI Holders.

Any indication herein that the Operator "shall" do, or similar expression or phrase indicating that they are obliged to or will carry out any role or obligation described in these Conditions and/or the applicable Final Terms, as the case may be, is given without any assumption by the Issuer, the Guarantor, the EUI Agent or the Calculation Agent, of responsibility or liability for the performance of the Operator.

References in these Conditions to "EUI Notes" shall include, where the context admits, Depository Interests (as defined in the CREST Deed Poll) representing Notes, issued by CREST Depository Limited subject to and in accordance with the Global Deed Poll.

References to the CREST Deed Poll are to the global deed poll dated 25 June 2001, as subsequently modified, supplemented and/or restated.

The Issuer may (if so specified in the applicable Final Terms), on any Interest Payment Date as specified in the applicable Final Terms, without the consent of the Noteholders, by giving at least 30 days' notice in accordance with Condition 13, and on or after the date on which the European Member State in whose national currency the Notes are denominated has become a participating Member State in the third stage of the European Economic and Monetary Union (as provided in the Treaty on the Functioning of the European Union (the **EU**), as amended from time to time (the **Treaty**)) or events have

occurred which have substantially the same effects (in either case, **EMU**), redenominate all, but not some only, of the Notes of any series into Euro and adjust the aggregate principal amount and the Denomination(s) set out hereon accordingly, as described below. The date on which such redenomination becomes effective shall be referred to in these General Terms and Conditions as the **Redenomination Date**.

The redenomination of the Notes pursuant to the above paragraph shall be made by converting the principal amount of each Note from the relevant national currency into Euro using the fixed relevant national currency Euro conversion rate established by the Council of the European Union pursuant to Article 140 of the Treaty and rounding the resultant figure to the nearest 0.01 Euro (with 0.005 Euro being rounded upwards), provided that, if the Issuer determines, with the agreement of the Fiscal Agent that the then market practice in respect of the redenomination in euro of internationally offered securities is different from the provisions specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Noteholders, the stock exchange (if any) on which the Notes may be listed and the Paying Agents of such deemed amendments.

If the Issuer so elects, the figure resulting from conversion of the principal amount of each Note using the fixed relevant national currency Euro conversion rate shall be rounded down to the nearest Euro. The Euro denominations of the Notes so determined shall be notified to Noteholders in accordance with Condition 13. Any balance remaining from the redenomination with a denomination higher than 0.01 Euro shall be paid by way of cash adjustment rounded to the nearest 0.01 Euro (with 0.005 Euro being rounded upwards). Such cash adjustment will be payable in Euros on the Redenomination Date in the manner notified to Noteholders by the Issuer.

Upon redenomination of the Notes, any reference hereon to the relevant national currency shall be construed as a reference to Euro.

Unless otherwise specified herein, the Issuer may, with prior approval of the Fiscal Agent, in connection with any redenomination pursuant to this Condition or any consolidation pursuant to Condition 15, without the consent of the Noteholders, make any changes or additions to these Conditions which it reasonably believes to be necessary or desirable to give effect to the provisions of this Condition or Condition 15 (including, without limitation, any change to any applicable business day definition, business day convention, principal financial centre of the country of the Specified Currency, interest accrual basis or benchmark), taking into account market practice in respect of redenominated euromarket debt obligations and which it believes are not prejudicial to the interests of the Noteholders. Any such changes or additions shall, in the absence of manifest error, be binding on the holders of Notes, Receipts, Coupons and Talons and shall be notified to Noteholders in accordance with Condition 13 as soon as practicable thereafter.

Neither the Issuer nor any Paying Agent shall be liable to any Noteholder or other person for any commissions, costs, losses or expenses in relation to or resulting from the credit or transfer of Euro or any currency conversion or rounding effected in connection therewith.

(**Euroclear**), each person who is for the time being shown in the records of the Euroclear Sweden AB or any successor thereto acceptable to the Issuer (the **Swedish CSD**) as the holder of a particular nominal amount of such Notes (in which regard any electronic record, record statement, certificate or other information issued by the Swedish CSD as to the nominal amount of such Notes standing to the account of any person (including but not limited to any person duly authorised to act as a nominee (*Sw. förvaltare*)) shall be conclusive and binding for all purposes save in the case of manifest or proven error) shall be treated by the Issuer and the Agents as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest (or any other amounts due and payable) on such nominal amount of such Notes, for which purpose the bearer of the relevant Global Note shall be treated by the Issuer and any Agent as the holder of such nominal amount of such Notes in accordance with and subject to the terms of the relevant Global Note and the expressions “Noteholder” and “holder” and related expressions shall be construed accordingly.

The beneficial interests will be held in Swedish uncertificated and dematerialised book-entry form in accordance with the Swedish Financial Instruments Accounts Act (*Sw. lag (1998:1479) om kontoföring av finansiella instrument*) and all such other Swedish laws, regulations and operating procedures applicable to and/or issued by the Swedish CSD (the **CSD Rules**). Such beneficial interests in the Swedish Notes shown in the records of the Swedish CSD will be treated as negotiable instruments and not subject to any restrictions on free negotiability under Swedish law. No beneficial owner is entitled to transfer (and the Swedish CSD will not allow any such transfer) its interest in any Swedish Notes directly to the records of Euroclear and thereby removing such beneficial interests from the records of the Swedish CSD.

Beneficial interests in Swedish Notes will be transferable only in accordance with the Swedish CSD Rules. Title to such beneficial interests in the Swedish Notes shall pass in the records maintained by the Swedish CSD in accordance with the CSD Rules.

The Issuer and/or the Swedish Issuer Agent shall be entitled to obtain information from the register of the Swedish CSD in accordance with the CSD Rules.

3. **INTEREST**

The provisions of this Condition 3 shall apply if the applicable Final Terms specify that the clause “*Fixed Rate Note Provisions*”, “*Floating Rate Note Provisions*”, “*Structured Interest Note Provisions*” and/or “*Zero Coupon Notes Provision*” is stated as being “Applicable”.

For the purpose of this Condition 3, any reference to “Interest Amount” shall be deemed to be a reference to the Fixed Coupon Amount, the Floating Coupon Amount or the Structured Interest Amount (each as defined below) when the context requires.

3.1 **Fixed Rate Note Provisions**

If the applicable Final Terms specify that the clause “*Fixed Rate Note Provisions*” is stated as being “Applicable”, this Condition 3.1 applies.

The applicable Final Terms contain provisions applicable to the determination of fixed coupon amount (the **Fixed Coupon Amount**) and must be read in conjunction with this Condition 3.1 for full information on the manner in which interest is calculated on Fixed Rate Notes.

In particular, the applicable Final Terms will specify the Interest Commencement Date, the Rate(s) of Interest, the Interest Payment Date(s), the Business Day Convention, the Fixed Coupon Amount(s), any applicable Broken Amount(s), Calculation Amount, Day Count Fraction and any applicable Determination Date.

Fixed Rate Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Rate of Interest to the Specified Denomination as it shall be set out in the applicable Final Terms.

For the purpose of this Condition 3.1:

Fixed Rate Note means a Note which bears a fixed rate of interest which may be either an Adjusted Fixed Rate Note or an Unadjusted Fixed Rate Note.

Adjusted Fixed Rate Note means a Fixed Rate Note in respect of which the Interest Amount and the Interest Payment Date are subject to modification in accordance with the provisions of Condition 3.1.2.

Unadjusted Fixed Rate Note means a Fixed Rate Note in respect of which the Interest Amount and the Interest Payment Date remain, for the purposes of this Condition 3 (and without prejudice to the provisions of Condition 4.4), unchanged and are calculated in accordance with the provisions of Condition 3.1.1.

3.1.1 **Unadjusted Fixed Rate Notes**

Each Unadjusted Fixed Rate Note bears interest from (and including or, in respect of Uncertificated Swedish Notes, but excluding) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date, as specified in the applicable Final Terms.

If the Notes are Definitive Bearer Notes, the amount of interest payable on each Interest Payment Date in respect of the Interest Period ending on such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified (the **Broken Amount**).

Except in the case of Notes which are Definitive Bearer Notes where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated in respect of any period by applying the Rate of Interest specified in the applicable Final Terms to:

- (1) in the case of Fixed Rate Notes which are Uncertificated Notes or Notes represented by a Global Note, the aggregate outstanding nominal amount of the Notes of the relevant Series (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- (2) in the case of Fixed Rate Notes which are Definitive Bearer Notes or Definitive Registered Notes, the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit (defined below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards. Where the Specified Denomination of a Fixed Rate Note which is a Definitive Bearer Note or a Definitive Registered Note is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

3.1.2 **Adjusted Fixed Rate Notes**

3.1.2.1 Each Adjusted Fixed Rate Note bears interest from (and including or, in respect of Uncertificated Swedish Notes, but excluding) the Interest Commencement Date specified in the applicable Final Terms, and such interest will be payable in respect of each Interest Period and in arrear on the Interest Payment Date(s) in each year specified in the applicable Final Terms; provided that (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then :

- (1) if the applicable Final Terms specify that the clause "*Business Day Convention*" is stated as being "**Following Business Day Convention**", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day; or
- (2) if the applicable Final Terms specify that the clause "*Business Day Convention*" is stated as being "**Modified Following Business Day Convention**", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day; or
- (3) if the applicable Final Terms specify that the clause "*Business Day Convention*" is stated as being "**Preceding Business Day Convention**", such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day,

and the expression "Interest Payment Date" shall be construed accordingly.

3.1.2.2 The Calculation Agent will calculate the amount of interest (the **Adjusted Fixed Rate Interest Amount**) payable on the Adjusted Fixed Rate Notes for the relevant Interest Period by applying the Rate of Interest to:

- (1) in the case of Adjusted Fixed Rate Notes which are Uncertificated Notes or Notes represented by a Global Note, the aggregate outstanding nominal amount of the Notes of the relevant Series (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- (2) in the case of Adjusted Fixed Rate Notes which are Definitive Bearer Notes or Definitive Registered Notes, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of an Adjusted Fixed Rate Note which is a Definitive Bearer Note or a Definitive Registered Note is a multiple of the Calculation Amount, the Adjusted Fixed Rate Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

The Calculation Agent will cause the Adjusted Fixed Rate Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Guarantor and any stock exchange on which the relevant Adjusted Fixed Rate Notes are for the time being listed and notice thereof to be published in accordance with Condition 13 as soon as possible after the calculation or determination thereof (provided that, in the case of notification to any stock exchange, such notice will be given by no later than the first day of the relevant Interest Period or, if that is impossible due to the date fixed for such determination or calculation, as soon as practicable on or after such date). Each Adjusted Fixed Rate Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Fixed Rate Notes are for the time being listed and to the Noteholders in accordance with Condition 13.

For the purposes of these General Terms and Conditions:

Luxembourg Business Day means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in Luxembourg.

3.2 Floating Rate Note Provisions

If the applicable Final Terms specify that the clause "*Floating Rate Note Provisions*" is stated as being "Applicable", this Condition 3.2 applies.

The applicable Final Terms contain provisions applicable to the determination of floating coupon amount (the **Floating Coupon Amount**) and must be read in conjunction with this Condition 3.2 for full information on the manner in which interest is calculated on Floating Rate Notes.

In particular, the applicable Final Terms will specify the Interest Commencement Date, the Floating Coupon Amount(s), the Interest Payment Date(s), the Business Day Convention, the method of determination of the Rate of Interest and Interest Amount, any Margin(s)/Spread(s) and, any minimum rate of interest (the **Minimum Rate of Interest**) or any maximum rate of interest (the **Maximum Rate of Interest**), and any Day Count Fraction.

3.2.1 Specified Period(s) and Interest Payment Dates

Each Floating Rate Note bears interest from (and including) the Interest Commencement Date and such interest will be payable in respect of each Interest Period and in arrear on either:

- (1) the Interest Payment Date(s) in each year specified in the applicable Final Terms; or
- (2) if no Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Interest Payment Date specified in the applicable Final Terms an **Interest Payment Date**) which falls the number of months or other period(s) (the **Specified Period(s)**)

specified in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

3.2.2 **Business Day Convention**

If (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or if (y) any Interest Payment Date would otherwise fall on a day which is not a Business Day, the Interest Payment Date(s) (or other date(s)) shall be the day determined by using a Business Day Convention in accordance with the provisions of Conditions 3.2.2.1, 3.2.2.2, 3.2.2.3 or 3.2.2.4 below.

For the purposes of these General Terms and Conditions:

Business Centre(s) means the business centre(s) specified in the applicable Final Terms.

Business Day means a day which is both:

- a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in any Business Centre(s) specified in the applicable Final Terms; and
- either (x) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in the principal financial centre(s) of the country of the relevant Specified Currency (if other than any Business Centre(s) and which, if the Specified Currency is Australian Dollar, shall be Sydney, if the Specified Currency is Canadian Dollar, shall be Montreal and, if the Specified Currency is Renminbi, shall be Hong Kong) or (y) in relation to any sum payable in euro, a TARGET2 Business Day).

Business Day Convention means a business day convention which may be either Floating Rate Convention, Following Business Day Convention, Modified Following Business Day Convention or Preceding Business Day Convention, as specified in the applicable Final Terms.

TARGET2 Business Day means a day on which the TARGET2 System is open.

TARGET2 System means the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) System.

3.2.2.1 If the applicable Final Terms specify that the clause "*Business Day Convention*" is stated as being "**Floating Rate Convention**", in any case where Specified Periods are specified in accordance with Condition 3.2.1(2), then such Interest Payment Date (a) in the case of 3.2.2(x) above, shall be the last day that is a Business Day in the relevant month and the provisions of Condition 3.2.2.2 below shall apply *mutatis mutandis* or (b) in the case of 3.2.2(y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (i) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (ii) each subsequent Interest Payment Date shall be the last Business Day in the month which falls within the Specified Period after the preceding applicable Interest Payment Date occurred; or

3.2.2.2 if the applicable Final Terms specify that the clause "*Business Day Convention*" is stated as being "**Following Business Day Convention**", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day; or

3.2.2.3 if the applicable Final Terms specify that the clause "*Business Day Convention*" is stated as being "**Modified Following Business Day Convention**", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day; or

3.2.2.4 if the applicable Final Terms specify that the clause “*Business Day Convention*” is stated as being “**Preceding Business Day Convention**”, such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day.

3.2.2.5 Notwithstanding the provisions of Conditions 3.2.2.1, 3.2.2.2, 3.2.2.3 or 3.2.2.4 above, where the applicable Final Terms specifies that the relevant Business Day Convention is to be applied on an “**unadjusted**” basis, the Interest Amount payable on any date shall not be affected by the application of such Business Day Convention.

3.2.3 Floating Coupon Amount

The Floating Coupon Amount payable in respect of the Floating Rate Notes will be determined by applying the Rate of Interest to the Specified Denomination as specified in the applicable Final Terms.

3.2.4 Method of determination of the Rate of Interest and Interest Amount

If the applicable Final Terms specify that the clause “*Method of determination of the Rate of Interest and Interest Amount*” is stated as being:

(i) “Screen Page Determination”, the applicable Final Terms will specify the applicable Reference Rate, the Interest Determination Date(s), the Specified Time and the Relevant Screen Page (each as defined below); or

(i) “ISDA Determination”, the applicable Final Terms will specify the Floating Rate Option, the Designated Maturity and the Reset Date (each as defined below).

3.2.4.1 ISDA Determination

If the applicable Final Terms specify that the clause “*Method of determination of the Rate of Interest and Interest Amount*” is stated as being “ISDA Determination”:

- the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the margin(s), if any, (the **Margin(s)**) which, for the avoidance of doubt, may be also referred to as the spread(s) (the **Spread(s)**) in the applicable Final Terms). Any reference hereinafter to “Margin” shall be also deemed to be a reference to “Spread”); and

- the Minimum Rate of Interest (as defined below) shall be deemed to be zero.

Where:

ISDA Rate means, for an Interest Period, a rate equal to the Floating Rate that would be determined by the Calculation Agent specified in the applicable Final Terms, under an interest rate swap transaction if the Fiscal Agent or that other person were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions (as defined below) and under which:

- (1) the Floating Rate Option is as specified in the applicable Final Terms;
- (2) the Designated Maturity is a period specified in the applicable Final Terms; and
- (3) the relevant Reset Date is the first day of that Interest Period specified in the applicable Final Terms.

Floating Rate, Calculation Agent, Floating Rate Option, Designated Maturity and Reset Date have the meanings given to those terms in the 2006 ISDA Definitions.

2006 ISDA Definitions means the definitions as published by the ISDA (the International Swaps and Derivatives Association, Inc.), as amended and updated as at the Issue Date of the first Tranche of the Notes of the relevant Series and which may be obtained from the relevant Issuer upon request at the address and contact details appearing in the clause “*Address and contact details of Société Générale for all administrative communications relating to the Notes*” in the applicable Final Terms.

In the applicable Final Terms, when the clause “*Floating Rate Option*” specifies that the rate is determined by linear interpolation, in respect of an Interest Period, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Floating Rate Option, one of which shall be determined as if the Designated Maturity were the period of time, for which rates are available, next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time, for which rates are available, next longer than the length of the relevant Interest Period.

3.2.4.2 Screen Rate Determination

If the applicable Final Terms specify that the clause “*Method of determination of the Rate of Interest and Interest Amount*” is stated as being “Screen Rate Determination” :

- the Rate of Interest for each Interest Period will, subject as provided below, be either:
 - (1) either the offered quotation;
 - (2) or the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum), for the Reference Rate(s) which appears or appear, as the case may be, on the relevant screen page (the **Relevant Screen Page**) (which will be, for instance, 11:00 a.m., London time, in the case of a London interbank offered rate (LIBOR), or 11:00 a.m., Brussels time, in the case of an Euro interbank offered rate (EURIBOR) as at the specified time (the **Specified Time**) on the interest determination date (the **Interest Determination Date**), as specified in the applicable Final Terms, in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

If the Relevant Screen Page is not available or if in the case of (1) above, no such offered quotation appears or, in the case of (2) above, fewer than three such offered quotations appear, in each case as at the Specified Time, the Calculation Agent shall request the principal office of each of the Reference Banks (as defined below) to provide the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate at approximately the Specified Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean (rounded if necessary to the fifth decimal place with 0.000005 being rounded upwards) of such offered quotations plus or minus (as appropriate) the Margin (if any), all as determined by the Calculation Agent.

If on any Interest Determination Date one only or none of the Reference Banks provides the Calculation Agent with an offered quotation as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be the rate per annum which the Calculation Agent determines as being the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, at approximately the Specified Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by the Reference Banks plus or minus (as appropriate) the Margin (if any) or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the

Reference Rate, at which, at approximately the Specified Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer and the Calculation Agent suitable for such purpose) informs the Calculation Agent it is quoting to Reference Banks (or, as the case may be, the quotations of such bank or banks to the Calculation Agent) plus or minus (as appropriate) the Margin (if any), provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period in place of the Margin relating to that last preceding Interest Period).

Where:

Reference Rate(s) means, as specified in the applicable Final Terms, the deposit rate, the interbank rate, the swap rate or bond yield, as the case may be, which appears on the Relevant Screen Page at the Specified Time on the Interest Determination Date and as determined by the Calculation Agent.

Reference Banks has the meaning given to it, for each Reference Rate, in the 2006 ISDA Definitions as amended and updated as at the Issue Date of the first Tranche of the Notes of the relevant Series. For instance, in case of a LIBOR rate, the Reference Banks will be the principal London office of four major banks in the London inter-bank market, in case of a EURIBOR rate, the Reference Banks will be the principal Euro-zone office of four major banks in the Euro-zone inter-bank market.

Euro-zone has the meanings given to those terms in the 2006 ISDA Definitions.

- the Minimum Rate of Interest (as defined below) shall be deemed to be zero.

In the applicable Final Terms, when the clause "*Reference Rate*" specifies that the rate is determined by linear interpolation, in respect of an Interest Period, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate, one of which shall be determined as if the maturity were the period of time, for which rates are available, of next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the maturity were the period of time, for which rates are available, of next longer than the length of the relevant Interest Period.

3.2.5 Minimum and/or Maximum Rate of Interest and/or Rate Multiplier

Subject to the provisions of Condition 3.2.4.1:

- if the applicable Final Terms specify that the clause "*Minimum Rate of Interest*" is stated as being "Applicable" for any Interest Period, then, in the event that the Rate of Interest in respect of any such Interest Period determined in accordance with the provisions of Condition 3.2.4 is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.
- if the applicable Final Terms specify that the clause "*Maximum Rate of Interest*" is stated as being "Applicable" for any Interest Period, then, in the event that the Rate of Interest in respect of any such Interest Period determined in accordance with the provisions of Condition 3.2.4 is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.
- the applicable Final Terms specify that the clause "*Maximum Rate of Interest*" is stated as being "n/N" or "n_b/N_b" for any Interest Period, then the Rate of Interest in respect of any such Interest Period shall be multiplied by the relevant Rate Multiplier, subject always to the Minimum Rate of Interest and/or Maximum Rate of Interest as described above.

For the purposes of this Condition 3.2.5:

Benchmark means, in respect of any calendar day (in respect of the definition of n) or, as applicable, Business Day (in respect of the definition of n_b) of the relevant Interest Period:

- if the applicable Final Terms specify that the clause "*Benchmark*" is stated as being "Reference Rate USD-LIBOR":

the rate equal to the Floating Rate for such day that would be determined by the Calculation Agent under an interest rate swap transaction if it were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions and under which the Floating Rate Option is "USD-LIBOR-BBA" (as defined in the 2006 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date). If on any Benchmark Day, such rate does not appear on Reuters Screen LIBOR01 Page, USD-LIBOR will be determined by the Calculation Agent as aforesaid in accordance with the Floating Rate Option "USD-LIBOR-Reference Banks" (as defined in the 2006 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date).

- if the applicable Final Terms specify that the clause "*Benchmark*" is stated as being "Reference Rate GBP-LIBOR":

the rate equal to the Floating Rate for such day that would be determined by the Calculation Agent under an interest rate swap transaction if it were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions and under which the Floating Rate Option is "GBP-LIBOR-BBA" (as defined in the 2006 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date). If on any Benchmark Day, such rate does not appear on Reuters Screen LIBOR01 Page, GBP-LIBOR will be determined by the Calculation Agent as aforesaid in accordance with the Floating Rate Option "GBP-LIBOR-Reference Banks" (as defined in the 2006 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date).

- if the applicable Final Terms specify that the clause "*Benchmark*" is stated as being "Reference Rate EURIBOR":

the rate equal to the Floating Rate for such day that would be determined by the Calculation Agent under an interest rate swap transaction if it were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions and under which the Floating Rate Option is "EUR-EURIBOR-Reuters" (as defined in the 2006 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date). If on any Benchmark Day, such rate does not appear on Reuters Screen EURIBOR01 Page, EURIBOR will be determined by the Calculation Agent as aforesaid in accordance with the Floating Rate Option "EUR-EURIBOR-Reference Banks" (as defined in the 2006 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date).

- if the applicable Final Terms specify that the clause "*Benchmark*" is stated as being "Reference Rate EUR-CMS":

the rate equal to the Floating Rate for such day that would be determined by the Calculation Agent under an interest rate swap transaction if it were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions and under which the Floating Rate Option is "EUR-ISDA-EURIBOR Swap Rate-11:00" (as defined in the 2006 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without Reference to any Reset Date), and appearing on Reuters Screen ISDAFIX2 Page as at 11.00 a.m. (Frankfurt time) under the heading "EURIBOR BASIS – FRF" and above the caption "11:00 AM FRANKFURT". If on any Benchmark Day, such rate does not appear on Reuters Screen ISDAFIX2 Page, EUR-CMS will be determined by the Calculation Agent as aforesaid in accordance with the Floating Rate Option "EUR-Annual Swap Rate-Reference Banks" (as defined in the 2006

ISDA Definitions) for a period of the Designated Maturity specified in the applicable Final Terms (without reference to any Reset Date).

- if the applicable Final Terms specify that the clause "*Benchmark*" is stated as being "Reference Rate USD-CMS":

the rate equal to the Floating Rate for such day that would be determined by the Calculation Agent under an interest rate swap transaction if it were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions and under which the Floating Rate Option is "USD-ISDA-Swap Rate" (as defined in the 2006 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without Reference to any Reset Date), and appearing on Reuters Screen ISDAFIX1 Page as at 11.00 a.m. (New York time). If on any Benchmark day, such rate does not appear on Reuters Screen ISDAFIX1 Page, USD-CMS will be determined by the Calculation Agent as aforesaid in accordance with the Floating Rate Option "USD-CMS-Reference Banks" (as defined in the 2006 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date).

For the purposes hereof, (i) the value of the Benchmark on any calendar day of the relevant Interest Period which is not a Benchmark Day shall be deemed to be the value ascribed to the Benchmark on the first preceding Benchmark Day and (ii) the value of the Benchmark on each of the last four TARGET2 Business Days of any Interest Period shall be deemed to be the value ascribed to the Benchmark on the fifth TARGET2 Business Day (or the Benchmark Day immediately preceding such fifth TARGET2 Business Day if such fifth TARGET2 Business Day is not a Benchmark Day) preceding the Interest Payment Date relating to such Interest Period.

Benchmark Day means, if the relevant Benchmark is:

- USD-LIBOR or GBP-LIBOR, a day (other than a Saturday or Sunday) on which banks are open for business (including dealings in foreign exchange and deposit in USD) in London;
- EURIBOR or EUR-CMS, a day (other than a Saturday or Sunday) on which the TARGET2 System is operating; and
- USD-CMS, a day (other than a Saturday or Sunday) on which banks are open for business in New York.

Lower Limit means, in respect of the relevant Interest Period, the limit specified in the applicable Final Terms.

n means the number of calendar days in the relevant Interest Period in respect of which the Benchmark was equal to or greater than the Lower Limit and equal to or lower than the Upper Limit, in each case as determined by the Calculation Agent.

n_b means the number of Business Days in the relevant Interest Period in respect of which the Benchmark was equal to or greater than the Lower Limit and equal to or lower than the Upper Limit, in each case as determined by the Calculation Agent.

N means the total number of calendar days within the relevant Interest Period.

N_b means the total number of Business Days within the relevant Interest Period.

Upper Limit means, in respect of the relevant Interest Period, the limit specified in the applicable Final Terms.

3.2.6 Determination of Rate of Interest and Interest Amount in respect of Floating Rate Notes

The Calculation Agent will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period.

The Calculation Agent will calculate the Interest Amount payable on the Floating Rate Notes in respect of each Specified Denomination for the relevant Interest Period. Each Interest Amount shall be calculated by applying the Rate of Interest to each Specified Denomination, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit (defined below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Floating Rate Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Rate of Interest to the Specified Denomination, as detailed in the applicable Final Terms.

3.2.7 Notification of Rate of Interest and Interest Amount

The Calculation Agent will cause the Rate of Interest and the Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Guarantor and any stock exchange on which the relevant Floating Rate Notes are for the time being listed and notice thereof to be published in accordance with Condition 13 as soon as possible after the calculation or determination thereof (provided that, in the case of notification to any stock exchange, such notice will be given by no later than the first day of the relevant Interest Period or, if that is impossible due to the date fixed for such determination or calculation, as soon as practicable on or after such date). Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Floating Rate Notes are for the time being listed and to the Noteholders in accordance with Condition 13.

For the purposes of these General Terms and Conditions:

Luxembourg Business Day means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in Luxembourg.

3.2.8 Provisions specific to SHIBOR rate

SHIBOR means the Shanghai Interbank Offered Rate as published on <http://www.shibor.org>, by China Foreign Exchange Trade System & National Interbank Funding Centre under the authorisation of the People's Bank of China, at around 11.30 a.m., Beijing time on each business day, including 8 critical terms, i.e. O/N, 1W, 2W, 1M, 3M, 6M, 9M, 1Y, each representing the rate for the corresponding period.

If Reference Rate is specified in the applicable Final Terms as SHIBOR, "SHIBOR" will be the rate determined by the Issuer acting by and through its Hong Kong Branch (or, if one is specified in the applicable Final Terms, the Calculation Agent instead of the issuer acting by and through its Hong Kong Branch) on the following basis:

- (i) If, at or around 11:30 a.m. (Beijing time) on the Interest Determination Date, a relevant SHIBOR is published on <http://www.shibor.org>, then the relevant SHIBOR will be that rate; and for the purposes of these Conditions, the relevant SHIBOR means SHIBOR in a critical term corresponding to the relevant Interest Period.
- (ii) If for any reason the relevant SHIBOR is not published in respect of a certain Interest Determination Date, the relevant SHIBOR in respect of the business day immediately preceding that Interest Determination Date shall be applied in place thereof.

3.3 Structured Interest Note Provisions

If the applicable Final Terms specify that the clause "*Structured Interest Note Provisions*" is stated as being "Applicable", this Condition 3.3 applies.

The applicable Final Terms contain provisions applicable to the determination of the Interest Amount and must be read in conjunction with this Condition 3.3 for full information on the manner in which

interest is calculated on Structured Notes. In particular, the applicable Final Terms will specify the Interest Commencement Date, the Interest Payment Date(s), the Structured Interest Amount(s), the Business Day Convention and, if applicable, the relevant Day Count Fraction.

3.3.1 Structured Interest Amount(s)

The Structured Interest Amount payable in respect of the Structured Notes shall be determined as follows:

Structured Interest Amount = Specified Denomination multiplied by the Product Formula described in the Additional Terms and Conditions relating to Formulae corresponding to the Reference of the Product specified in the applicable Final Terms.

For the purpose of this Condition 3.3.1:

Product Formula and **Reference of the Product** shall have the meaning given to them, respectively, in the Additional Terms and Conditions relating to Formulae.

3.3.2 Calculation of Interest Amount in respect of Structured Notes

The Calculation Agent will at or as soon as practicable after each time at which the Interest Amount is to be calculated, calculate the Interest Amount for the relevant Interest Period. The Calculation Agent will notify the Fiscal Agent of the Interest Amount for the relevant Interest Period as soon as practicable after calculating the same (but in no event later than the first Business Day after such calculation).

The Calculation Agent will calculate the Interest Amount payable on the Structured Notes in respect of each Specified Denomination for the relevant Interest Period. Each Interest Amount shall be calculated in accordance with the Product Formula as specified in the Additional Terms and Conditions relating to Formulae, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit (defined below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Structured Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Structured Interest Amount to the Specified Denomination, as detailed in the applicable Final Terms.

3.3.3 Notification of Interest Amount

The Calculation Agent will cause the Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Guarantor and any stock exchange on which the relevant Structured Notes are for the time being listed and notice thereof to be published in accordance with Condition 13 as soon as possible after the calculation thereof (provided that, in the case of notification to any stock exchange, such notice will be given by no later than the first day of the relevant Interest Period or, if that is impossible due to the date fixed for such calculation, as soon as practicable on or after such date). Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Structured Notes are for the time being listed and to the Noteholders in accordance with Condition 13.

For the purposes of these General Terms and Conditions:

Luxembourg Business Day means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in Luxembourg.

3.4 Zero Coupon Notes

If the applicable Final Terms specify that the clause “*Zero Coupon Note Provisions*” is stated as being “Applicable”, this Condition 3.4 applies.

The applicable Final Terms will specify the accrual yield (the **Accrual Yield**), the reference price (the **Reference Price**) and the Day Count Fraction in relation to Early Redemption Amounts and late payment (pursuant to the provisions of Conditions 5.8 and 5.15).

Where a Zero Coupon Note becomes due and repayable and is not paid when due, the amount due and repayable (the **Amortised Face Amount**) shall be an amount equal to:

- (A) the Reference Price; and
- (B) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable

and notified in accordance with Condition 3.2.6, *mutatis mutandis*.

3.5 Partly Paid Notes

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes.

3.6 Accrual of Interest

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if applicable) from the due date for its redemption unless payment of principal (or, in the case of any Physical Delivery Note, transfer of the Deliverable Asset(s) in respect of the Physical Delivery Amount) is improperly withheld or refused (provided that, in the case of any Physical Delivery Amount, transfer shall not be deemed to have been improperly withheld or refused where such transfer is delayed by reason of circumstances beyond the control of the relevant Issuer or any of its Agents). In such event, interest will continue to be calculated and to accrue until whichever is the earlier of:

- (1) the date on which all amounts due in respect of such Note have been paid; and
- (2) five days after the date on which the full amount of the moneys payable in respect of such Note has been received by the Fiscal Agent and notice to that effect has been given to the Noteholders in accordance with Condition 13.

3.7 Certain definitions relating to the calculation of interest

Day Count Fraction means, in respect of the calculation of an Interest Amount for any Interest Period, each the following day count fractions provided that the Day Count Fraction applicable to Floating Rate Notes denominated in euro shall be Actual/360):

- (a) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the **Accrual Period**) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (I) the number of days in such Determination Period and (II) the number of Determination Dates (as specified in the applicable Final Terms, the **Determination Dates** and each a **Determination Date**) that would occur in one calendar year; or
- (b) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (I) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and

(II) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year;

Payments will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in the place of payment, but without prejudice to the provisions of Condition 6 and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the **Code**) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or (without prejudice to the provisions of Condition 10 (Taxation)) any law implementing an intergovernmental approach thereto.

4.2 Presentation of Definitive Bearer Notes, Receipts and Coupons

Payments of principal in respect of Definitive Bearer Notes will (subject as provided below) be made in the manner provided in Condition 4.1 only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of such Definitive Bearer Notes, and payments of interest in respect of Definitive Bearer Notes will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia and its possessions)). Payments under Condition 4.1 made, at the option of the bearer of such Note or Coupon, by cheque shall be mailed or delivered to an address outside the United States furnished by such bearer. Subject to any applicable laws and regulations, such payments made by transfer will be made in immediately available funds to an account maintained by the payee with a bank located outside the United States. Subject as provided below, no payment in respect of any Definitive Bearer Note or Coupon will be made upon presentation of such Definitive Bearer Note or Coupon at any office or agency of the Issuer, the Guarantor or any Paying Agent in the United States, nor will any such payment be made by transfer to an account, or by mail to an address, in the United States.

Payments of instalments of principal (if any) in respect of Definitive Bearer Notes, other than the final instalment, will (subject as provided below) be made in the manner provided in Condition 4.1 only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Receipt in accordance with the preceding paragraph. Payment of the final instalment will be made in the manner provided in Condition 4.1 only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Bearer Note in accordance with the preceding paragraph. Each Receipt must be presented for payment of the relevant instalment together with the Definitive Bearer Note to which it appertains. Receipts presented without the Definitive Bearer Note to which they appertain do not constitute valid obligations of the Issuer or, if applicable, the Guarantor. Upon the date on which any Definitive Bearer Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Fixed Rate Notes which are Definitive Bearer Notes (other than Dual Currency Notes, Structured Notes or Physical Delivery Notes) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of ten years after the Relevant Date (as defined in Condition 6) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 7) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note which is a Definitive Bearer Note becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note, Dual Currency Notes, Structured Note or Physical Delivery Note which is a Definitive Bearer Note becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. Where any Floating Rate Note, Dual Currency Notes, Structured Note or Physical Delivery Note which is settled by way of cash is presented for redemption without all unmatured Coupons appertaining thereto, payment of all amounts

due in relation to such Note shall be made only against the provision of such indemnity as the relevant Issuer and (if applicable) the Guarantor may decide.

If the due date for redemption of any Definitive Bearer Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant Definitive Bearer Note.

4.3 Payments in respect of Bearer Global Notes

Payments of principal and interest (if any) in respect of Notes represented by any Bearer Global Note will (subject as provided below) be made in the manner specified above in relation to Definitive Bearer Notes or otherwise in the manner specified in the relevant Bearer Global Note against presentation or surrender, as the case may be, of such Bearer Global Note at the specified office of any Paying Agent outside the United States. A record of each payment made, distinguishing between any payment of principal and any payment of interest, will be made either on such Bearer Global Note by the relevant Paying Agent or in the records of Euroclear and Clearstream, Luxembourg (as applicable).

Notwithstanding the foregoing, payments due in respect of Swedish Notes shall be made to the bearer of the relevant Global Note and each payment so made will discharge the Issuer's obligations in respect thereof. Each holder of beneficial interests in the Swedish Notes must look solely to the Swedish CSD for its share of the payments made to the bearer of the relevant Global Note. The Swedish CSD does not assume the obligations of the Issuer and is only obliged to distribute payments it has received in its capacity as Swedish CSD in respect of the Swedish Notes. Unless otherwise specified in the applicable Final Terms, it is expected that payments of principal and/or interest (or any other amounts due and payable) in respect of Swedish Notes will be received by holders of the beneficial interests in such Swedish Notes holding such interests at an account with the Swedish CSD no later than the seventh business day (as defined by the then applicable CSD Rules) after the date on which such payment becomes due and payable in accordance with the terms and conditions applicable to the relevant Swedish Notes as specified in the applicable Final Terms. Pursuant to the CSD Rules, payments of principal and/or interest (or any other amounts due and payable) in respect of the beneficial interests in any Swedish Notes shall be made to the Noteholders shown as such on the fifth business day (as defined by the then applicable CSD Rules) before the due date for such payment, or such other business day falling closer to the due date as then may be stipulated in the CSD Rules. Such day shall be the **Record Date** in respect of the Notes in accordance with the CSD Rules. Payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment and will be made in accordance with the CSD Rules.

4.4 Payments in respect of Registered Notes

Payments of principal (other than instalments of principal prior to the final instalment) in respect of each Registered Note (whether or not in global form) will be made against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the Registered Note at the specified office of the Registrar or any of the Paying Agents. Such payments will be made by transfer to the Designated Account (as defined below) of the holder (or the first named of joint holders) of the Registered Note appearing in the register of holders of the Registered Notes maintained by the Registrar (the **Register**) (i) where in global form, at the close of the business day (being for this purpose a day on which the relevant clearing system in which the Notes are held is open for business) before the relevant due date, and (ii) where in definitive form, at the close of business on the third business day (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) before the relevant due date. Notwithstanding the previous sentence, if (i) a holder does not have a Designated Account or (ii) the principal amount of the Notes held by a holder is less than U.S.\$250,000 (or its approximate equivalent in any other Specified Currency), payment will instead be made by a cheque in the Specified Currency drawn on a Designated Bank (as defined below). For these purposes, **Designated Account** means the account maintained by a holder with a Designated Bank and identified as such in the Register and **Designated Bank** means (in the case of payment in a Specified Currency other than euro or Renminbi) a bank in the principal financial centre of the country of

such Specified Currency (which, if the Specified Currency is Australian Dollar, shall be Sydney and, if the Specified Currency is Canadian Dollar, shall be Montreal and, if the Specified Currency is Renminbi, shall be Hong Kong) and (in the case of a payment in euro) any bank which processes payments in euro.

Payment of the interest due in respect of each Registered Note on redemption and the final instalment of principal will be made in the same manner as payment of the principal amount of such Registered Note.

Holders of Registered Notes will not be entitled to any interest or other payment for any delay in receiving any amount due in respect of any Registered Note as a result of a cheque posted in accordance with this Condition arriving after the due date for payment or being lost in the post. No commissions or expenses shall be charged to such holders by the Registrar in respect of any payments of principal or interest in respect of the Registered Notes.

EURIBOR means the rate for deposits in EUR which is defined under, and shall be determined by the Calculation Agent in accordance with, the Floating Rate Option "EUR-EURIBOR-Telerate" in the 2006 ISDA Definitions for a period (Designated Maturity) of sixth months with a Reset Date being the first day of the relevant calculation period.

The average rate is calculated by the party appointed by Finance Norway to act as calculation agent.

STIBOR means the average of the interest rates quoted at approximately 11 a.m. on the first day (such day being a day on which commercial banks are open for general business in Stockholm) after the day on which the relevant payment was due on Reuter's page "SIDE" (or such other system or other page as shall replace Reuter's page "SIDE") in respect of a loan with a designated interest period of one week, or, if no such quotation is given, the average of the interest rates which is stated by three major Swedish banks (such banks being an appointed Stibor bank by the Stibor committee established by the The Swedish Bankers' Association (Sw. *Svenska Bankföreningen*)) selected by Société Générale to be their funding cost at that time in respect of a loan with a designated interest period of one week in Swedish Kronor in the Stockholm interbank market; provided that, if the interest rate for the relevant period cannot be determined in accordance with any of the methods mentioned above, then the interest rate for such period shall be the last available quote on Reuter's page "SIDE" (or such other system or other page as shall replace the Reuter's page "SIDE") in respect of such period.

4.6 General provisions applicable to payments

The holder of a Global Note (other than a SIS Note) shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the payment obligations of the Issuer or, as the case may be, the Guarantor will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear, Clearstream, Luxembourg or DTC as the beneficial holder of a particular nominal amount of Notes represented by a Global Note must look solely to Euroclear, Clearstream, Luxembourg or DTC, as the case may be, for his share of each payment so made by the Issuer or, as the case may be, the Guarantor to, or to the order of, the holder of such Global Note. - (1) the Issuer and the Guarantor have appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Bearer Notes in the manner provided above when due;
- (2) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
- (3) such payment is then permitted under United States law without involving, in the opinion of the Issuer and the Guarantor, adverse tax consequences for the Issuer or the Guarantor.

4.7 Payments subject to fiscal and other laws

All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives in any jurisdiction (whether by operation of law or agreement of the relevant Issuer or its Agents) and the relevant Issuer will not be liable for any taxes or duties of whatever nature imposed or levied by such laws, regulations, directives or agreements, but without prejudice to the provisions of Condition 6. No commission or expense shall be charged to the Noteholders in respect of such payments but, for the avoidance of doubt, without prejudice to the option of the Calculation Agent to apply the provisions of paragraph D. specific to the occurrence of an Increased Cost of Hedging, as provided for in the section called "Hedging Disruption, Increased Cost of Hedging and Insolvency Filing", in the relevant Additional Terms and Conditions.

Provided that if neither "Following Payment Business Day" nor "Modified Following Payment Business Day" is specified in the applicable Final Terms, "Following Payment Business Day" shall be deemed to apply. In the event that any adjustment is made to the date for payment in accordance with this Condition 4.8, the relevant amount due in respect of any Note, Receipt or Coupon shall not be affected by any such adjustment, unless otherwise specified in the applicable Final Terms.

For the purposes of these Terms and Conditions, except as specified in Condition 4.4:

If "CNY Currency Event" is specified in the applicable Final Terms and a CNY Currency Event, as determined by the Calculation Agent in its sole and absolute discretion, exists on a date for payment of any amount in respect of any Note, Receipt or Coupon, the Issuer may determine one or more of the following, and require the Calculation Agent to take such action or make such determination accordingly, in its sole and absolute discretion:

For the purpose of this Condition 4.13:

CNY Inconvertibility means the occurrence of any event that makes it impossible, impracticable or illegal for the Issuer and/or any of its affiliates to convert any amount into or from CNY as may be required to be paid by the Issuer under the Notes on any payment date or such other amount as may be determined by the Calculation Agent in its sole and absolute discretion at the general CNY exchange market in Hong Kong, other than where such impossibility, impracticability or illegality is due solely to the failure of that party to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date of the relevant Series of Notes and it is impossible for the Issuer and/or any of its affiliates, due to an event beyond the control of the Issuer or the relevant affiliate, to comply with such law, rule or regulation).

CNY Non-Transferability means the occurrence of any event that makes it impossible, impracticable or illegal for the Issuer and/or any of its affiliates to deliver CNY between accounts inside Hong Kong or from an account inside Hong Kong to an account outside Hong Kong, other than where such impossibility, impracticability or illegality is due solely to the failure of the Issuer and/or the relevant

affiliate to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date and it is impossible for the Issuer and/or any of its affiliates, due to an event beyond the control of the Issuer and/or the relevant affiliate, to comply with such law, rule or regulation).

4.14 Provisions specific to Dual Currency Notes

Amounts payable in respect of payment of principal and/or interest, if any, in respect of Dual Currency Notes, shall be determined by the Calculation Agent by converting the relevant amounts in the relevant Specified Currency into the Settlement Currency at the relevant fixing of Dual Currency Exchange Rate.

The method of determining the fixing of Dual Currency Exchange Rate will be specified in the applicable Final Terms and may be one of the following methods:

- if "Predetermined" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the Calculation Agent shall use the Predetermined Fixing as the fixing of Dual Currency Exchange Rate to convert the relevant amount(s);
- if "Screen Rate Determination" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the fixing of the Dual Currency Exchange Rate will be the relevant exchange rate fixing specified on the Relevant Screen Page at the Dual Currency Valuation Time on the Dual Currency Valuation Date;
- if "Calculation Agent Determination" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the fixing of the Dual Currency Exchange Rate will be determined by the Calculation Agent by reference to such sources as it acting in good faith and in a commercially reasonable manner selects at the Dual Currency Valuation Time on the Dual Currency Valuation Date.

Notwithstanding with the above, upon a Dual Currency Disruption Event occurring or continuing on any Dual Currency Valuation Date as determined by the Calculation Agent, the Calculation Agent shall

- (a) determine that the Dual Currency Valuation Date shall be the first succeeding Dual Currency Scheduled Trading Day that is not a Dual Currency Disrupted Day unless each of the eight Dual Currency Scheduled Trading Days immediately following the scheduled Dual Currency Valuation Date is also a Dual Currency Disrupted Day. In that case that eighth Dual Currency Scheduled Trading Day shall be deemed to be the Dual Currency Valuation Date notwithstanding the fact that such day is a Dual Currency Disrupted Day, and the Calculation Agent shall determine, its good faith estimate of the fixing of the Dual Currency Exchange Rate as of the Dual Currency Valuation Time on that eighth Dual Currency Scheduled Trading Day and the good faith estimate of the fixing so calculated shall be deemed the fixing of Dual Currency Exchange Rate; and/or
- (b) postpone any payment date related to such Dual Currency Valuation Date (including, if applicable, the Maturity Date) until the fourth Business Day following the date on which a Dual Currency Disruption Event is no longer subsisting, or the date on which the Calculation Agent determines its good faith estimate of the fixing of the Dual Currency Exchange Rate pursuant to the provisions of item (a) above, as the case may be. No interest or other amount shall be paid by the Issuer in respect of such postponement.

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word "fourth" above shall be deemed to be references to the word "twelfth",

- B. **Illiquidity Disruption** means the occurrence of any event in respect of the Specified Currency and/or Settlement Currency whereby it becomes impossible for the Calculation Agent to obtain a firm quote for such currency in an amount deemed necessary by the Calculation Agent to hedge its obligations under the Notes (in one or more transaction(s)) on any Dual Currency Valuation Date;
- C. **Dual Exchange Rate** means that the Dual Currency Exchange Rate splits into dual or multiple foreign exchange rates.

"Dual Currency Exchange Rate" means an exchange rate expressed as X/Y (X and Y are currencies) and specified as such in the applicable Final Terms. For the avoidance of doubt, an exchange rate expressed as X/Y means the number of units (or part units) of Y for which one unit of X can be exchanged.

Any Waiver Notice which, in accordance with the mentioned above, is deemed to be incomplete or not completed will be considered as void and ineffective.

In the event that such Waiver Notice is subsequently amended in such a way that is satisfactory to the Paying Agent, such Waiver Notice, as amended, will be deemed as a new Waiver Notice filed at the time such amendments are received by the Paying Agent.

When the Paying Agent deems the Waiver Notice to be invalid or incomplete, such Paying Agent undertakes to notify such invalidity or incompleteness to the relevant Holder as soon as practicable.

5.2 Redemption for tax reasons and special tax redemption

Notwithstanding the following provisions, if the applicable Final Terms specify that the Issuer elects not to apply Condition 5.2.1 and 5.2.2, the provisions of Condition 6.2 shall not apply.

5.2.1 Redemption for tax reasons

Unless the applicable Final Terms specify that Condition 5.2.1 “Redemption for tax reasons” is not applicable, the Notes may be redeemed at the option of the Issuer or, as the case may be, the Guarantor in whole, but not in part, at any time (in the case of the Notes other than Floating Rate Notes or any other interest bearing Notes in respect of which the Rate of Interest is not calculated on a fixed rate basis (Structured Interest Notes)) or on any Interest Payment Date (in the case of Floating Rate Notes or Structured Interest Notes) on giving not less than 30 nor more than 45 days' notice to the Fiscal Agent and, in accordance with Condition 13, the Noteholders (which notice shall be irrevocable), if:

- (1) immediately prior to the giving of such notice the Issuer or the Guarantor has or will become obliged to pay additional amounts as provided or referred to in Condition 6 as a result of any change in, or amendment to, the laws or regulations of a Tax Jurisdiction (as defined in Condition 6) or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the Issue Date of the first Tranche of the Notes; and
- (2) such obligation cannot be avoided by the Issuer or, as the case may be, the Guarantor taking reasonable measures available to it,

provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer or, as the case may be, the Guarantor would be obliged to pay such additional amounts were a payment in respect of the Notes then due.

Notes redeemed pursuant to this Condition will be redeemed at their Early Redemption Amount (the **Early Redemption Amount**) referred to in Condition 5.8 together (if appropriate) with accrued interest to (but excluding or, in respect of Uncertificated Swedish Notes, and including) the date of redemption.

5.2.2 Redemption for special tax reasons

Unless the applicable Final Terms specify that Condition 5.2.1 “Redemption for special tax reasons” is not applicable, if the Issuer or, as the case may be, the Guarantor would, on the occasion of the next payment of principal or interest in respect of the Notes, Receipts or Coupons, be prevented by the law of a Tax Jurisdiction (as defined in Condition 6) from causing payment to be made to the Noteholders, Receiptholders or Couponholders of the full amount then due and payable, notwithstanding the undertaking to pay additional amounts contained in Condition 6.1, then the Issuer or the Guarantor, as the case may be, shall forthwith give notice of such fact to the Fiscal Agent and the Issuer or the Guarantor, as the case may be, shall, upon giving not less than seven nor more than 45 days' prior notice to the Noteholders in accordance with Condition 13, forthwith redeem all, but not some only, of the Notes at their Early Redemption Amount, together, if appropriate, with accrued interest, on the latest practicable Interest Payment Date on which the Issuer or the Guarantor, as the case may be, could make payment of the full amount then due and payable in respect of the Notes, Receipts or Coupons, provided that if such notice would expire after such Interest Payment Date the date for redemption pursuant to such notice to Noteholders shall be the later of:

- (1) the latest practicable date on which the Issuer or the Guarantor, as the case may be, could make payment of the full amount then due and payable in respect of the Notes, Receipts or Coupons; and
- (2) 14 days after giving notice to the Fiscal Agent as aforesaid.

5.3 Redemption for regulatory reasons

Notwithstanding the following provisions, the provisions of this Condition 5.3 shall not apply if the Issuer elects not to apply this Condition 5.3 as specified in the applicable Final Terms.

The Notes may be redeemed at the option of the Issuer or, as the case may be, the Guarantor in whole, but not in part, at any time on giving not less than 30 nor more than 45 days' notice to the Fiscal Agent and, in accordance with Condition 13, the Noteholders (which notice shall be irrevocable), if one or more of the following events (each, a **Regulatory Event**) occurs:

- (1) the adoption of, or any change in, any applicable law or regulation after the Issue Date, or promulgation of, or any change in, the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation, or practice, after the Issue Date, and with applicable law or regulation for this purpose meaning any similar, related or analogous law, regulation or rule to those in Dodd-Frank, FATCA, AIFMD or EMIR or any law or regulation that imposes a financial transaction tax or other similar tax which has, or may have, a material adverse effect on the Issuer or the Regulatory Event Counterparty as a result of, or in connection with, the issuance of the Notes;
- (2) any regulation or rule under Dodd-Frank, FATCA, AIFMD or EMIR or under any law or regulation that imposes a financial transaction tax or other similar tax which, in each case, was either not in force as at the Issue Date or was in force at the Issue Date but the manner of its application was not known or unclear at the Issue Date is implemented, promulgated or otherwise made known, and such implementation, promulgation or application has, or may have, a material adverse effect on the Issuer or the Regulatory Event Counterparty as a result of, or in connection with, the issuance of the Notes;
- (3) the Issuer or the Regulatory Event Counterparty is required to be regulated by any additional or alternative regulatory authority or in compliance with any additional laws or regulations as a result of, or in connection with, the issuance of the Notes whether or not such determination was caused by a change in the law, the promulgation of regulations thereunder, the interpretation of such laws and regulations by relevant authorities, the practice or otherwise; and whether or not such laws, regulations or practice were known or unclear at the Issue Date;
- (4) the Issuer is required to clear any derivatives transaction entered into connection with the Notes with a central clearing counterparty; and/or
- (5) the Issuer or the Regulatory Event Counterparty is, as a result of, or in connection with, the issuance of the Notes:
 - (A) subject to materially increased capital charges, however defined, above those capital charges (if any) that prevailed as at the Issue Date; or

5.4 Final Terms

Notes cannot be redeemed prior to their Maturity Date (except as otherwise provided in Conditions 5.2 and 5.3 and in Condition 8), except if the applicable Final Terms applicable to a Serie of Notes indicate that such Notes will be (i) redeemable at the option of the Issuer (in accordance with the provisions of Conditions 5.2, 5.3, 5.5 and/or 5.6) and/or the Noteholders (in accordance with the provisions of Condition 5.7) or (ii) automatically early redeemable (in accordance with the provisions of Condition 5.9) prior to such Maturity Date on the date or dates and at the amount or amounts indicated in the applicable Final Terms.

5.5 Redemption at the option of the Issuer

This Condition applies to Notes which are subject to redemption prior to the Maturity Date at the option of the Issuer other than for taxation (pursuant to the provisions of Condition 5.2) or regulatory reasons (pursuant to the provisions of Condition 5.3).

The provisions of this Condition 5.5 apply if the applicable Final Terms to a Serie of Notes specify that the clause "*Redemption at the option of the Issuer*" is stated as being "Applicable".

The applicable Final Terms will specify the optional redemption amount (the **Optional Redemption Amount**), the optional redemption date(s) (the **Optional Redemption Date(s)**) and the Notice Period (as defined below).

5.5.1 Optional Redemption Amount(s)

In the case of Notes other than Preference Share Linked Notes and Warrants Linked Notes:

The Optional Redemption Amount(s) shall be determined in accordance with one of the following options:

Option 1:

Optional Redemption Amount = Specified Denomination multiplied by a percentage indicated in the applicable Final Terms

Option 2:

Optional Redemption Amount shall be determined on the basis of the Final Redemption Amount as defined in the applicable Final Terms, calculated on the valuation date linked to the relevant Optional Redemption Date

Option 3:

Optional Redemption Amount shall be equal to the Market Value (as defined in Condition 5.8 below);

and for each of the options above, if relevant and appropriate, with interest accrued to (but excluding or, in respect of Uncertificated Swedish Notes, and including) the relevant Optional Redemption Date(s).

In the case of Preference Share Linked Notes and Warrants Linked Notes:

The Optional Redemption Amount(s) shall be equal to the Early Redemption Amount per Calculation Amount, as defined in the Additional Terms and Conditions for Preference Share Linked Notes and the Additional Terms and Conditions for Warrant Linked Notes, respectively.

Any such redemption in respect of Swedish Notes shall be in accordance with the CSD Rules and the notice to Noteholders shall also specify the Swedish Notes or amounts of the Swedish Notes to be redeemed or in respect of which such option has been so exercised and the procedures for partial redemptions laid down in the CSD Rules.

5.5.2 Redemption in part

If applicable Final Terms specify that the clause “*Redemption in part*” is stated as being “Applicable”, the applicable Final Terms will specify the Minimum Redemption Amount and the Maximum Redemption Amount (as defined below).

5.5.2.1 Minimum Redemption Amount and Maximum Redemption Amount

Any such partial redemption must be equal to a nominal amount not less than a minimum redemption amount (the **Minimum Redemption Amount**) and not more than a maximum redemption amount (the **Maximum Redemption Amount**), each amount as specified in the applicable Final Terms.

5.5.2.2 Method of Redemption

In the case of a redemption of some only of the Notes, the Notes to be redeemed (**Redeemed Notes**) will be selected individually by lot, in the case of Redeemed Notes represented by definitive Notes, and in accordance with the rules of Euroclear and/or Clearstream, Luxembourg, in the case of Redeemed Notes represented by a Global Note, not more than thirty (30) days prior to the date fixed for redemption (such date of selection being hereinafter called the **Selection Date**). In the case of Redeemed Notes represented by definitive Notes, a list of the serial numbers of such Redeemed Notes will be published in accordance with Condition 13 not less than fifteen (15) days prior to the date fixed for redemption. In the case of Redeemed Notes represented by a Global Note, the selection will be reflected (at the discretion of Euroclear and/or Clearstream, Luxembourg) either as a pool factor or a reduction in aggregate principal amount. No exchange of the relevant Global Note will be permitted during the period from (and including) the Selection Date to (and including) the date fixed for redemption pursuant to this Condition 5.5.2.2 and notice to that effect shall be given by the Issuer to the Noteholders in accordance with Condition 13 at least five (5) days prior to the Selection Date.

5.5.3 Notice Period

The Issuer may having given notice to the Noteholders (in accordance with Condition 13) pursuant to a notice period (the **Notice Period**) specified in the applicable Final Terms (which notice shall be irrevocable and shall specify the date fixed for redemption), redeem all or some only of the Notes then outstanding on any Optional Redemption Date(s) and the Optional Redemption Amount.

In respect of any Credit Linked Note, any notice given by the Issuer pursuant to this Condition 5.5.3 shall be void and of no effect in relation to that Credit Linked Note in the event that a Credit Event Notice has been, or is, delivered to the Noteholders at any time on or prior to 5:00pm (Paris time) on the fourth Business Day preceding the date fixed for redemption in accordance with this Condition.

In respect of any Note, any notice given by the Issuer pursuant to this Condition 5.5.3 shall be void and of no effect in relation to that Note in the event that, prior to the giving of such notice by the Issuer, the

holder of such Note had already delivered a Put Notice in relation to that Note in accordance with Condition 5.7.

5.6 Trigger redemption at the option of the Issuer

This Condition applies to Notes which are subject to redemption prior to the Maturity Date at the option of the Issuer, in the event that at any time during the life of the Notes and for any reason whatsoever, the Aggregate Outstanding Nominal Amount of the Notes equals or falls below the Outstanding Amount Trigger Level. Then the Issuer shall have the right at its sole and absolute discretion exercised reasonably, and subject to any applicable law and regulation, to redeem all (but not some only) of the remaining outstanding Notes early at their Early Trigger Level Redemption Amount upon giving not less than fifteen (15) Business Days' notice (in accordance with Condition 13) specifying the basis upon which such early redemption was effected.

The provisions of this Condition 5.6 apply if the applicable Final Terms to a Serie of Notes specify that that the clause "*Trigger redemption at the option of the Issuer*" is stated as being "Applicable".

The applicable Final Terms will specify the Outstanding Amount Trigger Level, subject to the provisions of the definition of Outstanding Amount Trigger Level below.

For the purposes of this Condition 5.6:

Aggregate Outstanding Nominal Amount means, at any time, the product of (a) the Specified Denomination and (b) the number of Notes outstanding held at such time by Noteholders other than Société Générale or its affiliates for their own account as determined in good faith by the Fiscal Agent in consultation with the clearing institution(s) in or through which the Notes are held and transactions in such Notes are cleared.

Early Trigger Level Redemption Amount means the Early Redemption Amount for such Notes as determined in accordance with Condition 5.8(5) or, in the case of Preference Share Linked Notes or Warrant Linked Notes, determined in the manner set out in the Additional Terms and Conditions for Preference Share Linked Notes or the Additional Terms and Conditions for Warrant Linked Notes.

Outstanding Amount Trigger Level means 10% of the Aggregate Nominal Amount of the Notes initially issued or, if different from 10%, the level specified as such in the applicable Final Terms.

5.7 Redemption at the option of the Noteholders

This Condition applies to Notes which are subject to redemption prior to the Maturity Date at the option of the Noteholders.

This Condition 5.7 shall not apply to Preference Share Linked Notes and Warrant Linked Notes.

The provisions of this Condition 5.7 apply if the applicable Final Terms to a Serie of Notes specify that the clause "*Redemption at the option of the Noteholders*" is stated as being "Applicable".

The applicable Final Terms will specify the optional redemption amount (the **Optional Redemption Amount**), the optional redemption date(s) (the **Optional Redemption Date(s)**) and the Notice Period (as defined below).

5.7.1 **Optional Redemption Amount(s)**

The Optional Redemption Amount shall be determined in accordance with one of the following options:

Option 1:

Optional Redemption Amount = Specified Denomination multiplied by a percentage as indicated in the applicable Final Terms.

Option 2:

Optional Redemption Amount shall be determined on the basis of the Final Redemption Amount as defined in the applicable Final Terms, calculated on the valuation date linked to the relevant Optional Redemption Date.

Option 3:

Optional Redemption Amount shall be equal to the Market Value (as defined in Condition 5.8 below);

and for each of the options above, if relevant and appropriate, with interest accrued to (but excluding or, in respect of Uncertificated Swedish Notes, and including) the relevant Optional Redemption Date(s).

5.7.2 Notice Period

A Noteholder shall have the option to require the Issuer to redeem any Note, upon such Noteholder giving notice to the Issuer, in accordance with Condition 13, not less than 15 or more than 30 days' notice or any other notice period (the **Notice Period**) specified in the applicable Final Terms.

The Issuer will, upon the expiry of such notice, redeem, subject to, and in accordance with, the terms specified in the applicable Final Terms, in whole (but not in part), such Note on the Optional Redemption Date(s) and at the Optional Redemption Amount(s) specified in the applicable Final Terms. It may be that before an option to require the Issuer to redeem any Note can be exercised, certain conditions and/or circumstances will need to be satisfied.

To exercise the right to require redemption of a Note, the Noteholder, if the Note is in definitive form and held outside Euroclear and Clearstream, Luxembourg, must deliver, to the specified office of any Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes) at any time during normal business hours of such Paying Agent or, as the case may be, the Registrar falling within the notice period, a duly completed and signed notice of exercise in the form (for the time being current) obtainable from any specified office of any Paying Agent or, as the case may be, the Registrar (a **Put Notice**) and in which the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition and, in the case of Registered Notes, the nominal amount thereof to be redeemed and, if less than the full nominal amount of the Registered Notes so surrendered is to be redeemed, an address to which a new Registered Note in respect of the balance of such Registered Notes is to be sent subject to and in accordance with the provisions of Condition 1.2. If this Note is in definitive form, the Put Notice must be accompanied by this Note or evidence satisfactory to the Paying Agent concerned that this Note will, following delivery of the Put Notice, be held to the order or under its control. If the Note is represented by a Global Note or is in definitive form and held through Euroclear or Clearstream, Luxembourg, or SIS or any other clearing institution in Switzerland recognised for such purposes by SIX Swiss Exchange (as applicable) (**Clearing System**), to exercise the right to require redemption of the Note, the Noteholder must, within the notice period, give notice to the Fiscal Agent of such exercise in accordance with the standard procedures of the relevant Clearing System (which may include notice being given on his instruction by Euroclear or Clearstream, Luxembourg or any common depositary or common safekeeper, as the case may be, for them to the Fiscal Agent by electronic means) in a form acceptable to the relevant Clearing System from time to time.

In the case of Uncertificated Notes, a Put Notice will not be effective against the Issuer before the date on which the relevant Notes have been transferred to the account designated by the Paying Agent specified in the applicable Final Terms (which, for the purposes of the Uncertificated Notes, will be an account operator specifically authorised by the relevant central securities depositary and clearing institution to process and register issues in the system of the relevant central securities depositary and clearing institution), and blocked by such Paying Agent to prevent further transfer as of the Optional Redemption Date.

Notwithstanding the foregoing, in the case of Uncertificated Notes, the right to require redemption of such Notes in accordance with this Condition 5.7 must be exercised in accordance with the rules and procedures of the relevant Clearing System and if there is any inconsistency between the above and the

rules and procedures of the relevant Clearing System, then the rules and procedures of the relevant Clearing System shall prevail.

Any Put Notice given by a holder of any Note pursuant to this Condition 5.7.2 shall be:

- (1) irrevocable except where prior to the due date of redemption an Event of Default has occurred and is continuing in which event such holder, at its option, may elect by notice to the Issuer to withdraw the notice given pursuant to this Condition and instead to declare such Note forthwith due and payable pursuant to Condition 7 below; and
- (2) void and of no effect in relation to such Note in the event that, prior to the giving of such Put Notice by the relevant holder (A) such Note constituted a Redeemed Note (as defined in Condition 5.5.2.2 above), or (B) the Issuer had notified the Noteholders of its intention to redeem all of the Notes in a Series then outstanding, in each case pursuant to Condition 5.5 above.

5.8 Early Redemption Amounts

For the purpose of Condition 5.2 and Condition 8, the Notes will be redeemed at the Early Redemption Amount calculated as follows:

- (1) in the case of Notes with a Final Redemption Amount equal to the Issue Price, at the Final Redemption Amount thereof; or
- (2) in the case of Notes (other than Zero Coupon Notes) with a Final Redemption Amount which is or may be less or greater than the Issue Price or which is payable in a Specified Currency other than that in which the Notes are denominated, at the amount determined and calculated pursuant the provisions of Condition 5.1, at their nominal amount; or
- (3) at the Physical Delivery Amount specified in the applicable Final Terms, in the case of Physical Delivery Notes; or
- (4) in the case of Zero Coupon Notes, at the Amortised Face Amount; or
- (5) if Market Value is specified in the applicable Final Terms as the Early Redemption Amount, (i) at an amount determined by the Calculation Agent, which, on the due date for the redemption of the Note, shall represent the fair market value of the Notes and shall have the effect (after taking into account the costs of unwinding any hedging arrangements entered into in respect of the Notes) of preserving for the Noteholders the economic equivalent of the obligations of the Issuer to make the payments in respect of the Notes which would, but for such early redemption, have fallen due after the relevant early redemption date. For the avoidance of doubt, for the purpose of calculating the Market Value following an Event of Default pursuant to Condition 8 only, in determining the fair market value of the Notes, no account shall be taken of the creditworthiness of:
 - (i) the Issuer, who shall be deemed to be able to perform fully its obligations in respect of the Notes or
 - (ii) the Guarantor, which shall be deemed to be able to perform fully its obligations in respect of the Guarantee. In respect of Notes bearing interest, notwithstanding the last sentence of Condition 5.2, the ninth line of Condition 5.3 and the first paragraph of Condition 7, the Early Redemption Amount, as determined by the Calculation Agent in accordance with this paragraph shall include any accrued interest to (but excluding or, in respect of Uncertificated Swedish Notes, and including) the relevant early redemption date and apart from any such interest included in the Early Redemption Amount, no interest, accrued or otherwise, or any other amount whatsoever will be payable by the Issuer or, as the case may be, the Guarantor in respect of such redemption. Where such calculation is to be made for a period of less than a full year, it shall be made on the basis of the Day Count Fraction, if applicable, as specified in the applicable Final Terms; or

- (iii) in case of Italian Certificates only, at an amount determined in good faith and in a commercially reasonable manner by the Calculation Agent to be the fair market value of the Certificates immediately prior (and ignoring the circumstances leading) to such early termination; or
- (6) in the case of Preference Share Linked Notes and Warrant Linked Notes, the Early Redemption Amount will be determined and calculated in accordance with the Additional Terms and Conditions for Preference Share Linked Notes and the Additional Terms and Conditions for Warrant Linked Notes or at an amount specified in the applicable Final Terms, as the case may be.

5.9 Automatic Early Redemption Amount(s)

If the applicable Final Terms specify that the clause “*Automatic Early Redemption*” is stated as being “Applicable”, this Condition 5.9 applies.

The applicable Final Terms will specify the automatic early redemption amount(s) (**Automatic Early Redemption Amount(s)**) and the automatic early redemption date(s) (**Automatic Early Redemption Date(s)**).

The Automatic Early Redemption Amount(s) shall be determined as follows:

Automatic Early Redemption Amount(s) = Specified Denomination multiplied by a Product Formula described in the Additional Terms and Conditions relating to Formulae corresponding to the Reference of the Product specified in the applicable Final Terms.

In the case of automatic early redemption for Preference Share Linked Notes and Warrant Linked Notes, the Automatic Early Redemption Amount per Calculation Amount will be determined and calculated in accordance with the Additional Terms and Conditions for Preference Share Linked Notes and the Additional Terms and Conditions for Warrant Linked Notes.

For the purpose of this Condition 5.9:

Product Formula and **Reference of the Product** shall have the meaning given to them in the Additional Terms and Conditions relating to Formulae.

5.10 Instalment Notes

If the applicable Final Terms specify that the clause “*Instalment Notes Provisions*” is stated as being “Applicable”, this Condition 5.10 applies.

The applicable Final Terms will specify the instalment amount(s) (**Instalment Amount(s)**) and the instalment date(s) (**Instalment Date(s)**).

In the case of early redemption, the Early Redemption Amount will be determined pursuant to Condition 5.8.

5.11 Partly Paid Notes

If the applicable Final Terms specify that the clause “*Partly Paid Notes Provisions*” is stated as being “Applicable”, this Condition 5.11 applies.

The applicable Final Terms will specify the part payment amount(s) (**Part Payment Amount(s)**) and the part payment date(s) (**Part Payment Date(s)**).

Partly Paid Notes will be subscribed at the Part Payment Amount(s) and on the Part Payment Date(s) specified in the applicable Final Terms. The obligation to pay a Part Payment Amount on the relevant Part Payment Date is only incurred by the holders of the Notes on such Part Payment Date;

Partly Paid Notes will be redeemed on the Maturity Date at their nominal amount and on any Optional Redemption Date at their paid-up nominal amount as at the date fixed for redemption; and in the event that any Noteholder fails to pay a Part Payment Amount on the relevant Part Payment Date (such date a

Part Payment Default Date), any such Notes held by such Noteholder shall automatically be redeemed on the relevant Early Redemption Date, at the Settlement Amount.

For the purposes of this Condition 5.11:

Early Redemption Date means, in respect of any Note, the seventh Payment Business Day following a Part Payment Default Date;

Settlement Amount means, in respect of any Note, an amount determined by the Calculation Agent in accordance with the following formula:

Max [0; [Paid-up Nominal Amount – Unwinding Costs]]

Where:

Paid-up Nominal Amount means, in respect of any Part Payment Date, the paid-up nominal amount of the relevant Note up to (and including) the applicable Part Payment Date. Interest will neither accrue nor be payable in respect of the period from and including the applicable Part Payment Default Date to and including the applicable Early Redemption Date; and

Unwinding Costs means the pro rata share, in respect of each Note, of the losses (expressed as a positive number) or the gains (expressed as a negative number) of unwinding all hedging arrangements (taking into account the present value of any Part Payment Amount(s) remaining to be paid in respect of the Notes) entered into or purchased by the Issuer and/or the Guarantor in respect of the Notes.

5.12 Physical Delivery Notes

If the applicable Final Terms specify that the clause “*Physical Delivery Note Provisions*” is stated as being “Applicable”, this Condition 5.12 applies.

In particular, the applicable Final Terms will specify the Deliverable Asset(s), the Physical Delivery Amount, the provisions governing whether transfer of Deliverable Asset(s) or payment of a cash sum will apply, Issuer’s option to vary method of settlement, the method of transfer of Deliverable Asset(s) in respect of the Physical Delivery Amount.

For the purposes of these Terms and Conditions:

When the settlement of a Physical Delivery Note is by way of physical delivery, the delivery of any Physical Delivery Amount in respect of Physical Delivery Notes (including, without limitation, liability for the costs of transfer of Deliverable Asset(s)) will be made through the relevant Clearing System.

The Deliverable Asset(s) will be delivered at the risk of the relevant Noteholder in such manner as may be specified in the transfer notice pursuant to which such Deliverable Assets are delivered (the **Transfer Notice**), the form of which is annexed to the Agency Agreement) and, notwithstanding Condition 1.2, no additional payment or delivery will be due to a Noteholder where any Deliverable Asset(s) is/are delivered after their due date in circumstances beyond the control of either the relevant Issuer or the Settlement Agent. The Transfer Notice will be delivered using the transfer procedures currently utilised by the relevant Clearing System.

A Noteholder's entitlement to any Physical Delivery Amount will be evidenced:

- (i) by the Noteholder's account balance appearing on the records of the relevant Clearing System and
- (ii) in the case of Credit Linked Notes, by the account balances appearing in the records of the Relevant Clearing System or, if necessary, the number of Notes held by each Noteholder as notified to the Fiscal Agent by the Relevant Clearing System.

Any delivery of Deliverable Assets will only be made in compliance with applicable securities laws.

5.12.3 Issuer's option to vary method of settlement

If the applicable Final Terms specify that the clause "*Issuer's option to vary method of settlement*" is stated as being "Applicable", the Issuer may, in its sole and absolute discretion, elect to pay or cause to be paid Noteholders the Final Redemption Amount on the Maturity Date in lieu of its obligation to deliver or procure delivery of the Physical Delivery Amount. Notification of any such election will be given to Noteholders in accordance with Condition 13.

5.13 Purchases

The Issuer or (if applicable) the Guarantor shall have the right at all times to purchase Notes (provided that, in the case of Definitive Bearer Notes, all unmatured Receipts, Coupons and Talons appertaining thereto are purchased (in the case of Preference Share Linked Notes or Warrant Linked Notes, by the Issuer) therewith) at any price in the open market or otherwise, in accordance with applicable laws and regulations.

In the case of Notes issued by Société Générale or SG Option Europe, all Notes purchased by the relevant Issuer may be purchased and held in accordance with Article L. 213-1-A of the French *Code monétaire et financier* for the purpose of enhancing the liquidity of the Notes. Such Issuers may not hold Notes for a period of more than one year from the date of purchase in accordance with Article D. 213-1-A of the French *Code monétaire et financier*.

5.14 Cancellation

All Notes purchased for cancellation by or on behalf of the Issuer will forthwith be cancelled (together with, in the case of Definitive Bearer Notes, all unmatured Receipts, Coupons and Talons appertaining thereto or surrendered therewith). All Notes purchased and cancelled (together with, in the case of Definitive Bearer Notes, all unmatured Receipts, Coupons and Talons cancelled therewith) shall be forwarded to the Fiscal Agent (or, in the case of Registered Notes, the Registrar) and cannot be reissued or resold and the obligations of the Issuer in respect of any such Notes shall be discharged.

5.15 Late Payment on Zero Coupon Notes

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note, except for Registered Notes, pursuant to Conditions 5.1, 5.2, 5.3, 5.5 and 5.7 or upon its becoming due and repayable as provided in Condition 8 is improperly withheld or refused, the amount due and

repayable in respect of such Zero Coupon Note shall be the amount calculated as provided in Condition 3.4 as though the references therein to the date fixed for the redemption or the date upon which the Zero Coupon Note becomes due and repayable were replaced by references to the date which is the earlier of:

- (1) the date on which all amounts due in respect of the Zero Coupon Note have been paid; and
- (2) five days after the date on which the full amount of the moneys payable in respect of such Zero Coupon Notes has been received by the Fiscal Agent and notice to that effect has been given to the Noteholders in accordance with Condition 13.

5.16 Redemption or forced transfer of Registered Notes

If the Issuer determines at any time that a holder of Registered Notes in the United States or that a U.S. Person was not a QIB and a QP at the time it purchased or acquired such Notes in breach of the deemed or actual representations given by such holder upon the purchase of such Notes, the Issuer may (a) redeem such Notes, or (b) direct such holder to sell or transfer its Notes to a person that is both a QIB and a QP or to a non-U.S. Person outside the United States within 30 days following receipt of such notice, and if such holder fails to sell or transfer its Notes within such 30 day period, the Issuer may transfer or sell such Notes on behalf of such holder.

No payments will be made on the affected Notes from the date notice of the sale requirement is sent to the date on which the affected Notes are sold.

There can be no assurance that a holder of Notes, or an interest therein, who is required to sell Notes, or whose Notes are sold on his behalf (pursuant to this Condition) will not incur a significant loss as a result of the need for the relevant Issuer, or for the transferor, to find a qualifying transferee willing to purchase the Notes. Neither the relevant Issuer, the Guarantor (if applicable) nor any other party shall be liable to a holder for any such loss.

5.17 Redemption of Uncertificated Notes

Notwithstanding the foregoing provisions of this Condition, the redemption of Uncertificated Notes may be subject to certain special restrictions and procedures pursuant to the legislation, rules and regulations applicable to, and/or issued by, the relevant clearing institution.

6. TAXATION

6.1 All payments in respect of Notes, Receipts and Coupons or under the Guarantee shall be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of any Tax Jurisdiction unless such withholding or deduction is required by law.

6.2 Unless the applicable Final Terms specify that Condition 6.2 is not applicable, in the event that any amounts are required to be deducted or withheld for, or on behalf of, any Tax Jurisdiction, the relevant Issuer or, as the case may be, the Guarantor shall, to the fullest extent permitted by law, pay such additional amount as may be necessary, in order that each Noteholder, Receiptholder or Couponholder, after deduction or withholding of such taxes, duties, assessments or governmental charges, will receive the full amount then due and payable provided that no such additional amount shall be payable with respect to any Note, Receipt or Coupon:

- (1) the holder of which is liable to such taxes, duties, assessments or governmental charges in respect of such Note, Receipt or Coupon by reason of his being connected with Luxembourg (in the case of payments by SG Issuer) or Curaçao (in the case of payments by SGA Société Générale Acceptance N.V.) or France (in the case of payments by Société Générale or SG Option Europe) other than by the mere holding of such Note, Receipt or Coupon; or

- (2) presented for payment more than 30 days after the Relevant Date (as defined below), except to the extent that the holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Business Day (as defined in Condition 4.8); or
- (3) in respect of an issue of Notes which have been privately placed, if the applicable Final Terms indicate that no such additional amounts shall be payable; or
- (4) where such withholding or deduction is required to be made pursuant to Council Directive 2003/48/EC on the taxation of savings income or any law (whether in or outside the European Union) implementing or complying with, or introduced in order to conform to, such Directive or (ii) is required to be made pursuant to any agreements between the European Community and other countries or territories providing for measures equivalent to those laid down in the Council Directive 2003/48/EC or any law or other governmental regulation implementing or complying with, or introduced in order to conform to, such agreements; or
- (5) where such withholding or deduction is imposed on a payment and is required to be made pursuant to laws enacted by Switzerland providing for the taxation of payments according to principles similar to those laid down in the Council Directive 2003/48/EC on the taxation of savings income, in particular the principle to have a person other than the Issuer or Guarantor to withhold or deduct the tax, such as, without limitation, any paying agent; or
- (6) presented for payment by or on behalf of a holder who would have been able to avoid such withholding or deduction by presenting the relevant Note, Receipt or Coupon to another Paying Agent in a Member State of the European Union.

For the purpose of this Condition 6:

Tax Jurisdiction means Luxembourg or any political subdivision or any authority thereof or therein having power to tax (in the case of payments by SG Issuer) or Curaçao or any political subdivision or any authority thereof or therein having power to tax (in the case of payments by SGA Société Générale Acceptance N.V.) or France or any political subdivision or any authority thereof or therein having power to tax (in the case of payments by Société Générale or SG Option Europe); and

Relevant Date means the date on which the relevant payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Fiscal Agent (or, in the case of Uncertificated Notes, the holders of such Uncertificated Notes) on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Noteholders in accordance with Condition 13.

7. PRESCRIPTION

Bearer Notes (and any relative Receipts and Coupons) and Registered Notes will become void unless claims in respect of principal and/or interest are made within a period of ten years (in the case of principal) and five years (in the case of interest) after the Relevant Date (as defined in Condition 6) therefor.

The Luxembourg act dated 3 September 1996 on the involuntary dispossession of bearer securities, as amended (the **Involuntary Dispossession Act 1996**) requires that any amount that is payable under the Notes, (but has not yet been paid to the holders of the Notes), in the event that (i) an opposition has been filed in relation to the Notes and (ii) the Notes mature prior to becoming forfeited (as provided for in the Involuntary Dispossession Act 1996), is paid to the *Caisse des consignations* in Luxembourg until the opposition has been withdrawn or the forfeiture of the Notes occurs.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for payment in respect of which would be void pursuant to this Condition 7 or Condition 4.2 or any Talon which would be void pursuant to Condition 4.2.

In the case of Uncertificated Swedish Notes and Uncertificated Finnish Notes, claims against the Issuer for the payment of principal and interest payable in respect of the Notes shall become void, in the case of Uncertificated Swedish Notes and Uncertificated Danish Notes, unless made within ten years (in the case of principal) and five years (in the case of interest) or, in the case of Uncertificated Finnish Notes and Uncertificated Danish Notes, unless made within three years, in each case after the Relevant Date (as defined in Condition 6).

8 EVENTS OF DEFAULT

The holder of any such Note may give written notice to the relevant Issuer and (if applicable) the Guarantor that the Notes are, and they shall accordingly forthwith become, immediately due and repayable at their Early Redemption Amount, together with, if appropriate and subject as otherwise provided herein, interest accrued to the date of repayment, upon the occurrence of any of the following events (each an **Event of Default**):

- (1) default by the Issuer is made in the payment of any interest or principal due in respect of the Notes of a Series or any of them and such default continues for a period of 30 days unless the Guarantor shall have remedied such default before the expiry of such period, and save that the late delivery of any Deliverable Assets in the circumstances referred to in Condition 4 shall not constitute an Event of Default; or
- (2) the Issuer fails to perform or observe any of its other obligations under or in respect of the Notes of a Series and the failure continues for a period of 60 days next following the service on the Issuer and (if applicable) the Guarantor of a notice requiring the same to be remedied (except in any case where such failure is incapable of remedy, by the Issuer or the Guarantor, in which case no such continuation hereabove mentioned will be required); or
- (3) the Issuer institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or the jurisdiction of its head office, or the Issuer consents to a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or the Issuer consents to a petition for its winding-up or liquidation by it or by such regulator, supervisor or similar official, provided that proceedings instituted or petitions presented by creditors and not consented to by the Issuer shall not constitute an Event of Default; or
- (4) in the case of any Series of Notes in respect of which the Guarantee is stated as being applicable, the Guarantee ceases to be in full force and effect in respect of such Series of Notes, the Receipts or the Coupons, or notice is given by the Guarantor which would cause the Guarantee to cease to be in full force and effect in respect of such Series of Notes, the Receipts or the Coupons, or is rendered void for any cause or by any means whatsoever or any legislation is introduced the result of which would be to remove the benefit of the Guarantee from the Notes, the Receipts or the Coupons, or terminate or amend the same in a manner materially adverse to the interests of the Noteholders, the Receiptholders or the Couponholders, or the Guarantor is unable to perform its obligations thereunder for any reason; or
- (5) in the case of Secured Notes issued by SG Issuer, if the Collateral Monitoring Agent delivers a Required Collateral Default Notice in relation to a Collateral Pool securing such Secured Notes.

9. REPLACEMENT OF NOTES, RECEIPTS, COUPONS AND TALONS

Should any Note (except any Uncertificated Note) or (in the case of any Bearer Note) Receipt, Coupon or Talon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Fiscal Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes), subject to relevant stock exchange requirements and all applicable laws, upon payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence, security and indemnity and otherwise as the Issuer or, if applicable, the Guarantor may reasonably

require. Mutilated or defaced Notes, Receipts, Coupons or Talons must be surrendered before replacements will be issued. The replacement of Notes in bearer form and receipts, coupons and talons relating to Notes in bearer form, in the case of loss or theft, is subject to the procedure of the Involuntary Dispossession Act 1996.

10. APPOINTMENT OF AGENTS

The names of the initial Fiscal Agent, the initial Registrar and the other initial Paying Agent(s) and their initial specified offices are set out below (except with respect to Uncertificated Notes and SIS Notes) and the name(s) and the specified office of the Calculation Agent(s) are specified in the applicable Final Terms.

In addition, the Fiscal Agent may, (if so specified in the applicable Final Terms) delegate certain of its functions and duties in relation to Physical Delivery Notes to a settlement agent (the **Settlement Agent**).

In relation to SIS Notes and any other Notes listed on SIX Swiss Exchange, the Issuer will maintain a Principal Swiss Paying Agent having a specified office in Switzerland (which, in the case of Notes listed on SIX Swiss Exchange, shall at all times be a bank or securities dealer that is subject to supervision by FINMA) whose duties will be set out in the Swiss Paying Agency Agreement, and the Issuer will at no time maintain a Paying Agent in respect of CHF SIS Notes having a specified office outside Switzerland.. In relation to SIS Notes, any reference in these Conditions to the **Fiscal Agent** shall so far as the context permits be deemed to be a reference to the Principal Swiss Paying Agent.

In relation to EUI Notes, the Issuer will appoint (and in the case of CDIs permanently maintain) a EUI Agent.

The Issuer and (if applicable) the Guarantor are entitled to vary or terminate the appointment of any Paying Agent or Settlement Agent and/or appoint additional or other Paying Agents or Settlement Agents and/or approve any change in the specified office through which any Paying Agent or Settlement Agent acts, provided that (except with respect to Uncertificated Notes):

- (1) so long as the Notes are listed on any stock exchange or admitted to trading or listing by another relevant authority, there will at all times be a Paying Agent (which may be the Fiscal Agent) and a Transfer Agent (which may be the Registrar) with a specified office in such place as may be required by the rules and regulations of the relevant stock exchange; and
- (2) there will at all times be a Paying Agent (which may be the Fiscal Agent) with a specified office in a city in Europe; and
- (3) so long as any Registered Global Notes are registered in the name of a nominee for DTC, there will at all times be an Exchange Agent and a Paying Agent with a specified office in New York; and
- (4) there will be one or more Calculation Agent(s) where the Conditions so require; and
- (5) there will be a Redenomination Agent and/or a Consolidation Agent where the Conditions so require; and
- (6) For all Notes other than CHF SIS Notes, there will at all times be a Paying Agent in a Member State of the European Union (a **Member State**) that will not be obliged to withhold or deduct tax pursuant to Council Directive 2003/48/EC or any law implementing or complying with, or introduced in order to conform to, such Directive (any such Directive or law, an **EU Savings Directive Tax Law**) to the extent that any Member State does not maintain any obligation to so withhold or deduct pursuant to any EU Savings Directive Tax Law; and
- (7) there will at all times be a Fiscal Agent and a Registrar.

In addition, the Issuer and the Guarantor shall forthwith appoint a Paying Agent having a specified office in New York City in the circumstances described in the second paragraph of Condition 4.6. Any variation, termination, appointment or change shall only take effect (other than in the case of insolvency,

when it shall be of immediate effect) after not less than 30 or more than 45 days' prior notice thereof shall have been given to the Noteholders in accordance with Condition 13.

Notwithstanding the foregoing, in respect of Uncertificated Notes, the Issuer may appoint or (as the case may be) maintain a paying agent in each jurisdiction where Uncertificated Notes are registered and, if appropriate, for so long as any Uncertificated Notes are listed on the Luxembourg Stock Exchange, the Issuer will maintain a paying agent with a specified office in Luxembourg, all as specified in the applicable Final Terms. In respect of any Uncertificated Notes, the Issuer is entitled to vary or terminate the appointment of the relevant central securities depository and clearing institution or the Additional Paying Agent, provided that the Issuer will appoint another central securities depository and clearing institution or Additional Paying Agent(s), as the case may be, each of them to be duly authorised, in the case of Uncertificated Swedish Notes, under the Swedish Financial Instruments Accounts Act (SFS 1998:1479) or, in the case of Uncertificated Finnish Notes, under the Finnish Act on the Book-Entry System and Clearing Operations (749/2012). The central securities depository and clearing institution and the Additional Paying Agent(s) appointed in respect of Uncertificated Notes act solely as agents of the Issuer and do not assume any obligation to, or relationship of agency or trust with, any Noteholders. The Issuer shall be entitled to obtain information from the registers maintained by the relevant central securities depository and clearing institution for the purposes of performing its obligations under any Uncertificated Notes. In respect of Uncertificated Swedish Notes, the Issuer will, in accordance with the Swedish Financial Instruments Accounts Act (SFS 1998:1479), appoint (i) Euroclear Sweden as the central securities depository and clearing institution and (ii) an Additional Paying Agent for Swedish purposes. Such Additional Paying Agent shall be specified in the applicable Final Terms and shall have the characteristics described in Condition 10. In respect of Uncertificated Finnish Notes, Euroclear Finland will act as the central securities depository and clearing institution and the Issuer will appoint an Additional Paying Agent for Finnish purposes as specified in the applicable Final Terms. In addition, the Issuer will appoint an Issuer Agent referred to in the rules of Euroclear Finland for Finnish purposes as specified in the applicable Final Terms. In respect of Uncertificated Danish Notes, VP Securities will act as the central securities depository and clearing institution and the Issuer will appoint an Additional Paying Agent for Danish purposes as specified in the applicable Final Terms. In addition, the Issuer will appoint an Issuer Agent in accordance with the rules and procedures of VP Securities for Danish purposes as specified in the applicable Final Terms.

In acting under the Agency Agreement, the Paying Agents act solely as agents of the Issuer and, if applicable, the Guarantor and do not assume any obligation to, or relationship of agency or trust with, any Noteholders, Receiptholders or Couponholders. The Agency Agreement contains provisions permitting any entity into which any Paying Agent is merged or converted or with which it is consolidated or to which it transfers all or substantially all of its assets to become the successor paying agent.

References in the Conditions to the "Paying Agent" shall include the Swedish Issuer Agent or any additional or successor Swedish Issuer agent. The Issuer reserves the right at any time to vary or terminate the appointment of the Swedish CSD and the Swedish Issuer Agent and to appoint a substitute Swedish central securities depository or agent, provided that the Issuer shall at all times maintain a Swedish CSD which shall be a duly authorised central securities depository under the Swedish Financial Instruments Accounts Act and a Swedish Issuer Agent in Sweden duly authorised under the CSD Rules.

The Swedish Issuer Agent acts solely as agent of the Issuer and does not assume any obligation to, or relationship of agency or trust with the Noteholders, other than to the extent any such obligations result from mandatory provisions in the Swedish Financial Instruments Accounts Act (*Sw. lag (1998:1479) om kontoföring av finansiella instrument*).

If in connection with any Series of Notes:

(i) the Calculation Agent specified in the applicable Final Terms is Société Générale or Société Générale Bank & Trust, its appointment will be governed by the terms of the calculation agency agreement set out in the Agency Agreement (the **Calculation Agency Agreement**); or

(ii) in the event that a Calculation Agent other than Société Générale or Société Générale Bank & Trust is appointed in connection with any such Series of Notes, the terms of its appointment will be summarised in the applicable Final Terms.

11. EXCHANGE OF TALONS

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Fiscal Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of interest due in respect of the Note to which it appertains) a further Talon, subject to the provisions of Condition 7. Each Talon shall, for the purposes of these General Terms and Conditions, be deemed to mature on the Interest Payment Date on which the final Coupon comprised in the relative Coupon sheet matures.

12. SUBSTITUTION

In the case of Notes issued by SG Issuer, SGA Société Générale Acceptance N.V. or SG Option Europe, the Issuer may be replaced and the Guarantor or any subsidiary of the Guarantor may be substituted for the Issuer as principal debtor in respect of the Notes, Receipts and Coupons, without the consent of the Noteholders, Couponholders or Receiptholders. If SG Issuer, SGA Société Générale Acceptance N.V. or SG Option Europe determines that the Guarantor or any such subsidiary shall become the principal debtor (in such capacity, the **Substituted Debtor**), it shall give not less than 30 nor more than 45 days' notice, in accordance with Condition 13, to the Noteholders of such event and, immediately on the expiry of such notice, the Substituted Debtor shall become the principal debtor in respect of the Notes, Receipts and the Coupons in place of the Issuer and the Noteholders, Receiptholders and Couponholders shall thereupon cease to have any rights or claims whatsoever against the Issuer. However, no such substitution shall take effect:

- (1) if the effect of such substitution would, at the time of such substitution, be that payments in respect of the Notes would be required to be made subject to any withholding or deduction which would not otherwise arise in the absence of such substitution;
- (2) if the Substituted Debtor is not the Guarantor, until the Guarantor shall have entered into an unconditional and irrevocable guarantee substantially in the form of the Guarantee in respect of the obligations of such Substituted Debtor;
- (3) in any case, until the Substituted Debtor shall have provided to the Fiscal Agent such documents as may be necessary to make the Notes and the Agency Agreement its legal, valid and binding obligations; and
- (4) until such Substituted Debtor shall have been approved in writing by the relevant authorities as able to issue the relevant Notes.

Upon any such substitution, the Notes, Receipts, Coupons and Talons will be modified as required, and the Noteholders will be notified of the modified terms and conditions of such Notes, Receipts, Coupons and Talons in accordance with Condition 13.

For the purposes of this Condition 13, it is expressly agreed that by subscribing to, acquiring or otherwise purchasing the Notes, the holders of the Notes are expressly deemed to have consented to the substitution of the Issuer by the Substituted Debtor and to the release of the Issuer from any and all obligations in respect of the Notes and all the agreements attached thereto and are expressly deemed to have accepted such substitution and the consequences thereof.

In respect of any such substitution of the Issuer of any Series of Swedish Notes, the substitution will, in addition to the other criteria set forth above in this Condition, be subject to the prior written consent of the Swedish CSD so long as the Notes are in global form.

1.4.2 Dematerialised Notes issued in registered dematerialised form (*au nominatif*) may not be converted into Dematerialised Notes in bearer dematerialised form (*au porteur*).

1.4.3 Dematerialised Notes issued in fully registered form (*nominatif pur*) may, at the option of the Noteholder, be converted into Notes in administered registered form (*nominatif administré*), and vice versa. The exercise of any option by the Noteholder shall be made in accordance with article R. 211-4 of the *Code monétaire et financier*. Any such conversion shall be effected at the cost of the Noteholder.

1.5 Exchange of Materialised Notes

Materialised Bearer Notes of one Specified Denomination may not be exchanged for Materialised Bearer Notes of another Specified Denomination.

1.6 Redenomination

If the applicable Final Terms specify that the clause “Redenomination” is stated as being “Applicable”, the Issuer may, on any Interest Payment Date as specified in the applicable Final Terms, without the consent of the Noteholders, by giving at least 30 days' notice in accordance with Condition 13, and on or after the date on which the European Member State in whose national currency the Notes are denominated has become a participating Member State in the third stage of the European Economic and Monetary Union (as provided in the Treaty on the Functioning of the European Union (the **EU**), as

amended from time to time (the **Treaty**) or events have occurred which have substantially the same effects (in either case, **EMU**), redenominate all, but not some only, of the Notes of any series into Euro and adjust the aggregate principal amount and the Denomination(s) set out hereon accordingly, as described below. The date on which such redenomination becomes effective shall be referred to in these Terms and Conditions as the **Redenomination Date**.

The redenomination of the Notes pursuant to the above paragraph shall be made by converting the principal amount of each Note from the relevant national currency into Euro using the fixed relevant national currency Euro conversion rate established by the Council of the European Union pursuant to Article 140 of the Treaty and rounding the resultant figure to the nearest 0.01 Euro (with 0.005 Euro being rounded upwards), provided that, if the Issuer determines, with the agreement of the Fiscal Agent that the then market practice in respect of the redenomination in euro of internationally offered securities is different from the provisions specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Noteholders, the stock exchange (if any) on which the Notes may be listed and the Paying Agents of such deemed amendments.

If the Issuer so elects, the figure resulting from conversion of the principal amount of each Note using the fixed relevant national currency Euro conversion rate shall be rounded down to the nearest Euro. The Euro denominations of the Notes so determined shall be notified to Noteholders in accordance with Condition 13. Any balance remaining from the redenomination with a denomination higher than 0.01 Euro shall be paid by way of cash adjustment rounded to the nearest 0.01 Euro (with 0.005 Euro being rounded upwards). Such cash adjustment will be payable in Euros on the Redenomination Date in the manner notified to Noteholders by the Issuer.

Upon redenomination of the Notes, any reference hereon to the relevant national currency shall be construed as a reference to Euro.

Unless otherwise specified hereon, the Issuer may, with prior approval of the Fiscal Agent, in connection with any redenomination pursuant to this Condition or any consolidation pursuant to the provisions of Condition 14.2, without the consent of the Noteholders, make any changes or additions to these Conditions which it reasonably believes to be necessary or desirable to give effect to the provisions of this Condition or Condition 14.2 (including, without limitation, any change to any applicable business day definition, business day convention, principal financial centre of the country of the Specified Currency, interest accrual basis or benchmark), taking into account market practice in respect of redenominated euromarket debt obligations and which it believes are not prejudicial to the interests of the Noteholders. Any such changes or additions shall, in the absence of manifest error, be binding on the holders of Notes, Receipts, Coupons and Talons and shall be notified to Noteholders in accordance with Condition 13 as soon as practicable thereafter.

Neither the Issuer nor any Paying Agent shall be liable to any Noteholder or other person for any commissions, costs, losses or expenses in relation to or resulting from the credit or transfer of Euro or any currency conversion or rounding effected in connection therewith.

2.2 Secured Notes issued by SG Issuer

Secured Notes issued by SG Issuer will be direct, unconditional, secured, limited recourse and unsubordinated obligations of SG Issuer and will rank *pari passu* without any preference among themselves and (subject to such exceptions as from time to time exist under applicable law) at least *pari passu* with all other outstanding direct, unconditional, secured, limited recourse and unsubordinated obligations of SG Issuer, present and future.

The Guarantee constitutes a direct, unconditional, unsecured and general obligation of the Guarantor and ranks and will rank *pari passu* with all other existing and future direct, unconditional, unsecured and general obligations of the Guarantor, including those in respect of deposits, but excluding any debts for the time being preferred by law and senior to any subordinated obligations.

3. INTEREST

The provisions of this Condition 3 shall apply if the applicable Final Terms to a Serie of Notes specify that the clause “*Fixed Rate Note Provisions*”, “*Floating Rate Note Provisions*”, “*Structured Interest Note Provisions*” and/or “*Zero Coupon Notes Provision*” is stated as being “Applicable”.

For the purpose of this Condition 3, any reference to “Interest Amount” shall be deemed to be a reference to the Fixed Coupon Amount, the Floating Coupon Amount or the Structured Interest Amount (each as defined below) when the context requires.

3.1 Fixed Rate Note Provisions

The provisions of this Condition 3.1 apply if the applicable Final Terms specify that the clause “*Fixed Rate Note Provisions*” is stated as being “Applicable”.

The applicable Final Terms to this Serie of Notes contain provisions applicable to the determination of fixed coupon amount (the **Fixed Coupon Amount**) and must be read in conjunction with this Condition 3.1 for full information on the manner in which interest is calculated on Fixed Rate Notes.

In particular, the applicable Final Terms will specify the Interest Commencement Date, the Rate(s) of Interest, the Interest Payment Date(s), the Business Day Convention, the Fixed Coupon Amount(s), any applicable Broken Amount(s), Calculation Amount, Day Count Fraction and any applicable Determination Date.

For the purpose of this Condition 3.1:

Fixed Rate Note means a Note which bears a fixed rate of interest which may be either an Adjusted Fixed Rate Note or an Unadjusted Fixed Rate Note.

Adjusted Fixed Rate Note means a Fixed Rate Note in respect of which the Interest Amount and the Interest Payment Date are subject to modification in accordance with the provisions of Condition 3.1.2.

Unadjusted Fixed Rate Note means a Fixed Rate Note in respect of which the Interest Amount and the Interest Payment Date remain, for the purposes of this Condition 3 (and without prejudice to the provisions of Condition 4.4), unchanged and are calculated in accordance with the provisions of Condition 3.1.1.

3.1.1 Unadjusted Fixed Rate Notes

Each Unadjusted Fixed Rate Note bears interest from and including the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date, as specified in the applicable Final Terms.

If the Notes are Definitive Bearer Notes, the amount of interest payable on each Interest Payment Date in respect of the Interest Period ending on such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified (the **Broken Amount**).

Except in the case of Notes which are Definitive Bearer Notes where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated in respect of any period by applying the Rate of Interest specified in the applicable Final Terms to:

- (1) in the case of Fixed Rate Notes which are Uncertificated Notes or Notes represented by a Global Note, the aggregate outstanding nominal amount of the Notes of the relevant Series (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- (2) in the case of Fixed Rate Notes which are Definitive Bearer Notes or Definitive Registered Notes, the Calculation Amount,

Fixed Rate Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Rate of Interest to the Specified Denomination as it shall be set out in the applicable Final Terms, and, if any, multiplying such sum by the applicable Day Count Fraction, in each case rounding the resultant figure to the nearest sub-unit (as defined in condition 3.7 below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards.

Where the Specified Denomination of a Fixed Rate Note which is a Definitive Bearer Note or a Definitive Registered Note is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

3.1.2 Adjusted Fixed Rate Notes

3.1.2.1 Each Adjusted Fixed Rate Note bears interest from and including the Interest Commencement Date specified in the applicable Final Terms, and such interest will be payable in respect of each Interest Period and in arrear on the Interest Payment Date(s) in each year specified in the applicable Final Terms; provided that (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, and if the applicable Final Terms to a Serie of Notes specify that the clause "Business Day Convention" is stated as being:

- (1) "**Following Business Day Convention**", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day; or
- (2) "**Modified Following Business Day Convention**", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day; or
- (3) "**Preceding Business Day Convention**", such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day,

and the expression "Interest Payment Date" shall be construed accordingly.

3.1.2.2 The Calculation Agent will calculate the amount of interest (the **Adjusted Fixed Rate Interest Amount**) payable on the Adjusted Fixed Rate Notes for the relevant Interest Period by applying the Rate of Interest to:

- (1) in the case of Adjusted Fixed Rate Notes which are Uncertificated Notes or Notes represented by a Global Note, the aggregate outstanding nominal amount of the Notes of the relevant Series (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- (2) in the case of Adjusted Fixed Rate Notes which are Definitive Bearer Notes or Definitive Registered Notes, the Calculation Amount;

and, if any, multiplying such sum by the applicable Day Count Fraction then, in each case, rounding the resultant figure to the nearest sub-unit (as defined below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of an Adjusted Fixed Rate Note which is a Definitive Bearer Note or a Definitive Registered Note is a multiple of the Calculation Amount, the Adjusted Fixed Rate Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

The Calculation Agent will cause the Adjusted Fixed Rate Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Guarantor and any stock exchange on which the relevant Adjusted Fixed Rate Notes are for the time being listed and notice thereof to be published in accordance with Condition 13 as soon as possible after the calculation or determination thereof (provided that, in the case of notification to any stock exchange, such notice will be given by no later than the first day of the relevant Interest Period or, if that is impossible due to the date fixed for such determination or calculation, as soon as practicable on or after such date). Each Adjusted Fixed Rate Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Fixed Rate Notes are for the time being listed and to the Noteholders in accordance with Condition 13.

For the purposes of these Terms and Conditions, **Luxembourg Business Day** means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in Luxembourg.

3.2 Floating Rate Note Provisions

If the applicable Final Terms specify that the clause "*Floating Rate Note Provisions*" is stated as being "Applicable", this Condition 3.2 applies.

The applicable Final Terms contain provisions applicable to the determination of floating coupon amount (the **Floating Coupon Amount**) and must be read in conjunction with this Condition 3.2 for full information on the manner in which interest is calculated on Floating Rate Notes.

In particular, the applicable Final Terms will specify the Interest Commencement Date, the Floating Coupon Amount(s), the Interest Payment Date(s), the Business Day Convention, the method of determination of the Rate of Interest and Interest Amount, any Margin(s)/Spread(s) and, if any, any minimum rate of interest (the **Minimum Rate of Interest**) or any maximum rate of interest (the **Maximum Rate of Interest**), any Day Count Fraction and any rate multiplier (the **Rate Multiplier**).

3.2.1 Specified Period(s) and Interest Payment Dates

Each Floating Rate Note bears interest from (and including) the Interest Commencement Date and such interest will be payable in respect of each Interest Period and in arrear on either:

- (1) the Interest Payment Date(s) in each year specified in the applicable Final Terms; or

- (2) if no Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Interest Payment Date specified in the applicable Final Terms, the **Interest Payment Date(s)**) which falls the number of months or other period(s) (the **Specified Period(s)**) specified in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

3.2.2 **Business Day Convention**

If (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or if (y) any Interest Payment Date would otherwise fall on a day which is not a Business Day, the Interest Payment Date(s) (or other date(s)) shall be the day determined by using a Business Day Convention in accordance with the provisions of Conditions 3.2.2.1, 3.2.2.2, 3.2.2.3 or 3.2.2.4 below.

For the purposes of these Terms and Conditions:

Business Centre(s) means the business centre(s) specified in the applicable Final Terms.

Business Day means a day which is both:

- a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in any Business Centre(s) specified in the applicable Final Terms; and
- either (x) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in the principal financial centre(s) of the country of the relevant Specified Currency (if other than any Business Centre(s) and which, if the Specified Currency is Australian Dollar, shall be Sydney, if the Specified Currency is Canadian Dollar, shall be Montreal and, if the Specified Currency is Renminbi, shall be Hong Kong) or (y) in relation to any sum payable in euro, a TARGET2 Business Day).

Business Day Convention means a business day convention which may be either Floating Rate Convention, Following Business Day Convention, Modified Following Business Day Convention or Preceding Business Day Convention, as specified in the applicable Final Terms.

TARGET2 Business Day means a day on which the TARGET2 System is open.

TARGET2 System means the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) System.

- 3.2.2.1 If the applicable Final Terms specify that the clause "*Business Day Convention*" is stated as being "**Floating Rate Convention**", in any case where Specified Periods are specified in accordance with Condition 3.2.1(2), then such Interest Payment Date (a) in the case of 3.2.2(x) above, shall be the last day that is a Business Day in the relevant month and the provisions of Condition 3.2.2.2 below shall apply *mutatis mutandis* or (b) in the case of 3.2.2(y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (i) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (ii) each subsequent Interest Payment Date shall be the last Business Day in the month which falls within the Specified Period after the preceding applicable Interest Payment Date occurred; or
- 3.2.2.2 if the applicable Final Terms specify that the clause "*Business Day Convention*" is stated as being "**Following Business Day Convention**", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day; or
- 3.2.2.3 if the applicable Final Terms specify that the clause "*Business Day Convention*" is stated as being "**Modified Following Business Day Convention**", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar

month, in which event such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day; or

3.2.2.4 if the applicable Final Terms specify that the clause “*Business Day Convention*” is stated as being “**Preceding Business Day Convention**”, such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day.

3.2.2.5 Notwithstanding the provisions of Conditions 3.2.2.1, 3.2.2.2, 3.2.2.3 or 3.2.2.4 above, where the applicable Final Terms specifies that the relevant Business Day Convention is to be applied on an “**unadjusted**” basis, the Interest Amount payable on any date shall not be affected by the application of such Business Day Convention.

3.2.3 Floating Coupon Amount

The Floating Coupon Amount payable in respect of the Floating Rate Notes will be determined by applying the Rate of Interest to the Specified Denomination as specified in the applicable Final Terms.

3.2.4 Method of determination of the Rate of Interest and Interest Amount

The method of determination of the Rate of Interest may be either an ISDA determination (**ISDA Determination**) or a screen rate determination (**Screen Rate Determination**).

If the applicable Final Terms specify that the clause “*Method of determination of the Rate of Interest and Interest Amount*” is stated as being:

(i) “Screen Page Determination”, the applicable Final Terms will specify the applicable Reference Rate, the Interest Determination Date(s), the Specified Time and the Relevant Screen Page (each as defined below); or

(i) “ISDA Determination”, the applicable Final Terms will specify the Floating Rate Option, the Designated Maturity and the Reset Date (each as defined below).

3.2.4.1 ISDA Determination

If the applicable Final Terms specify that the clause “*Method of determination of the Rate of Interest and Interest Amount*” is stated as being “ISDA Determination”:

- the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the margin(s), if any, (the **Margin(s)**) which, for the avoidance of doubt, may be also referred to as the spread(s) (the **Spread(s)**) in the applicable Final Terms). Any reference hereinafter to “Margin” shall be also deemed to be a reference to “Spread”); and
- the Minimum Rate of Interest (as defined below) shall be deemed to be zero.

Where:

ISDA Rate means, for an Interest Period, a rate equal to the Floating Rate that would be determined by the Calculation Agent specified in the applicable Final Terms, under an interest rate swap transaction if the Fiscal Agent or that other person were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions (as defined below) and under which:

- (1) the Floating Rate Option is as specified in the applicable Final Terms;
- (2) the Designated Maturity is a period specified in the applicable Final Terms; and
- (3) the relevant Reset Date is the first day of that Interest Period specified in the applicable Final Terms.

Floating Rate, Calculation Agent, Floating Rate Option, Designated Maturity and Reset Date have the meanings given to those terms in the 2006 ISDA Definitions.

2006 ISDA Definitions means the definitions as published by the ISDA (the International Swaps and Derivatives Association, Inc.), as amended and updated as at the Issue Date of the first Tranche of the Notes of the relevant Series and which may be obtained from the relevant Issuer upon request at the address and contact details appearing in the clause “*Address and contact details of Société Générale for all administrative communications relating to the Notes*” in the applicable Final Terms.

In the applicable Final Terms, when the clause “*Floating Rate Option*” specifies that the rate is determined by linear interpolation, in respect of an Interest Period, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Floating Rate Option, one of which shall be determined as if the Designated Maturity were the period of time, for which rates are available, next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time, for which rates are available, next longer than the length of the relevant Interest Period.

3.2.4.2 Screen Rate Determination

If the applicable Final Terms specify that the clause “*Method of determination of the Rate of Interest and Interest Amount*” is stated as being “Screen Rate Determination” :

- the Rate of Interest for each Interest Period will, subject as provided below, be either:
 - (1) either the offered quotation;
 - (2) or the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum), for the Reference Rate(s) which appears or appear, as the case may be, on the relevant screen page (the **Relevant Screen Page**) (which will be, for instance, 11:00 a.m., London time, in the case of a London interbank offered rate (LIBOR), or 11:00 a.m., Brussels time, in the case of an Euro interbank offered rate (EURIBOR) as at the specified time (the **Specified Time**) on the interest determination date (the **Interest Determination Date**), as specified in the applicable Final Terms, in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

If the Relevant Screen Page is not available or if in the case of (1) above, no such offered quotation appears or, in the case of (2) above, fewer than three such offered quotations appear, in each case as at the Specified Time, the Calculation Agent shall request the principal office of each of the Reference Banks (as defined below) to provide the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate at approximately the Specified Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean (rounded if necessary to the fifth decimal place with 0.000005 being rounded upwards) of such offered quotations plus or minus (as appropriate) the Margin (if any), all as determined by the Calculation Agent.

If on any Interest Determination Date one only or none of the Reference Banks provides the Calculation Agent with an offered quotation as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be the rate per annum which the Calculation Agent determines as being the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, at approximately the Specified Time on the relevant Interest Determination Date, deposits

in the Specified Currency for a period equal to that which would have been used for the Reference Rate by the Reference Banks plus or minus (as appropriate) the Margin (if any) or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, at approximately the Specified Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer and the Calculation Agent suitable for such purpose) informs the Calculation Agent it is quoting to Reference Banks (or, as the case may be, the quotations of such bank or banks to the Calculation Agent) plus or minus (as appropriate) the Margin (if any), provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period in place of the Margin relating to that last preceding Interest Period).

Where:

Reference Rate(s) means, as specified in the applicable Final Terms, the deposit rate, the interbank rate, the swap rate or bond yield, as the case may be, which appears on the Relevant Screen Page at the Specified Time on the Interest Determination Date and as determined by the Calculation Agent.

Reference Banks has the meaning given to it, for each Reference Rate, in the 2006 ISDA Definitions as amended and updated as at the Issue Date of the first Tranche of the Notes of the relevant Series. For instance, in case of a LIBOR rate, the Reference Banks will be the principal London office of four major banks in the London inter-bank market, in case of a EURIBOR rate, the Reference Banks will be the principal Euro-zone office of four major banks in the Euro-zone inter-bank market.

Euro-zone has the meanings given to those terms in the 2006 ISDA Definitions.

- the Minimum Rate of Interest (as defined below) shall be deemed to be zero.

In the applicable Final Terms, when the clause "*Reference Rate*" specifies that the rate is determined by linear interpolation, in respect of an Interest Period, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate, one of which shall be determined as if the maturity were the period of time, for which rates are available, of next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the maturity were the period of time, for which rates are available, of next longer than the length of the relevant Interest Period.

3.2.5 Minimum and/or Maximum Rate of Interest and/or Rate Multiplier

Subject to the provisions of Condition 3.2.4.1:

- if the applicable Final Terms specify that the clause "*Minimum Rate of Interest*" is stated as being "Applicable" for any Interest Period, then, in the event that the Rate of Interest in respect of any such Interest Period determined in accordance with the provisions of Condition 3.2.4 is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.
- if the applicable Final Terms specify that the clause "*Maximum Rate of Interest*" is stated as being "Applicable" for any Interest Period, then, in the event that the Rate of Interest in respect of any such Interest Period determined in accordance with the provisions of Condition 3.2.4 is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

- the applicable Final Terms specify that the clause “*Maximum Rate of Interest*” is stated as being “n/N” or “n_b/N_b” for any Interest Period, then the Rate of Interest in respect of any such Interest Period shall be multiplied by the relevant Rate Multiplier, subject always to the Minimum Rate of Interest and/or Maximum Rate of Interest as described above.

For the purposes of this Condition 3.2.5:

Benchmark means, in respect of any calendar day (in respect of the definition of n) or, as applicable, Business Day (in respect of the definition of n_b) of the relevant Interest Period:

- if the applicable Final Terms specify that the clause “*Benchmark*” is stated as being “Reference Rate USD-LIBOR”:

the rate equal to the Floating Rate for such day that would be determined by the Calculation Agent under an interest rate swap transaction if it were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions and under which the Floating Rate Option is “USD-LIBOR-BBA” (as defined in the 2006 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date). If on any Benchmark Day, such rate does not appear on Reuters Screen LIBOR01 Page, USD-LIBOR will be determined by the Calculation Agent as aforesaid in accordance with the Floating Rate Option “USD-LIBOR-Reference Banks” (as defined in the 2006 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date).

- if the applicable Final Terms specify that the clause “*Benchmark*” is stated as being “Reference Rate GBP-LIBOR”:

the rate equal to the Floating Rate for such day that would be determined by the Calculation Agent under an interest rate swap transaction if it were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions and under which the Floating Rate Option is “GBP-LIBOR-BBA” (as defined in the 2006 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date). If on any Benchmark Day, such rate does not appear on Reuters Screen LIBOR01 Page, GBP-LIBOR will be determined by the Calculation Agent as aforesaid in accordance with the Floating Rate Option “GBP-LIBOR-Reference Banks” (as defined in the 2006 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date).

- if the applicable Final Terms specify that the clause “*Benchmark*” is stated as being “Reference Rate EURIBOR”:

the rate equal to the Floating Rate for such day that would be determined by the Calculation Agent under an interest rate swap transaction if it were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions and under which the Floating Rate Option is “EUR-EURIBOR-Reuters” (as defined in the 2006 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date). If on any Benchmark Day, such rate does not appear on Reuters Screen EURIBOR01 Page, EURIBOR will be determined by the Calculation Agent as aforesaid in accordance with the Floating Rate Option “EUR-EURIBOR-Reference Banks” (as defined in the 2006 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date).

- if the applicable Final Terms specify that the clause “*Benchmark*” is stated as being “Reference Rate EUR-CMS”:

the rate equal to the Floating Rate for such day that would be determined by the Calculation Agent under an interest rate swap transaction if it were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions and under

which the Floating Rate Option is "EUR-ISDA-EURIBOR Swap Rate-11:00" (as defined in the 2006 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without Reference to any Reset Date), and appearing on Reuters Screen ISDAFIX2 Page as at 11.00 a.m. (Frankfurt time) under the heading "EURIBOR BASIS – FRF" and above the caption "11:00 AM FRANKFURT". If on any Benchmark Day, such rate does not appear on Reuters Screen ISDAFIX2 Page, EUR-CMS will be determined by the Calculation Agent as aforesaid in accordance with the Floating Rate Option "EUR-Annual Swap Rate-Reference Banks" (as defined in the 2006 ISDA Definitions) for a period of the Designated Maturity specified in the applicable Final Terms (without reference to any Reset Date).

- if the applicable Final Terms specify that the clause "*Benchmark*" is stated as being "Reference Rate USD-CMS":

the rate equal to the Floating Rate for such day that would be determined by the Calculation Agent under an interest rate swap transaction if it were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions and under which the Floating Rate Option is "USD-ISDA-Swap Rate" (as defined in the 2006 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without Reference to any Reset Date), and appearing on Reuters Screen ISDAFIX1 Page as at 11.00 a.m. (New York time). If on any Benchmark day, such rate does not appear on Reuters Screen ISDAFIX1 Page, USD-CMS will be determined by the Calculation Agent as aforesaid in accordance with the Floating Rate Option "USD-CMS-Reference Banks" (as defined in the 2006 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date).

For the purposes hereof, (i) the value of the Benchmark on any calendar day of the relevant Interest Period which is not a Benchmark Day shall be deemed to be the value ascribed to the Benchmark on the first preceding Benchmark Day and (ii) the value of the Benchmark on each of the last four TARGET2 Business Days of any Interest Period shall be deemed to be the value ascribed to the Benchmark on the fifth TARGET2 Business Day (or the Benchmark Day immediately preceding such fifth TARGET2 Business Day if such fifth TARGET2 Business Day is not a Benchmark Day) preceding the Interest Payment Date relating to such Interest Period.

Benchmark Day means, if the relevant Benchmark is:

- USD-LIBOR or GBP-LIBOR, a day (other than a Saturday or Sunday) on which banks are open for business (including dealings in foreign exchange and deposit in USD) in London;
- EURIBOR or EUR-CMS, a day (other than a Saturday or Sunday) on which the TARGET2 System is operating; and

Lower Limit means, in respect of the relevant Interest Period, the limit specified in the applicable Final Terms.

n means the number of calendar days in the relevant Interest Period in respect of which the Benchmark was equal to or greater than the Lower Limit and equal to or lower than the Upper Limit, in each case as determined by the Calculation Agent.

n_b means the number of Business Days in the relevant Interest Period in respect of which the Benchmark was equal to or greater than the Lower Limit and equal to or lower than the Upper Limit, in each case as determined by the Calculation Agent.

N means the total number of calendar days within the relevant Interest Period.

N_b means the total number of Business Days within the relevant Interest Period.

Upper Limit means, in respect of the relevant Interest Period, the limit specified in the applicable Final Terms.

3.2.6 **Determination of Rate of Interest and Interest Amount in respect of Floating Rate Notes**

The Calculation Agent will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period.

The Calculation Agent will calculate the Interest Amount payable on the Floating Rate Notes in respect of each Specified Denomination for the relevant Interest Period. Each Interest Amount shall be calculated by applying the Rate of Interest to each Specified Denomination, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit (defined below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Floating Rate Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Rate of Interest to the Specified Denomination, as detailed in the applicable Final Terms.

3.2.7 **Notification of Rate of Interest and Interest Amount**

The Calculation Agent will cause the Rate and Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Guarantor and any stock exchange on which the relevant Floating Rate Notes are for the time being listed and notice thereof to be published in accordance with Condition 13 as soon as possible after the calculation thereof (provided that, in the case of notification to any stock exchange, such notice will be given by no later than the first day of the relevant Interest Period or, if that is impossible due to the date fixed for such calculation, as soon as practicable on or after such date). Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Floating Rate Notes are for the time being listed and to the Noteholders in accordance with Condition 13.

For the purposes of these Terms and Conditions:

Luxembourg Business Day means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in Luxembourg.

3.3 **Structured Interest Note Provisions**

If the applicable Final Terms specify that the clause "*Structured Interest Note Provisions*" is stated as being "Applicable", this Condition 3.3 applies.

The applicable Final Terms contain provisions applicable to the determination of the Interest Amount and must be read in conjunction with this Condition 3.3 for full information on the manner in which interest is calculated on Structured Notes. In particular, the applicable Final Terms will specify the Interest Commencement Date, the Interest Payment Date(s), the Structured Interest Amount(s), the Business Day Convention and, if applicable, the relevant Day Count Fraction.

3.3.1 **Structured Interest Amount(s)**

The Structured Interest Amount payable in respect of the Structured Notes shall be determined as follows:

Structured Interest Amount = Specified Denomination multiplied by the Product Formula described in the Additional Terms and Conditions relating to Formulae corresponding to the Reference of the Product specified in the applicable Final Terms.

For the purpose of this Condition 3.3.1:

Product Formula and **Reference of the Product** shall have the meaning given to them, respectively, in the Additional Terms and Conditions relating to Formulae.

3.3.2 **Calculation of Interest Amount in respect of Structured Notes**

The Calculation Agent will at or as soon as practicable after each time at which the Interest Amount is to be calculated, calculate the Interest Amount for the relevant Interest Period. The Calculation Agent will notify the Fiscal Agent of the Interest Amount for the relevant Interest Period as soon as practicable after calculating the same (but in no event later than the first Business Day after such calculation).

The Calculation Agent will calculate the Interest Amount payable on the Structured Notes in respect of each Specified Denomination for the relevant Interest Period. Each Interest Amount shall be calculated in accordance with the Product Formula as specified in the Additional Terms and Conditions relating to Formulae, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit (defined below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Structured Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Structured Interest Amount to the Specified Denomination, as detailed in the applicable Final Terms.

3.3.3 **Notification of Interest Amount**

The Calculation Agent will cause the Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Guarantor and any stock exchange on which the relevant Structured Notes are for the time being listed and notice thereof to be published in accordance with Condition 13 as soon as possible after the calculation thereof (provided that, in the case of notification to any stock exchange, such notice will be given by no later than the first day of the relevant Interest Period or, if that is impossible due to the date fixed for such calculation, as soon as practicable on or after such date). Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Structured Notes are for the time being listed and to the Noteholders in accordance with Condition 13.

- (A) the Reference Price; and
- (B) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable

and notified in accordance with Condition 3.2.6, *mutatis mutandis*.

3.5 Partly Paid Notes

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes.

3.6 Accrual of Interest

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if applicable) from the due date for its redemption unless payment of principal (or, in the case of any Physical Delivery Note, transfer of the Deliverable Asset(s) in respect of the Physical Delivery Amount) is improperly withheld or refused (provided that, in the case of any Physical Delivery Amount, transfer shall not be deemed to have been improperly withheld or refused where such transfer is delayed by reason of circumstances beyond the control of the relevant Issuer or any of its Agents). In such event, interest will continue to be calculated and to accrue until whichever is the earlier of:

- (1) the date on which all amounts due in respect of such Note have been paid; and
- (2) five days after the date on which the full amount of the moneys payable in respect of such Note has been received by the Fiscal Agent and notice to that effect has been given to the Noteholders in accordance with Condition 13.

Payments of principal in respect of Definitive Materialised Bearer Notes will (subject as provided below) be made in the manner provided in Condition 4.1 only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of such Notes, and payments of interest in respect of Definitive Materialised Bearer Notes will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia, and its possessions)). Payments under Condition 4.1 made, at the option of the bearer of

such Note or Coupon, by cheque shall be mailed or delivered to an address outside the United States furnished by such bearer. Subject to any applicable laws and regulations, such payments made by transfer will be made in immediately available funds to an account maintained by the payee with a bank located outside the United States. No payment in respect of any definitive Note or Coupon will be made upon presentation of such definitive Note or Coupon at any office or agency of the Issuer, the Guarantor or any Paying Agent in the United States, nor will any such payment be made by transfer to an account, or by mail to an address, in the United States.

Payment of the final instalment will be made in the manner provided in Condition 4.1 only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Note in accordance with the preceding paragraph. Each Receipt must be presented for payment of the relevant instalment together with the definitive Note to which it appertains. Receipts presented without the Definitive Materialised Bearer Note to which they appertain do not constitute valid obligations of the Issuer or, if applicable, the Guarantor.

Upon the date upon which any Definitive Materialised Bearer Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment will be made in respect thereof.

Fixed Rate Notes in definitive form (other than Dual Currency Notes, Structured Notes or Physical Delivery Notes) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of ten years after the Relevant Date (as defined in Condition 6) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 7) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note in definitive form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note, Dual Currency Notes, Structured Note or Physical Delivery Note in definitive form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. Where any Floating Rate Note, Dual Currency Notes, Structured Note or Physical Delivery Note which is settled by way of cash is presented for redemption without all unmatured Coupons appertaining thereto, payment of all amounts due in relation to such Note shall be made only against the provision of such indemnity as the relevant Issuer and (if applicable) the Guarantor may decide.

If the due date for redemption of any Definitive Materialised Bearer Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant Definitive Materialised Bearer Note.

4.3 Payments subject to fiscal and other laws

All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives in any jurisdiction (whether by operation of law or agreement of the Issuer or its Agents) and the Issuer will not be liable for any taxes or duties or whatever nature imposed or levied by such laws, regulations,

directives or agreements but without prejudice to the provisions of Condition 6. No commission or expenses shall be charged to the Noteholders or Couponholders in respect of such payments. No commission or expense shall be charged to the Noteholders in respect of such payments but, for the avoidance of doubt, without prejudice to the option of the Calculation Agent to apply the provisions of paragraph D. specific to the occurrence of an Increased Cost of Hedging, as provided for in the section called "Hedging Disruption, Increased Cost of Hedging and Insolvency Filing", in the relevant Additional Terms and Conditions.

on the next following Payment Business Day in the relevant place; or

- (ii) if the applicable Final Terms specify that the clause "*Payment Business Day*" is stated as being "**Modified Following Payment Business Day**":

Provided that if neither "Following Payment Business Day" nor "Modified Following Payment Business Day" is specified in the applicable Final Terms, "Following Payment Business Day" shall be deemed to apply. In the event that any adjustment is made to the date for payment in accordance with this Condition 4.4, the relevant amount due in respect of any Note, Receipt or Coupon shall not be affected by any such adjustment.

For the purposes of these Terms and Conditions:

Payment Business Day means a day (other than a Saturday or a Sunday):

- (B) in such jurisdictions as shall be specified as financial centre(s) (the **Financial Centre(s)**) in the applicable Final Terms and
- (C) (i) in the case of a payment in a currency other than euro, where payment is to be made by transfer to an account maintained with a bank in the relevant currency, on which foreign exchange transactions may be carried on in the relevant currency in the principal financial centre of the country of such currency or (ii) in the case of a payment in euro, on which the TARGET2 System is open.

Amounts payable in respect of payment of principal and/or interest, if any, in respect of Dual Currency Notes, shall be determined by the Calculation Agent by converting the relevant amounts in the relevant Specified Currency into the Settlement Currency at the relevant fixing of Dual Currency Exchange Rate.

- if "Predetermined" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the Calculation Agent shall use the Predetermined Fixing as the fixing of Dual Currency Exchange Rate to convert the relevant amount(s);
- if "Screen Rate Determination" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the fixing of the Dual Currency Exchange Rate will be the relevant exchange rate fixing specified on the Relevant Screen Page at the Dual Currency Valuation Time on the Dual Currency Valuation Date;

Notwithstanding with the above, upon a Dual Currency Disruption Event occurring or continuing on any Dual Currency Valuation Date as determined by the Calculation Agent, the Calculation Agent shall

- (a) determine that the Dual Currency Valuation Date shall be the first succeeding Dual Currency Scheduled Trading Day that is not a Dual Currency Disrupted Day unless each of the eight Dual Currency Scheduled Trading Days immediately following the scheduled Dual Currency Valuation Date is also a Dual Currency Disrupted Day. In that case that eighth Dual Currency Scheduled Trading Day shall be deemed to be the Dual Currency Valuation Date notwithstanding the fact that such day is a Dual Currency Disrupted Day, and the Calculation Agent shall determine, its good faith estimate of the fixing of the Dual Currency Exchange Rate as of the Dual Currency Valuation Time on that eighth Dual Currency Scheduled Trading Day and the good faith estimate of the fixing so calculated shall be deemed the fixing of Dual Currency Exchange Rate; and/or
- (b) postpone any payment date related to such Dual Currency Valuation Date (including, if applicable, the Maturity Date) until the fourth Business Day following the date on which a Dual Currency Disruption Event is no longer subsisting, or the date on which the Calculation Agent determines its good faith estimate of the fixing of the Dual Currency Exchange Rate pursuant to the provisions of item (a) above, as the case may be. For the avoidance of doubt, for the purpose of calculating the Market Value following an Event of Default pursuant to Condition 8 only, in determining the fair market value of the Notes, no account shall be taken of the creditworthiness of
 - (i) the Issuer, who shall be deemed to be able to perform fully its obligations in respect of the Notes or
 - (ii) the Guarantor, which shall be deemed to be able to perform fully its obligations in respect of the Guarantee. In respect of Notes bearing interest, notwithstanding the last sentence of Condition 5.2, the ninth line of Condition 5.3 and the first paragraph of Condition 7, the Early Redemption Amount, as determined by the Calculation Agent in accordance with this paragraph shall include any accrued interest to (but excluding) the relevant early redemption date and apart from any such interest included in the Early Redemption Amount, no interest, accrued or otherwise, or any other amount whatsoever will be payable by the Issuer or, as the case may be, the Guarantor in respect of such redemption; or

If the applicable Final Terms specify that the clause “*Secured Notes Provisions*” is stated as being “Applicable”, this Condition 15.2 applies.

Secured Notes shall be subject to the provisions of the Additional Terms and Conditions relating to Secured Notes which contain provisions relating to disruption events (including, without limitation and where necessary, appropriate definitions of **Collateral Disruption Event** and **Collateral Settlement Disruption** and details of the consequences of such events).

15.3 Provisions applicable to Physical Delivery Notes

If the applicable Final Terms specify that the clause “*Physical Delivery Notes Provisions*” is stated as being “Applicable”, this Condition 15.3 applies.

15.3.1 Provisions applicable to Deliverable Asset(s)

- (i) When “*Deliverable Asset(s)*” is specified as being the Underlying(s) in the applicable Final Terms which may be a Share and/or an ADR and/or a GDR and/or an ETF, the provisions of the Additional Terms and Conditions for Share Linked Notes and/or the Additional Terms and Conditions for ADR/GDR Linked Notes and/or the Additional Terms and Conditions for ETF Linked Notes shall apply;
- (ii) When “*Deliverable Asset(s)*”, if different from the Underlying(s) specified in the applicable Final Terms, is specified as being a share and/or an American depositary receipt and/or global depositary receipt and/or an exchange traded fund, the provisions of the Additional Terms and Conditions for Share Linked Notes and/or the Additional Terms and Conditions for ADR/GDR Linked Notes and/or the Additional Terms and Conditions for ETF Linked Notes shall apply;
- (iii) When “*Deliverable Asset(s)*” is specified as being “Specified Deliverable Obligation(s)” in the applicable Final Terms, in respect of Credit Linked Notes, the provisions of the Additional Terms and Conditions for Credit Linked Notes shall apply.

15.3.2 Settlement Disruption Event

If a Settlement Disruption Event does prevent delivery of the Physical Delivery Amount on the Maturity Date, then, such delivery shall occur on the first succeeding day on which delivery of the Physical Delivery Amount can take place through the relevant Clearing System (the **Settlement Date**) unless a Settlement Disruption Event prevents delivery for a period of 20 Clearing System Days immediately following the original date that would have been the Settlement Date (the **Delivery Period**). In that latter case, the Issuer shall, in lieu of delivering the Physical Delivery Amount, pay, in respect of each Note, the fair market value of the number of Deliverable Asset(s) to be delivered (the **Fair Market Value**) converted into the Specified Currency at the current exchange rate, if applicable.

The Fair Market Value will be determined by the Calculation Agent on the basis of the market conditions on the first Business Day following the Delivery Period.

- (a) If a dividend is paid in respect of the Deliverable Asset(s) from and including the Valuation Date to and, as the case may be, (a) excluding the Delivery Date or (b) including, in the event of a Settlement Disruption Event, the date on which the Fair Market Value is calculated, then, the net dividend amount relating to the number of Deliverable Asset(s) to be delivered per Note (excluding any related tax credit) converted into the Specified Currency at the current exchange rate, if applicable, will be paid in cash to the Noteholders as soon as practicable.
- (b) All stamp duties, or other similar taxes and/or duties, in respect of physical delivery of Deliverable Asset(s) shall be borne by the Noteholders.

Provided that in the case of Credit Linked Notes, upon the occurrence of a Settlement Disruption Event, Delivery will be made through the relevant Clearing System unless the Specified Deliverable Obligations are not eligible for clearance by the relevant Clearing System or otherwise as specified in Condition 1 of the Additional Terms and Conditions for Credit Linked Notes, in which case transfer will take place outside the relevant Clearing System as set out in Condition 1 of the Additional Terms and Conditions for Credit Linked Notes.

As used in this Condition 15.3.2:

Clearing System Day means, in respect of a Clearing System, any day on which such Clearing System is open for the acceptance and execution of settlement instructions.

Delivery Date means, as the case may be, (a) the Maturity Date or (b) in the event of a Settlement Disruption Event, the Settlement Date (as defined above).

Settlement Disruption Event means any event beyond the control of the Issuer as a result of which the relevant Clearing System cannot clear the transfer of the Physical Delivery Amount.

15.4 Calculations and determinations

With respect to a Type of Structured Notes to which the relevant Additional Terms and Conditions for Structured Notes apply, the Calculation Agent responsible for determining and calculating any rate, rate of interest, interest payable and any amount payable shall be the Calculation Agent specified in the applicable Final Terms (pursuant to the provisions of Condition 10).

The calculations and determinations of the Calculation Agent will be conclusive and binding upon the Issuer, the Guarantor, the Agent and the Noteholders, in the absence of manifest error or proven error.

Following the occurrence of an event giving rise to an adjustment which is substantial in the opinion of the Calculation Agent or of an extraordinary event affecting, in respect of the relevant Additional Terms and Conditions for Structured Notes, (i) a relevant Underlying and/or (ii) a Selected Obligation or a Deliverable Obligation, and/or a Bond, the Calculation Agent shall notify the Issuer, which shall in its turn notify the Agent and the Noteholders, pursuant to the provisions of Condition 13, of the relevant adjustment made or decision taken by the Calculation Agent. Details of such adjustment made or decision taken can be obtained by the Noteholders upon request at the Calculation Agent's address specified in the applicable Final Terms.

16. GOVERNING LAW AND SUBMISSION TO JURISDICTION

16.1 Governing Law

If the applicable Final Terms indicate that the clause "*Governing law*" is stated as being "French law":

The French Law Agency Agreement, the Notes, the Receipts and the Coupons and any non-contractual obligations arising out of or in connection with the French Law Agency Agreement, the Notes, the Receipts and the Coupons are governed by, and shall be construed in accordance with, French law.

The Guarantee and any non-contractual obligations arising out of or in connection with the Guarantee will be governed by, and shall be construed in accordance with, English law.

16.2 Submission to jurisdiction

Any claim against the Issuer in connection with any Notes, Receipts, Coupons or Talons and the French Law Agency Agreement may exclusively be brought before the competent courts in Paris.

17 Limited Recourse against SG Issuer, SGA Société Générale Acceptance N.V. and SG Option Europe

Each holder of a Note or Notes issued by SG Issuer, SGA Société Générale Acceptance N.V. and SG Option Europe is deemed to have acknowledged and undertaken, on its acquisition of such Note(s), that, in the event of a payment default by SG Issuer, SGA Société Générale Acceptance N.V. or SG Option Europe, as the case may be, of principal of (and premium, if any), interest or any other amount in respect thereof (including, without limitation, any Final Redemption Amount(s)) on any such Note(s) whenever such payment falls due (such payment defaults, **Defaulted Payments**), such holder shall not institute any proceeding, judicial or otherwise, or otherwise assert a claim against SG Issuer, SGA Société Générale Acceptance N.V. or SG Option Europe, as the case may be, to enforce such Defaulted Payments and waives all rights to institute such proceedings or make such claims in respect of such Defaulted Payments against the Issuer.

For the avoidance of doubt:

Such acknowledgement, undertaking and waiver are without prejudice to the holder's rights under the Guarantee and do not alter or impair the Guarantor's obligations under the relevant guarantee;

Accordingly each holder shall continue to have the right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Guarantor to enforce any obligation due under the relevant guarantee, including without limitation in respect of any Defaulted Payments; and

Such acknowledgement, undertaking and waiver do not alter or impair the rights of the Noteholders to require the enforcement of the Pledge Agreement pursuant to the provisions of the Additional Terms and Conditions relating to Secured Notes.

1.3.2 Physical Delivery principles

a) Description of Physical Delivery Amount:

CASE 1: if the Final Redemption Amount of a Product is determined and calculated on the basis of one Underlying and the currency of the Underlying is the same as the Specified Currency:

An integer number of Deliverable Asset determined and calculated pursuant to the following formula:

$$\text{Physical Delivery Amount}(T) = \text{Specified Denomination} / \text{PhysicalDeliveryAmountStrikePrice}$$

The fractional part of this number, if any, is paid in cash: this cash amount denominated in the Specified Currency is calculated by multiplying (a) the fractional part by (b) the Closing Price of the Underlying as of Valuation Date(T). This cash amount is rounded up to 4 decimals.

CASE 2: if the Final Redemption Amount of a Product is determined and calculated on the basis of one Underlying and the currency of the Underlying is different from the Specified Currency:

An integer number of Deliverable Asset determined and calculated pursuant to the following formula:

$$\text{Physical Delivery Amount}(T) = \text{Specified Denomination} / (\text{PhysicalDeliveryStrikePrice} \times \text{FXRate}(T))$$

The fractional part of this number, if any, is paid in cash: this cash amount denominated in the Specified Currency is calculated by multiplying (a) the fractional part by (b) the Product of (i) the relevant Closing Price of the Underlying as of Valuation Date(T) and (ii) the relevant FXRate as of Valuation Date(T). This cash amount is rounded up to 4 decimals.

CASE 3: if the Final Redemption Amount of a Product is determined and calculated on the basis of more than one Underlying and the currency of these Underlyings is the same as the Specified Currency:

An integer number of Deliverable Asset(k) determined and calculated pursuant to the following formula:

$$\text{Physical Delivery Amount}(T) = \text{Specified Denomination} / \text{PhysicalDeliveryStrikePrice}(k)$$

With:

(k) being the Underlying with the lowest Performance(T,k), provided that if several Underlyings achieve the same lowest Performance(T,k), the Underlying having the largest market capitalisation is retained;

The fractional part of this number, if any, is paid in cash: this cash amount denominated in the Specified Currency is calculated by multiplying (a) the fractional part by (b) the Closing Price of this Underlying as of Valuation Date(T). This cash amount is rounded up to 4 decimals.

CASE 4: if the Final Redemption Amount of a Product is determined and calculated on the basis of more than one Underlying and the currency of at least one Underlying is different from the Specified Currency:

An integer number of Deliverable Asset(k) determined and calculated pursuant to the following formula:

$$\text{Physical Delivery Amount}(T) = \text{Specified Denomination} / (\text{PhysicalDeliveryStrikePrice}(k) \times \text{FXRate}(T))$$

With:

(k) being the Underlying with the lowest Performance(T,k), provided that if several Underlyings achieve the same lowest Performance(T,k), the Underlying having the largest market capitalisation is retained;

The fractional part of this number, if any, is paid in cash: this cash amount denominated in the Specified Currency is calculated by multiplying (a) the fractional part by (b) the Product of (i) the relevant Closing Price of the Underlying as of Valuation Date(T) and (ii) the relevant FXRate as of Valuation Date(T). This cash amount is rounded up to 4 decimals.

Being specified that, in the case where (i) Notes to be admitted to trading on a Regulated Market and/or subject to a Public Offer and (ii) the share in Société Générale is specified as Deliverable Asset in the applicable Final Terms, the part of the Physical Delivery Amount composed by shares in Société Générale will be replaced by a cash amount. This cash amount is calculated by multiplying (a) the number of shares in Société Générale being in the composition of the Physical Delivery Amount by (b) the Closing Price of the share in Société Générale as of Valuation Date(T) specified in the applicable Final Terms. This cash amount is rounded up to 4 decimals and converted, if any, in the Specified Currency.

b) Variable Data:

$$\text{Structured Interest Amount}(i) / \text{Automatic Early Redemption Amount}(i) = \text{Max}(0 ; \text{Specified Denomination} \times \text{Participation} \times \text{Product Formula}(i) - \text{SumCouponsCrystallised}(i-1))$$

Where:

$\text{SumCouponsCrystallised}(i) = \text{SumCouponsCrystallised}(i-1) + \text{Structured Interest Amount}(i)$

Or, as the case may be

$\text{SumCouponsCrystallised}(i) = \text{SumCouponsCrystallised}(i-1) + \text{Automatic Early Redemption Amount}(i)$

With CapitalisationRate calculated on the relevant period of calculation.

As an illustration, such CapitalisationRate can be Eonia Rate, ...

1.4.8 **Add on relating to hedging fees applicable to a Product Formula**

For some Products for which specific hedging fees are applicable, the Product Formula can become:

Product Amount = Specified Denomination x Product Formula x Hedging Fees Factor

Hedging Fees Factor(i) = Product(for t from 1 to i) [(1 – Factor_1(t-1) x (ACT(t-1;t) / 360)) x (1 – (Factor_2(t-1) + Factor_Gap(t-1) + Factor_Collat(t-1)) x (ACT(t-1;t) / 360))]

Where:

Factor_Gap(t) means [0] [, in respect of each Valuation Date(t), the annual gap premium rate as of such Valuation Date(t), as determined by the Calculation Agent as the cost that the Issuer (and/or its affiliates) would charge to replicate the performance of the Product, which includes, inter alia, the costs of hedging the risk of the market value of the Product becoming negative].

Factor_Collat(t) means [0] [, for each Valuation Date(t), an annual rate which shall be determined with respect to such Valuation Date(t) by the Calculation Agent as the cost that would be incurred by the Issuer (and/or its affiliates) if it were to borrow the Collateral Assets

(through, for example, but without limitation, a securities lending or repurchase agreement) for an amount equal to the market value of the Product as of such Valuation Date(t) (as determined by the Calculation Agent) [multiplied by the Collateralisation Percentage.]

2. SCHEDULE – GENERAL DEFINITIONS AND SPECIFIC DEFINITION(S) - VARIABLE DATA - REFERENCE FORMULA(E)

2.1 Schedule

A **Schedule** designates either (A) a list of Valuation Date(s) or Relevant Valuation Date(s) or any other date(s), or (B) all Valuation Date(s) or Relevant Valuation Date(s) or any other date(s) comprised within a defined period.

For the avoidance of doubt, several Schedules may be used for the determination and calculation of a Product Amount. For ease of reading, Schedules may be renamed (e.g. Period, Corridor Period, Interest Period, European Knock-In Period, American Knock-In Period,...).

Furthermore, in respect of a Product Formula and a particular Schedule, also for ease of reading, “Valuation Date” or “Relevant Valuation Date” may be renamed (for instance, for a Schedule made of daily Valuation Dates, “Valuation Date” may be renamed “Daily Valuation Date”, for a Schedule with annual Valuation Dates, “Valuation Date” may be renamed “Annual Valuation Date”, for another Schedule relating to a specific Underlying_A, “Valuation Date” may be renamed “Underlying_A Valuation Date”,...).

2.2 General Definitions and Specific Definition(s)

2.2.1 General Definitions: Definitions listed in Condition 5 below applicable to all the Families of Products and to each Product within a Family of Product.

2.2.2 Specific Definition(s): Definitions used, as the case may be, to determine and calculate a Product Amount and/or the related Reference Formula. One or more specific definitions may be necessary (hereafter the **Specific Definition(s)**). As the case may be, the Specific Definitions are set out in the paragraph of Condition 3 below corresponding to the relevant Reference of the Product and called “Specific Definitions” and replicated in the applicable Final Terms. When no Specific Definition is necessary to determine and calculate a Product Amount, the applicable Final Terms shall indicate “Not Applicable”.

2.3 Variable Data

One or more variable data are necessary to determine and calculate a Product Amount of a Product (referred to as the **Variable Data**). The definition of the Variable Date that may be used for the Product Amount of a Product of any Family of Products are listed in Condition 5.4 “Variable Data” below.

The Variable Data listed in Condition 5.4 and that may be used in respect of one or more Products of a Family of Products are set out in the paragraph 0 of the relevant Family of Product (e.g. 3.3.0 or 3.11.0).

The Variable Data listed in Condition 5.4 necessary to a specific Product are set out in the paragraph “Variable Data” of such Product.

In the applicable Final Terms, depending on their respective definition set out in Condition 5.4 below, the Variable Data can be an amount, a level, a percentage or the observed value of a Reference Formula applied to the Underlying(s) of the Product.

If in respect of a Product Formula of a Product Amount of a specific Product, a Variable Data has a value of either 0 (zero) or 1 (one), or is not used or not useful or if a Variable Data is not applicable for the calculation of certain Product Amounts, then Product Formula(e) as specified in the applicable Final Terms may be simplified for the purpose of improving the reading and intelligibility of formula(e).

For instance, if the Product Formula of a Product Amount of a particular Product is:

$\text{ConstantRedemptionLevel} + \text{Min}(\text{Cap} ; \text{Participation} \times \text{ReferenceFormula_Coupon})$

And the Variable Data “ConstantRedemptionLevel” is equal to 0, “Participation” is equal to 1, and “Cap” is not applicable

Then the Product Formula of such Product Amount may be simplified in the applicable Final Terms as follow; :

ReferenceFormula_Coupon

2.4 Reference Formula(e)

Reference Formula(e) are pre-defined basic formulae specified under Condition 4 below (referred to as individually the **Reference Formula** and collectively **Reference Formulae**) which are used, as the case may be, as inputs in respect of an Option, a Product Formula and/or one or several Specific Definitions necessary to determine and calculate a Product Amount.

For each Product described in Condition 3 below appears a paragraph called “Reference Formula(e)”.

This paragraph indicates:

(i) on one side, the context in which are used the Reference Formulae of the Product, by the suffix which precedes the expression “Reference Formula_” e.g.

- “ReferenceFormula_Final” which means that the Reference Formula of the Product is used to determine the Final Redemption Amount of the Product and the Product Formula, the Option and/or one or several Specific Definitions necessary to the determination of the Final Redemption Amount contain the instruction “Reference Formula_Final”;

For example, for the product 3.6.6 “Himalaya & Emerald”, the paragraph “Reference Formula(e)” indicates “Reference Formula_Final” which means that a Reference Formula is used to determine the Final Redemption Amount and the paragraph “Final Redemption” indicates:

$\text{Final Redemption Amount} = \text{Specified Denomination} \times \text{Product Formula(T)}$

$\text{Product Formula(T)} = \text{ConstantRedemption} + \text{Max}(\text{Floor} ; \text{Min}(\text{Cap} ; \text{Participation} \times \text{Max}(0 ; \text{Reference Formula_Final(T)} - \text{Strike})))$

- “ReferenceFormula_AERA” means that the Reference Formula of the Product is used to determine the Automatic Early Redemption Amount of the Product, if any.

For example, for the product 3.3.3 “Digit Coupon Autocall with Memory Effect”, the paragraph “Reference Formula(e)” indicates “ReferenceFormula_AERA” means that a Reference Formula is used to determine the Automatic Early Redemption Amount and the paragraph “Automatic Early Redemption” indicates:

$\text{Automatic Early Redemption Amount} = \text{Specified Denomination} \times \text{Product Formula(i)}$

$\text{Product Formula(i)} = \text{ConstantRedemptionLevel_AERA(i)} + \text{Max}(\text{Coupon_AERA(i)} ; \text{Participation(i)} \times \text{ReferenceFormula_AERA(i)})$

- “ReferenceFormula_Coupon” means that the Reference Formula of the Product is used to determine the Final Redemption Amount of the Product and the Product Formula, the Option and/or one or several Specific Definitions necessary to the determination of the Final Redemption Amount contain the instruction “ReferenceFormula_Coupon”;

For example, for the product 3.5.1 "Accumulator", the paragraph "Reference Formula(e)" indicates "ReferenceFormula_Coupon" means that a Reference Formula is used to determine the Structured Interest Amount and the paragraph "Structured Interest" indicates:

Structured Interest Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = Max(Floor(i) ; Min(Cap(i) ; Participation(i) x **ReferenceFormula_Coupon**(RVD(i))))

(ii) on the other side, the value of the applicable Reference Formulae and/or the ones most likely to be applicable to the Product can have; in each case, the paragraph "Reference Formula(e)" will indicate the Family to which belongs the Reference Formula (e.g. if Reference Formula = Average Time Level, indicate "(as defined in condition 4.9 "Time Level Family)").

A Reference Formula will be used to determine either Reference Price(s), Reference Performance(s), Reference Level(s) or Reference Fixing(s).

For the avoidance of doubt, when Reference Formula(e) is/are not relevant for a Product, it shall not appear in the applicable Final Terms of this Product.

Any Reference Formula indicated in Condition 4. below may also, in respect of a Product Formula, be used to be expressed as "Sum of ReferenceFormula", "Difference of ReferenceFormula" or "ReferenceFormula – 100%" or "100%,- ReferenceFormula" or be expressed as a negative component (and be preceded by the sign"-").

Any Reference Formula defined in a currency other than the Specified Currency may be converted into the Specified Currency based on the applicable Foreign Exchange Rate between the currency of the Product Formula and the Specified Currency.

Reference Formula(e) which are defined in brackets "[...]" are optional.

Description of how the value of the Notes can be affected by the value of the Underlying(s)

The Family of Products “Barrier” comprises Products which provide exposure to the positive or negative performance of an Underlying or a Basket of one or several Underlying(s) within a Basket, where the Product Amount(s) are determined based on one or several conditions (categorized in several scenarios). Typically, a condition is satisfied [or not] if the performance or level of an Underlying or Basket of one or several Underlying(s) within a Basket is higher than or equal to [or lower] a pre-defined barrier performance or level. Performance or level of the Underlying or Basket or one or several Underlying(s) within a Basket can be weighted, leveraged, averaged, locked, floored and/or capped.

3.3.0 Generic descriptions, Variable Data, relevant Reference Formula(e) and Specific Definition(s) for Barrier Products

3.3.0.1 Description of Options relating to the Final Redemption Amount of the Products of the Family of Products “Barrier”

Set out below a list of different options relating to the Final Redemption Amount. The clause “Reference of the Product” of the applicable Final Terms will specify the applicable Option, if any, chosen among the options below, used for determining and calculating the Final Redemption Amount.

If settlement by way of physical delivery is applicable in the applicable Final Terms, the applicable Final Terms will mention the definitions defined in the Condition 1.3.2.

OPTION 0: Constant Redemption Level only

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA

Option 0 Description:

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount equal to a predetermined value.

OPTION 1: Final Barrier only

Scenario 1:

If on Valuation Date(RVD(T)), ReferenceFormula_FinalBarrier(T) is [higher] [lower] than [or equal to] FinalBarrier, then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Coupon_FRA_+ Max(FinalFloor_1 ; Min(FinalCap_1 ; FinalParticipation_1 x (ReferenceFormula_Final_1(T) – FinalStrike)))

Scenario 2:

If on Valuation Date(RVD(T)), ReferenceFormula_FinalBarrier(T) is [lower] [higher] than [or equal to] FinalBarrier, then:

If settlement by way of cash:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Max(FinalFloor_2 ; Min(FinalCap_2 ; FinalParticipation_2 x (ReferenceFormula_Final_2(T) – FinalStrike)))

If settlement by way of physical delivery:

Final Redemption Amount = Physical Delivery Amount(T)

Option 1 Description:

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 2 possible:
 - o The occurrence of these scenarios depends upon the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product and of its position compared to a FinalBarrier.
 - o The Final Redemption Amount equals a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a floor and / or cap and / or with a leverage factor.

OPTION 2: Final Barrier and Knock-In feature

Scenario 1:

If on Valuation Date(RVD(T)), ReferenceFormula_FinalBarrier(T) is [higher] [lower] than [or equal to] FinalBarrier, then:

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Coupon_FRA + Max(FinalFloor_1 ; Min(FinalCap_1 ; FinalParticipation_1 x (ReferenceFormula_Final_1(T) – FinalStrike)))

Scenario 2:

If on Valuation Date(RVD(T)), [ReferenceFormula_FinalBarrier(T) is [lower] [higher] than [or equal to] FinalBarrier] [[and] [or] [a European] [an American] Knock-In Event has [not] occurred], then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Max(FinalFloor_2 ; Min(FinalCap_2 ; FinalParticipation_2 x (ReferenceFormula_Final_2(T) – FinalStrike)))

Scenario 3:

If on Valuation Date(RVD(T)), [ReferenceFormula_FinalBarrier(T) is [lower] [higher] than [or equal to] FinalBarrier] [[and] [or] [a European] [an American] Knock-In Event has [not] occurred], then:

If settlement by way of cash:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_3 + Max(FinalFloor_3 ; Min(FinalCap_3 ; FinalParticipation_3 x (ReferenceFormula_Final_3(T) – FinalStrike)))

If settlement by way of physical delivery:

Final Redemption Amount = Physical Delivery Amount(T)

Option 2 Description:

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 3 possible:

Description of how the value of the Notes can be affected by the value of the Underlying(s)

The Family “SYSTEMATIC STRATEGY” comprises Products which provide exposure to the positive performance of a Dynamic Basket made up of a RiskyComponent, a SafeComponent, and when leveraged is used, a Leverage Component. The Dynamic Basket level is determined by iteration depending on the exposure to the RiskyComponent, SafeComponent and Leverage Component (if relevant) and their respective levels. The exposure to the RiskyComponent, SafeComponent and Leverage Component (if relevant) is determined in the Product Formula and as an illustration can be determined in accordance with a constant proportion portfolio insurance or target volatility mechanisms. The Dynamic Basket level can be weighted, leveraged, averaged, locked, floored and/or capped.

If the applicable Final Terms specify that “*Reference of the Product*” is 3.10.1, the following applies:

3.10.1.0 Product Description:

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined according to the occurrence of Credit Event(s).

3.10.1.1 **Structured Interest Amount:** Not Applicable

3. 10.1.2 **Automatic Early Redemption Amount:** Not Applicable

3. 10.1.3 Final Redemption Amount:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel

[If settlement by way of cash:

Provided that if one or more Credit Event Determination Date(s) occur(s) (as such term is defined in the Additional Terms and Conditions for Credit Linked Notes), the Issuer will, on the Maturity Date, redeem each Note at the Cash Redemption Amount, subject to provisions of the Additional Terms and Conditions for Credit Linked Notes.]

Cash Redemption Amount means,

[if Single Name Notes or First-to-Default Notes] an amount, subject to a minimum of zero, equal to the product of the Final Value multiplied by the Nominal Amount of each Note, minus the Unwind Costs in respect of the Credit Event Determination Date.

[If Basket Notes or Tranche Notes], an amount, subject to a minimum of zero, equal for each Note to (i) the Relevant Proportion of the difference between the Aggregate Nominal Amount and the Aggregate

Loss Amount minus (ii) the aggregate of the Unwind Costs calculated in respect of all Credit Event Determination Dates, as at the Maturity Date.

[If settlement by way of physical delivery only applicable for Single Name Notes and First-to-Default Notes:

provided that if one or more Credit Event Determination Date(s) occur(s) (as such term is defined in the Additional Terms and Conditions for Credit Linked Notes), the Issuer will, on the Maturity Date, deliver the Physical Delivery Amount to the Noteholders, subject to provisions of the Additional Terms and Conditions for Credit Linked Notes.]

[If the provisions of Part A (2009 definitions) of the Additional Terms and Conditions for Credit Linked Notes apply: **Physical Delivery Amount** means, for each Note, Specified Deliverable Obligations (as such term is defined in the Additional Terms and Conditions for Credit Linked Notes) with an outstanding principal balance, excluding accrued interest, equal to (i) the Nominal Amount or, if applicable, the Partial Redemption Amount in case of the occurrence of a Restructuring (see Condition 1.4 of the Additional Terms and Conditions for Credit Linked Notes) or the Multiple Successor Notional Amount (see Condition 1.5 of the Additional Terms and Conditions for Credit Linked Notes), minus (ii) the equivalent of the Specified Deliverable Obligations whose market value is equal to the Unwind Costs, subject to a minimum of zero. If the number of Specified Deliverable Obligations that the Issuer can Deliver is not an integer then, in respect of each Note, the Physical Delivery Amount will include, in addition to the whole number of Specified Deliverable Obligations that can be Delivered (and having an outstanding principal balance equal to or less than the outstanding principal balance of the Physical Delivery Amount), an amount (to be paid in cash) equal to the market value, excluding accrued interest, of Specified Deliverable Obligations with an outstanding principal balance equal to the difference between (i) the outstanding principal balance of the Physical Delivery Amount and (ii) the outstanding principal balance of the whole number of Specified Deliverable Obligations that can be Delivered, as determined by the Calculation Agent.

Cash Redemption Amount per Undeliverable Obligation means, in respect of one Note and an Undeliverable Obligation (as such term is defined in the Additional Terms and Conditions for Credit Linked Notes), the product of (i) the outstanding principal balance of such Undeliverable Obligation and (ii) the final price of such Undeliverable Obligation determined in accordance with Quotation Dealers Method (save as provided below), divided by the number of Notes in respect of which there are such Undeliverable Obligation.

For the avoidance of doubt, where Illegal or Impossible means the inability to purchase the Specified Deliverable Obligations despite the Issuer's reasonable efforts, the final price of the Undeliverable Obligation will be determined in accordance with Auction Method. If no Transaction Auction Settlement Terms are published on or prior to the Credit Valuation Date, such final price will be deemed to be zero.

[If the provisions of Part B (2014 definitions) of the Additional Terms and Conditions for Credit Linked Notes apply:

Physical Delivery Amount means, for each Note, Specified Deliverable Obligations (as such term is defined in the Additional Terms and Conditions for Credit Linked Notes) with (a) an Outstanding Principal Balance (where such Specified Deliverable Obligations are Borrowed Money) or (b) a Due and Payable Amount (where such Specified Deliverable Obligations are not Borrowed Money), equal to (i) the Nominal Amount or, if applicable, the Partial Redemption Amount in case of the occurrence of a Restructuring (see Condition 1.4) or the Multiple Successor Notional Amount (see Condition 1.5) minus (ii) the equivalent of the Specified Deliverable Obligations whose market value is equal to the Unwind Costs, subject to a minimum of zero. If the number of Specified Deliverable Obligations that the Issuer can Deliver is not an integer then, in respect of each Note, the Physical Delivery Amount will include, in addition to the whole number of Specified Deliverable Obligations that can be Delivered (and having an Outstanding Principal Balance or Due and Payable Amount, as the case may be, equal to or less than the Outstanding Principal Balance or Due and Payable Amount, as the case may be, of the Physical Delivery Amount), an amount (to be paid in cash) equal to the market value of Specified Deliverable

Obligations with an Outstanding Principal Balance or Due and Payable Amount, as the case may be, equal to the difference between (i) the Outstanding Principal Balance or Due and Payable Amount, as the case may be, of the Physical Delivery Amount and (ii) the Outstanding Principal Balance or Due and Payable Amount, as the case may be, of the whole number of Specified Deliverable Obligations that can be Delivered, as determined by the Calculation Agent.

Cash Redemption Amount per Undeliverable Obligation means, in respect of one Note and an Undeliverable Obligation (as such term is defined in the Additional Terms and Conditions for Credit Linked Notes), the product of (i) the Outstanding Principal Balance or Due and Payable Amount (both as defined in the Additional Terms and Conditions for Credit Linked Notes), as applicable, of such Undeliverable Obligation and (ii) the final price of such Undeliverable Obligation determined in accordance with Quotation Dealers Method (save as provided below), divided by the number of Notes in respect of which there are such Undeliverable Obligation.

For the avoidance of doubt, where Illegal or Impossible means the inability to purchase the Specified Deliverable Obligations despite the Issuer's reasonable efforts, the final price of the Undeliverable Obligation will be determined in accordance with Auction Method. If no Transaction Auction Settlement Terms are published on or prior to the Credit Valuation Date, such final price will be deemed to be zero.

The Reference Formulae of the Family of Reference Formulae in sections 4.1 to 4.26 below are used to determine or calculate either (i) a price of the Underlying which is called a Reference Price, (ii) a level of the price of the Underlying which is called a Reference Level, (iii) a performance of the price of the Underlying which is called a Reference Performance and/or (iv) a fixing of a Reference Rate which is called a Reference Fixing.

1) Price, Level or Performance

In sections 4.1 to 4.26 below, (a) when the denomination of a Reference Formula in a Family of Reference Formulae contains the word "Price", such Reference Formula is used to determine a Reference Price, (b) when the denomination of a Reference Formula in a Family of Reference Formulae contains the word "Level", such Reference Formula is used to calculate a Reference Level, (c) when the denomination of a Reference Formula in a Family of Reference Formulae contains the word "Performance", such Reference Formula is used to calculate a Reference Performance and (d) when

the denomination of the Reference Formula in a Family of Reference Formulae contains the word "Fixing", such Reference Formula is used to determine or calculate a Reference Fixing.

Notwithstanding the foregoing in respect of a Product (i) a Reference Formula used to calculate a Reference Level (a "**Base Reference Formula**"), can also be used to determine a Reference Price or to calculate a Reference Performance and in that case its denomination in the Final Terms of the relevant Product shall contain the word Price or Performance (an "**Alternative Reference Formula**"), (ii) a Reference Formula used to calculate a Reference Performance (a "**Base Reference Formula**"), can also be used to determine a Reference Price or to calculate a Reference Level and in that case its denomination in the Final Terms of the relevant Product shall contain the word Price or Level (an "**Alternative Reference Formula**") provided that in each case the Alternative Reference Formula shall be deemed to be part of the same Family of Reference Formulae as the Base Reference Formula.

Example:

Section 4.11 contains the following Reference Formula : **WeightedMaxTimeLevel(i)** means the Sum, for k from 1 to N , of the Product $W(i,k)$ and $MaxTimeLevel(i,k)$ and is used to calculate a level of the Price of the Underlying. The same Reference Formula can also be used to determine a performance of the price of the Underlying and is then expressed in the Final Terms as follows:

WeightedMaxTimePerformance(i) means the Sum, for k from 1 to N , of the Product $W(i,k)$ and $MaxTimePerformance(i,k)$

2) Cap, Floor

When the denomination of a Reference Formula in a Family of Reference Formulae in sections 4.1 to 4.26 below use a Cap and contains the word "Capped", this means that by applying such Reference Formula, the price(s), level(s) or performance(s) of one or more Underlying(s) or fixing(s) of the Reference Rate retained to calculate a Product Amount will be the lower between (i) the Cap and (ii) the actual relevant price(s), level(s) or performance(s) of such Underlying(s) or of the fixing(s) of the Reference Rate. When the denomination of a Reference Formula in a Family of Reference Formulae in sections 4.1 to 4.26 below uses a Floor and contains the word "Floored", this means that by applying such Reference Formula, the price(s), level(s) or performance(s) of one more Underlying(s) or fixing(s) of the Reference Rate retained to calculate a Product Amount will be the higher between (i) the Floor and (ii) the actual relevant price(s), level(s) or performance(s) of such Underlying(s) or of the fixing(s) of the Reference Rate(s).

Notwithstanding the foregoing :

- a) In respect of a Product (i) a Reference Formula the denomination of which uses a Cap and contains the word "Capped" (a "**Base Reference Formula**"), can also be used with a Floor and in that case in the Final Terms of the relevant Product, it shall embed a Floor and its denomination will contain the word "Floored" (an "**Alternative Reference Formula**") and (ii) a Reference Formula the denomination of which uses a Floor and contains the word "Floored" (a "**Base Reference Formula**"), can also be used with a Cap and in that case in the Final Terms of the relevant Product, it shall embed a Cap and its denomination will contain the word "Capped" (an "**Alternative Reference Formula**"). In each case the Alternative Reference Formula shall be deemed to be part of the same Family of Reference Formulae as the Base Reference Formula;

Example:

Section 4.3 contains the following Reference Formula :

BasketLevel(i) means the Sum, for k from 1 to N, of the Product of W(i,k) and Level(i,k).

4.0 Definition of S, SI and FxRate

S(i) or **S(i,k)** means in respect of any Valuation Date(i):

- If the Underlying (respectively Underlying(k)) is a Share, an Index, a SGI Index, an ADR, a GDR, a Dividend, an ETF, a Commodity Index, a Fund, a Foreign Exchange Rate or an Inflation Index, the Closing Price or Opening Price as defined in the relevant Additional Terms and Conditions for the relevant Underlying(s) ; and /or

SI(i) or **SI(i,k)** means in respect of any Valuation Date(i) and for an Underlying (respectively an Underlying(k)) which is a Share, an Index, an American Depositary Receipt (ADR), an Exchange Traded Fund (ETF) or a Commodity, the Intraday Price as defined in the relevant Additional Terms and Conditions for the relevant Underlying(s).

FxRate or **FxRate(i)** or **FXRate(i, X, Y, Price Source, Substitute Price Source, Valuation Time)** means in respect of any Valuation Date(i), the fixing of the foreign exchange rate expressed as X/Y (X and Y are currencies) as ascertained by the Calculation Agent based on the Price Source (as such term is defined in the relevant Additional Terms and Conditions for Foreign Exchange Rate Linked Notes) as of the Valuation Time (as such term is defined in the relevant Additional Terms and Conditions for Foreign Exchange Rate Linked Notes) provided that if no Valuation Time is specified in the applicable Final Terms, Valuation Time is deemed to be the cut-off time commonly used by market participants for this Price Source. If (a) the Price Source (or any page that may be substituted for it) is not available or (b) the fixing of the foreign exchange rate is not available on the Price Source at the Valuation Time, the fixing shall be the foreign exchange rate expressed as X/Y (X and Y are currencies) as ascertained by the Calculation Agent based on the Substitute Price Source (as such term is defined in the relevant Additional Terms and Conditions for Foreign Exchange Rate Linked Notes) at the Valuation Time, failing which if, on the Valuation Date(i) at the Valuation Time, (a) there is no Substitute Price Source defined in the applicable Final Terms, (b) the Substitute Price Source (or any page that may be substituted for it) is not available or (c) the fixing of such foreign exchange rate is not available on the Substitute Price Source at the Valuation Time, then the fixing for the foreign exchange rate will be determined by the Calculation Agent, at its sole discretion, acting in good faith and commercially reasonable manner. For the avoidance of doubt, FxRate or FxRate(i) or FXRate(i, X, Y, Price Source, Substitute Price Source, Valuation Time) will not be used to determine the Closing Price of an Underlying that is a Foreign Exchange Rate.

5. GENERAL DEFINITIONS USED IN THESE ADDITIONAL TERMS AND CONDITIONS RELATING TO FORMULAE

5.1 Generic indices, enumeration and simplification conventions

5.1.1 *Generic indices convention used in Product Formulae definitions*

“**i**” or “**t**” or “**t1**” or “**t2**” means the reference to any date relating to a Valuation Date, Relevant Valuation Date or a date within a relevant Schedule.

“**k**” or “**s**” means the reference to any Underlying specified in the relevant Basket.

“**N**” means the number of Underlyings comprised in the relevant Basket.

“**RVD(i)**” means, in respect of any date(i), the reference to a date (which may be different from date(i))

For illustration purposes, Valuation Date(RVD(i)) may be, in respect of an Interest Payment Date(i), the Valuation Date immediately preceding such Interest Payment Date.

“**t0**” (or “**0**”) means the first Valuation Date or the first date of a relevant Schedule.

“**T**” means the last Valuation Date or the last date of a relevant Schedule.

For the avoidance of doubt, $i-1$, $t-1$, $t1-1$, $t2-1$, or $T-1$ (resp. $t+1$, $t1+1$, $t2+1$, or $T+1$) means the Valuation Date immediately preceding (resp. following) i , t , $t1$, $t2$ or T .

5.1.2 *Enumeration convention*

Enumeration will be generally defined as follows:

The dates within the Reference Formula are defined using the following enumeration “from 0 to t ” and / or “from 1 to t ” and / or “from $t1$ to $t2$ ”. The Reference Formula listed below can be defined with any of such three enumerations, as the case may be to determine the Product Formula.

Illustration

“**MaxTimeBasketLevel(t)**” means the Maximum, for i from 0 to t , of $\text{BasketLevel}(i)$ ”

could be modified in:

“**MaxTimeBasketLevel(t1, t2)**” means the Maximum, for i from $t1$ to $t2$, of $\text{BasketLevel}(i)$.”

“(**i from t1 to t2**)” means any date(i) from and including $t1$ to and including $t2$.

“(**k from 1 to N**)” means any Underlying(k) within a Basket from and including Underlying(1) to and including Underlying(N).

For the avoidance of doubt, lower and upper bounds of enumerations used in Product Formulae definitions can be modified notably (but not only) to take into account specificities of Schedules relating to Products. For instance (i from 0 to T) used in a generic Product Formula can become (i from 1 to $T-1$) for the purpose of defining a Product Formula in respect of a particular Product.

5.1.3 *Simplification convention*

For ease of reading, certain conditions relating to Product Formula(e) as defined herein may be simplified as follows :

Case 1: only one barrier condition is required

For example in respect of the following conditions:

“If on Valuation Date(T), ReferenceFormula_Autocall(T) is lower than [or equal to] AutocallBarrier(T) and ReferenceFormula_Barrier(T) is higher than [or equal to] FinalBarrier, then:”,

If the second condition “ReferenceFormula_Barrier(T) is higher than [or equal to] FinalBarrier” is not required, these conditions may be simplified as follows : “If on Valuation Date(T), ReferenceFormula_Autocall(T) is lower than [or equal to] AutocallBarrier(T), then”.

Case 2: one of the barrier condition is redundant

For example, in respect of the following conditions:

“If on Valuation Date(T), ReferenceFormula_Autocall(T) is lower than [or equal to] AutocallBarrier(T) and ReferenceFormula_Barrier(T) is lower than [or equal to] FinalBarrier, then:”,

If “ReferenceFormula_Autocall(T) is equal to ReferenceFormula_Barrier(T) and FinalBarrier is lower than or equal to AutocallBarrier(T)”, is not required, these conditions may be simplified as follows :

“If on Valuation Date(T), ReferenceFormula_Autocall(T) is lower than [or equal to] FinalBarrier, then”.

Case 3: addition of Variable Data and values determined based on Reference Formulae

For example, in respect of the following Product Formula:

“Product Formula(T) = ConstantRedemptionLevel_FRA + Participation x (ReferenceFormula_Final(T) – Strike)”

If ConstantRedemptionLevel_FRA is equal to 90%, Participation is equal to 100% and Strike is equal to 10%, Product Formula may be simplified as follows:

“Product Formula(T) = 80% + ReferenceFormula_Final(T)”

where:

80% = 90% - 10%

Valuation Time means, in respect of a Share, the Scheduled Closing Time provided however that if the Exchange closes prior to its Scheduled Closing Time, the Valuation Time shall be the actual closing time of the Exchange.

2. CONSEQUENCES OF DISRUPTED DAYS FOR A SHARE

If any Valuation Date or Averaging Date specified in the applicable Final Terms (the **Scheduled Valuation Date** and the **Scheduled Averaging Date** respectively), is a Disrupted Day for a Share, the Valuation Date or the Averaging Date for such Share shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day in respect of that Share, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date or the Scheduled Averaging Date is also a Disrupted Day. In that case:

- A. that eighth Scheduled Trading Day shall be deemed to be the Valuation Date or Averaging Date, for the Share notwithstanding the fact that such day is a Disrupted Day, and
- B. the Calculation Agent shall determine, its good faith estimate of the value of the Share as of the Valuation Time on that eighth Scheduled Trading Day and the good faith estimate of the value of the Share so calculated shall be deemed the Closing Price;

Provided that if the Share is included in a Basket, the hereabove provisions shall apply only to the Share affected by the occurrence of a Disrupted Day and the Valuation Date or the Averaging Date for each Share not affected by a Disrupted Day shall be the Scheduled Valuation Date or the Scheduled Averaging Date.

Provided however that,

- (a) if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Scheduled Trading Day that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the eighth Scheduled Trading Day following the Scheduled Averaging Date a Scheduled Trading Day that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then that eighth Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is also a Scheduled Averaging Date), and the Calculation Agent shall make on that day the determinations described in (B) above, and the good faith estimate of the value of the Share so calculated shall be deemed the Closing Price;
- (b) notwithstanding the foregoing, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date; if a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) would fall after the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or Averaging Date and the Calculation Agent shall make, on that day the determinations described in (B) above at the latest as of the Valuation Time on such fourth Business Day and the good faith estimate of the value of the Share so calculated shall be deemed the Closing Price,

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word “fourth” above shall be deemed to be references to the word “twelfth”, and

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word "fourth" above shall be deemed to be references to the word "tenth".

3. ADJUSTMENTS AND EXTRAORDINARY EVENTS - MONETISATION UNTIL THE MATURITY DATE - HEDGING DISRUPTION, INCREASED COST OF HEDGING, INSOLVENCY FILING AND CONSEQUENCES - CHANGE IN LAW AND CONSEQUENCES

3.1 Adjustments and Extraordinary Events

3.1.1 Potential Adjustment Events

Potential Adjustment Event means, in relation to a Share, any of the following:

- A. a subdivision, consolidation or reclassification of such Share (unless resulting in a Merger Event), including, for the avoidance of doubt, a stock split or reverse stock split, or a free distribution or dividend of any such Shares to existing holders by way of bonus, capitalisation or similar issue;
- B. a distribution, issue or dividend to existing holders of such Share of (a) such Shares, (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Company equally or proportionately with such payments to holders of such Shares, (c) share capital, other securities of another issuer acquired or owned (directly or indirectly) by the Company as a result of a spin-off or other similar transaction, or (d) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price as determined by the Calculation Agent;
- C. an extraordinary dividend as determined by the Calculation Agent;
- D. a call by the Company in respect of Shares that are not fully paid;
- E. a repurchase by the Company or any of its subsidiaries of Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- F. an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of the Company pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value, as determined by the Calculation Agent provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights; or
- G. any other event having, in the opinion of the Calculation Agent, a diluting or concentrative effect on the theoretical value of the Shares.

Following the occurrence of any Potential Adjustment Event as defined above, the Calculation Agent will, as soon as reasonably practicable after it becomes aware of such event determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Share and, if so, will (a) calculate the corresponding adjustment, if any, to be made to the elements relating to the relevant Share used to determine any settlement or payment terms under the Notes and/or adjust any other terms of the Notes as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes and (b) determine the effective date of that adjustment. In its determinations of the existence and extent of any dilutive or concentrative effect on the theoretical value of the Shares of any Potential Adjustment Event, and any related adjustments to the terms of the Notes, the Calculation Agent shall take into account any amounts of Local Taxes that would, in the determination of the Calculation Agent, be withheld from or paid or otherwise incurred by an Offshore Investor in connection with such Potential Adjustment Event. The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential

Adjustment Event made by a Related Exchange to options on the Share traded on such Related Exchange.

Definitions applicable to this Condition 3.1.1:

Local Taxes shall mean taxes, duties, and similar charges imposed by the taxing authority of the country in which the Company has been incorporated or in which the Exchange on which the Share is listed is located.

Offshore Investor shall mean a holder of Shares who is an institutional investor not resident in the country in which the Company has been incorporated or in which the Exchange on which the Share is listed is located (the **Local Jurisdiction**), for the purposes of the tax laws and regulations of the Local Jurisdiction and, for the avoidance of doubt, whose jurisdiction of residence (a) shall be determined by the Calculation Agent and (b) may be the jurisdiction of Société Générale or any of its affiliates.

3.1.2 **Extraordinary Events**

- A. Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of the opening of an Offering Period relating to a Merger Event, a De-merger Event, a De-listing Event, an Insolvency, a Nationalization or a Participation Event, in respect of a Share (an **Affected Share**), then during such Offering Period, the Calculation Agent may decide in good faith to apply Method of Substitution with respect to the Affected Share.
- B. If the Calculation Agent decides not to apply Method of Substitution during the Offering Period with respect to the Affected Share, then:
- (a) in respect of a Merger Event, from the Merger Date, and/or upon consummation of the Merger Event, until the sixtieth Business Day thereafter, the Calculation Agent, acting in good faith, shall apply either:
 - (i) Share-for-Share Merger Event: Alternative Obligation and/or Method of Substitution or Monetisation until the Maturity Date or Early Redemption;
 - (ii) Share-for-Other Merger Event: Alternative Obligation and/or Method of Substitution or Monetisation until the Maturity Date or Early Redemption; or
 - (iii) Share-for-Combined Merger Event: Alternative Obligation and/or Method of Substitution or Monetisation until the Maturity Date or Early Redemption;
 - (b) in the case of a Merger Event affecting two Shares comprised in a Basket, the Calculation Agent will either:
 - (i) continue with the share resulting from the Merger Event and in order to maintain the original number of companies in the Basket, a Substitute Share or Substitute ADR (as applicable) will be elected and included in the Basket;
 - (ii) substitute both Shares with two Substitute Shares or Substitute ADR selected as described in the Method of Substitution; or
 - (iii) apply the Monetisation until the Maturity Date; or
 - (iv) apply the Early Redemption;
 - (c) in respect of a De-merger Event, from the De-merger Date, and/or upon consummation of the De-merger Event, until the sixtieth Business Day thereafter, the Calculation Agent, acting in good faith, will either:
 - (i) replace the Affected Share with the shares or American depository receipts of the successor companies;

- (ii) substitute one or more share(s) or American depository receipt(s) resulting from such De-merger Event pursuant to the Method of Substitution; or
- (iii) apply the Monetisation until the Maturity Date; or
- (iv) apply the Early Redemption;

it being understood that, in the case of a Basket, the Calculation Agent shall maintain the initial number of companies in the Basket and that in the case where the Calculation Agent has elected to substitute the Affected Share with several shares or American depository receipts resulting from such De-merger Event, such shares or American depository receipts shall be placed in a sub-basket and considered as one component of the Basket;

- (d) in respect of a De-listing Event or a Nationalization, from the effective date of such event, until the sixtieth Business Day thereafter, the Calculation Agent, acting in good faith, may, but is not obliged to, apply the Method of Substitution or the Monetisation until the Maturity Date or the Early Redemption;
- (e) in respect of an Insolvency, the Calculation Agent will decide, either:
 - (i) that the Affected Share will be substituted pursuant to the Method of Substitution; or
 - (ii) that the value of the relevant component in the formula used to determine the amount to be paid or whether a condition has occurred, if any, as described in the applicable Final Terms, representing the Affected Share will be accounted by the Calculation Agent for its fair market value determined at any time as from the date of occurrence of such Insolvency until the last Valuation Date or the last Averaging Date. The determination of the fair market value shall depend upon the liquidity of the market and the trading conditions relating to the Share affected at the time of calculation; or
 - (iii) to apply the Monetisation until the Maturity Date; or
 - (iv) to apply the Early Redemption; and
- (f) in respect of a Participation Event from the effective date of such event until the sixtieth Business Day thereafter, the Calculation Agent may, but is not obliged to, select a Substitute Share or Substitute ADR for the Affected Share pursuant to the Method of Substitution.

- C. Notwithstanding anything herein to the contrary, the Calculation Agent shall use its reasonable endeavours at all times to maintain the original number of companies in the Basket as Companies hereunder.

Definitions applicable to this Condition 3.1.2:

Alternative Obligation means:

- A. if, in respect of a Share-for-Share Merger Event, the Calculation Agent decides to apply Alternative Obligation, then on or after the relevant Merger Date the New Shares and the issuer of such New Shares will be deemed the **Shares** and the Company, respectively, and, if necessary, the Calculation Agent will adjust any relevant terms of the Notes on the basis of the number of New Shares (as subsequently modified in accordance with any relevant terms and including the proceeds of any redemption, if applicable) to which a holder of the relevant number of Shares immediately prior to the occurrence of the Merger Event would be entitled upon consummation of the Merger Event;
- B. if, in respect of a Share-for-Other Merger Event, the Calculation Agent decides to apply Alternative Obligation, then on or after the relevant Merger Date, the Calculation Agent will adjust any relevant terms of the Notes on the basis of the amount of Other Consideration (as subsequently modified in accordance with any relevant terms and including the proceeds of any redemption, if applicable) to

which a holder of the relevant number of Shares would be entitled upon consummation of the Merger Event and, if necessary, any relevant terms of the Notes; and

- C. if, in respect of a Share-for-Combined Merger Event, the Calculation Agent decides to apply Alternative Obligation, then on or after the Merger Date the New Shares and the Other Consideration will be deemed the **Shares** and the issuer of the New Shares will be deemed the Company respectively, and, if necessary, the Calculation Agent will adjust any relevant terms of the Notes on the basis of the number of New Shares and the amount of Other Consideration (as subsequently modified in accordance with any relevant terms and including the proceeds of any redemption, if applicable) to which a holder of the relevant number of Shares would be entitled upon consummation of the Merger Event.

Combined Consideration means New Shares in combination with Other Consideration.

De-listing Event means, in respect of a Share, that such Share: (a) ceases to be listed, traded or publicly quoted on the relevant Exchange or listing compartment of the relevant Exchange (for any reason other than a Merger Event or a tender offer) and is not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as the Exchange (or where the Exchange is within the European Union, in any Member State of the European Union) or (b) has its listing, trading or public quotation maintained in inappropriate conditions in the opinion of the Calculation Agent (such conditions to include, without limitation, a lack of liquidity or the disappearance of the relevant futures and/or option contract of the relevant Share).

De-merger Event means, in respect of any Share, that the Company relevant to such Share is affected by a de-merger including, without limitation, a spin off, *scission* or any operation of a similar nature.

De-merger Date means the date on which a De-merger Event becomes effective.

Early Redemption means that there will be an early redemption of the Notes on the basis of Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes.

Fixing Period means the period subject to a maximum of ten Exchange Business Days, which shall expire no later than 90 Business Days following the Merger Date, the De-merger Date or the effective date of the De-listing Event, Nationalization, Insolvency or Participation Event) during which:

- A. Société Générale or any of its affiliates sells the Affected Shares, the New Shares and/or the Other Consideration, (as the case may be), on the basis of the weighted average of the closing prices of the relevant assets traded by Société Générale or any of its affiliates with regards to the relevant Notes, as observed during such Fixing Period; and
- B. the proceeds of such sale are re-invested in the Substitute Shares, Substitute ADR and/or New Shares accordingly during the said Fixing Period on the basis of the weighted average of the closing prices of such Substitute Shares, Substitute ADR and/or New Shares traded by Société Générale or any of its affiliates with regards to the relevant Notes, as observed during such Fixing Period.

Insolvency means, in respect of a Company, voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of, or any analogous proceeding affecting, such Company, as determined in good faith by the Calculation Agent.

Merger Date means, in respect of a Share, the date upon which holders of the necessary number of the relevant Shares (other than, in the case of a takeover offer, Shares owned or controlled by the offeror) to constitute a Merger Event have agreed or have irrevocably become obliged to transfer their Shares.

Merger Event means, in respect of any Share:

- A. any reclassification or change of such Share (including the change of currency reference of the Share) that results in a transfer of or an irrevocable commitment to transfer all of such Share outstanding to another entity or person;

- B. any consolidation, amalgamation, merger or binding share exchange of the relevant Company with or into another entity (other than a consolidation, amalgamation or merger in which such Company is the continuing entity and which does not result in a reclassification or change of all of such Shares outstanding);
- C. other take-over offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Shares that results in a transfer of or an irrevocable commitment to transfer all or part of such Shares (other than any of such Shares owned or controlled by the offeror);
- D. any consolidation, amalgamation, merger or binding share exchange of the relevant Company or its subsidiaries with or into another entity in which such Company is the continuing entity and which does not result in a reclassification or change of all of such Shares outstanding but results in the outstanding Shares (other than Shares owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Shares immediately following such event; or
- E. take-over offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 10 per cent. and less than 100 per cent. of the outstanding voting shares of the Company, as determined by the Calculation Agent based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant.

Method of Substitution means that in the case of a Merger Event, De-merger Event, De-listing Event, Nationalization, Insolvency or Participation Event (regardless of the consideration to be received), in respect of an Affected Share, the Calculation Agent may consider that the Affected Share, the New Shares and/or, all or part of the Other Consideration (as the case may be) is/are converted into cash and that the proceeds will be reinvested either (a) into a new share or an American depositary receipt of the same economic sector or into a share or an American depositary receipt issued by a company of a similar international standing or creditworthiness as the Company related to the Affected Share (the **Substitute Share** or the **Substitute ADR**, as the case may be) or (b) in the case of Combined Consideration into New Shares. In the event of Other Consideration to be received in cash, in the future, the Calculation Agent may consider that the cash to be received in the future is discounted in order to immediately re-invest the proceeds then procured in accordance with (a) and (b) above.

The sale of the Affected Share, the New Shares and/or the Other Consideration shall be deemed to take place during the Fixing Period. The Substitute Share or the Substitute ADR, as the case may be, and the company issuing such Substituted Share (or, in the case of an American depositary receipt, the company issuing the deposited securities related to such American depositary receipt) will be deemed a **Share** and the **Company** respectively, and the Calculation Agent will adjust any relevant terms of the Notes.

For information purposes, it is understood that in all cases described herein where a Share is substituted, on any date "t", with a Substitute Share or Substitute ADR, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Final Terms, shall not be affected by the substitution on such date "t" in respect of the Substitute Share or Substitute ADR and would mean the closing price of such Substitute Share or Substitute ADR on the relevant Exchange on the date "t" is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected Share on such date "t".

Nationalization means that all the Shares or all or substantially all of the assets of a Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof.

New Shares means shares or American depositary receipts (whether of the offeror or a third party) that are listed or quoted on a recognised exchange involved in the application of Method of Substitution or Alternative Obligation as determined by the Calculation Agent.

Offering Period means the period from and including the date on which the Merger Event, the De-listing Event, the De-merger Event, the Insolvency, the Nationalization or the Participation Event is publicly and officially announced to but excluding the Merger Date or the De-merger Date or the effective date of the De-listing Event, the Insolvency, the Nationalization or the Participation Event.

Other Consideration means cash and/or any securities (other than New Shares) or assets (whether of the offeror or a third party).

Participation Event means that a Company (whose Shares form part of a Basket) takes a stake exceeding 20 per cent. of another Company whose Shares (which shall be the Affected Share in respect of such Participation Event) also form part of the Basket.

Share-for-Combined Merger Event means, in respect of a Merger Event, that the consideration for the relevant Shares consists of Combined Consideration.

Share-for-Other Merger Event means, in respect of a Merger Event, that the consideration for the relevant Shares consists solely of Other Consideration.

Share-for-Share Merger Event means, in respect of a Merger Event, that the consideration for the relevant Shares consists (or, at the option of the holder of such Shares, may consist) solely of New Shares.

3.1.3 **Stop-Loss Event relating to a Share**

If on any Exchange Business Day between the initial Valuation Date (excluded) and the last Valuation Date (included), the Closing Price of a Share is affected by a decrease of 80 per cent. or more of its Closing Price on the initial Valuation Date (the **Affected Share** and the event, the **Stop-Loss Event**), then

- A. the Calculation Agent may decide to substitute the Affected Share by a new share or American depository receipt issued by a company of a similar international standing or creditworthiness as the Company related to the Affected Share (the **Substitute Share** or **Substitute ADR**, as the case may be) and will adjust any relevant terms of the Notes accordingly; or
- B. the Calculation Agent may decide to continue with the Affected Share; or
- C. if the Calculation Agent has neither retained any Substitute Share or Substitute ADR nor decided to continue with the Affected Share, the Calculation Agent may either:
 - (a) apply Monetisation until the Maturity Date; or
 - (b) consider such event as an event triggering an early redemption of the Notes. In that case, the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Stop-Loss Event, an Early Redemption Amount on the basis of Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes.

For information purposes, it is understood that in all cases described herein where a Share is substituted, on any date "t", with a Substitute Share or Substitute ADR, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Final Terms, shall not be affected by the substitution on such date "t" in respect of the Substitute Share or Substitute ADR and would mean that the closing price of such Substitute Share or Substitute ADR on the relevant Exchange on the date "t" is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected Share on such date "t".

3.1.4 **Correction of the Closing Price of a Share**

In the event that any price or level published on the Exchange and which is utilised for any calculation or determination made under the Notes is subsequently corrected and the correction is published and made available to the public by the Exchange after the original publication but no later than four

Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Final Terms), the Calculation Agent will determine the amount that is payable as a result of that correction, and, to the extent necessary, will adjust the terms of the Notes to account for such correction,

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word “four” above shall be deemed to be references to the word “twelve”, and
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word “four” above shall be deemed to be references to the word “ten”.

3.2 Monetisation until the Maturity Date

Following the occurrence of an event giving rise to the Monetisation until the Maturity Date, the Issuer shall no longer be liable for the payment of (1) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date and/or (2) the Optional Redemption Amount on the Optional Redemption Date and/or (3) the Final Redemption Amount as defined in the applicable Final Terms on the Maturity Date, but instead will, in full and final satisfaction of its obligations, pay an amount described in Conditions 3.2.1, 3.2.2 and/or 3.2.3 below.

3.2.1 Monetisation of any Intermediate Amount

3.2.1.1 In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which could be as low as zero

Pursuant to the provisions of Condition 3.2, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that Société Générale or any of its affiliates would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded),

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word “fourth” in (y) above shall be deemed to be references to the word “twelfth”, and
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word “fourth” in (y) above shall be deemed to be references to the word “tenth”.

3.3 Hedging Disruption, Increased Cost of Hedging, Insolvency Filing and consequences - Change in Law and consequences

3.3.1 Hedging Disruption, Increased Cost of Hedging and Insolvency Filing and consequences

Hedging Disruption means, in respect of Notes that have one or more Share(s) as Underlying(s), that Société Générale or any of its affiliates is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk (or any other relevant price risk including, but not limited to, the currency risk) of entering into and performing its obligations with respect to the Notes or the agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes; or (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the **Affected Jurisdiction**) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction.

Increased Cost of Hedging means, in respect of Notes that have one or more Share(s) as Underlying(s), that Société Générale or any of its affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Société Générale or any of its affiliates enters into the Hedge Positions in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk of entering into and performing its obligations with respect to the Notes or any agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes or (b) freely realize, recover or remit the proceeds of its Hedge Positions.

Insolvency Filing means, in respect of Notes that have one or more Share(s) as Underlying(s) that the Company institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organization or the jurisdiction of its head home office, or it consents to a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditor's rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official or it consents to such a petition, provided that proceedings instituted or petitions presented by creditors and not consented to by the Company shall not be deemed an Insolvency Filing.

In case of the occurrence of a Hedging Disruption or an Increased Cost of Hedging relating to a Share or of the occurrence of an Insolvency Filing relating to a Share (the **Affected Underlying**), the Calculation Agent may:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or
- B. replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector; or
- C. apply the Monetisation until the Maturity Date (as defined above) ; or, but only in the case of Increased Cost of Hedging:
- D. deduct:

- (i) from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by Société Générale or any of its affiliates, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the "**Reduction Amount**"); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Note is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or
- (ii) in the absence of any Interest Amount in respect of the Notes, (a) from the Optional Early Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero).

Change in Law means in respect of Notes that have one or more Share(s) as Underlying(s) that, on or after the first to occur of (a) the Issue Date and (b) the first Valuation Date of the Notes (i) due to the adoption of any change in any applicable law or regulation (including without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines in good faith that it has become illegal for Société Générale or any of its affiliates to hold, acquire or dispose of Hedge Positions or to maintain the agreement entered into with Société Générale or any of its affiliates by the Issuer of the Notes, relating to the Underlying of the Notes (the **Affected Underlying**).

Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of a Change in Law, the Calculation Agent will decide either:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or
- B. replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector; or
- C. apply the Monetisation until the Maturity Date (as defined above).

In that case:

- A. that eighth Scheduled Trading Day shall be deemed to be the Valuation Date or Averaging Date, for the Index notwithstanding the fact that such day is a Disrupted Day, and
- B. the Calculation Agent shall determine the level of the Index as of the Valuation Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on that eighth Scheduled Trading Day of each security comprised in the Index (or if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that eighth Scheduled Trading Day, its good faith estimate of the value of the relevant security as of the Valuation Time on that eighth Scheduled Trading Day) and the good faith estimate of the value of the level of the Index so calculated shall be deemed the Closing Price;

Provided that if the Index is included in a Basket, the hereabove provisions shall apply only to the Index affected by the occurrence of a Disrupted Day and the Valuation Date or the Averaging Date for each Index not affected by a Disrupted Day shall be the Scheduled Valuation Date or the Scheduled Averaging Date.

Provided however that,

- (a) if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Scheduled Trading Day that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the eighth Scheduled Trading Day following the Scheduled Averaging Date a Scheduled Trading Day that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then that eighth Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is also a Scheduled Averaging Date), and the Calculation Agent shall make on that day the determinations described in (B) above, and the good faith estimate of the level of the Index so calculated shall be deemed the Closing Price;

- (b) notwithstanding the foregoing, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date; if a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) would fall after the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or Averaging Date and the Calculation Agent shall make, on that day the determinations described in (B) above at the latest as of the Valuation Time on such fourth Business Day and the good faith estimate of the level of the Index so calculated shall be deemed the Closing Price,

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word “fourth” above shall be deemed to be references to the word “twelfth”, and
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word “fourth” above shall be deemed to be references to the word “tenth”.

3. ADJUSTMENTS AND EVENTS - MONETISATION UNTIL THE MATURITY DATE - HEDGING DISRUPTION, INCREASED COST OF HEDGING AND CONSEQUENCES - CHANGE IN LAW AND CONSEQUENCES

3.1 Adjustments and Events

3.1.1 Adjustments

A. If an Index is:

- (a) not calculated and announced by the relevant Index Sponsor or the Index Calculation Agent as the case may be, but is calculated and announced by a relevant successor sponsor (the **Successor Index Sponsor**) or a successor calculation agent (the **Successor Index Calculation Agent**) acceptable to the Calculation Agent; or
- (b) replaced by a successor index (the **Successor Index**) using, in the determination of the Calculation Agent, the same or a substantially similar formula for, and method of, calculation as used in the calculation of that Index;

then the Index will be deemed to be the index so calculated and announced by the relevant Successor Index Sponsor or Successor Index Calculation Agent or that Successor Index (as the case may be).

B. If, in the determination of the Calculation Agent:

- (a) on or prior to a Valuation Date or an Averaging Date, the relevant Index Sponsor (or if applicable the Successor Index Sponsor) makes a material change in the formula for, or the method of calculating, that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent securities and capitalisation and other routine events);
- (b) on or prior to any Valuation Date or Averaging Date, the relevant Index Sponsor (or, if applicable, the relevant Successor Index Sponsor) or the Index Calculation Agent (or the Successor Index Calculation Agent) as the case may be, fails to calculate and publish the level of the Index and such failure is likely to have a material impact on the hedge of Société Générale in connection with the Notes; or

- (c) the Index Sponsor (or, if applicable, the Successor Index Sponsor) permanently cancels the Index and no Successor Index exists;

then the Calculation Agent shall either:

- (x) calculate the relevant formula used to determine an amount to be paid or whether a condition has occurred, if any, as described in the applicable Final Terms using, *in lieu* of a published level for the Index, the level of that Index as at the Valuation Time on the relevant Valuation Date or Averaging Date, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to that change, failure or cancellation, but using only those securities that comprised that Index immediately prior to that change, failure or cancellation (other than those securities that have since ceased to be listed on any relevant Exchange); or
- (y) replace the Index by a new index provided that such index is (a) representative of the same economic or geographic sector (as the case may be), and (b) to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries.

If the Calculation Agent has not retained (x) and if in (y) no index meeting the criteria (a) and (b) can be selected by the Calculation Agent, then the Calculation Agent may either:

- (i) apply Monetisation until the Maturity Date; or
- (ii) consider such event as an event triggering an early redemption of the Notes. In that case, the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of any of the events described in B.(a), B.(b) or B.(c) above, an Early Redemption Amount on the basis of Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes.

- C. If an Index merges with another index or if an Index which forms part of the Basket merges with another index which does not form part of the Basket (the **Event**), the Calculation Agent will either:

- (x) continue using the index resulting from the merger; or
- (y) replace the Index with another index (the **New Index**); as long as the New Index is (a) representative of the same economic or geographic sector (as the case may be) and (b) to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries.

If the Calculation Agent has not retained (x) and if in (y) no index meeting the criteria (a) and (b) can be selected by the Calculation Agent, then the Calculation Agent may either

- (i) apply Monetisation until the Maturity Date; or
- (ii) consider such event as an event triggering an early redemption of the Notes. In that case, the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Event described in (C) above, an Early Redemption Amount on the basis of Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes.

- D. In the case of a merger affecting two Indices comprised in a Basket (the **Event**), the Calculation Agent will either:

- (a) continue using the index resulting from the merger and, in order to maintain the same number of indices within the Basket, the Calculation Agent will select a further index (a **New Index**) to be included in the Basket, as long as such New Index is (i) representative of the same economic or geographic sector (as the case may be) and (ii) to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries; or

- (b) replace both Indices with two other indices (each a **New Index**); as long as each New Index is
 - (i) representative of the same economic or geographic sector (as the case may be) and
 - (ii) to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries.

If the Calculation Agent has not retained (a) and if in (b) no index meeting the criteria (i) and (ii) can be selected by the Calculation Agent, then the Calculation Agent may either

- (i) apply Monetisation until the Maturity Date; or
- (ii) consider such event as an event triggering an early redemption of the Notes. In that case, the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Event described in (D) above, an Early Redemption Amount on the basis of Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes.

E. If an Index is split into two or more new indices (the **Event**), the Calculation Agent will, either:

- (a) use the indices resulting from the split to determine an index equivalent to the one existing prior to the split (provided that the indices resulting from the split will be deemed to form together the **New Index**); or
- (b) replace the split Index with a new index (a **New Index**) as long as such New Index is
 - (i) representative of the same economic or geographic sector (as the case may be), and
 - (ii) to the extent possible representative of shares listed on one or more Exchanges of one or more OECD countries.

If the Calculation Agent has not retained (a) and if in (b) no index meeting the criteria (i) and (ii) can be selected by the Calculation Agent, then the Calculation Agent may either

- (i) apply Monetisation until the Maturity Date; or
- (ii) consider such event as an event triggering an early redemption of the Notes. In that case, the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Event described in (E) above, an Early Redemption Amount on the basis of Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes.

F. In the case of a Basket of Indices, in the event that shares forming part of one Index comprising the Basket represent at least 20 per cent. of the capitalisation of another Index forming part of the Basket (the **Affected Index**) (the **Event**), the Calculation Agent may, but is not obliged to, replace such Affected Index with a new index as long as such new index is

- (a) representative of the same economic or geographic sector (as the case may be), and
- (b) to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries.

If no index meeting the criteria (a) and (b) can be selected by the Calculation Agent, then the Calculation Agent may either

- (i) apply Monetisation until the Maturity Date; or
- (ii) consider such event as an event triggering an early redemption of the Notes. In that case, the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Event, described in this (F), an Early Redemption Amount on the basis of Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes.

G. In the event that an Index ceases to be the underlying of a futures and/or option contract (as the case may be) (the **Event**), the Calculation Agent may, but is not obliged to, replace such Index with a new index as long as such new index is

- (a) representative of the same economic or geographic sector (as the case may be), and
- (b) to the extent possible, representative of shares listed on one

or more Exchanges of one or more OECD countries. If no index meeting the criteria (a) and (b) can be selected by the Calculation Agent, then the Calculation Agent may either

- (i) apply Monetisation until the Maturity Date; or
- (ii) consider such event as an event triggering an early redemption of the Notes. In that case, the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Event described in this (G), an Early Redemption Amount on the basis of Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes.

3.1.2 **Stop-Loss Event relating to an Index**

If on any Exchange Business Day after the initial Valuation Date (excluded) and before the last Valuation Date (included), the Closing Price of an Index is affected by a decrease of 80 per cent. or more of its Closing Price on the initial Valuation Date (the **Affected Index** and the event, the **Stop-Loss Event**), then:

- A. the Calculation Agent may decide to substitute the Affected Index by a new index representative of the same economic or geographic sector (as the case may be), and to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries (the **Substitute Index**) and will adjust any relevant terms of the Notes accordingly; or
- B. the Calculation Agent may decide to continue with the Affected Index; or
- C. if the Calculation Agent has neither retained any Substitute Index nor decided to continue with the Affected Index, the Calculation Agent may either:
 - (a) apply Monetisation until the Maturity Date; or
 - (b) consider such event as an event triggering an early redemption of the Notes. In that case, the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Stop-Loss Event, an Early Redemption Amount on the basis of Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes.

3.1.3 **Correction of the Closing Price of an Index**

In the event that any price or level published on the Exchange or by the Index Sponsor and which is used for any calculation or determination made under the Notes is subsequently corrected and the correction is published and made available to the public by the Exchange or the Index Sponsor after the original publication but no later than four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Final Terms), the Calculation Agent will determine the amount that is payable as a result of that correction, and, to the extent necessary, will adjust the terms of the Notes to account for such correction,

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word “four” above shall be deemed to be references to the word “twelve”, and
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word “four” above shall be deemed to be references to the word “ten”.

3.2 **Monetisation until the Maturity Date**

Following the occurrence of an event giving rise to the Monetisation until the Maturity Date, the Issuer shall no longer be liable for the payment of (1) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date and/or (2) the Optional Redemption Amount on the Optional Redemption Date and/or (3) the Final Redemption Amount as defined in the applicable Final Terms on the Maturity Date, but instead will, in full and final satisfaction of its obligations, pay an amount described in Conditions 3.2.1, 3.2.2 and/or 3.2.3 below.

3.2.1 Monetisation of any Intermediate Amount

3.2.1.1 *In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which could be as low as zero*

Pursuant to the provisions of Condition 3.2, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that Société Générale or any of its affiliates would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded),

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word “fourth” in (y) above shall be deemed to be references to the word “twelfth”, and

3.2.1.2 *in respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which cannot be in any case lower than an amount strictly positive (the **Minimum Intermediate Amount**)*

Pursuant to the provisions of Condition 3.2, the Issuer shall pay (1) on the Intermediate Payment Date an amount per Note equal to the Minimum Intermediate Amount and (2) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

- (i) (a) the net positive cash amount that Société Générale or any of its affiliates would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the

Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded),

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word “fourth” in (y) above shall be deemed to be references to the word “twelfth”,

3.3 Hedging Disruption, Increased Cost of Hedging and consequences - Change in Law and consequences

3.3.1 Hedging Disruption and Increased Cost of Hedging and consequences

Hedging Disruption means, in respect of Notes that have one or more Index(ices) as Underlying(s), that Société Générale or any of its affiliates is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk (or any other relevant price risk including, but not limited to, the currency risk) of entering into and performing its obligations with respect to the Notes or the agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes; or (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the

Affected Jurisdiction) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction.

Increased Cost of Hedging means, in respect of Notes that have one or more Index(ices) as Underlying(s), that Société Générale or any of its affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Société Générale or any of its affiliates enters into the Hedge Positions in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk of entering into and performing its obligations with respect to the Notes or any agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes or (b) freely realize, recover or remit the proceeds of its Hedge Positions.

In case of the occurrence of a Hedging Disruption or an Increased Cost of Hedging relating to an Index (the **Affected Underlying**), the Calculation Agent may:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or
- B. replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector; or
- C. apply the Monetisation until the Maturity Date (as defined above); or, but only in the case of Increased Cost of Hedging:
- D. deduct:
 - (i) from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by Société Générale or any of its affiliates, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the **"Reduction Amount"**); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Note is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Structured Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or
 - (ii) in the absence of any Interest Amount in respect of the Notes, (a) from the Optional Early Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero).

3.3.2 **Change in Law and consequences**

Change in Law means in respect of Notes that have one or more Index(ices) as Underlying(s) that, on or after the first to occur of (a) the Issue Date and (b) the first Valuation Date of the Notes (i) due to the adoption of any change in any applicable law or regulation (including without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines in good faith that it has become illegal for Société Générale or any of its affiliates to hold, acquire or dispose of Hedge Positions or to maintain the agreement entered into with Société Générale or any of its affiliates by the Issuer of the Notes, relating to the Underlying of the Notes (the **Affected Underlying**).

Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of a Change in Law, the Calculation Agent will decide either:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined Condition 5.8 of the General Terms and Conditions of the Notes; or
- B. replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector; or
- C. apply the Monetisation until the Maturity Date (as defined above).

then in each case that index published by the Successor Index Calculation Agent or Similar Index will be deemed to be the SGI Index so calculated and announced.

B. If, in the determination of the Calculation Agent:

- (a) on or prior to any Valuation Date or Averaging Date, the relevant Index Sponsor and/or Index Calculation Agent announce(s) that it/they will make a material change in the formula for or the method of calculating that SGI Index or in any other way materially modifies that SGI Index (other than a modification prescribed in that formula or method to maintain that SGI Index in the event of changes in Index Components and other routine events) (an **Index Modification**); or
- (b) the Index Sponsor permanently cancels the SGI Index and no Similar Index exists or the agreement between the Index Calculation Agent and the Index Sponsor is terminated (an **Index Cancellation**); or
- (c) on any Valuation Date or Averaging Date, the Index Calculation Agent fails to publish the Closing Price of the SGI Index other than as a result of the occurrence of a Market Disruption Event (an **Index Disruption** and together with an Index Modification and an Index Cancellation, each an **Index Adjustment Event**);

then the Calculation Agent shall either:

- (w) calculate the relevant formula used to determine an amount to be paid or whether a condition has occurred, if any, as described in the applicable Final Terms using, in lieu of a published level for the SGI Index, the level of that SGI Index on the relevant Valuation Date or Averaging Date as determined by the Calculation Agent in accordance with the formula for and method of calculating that SGI Index last in effect prior to that Index Adjustment Event, but using only those Index Components that comprised the SGI Index immediately prior to that Index Adjustment Event (other than those Index Components that have since then ceased to be listed on any relevant Exchange), and adjust, as the case may be, any of the relevant terms of the Notes; or
- (x) replace the SGI Index by a Similar Index (except for the case described in (b) above); or
- (y) consider such Index Adjustment Event as an event triggering an early redemption of the Notes (hereafter an **Early Redemption Event**). In the case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and pay to each Noteholder as soon as possible after the occurrence of any of the events described in B.(a), B.(b) or B.(c) above, an Early Redemption Amount on the basis of Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or
- (z) apply the Monetisation until the Maturity Date (as defined below).

3.1.2 **Stop-Loss Event relating to a SGI Index**

If, on any Exchange Business Day after the initial Valuation Date (excluded) and before the last Valuation Date (included), the Closing Price of a SGI Index is affected by a decrease of 80 per cent. or more of its Closing Price on the initial Valuation Date (the **Affected SGI Index** and the event, the **Stop-Loss Event**), then the Calculation Agent may decide to:

- A. substitute the Affected SGI Index by a Similar Index and will adjust any relevant terms of the Notes accordingly; or
- B. continue with the Affected SGI Index; or
- C. consider such event as an event triggering an early redemption of the Notes (hereafter an **Early Redemption Event**). In the case where an Early Redemption Event occurs, the Issuer shall

terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Stop-Loss Event, an Early Redemption Amount on the basis of Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or

D. continue the Notes according to their terms.

3.1.3 **Correction of the Closing Price of a SGI Index**

In the event that any price or level published by the Index Calculation Agent and which is used for any calculation or determination made under the Notes is subsequently corrected and the correction is published and made available to the public by the Index Calculation Agent after the original publication but no later than four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Final Terms), the Calculation Agent will determine the amount that is payable as a result of that correction, and, to the extent necessary, will adjust the terms of the Notes to account for such correction,

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word “four” above shall be deemed to be references to the word “twelve”,

3.2 **Monetisation until the Maturity Date**

Following the occurrence of an event giving rise to the Monetisation until the Maturity Date, the Issuer shall no longer be liable for the payment of (1) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date and/or (2) the Optional Redemption Amount on the Optional Redemption Date and/or (3) the Final Redemption Amount as defined in the applicable Final Terms on the Maturity Date, but instead will, in full and final satisfaction of its obligations, pay an amount described in Conditions 3.2.1, 3.2.2 and/or 3.2.3 below.

3.2.1 **Monetisation of any Intermediate Amount**

3.2.1.1 *In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which could be as low as zero*

provided however that

3.3 Hedging Disruption, Increased Cost of Hedging and consequences - Change in Law and consequences

3.3.1 Hedging Disruption and Increased Cost of Hedging and consequences

Hedging Disruption means, in respect of Notes that have one or more SGI Index(ices) as Underlying(s), that Société Générale or any of its affiliates is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk (or any other relevant price risk including, but not limited to, the currency risk) of entering into and performing its obligations with respect to the Notes or the agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes; or (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the **Affected Jurisdiction**) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction.

Increased Cost of Hedging means, in respect of Notes that have one or more SGI Index(ices) as Underlying(s), that Société Générale or any of its affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Société Générale or any of its affiliates enters into the Hedge Positions in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) or costs specified in the Index Rules to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk of entering into and performing its obligations with respect to the Notes or any agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes or (b) freely realize, recover or remit the proceeds of its Hedge Positions.

In case of the occurrence of a Hedging Disruption or an Increased Cost of Hedging relating to a SGI Index (the **Affected Underlying**), the Calculation Agent may:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or
- B. replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector and which will be a Similar Index; or
- C. apply the Monetisation until the Maturity Date (as defined above); or, but only in the case of Increased Cost of Hedging:.
- D. deduct:
 - (i) from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost Hedging, the amount of any new or any increase of, any tax,

duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by Société Générale or any of its affiliates, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the "**Reduction Amount**"); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Note is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or

- (ii) in the absence of any Interest Amount in respect of the Notes, (a) from the Optional Early Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero).

3.3.2 **Change in Law and consequences**

Change in Law means in respect of Notes that have one or more SGI Index(ices) as Underlying(s) that, on or after the first to occur of (a) the Issue Date and (b) the first Valuation Date of the Notes (i) due to the adoption of any change in any applicable law or regulation (including without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines in good faith that it has become illegal for Société Générale or any of its affiliates to hold, acquire or dispose of Hedge Positions or to maintain the agreement entered into with Société Générale or any of its affiliates by the Issuer of the Notes, relating to the Underlying of the Notes (the **Affected Underlying**).

Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of a Change in Law, the Calculation Agent will decide either:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or
- B. replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector and which will be a Similar Index; or
- C. apply the Monetisation until the Maturity Date (as defined above).

Exchange(s) means, in respect of an ADR or a GDR, the corresponding exchange or quotation system specified in the applicable Final Terms, or any successor exchange or quotation system or any substitute exchange or quotation system to which trading in the ADR or the GDR, has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to such ADR or GDR, on such temporary substitute exchange or quotation system as on the original Exchange). In respect of Deposited Securities, **Exchange** means the primary exchange or market of trading of such Deposited Securities.

Exchange Business Day means, in respect of an ADR or a GDR, (or, in the case of a Basket of ADR and/or GDR, in respect of any ADR and/or GDR comprising the Basket and observed separately) any Scheduled Trading Day on which each relevant Exchange and Related Exchange are open for trading

during their respective regular trading sessions, notwithstanding any such Exchange or Related Exchange closing prior to its Scheduled Closing Time.

For the purpose hereof:

- A. **Trading Disruption** means, in respect of an ADR or a GDR and the Deposited Securities relating to such ADR or GDR, any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise (a) relating to the ADR or the GDR or the Deposited Securities relating to such ADR or GDR on the Exchange or (b) in futures or options contracts relating to the ADR or the GDR or the Deposited Securities relating to such ADR or GDR on any relevant Related Exchange;
- B. **Exchange Disruption** means, in respect of an ADR or a GDR and the Deposited Securities relating to such ADR or GDR, any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for (a) the ADR or the GDR or the Deposited Securities relating to such ADR or GDR on the Exchange, or (b) futures or options contracts relating to the ADR or the GDR or the Deposited Securities relating to such ADR or GDR on any relevant Related Exchange;
- C. **Early Closure** means, the closure on any Exchange Business Day of (a) , the relevant Exchange, or (b) any Related Exchange, prior to its Scheduled Closing Time unless such earlier closing is announced by such Exchange or Related Exchange (as the case may be) at least one hour prior to the earlier of (x) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day and (y) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the relevant Valuation Time on such Exchange Business Day.

For the avoidance of doubt, a Disrupted Day will be deemed to have occurred with respect to an ADR or a GDR if a Disrupted Day has occurred with respect to the related Deposited Securities.

Related Exchange(s) means, in respect of an ADR or a GDR (and the Deposited Securities), each exchange or quotation system where trading has a material effect (as determined by the Calculation Agent) on the overall market for futures and options contracts relating to such ADR or GDR or Deposited Securities, any successor exchange or quotation system or any substitute exchange or quotation system to which trading in futures or options contracts relating to an ADR or a GDR or Deposited Securities, has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating such ADR or GDR or

Deposited Securities, on such temporary substitute exchange or quotation system as on the original Related Exchange).

Scheduled Closing Time means, in respect of an Exchange or Related Exchange, the scheduled weekday closing time of such Exchange or Related Exchange, without regard to after hours or any other trading outside of the regular trading session hours.

Scheduled Trading Day means, in respect of an ADR or a GDR (or, in the case of a Basket of ADR and/or GDR, in respect of any ADR and/or GDR comprising the Basket and observed separately), any day on which each Exchange and each Related Exchange, if any, are scheduled to be open for trading for their respective regular trading session.

Valuation Date means, in respect of an ADR or a GDR, each date specified as such in the applicable Final Terms (or, if such date is not a Scheduled Trading Day for such ADR or GDR, the next following Scheduled Trading Day), unless such day is a Disrupted Day in which case it shall be postponed pursuant to the provisions of Condition 2 below.

Valuation Time means, in respect of an ADR or a GDR, the Scheduled Closing Time provided however that if the Exchange closes prior to its Scheduled Closing Time, the Valuation Time shall be the actual closing time of the Exchange.

2. CONSEQUENCES OF DISRUPTED DAYS FOR AN ADR OR A GDR

If any Valuation Date or Averaging Date specified in the applicable Final Terms (the **Scheduled Valuation Date** and the **Scheduled Averaging Date** respectively), is a Disrupted Day for an ADR or a GDR, the Valuation Date or the Averaging Date for such ADR or GDR shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day in respect of that ADR or GDR, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date or the Scheduled Averaging Date is also a Disrupted Day. In that case:

- A. that eighth Scheduled Trading Day shall be deemed to be the Valuation Date or Averaging Date, for the ADR or GDR notwithstanding the fact that such day is a Disrupted Day, and
- B. the Calculation Agent shall determine its good faith estimate of the value of the ADR or GDR as of the Valuation Time on that eighth Scheduled Trading Day and the good faith estimate of the value of the ADR or GDR so calculated shall be deemed the Closing Price;

Provided that if the ADR or GDR is included in a Basket, the hereabove provisions shall apply only to the ADR or GDR affected by the occurrence of a Disrupted Day and the Valuation Date or the Averaging Date for each ADR or GDR not affected by a Disrupted Day shall be the Scheduled Valuation Date or the Scheduled Averaging Date.

Provided however that,

- (a) if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Scheduled Trading Day that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the eighth Scheduled Trading Day following the Scheduled Averaging Date a Scheduled Trading Day that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then that eighth Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is also a Scheduled Averaging Date), and the Calculation Agent shall make on that day the determinations described in (B) above, and the good faith estimate of the value of the ADR or GDR so calculated shall be deemed the Closing Price;
- (b) notwithstanding the foregoing, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date; if a Valuation Date or an Averaging Date (postponed as the case

may be pursuant to the provisions above) would fall after the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or Averaging Date and the Calculation Agent shall make, on that day the determinations described in (B) above at the latest as of the Valuation Time on such fourth Business Day and the good faith estimate of the value of the ADR or GDR so calculated shall be deemed the Closing Price,

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word “fourth” above shall be deemed to be references to the word “twelfth”, and
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word “fourth” above shall be deemed to be references to the word “tenth”.

3. ADJUSTMENTS AND EXTRAORDINARY EVENTS - MONETISATION UNTIL THE MATURITY DATE, HEDGING DISRUPTION, INCREASED COST OF HEDGING, INSOLVENCY FILING AND CONSEQUENCES - CHANGE IN LAW AND CONSEQUENCES

3.1 Adjustments and Extraordinary Events

3.1.1 Potential Adjustment Events

Potential Adjustment Event means, in relation to an ADR or a GDR, any of the following:

- A. a subdivision, consolidation or reclassification of the Deposited Securities underlying such ADR or GDR (unless resulting in a Merger Event), including, for the avoidance of doubt, a stock split or reverse stock split, or a free distribution or dividend of any such Deposited Securities to existing holders by way of bonus, capitalisation or similar issue;
- B. a distribution, issue or dividend to existing holders of the Deposited Securities underlying such ADR or GDR of (a) such Deposited Securities, (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Company equally or proportionately with such payments to holders of such Deposited Securities, (c) share capital, other securities of another issuer acquired or owned (directly or indirectly) by the Company as a result of a spin-off or other similar transaction, or (d) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price as determined by the Calculation Agent;
- C. an extraordinary dividend as determined by the Calculation Agent;
- D. a call by the Company in respect of Deposited Securities underlying such ADR or GDR that are not fully paid;
- E. a repurchase by the Company or any of its subsidiaries of Deposited Securities underlying such ADR or GDR whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- F. an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of the Company pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value, as determined by the Calculation Agent provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights; or

- G. any other event having, in the opinion of the Calculation Agent, a diluting or concentrative effect on the Deposited Securities that affects theoretical value of the ADR or GDR.

Following the occurrence of any Potential Adjustment Event as defined above, the Calculation Agent will, as soon as reasonably practicable after it becomes aware of such event determine whether such Potential Adjustment Event has a diluting or concentrative effect on the Deposited Securities that affects the theoretical value of the ADR or GDR.

An event that has a diluting or concentrative effect on the Deposited Securities will affect the theoretical value of the ADR or GDR unless (and to the extent that) the Company or the Depositary, pursuant to its authority (if any) under the Deposit Agreement, elects to adjust the number of the Deposited Securities that are represented by each ADR or GDR such that the price of the ADR or GDR will not be affected by any such event (as determined by the Calculation Agent), in which case the Calculation Agent will make no adjustment. If the Company or the Depositary elects not to adjust the number of Deposited Securities that are represented by an ADR or a GDR or makes an adjustment that the Calculation Agent determines not to have been adequate, then the Calculation Agent may, in its discretion, make the necessary adjustment to the elements relating to the Underlying used to determine any settlement or payment terms under the Notes and/or any other terms of the Notes as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes and determine the effective date of that adjustment. The Depositary may also have the ability pursuant to the Deposit Agreement to make adjustments in respect of the ADR or GDR for share distributions, rights distributions, cash distributions and distributions other than shares, rights and cash. Upon any such adjustment by the Depositary, the Calculation Agent may, in its discretion, make the necessary adjustments as the Calculation Agent deems appropriate to account for such event.

In its determinations of the existence and extent of any dilutive or concentrative effect on the Deposited Securities that affects the theoretical value of the ADR or GDR of any Potential Adjustment Event, and any related adjustments to the terms of the Notes, the Calculation Agent shall take into account any amounts of Local Taxes that would, in the determination of the Calculation Agent, be withheld from or paid or otherwise incurred by an Offshore Investor in connection with such Potential Adjustment Event. The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by a Related Exchange to options on the Deposited Securities traded on such Related Exchange.

Definitions applicable to this Condition 3.1.1:

Local Taxes shall mean taxes, duties, and similar charges imposed by the taxing authority of the country in which the Company has been incorporated or in which the Exchange on which the Deposited Securities are listed is located.

Offshore Investor shall mean a holder of Deposited Securities who is an institutional investor not resident in the country in which the Company has been incorporated or in which the Exchange on which the Deposited Securities are listed is located (the **Local Jurisdiction**), for the purposes of the tax laws and regulations of the Local Jurisdiction and, for the avoidance of doubt, whose jurisdiction of residence (a) shall be determined by the Calculation Agent and (b) may be the jurisdiction of Société Générale or any of its affiliates.

3.1.2 **Extraordinary Events**

- A. Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of the opening of an Offering Period relating to a Merger Event, a De-merger Event, a De-listing Event, an Insolvency, a Nationalization or a Participation Event, in respect of an ADR or a GDR (an **Affected ADR** or an **Affected GDR**), then during such Offering Period, the Calculation Agent may decide in good faith to apply Method of Substitution with respect to the Affected ADR or Affected GDR.
- B. If the Calculation Agent decides not to apply Method of Substitution during the Offering Period with respect to the Affected ADR or Affected GDR, then:

- (a) in respect of a Merger Event, from the Merger Date, and/or upon consummation of the Merger Event, until the sixtieth Business Day thereafter, the Calculation Agent, acting in good faith, shall apply either:
- (i) Share-for-Share Merger Event: Alternative Obligation and/or Method of Substitution or Monetisation until the Maturity Date or Early Redemption;
 - (ii) Share-for-Other Merger Event: Alternative Obligation and/or Method of Substitution or Monetisation until the Maturity Date or Early Redemption; or
 - (iii) Share-for-Combined Merger Event: Alternative Obligation and/or Method of Substitution or Monetisation until the Maturity Date or Early Redemption;
- (b) in the case of a Merger Event affecting two ADR or GDR comprised in a Basket, the Calculation Agent will either:
- (i) continue with the American depositary receipt or the global depositary receipt resulting from the Merger Event and in order to maintain the original number of companies in the Basket, a Substitute Share or Substitute ADR or Substitute GDR (as applicable) will be elected and included in the Basket;
 - (ii) substitute both ADR or GDR with two Substitute Shares or Substitute ADR or Substitute GDR selected as described in the Method of Substitution; or
 - (iii) apply the Monetisation until the Maturity Date; or
 - (iv) apply the Early Redemption;
- (c) in respect of a De-merger Event, from the De-merger Date, and/or upon consummation of the De-merger Event, until the sixtieth Business Day thereafter, the Calculation Agent, acting in good faith, will either:
- (i) replace the Affected ADR or Affected GDR with the shares or American depositary receipts or global depositary receipts of the successor companies;
 - (ii) substitute one or more share(s) or American depositary receipt(s) or global depositary receipt(s) resulting from such De-merger Event pursuant to the Method of Substitution; or
 - (iii) apply the Monetisation until the Maturity Date; or
 - (iv) apply the Early Redemption;
- it being understood that, in the case of a Basket, the Calculation Agent shall maintain the initial number of companies in the Basket and that in the case where the Calculation Agent has elected to substitute the Affected ADR or Affected GDR with several shares or American depositary receipts or global depositary receipts resulting from such De-merger Event, such shares or American depositary receipts or global depositary receipts shall be placed in a sub-basket and considered as one component of the Basket;
- (d) in respect of a De-listing Event or a Nationalization, from the effective date of such event, until the sixtieth Business Day thereafter, the Calculation Agent, acting in good faith, may, but is not obliged to, apply the Method of Substitution or the Monetisation until the Maturity Date or the Early Redemption;
- (e) in respect of an Insolvency, the Calculation Agent will decide, either:
- (i) that the Affected ADR or Affected GDR will be substituted pursuant to the Method of Substitution; or
 - (ii) that the value of the relevant component in the formula used to determine the amount to be paid or whether a condition has occurred, if any, as described in the applicable Final

Terms, representing the Affected ADR or Affected GDR will be accounted by the Calculation Agent for its fair market value determined at any time as from the date of occurrence of such Insolvency until the last Valuation Date or the last Averaging Date. The determination of the fair market value shall depend upon the liquidity of the market and the trading conditions relating to the ADR or GDR affected at the time of calculation; or

(iii) to apply the Monetisation until the Maturity Date; or

(iv) to apply the Early Redemption; and

(f) in respect of a Participation Event from the effective date of such event until the sixtieth Business Day thereafter, the Calculation Agent may, but is not obliged to, select a Substitute Share or Substitute ADR or Substitute GDR for the Affected ADR or Affected GDR pursuant to the Method of Substitution.

C. Notwithstanding anything herein to the contrary, the Calculation Agent shall use its reasonable endeavours at all times to maintain the original number of companies in the Basket as Companies hereunder.

Definitions applicable to this Condition 3.1.2:

Alternative Obligation means:

- A. if, in respect of a Share-for-Share Merger Event, the Calculation Agent decides to apply Alternative Obligation, then on or after the relevant Merger Date the New Shares and the issuer of the Deposited Securities related to such New Shares will be deemed the **ADR** (or **GDR**, as the case may be) and the Company, respectively, and, if necessary, the Calculation Agent will adjust any relevant terms of the Notes on the basis of the number of New Shares (as subsequently modified in accordance with any relevant terms and including the proceeds of any redemption, if applicable) to which a holder of the relevant number of ADR or GDR immediately prior to the occurrence of the Merger Event would be entitled upon consummation of the Merger Event;
- B. if, in respect of a Share-for-Other Merger Event, the Calculation Agent decides to apply Alternative Obligation, then on or after the relevant Merger Date, the Calculation Agent will adjust any relevant terms of the Notes on the basis of the amount of Other Consideration (as subsequently modified in accordance with any relevant terms and including the proceeds of any redemption, if applicable) to which a holder of the relevant number of ADR or GDR would be entitled upon consummation of the Merger Event and, if necessary, any relevant terms of the Notes; and
- C. if, in respect of a Share-for-Combined Merger Event, the Calculation Agent decides to apply Alternative Obligation, then on or after the Merger Date the New Shares and the Other Consideration will be deemed the **ADR** (or **GDR**, as the case may be) and the issuer of the Deposited Securities related to such New Shares will be deemed the Company respectively, and, if necessary, the Calculation Agent will adjust any relevant terms of the Notes on the basis of the number of New Shares and the amount of Other Consideration (as subsequently modified in accordance with any relevant terms and including the proceeds of any redemption, if applicable) to which a holder of the relevant number of ADR or GDR would be entitled upon consummation of the Merger Event.

Combined Consideration means New Shares in combination with Other Consideration.

De-listing Event means, in respect of an ADR or a GDR, that such ADR or GDR (or Deposited Securities related to such ADR or GDR): (a) ceases to be listed, traded or publicly quoted on the relevant Exchange or listing compartment of the relevant Exchange (for any reason other than a Merger Event or a tender offer) and is not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as the Exchange (or where the Exchange is within the European Union, in any Member State of the European Union) or (b) has its listing, trading or public quotation maintained in inappropriate conditions in the opinion of the Calculation Agent (such conditions

to include, without limitation, a lack of liquidity or the disappearance of the relevant futures and/or option contract of the relevant ADR or GDR (or Deposited Securities related to such ADR or GDR)) or (c) the Deposit Agreement is terminated.

De-merger Event means, in respect of any ADR or GDR, that the Company relevant to such ADR or GDR is affected by a de-merger including, without limitation, a spin off, *scission* or any operation of a similar nature.

De-merger Date means the date on which a De-merger Event becomes effective.

Early Redemption means that there will be an early redemption of the Notes on the basis of Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes.

Fixing Period means the period subject to a maximum of ten Exchange Business Days, which shall expire no later than 90 Business Days following the Merger Date, the De-merger Date or the effective date of the De-listing Event, Nationalization, Insolvency or Participation Event) during which:

- A. Société Générale or any of its affiliates sells the Affected ADR, the Affected GDR, the New Shares and/or the Other Consideration, (as the case may be), on the basis of the weighted average of the closing prices of the relevant assets traded by Société Générale or any of its affiliates with regards to the relevant Notes, as observed during such Fixing Period; and
- B. the proceeds of such sale are re-invested in the Substitute Shares, Substitute ADR, Substitute GDR and/or New Shares accordingly during the said Fixing Period on the basis of the weighted average of the closing prices of such Substitute Shares, Substitute ADR, Substitute GDR and/or New Shares traded by Société Générale or any of its affiliates with regards to the relevant Notes, as observed during such Fixing Period.

Insolvency means, in respect of a Company, voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of, or any analogous proceeding affecting, such Company, as determined in good faith by the Calculation Agent.

Merger Date means, in respect of Deposited Securities underlying an ADR or a GDR, the date upon which holders of the necessary number of the relevant Deposited Securities (other than, in the case of a takeover offer, Deposited Securities owned or controlled by the offeror) to constitute a Merger Event have agreed or have irrevocably become obliged to transfer their Deposited Securities.

Merger Event means, in respect of any ADR or GDR issued pursuant to a Deposit Agreement:

- A. any reclassification or change of the Deposited Securities underlying such ADR or GDR (including the change of currency reference of such Deposited Securities) that results in a transfer of or an irrevocable commitment to transfer all of such Deposited Securities outstanding to another entity or person;
- B. any consolidation, amalgamation, merger or binding share exchange of the relevant Company with or into another entity (other than a consolidation, amalgamation or merger in which such Company is the continuing entity and which does not result in a reclassification or change of all of the outstanding Deposited Securities underlying such ADR or GDR);
- C. other take-over offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Deposited Securities underlying such ADR or GDR that results in a transfer of or an irrevocable commitment to transfer all or part of such Deposited Securities (other than any of such Deposited Securities owned or controlled by the offeror);
- D. any consolidation, amalgamation, merger or binding share exchange of the relevant Company or its subsidiaries with or into another entity in which such Company is the continuing entity and which does not result in a reclassification or change of all of the outstanding Deposited Securities underlying such ADR or GDR but results in the outstanding Deposited Securities (other than

Deposited Securities owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Deposited Securities immediately following such event; or

- E. take-over offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 10 per cent. and less than 100 per cent. of the outstanding voting shares of the Company, as determined by the Calculation Agent based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant.

Method of Substitution means that in the case of a Merger Event, De-merger Event, De-listing Event, Nationalization, Insolvency or Participation Event (regardless of the consideration to be received), in respect of an Affected ADR or an Affected GDR, the Calculation Agent may consider that the Affected ADR, the Affected GDR, the New Shares and/or, all or part of the Other Consideration (as the case may be) is/are converted into cash and that the proceeds will be reinvested either (a) into a share or a new American depository receipt or a new global depository receipt of the same economic sector or into a share or an American depository receipt or a global depository receipt issued by a company of a similar international standing or creditworthiness as the Company related to the Affected ADR or the Affected GDR (the **Substitute Share**, the **Substitute ADR** or the **Substitute GDR**, as the case may be) or (b) in the case of Combined Consideration into New Shares. In the event of Other Consideration to be received in cash, in the future, the Calculation Agent may consider that the cash to be received in the future is discounted in order to immediately re-invest the proceeds then procured in accordance with (a) and (b) above.

The sale of the Affected ADR, the Affected GDR, the New Shares and/or the Other Consideration shall be deemed to take place during the Fixing Period. The Substitute Share, the Substitute ADR or the Substitute GDR, as the case may be, and the company issuing such Substituted Share (or, in the case of an ADR or a GDR, the company issuing the Deposited Securities related to such ADR or GDR) will be deemed an **ADR** or a **GDR** and the **Company** respectively, and the Calculation Agent will adjust any relevant terms of the Notes.

For information purposes, it is understood that in all cases described herein where an ADR or a GDR is substituted, on any date "t", with a Substitute Share or Substitute ADR or Substitute GDR, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Final Terms, shall not be affected by the substitution on such date "t" in respect of the Substitute Share or Substitute ADR or Substitute GDR and would mean the closing price of such Substitute Share or Substitute ADR or Substitute GDR on the relevant Exchange on the date "t" is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected ADR or the Affected GDR on such date "t".

Nationalization means that all the Deposited Securities related to an ADR or a GDR or all or substantially all of the assets of a Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof.

New Shares means shares or ADR or GDR (whether of the offeror or a third party) that are listed or quoted on a recognised exchange involved in the application of Method of Substitution or Alternative Obligation as determined by the Calculation Agent.

Offering Period means the period from and including the date on which the Merger Event, the De-listing Event, the De-merger Event, the Insolvency, the Nationalization or the Participation Event is publicly and officially announced to but excluding the Merger Date or the De-merger Date or the effective date of the De-listing Event, the Insolvency, the Nationalization or the Participation Event.

Other Consideration means cash and/or any securities (other than New Shares) or assets (whether of the offeror or a third party).

Participation Event means that a Company (whose ADR or GDR form part of a Basket) takes a stake exceeding 20 per cent. of another Company whose ADR or GDR (which shall be the Affected ADR or the Affected GDR in respect of such Participation Event) also form part of the Basket.

Share-for-Combined Merger Event means, in respect of a Merger Event, that the consideration for the relevant ADR or GDR consists of Combined Consideration.

Share-for-Other Merger Event means, in respect of a Merger Event, that the consideration for the relevant ADR or GDR consists solely of Other Consideration.

Share-for-Share Merger Event means, in respect of a Merger Event, that the consideration for the relevant ADR or GDR consists (or, at the option of the holder of such ADR or GDR, may consist) solely of New Shares.

3.1.3 **Stop-Loss Event relating to an ADR or a GDR**

If on any Exchange Business Day between the initial Valuation Date (excluded) and the last Valuation Date (included), the Closing Price of an ADR or a GDR is affected by a decrease of 80 per cent. or more of its Closing Price on the initial Valuation Date (the **Affected ADR** or the **Affected GDR** and the event, the **Stop-Loss Event**), then

- A. the Calculation Agent may decide to substitute the Affected ADR or the Affected GDR by a new share or American depositary receipt or global depositary receipt issued by a company of a similar international standing or creditworthiness as the Company related to the Affected ADR or the Affected GDR (the **Substitute Share**, **Substitute ADR** or **Substitute GDR**, as the case may be) and will adjust any relevant terms of the Notes accordingly; or
- B. the Calculation Agent may decide to continue with the Affected ADR or the Affected GDR; or
- C. if the Calculation Agent has neither retained any Substitute Share or Substitute ADR or Substitute GDR nor decided to continue with the Affected ADR or the Affected GDR, the Calculation Agent may either:
 - (a) apply Monetisation until the Maturity Date; or
 - (b) consider such event as an event triggering an early redemption of the Notes. In that case, the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Stop-Loss Event, an Early Redemption Amount on the basis of Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes.

For information purposes, it is understood that in all cases described herein where an ADR or a GDR is substituted, on any date "t", with a Substitute Share, Substitute ADR or Substitute GDR, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Final Terms, shall not be affected by the substitution on such date "t" in respect of the Substitute Share or Substitute ADR or Substitute GDR and would mean that the closing price of such Substitute Share or Substitute ADR or Substitute GDR on the relevant Exchange on the date "t" is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected ADR or the Affected GDR on such date "t".

3.1.4 **Correction of the Closing Price of an ADR or a GDR**

In the event that any price or level published on the Exchange and which is utilised for any calculation or determination made under the Notes is subsequently corrected and the correction is published and made available to the public by the Exchange after the original publication but no later than four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Final Terms), the Calculation Agent will determine the amount that is payable as a result of that correction, and, to the extent necessary, will adjust the terms of the Notes to account for such correction,

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word “four” above shall be deemed to be references to the word “twelve”, and
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word “four” above shall be deemed to be references to the word “ten”.

3.2 Monetisation until the Maturity Date

Following the occurrence of an event giving rise to the Monetisation until the Maturity Date, the Issuer shall no longer be liable for the payment of (1) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date and/or (2) the Optional Redemption Amount on the Optional Redemption Date and/or (3) the Final Redemption Amount as defined in the applicable Final Terms on the Maturity Date, but instead will, in full and final satisfaction of its obligations, pay an amount described in Conditions 3.2.1, 3.2.2 and/or 3.2.3 below.

3.2.1 Monetisation of any Intermediate Amount

3.2.1.1 *In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which could be as low as zero*

Pursuant to the provisions of Condition 3.2, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that Société Générale or any of its affiliates would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded),

provided however that

3.3 Hedging Disruption, Increased Cost of Hedging, Insolvency Filing and consequences - Change in Law and consequences

3.3.1 Hedging Disruption, Increased Cost of Hedging, Insolvency Filing and consequences

Hedging Disruption means, in respect of Notes that have one or more ADR or GDR as Underlying(s), that Société Générale or any of its affiliates is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk (or any other relevant price risk including, but not limited to, the currency risk) of entering into and performing its obligations with respect to the Notes or the agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes; or (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the **Affected Jurisdiction**) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction.

Increased Cost of Hedging means, in respect of Notes that have one or more ADR or GDR as Underlying(s), that Société Générale or any of its affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Société Générale or any of its affiliates enters into the Hedge Positions in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk of entering into and performing its obligations with respect to the Notes or any agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes or (b) freely realize, recover or remit the proceeds of its Hedge Positions.

Insolvency Filing means, in respect of Notes that have one or more ADR or GDR as Underlying(s) that the Company institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organization or the jurisdiction of its head home office, or it consents to a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditor's rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official or it consents to such a petition, provided that proceedings instituted or petitions presented by creditors and not consented to by the Company shall not be deemed an Insolvency Filing.

In case of the occurrence of a Hedging Disruption or an Increased Cost of Hedging or an Insolvency Filing relating to an ADR or a GDR (the **Affected Underlying**), the Calculation Agent may:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or
- B. replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector; or
- C. apply the Monetisation until the Maturity Date (as defined above); or, but only in the case of Increased Cost of Hedging:
- D. deduct:
 - (i) from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by Société Générale or any of its affiliates, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the

outstanding Notes (the "**Reduction Amount**"); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Note is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or

- (ii) in the absence of any Interest Amount in respect of the Notes, (a) from the Optional Early Redemption Amount (if any) or the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero).

3.3.2 **Change in Law and consequences**

Change in Law means in respect of Notes that have one or more ADR or GDR as Underlying(s) that, on or after the first to occur of (a) the Issue Date and (b) the first Valuation Date of the Notes (i) due to the adoption of any change in any applicable law or regulation (including without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines in good faith that it has become illegal for Société Générale or any of its affiliates to hold, acquire or dispose of Hedge Positions or to maintain the agreement entered into with Société Générale or any of its affiliates by the Issuer of the Notes, relating to the Underlying of the Notes (the **Affected Underlying**).

Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of a Change in Law, the Calculation Agent will decide either:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or
- B. replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector; or
- C. apply the Monetisation until the Maturity Date (as defined above).

With respect to an ADR issued pursuant to a deposit agreement (a) references to Share in the definitions of **Market Disruption Event**, **Trading Disruption**, **Exchange Disruption** and **Early Closure** above refer both to the ADR and to the related deposited securities relating to such ADR, and (b) references to Exchange and Related Exchange in these definitions refer to such exchanges as they relate to both the ADR and to the related deposited securities relating to such ADR. For the avoidance of doubt, a Disrupted Day will be deemed to have occurred with respect to an ADR if a Disrupted Day has occurred with respect to the related deposited securities.

Official Index Divisor means the value, calculated by the Index Sponsor, necessary to ensure that the numerical value of the Index remains unchanged after a change in the composition of the Index. The value of the Index after any change in its composition is divided by the Official Index Divisor to ensure that the value of the Index returns to its normalised value.

Official Number means, in respect of a date, an Index and a Share or an ADR comprising such Index, the number of free-floating shares relating to such Share or ADR comprised in the Index, as calculated and published by the Index Sponsor on such date, subject to the provisions of Condition 3.1.4.1 below.

Related Exchange(s) means, in respect of a Share, an ADR or an Index (and, with respect to an ADR, the related deposited securities), each exchange or quotation system where trading has a material effect (as determined by the Calculation Agent) on the overall market for futures and options contracts relating to such Share, ADR, Index or deposited securities, any successor exchange or quotation system or any substitute exchange or quotation system to which trading in futures or options contracts relating to a Share, ADR, Index or deposited securities, has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating such Share, ADR, Index or deposited securities, on such temporary substitute exchange or quotation system as on the original Related Exchange).

Scheduled Closing Time means, in respect of an Exchange or Related Exchange, the scheduled weekday closing time of such Exchange or Related Exchange, without regard to after hours or any other trading outside of the regular trading session hours.

Scheduled Trading Day means:

- A. in respect of a Share or an ADR (or, in the case of a Basket of Shares or ADR, in respect of any Share or ADR comprising the Basket and observed separately), any day on which each Exchange and each Related Exchange, if any, are scheduled to be open for trading for their respective regular trading session;

Share(s) means a share of the Company (or the shares of the relevant Company in case of a Basket).

Valuation Date means, in respect of a Share, an ADR or an Index, each date specified as such in the applicable Final Terms (or, if such date is not a Scheduled Trading Day for such Share, ADR or Index, the next following Scheduled Trading Day), unless such day is a Disrupted Day in which case it shall be postponed pursuant to the provisions of Condition 2 below.

Valuation Time means, in respect of a Share, an ADR or an Index, the Scheduled Closing Time provided however that if the Exchange closes prior to its Scheduled Closing Time, the Valuation Time shall be the actual closing time of the Exchange.

2. CONSEQUENCES OF DISRUPTED DAYS FOR A SHARE, AN ADR OR AN INDEX

If any Valuation Date or Averaging Date specified in the applicable Final Terms (the **Scheduled Valuation Date** and the **Scheduled Averaging Date** respectively), is a Disrupted Day for a Share, an ADR or an Index, the Valuation Date or the Averaging Date for such Share, ADR or Index shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day in respect of that Share, ADR or Index, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date or the Scheduled Averaging Date is also a Disrupted Day. In that case, that eighth Scheduled Trading Day shall be deemed to be the Valuation Date or Averaging Date, for the Share, ADR or Index notwithstanding the fact that such day is a Disrupted Day;

Provided that if the Share, ADR or Index is included in a Basket, the hereabove provisions shall apply only to the Share, ADR or Index affected by the occurrence of a Disrupted Day and the Valuation Date or the Averaging Date for each Share, ADR or Index not affected by a Disrupted Day shall be the Scheduled Valuation Date or the Scheduled Averaging Date.

Provided however that,

- (a) if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Scheduled Trading Day that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the eighth Scheduled Trading Day following the Scheduled Averaging Date a Scheduled Trading Day that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then that eighth Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is also a Scheduled Averaging Date);
- (b) notwithstanding the foregoing, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date; if a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) would fall less than the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or Averaging Date,

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word “fourth” above shall be deemed to be references to the word “twelfth”, and
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word “fourth” above shall be deemed to be references to the word “tenth”.

- G. any other event having, in the opinion of the Calculation Agent, a diluting or concentrative effect on the theoretical value of the Shares.

With respect to an ADR, references to **Share** in the definition of **Potential Adjustment Event** above refer to the deposited securities underlying such ADR.

Extraordinary Events means, in relation to a Share or an ADR, the occurrence of (a) a De-listing Event, (b) a De-merger Event, (c) an Insolvency, (d) a Merger Event, (e) a Nationalization or (f) a Participation Event. For the purpose hereof:

- (a) **De-listing Event** means, in respect of a Share or an ADR, that such Share or ADR (or deposited securities related to such ADR): (a) ceases to be listed, traded or publicly quoted on the relevant Exchange or listing compartment of the relevant Exchange (for any reason other than a Merger Event or a tender offer) and is not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as the Exchange (or where the Exchange is within the European Union, in any Member State of the European Union) or (b) has its listing, trading or public quotation maintained in inappropriate conditions in the opinion of the Calculation Agent (such conditions to include, without limitation, a lack of liquidity or the disappearance of the relevant futures and/or option contract of the relevant Share) or (c) with respect to an ADR, the related deposit agreement is terminated.
- (b) **De-merger Event** means, in respect of any Share or ADR, that the Company relevant to such Share or ADR is affected by a de-merger including, without limitation, a spin off, *scission* or any operation of a similar nature.

 - D. any consolidation, amalgamation, merger or binding share exchange of the relevant Company or its subsidiaries with or into another entity in which such Company is the continuing entity and which does not result in a reclassification or change of all of such Shares outstanding but results in the outstanding Shares (other than Shares owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Shares immediately following such event; or
 - E. take-over offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 10 per cent. and less than 100 per cent. of the outstanding voting shares of the Company, as determined by the Calculation Agent based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant.

- (e) **Nationalization** means that all the Shares or all or substantially all of the assets of a Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof.

3.1.3 Adjustments

3.1.3.1 Adjustments in relation to an Index the components of which are used to determine the amounts due under Notes indexed on Dividends

If an event occurs affecting the Index the components of which are used to determine the amounts due under Notes indexed on Dividends, which in the determination of the Calculation Agent has a material effect on the amounts due under the Notes, then the Calculation Agent shall either:

- A. adjust any terms of the Notes, it determines appropriate, in order to take into account the economic effect on the Notes of such event; or
- B. replace the Index by a new index provided that such index is (a) representative of the same economic or geographic sector (as the case may be), and (b) to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries; or
- C. consider such event as an event triggering an early redemption of the Notes and then the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the event giving rise to the relevant adjustment, an Early Redemption Amount on the basis of Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or
- D. apply Monetisation until the Maturity Date (as defined below).

3.1.3.2 Adjustments in relation to a Share or ADR the dividend of which is used to determine the amounts due under Notes indexed on Dividends

If an Extraordinary Event (as defined in Condition 3.1.2 above) occurs affecting the Share or ADR (the **Affected Share** or the **Affected ADR**) the dividend of which is used to determine the amounts due under Notes indexed on Dividends, then the Calculation Agent shall either:

- A. adjust any terms of the Notes, it determines appropriate, in order to take into account the economic effect on the Notes of such event; or
- B. replace the Affected Share or the Affected ADR by the resulting share or by a new share or ADR which related deposited securities were issued by a company of a similar international standing or creditworthiness as the Company related to the Affected Share or the Affected ADR; or
- C. consider such event as an event triggering an early redemption of the Notes and then the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the event giving rise to the relevant adjustment, an Early Redemption Amount on the basis of Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes, or
- D. apply Monetisation until the Maturity Date (as defined below).

If a Potential Adjustment Event (as defined in Condition 3.1.1 above) occurs affecting the Share or ADR (the **Affected Share** or the **Affected ADR**) the dividend of which is used to determine the amounts due under Notes indexed on Dividends, then the Calculation Agent will, subject to the provisions of the last paragraph of the definition of "Dividend" in Condition 1 above, adjust any terms of the Notes, it determines appropriate, in order to take into account the economic effect on the Notes of such event.

3.1.4 Extraordinary Events relating to Dividends

3.1.4.1 Failure to Publish

If during the Dividend Period, the Index Sponsor fails (for whatever reason including without limitation, a Market Disruption Event) to calculate and publish the number of free-float shares in respect of any Share or ADR or the Official Index Divisor, then the Calculation Agent shall determine the number of free-float shares in respect of such Share or ADR or the Official Index Divisor (as the case may be).

In making any such determination, the Calculation Agent may (but shall not be obliged to) make reference to the formula for and method of calculating the number of free-float shares or the Official Index Divisor (as the case may be) last in effect prior to the failure by the Index Sponsor to make the relevant calculation or publication.

3.1.4.2 *Dividend Recovery*

If (a) the amount actually paid or delivered by an issuer to holders of record of the relevant Share or ADR in respect of any Dividend declared by such issuer (a **Declared Dividend**) to holders of record of such Share or ADR is not equal to such Declared Dividend (a **Dividend Mismatch Event**); or (b) such issuer fails to make any payment or delivery in respect of such Declared Dividend by the third Business Day following the relevant due date, then the Calculation Agent may (but shall not be obliged to) determine any appropriate adjustment to be made to account for such correction or subsequent publication, together with interest, on any amount subsequently due under the Notes.

3.1.5 **Corrections**

In the event that an Official Index Divisor or number of free floating shares calculated and published by the Index Sponsor (or determined by the Calculation Agent pursuant to the provisions of Condition 3.1.4.1 above) and utilized for any calculation or determination made in respect of the Notes is subsequently corrected (or, where there has been a Failure to Publish, published by the Index Sponsor) and the correction is published (or, where there has been a Failure to Publish, publication is made) by the Index Sponsor within five Scheduled Trading Days after the original publication, the Calculation Agent will adjust the Dividend, as required, to take into account such correction, *provided that* such correction or subsequent publication occurs no later than four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Final Terms),

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word “four” above shall be deemed to be references to the word “twelve”, and
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word “four” above shall be deemed to be references to the word “ten”.

3.2 **Monetisation until the Maturity Date**

Following the occurrence of an event giving rise to the Monetisation until the Maturity Date, the Issuer shall no longer be liable for the payment of (1) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date and/or (2) the Optional Redemption Amount on the Optional Redemption Date and/or (3) the Final Redemption Amount as defined in the applicable Final Terms on the Maturity Date, but instead will, in full and final satisfaction of its obligations, pay an amount described in Conditions 3.2.1, 3.2.2 and/or 3.2.3 below.

3.2.1.1 *In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which could be as low as zero*

Pursuant to the provisions of Condition 3.2, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that Société Générale or any of its affiliates would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the

Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded),

provided however that

3.2.1.2 *in respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which cannot be in any case lower than an amount strictly positive (the **Minimum Intermediate Amount**)*

Pursuant to the provisions of Condition 3.2, the Issuer shall pay (1) on the Intermediate Payment Date an amount per Note equal to the Minimum Intermediate Amount and (2) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

- (i) (a) the net positive cash amount that Société Générale or any of its affiliates would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded),

provided however that

3.3 Hedging Disruption, Increased Cost of Hedging, Insolvency Filing and consequences - Change in Law and consequences

3.3.1 Hedging Disruption, Increased Cost of Hedging and Insolvency Filing and consequences

Hedging Disruption means, in respect of Notes that have one or more Dividend(s) as Underlying(s), that Société Générale or any of its affiliates is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk (or any other relevant price risk including, but not limited to, the currency risk) of entering into and performing its obligations with respect to the Notes or the agreement entered into with Société Générale by the Issuer in relation to the Notes; or (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the **Affected Jurisdiction**) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction.

Increased Cost of Hedging means, in respect of Notes that have one or more Dividend(s) as Underlying(s), that Société Générale or any of its affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Société Générale enters into the Hedge Positions in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk of entering into and performing its obligations with respect to the Notes or any agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes or (b) freely realize, recover or remit the proceeds of its Hedge Positions.

Insolvency Filing means, in respect of Notes that have one or more Dividend(s) as Underlying(s) that the Company institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organization or the jurisdiction of its head home office, or it consents to a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditor's rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official or it consents to such a petition, provided that proceedings instituted or petitions presented by creditors and not consented to by the Company shall not be deemed an Insolvency Filing.

In case of the occurrence of a Hedging Disruption or an Increased Cost of Hedging relating to Dividend(s) or of the occurrence of an Insolvency Filing relating to Dividend(s) (the **Affected Underlying**), the Calculation Agent may:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or
- B. replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector; or
- C. apply the Monetisation until the Maturity Date (as defined above); or, but only in the case of Increased Cost of Hedging:
- D. deduct:
 - (i) from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by Société Générale or any of its affiliates, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the **Reduction Amount**"); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Note is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or
 - (ii) in the absence of any Interest Amount in respect of the Notes, (a) from the Optional Early Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero).

3.3.2 Change in Law and consequences

Change in Law means in respect of Notes that have one or more Dividend(s) as Underlying(s) that, on or after the first to occur of (a) the Issue Date and (b) the first Valuation Date of the Notes (i) due to the adoption of any change in any applicable law or regulation (including without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines in good faith that it has become illegal for Société Générale or any of its affiliates to hold, acquire or dispose of Hedge Positions or to maintain the agreement entered into with Société Générale

or any of its affiliates by the Issuer of the Notes, relating to the Underlying of the Notes (the **Affected Underlying**).

Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of a Change in Law, the Calculation Agent will decide either:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or
- B. replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector; or
- C. apply the Monetisation until the Maturity Date (as defined above).

Hedging Disruption means in respect of Notes that have one or more Reference Rate(s) as Underlying(s), that Société Générale or any of its affiliates is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) or any futures or options contract(s) it deems necessary to hedge the market risk (or any relevant price risk, including but not limited to the currency risk) of entering into and performing its obligations with respect to the Notes or the agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes, or (b) freely realise, recover, remit, receive, repatriate or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the **Affected Jurisdiction**) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction.

Increased Cost of Hedging means, in respect of Notes that have one or more Reference Rate(s) as Underlying(s), that Société Générale or any of its affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Société Générale or any of its affiliates enters into the Hedge Positions in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (including, without limitation, price risk, foreign exchange risk and interest rate risk) of entering into and performing its obligations with respect to the Notes or any agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes, or (b) freely realise, recover or remit the proceeds of the proceeds of its Hedge Positions.

3.2 Consequences

In case of the occurrence of a Change in Law, a Hedging Disruption or an Increased Cost of Hedging relating to a Reference Rate (the **Affected Underlying**), the Calculation Agent may:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes.
- B. determine an appropriate alternative rate to replace the Reference Rate for the purposes of the Notes and adjust any relevant terms of the Notes; or, but only in the case of Increased Cost of Hedging:
- C. deduct:
 - (i) from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by Société Générale or any of its affiliates, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the

outstanding Notes (the "**Reduction Amount**"); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Note is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or

- (ii) in the absence of any Interest Amount in respect of the Notes, (a) from the Optional Early Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero).

ADDITIONAL TERMS AND CONDITIONS FOR FOREIGN EXCHANGE RATE LINKED NOTES

The provisions of these Additional Terms and Conditions for Foreign Exchange Rate Linked Notes apply if the applicable Final Terms specify that the clause “*Type of Structured Notes*” is stated as being “*Foreign Exchange Rate Linked Notes*”.

1. DEFINITIONS

Averaging Date means the dates specified as such in the applicable Final Terms or, if any such day is not a Scheduled Trading Day, the immediately succeeding Scheduled Trading Day unless, in the opinion of the Calculation Agent, any such day is a Disrupted Day, in which case the provisions of Condition 2 below shall apply.

Closing Price means, in respect of a Foreign Exchange Rate, the fixing of such Foreign Exchange Rate published by the Price Source (or the Substitute Price Source if (a) the Price Source (or any page that may be substituted for it) is not available or (b) the fixing of such Foreign Exchange Rate is not available on the Price Source) at the Valuation Time on the relevant Valuation Date.

Substitute Price Source means the substitute published source, information vendor or provider as specified in the applicable Final Terms (if any) containing or reporting the rate or rates from which the Closing Price is calculated.

Disrupted Day means any Scheduled Trading Day on which a Disruption Event has occurred.

Disruption Events means, in respect of a Foreign Exchange Rate, the occurrence or existence of (a) a Price Source Disruption, (b) an Illiquidity Disruption, (c) a Dual Exchange Rate or (d) any other event that, in the opinion of the Calculation Agent, is analogous to (a), (b) or (c). For the purpose hereof:

- A. **Price Source Disruption** means that it becomes impossible to obtain the rate or rates from which the Closing Price is calculated.
- B. **Illiquidity Disruption** means the occurrence of any event in respect of any Foreign Exchange Rate whereby it becomes impossible for the Calculation Agent to obtain a firm quote for such currency in an amount deemed necessary by the Calculation Agent to hedge its obligations under the Notes (in one or more transaction(s)) on the relevant Averaging Date or any Valuation Date.
- C. **Dual Exchange Rate** means that the Foreign Exchange Rate splits into dual or multiple foreign exchange rates.

Foreign Exchange Rate means any exchange rate expressed as X/Y (X and Y are currencies) and specified as Underlying in the applicable Final Terms. For the avoidance of doubt, an exchange rate expressed as X/Y means the number of units (or part units) of Y for which one unit of X can be exchanged.

Hedge Positions means any purchase, sale, entry into or maintenance, by Société Générale or any of its affiliate, of one or more (a) positions or contracts in securities, options, futures, derivatives, interest rate transactions or foreign exchange transactions, (b) securities lending/borrowing transactions, (c) any cash deposits or cash borrowing and/or (d) other instruments, arrangements, assets or liabilities howsoever described in order to hedge, individually or on a portfolio basis, the part of Société Générale or any of its affiliates' obligation under the Notes.

Price Source means the published source, information vendor or provider as specified in the applicable Final Terms containing or reporting the rate or rates from which the Closing Price is calculated.

Scheduled Trading Day means a day on which commercial banks are open (or, but for the occurrence of a Disruption Event would have been open) for business (including dealings in foreign exchange in accordance with the market practice of the foreign exchange market) in the principal financial centres of the Foreign Exchange Rate.

Valuation Date means each date specified as such in the applicable Final Terms or, if such day is not a Scheduled Trading Day, the immediately succeeding Scheduled Trading Day unless, in the opinion of the Calculation Agent, any such day is a Disrupted Day, in which case the provisions of Condition 2 below shall apply.

Valuation Time means the time at which the Price Source publishes the relevant rate or rates from which the Closing Price is calculated, as specified in the applicable Final Terms.

2. CONSEQUENCES OF A DISRUPTION EVENT

If any Valuation Date or Averaging Date specified in the applicable Final Terms (the **Scheduled Valuation Date** and the **Scheduled Averaging Date** respectively), is a Disrupted Day for a Foreign Exchange Rate, the Calculation Agent shall:

(a) determine to apply any of the following methods:

- (x) determine that the Valuation Date or Averaging Date for such Foreign Exchange Rate shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day in respect of such Foreign Exchange Rate, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date or Scheduled Averaging Date is also a Disrupted Day. In that case, that eighth Scheduled Trading Day shall be deemed to be the Valuation Date or Averaging Date for the Foreign Exchange Rate notwithstanding the fact that such day is a Disrupted Day, and the Calculation Agent shall determine, its good faith estimate of the fixing of the Foreign Exchange Rate as of the Valuation Time on that eighth Scheduled Trading Day and the good faith estimate of the fixing of the Foreign Exchange Rate so calculated shall be deemed the Closing Price;

Provided however that

if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Scheduled Trading Day that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the eighth Scheduled Trading Day following the Scheduled Averaging Date a Scheduled Trading Day that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then that eighth Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is also a Scheduled Averaging Date), and the Calculation Agent shall make on that day the determinations described in (x) above, and the good faith estimate of the fixing of the Foreign Exchange Rate so calculated shall be deemed the Closing Price; or

- (y) consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or

(z) apply the Monetisation until the Maturity Date (as defined below); and/or

- (b) postpone any payment date related to such Averaging Date or Valuation Date (including, if applicable, the Maturity Date) until the fourth Business Day following the date on which a Disruption Event is no longer subsisting. No interest or other amount shall be paid by the Issuer in respect of such postponement.

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP**

Securities), all references to the word “fourth” above shall be deemed to be references to the word “twelfth”,

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word “fourth” above shall be deemed to be references to the word “tenth”.

3. MONETISATION UNTIL THE MATURITY DATE

Following the occurrence of an event giving rise to the Monetisation until the Maturity Date, the Issuer shall no longer be liable for the payment of (1) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date and/or (2) the Optional Redemption Amount on the Optional Redemption Date and/or (3) the Final Redemption Amount as defined in the applicable Final Terms on the Maturity Date, but instead will, in full and final satisfaction of its obligations, pay an amount described in Conditions 3.1, 3.2 and/or 3.3 below.

3.1 Monetisation of any Intermediate Amount

3.1.1 In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which could be as low as zero

Pursuant to the provisions of Condition 3, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that Société Générale or any of its affiliates would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded),

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word “fourth” in (y) above shall be deemed to be references to the word “twelfth”, and
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word “fourth” in (y) above shall be deemed to be references to the word “tenth”.

For the avoidance of doubt, the liquidation proceeds of any assets held by Société Générale or any of its affiliates as Intermediate Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Société Générale or any of its affiliates under its Intermediate Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

3.1.2 in respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which cannot be in any case lower than an amount strictly positive (the Minimum Intermediate Amount)

Pursuant to the provisions of Condition 3, the Issuer shall pay (1) on the Intermediate Payment Date an amount per Note equal to the Minimum Intermediate Amount and (2) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

- (i) (a) the net positive cash amount that Société Générale or any of its affiliates would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded),

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word “fourth” in (y) above shall be deemed to be references to the word “twelfth”,
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word “fourth” in (y) above shall be deemed to be references to the word “tenth”, and

- (ii) an amount equal to the Minimum Intermediate Amount.

For the avoidance of doubt, the liquidation proceeds of any assets held by Société Générale or any of its affiliates as Intermediate Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Société Générale or any of its affiliates under its Intermediate Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

provided however that

- in respect of Uncertificated Nordic issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word “fourth” in (y) above shall be deemed to be references to the word “twelfth”, and

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word “fourth” in (y) above shall be deemed to be references to the word “tenth”.

4. CHANGE IN LAW, HEDGING DISRUPTION, INCREASED COST OF HEDGING - CONSEQUENCES

4.1 Change in Law, Hedging Disruption, Increased Cost of Hedging

Change in Law means, in respect of Notes that have one or more Foreign Exchange Rate(s) as Underlying(s), that on or after the first to occur of (a) the Issue Date and (b) the first Valuation Date of the Notes (i) due to the adoption of any change in any applicable law or regulation (including without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines in good faith that it has become illegal for Société Générale or any of its affiliates to hold, acquire or dispose of Hedge Positions or to maintain the agreement entered into with Société Générale or any of its affiliates by the Issuer of the Notes, relating to the Underlying of the Notes.;

Hedging Disruption means, in respect of Notes that have one or more Foreign Exchange Rate(s) as Underlying(s), that Société Générale or any of its affiliates is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) or any futures or options contract(s) it deems necessary to hedge the market risk (or any relevant price risk including but not limited to the currency risk) of entering into and performing its obligations with respect to the Notes or the agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes, or (b) freely realise, recover, remit, receive, repatriate or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the **Affected Jurisdiction**) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction.

Increased Cost of Hedging means, in respect of Notes that have one or more Foreign Exchange Rate(s) as Underlying(s), that Société Générale or any of its affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Société Générale or any of its affiliates enters into the Hedge Positions in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (including, without limitation, price risk, foreign exchange risk and interest rate risk) of entering into and performing its obligations with respect to the Notes or any agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes, or (b) freely realise, recover or remit the proceeds of the proceeds of its Hedge Positions.

4.2 Consequences

In case of the occurrence of a Change in Law, a Hedging Disruption or an Increased Cost of Hedging relating to a Foreign Exchange Rate (the **Affected Underlying**), the Calculation Agent may:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or
- B. determine an appropriate alternative exchange rate to replace the Foreign Exchange Rate for the purposes of the Notes and adjust any relevant terms of the Notes; or
- C. apply the Monetisation until the Maturity Date (as defined above); or, but only in the case of Increased Cost of Hedging:
- D. deduct:

2. PROVISIONS APPLICABLE TO COMMODITIES OTHER THAN INDICES

- 2.1.1 If a Valuation Date is not a Commodity Business Day with respect to a Commodity Reference Price, then the Valuation Date for such Commodity Reference Price shall be postponed to the next day which is a Commodity Business Day with respect to such Commodity Reference Price, subject to valuation deadline provisions in Condition 2.1.3 below.
- 2.1.2 If a Barrier Date is not a Common Commodity Business Day, then such Barrier Date shall be postponed to the next day which is a Common Commodity Business Day, subject to determination deadline provisions in Condition 2.1.3 below.
- 2.1.3 Notwithstanding the foregoing, a Valuation Date or a Barrier Date shall occur not later than the fourth Business Day prior to the date of any payment to be made on the basis of determinations made for such Valuation Date or Barrier Date, as the case may be. Such fourth Business Day shall be deemed to be the Valuation Date or Barrier Date, as relevant, and the Calculation Agent shall determine in good faith

the fair market value of the Commodity or Commodities for which that fourth Business Day is not a Commodity Business Day.

2.2 Consequences of Market Disruption Events

2.2.1 If a Market Disruption Event occurs or is continuing with respect to a Commodity Reference Price on a Valuation Date, then the price of such Commodity with respect to such Valuation Date will be:

- (a) the Commodity Reference Price for such Valuation Date published by the relevant Exchange on the next Commodity Business Day on which there is no Market Disruption Event (the **Determination Day**);
- (b) if the Commodity Reference Price is not determined as per paragraph (a) or is a Limit Price, the Commodity Reference Price published by the relevant Exchange for such Determination Day.

 - (ii) with respect to the Commodity or Commodities which are affected by a Market Disruption Event on the fifth Commodity Business Day, the fair market value of such Commodity or Commodities.

2.2.2 Notwithstanding the foregoing, the prices for a Valuation Date shall be determined by the Calculation Agent at the latest on the fourth Business Day prior to the date of any payment to be made on the basis of determinations made for such Valuation Date. This Condition 2.2 shall not apply to a Barrier Date.

2.3 Consequences of Extraordinary Events affecting the Commodities or Commodity Reference Prices

If, in the determination of the Calculation Agent:

- A. the relevant Commodity Reference Price disappears or permanently discontinues or otherwise becomes unavailable; or
- B. at any time following the first Valuation Date, a material change in the formula or the calculation method for the relevant Commodity Reference Price occurs; or
- C. at any time following the first Valuation Date, a material change in the content, the composition or the constitution of the relevant Commodity occurs,

then the Calculation Agent will be entitled to either:

- Y. determine in good faith the fair market value of the relevant Commodity for the relevant Valuation Date or Barrier Date; or
- Z. replace, to the extent possible, the affected Commodity Reference Price with a similar price.

If the Calculation Agent does not make a determination in accordance with Y above and if in the determination of the Calculation Agent, no price meets the criteria to be an appropriate replacement

price in accordance with Z above, then the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the event giving rise to the relevant adjustment, an Early Redemption Amount on the basis of Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes.

2.4 Consequences of adjustment events affecting the Commodity Reference Price

If a Commodity Reference Price made public on the relevant Price Source's page and utilised in any calculation or determination made under the Notes is subsequently corrected and the correction is made available to the public on the relevant Price Source's page after the original publication but no later than four Commodity Business Days or Index Business Days, as applicable, prior to the Maturity Date or any payment date(s) (as set out in the applicable Final Terms), the Calculation Agent will determine in its sole discretion whether adjustments to the terms of the Notes are necessary to account for such correction. Any adjustment resulting from such correction shall be made in the Calculation Agent's sole discretion.

3. PROVISIONS APPLICABLE TO INDICES ON COMMODITIES

3.1 Index Business Day Adjustment

- 3.1.1 If a Valuation Date is not an Index Business Day with respect to a Commodity Index, then the Valuation Date for such Commodity Index shall be postponed to the next day which is an Index Business Day with respect to such Commodity Index, subject to valuation deadline provisions in Condition 3.1.3 below.
- 3.1.2 If a Barrier Date is not a Common Index Business Day, then such Barrier Date shall be postponed to the next day which is a Common Index Business Day, subject to determination deadline provisions in Condition 3.1.3 below.
- 3.1.3 The foregoing, a Valuation Date or a Barrier Date shall occur not later than the fourth Business Day prior to the date of any payment to be made on the basis of determinations made for such Valuation Date or Barrier Date; as the case may be. Such fourth Business Day shall be deemed to be the Valuation Date or Barrier Date, as relevant, and the Calculation Agent shall determine in good faith the fair market level of the Commodity Index or Commodity Indices for which that fourth Business Day is not an Index Business Day.

3.2 Consequences of Index Disruption Events

- 3.2.1 If a Valuation Date specified in the applicable Final Terms is subject to an Index Disruption Event for a Commodity Index and any Underlying Index, as applicable, the level of such Commodity Index or Underlying Index shall be determined by the Calculation Agent in good faith in accordance with the formula and calculation method for that Commodity Index and Underlying Index, as applicable, last in effect prior to the occurrence of the first Index Disruption Event (subject to determination deadline provisions in Condition 3.2.2 below), using:
- (a) with respect to each commodity comprised in the Commodity Index or any Underlying Index for which no Relevant Futures Contract is affected by an Index Disruption Event, its settlement price as determined and made public by the relevant Exchange for the Valuation Date; and
 - (b) with respect to each commodity comprised in the Commodity Index or any Underlying Index for which one or more Relevant Futures Contract is affected by an Index Disruption Event:
 - (i) the settlement price of Relevant Futures Contracts related to such commodity as determined by the relevant Exchange for the Valuation Date and made public on the Valuation Date or retrospectively on the next Commodity Business Day on which there is no Index Disruption Event with respect to such Relevant Futures Contracts;
 - (ii) if the settlement price is not determined as per (b)(i) above or is a Limit Price, the settlement price of all Relevant Futures Contracts related to such commodity published by

the relevant Exchange for the next Commodity Business Day on which the Index Disruption Event ceases to exist with respect to all Relevant Futures Contracts;

(iii) the settlement price of such Relevant Futures Contracts shall be determined within the 5 Commodity Business Days from and including the relevant Valuation Date for the purposes of paragraph (b)(i) and (b)(ii) above;

(iv) if the settlement price of one or more Relevant Futures Contracts is not determined as per b(i) or b(ii) above, the fair market value of all Relevant Futures Contracts on that fifth Commodity Business Day.

3.2.2 Notwithstanding the foregoing, the date on which the value of a Commodity comprised in the Commodity Index and the level of Commodity Index are determined shall occur not later than the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such date.

3.3 Consequences of Extraordinary Events and adjustments to Indices

A. If a Commodity Index is:

(a) not calculated and made public by the relevant Index Sponsor but is calculated and made public by a relevant successor sponsor (the **Successor Sponsor**) acceptable to the Calculation Agent, or

(b) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for, and method of, calculation as used in the calculation of that Commodity Index;

then the Commodity Index will be deemed to be the index so calculated and made public by the relevant Successor Sponsor or that successor index (as the case may be).

B. If, in the determination of the Calculation Agent:

(a) the relevant Index Sponsor (or if applicable the Successor Sponsor) makes a material change in the formula of a Commodity Index or in any other way materially modifies a Commodity Index (other than a modification prescribed in that formula or method to maintain that Commodity Index in the event of changes in commodities comprised in the Commodity Index and capitalisation and other routine events), or

(b) the Index Sponsor (or, if applicable, the Successor Sponsor) permanently cancels a Commodity Index and no successor commodity index exists;

then the Calculation Agent will be entitled to either:

Y. determine the level of that Commodity Index for the relevant Valuation Date or Barrier Date in accordance with the formula and calculation method for that Commodity Index last in effect prior to that change, failure or cancellation. The Commodity Index so calculated will be used in lieu of the Closing Price made public by the Index Sponsor for the determination of an amount to be paid under the Notes or to determine whether a condition, if any, has occurred or not, or

Z. replace the Commodity Index with a new index to the extent possible, representative of the similar type of commodities comprised in the Index and traded on one or more Exchanges.

If the Calculation Agent does not make a calculation in accordance with (Y) above and if, in the determination of the Calculation Agent, no index meets the criteria to be an appropriate replacement index in accordance with (Z) above, then the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the event giving rise to the relevant adjustment, an Early Redemption Amount on the basis of Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes.

4. CHANGE IN LAW, HEDGING DISRUPTION, INCREASED COST OF HEDGING - AND CONSEQUENCES

4.1 Change in Law, Hedging Disruption, Increased Cost of Hedging

- B. the promulgation of, or any change in the published interpretation by any court, tribunal or regulatory authority with competent jurisdiction or supervisory duty, of any Applicable Regulation (including any action taken by a taxing authority),

the Calculation Agent determines in good faith that:

- Y. it has become illegal or contrary to any Applicable Regulation for Société Générale or any of its affiliates to (a) hold, acquire or dispose of any Hedge Position (as defined below) or (b) maintain the agreement entered into with the Issuer in relation to the Notes or the Underlying(s) of the Notes or to perform its obligations or exercise its rights thereunder; or
- Z. Société Générale or any of its affiliates incurs or there is a substantial likelihood that Société Générale or any of its affiliates will incur increased costs, fees or charges in (a) acquiring, establishing, re-establishing, substituting, maintaining, unwinding or disposing of any Hedge Position or (b) maintaining any agreement entered into with the Issuer in relation to the Notes or the Underlying(s) of the Notes or performing its obligations thereunder.

Hedging Disruption means, with respect to Notes that have one or more Commodity(ies) or one or more Indice(s) as Underlying(s), that, as determined in good faith by the Calculation Agent, Société Générale or any of its affiliates is unable, after using commercially reasonable efforts, to either:

- A. acquire, establish, re-establish, substitute, maintain, unwind or dispose of any Hedge Position; or
- B. freely realize, recover, receive, repatriate, remit or transfer the proceeds of any Hedge Position or any agreement entered into with the Issuer in relation to the Notes or the Underlying(s) of the Notes.

For the purpose hereof, **Hedge Position** means one or more positions in or contracts related to commodities, over-the-counter or exchange-traded commodity derivative transactions, foreign exchange transactions or other instruments or arrangements (howsoever described) necessary to hedge, individually or on a portfolio basis or otherwise, the risks of Société Générale or any of its affiliates of (a) issuing and performing any of the obligations with respect to the Notes or (b) entering into and performing the obligations under the agreement entered into with the Issuer in relation to the Notes or the Underlying(s) of the Notes.

Increased Cost of Hedging means, with respect to Notes that have one or more Commodity(ies) or one or more Indice(s) as Underlying(s), that as determined in good faith by the Calculation Agent, Société Générale or any of its affiliates would incur a materially increased (as compared with circumstances existing on the date (s) on which Société Générale enters into the Hedge Position in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (including, without limitation, price risk, foreign exchange risk and interest rate risk) of entering into and performing its obligations with respect to the Notes or any agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes, or (b) freely realize, recover or remit the proceeds of the proceeds of its Hedge Positions.

4.2 Consequences

Upon the occurrence, as determined by the Calculation Agent in good faith, of a Hedging Disruption or a Change in Law or a Increased Cost of Hedging (the relevant Commodity(ies) as Underlying being the Affected Underlying), the Calculation Agent may:

- X. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case, where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount based on the Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or
- Y. replace, to the extent possible, the Affected Underlying by a new underlying with a similar price; or
- Z. deduct:
 - (i) from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s), the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging or triggered by a Change in Law, incurred by Société Générale or any of its affiliates, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Note (the "**Reduction Amount**"); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Note is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any) , the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or
 - (ii) in the absence of any Interest Amount in respect of the Notes, (a) from the Optional Early Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero).

For the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

2.2.2.2 Postponement to the Adjusted Intermediate Payment Date

The Issuer shall no longer be liable for the payment, of the Intermediate Amount(s) initially scheduled to be paid on the Intermediate Payment Date(s) following the occurrence of the Extraordinary Event, but instead will, in full and final satisfaction of its obligations, pay an amount described in Conditions 2.2.2.2.1 or 2.2.2.2.2 below.

2.2.2.2.1 *In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which could be as low as zero*

Pursuant to the provisions of Condition 2.2.2.2, the Issuer shall pay on the Adjusted Intermediate Payment Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that a Hypothetical Investor would be left with on the Intermediate Full Liquidation Date, as a result of liquidating, within 30 Business Days following the date of occurrence or likely occurrence of the Extraordinary Event, the Intermediate Hypothetical Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hypothetical Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision); for the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Intermediate Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Intermediate Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

Pursuant to the provisions of Condition 2.2.2.2, the Issuer shall pay (1) on the Intermediate Payment Date an amount per Note equal to the Minimum Intermediate Amount and (2) on the Adjusted Intermediate Payment Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

- (i) (a) the net positive cash amount that a Hypothetical Investor would be left with on the Intermediate Full Liquidation Date, as a result of liquidating, within 30 Business Days following the date of occurrence or likely occurrence of the Extraordinary Event, the Intermediate Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hypothetical Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision) and
- (ii) an amount equal to the Minimum Intermediate Amount;

for the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Intermediate Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Intermediate Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

2.2.2.3 Substitution

The Calculation Agent shall (i) identify a fund (the **New Fund**) having an investment strategy similar to the investment strategy of the Fund affected by the Extraordinary Event and (ii) may adjust any relevant terms of the Notes to preserve the economic equivalent of the obligations of the Issuer under the Notes.

2.3 Disruption Events relating to any Fund and/or any Fund Unit

2.3.1 Upon the occurrence or the likely occurrence, as determined by the Calculation Agent, of any of the following events (each a **Disruption Event**) in respect of a Valuation Date (the **Disrupted Day**) and a Fund or Fund Unit (the **Affected Fund**):

- A. **Calculation and/or Publication Disruption** means the occurrence of an event, beyond the control of a Hypothetical Investor (including in case of any gate, deferral, suspension or other provisions in the Fund Documents permitting the Fund to delay or refuse subscription and/or redemption orders) which precludes the calculation and/or publication of the official net asset value per Unit of the Fund by the Fund (or the Fund Service Provider generally in charge of calculating such official net asset value); or
- B. **Fund Settlement Disruption** means a failure by the Fund to pay in cash the full amount of the redemption proceeds on the date by which the Fund was scheduled to have paid such amount and which, in the determination of the Calculation Agent, makes it impossible or impracticable for the Calculation Agent to determine the Closing Price, including without limitation due to (a) the transfer of all illiquid assets of such Fund to a dedicated fund, account or structure pending the liquidation of such assets for the benefit of existing holders of the Fund Units (side pocket), (b) the restriction on the amount or number of redemptions orders that the Fund (or the Fund Service Provider generally in charge of accepting redemption orders) will accept in relation to a single date on which the Fund normally accepts redemption orders (a gate), (c) the suspension for any reason of the subscription or redemption orders by the Fund (or the Fund Service Provider generally in charge of accepting subscription and redemption orders), or (d) the postponement of the payment of the balance of redemption proceeds to a date occurring after the financial statements of the Fund have been reviewed by the Fund's statutory auditors (holdback), in each case whether these events are imposed by the Fund without being envisaged in the Fund Documents on the Issue Date of the Notes or are already envisaged by the Fund Documents on the Issue Date of the Notes and are solely implemented by the Fund after such date; or
- C. **NAV Determination Disruption Event** means the occurrence of any event (beyond the control of a Hypothetical Investor) other than the events mentioned in "*Calculation and/or Publication Disruption*" in (A) above or "*Fund Settlement Disruption*" in (B) above affecting such Fund which, in the determination of the Calculation Agent, makes it impossible or impracticable for the Calculation Agent to determine the Closing Price,

the Valuation Date, in respect of the Affected Fund, shall be postponed to the immediately following Fund Business Day or Fund Valuation Day (as specified in relation to such Valuation Date in the applicable Final Terms) that is no longer affected by a Disruption Event for such Affected Fund.

If a Disruption Event has occurred or is continuing on each of the five scheduled Fund Business Days or Fund Valuation Days, as the case may be, following the Scheduled Valuation Date or if no Fund Business Day or Fund Valuation Day, as the case may be, that is not affected by a Disruption Event has occurred at the latest on the thirty-fifth calendar day following the Scheduled Valuation Date, then the Calculation Agent may either:

- X. determine its good faith estimate of the net asset value per Unit of such Fund which shall be deemed to be the Closing Price in respect of such Valuation Date;
- Y. consider such Disruption Event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In the case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or
- Z. determine that the Issuer will apply either (i) "Monetisation until the Maturity Date" or "Postponement to the Adjusted Intermediate Payment Date" in respect of any Intermediate Amount and/or (ii) "Monetisation until the Maturity Date" in respect of the Final Redemption Amount or (iii) Substitution.

Notwithstanding the foregoing, a Valuation Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date; if a Valuation Date (postponed as the case may be pursuant to the provisions above) would fall after the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date, then that fourth Business Day shall be deemed the Valuation Date and the Calculation Agent shall elect to make the determinations and/or adjustments described in either (X), (Y) or (Z) above on such fourth Business Day and, in case the Calculation Agent elects to make the determinations described in (X) above, the good faith estimate of the net asset value of the Fund so calculated shall be deemed the Closing Price.

Provided however that

**ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES
PART A (2009 DEFINITIONS) AND PART B (2014 DEFINITIONS)**

The provisions of these Additional Terms and Conditions for Credit Linked Notes apply if the applicable Final Terms specify that the clause (i) “*Type of Structured Notes*” is stated as being “*Credit Linked Notes*” and (ii) “*Credit Linked Notes Provisions*” is stated as being “*Applicable*”. In such a case, the “*Credit Linked Notes Provisions*” of the applicable Final Terms will also specify whether “*Part A (2009 definitions)*” or “*Part B (2014 definitions)*” of these Additional Terms and Conditions for Credit Linked Notes applies.

Capitalised terms used but not defined herein shall have the meanings given to them in the General Terms and Conditions of the Notes.

PART A (2009 DEFINITIONS)

Capitalised terms used but not defined in Condition 1 of this “*Part A (2009 definitions)*” have the meanings given to them in Condition 2 of this “*Part A (2009 definitions)*”, save to the extent it is completed in the applicable Final Terms.

For the purposes of this “Part A (2009 definitions)”:

“**” means that the section so indicated will be deemed not to apply if the applicable Final Terms specify that the clause “*Settlement Method*” is stated as being “*Physical Settlement*”.

“***” means that the section so indicated will be deemed not to apply if the applicable Final Terms specify that the clause “*Settlement Method*” is stated as being “*Cash Settlement*”.

1. CREDIT EVENT PROVISIONS

1.1 Physical Settlement

If the Notes are Single Name Notes or First-to-Default Notes and if the applicable Final Terms specify that the clause “Settlement Method” is stated as being “Physical Settlement”:

1.1.1 Physical Settlement

1.1.1.1 If a Credit Event has occurred, as determined by the Calculation Agent, in the period from and including the First Credit Event Occurrence Date to and including the Last Credit Event Occurrence Date and a Credit Event Notice and, if applicable a Notice of Publicly Available Information, are delivered during the Notice Delivery Period by or on behalf of the Issuer to the relevant Clearing System for the Noteholders' information, then (i) the Issuer will no longer be liable for the payment of the Final Redemption Amount on the Scheduled Maturity Date or on the Maturity Date, as the case may be, and will, in full and final satisfaction of its obligations hereunder in respect of the redemption of each Note, Deliver or procure Delivery of the Physical Delivery Amount to the Noteholders during the Physical Settlement Period, subject to the next following paragraph and the cash settlement provisions hereafter and (ii) the Interest Period(s) and/or the Interest Calculation Amount shall be as specified in Condition 1.3 below.

The Delivery of the Specified Deliverable Obligations (or the payment of the Cash Redemption Amount, as the case may be) is subject to the prior delivery by or on behalf of the Issuer to the relevant Clearing System for the Noteholders' information, of a Notice of Physical Settlement between the Credit Event Determination Date and the Latest Notification Date (both dates inclusive).

1.1.1.2 Following the occurrence of a Credit Event with respect to a Reference Entity, the Issuer has sole and absolute discretion to select the Specified Deliverable Obligations.

1.1.1.3 The Issuer will not necessarily Deliver all the Specified Deliverable Obligations on the same date and may Deliver Specified Deliverable Obligations to different Noteholders on different dates or to the same Noteholder on different dates.

1.1.1.4 The Issuer is not obliged to Deliver the same type and proportion of Deliverable Obligations to each Noteholder and a Noteholder may receive various types of Deliverable Obligations.

1.1.1.5 If any or all of the Specified Deliverable Obligations are not eligible for clearance by the relevant Clearing System, then the Issuer may, at its discretion but upon prior notice to the Noteholders, arrange:

- (A) Delivery of those Specified Deliverable Obligations (if any) that are eligible for clearance by the relevant Clearing System in the relevant Clearing System and Delivery of those Specified Deliverable Obligations that are not eligible for clearance by the relevant Clearing System outside the relevant Clearing System; or
- (B) Delivery of all the Specified Deliverable Obligations (whether or not those Specified Deliverable Obligations are eligible for clearance) outside the relevant Clearing System.

The relevant Clearing System will then be instructed to block and, upon confirmation by the Issuer that delivery has taken place, cancel the Noteholders' positions in its books and the Fiscal Agent in turn will cancel the outstanding Notes. If Delivery is to take place outside the relevant Clearing System, the Issuer shall have to receive the relevant Noteholders' transfer instructions, in terms that are satisfactory to the Issuer, sufficiently before the Latest Permissible Physical Settlement Date to allow for physical settlement, otherwise the cash settlement provisions set out below will apply.

1.1.2 Cash Settlement

1.1.2.1 If, on the Latest Permissible Physical Settlement Date, the Calculation Agent (acting on behalf of the Issuer) determines that it is Illegal or Impossible for the Issuer to Deliver all or part of the Specified Deliverable Obligations to all or some of the Noteholders or if the Issuer does not receive transfer instructions as described in the last sentence of Condition 1.1.1.5 above, then the Calculation Agent will calculate a Cash Redemption Amount, in respect of such part of the Specified Deliverable Obligations which are Undeliverable Obligations, and the Issuer will, on the Cash Redemption Date, pay or procure payment of a Cash Redemption Amount to the relevant Noteholders in full and final satisfaction of its obligations in respect of the Undeliverable Obligations.

1.1.2.2 The Issuer must notify the relevant Noteholders through the relevant Clearing System that there are Undeliverable Obligations and the reasons why it is Illegal or Impossible to Deliver such Specified Deliverable Obligations.

1.1.2.3 If, before the Latest Permissible Physical Settlement Date, the Calculation Agent determines that the Delivery of all of the Specified Deliverable Obligations is Illegal or Impossible, and it deems in good faith that such Delivery is to remain Illegal or Impossible until the Latest Permissible Physical Settlement Date, then the Calculation Agent may give notice thereof to the relevant Clearing System for the attention of the Noteholders. The Credit Valuation Date will then be the date that is two Business Days after the date on which the Calculation Agent delivers such notice to the relevant Clearing System, and the Issuer will pay the Noteholders a Cash Redemption Amount on the Cash Redemption Date in full and final satisfaction of its obligations in respect of the Undeliverable Obligations.

1.1.2.4 If Delivery is partially Illegal or Impossible, the Issuer may, for each Noteholder, Deliver the Specified Deliverable Obligations and pay a Cash Redemption Amount. The Issuer shall not be obliged to ensure that each Noteholder receives the same type and proportion of Deliverable Obligations and the same proportion of Deliverable Obligations and Cash Redemption Amount as each other Noteholder.

1.1.2.5 If Condition 1.1.2.1 or Condition 1.1.2.3 above applies, the Issuer may arrange that all settlements hereunder be made outside the relevant Clearing System in the manner described in Condition 1.1.1.5 above provided that the Issuer receives transfer instructions in terms that are satisfactory to the Issuer to allow for such settlements.

1.1.2.6 The Calculation Agent will inform the Noteholders via the relevant Clearing System of the Cash Redemption Amount by sending a Final Valuation Notice.

1.2 Cash Settlement

If the applicable Final Terms specify that the clause "Settlement Method" is stated as being "Cash Settlement":

- 1.2.1 If a Credit Event has occurred, as determined by the Calculation Agent, in the period from and including the First Credit Event Occurrence Date to and including the Last Credit Event Occurrence Date and if a Credit Event Notice and, if applicable, a Notice of Publicly Available Information, are delivered during the Notice Delivery Period by or on behalf of the Issuer to the Noteholders, then:
- (i) the Issuer will no longer be liable for the payment of the Final Redemption Amount on the Scheduled Maturity Date or on the Maturity Date, as the case may be, and will pay or procure payment of the Cash Redemption Amount on the Cash Redemption Date (subject as specified in Condition 1.2.2 below), in full and final satisfaction of its obligations hereunder in respect of the redemption of each Note, and
 - (ii) the Interest Period(s) and/or the Interest Calculation Amount shall be as specified in Condition 1.3 below. The Selected Obligations, the Cash Redemption Amount and the Cash Redemption Date shall be notified to the Noteholders in the Final Valuation Notice on the Final Valuation Notice Receipt Date.
- 1.2.2 In the case of Basket Notes or Tranche Notes, if an Unsettled Credit Event has occurred, a Preliminary Cash Redemption Amount will be payable on the Scheduled Maturity Date and a Residual Cash Redemption Amount will be payable on the Maturity Date.
- 1.2.3 For the avoidance of doubt, under no circumstances will the Final Value be determined later than the 180th Business Day following the corresponding Credit Event Determination Date.

The last Interest Period will be the Interest Period (if any) ending on the earlier of (i) the Interest Observation Date immediately preceding the Credit Event Determination Date and (ii) the Scheduled Maturity Date. The last Interest Payment Date will be the Maturity Date. No interest shall accrue nor be payable from (and including or, in respect of Uncertificated Swedish Notes, but excluding) the Interest Observation Date preceding the Credit Event Determination Date (or the Interest Commencement Date in the case of a Credit Event Determination Date occurring before the first Interest Observation Date) to the Maturity Date.

- (l) *If the applicable Final Terms specify that the clause “Observed Interest” is stated as being “Applicable” and if (i) the clause “Accrual of Interest upon Credit Event” is stated as being “No Accrued Interest upon Credit Event” and (ii) “Repudiation /Moratorium” or “Grace Period Extension” is stated as being “Applicable”:*

The last Interest Period will be the Interest Period (if any) ending on the earlier of (i) the Interest Observation Date immediately preceding the Credit Event Determination Date and (ii) the Scheduled Maturity Date. The last Interest Payment Date will be the Maturity Date.

Provided that, if (i) the Credit Event that is the subject of the Credit Event Notice is a Repudiation/Moratorium that occurs after the Scheduled Last Credit Event Occurrence Date, (ii) the Potential Repudiation/Moratorium with respect to such Repudiation/Moratorium occurs on or prior to the Scheduled Last Credit Event Occurrence Date and (iii) the Repudiation/Moratorium Extension Condition is satisfied, the last Interest Payment Date shall be the Maturity Date.

Provided further that, if (i) the Credit Event that is the subject of the Credit Event Notice is a Failure to Pay that occurs after the Scheduled Last Credit Event Occurrence Date and (ii) the Potential Failure to Pay with respect to such Failure to Pay occurs on or prior to the Scheduled Last Credit Event Occurrence Date, the last Interest Payment Date shall be the Maturity Date.

No interest shall accrue nor be payable from (and including or, in respect of Uncertificated Swedish Notes, but excluding) the Interest Observation Date preceding the Credit Event Determination Date (or the Interest Commencement Date in case of a Credit Event Determination Date occurring before the first Interest Observation Date) to the Maturity Date. In the event the Maturity Date falls after the Scheduled Maturity Date, no interest will be payable from (and including or, in respect of Uncertificated Swedish Notes, but excluding) the Scheduled Maturity Date to the Maturity Date.

- 1.3.2.4 The Interest Payment Date(s) will be the Interest Payment Date(s) specified as such in the applicable Final Terms, subject to the provisions below.

The last (or if there is only one, the only) Interest Period will end on (but exclude or, in respect of Uncertificated Swedish Notes, and include) the earlier of the Maturity Date and the Scheduled Maturity Date. 1.3.3 Common provisions to Single Name Notes, First-to-Default Notes, Basket Notes and Tranche Notes

For the avoidance of doubt, except in the case of a Guaranteed Coupon, if a Notice of Pending Credit Event is delivered to the Noteholders, payment of interest on the Notes, or, in the case of Basket Notes or Tranche Notes, on the portion of the Interest Calculation Amount relating to the relevant Reference Entity, will be deferred until:

- (A) if a Credit Event Notice is delivered in relation to the relevant event, the Maturity Date, or in the case of Basket Notes or Tranche Notes, the Scheduled Maturity Date or the Maturity Date, as the case may be; or
- (B) the date that is 10 Payment Business Days (or in respect of Uncertificated Swedish Notes or Uncertificated Finnish Notes, 18 Payment Business Days) following the publication of a DC No Credit Event Announcement; or
- (C) if no DC No Credit Event Announcement is published and no Credit Event Notice is delivered in relation to the relevant event, the date that is 100 Business Days + 10 Payment Business Days (or in respect of Uncertificated Swedish Notes or Uncertificated Finnish Notes, 100 Business Days + 18 Payment Business Days) following the Credit Event Resolution Request Date (all as defined in Condition 2 below).

For the avoidance of doubt, (x) should a Credit Event Determination Date occur within an Interest Period less than four Business Days (or in respect of Uncertificated Swedish Notes or Uncertificated Finnish Notes, twelve Business Days) prior to the relevant Interest Payment Date and the Issuer's payment instructions have already been given in respect of interest payable with respect to such Interest Period, then the Issuer may deduct from the Cash Redemption Amount or the Physical Delivery Amount, as the case may be, the amount of overpaid interest; and (y) if payment of interest is deferred following the delivery of a Notice of Pending Credit Event, no additional interest will be payable on the Suspended Amounts for the period of the deferral.

1.4 Credit Event Notice after Restructuring

Upon the occurrence of a Restructuring in the period from and including the First Credit Event Occurrence Date to and including the Last Credit Event Occurrence Date if either "Restructuring Maturity Limitation and Fully Transferable Obligation" or "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation" is specified as applicable in the applicable Final Terms:

1.4.1 Single Name Notes and First-to-Default Notes

If the applicable Final Terms specify that the clause "Settlement Type" is stated as being "American Settlement":

- 1.4.1.1 the Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth an amount (the **Partial Redemption Amount**) that is less than the Nominal Amount outstanding of each Note immediately prior to the delivery of such Credit Event Notice. In such circumstances the provisions of Condition 1.1 or Condition 1.2 and of Condition 1.3 shall be deemed to apply to the Partial Redemption Amount only and each such Note shall be redeemed in part (such redeemed part being equal to the Partial Redemption Amount);
- 1.4.1.2 for the avoidance of doubt (i) the Nominal Amount of each such Note not so redeemed in part shall remain outstanding and, if applicable, interest shall accrue on the Nominal Amount outstanding of such Note as provided in the applicable Final Terms (adjusted in such manner as the Calculation Agent in its sole and absolute discretion determines to be appropriate) and (ii) the provisions of Condition 1.1 or Condition 1.2 and of Condition 1.3 shall apply to such Nominal Amount outstanding of such Note in the event that subsequent Credit Event Notices are delivered in respect of a Reference Entity; and
- 1.4.1.3 on redemption of part of each Note, the relevant Note or, if the Notes are represented by a Global Note, such Global Note, shall be endorsed to reflect such partial redemption.

For the avoidance of doubt, the outstanding Nominal Amount of each Note in respect of which no Credit Event Notice has been delivered during the Notice Delivery Period (and, if applicable, no Potential

Repudiation/Moratorium or Potential Failure to Pay has occurred on or prior to the Scheduled Last Credit Event Occurrence Date), will be redeemed on the Scheduled Maturity Date.

If the applicable Final Terms specify that the clause "Settlement Type" is stated as being "European Settlement":

- 1.4.1.4 the Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth an amount (the **Partial Redemption Amount**) that is less than the Nominal Amount outstanding of each Note immediately prior to the delivery of such Credit Event Notice. In such circumstances the provisions of Condition 1.1 or Condition 1.2 and of Condition 1.3 shall apply to the Partial Redemption Amount; and
- 1.4.1.5 for the avoidance of doubt the provisions of Condition 1.1 or Condition 1.2 and of Condition 1.3 shall apply to the Nominal Amount of each Note outstanding after reduction by such Partial Redemption Amount in the event that subsequent Credit Event Notices are delivered in respect of a Reference Entity.

1.4.2 Basket Notes and Tranche Notes

- (a) The Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth an amount (the **Partial Restructuring Notional Amount**) that is less than the Reference Entity Notional Amount of the relevant Reference Entity immediately prior to the delivery of such Credit Event Notice. In such circumstances the provisions of Condition 1.2 shall apply to the Partial Restructuring Notional Amount instead of the Reference Entity Notional Amount; and
- (b) For the avoidance of doubt, following such Restructuring, the provisions of these Additional Terms and Conditions for Credit Linked Notes - Part A (2009 definitions) shall apply in respect of the relevant Reference Entity with such Reference Entity's Reference Entity Weighting being reduced by the ratio of the Partial Restructuring Notional Amount divided by the Reference Portfolio Notional Amount. In the event of the occurrence of further Restructurings with respect to such Reference Entity, the relevant Reference Entity Notional Amount will be further reduced by the relevant Partial Restructuring Notional Amount.

1.5 Multiple Successors

If the applicable Final Terms specify that the clause "Type of Credit Linked Notes" is stated as being "Single Name Notes" and if "Multiple Successor(s)" is stated as being as "Applicable" the following provisions shall apply:

Where, pursuant to the definition of **Successor** (see Condition 2 of these Additional Terms and Conditions for Credit Linked Notes – Part A (2009 definitions)), more than one Successor has been identified, each such Successor (a **Multiple Successor**) shall be a Reference Entity for the purposes of the Conditions, but only in respect of a principal amount of each Note equal to the Nominal Amount divided by the number of Multiple Successors to such Reference Entity (the **Multiple Successor Notional Amount**) as determined by the Calculation Agent. Where Multiple Successors to such Reference Entity (each, a **Sub-Multiple Successor**) have been identified in respect of a Reference Entity (an **Original Multiple Successor**) that is itself a Multiple Successor, each such Sub-Multiple Successor shall be a Reference Entity for the purposes of the Conditions, but the Multiple Successor Notional Amount in respect of a Sub-Multiple Successor shall be equal to the Multiple Successor Notional Amount in respect of such Original Multiple Successor divided by the number of Sub-Multiple Successors to such Original Multiple Successor. Following the delivery of a Credit Event Notice and, if applicable a Notice of Publicly Available Information, in respect of a Multiple Successor, the Notes will not be redeemed in whole but an amount shall be deliverable or, as the case may be, payable in respect of each Note (an **Instalment Amount**) which amount shall be determined in the same manner, *mutatis mutandis*, as the Physical Delivery Amount or Cash Redemption Amount that would otherwise have been determined in respect of such a Credit Event in relation to the original Reference Entity, except that it shall be in respect of a principal amount of each Note equal to the relevant Multiple Successor

Notional Amount only. The date of delivery or payment, as the case may be, of any such Instalment Amount (an **Instalment Date**) shall be determined in the same manner, *mutatis mutandis*, as the Physical Settlement Date or Cash Redemption Date that would otherwise have been determined in respect of such a Credit Event in relation to the original Reference Entity. The provisions of Condition 1.3 shall apply, *mutatis mutandis*, to determine the amount of interest that would otherwise have been determined following the occurrence of such a Credit Event in relation to the original Reference Entity, except that it shall be in respect of a principal amount of each Note equal to the relevant Multiple Successor Notional Amount only. More than one Instalment Amount may be delivered or payable on the same day in respect of different Multiple Successors, but not more than one Credit Event Notice may be delivered in relation to a single Multiple Successor unless a Restructuring occurs in relation to a Multiple Successor, in which case the provisions of Condition 1.4 will apply in respect of each such Multiple Successor. Upon the determination by the Calculation Agent of the identity of Multiple Successors, the Calculation Agent shall determine the modifications required to be made to the Conditions and any other related documents, to preserve substantially the economic effect for a Noteholder of a holding of the Notes and the Issuer shall use its reasonable endeavours to effect such modifications.

If the applicable Final Terms specify that the clause "Settlement Type" is stated as being "American Settlement":

Following delivery or payment of an Instalment Amount in respect of a Credit Event relating to a Multiple Successor, the outstanding Nominal Amount of each Note shall be correspondingly reduced by the proportion of such principal amount so redeemed and, if applicable, interest on each Note shall accrue on the reduced Nominal Amount of each Note from the date on which it would otherwise have ceased to accrue following delivery of a Credit Event Notice and, if applicable a Notice of Publicly Available Information in relation to the original Reference Entity.

If the applicable Final Terms specify that the clause "Settlement Type" is stated as being "European Settlement":

Following the occurrence of a Credit Event relating to a Multiple Successor, the outstanding Nominal Amount of each Note shall be correspondingly reduced by the proportion of such principal amount and, if applicable, interest on each Note shall accrue on the reduced Nominal Amount of each Note from the date on which it would otherwise have ceased to accrue following delivery of a Credit Event Notice and, if applicable a Notice of Publicly Available Information in relation to the original Reference Entity.

If the applicable Final Terms specify that the clause "Type of Credit Linked Notes" is stated as being "Single Name Notes" and if "Multiple Successor(s)" is stated as being "Not Applicable" the following provisions shall apply:

Should more than one Successor succeed to the Reference Entity and a Credit Event occurs in respect of any one of them, the Notes will be redeemed in whole in accordance with the "Settlement Method" specified in the applicable Final Terms, as if the Type of Credit Linked Notes was specified as "First-to-Default Notes" in the applicable Final Terms.

For the avoidance of doubt, this Condition 1.5 will not apply to First-to-Default Notes, Basket Notes and Tranche Notes.

1.6 Notification of Potential Failure to Pay

In the case of the occurrence of a Potential Failure to Pay, as determined by the Calculation Agent in its sole and absolute discretion, the Issuer, or any entity acting on its behalf, shall use its reasonable endeavours to notify the Noteholders as soon as reasonably practical of such occurrence, pursuant to Condition 13 of the General Terms and Conditions of the Notes.

1.7 Partial Redemption and Further Issues

Following any partial redemption of the Notes (pursuant to Condition 5 of the General Terms and Conditions of the Notes) or any further issue (pursuant Condition 14 of the General Terms and

Conditions of the Notes), each of the following amounts will be multiplied by the ratio of (i) the number of Notes in circulation after such partial redemption or further issue divided by (ii) the number of Notes in circulation just before such partial redemption or further issue:

- (A) for Single Name Notes and First-to-Default Notes, the Aggregate Nominal Amount;
- (B) for Basket Notes which are not Tranche Notes, (i) the Aggregate Nominal Amount, (ii) the Reference Portfolio Notional Amount and (iii) the Aggregate Loss Amount;
- (C) for Tranche Notes, (i) the Aggregate Nominal Amount, (ii) the Reference Portfolio Notional Amount, (iii) the Aggregate Loss Amount, (iv) the Tranche Notional Amount and (v) the Tranche Subordination Amount.

For the avoidance of doubt, any other amount the calculation of which depends on the above amounts will be re-calculated accordingly.

1.8 Hedging Disruption, Increased Cost of Hedging, Change in Law, Merger of a Reference Entity and Société Générale or any of its Affiliates, Consequences and Monetisation until the Maturity Date

1.8.1 Hedging Disruption, Increased Cost of Hedging

Hedging Disruption means, in respect of Notes that have one or more Reference Entity(ies), that, as determined in good faith by the Calculation Agent, Société Générale or any of its Affiliates is unable, after using commercially reasonable efforts, to (a) acquire, establish, re-establish, substitute, maintain, unwind and/or dispose of any transaction(s) or asset(s) it deems necessary to hedge the credit price risk (or any other relevant price risk including, but not limited to, the interest rate, equity and currency risk) of entering into and performing its obligations with respect to the Notes or any agreement entered into by the Issuer of the Notes with Societe Generale or any of its Affiliates in relation to the Notes; and/or (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of any Hedge Positions or any agreement entered into with the Issuer or any of its Affiliates in relation to the Notes.

Increased Cost of Hedging means, in respect of Notes that have one or more Reference Entity(ies), that Société Générale or any of its Affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Société Générale or any of its Affiliates enters into the Hedge Positions in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the credit price risk (or any other relevant price risk including, but not limited to, the interest rate, equity and currency risk) of entering into and performing its obligations with respect to the Notes or any agreement entered into with the Issuer or any of its Affiliates of the Notes in relation to the Notes or (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of any Hedge Positions or any agreement entered into with the Issuer or any of its Affiliates in relation to the Notes.

1.8.2 Change in Law

Change in Law means in respect of Notes that have one or more Reference Entity(ies) that, on or after the first to occur of (a) the Issue Date and (b) the trade date of any Hedge Position (i) due to the adoption of, or any change in, any applicable law or regulation (including without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority or brought in a court of competent jurisdiction), the Calculation Agent determines in good faith that it has become illegal for Société Générale or any of its Affiliates to hold, acquire or dispose of Hedge Positions (as defined in Condition 1.8.5) or to maintain the agreement entered into with Société Générale or any of its Affiliates by the Issuer of the Notes.

1.8.3 Merger of a Reference Entity and Société Générale or any of its Affiliates

Merger of a Reference Entity and Société Générale or any of its Affiliates means, in respect of Single Name Notes or First-to-Default Notes or Basket Notes, that (i) Société Générale or any of its Affiliates consolidates or amalgamates with, or merges into, or transfers all or substantially all its assets to, a Reference Entity or (ii) a Reference Entity consolidates or amalgamates with, or merges into, or transfers all or substantially all its assets to Société Générale or any of its Affiliates, or (iii) Société Générale or any of its Affiliates and a Reference Entity become Affiliates.

1.8.4 Consequences

Upon the occurrence, as determined by the Calculation Agent in good faith, on or prior to the fourth Business Day (or in respect of Uncertificated Swedish Notes or Uncertificated Finnish Notes, the twelfth Business Day) before the Maturity Date of a Hedging Disruption, an Increased Cost of Hedging, Change in Law, or a Merger of a Reference Entity and Société Générale or any of its Affiliates, then the Calculation Agent may decide, to either:

- (A) consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In the case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or
- (B) if the Hedging Disruption, Increased Cost of Hedging, Change in Law and/or Merger of a Reference Entity and Société Générale or any of its Affiliates is applicable to one or several affected Reference Entities (the **Affected Reference Entity(ies)**), replace the Affected Reference Entity(ies) by a new reference entity (or new reference entities, as relevant) which is (respectively are each) a Similar Reference Entity; or
- (C) apply the Monetisation until the Maturity Date;

or, but only in the case of Increased Cost of Hedging:

- D. deduct:
 - (i) from the Interest Amount (if any) due under the Notes on the Interest Payment Date(s) following the occurrence of the Increased Cost of Hedging, the amount of any new, or any increase of, any tax, duty, expense or fee, that triggered the occurrence of the Increased Cost of Hedging incurred by Societe Generale or any of its Affiliates in relation to the Hedge Positions hedging the payment obligations of the Issuer under the Notes, such amount to be apportioned *pro rata* amongst the outstanding Notes (the **Reduction Amount**); PROVIDED THAT if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of each Note is greater than the Interest Amount due under each Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount will be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount) will be deducted from the Interest Amount due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in whole or in part on the last Interest Payment Date under the Notes, the remaining Reduction Amount will be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount, whichever comes first (the reduction of such deduction being floored at zero); or
 - (ii) in the absence of any Interest Amount under the Notes, (a) from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any), due under the Notes on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due on the Maturity Date, in each case after the occurrence of the

Increased Cost of Hedging, the Reduction Amount (the result of such deduction being floored at zero).

Following the occurrence of a Hedging Disruption, an Increased Cost of Hedging, a Change in Law or a Merger of a Reference Entity and Société Générale or any of its Affiliates, the Calculation Agent shall notify the Issuer, which shall in its turn notify the Noteholders pursuant to the provisions of Condition 13 of the General Terms and Conditions of the Notes of the relevant adjustment made or decision taken by the Calculation Agent. Details of any adjustment made or decision taken may be obtained by the Noteholders upon request at the Calculation Agent's specified address.

1.8.5 Monetisation until the Maturity Date

The Issuer will no longer be liable for any payment, on the Maturity Date or any Interest Payment Date, but instead will, in full and final satisfaction of its obligations, pay an amount described in Conditions 1.8.5.1 or 1.8.5.2 below.

1.8.5.1 *In respect of the redemption of Notes whose Final Redemption Amount as defined in the applicable Final Terms could be as low as zero*

Pursuant to the provisions of Condition 1.8.5, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, with a minimum of zero, based on (a) the net positive cash amount that Société Générale or any of its Affiliates would be left with on the Full Liquidation Date, as a result of liquidating the Hedge Positions (*inter alia* by meeting the obligations and the liabilities of the Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge Positions) minus (b) the Associated Costs (the result of this difference (a) minus (b) each converted if necessary in the Specified Currency of the Notes using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Full Liquidation Date (included) and (y) the Maturity Date (excluded); for the avoidance of doubt, the liquidation proceeds of any assets held by Société Générale or any of its Affiliates as Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Société Générale or any of its Affiliates under its Hedge Positions and the Calculation Amount mentioned above may be as low as zero; or

1.8.5.2 *in respect of the redemption of Notes whose Final Redemption Amount as defined in the applicable Final Terms cannot be in any case lower than an amount strictly positive (the Minimum Redemption Amount)*

Pursuant to the provisions of Condition 1.8.5, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the sum of (a) the Minimum Redemption Amount and (b) an amount, equal to the positive difference, if any, between:

- (i) (a) the net positive cash amount that Société Générale or any of its Affiliates would be left with on the Full Liquidation Date, as a result of liquidating the Hedge Positions (*inter alia* by meeting the obligations and the liabilities of the Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge Positions) minus (b) the Associated Costs (the result of this difference (a) minus (b), each converted if necessary in the Specified Currency of the Notes using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Full Liquidation Date (included) and (y) the Maturity Date (excluded); and
- (ii) an amount equal to the Minimum Redemption Amount; for the avoidance of doubt, the liquidation proceeds of any assets held by Société Générale or any of its Affiliates as Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Société Générale or any

of its Affiliates under its Hedge Positions and the Calculation Amount mentioned above may be as low as zero.

Definitions applicable to this Condition:

Associated Costs means an amount determined by the Calculation Agent in its reasonable discretion equal to the sum of (without duplication) all costs (including, without limitation, cost of funding), losses, expenses, tax and duties incurred by Société Générale or any of its Affiliates in connection with the termination, liquidation or re-establishment of the Hedge Positions, such amount to be apportioned *pro rata* amongst the outstanding Notes.

- (b) Any Substitute Reference Obligation or Substitute Reference Obligations shall be an Obligation that (1) ranks *pari passu* in priority of payment with the ranking in priority of payment of each of the Substitute Reference Obligations and such Reference Obligation (with the ranking in priority of payment of such Reference Obligation being determined as of the date as of which such Reference Obligation was issued or incurred and not reflecting any change to such ranking in priority of payment after such date), (2) preserves the economic equivalent, as closely as practicable as determined by the Calculation Agent, of the Issuer's obligations under the Notes and (3) is an obligation of the relevant Reference Entity (either directly or as provider of a Qualifying Affiliate Guarantee, or if All Guarantees is specified as "*Applicable*" in the applicable Final Terms, as provider of any Qualifying Guarantee). - (B) with respect to a Reference Entity that is a Sovereign, an event such as annexation, unification, secession, partition, dissolution, consolidation, reconstitution or other event that results in any direct or indirect successor(s) to such Reference Entity.

Notwithstanding the foregoing, Succession Event shall not include an event (i) in which the holders of obligations of the Reference Entity exchange such obligations for the obligations of another entity, unless such exchange occurs in connection with a merger, consolidation, amalgamation, transfer of assets or liabilities, demerger, spin-off or other similar event or (ii) with respect to which the legally effective date (or in the case of a Reference Entity that is a Sovereign, the date of occurrence) has occurred prior to the Succession Event Backstop Date.

Noteholders at the specified office of the Calculation Agent, and will be notified as part of a notice of Potential Failure to Pay or a Repudiation/Moratorium Extension Notice or a Credit Event Notice (as the case may be) in respect of such a Successor by or on behalf of the Issuer to the Noteholders.

Successor means:

- (A) in relation to a Reference Entity that is not a Sovereign, the entity or entities, if any determined as set forth below:
- (1) If one entity directly or indirectly succeeds to seventy-five per cent. or more of the Relevant Obligations of the Reference Entity by way of a Succession Event, that entity will be the sole Successor and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such sole Successor will be the Reference Entity Weighting of the Reference Entity before the Succession Event.
 - (2) If only one entity directly or indirectly succeeds to more than twenty-five per cent. (but less than seventy five per cent.) of the Relevant Obligations of the Reference Entity by way of a Succession Event, and not more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entity that succeeds to more than twenty-five per cent. of the Relevant Obligations will be the sole Successor and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such sole Successor will be the Reference Entity Weighting of the Reference Entity before the Succession Event.
 - (3) If more than one entity each directly or indirectly succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity by way of a Succession Event, and not more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entities that succeed to more than twenty-five per cent. of the Relevant Obligations will each be a Successor and the terms of the Notes will be amended in accordance with the provisions set out in the definition of Multiple Successor in Condition 1.5 above. In the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of each Successor will be the Reference Entity Weighting of the Reference Entity before the Succession Event, divided by the number of Successors.
 - (4) If one or more entities each directly or indirectly succeed to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity by way of a Succession Event, and more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, each such entity and the Reference Entity will each be a Successor and the terms of the Notes will be amended in accordance with the provisions set out in the definition of Multiple Successor in Condition 1.5 above. In the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of each Successor will be the Reference Entity Weighting of the Reference Entity before the Succession Event, subject to adjustment of the Reference Entity Weighting, divided by the number of Successors.
 - (5) If one or more entities directly or indirectly succeed to a portion of the Relevant Obligations of the Reference Entity by way of a Succession Event, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the terms of the Notes will not be changed in any way as a result of the Succession Event.
 - (6) If one or more entities directly or indirectly succeed to a portion of the Relevant Obligations of the Reference Entity by way of a Succession Event, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations (or, if two or more entities succeed to an equal percentage of Relevant Obligations, the entity from among those entities which succeeds to the greatest percentage of obligations of the Reference Entity) will be the sole Successor and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such sole Successor will be the Reference Entity Weighting of the Reference Entity before the Succession Event.

PROVIDED THAT, in the case of Basket Notes and Tranche Notes, if the resulting Successor of a Reference Entity affected by a Succession Event, or as the case may be, one or more of the several resulting Successors of such Reference Entity is(are) another Reference Entity comprised in the Reference Portfolio at the legally effective date of the Succession Event, the Reference Entity Weighting of the Successor will be the sum of the Reference Entity Weighting of such Successor after the Succession Event as determined in accordance with paragraphs (A)(1), (A)(2), (A)(3), (A)(4) or (A)(6) above and the Reference Entity Weighting of such Successor in effect prior to the Succession Event.

PROVIDED FURTHER THAT, in the case of Basket Notes and Tranche Notes, if two or more Reference Entities are affected by a Succession Event resulting in at least one common Successor, the Reference Entity Weighting of the Successor will be the sum of the Reference Entity Weighting of such Successor after the Succession Event as determined in accordance with paragraphs (A)(1), (A)(2), (A)(3), (A)(4) or (A)(6) above with respect to each Reference Entity in respect of which it is a Successor.

The Calculation Agent will be responsible for determining, as soon as reasonably practicable after it becomes aware of the relevant Succession Event (but no earlier than fourteen calendar days after the legally effective date of the Succession Event), and with effect from the legally effective date of the Succession Event, whether the relevant thresholds set forth above have been met, or which entity qualifies under paragraph (A)(6) above, as applicable. PROVIDED THAT the Calculation Agent will not make such determination if at such time, either (a) ISDA has publicly announced that the conditions to convening a Credit Derivatives Determinations Committee to Resolve in accordance with the Rules (y) whether an event that constitutes a Succession Event has occurred with respect to the relevant Reference Entity and (x) the legally effective date of such event (until such time, if any, as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine a Successor) are satisfied or (b) ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that no event that constitutes a Succession Event has occurred. In calculating the percentages used to determine whether the relevant thresholds set forth above have been met, or which entity qualifies under paragraph (A)(6) above, as applicable, the Calculation Agent shall use, with respect to each applicable Relevant Obligation included in such calculation, the amount of the liability with respect to such relevant Obligation listed in the Best Available Information.

- (B) With respect to a Sovereign Reference Entity, Successor means each entity which becomes a direct or indirect successor to such Reference Entity by way of a Succession Event, irrespective of whether any such successor assumes any of the obligations of such Reference Entity.

The Calculation Agent will be responsible for determining, as soon as reasonably practicable after it becomes aware of the relevant Succession Event (but no earlier than fourteen calendar days after the date of the occurrence of the relevant Succession Event), and with effect from the date of the occurrence of the Succession Event, each Sovereign and/or entity, if any, that qualifies under paragraph (B) above. PROVIDED THAT the Calculation Agent will not make such determination if at such time, either (a) ISDA has publicly announced that the conditions to convening a Credit Derivatives Determinations Committee to Resolve in accordance with the Rules (y) whether an event that constitutes a Succession Event has occurred with respect to the relevant Reference Entity and (x) the date of the occurrence of such event (until such time, if any, as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine a Successor) are satisfied or (b) ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that no event that constitutes a Succession Event has occurred. A notice will be sent by or on behalf of the Issuer to the Noteholders evidencing the Succession Event and giving all necessary relevant indications as to the Successor(s), the Multiple Successor Notional Amount (if applicable), the Reference Entity Weighting (if applicable) and the change in Reference Obligation(s).

PROVIDED THAT (for paragraphs (A) and (B) above), *if the applicable Final Terms specify that the clause "N-to-M-to-Default" is stated as being "Applicable" or in respect of First-to-Default Notes*, the Calculation Agent will adjust the effect of any Succession Event as necessary so that in all cases the number of Reference Entities in the Reference Portfolio will remain unchanged and *if the applicable Final Terms specify that the clause "N-to-M-to-Default" is stated as being "Applicable"*, so that the Reference Entity Weighting will remain the same for all Reference Entities comprised in the Reference Portfolio, in particular:

- (1) if the resulting Successor of a Reference Entity (the **Legacy Reference Entity**) affected by a Succession Event is another Reference Entity comprised in the Reference Portfolio (the **Surviving Reference Entity**) at the legally effective date of the Succession Event, the Calculation Agent acting in good faith and in its sole discretion shall select a new entity having an equivalent Rating (as defined below) or an equivalent credit risk (if no Rating is available) to the Legacy Reference Entity immediately prior to the occurrence of the Succession Event; such new entity shall be deemed to have replaced the Legacy Reference Entity as Reference Entity effective on and from the date of the Succession Event and *if the applicable Final Terms specify that the clause "N-to-M-to-Default" is stated as being "Applicable"*, the Reference Entity Weighting of the Surviving Reference Entity shall remain the Reference Entity Weighting of the Surviving Reference Entity in effect prior to the Succession Event and the Reference Entity Weighting of the entity having replaced the Legacy Reference Entity shall be equal to the Reference Entity Weighting of the Legacy Reference Entity prior to the Succession Event; and
- (2) if a Succession Event would result in more than one Successor (the **Potential Successors**) to a Reference Entity, the Calculation Agent shall select in its sole discretion only one entity (the **Chosen Successor**) among the Potential Successors to replace the Reference Entity; the Chosen Successor shall be deemed to have replaced the Reference Entity and *if the applicable Final Terms specify that the clause "N-to-M-to-Default" is stated as being "Applicable"*, its Reference Entity Weighting shall be equal to the Reference Entity Weighting of the Reference Entity prior to the Succession Event.

For the purposes of this definition **Rating** means the senior unsecured debt rating assigned by the three rating agencies Moody's Investor Service, Inc., Standard & Poor's Ratings Services, a division of Standard & Poor's Credit Market Service Europe Limited and Fitch Ratings or any of them, being understood that if the ratings assigned in respect of an entity are not equivalent, only the highest one(s) will be taken into consideration.

Transaction Type means, in respect of a Reference Entity, the transaction type specified in the applicable Final Terms.

- (B) restrictions on permitted investments such as statutory or regulatory investment restrictions on insurance companies and pension funds.

If the [Deliverable]**[Selected]* Obligation Characteristic Transferable is specified as "*Applicable*" in the applicable Final Terms, such Final Terms shall be construed as though such [Deliverable]**[Selected]* Obligation Characteristic had been specified as a [Deliverable]**[Selected]* Obligation Characteristic only with respect to [Deliverable]**[Selected]* Obligations that are not Loans (and shall only be relevant to the extent that obligations other than Loans are covered by the specified [Deliverable]**[Selected]* Obligation Category).

PART B (2014 DEFINITIONS)

Capitalised terms used but not defined in Condition 1 of this “*Part B (2014 definitions)*” have the meanings given to them in Condition 2 of this “*Part B (2014 definitions)*”, save to the extent it is completed in the applicable Final Terms.

For the purposes of this “Part B (2014 definitions)”:

“*” means that the section so indicated will be deemed not to apply if the applicable Final Terms specify that the clause “*Settlement Method*” is stated as being “*Physical Settlement*”.

“**” means that the section so indicated will be deemed not to apply if the applicable Final Terms specify that the clause “*Settlement Method*” is stated as being “*Cash Settlement*”.

1. CREDIT EVENT PROVISIONS

1.1 Physical Settlement

If the Notes are Single Name Notes or First-to-Default Notes and if the applicable Final Terms specify that the clause “Settlement Method” is stated as being “Physical Settlement”:

1.1.1 Physical Settlement

1.1.1.1 If a Credit Event has occurred, as determined by the Calculation Agent, in the period from and including the First Credit Event Occurrence Date to and including the Last Credit Event Occurrence Date and a Credit Event Notice and, unless specified as “*Not Applicable*” in the applicable Final Terms, a Notice of Publicly Available Information, are delivered during the Notice Delivery Period by or on behalf of the Issuer to the relevant Clearing System for the Noteholders' information, then (i) the Issuer will no longer be liable for the payment of the Final Redemption Amount on the Scheduled Maturity Date or on the Maturity Date, as the case may be, and will, in full and final satisfaction of its obligations hereunder in respect of the redemption of each Note, Deliver or procure Delivery of the Physical Delivery Amount to the Noteholders during the Physical Settlement Period, subject to the next following paragraph and the cash settlement provisions hereafter and (ii) the Interest Period(s) and/or the Interest Calculation Amount shall be as specified in Condition 1.3 below.

The Delivery of the Specified Deliverable Obligations (or the payment of the Cash Redemption Amount, as the case may be) is subject to the prior delivery by or on behalf of the Issuer to the relevant Clearing System for the Noteholders' information, of a Notice of Physical Settlement between the Credit Event Determination Date and the Latest Notification Date (both dates inclusive).

1.1.1.2 Following the occurrence of a Credit Event with respect to a Reference Entity, the Issuer has sole and absolute discretion to select the Specified Deliverable Obligations.

1.1.1.3 The Issuer will not necessarily Deliver all the Specified Deliverable Obligations on the same date and may Deliver Specified Deliverable Obligations to different Noteholders on different dates or to the same Noteholder on different dates.

1.1.1.4 The Issuer is not obliged to Deliver the same type and proportion of Deliverable Obligations to each Noteholder and a Noteholder may receive various types of Deliverable Obligations.

1.1.1.5 If any or all of the Specified Deliverable Obligations are not eligible for clearance by the relevant Clearing System, then the Issuer may, at its discretion but upon prior notice to the Noteholders, arrange:

(A) Delivery of those Specified Deliverable Obligations (if any) that are eligible for clearance by the relevant Clearing System in the relevant Clearing System and Delivery of those Specified Deliverable Obligations that are not eligible for clearance by the relevant Clearing System outside the relevant Clearing System; or

- (B) Delivery of all the Specified Deliverable Obligations (whether or not those Specified Deliverable Obligations are eligible for clearance) outside the relevant Clearing System.

The relevant Clearing System will then be instructed to block and, upon confirmation by the Issuer that delivery has taken place, cancel the Noteholders' positions in its books and the Fiscal Agent in turn will cancel the outstanding Notes. If Delivery is to take place outside the relevant Clearing System, the Issuer shall have to receive the relevant Noteholders' transfer instructions, in terms that are satisfactory to the Issuer, sufficiently before the Latest Permissible Physical Settlement Date to allow for physical settlement, otherwise the cash settlement provisions set out below will apply.

1.1.2 Cash Settlement

- 1.1.2.1 If, on the Latest Permissible Physical Settlement Date, the Calculation Agent (acting on behalf of the Issuer) determines that it is Illegal or Impossible for the Issuer to Deliver all or part of the Specified Deliverable Obligations to all or some of the Noteholders or if the Issuer does not receive transfer instructions as described in the last sentence of Condition 1.1.1.5 above, then the Calculation Agent will calculate a Cash Redemption Amount, in respect of such part of the Specified Deliverable Obligations which are Undeliverable Obligations, and the Issuer will, on the Cash Redemption Date, pay or procure payment of a Cash Redemption Amount to the relevant Noteholders in full and final satisfaction of its obligations in respect of the Undeliverable Obligations.
- 1.1.2.2 The Issuer must notify the relevant Noteholders through the relevant Clearing System that there are Undeliverable Obligations and the reasons why it is Illegal or Impossible to Deliver such Specified Deliverable Obligations.
- 1.1.2.3 If, before the Latest Permissible Physical Settlement Date, the Calculation Agent determines that the Delivery of all of the Specified Deliverable Obligations is Illegal or Impossible, and it deems in good faith that such Delivery is to remain Illegal or Impossible until the Latest Permissible Physical Settlement Date, then the Calculation Agent may give notice thereof to the relevant Clearing System for the attention of the Noteholders. The Credit Valuation Date will then be the date that is two Business Days after the date on which the Calculation Agent delivers such notice to the relevant Clearing System, and the Issuer will pay the Noteholders a Cash Redemption Amount on the Cash Redemption Date in full and final satisfaction of its obligations in respect of the Undeliverable Obligations.
- 1.1.2.4 If Delivery is partially Illegal or Impossible, the Issuer may, for each Noteholder, Deliver the Specified Deliverable Obligations and pay a Cash Redemption Amount. The Issuer shall not be obliged to ensure that each Noteholder receives the same type and proportion of Deliverable Obligations and the same proportion of Deliverable Obligations and Cash Redemption Amount as each other Noteholder.
- 1.1.2.5 If Condition 1.1.2.1 or Condition 1.1.2.3 above applies, the Issuer may arrange that all settlements hereunder be made outside the relevant Clearing System in the manner described in Condition 1.1.1.5 above provided that the Issuer receives transfer instructions in terms that are satisfactory to the Issuer to allow for such settlements.
- 1.1.2.6 The Calculation Agent will inform the Noteholders via the relevant Clearing System of the Cash Redemption Amount by sending a Final Valuation Notice.

1.2 Cash Settlement

If the applicable Final Terms specify that the clause "Settlement Method" is stated as being "Cash Settlement":

- 1.2.1 If a Credit Event has occurred, as determined by the Calculation Agent, in the period from and including the First Credit Event Occurrence Date to and including the Last Credit Event Occurrence Date and if a Credit Event Notice and, unless specified as "Not Applicable" in the applicable Final Terms, a Notice of Publicly Available Information, are delivered during the Notice Delivery Period by or on behalf of the Issuer to the Noteholders, then:

- (i) the Issuer will no longer be liable for the payment of the Final Redemption Amount on the Scheduled Maturity Date or on the Maturity Date, as the case may be, and will pay or procure payment of the Cash Redemption Amount on the Cash Redemption Date (subject as specified in Condition 1.2.2 below), in full and final satisfaction of its obligations hereunder in respect of the redemption of each Note; and
- (ii) the Interest Period(s) and/or the Interest Calculation Amount shall be as specified in Condition 1.3 below. The Selected Obligations, the Cash Redemption Amount and the Cash Redemption Date shall be notified to the Noteholders in the Final Valuation Notice on the Final Valuation Notice Receipt Date.

1.2.2 In the case of Basket Notes or Tranche Notes, if an Unsettled Credit Event has occurred, a Preliminary Cash Redemption Amount will be payable on the Scheduled Maturity Date and a Residual Cash Redemption Amount will be payable on the Maturity Date.

1.2.3 For the avoidance of doubt, under no circumstances will the Final Value be determined later than the 180th Business Day following the corresponding Credit Event Determination Date.

1.3 Provisions relating to Interest

If the applicable Final Terms specify that the clause "Observed Interest" is stated as being "Not Applicable":

Interest Period means each period from (and including or, in respect of Uncertificated Swedish Notes, but excluding) an Interest Payment Date to (but excluding or, in respect of Uncertificated Swedish Notes, and including) the next Interest Payment Date; provided however that the first Interest Period begins on the Interest Commencement Date (inclusive) and the last Interest Period remains subject to the provisions of this Condition 1.

If the applicable Final Terms specify that the clause "Observed Interest" is stated as being "Applicable":

Interest Period means each period from (and including or, in respect of Uncertificated Swedish Notes, but excluding) an Interest Observation Date to (but excluding or, in respect of Uncertificated Swedish Notes, and including) the next Interest Observation Date; provided however that the first Interest Period begins on the Interest Commencement Date (inclusive) and the last Interest Period remains subject to the provisions of this Condition 1.

1.3.1 Single Name Notes and First-to-Default Notes

1.3.1.1 *If the applicable Final Terms specify that the clause "Observed Interest" is stated as being "Not Applicable" and if the clause "Fixed Rate Note Provisions" or "Floating Rate Note Provisions" is specified as being "Applicable":*

The Fixed Coupon Amount or the Floating Coupon Amount (as applicable) payable under each Note for each Interest Period shall be equal to the product of (a) the Rate of Interest, (b) the Nominal Amount (or the Specified Denomination if the clause « *Accrual of Interest upon Credit Event* » is stated as being « *Guaranteed Coupon* » in the applicable Final Terms) and if any (c) the applicable Day Count Fraction.

1.3.3 Common provisions to Single Name Notes, First-to-Default Notes, Basket Notes and Tranche Notes

For the avoidance of doubt, except in the case of a Guaranteed Coupon, if a Notice of Pending Credit Event is delivered to the Noteholders, payment of interest on the Notes, or, in the case of Basket Notes or Tranche Notes, on the portion of the Interest Calculation Amount relating to the relevant Reference Entity, will be deferred until:

- (A) if a Credit Event Notice is delivered in relation to the relevant event, the Maturity Date, or in the case of Basket Notes or Tranche Notes, the Scheduled Maturity Date or the Maturity Date, as the case may be; or
- (B) the date that is 10 Payment Business Days (or in respect of Uncertificated Swedish Notes or Uncertificated Finnish Notes, 18 Payment Business Days) following the publication of a DC No Credit Event Announcement; or
- (C) if no DC No Credit Event Announcement is published and no Credit Event Notice is delivered in relation to the relevant event, the date that is 100 Business Days + 10 Payment Business Days (or in respect of Uncertificated Swedish Notes or Uncertificated Finnish Notes, 100 Business Days + 18 Payment Business Days) following the Credit Event Resolution Request Date (all as defined in Condition 2 below).

For the avoidance of doubt, (x) should a Credit Event Determination Date occur within an Interest Period less than four Business Days (or in respect of Uncertificated Swedish Notes or Uncertificated Finnish Notes, twelve Business Days) prior to the relevant Interest Payment Date and the Issuer's payment instructions have already been given in respect of interest payable with respect to such Interest Period, then the Issuer may deduct from the Cash Redemption Amount or the Physical Delivery Amount, as the case may be, the amount of overpaid interest; and (y) if payment of interest is deferred following the delivery of a Notice of Pending Credit Event, no additional interest will be payable on the Suspended Amounts for the period of the deferral.

1.4 Credit Event Notice after Restructuring

Upon the occurrence of a Restructuring in the period from and including the First Credit Event Occurrence Date to and including the Last Credit Event Occurrence Date if M(M)R Restructuring is applicable:

1.4.1 Single Name Notes and First-to-Default Notes

If the applicable Final Terms specify that the clause "Settlement Type" is stated as being "American Settlement":

- 1.4.1.1 the Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth an amount (the **Partial Redemption Amount**) that is less than the Nominal Amount outstanding of each Note immediately prior to the delivery of such Credit Event Notice. In such circumstances the provisions of Condition 1.1 or Condition 1.2 and of Condition 1.3 shall be deemed to apply to the Partial Redemption Amount only and each such Note shall be redeemed in part (such redeemed part being equal to the Partial Redemption Amount);
- 1.4.1.2 for the avoidance of doubt (i) the Nominal Amount of each such Note not so redeemed in part shall remain outstanding and, if applicable, interest shall accrue on the Nominal Amount outstanding of such Note as provided in the applicable Final Terms (adjusted in such manner as the Calculation Agent in its sole and absolute discretion determines to be appropriate) and (ii) the provisions of Condition 1.1 or Condition 1.2 and of Condition 1.3 shall apply to such Nominal Amount outstanding of such Note in the event that subsequent Credit Event Notices are delivered in respect of a Reference Entity; and
- 1.4.1.3 on redemption of part of each Note, the relevant Note or, if the Notes are represented by a Global Note, such Global Note, shall be endorsed to reflect such partial redemption.

For the avoidance of doubt, the outstanding Nominal Amount of each Note in respect of which no Credit Event Notice has been delivered during the Notice Delivery Period (and, if applicable, no Potential Repudiation/Moratorium or Potential Failure to Pay has occurred on or prior to the Scheduled Last Credit Event Occurrence Date), will be redeemed on the Scheduled Maturity Date.

If the applicable Final Terms specify that the clause "Settlement Type" is stated as being "European Settlement":

- 1.4.1.4 the Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth an amount (the **Partial Redemption Amount**) that is less than the Nominal Amount outstanding of each Note immediately prior to the delivery of such Credit Event Notice. In such circumstances the provisions of Condition 1.1 or Condition 1.2 and of Condition 1.3 shall apply to the Partial Redemption Amount; and
- 1.4.1.5 for the avoidance of doubt the provisions of Condition 1.1 or Condition 1.2 and of Condition 1.3 shall apply to the Nominal Amount of each Note outstanding after reduction by such Partial Redemption Amount in the event that subsequent Credit Event Notices are delivered in respect of a Reference Entity.

1.4.2 **Basket Notes and Tranche Notes**

- (a) The Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth an amount (the **Partial Restructuring Notional Amount**) that is less than the Reference Entity Notional Amount of the relevant Reference Entity immediately prior to the delivery of such Credit Event Notice. In such circumstances the provisions of Condition 1.2 shall apply to the Partial Restructuring Notional Amount instead of the Reference Entity Notional Amount; and
- (b) For the avoidance of doubt, following such Restructuring, the provisions of these Additional Terms and Conditions for Credit Linked Notes – Part B (2014 definitions) shall apply in respect of the relevant Reference Entity with such Reference Entity's Reference Entity Weighting being reduced by the ratio of the Partial Restructuring Notional Amount divided by the Reference Portfolio Notional Amount. In the event of the occurrence of further Restructurings with respect to such Reference Entity, the relevant Reference Entity Notional Amount will be further reduced by the relevant Partial Restructuring Notional Amount.

1.5 **Multiple Successors**

If the applicable Final Terms specify that the clause "Type of Credit Linked Notes" is stated as being "Single Name Notes" and if "Multiple Successor(s)" is stated as being as "Applicable" the following provisions shall apply:

Where, pursuant to the definition of **Successor** (see Condition 2 of these Additional Terms and Conditions for Credit Linked Notes – Part B (2014 Definitions)), more than one Successor has been identified, each such Successor (a **Multiple Successor**) shall be a Reference Entity for the purposes of the Conditions, but only in respect of a principal amount of each Note equal to the Nominal Amount divided by the number of Multiple Successors to such Reference Entity (the **Multiple Successor Notional Amount**) as determined by the Calculation Agent. Where Multiple Successors to such Reference Entity (each, a **Sub-Multiple Successor**) have been identified in respect of a Reference Entity (an **Original Multiple Successor**) that is itself a Multiple Successor, each such Sub-Multiple Successor shall be a Reference Entity for the purposes of the Conditions, but the Multiple Successor Notional Amount in respect of a Sub-Multiple Successor shall be equal to the Multiple Successor Notional Amount in respect of such Original Multiple Successor divided by the number of Sub-Multiple Successors to such Original Multiple Successor. Following the delivery of a Credit Event Notice and, unless specified as "*Not Applicable*" in the applicable Final Terms, a Notice of Publicly Available Information, in respect of a Multiple Successor, the Notes will not be redeemed in whole but an amount shall be deliverable or, as the case may be, payable in respect of each Note (an **Instalment Amount**) which amount shall be determined in the same manner, *mutatis mutandis*, as the Physical Delivery Amount or Cash Redemption Amount that would otherwise have been determined in respect of such a Credit Event in relation to the original Reference Entity, except that it shall be in respect of a principal amount of each Note equal to the relevant Multiple Successor Notional Amount only. The date of delivery or payment, as the case may be, of any such Instalment Amount (an **Instalment Date**) shall be determined in the same manner, *mutatis mutandis*, as the Physical Settlement Date or Cash Redemption Date that would otherwise have been determined in respect of such a Credit Event in relation to the original Reference Entity. The provisions of Condition 1.3 shall apply, *mutatis mutandis*, to

determine the amount of interest that would otherwise have been determined following the occurrence of such a Credit Event in relation to the original Reference Entity, except that it shall be in respect of a principal amount of each Note equal to the relevant Multiple Successor Notional Amount only. More than one Instalment Amount may be delivered or payable on the same day in respect of different Multiple Successors, but not more than one Credit Event Notice may be delivered in relation to a single Multiple Successor unless a Restructuring occurs in relation to a Multiple Successor, in which case the provisions of Condition 1.4 will apply in respect of each such Multiple Successor. Upon the determination by the Calculation Agent of the identity of Multiple Successors, the Calculation Agent shall determine the modifications required to be made to the Conditions and any other related documents, to preserve substantially the economic effect for a Noteholder of a holding of the Notes and the Issuer shall use its reasonable endeavours to effect such modifications.

If the applicable Final Terms specify that the clause "Settlement Type" is stated as being "American Settlement":

Following delivery or payment of an Instalment Amount in respect of a Credit Event relating to a Multiple Successor, the outstanding Nominal Amount of each Note shall be correspondingly reduced by the proportion of such principal amount so redeemed and, if applicable, interest on each Note shall accrue on the reduced Nominal Amount of each Note from the date on which it would otherwise have ceased to accrue following delivery of a Credit Event Notice and, unless specified as "Not Applicable" in the applicable Final Terms, a Notice of Publicly Available Information in relation to the original Reference Entity.

If the applicable Final Terms specify that the clause "Settlement Type" is stated as being "European Settlement":

Following the occurrence of a Credit Event relating to a Multiple Successor, the outstanding Nominal Amount of each Note shall be correspondingly reduced by the proportion of such principal amount and, if applicable, interest on each Note shall accrue on the reduced Nominal Amount of each Note from the date on which it would otherwise have ceased to accrue following delivery of a Credit Event Notice and, unless specified as "Not Applicable" in the applicable Final Terms, a Notice of Publicly Available Information in relation to the original Reference Entity.

If the applicable Final Terms specify that the clause "Type of Credit Linked Notes" is stated as being "Single Name Notes" and if "Multiple Successor(s)" is stated as being "Not Applicable" the following provisions shall apply:

Should more than one Successor succeed to the Reference Entity and a Credit Event occurs in respect of any one of them, the Notes will be redeemed in whole in accordance with the "Settlement Method" specified in the applicable Final Terms, as if the Type of Credit Linked Notes was specified as "First-to-Default Notes" in the applicable Final Terms.

For the avoidance of doubt, this Condition 1.5 will not apply to First-to-Default Notes, Basket Notes and Tranche Notes.

1.6 Notification of Potential Failure to Pay

In the case of the occurrence of a Potential Failure to Pay, as determined by the Calculation Agent in its sole and absolute discretion, the Issuer, or any entity acting on its behalf, shall use its reasonable endeavours to notify the Noteholders as soon as reasonably practical of such occurrence, pursuant to Condition 13 of the General Terms and Conditions of the Notes.

1.7 Partial Redemption and Further Issues

Following any partial redemption of the Notes (pursuant to Condition 5 of the General Terms and Conditions of the Notes) or any further issue (pursuant Condition 14 of the General Terms and Conditions of the Notes), each of the following amounts will be multiplied by the ratio of (i) the number of

Notes in circulation after such partial redemption or further issue divided by (ii) the number of Notes in circulation just before such partial redemption or further issue:

- (A) for Single Name Notes and First-to-Default Notes, the Aggregate Nominal Amount;
- (B) for Basket Notes which are not Tranche Notes, (i) the Aggregate Nominal Amount, (ii) the Reference Portfolio Notional Amount and (iii) the Aggregate Loss Amount;
- (C) for Tranche Notes, (i) the Aggregate Nominal Amount, (ii) the Reference Portfolio Notional Amount, (iii) the Aggregate Loss Amount, (iv) the Tranche Notional Amount and (v) the Tranche Subordination Amount.

1.8.1 Hedging Disruption, Increased Cost of Hedging

Hedging Disruption means, in respect of Notes that have one or more Reference Entity(ies), that, as determined in good faith by the Calculation Agent, Société Générale or any of its Affiliates is unable, after using commercially reasonable efforts, to (a) acquire, establish, re-establish, substitute, maintain, unwind and/or dispose of any transaction(s) or asset(s) it deems necessary to hedge the credit price risk (or any other relevant price risk including, but not limited to, the interest rate, equity and currency risk) of entering into and performing its obligations with respect to the Notes or any agreement entered into by the Issuer of the Notes with Société Générale or any of its Affiliates in relation to the Notes; and/or (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of any Hedge Positions or any agreement entered into with the Issuer or any of its Affiliates in relation to the Notes.

- (II) is a Loan (other than a Private-side Loan) which constitutes a [Selected]* [Deliverable]** Obligation determined in accordance with paragraph (B) of the definition of [Selected]* [Deliverable]** Obligation [or, where Selected Obligation is specified as “*Not Applicable*” in the applicable Final Terms, any relevant obligation determined by the Calculation Agent by reference to any Hedge Positions]*;
- (B) if the Non-Standard Reference Obligation was a Bond (or any other Borrowed Money obligation other than a Loan) which was a Non-Conforming Reference Obligation when issued or incurred and/or immediately prior to the Substitution Event Date:
 - (I) is a Non-Conforming Substitute Reference Obligation (other than a Loan); or if no such obligation is available,
 - (II) is a [Selected]* [Deliverable]** Obligation (other than a Loan) determined in accordance with paragraph (B) of the definition of [Selected]* [Deliverable]** Obligation [or, where Selected Obligation is specified as “*Not Applicable*” in the applicable Final Terms, any relevant obligation determined by the Calculation Agent by reference to any Hedge Positions]*; or if no such obligation is available,
 - (III) is a Non-Conforming Substitute Reference Obligation which is a Loan (other than a Private-side Loan) or, if no such obligation is available,
 - (IV) is a Loan (other than a Private-side Loan) which constitutes a [Selected]* [Deliverable]** Obligation determined in accordance with paragraph (B) of the definition of [Selected]* [Deliverable]** Obligation [or, where Selected Obligation is specified as “*Not Applicable*” in the applicable Final Terms, any relevant obligation determined by the Calculation Agent by reference to any Hedge Positions]*; or

 - (IV) is a Loan (other than a Private-side Loan) which constitutes a [Selected]* [Deliverable]** Obligation determined in accordance with paragraph (B) of the definition of [Selected]* [Deliverable]** Obligation [or, where Selected Obligation is specified as “*Not Applicable*” in the applicable Final Terms, any relevant obligation determined by the Calculation Agent by reference to any Hedge Positions]*.
- (d) If more than one potential Substitute Reference Obligation is identified pursuant to the process described in in paragraph (c) above, the Substitute Reference Obligation will be the potential Substitute Reference Obligation that most closely preserves the economic equivalent of the delivery and payment obligations of the Issuer under the Notes, as determined by the Calculation Agent. The Substitute Reference Obligation will replace the Non-Standard Reference Obligation on such date as determined by the Calculation Agent by

reference to any Hedge Positions, which is expected to be as soon as reasonably practicable after it has been identified in accordance with paragraph (c) above. Information about the occurrence of a Substitute Reference Obligation with a description in reasonable detail of the facts relevant to the determination of the Substitute Reference Obligation, including the identity thereof and the date of substitution, may be requested at any time by the Noteholders at the specified office of the Calculation Agent (subject to proof of ownership of such Notes in a form acceptable to the Calculation Agent).

- (e) If a Substitution Event has occurred with respect to the Non-Standard Reference Obligation and the Calculation Agent determines that no Substitute Reference Obligation is available for the Non-Standard Reference Obligation, then, subject to paragraph (a) above and notwithstanding the fact that the Non-Standard Reference Obligation may have ceased to be the Reference Obligation in accordance with paragraph (b) above, the Calculation Agent shall continue to attempt to identify the Substitute Reference Obligation.

Substitution Date means, with respect to a Substitute Reference Obligation, the date, selected by the Calculation Agent by reference to any Hedge Positions, that the Calculation Agent has determined in accordance with the definition of Substitute Reference Obligation.

Substitution Event means, with respect to the Non-Standard Reference Obligation:

- (i) the Non-Standard Reference Obligation is redeemed in whole;
- (ii) the aggregate amounts due under the Non-Standard Reference Obligation have been reduced by redemption or otherwise below USD 10,000,000 (or its equivalent in the relevant Obligation Currency, as determined by the Calculation Agent); or
- (iii) for any reason, other than due to the existence or occurrence of a Credit Event, the Non-Standard Reference Obligation is no longer an obligation of the Reference Entity (either directly or as provider of a guarantee).

For purposes of identification of a Non-Standard Reference Obligation, any change in the Non-Standard Reference Obligation's CUSIP or ISIN number or other similar identifier will not, in and of itself, constitute a Substitution Event.

If an event described in paragraph (i) or (ii) above has occurred on or prior to the Issue Date, then a Substitution Event shall be deemed to have occurred pursuant to paragraph (i) or (ii), as the case may be, on the Issue Date.

If a Substitution Event occurs in respect of the Reference Obligation in Reference Obligation Only Notes and unless Substitution Event Early Redemption is specified as "*Not Applicable*" in the applicable Final Terms the Calculation Agent shall consider such event as an event triggering the early redemption of the Notes and the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes. Notice shall be given by or on behalf of the Issuer to the Noteholders informing them of the Substitution Event and the date scheduled for early redemption.

Substitution Event Date means, with respect to a Reference Obligation, the date of the occurrence of the relevant Substitution Event.

Succession Date means the legally effective date of an event in which one or more entities succeed to some or all of the Relevant Obligations of the Reference Entity; provided that if at such time, there is a Steps Plan, the Succession Date will be the legally effective date of the final succession in respect of such Steps Plan, or if earlier (i) the date on which a determination pursuant to paragraph (A) of the definition of Successor would not be affected by any further related successions in respect of such Steps Plan, or (ii) the occurrence of a Credit Event Determination Date in respect of the Reference Entity or any entity which would constitute a Successor.

Successor means, in respect of a Reference Entity, the entity or entities, if any, determined as follows:

- (A) subject to paragraph (C) below of this definition, the entity or entities, if any determined as follows:
- (1) subject to paragraph (A)(7) below, if one entity succeeds, either directly or as a provider of a Relevant Guarantee, to seventy-five per cent. or more of the Relevant Obligations of the Reference Entity, that entity will be the sole Successor and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such sole Successor will be the Reference Entity Weighting of the Reference Entity before the succession.
 - (2) If only one entity succeeds, either directly or as a provider of a Relevant Guarantee, to more than twenty-five per cent. (but less than seventy five per cent.) of the Relevant Obligations of the Reference Entity, and not more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entity that succeeds to more than twenty-five per cent. of the Relevant Obligations will be the sole Successor and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such sole Successor will be the Reference Entity Weighting of the Reference Entity before the succession.
 - (3) If more than one entity each succeeds, either directly or as a provider of a Relevant Guarantee to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity, and not more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entities that succeed to more than twenty-five per cent. of the Relevant Obligations will each be a Successor and the terms of the Notes will be amended in accordance with the provisions set out in the definition of Multiple Successor in Condition 1.5 above. In the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of each Successor will be the Reference Entity Weighting of the Reference Entity before the succession, divided by the number of Successors.
 - (4) If one or more entities each succeeds, either directly or as a provider of a Relevant Guarantee, to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity, and more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, each such entity and the Reference Entity will each be a Successor and the terms of the Notes will be amended in accordance with the provisions set out in the definition of Multiple Successor in Condition 1.5 above. In the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of each Successor will be the Reference Entity Weighting of the Reference Entity before the succession, divided by the number of Successors.
 - (5) If one or more entities succeed, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the terms of the Notes will not be changed in any way as a result of such succession.
 - (6) If one or more entities succeed, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations will be the Successor (provided that if two or more entities succeed to an equal percentage of Relevant Obligations, each such entity will be a Successor) and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such Successor(s) will be the Reference Entity Weighting of the Reference Entity before the succession, divided by the number of Successor(s).
 - (7) in respect of a Reference Entity which is not a Sovereign, if one entity assumes all of the obligations (including at least one Relevant Obligation) of the Reference Entity, and either (A) the Reference Entity has ceased to exist or (B) the Reference Entity is in the process of being dissolved (howsoever described) and the Reference Entity has not issued or incurred

any Borrowed Money obligation at any time since the legally effective date of the assumption, that entity (the “**Universal Successor**”) will be the sole Successor and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such sole Successor will be the Reference Entity Weighting of the Reference Entity before the succession or as otherwise determined by the Calculation Agent by reference to Hedge Positions.

PROVIDED THAT, in the case of Basket Notes and Tranche Notes, if the resulting Successor of a Reference Entity affected by a succession, or as the case may be, one or more of the several resulting Successors of such Reference Entity is(are) another Reference Entity comprised in the Reference Portfolio at the legally effective date of the succession, the Reference Entity Weighting of the Successor will be the sum of the Reference Entity Weighting of such Successor after the succession as determined in accordance with paragraphs (A)(1), (A)(2), (A)(3), (A)(4), (A)(6) or (A)(7) above and the Reference Entity Weighting of such Successor in effect prior to the succession.

PROVIDED FURTHER THAT, in the case of Basket Notes and Tranche Notes, if two or more Reference Entities are affected by a succession resulting in at least one common Successor, the Reference Entity Weighting of the Successor will be the sum of the Reference Entity Weighting of such Successor after the succession as determined in accordance with paragraphs (A)(1), (A)(2), (A)(3), (A)(4), (A)(6) or (A)(7) above with respect to each Reference Entity in respect of which it is a Successor.

PROVIDED FURTHER THAT (for paragraph (A) above), if the applicable Final Terms specify that the clause “*N-to-M-to-Default*” is stated as being “*Applicable*” or in respect of First-to-Default Notes, the Calculation Agent will adjust the effect of any succession as necessary so that in all cases the number of Reference Entities in the Reference Portfolio will remain unchanged and if the applicable Final Terms specify that the clause “*N-to-M-to-Default*” is stated as being “*Applicable*”, so that the Reference Entity Weighting will remain the same for all Reference Entities comprised in the Reference Portfolio, in particular:

- (1) if the resulting Successor of a Reference Entity (the **Legacy Reference Entity**) affected by a succession is another Reference Entity comprised in the Reference Portfolio (the **Surviving Reference Entity**) at the legally effective date of the succession, the Calculation Agent acting in good faith and in its sole discretion shall select a new entity having an equivalent Rating (as defined below) or an equivalent credit risk (if no Rating is available) to the Legacy Reference Entity immediately prior to the occurrence of the succession; such new entity shall be deemed to have replaced the Legacy Reference Entity as Reference Entity effective on and from the date of the succession and if the applicable Final Terms specify that the clause “*N-to-M-to-Default*” is stated as being “*Applicable*”, the Reference Entity Weighting of the Surviving Reference Entity shall remain the Reference Entity Weighting of the Surviving Reference Entity in effect prior to the succession and the Reference Entity Weighting of the entity having replaced the Legacy Reference Entity shall be equal to the Reference Entity Weighting of the Legacy Reference Entity prior to the succession; and
- (2) if a succession would result in more than one Successor (the **Potential Successors**) to a Reference Entity either directly or as provider of a Relevant Guarantee, the Calculation Agent shall select in its sole discretion only one entity (the **Chosen Successor**) among the Potential Successors to replace the Reference Entity; the Chosen Successor shall be deemed to have replaced the Reference Entity and if the applicable Final Terms specify that the clause “*N-to-M-to-Default*” is stated as being “*Applicable*”, its Reference Entity Weighting shall be equal to the Reference Entity Weighting of the Reference Entity prior to the succession.

For the purposes of this definition **Rating** means the senior unsecured debt rating assigned by the three rating agencies Moody’s Investor Service, Inc., Standard & Poor’s Ratings Services, a division of Standard & Poor’s Credit Market Service Europe Limited . and Fitch Ratings or any of

them, being understood that if the ratings assigned in respect of an entity are not equivalent, only the highest one(s) will be taken into consideration.

(B) The Calculation Agent will be responsible for determining with effect from the Succession Date any Successor or Successors under paragraph (A) above; provided that the Calculation Agent will not make such determination if, at the time of determination, the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations. Information about the occurrence of a succession (or, in relation to a Reference Entity that is a Sovereign, a Sovereign Succession Event) pursuant to which one or more Successors to a Reference Entity can be determined, with reasonable detail of the facts relevant to the determination, pursuant to paragraph (A) of the definition of Successor, of the identity of any Successor(s), may be requested at any time by the Noteholders at the specified office of the Calculation Agent (subject to proof of ownership of such Notes in a form acceptable to the Calculation Agent), and will be notified as part of a notice of Potential Failure to Pay or a Repudiation/Moratorium Extension Notice or a Credit Event Notice (as the case may be) in respect of the relevant Reference Entity.

The Calculation Agent will make all calculations and determinations required to be made under this definition on the basis of Eligible Information.

In calculating the percentages used to determine whether an entity qualifies as a Successor under paragraph (A)(1) to (7) (inclusive) above, if there is a Steps Plan, the Calculation Agent shall consider all related successions contemplated by such Steps Plan in aggregate as if forming part of a single succession.

- (C) An entity may only be a Successor if:
- (i) either (A) the related Succession Date occurs on or after the Successor Backstop Date or (B) such entity is a Universal Successor in respect of which the Succession Date occurred on or after 1 January 2014
 - (ii) the Reference Entity had at least one Relevant Obligation outstanding immediately prior to the Succession Date and such entity succeeds to all or part of at least one Relevant Obligation of the Reference Entity; and
 - (iii) where the Reference Entity is a Sovereign, such entity succeeded to the Relevant Obligations by way of a Sovereign Succession Event.
- (D) For the purposes of this definition, “*succeed*” means, with respect to a Reference Entity and its Relevant Obligations, that an entity other than the Reference Entity (i) assumes or becomes liable for such Relevant Obligations whether by operation of law or pursuant to any agreement (including, with respect to a Reference Entity that is a Sovereign, any protocol, treaty, convention, accord, concord, entente, pact or other agreement) or (ii) issues Bonds or incurs Loans (the **Exchange Bonds or Loans**) that are exchanged for Relevant Obligations, and in either case the Reference Entity is not thereafter a direct obligor or a provider of a Relevant Guarantee with respect to such Relevant Obligations or such Exchange Bonds or Loans, as applicable. For the purposes of this definition, **succeeded** and **succession** shall be construed accordingly.
- (E) In the case of an exchange offer, the determination required pursuant to paragraph (A) above shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.

If two or more entities (each, a **Joint Potential Successor**) jointly succeed to one or more Relevant Obligations (collectively, the **Joint Relevant Obligations**) either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the relevant Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint

Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

The Successor Backstop Date shall not be subject to adjustment in accordance with any Business Day Convention.

Successor Resolution Request Date means, with respect to a notice to the DC Secretary, requesting that a Credit Derivatives Determinations Committee be convened to Resolve one or more Successors to a Reference Entity, the date, as publicly announced by the DC Secretary, that the relevant Credit Derivatives Determinations Committee Resolves to be the date on which such notice is effective.

Transaction Type means, in respect of a Reference Entity, the transaction type specified in the applicable Final Terms.

- (B) restrictions on permitted investments such as statutory or regulatory investment restrictions on insurance companies and pension funds; or

(C) restrictions in respect of blocked periods on or around payment dates or voting periods.

If the [Deliverable]**[Selected]* Obligation Characteristic Transferable is specified as “*Applicable*” in the applicable Final Terms, such Final Terms shall be construed as though such [Deliverable]**[Selected]* Obligation Characteristic had been specified as a [Deliverable]**[Selected]* Obligation Characteristic only with respect to [Deliverable]**[Selected]* Obligations that are not Loans (and shall only be relevant to the extent that obligations other than Loans are covered by the specified [Deliverable]**[Selected]* Obligation Category).

ADDITIONAL TERMS AND CONDITIONS FOR INFLATION LINKED NOTES

The provisions of these Additional Terms and Conditions for Inflation Linked Notes apply if the applicable Final Terms specify that the clause “*Type of Structured Notes*” is stated as being “*Inflation Linked Notes*”.

1. DEFINITIONS

Business Day means a “Business Day” as defined in Condition 3 of the General Terms and Conditions of the Notes, determined on the basis of the Specified Currency of the relevant Notes.

Calculation Agent has the meaning given to that expression in Condition 10 of the General Terms and Conditions of the Notes.

Closing Price means the level of the Inflation Index for a Reference Period which is relevant to the calculation of a payment under the Notes.

Fallback Bond means a bond, if any, selected by the Calculation Agent and issued by the government of the country to whose level of inflation the Inflation Index relates and which pays an interest or redemption amount which is calculated by reference to the Inflation Index, with a maturity date which falls on (a) the same day as the Maturity Date, (b) the next longest maturity after the Maturity Date if there is no such bond maturing on the Maturity Date, or (c) the next shortest maturity before the Maturity Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If the Inflation Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays an interest or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged). For the avoidance of doubt, if no bond defined in (a), (b) or (c) above is selected by the Calculation Agent, there will be no Fallback Bond.

Hedge Positions means any purchase, sale, entry into or maintenance, by Société Générale or any of its affiliate, of one or more (a) positions or contracts in securities, options, futures, derivatives, interest rate transactions or foreign exchange transactions, (b) securities lending/borrowing transactions, (c) any cash deposits or cash borrowing and/or (d) other instruments, arrangements, assets or liabilities howsoever described in order to hedge, individually or on a portfolio basis, the part of Société Générale or any of its affiliates’ obligation under the Notes.

Index Sponsor means the entity that publishes or announces (directly or through an agent) the level of the relevant Inflation Index on a regular basis.

Inflation Index means any inflation index specified as Underlying in the applicable Final Terms, subject to adjustment pursuant to the provisions of Condition 2.1 below.

Payment Date means any date on which a payment is due and payable pursuant to the terms of the Notes.

Reference Period means the time period for which the level of the Inflation Index was calculated and to which, as a result, such level of Inflation Index refers, regardless of when this level is published or announced. The time period may be, but is not limited to, a calendar year, a semester, a quarter or a month.

Substitute Index Level means an index level, determined by the Calculation Agent in accordance with Condition 2.1.1 below.

Successor Index has the meaning given to it in Condition 2.1.2 below.

2. ADJUSTMENTS AND EVENTS - CHANGE IN LAW, HEDGING DISRUPTION, INCREASED COST OF HEDGING - CONSEQUENCES

2.1 Adjustments and Events

2.1.1 Delay of Publication

(a) If the Closing Price is not published or announced by the day that is five Business Days prior to the next following Payment Date under the Notes, the Calculation Agent will determine a **Substitute Index Level** (in place of such Closing Price) by using the following methodology:

- (i) if applicable, the Calculation Agent shall take the same action to determine the Substitute Index Level for such Payment Date as that taken by the relevant calculation agent pursuant to the terms and conditions of the Fallback Bond;
- (ii) if (i) above does not result in a Substitute Index Level for such Payment Date for any reason, then the Calculation Agent shall determine the Substitute Index Level as follows:

$$\text{Substitute Index Level} = \text{Base Level} \times (\text{Latest Level} / \text{Reference Level})$$

Where:

Base Level means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the time period which is 12 calendar months prior to the time period for which the Substitute Index Level is being determined;

Latest Level means the latest level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor prior to the time period in respect of which the Substitute Index Level is being calculated; and

Reference Level means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor prior to the time period that is 12 calendar months prior to the time period referred to in "Latest Level" above.

(b) If a Closing Price is published or announced at any time after the day that is five Business Days prior to the next following Payment Date under the Notes, such Closing Price will not be used in any calculations. The Substitute Index Level so determined pursuant to this paragraph (a) will be the definitive level for that Reference Period.

If the Calculation Agent determines a Substitute Index Level in accordance with this Condition 2.1.1, the Calculation Agent may make any adjustment or adjustments (without limitation) to (x) the Substitute Index Level determined in accordance with this Condition 2.1.1 and/or (y) any amount payable under the Notes and/or any other relevant term of the Notes, in each case, as the Calculation Agent deems necessary.

Provided however that,

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word "five" in (a) and (b) above shall be deemed to be references to the word "twelve",
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word "five" in (a) and (b) above shall be deemed to be references to the word "ten".

2.1.2 Cessation of Publication

If the Calculation Agent determines that the level of an Inflation Index is not calculated and announced by the Index Sponsor for two consecutive months and/or the Index Sponsor announces that it will not longer continue to publish or announce the Inflation Index and/or the Index Sponsor cancels the Inflation Index, then the Calculation Agent shall determine a successor index (a **Successor Index**) (in lieu of any previously applicable Inflation Index) for the purposes of the Notes as follows:

- (i) if at any time, a successor index has been designated by the relevant calculation agent pursuant to the terms and conditions of the Fallback Bond, such successor index shall be designated a Successor Index for the purposes of all subsequent Payment Dates in relation to the Notes, notwithstanding that any other Successor Index may previously have been determined under paragraphs (ii), (iii) or (iv) below;
- (ii) if a Successor Index has not been determined under paragraph (i) above, and a notice has been given or an announcement has been made by the Index Sponsor, specifying that the Inflation Index will be superseded by a replacement index specified by the Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Inflation Index, such replacement index shall be the Inflation Index for purposes of the Notes from the date that such replacement index comes into effect;
- (iii) if a Successor Index has not been determined under paragraphs (i) or (ii) above, the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Inflation Index should be. If at least four responses are received, and of those responses, three or more leading independent dealers state the same index, such index will be deemed the "Successor Index". If three responses are received, and two or more leading independent dealers state the same index, such index will be deemed the "Successor Index". If fewer than three responses are received, the Calculation Agent will proceed to paragraph (iv) hereof;
- (iv) if no Successor Index has been determined under paragraphs (i), (ii) and (iii) above by the fifth Business Day prior to the next following Payment Date under the Notes, the Calculation Agent will determine an appropriate alternative index for such date, acting in good faith and in a commercially reasonable manner, and such index will be deemed the "Successor Index";

Provided however that,

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word "fifth" above shall be deemed to be references to the word "twelfth",
 - in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word "fifth" above shall be deemed to be references to the word "tenth".
- (v) if the Calculation Agent determines that no alternative index is appropriate, the Calculation Agent shall consider such event as an event triggering an early redemption of the Notes. In that case, the Calculation Agent shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of such event, an Early Redemption Amount on the basis of Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes.

For the avoidance of doubt, the Calculation Agent shall determine the date on which the Successor Index shall be deemed to replace the Inflation Index for the purposes of the Notes.

If a Successor Index is determined in accordance with this Condition 2.1.2, the Calculation Agent may make any adjustment or adjustments (without limitation) to any amount payable under the Notes and/or any other relevant term of the Notes as the Calculation Agent deems necessary.

2.1.3 **Rebasing of the Inflation Index**

If the Calculation Agent determines that the Inflation Index has been or will be rebased at any time, the Inflation Index as so rebased (the "**Rebased Index**") will be used for purposes of determining the Closing Price from the date of such rebasing; provided, however, that the Calculation Agent shall make such adjustments as are made by the calculation agent pursuant to the terms and conditions of the Fallback Bond, if any, to the level of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. If there is no Fallback Bond, the Calculation Agent shall make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. Any such rebasing shall not affect any prior payments made under the Notes.

2.1.4 **Material Modification Prior to Payment Date**

If, on or prior to the day that is five Business Days prior to the next following Payment Date under the Notes, the Index Sponsor announces that it will make a material change to the Inflation Index, then the Calculation Agent, acting in good faith and in a commercially reasonable manner, shall make any such adjustments to the Inflation Index consistent with adjustments made to the Fallback Bond, or, if there is no Fallback Bond, only those adjustments necessary for the modified Inflation Index to continue as the Inflation Index.

Provided however that,

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word "five" above shall be deemed to be references to the word "twelve",
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word "five" above shall be deemed to be references to the word "ten".

2.1.5 **Manifest Error in Publication**

If, within the earlier of (i) 30 days of publication, and (ii) the day that is five Business Days prior to the next following Payment Date under the Notes, the Calculation Agent determines that the Index Sponsor has corrected the level of the Inflation Index to remedy a manifest error in its original publication, the Calculation Agent may make any adjustment to any amount payable under the Notes and/or any other relevant term of the Notes as the Calculation Agent deems appropriate as a result of such correction and/or determine the amount (if any) that is payable as a result of that correction.

Provided however that,

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word "five" above shall be deemed to be references to the word "twelve",
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word "five" above shall be deemed to be references to the word "ten".

2.2 **Change in Law, Hedging Disruption, Increased Cost of Hedging - Consequences**

2.2.1 **Change in Law, Hedging Disruption, Increased Cost of Hedging**

Change in Law means that, on or after the Issue Date (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any law or regulation in respect of tax, solvency or capital requirements), or (B) due to the promulgation of or any change in the interpretation

by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), or the combined effect thereof if occurring more than once, the Calculation Agent determines in its sole and absolute discretion that it has become illegal for Société Générale or any of its affiliates to hold, acquire or dispose of Hedge Positions or to maintain the agreement entered into with Société Générale or any of its affiliates by the Issuer of the Notes, relating to the Underlying of the Notes.

Hedging Disruption means in respect of Notes that have one or more Inflation Index(ices) as Underlying(s), that Société Générale or any of its affiliates is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) or any futures or options contract(s) it deems necessary to hedge the market risk (or any relevant price risk, including but not limited to the currency risk) of entering into and performing its obligations with respect to the Notes or the agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes, or (b) freely realise, recover, remit, receive, repatriate or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the **Affected Jurisdiction**) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction.

Increased Cost of Hedging means, in respect of Notes that have one or more Inflation Index(ices) as Underlying(s), that Société Générale or any of its affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Société Générale or any of its affiliates enters into the Hedge Positions in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (including, without limitation, price risk, foreign exchange risk and interest rate risk) of entering into and performing its obligations with respect to the Notes or any agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes, or (b) freely realise, recover or remit the proceeds of the proceeds of its Hedge Positions.

2.2.2 Consequences

In case of the occurrence of a Change in Law, a Hedging Disruption or an Increased Cost of Hedging relating to an Inflation Index (the **Affected Underlying**), the Calculation Agent may:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or
- B. determine an appropriate alternative index to replace the Inflation Index for the purposes of the Notes and adjust any relevant terms of the Notes; or, but only in the case of Increased Cost of Hedging:
- C. deduct:
 - (i) from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by Société Générale or any of its affiliates, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the **Reduction Amount**"); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Note is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s)

due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or

- (ii) in the absence of any Interest Amount in respect of the Notes, (a) from the Optional Early Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero).

ADDITIONAL TERMS AND CONDITIONS FOR BOND LINKED NOTES

The provisions of these Additional Terms and Conditions for Bond Linked Notes apply if the applicable Final Terms specify that the clause (i) "*Type of Structured Notes*" is stated as being "*Bond Linked Notes*" and (ii) "*Bond Linked Notes Provisions*" is stated as being "*Applicable*".

For the avoidance of doubt, should a Bond Event Determination Date occur within an Interest Period less than four Business Days (or in respect of Uncertificated Swedish Notes or Uncertificated Finnish Notes, twelve Business Days) prior to the relevant Interest Payment Date and the Issuer’s payment instructions have already been given in respect of interest payable with respect to such Interest Period, then the Issuer may deduct from the Cash Redemption Amount, the amount of overpaid interest.

1.3 Partial Redemption and further issues

Following any partial redemption of the Notes (pursuant to Condition 5 of the General Terms and Conditions of the Notes) or any further issue (pursuant to Condition 14 of the General Terms and Conditions of the Notes), each of the following amounts will be multiplied by the ratio of (i) the number of Notes outstanding after such partial redemption or further issue divided by (ii) the number of Notes outstanding just before such partial redemption or further issue:

- (a) for Single Bond Linked Notes, the Aggregate Nominal Amount;
- (b) for Basket Bond Linked Notes, (i) the Aggregate Nominal Amount, (ii) the Reference Portfolio Notional Amount and (iii) the Aggregate Loss Amount;

For the avoidance of doubt, any other amount calculation of which depends on the above amounts will be re-calculated accordingly.

1.4 Hedging Disruption - Increased Cost of Hedging - Change in Law - Merger of a Bond Issuer and Société Générale or any of its Affiliates – Consequences - Monetisation until the Maturity Date

1.4.1 Hedging Disruption, Increased Cost of Hedging

Hedging Disruption means, in respect of Notes that have one or more Bond(s), that, as determined in good faith by the Calculation Agent, Société Générale or any of its Affiliates is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the Bond price risk (or any other relevant price risk including, but not limited to, the interest rate, equity and currency risk) of entering into and performing its obligations with respect to the Notes or any agreement entered into by the Issuer of the Notes with Societe Generale or any of its Affiliates in relation to the Notes; (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of any Hedge Positions or any agreement entered into with the Issuer or any of its Affiliates in relation to the Notes, or (c) receive or be likely to receive under the Bond(s) the payment of any sum due and payable under the Bond(s), but without a Bond Event Determination Date having occurred.

Increased Cost of Hedging means, in respect of Notes that have one or more Bond(s), that Société Générale or any of its Affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Société Générale or any of its Affiliates enters into the Hedge Positions in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the Bond price risk (or any other relevant price risk including, but not limited to, the interest rate, equity and currency risk) of entering into and performing its obligations with respect to the Notes or any agreement entered into with the Issuer or any of its Affiliates of the Notes in relation to the Notes or (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of any Hedge Positions or any agreement entered into with the Issuer or any of its Affiliates in relation to the Notes.

1.4.2 **Change in Law**

Change in Law means in respect of Notes that have one or more Bond(s) that, on or after the first to occur of (a) the Issue Date and (b) the trade date of any Hedge Position (i) due to the adoption of, or any change in, any applicable law or regulation (including without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of, or any change in, the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority or brought in a court of competent jurisdiction), the Calculation Agent determines in good faith that it has become illegal for Société Générale or any of its Affiliates to hold, acquire or dispose of Hedge Positions (as defined in Condition 1.4.6 below) or to maintain the agreement entered into with Société Générale or any of its Affiliates by the Issuer of the Notes.

1.4.3 **Merger of a Bond Issuer and Société Générale or any of its Affiliates**

Merger of a Bond Issuer and Société Générale or any of its Affiliates means, in respect of Single Bond Linked Notes or Basket Bond Linked Notes, that (i) Société Générale or any of its Affiliates consolidates or amalgamates with, or merges into, or transfers all or substantially all its assets to, a Bond Issuer or (ii) a Bond Issuer consolidates or amalgamates with, or merges into, or transfers all or substantially all its assets to Société Générale or any of its Affiliates, or (iii) Société Générale or any of its Affiliates and a Bond Issuer become Affiliates.

1.4.4 **Consequences**

Upon the occurrence of an Exceptional Event Date, the Calculation Agent may decide to either:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In the case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or
- B. if the relevant Exceptional Event is related to one or several affected Bonds (the **Affected Bond(s)**), replace the Affected Bond(s) by a new bond (or new bonds, as relevant) which is (respectively are each) a Similar Bond ; or
- C. apply the Monetisation until the Maturity Date;

Or, but only in the case of Increased Cost of Hedging:

- D. deduct:
 - (i) from the Interest Amount (if any) due under the Notes on the Interest Payment Date(s) following the occurrence of the Increased Cost of Hedging, the amount of any new, or any increase of, any tax, duty, expense or fee, that triggered the occurrence of the Increased Cost of Hedging incurred by Societe Generale or any of its Affiliates in relation to the Hedge Positions hedging the payment obligations of the Issuer under the Notes, such amount to be apportioned *pro rata* amongst the

outstanding Notes (the **Reduction Amount**); PROVIDED THAT if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of each Note is greater than the Interest Amount due under each Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount will be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount) will be deducted from the Interest Amount due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in whole or in part on the last Interest Payment Date under the Notes, the remaining Reduction Amount will be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount, whichever comes first (the reduction of such deduction being floored at zero); or

- (ii) in the absence of any Interest Amount under the Notes, (a) from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any), due under the Notes on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due on the Maturity Date, in each case after the occurrence of the Increased Cost of Hedging, the Reduction Amount (the result of such deduction being floored at zero).

Following the occurrence of an Exceptional Event Date, the Calculation Agent shall notify the Issuer, which shall in its turn notify the Noteholders pursuant to the provisions of Condition 13 of the General Terms and Conditions of the Notes of the relevant adjustment made or decision taken by the Calculation Agent. Details of any adjustment made or decision taken may be obtained by the Noteholders upon request at the Calculation Agent's specified address.

1.4.5 Monetisation until the Maturity Date

The Issuer will no longer be liable for any payment, on the Maturity Date or any Interest Payment Date, but instead will, in full and final satisfaction of its obligations pay an amount as described in Conditions 1.4.5.1 and 1.4.5.2 below:

1.4.5.1 In respect of the redemption of Notes whose Final Redemption Amount as defined in the applicable Final Terms could be as low as zero:

In accordance with the provisions of Condition 1.4.5 above, the Issuer will pay on the Maturity Date an amount per Note, determined by the Calculation Agent, with a minimum of zero, based on (a) the net positive cash amount that Société Générale or any of its Affiliates would be left with on the Full Liquidation Date, as a result of liquidating the Hedge Positions (*inter alia* by meeting the obligations and liabilities of the Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge Positions) minus (b) the Associated Costs (the result of this difference (a) minus (b) each converted if necessary in the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Full Liquidation Date (included) and (y) the Maturity Date (excluded); for the avoidance of doubt, the liquidation proceeds of any assets held by Société Générale or any of its Affiliates as Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Société Générale or any of its Affiliates under its Hedge Positions and the Calculation Amount mentioned above may be as low as zero; or

*1.4.5.2 In respect of the redemption of Notes whose Final Redemption Amount as defined in the applicable Final Terms cannot be in any case lower than an amount strictly positive (the **Minimum Redemption Amount**)*

In accordance with the provisions of Condition 1.4.5 above, the Issuer will pay on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the sum of (a) the Minimum Redemption Amount and (b) an amount, equal to the positive difference, if any, between:

- (i) (a) the net positive cash amount that Société Générale or any of its Affiliates would be left with on the Full Liquidation Date, as a result of liquidating the Hedge Positions (*inter alia* by meeting the obligations and liabilities of the Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge Positions) minus (b) the Associated Costs (the result of this difference (a) minus (b), each converted if necessary in the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Full Liquidation Date (included) and (y) the Maturity Date (excluded); and
- (ii) an amount equal to the Minimum Redemption Amount; for the avoidance of doubt, the liquidation proceeds of any assets held by Société Générale or any of its Affiliates as Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Société Générale or any of its Affiliates under its Hedge Positions and the Calculation Amount mentioned above may be as low as zero.

Definitions applicable to this Condition:

Associated Costs means an amount determined by the Calculation Agent in its reasonable discretion equal to the sum of (without duplication) all costs (including, without limitation, cost of funding), losses, expenses, tax and duties incurred by Société Générale or any of its Affiliates in connection with the termination, liquidation or re-establishment of the Hedge Positions, such amount to be apportioned *pro rata* the outstanding Notes;

where:

Adjusted Calculation Amount means (a) in respect of the first Compounding Period of a Calculation Period, the Calculation Amount for that Calculation Period and (b) in respect of any succeeding Compounding Period in that Calculation Period, an amount equal to the sum of the Calculation Amount for that Calculation Period and the Compounding Period Amounts for each of the previous Compounding Periods in that Calculation Period;

Compounding Date means, in respect of a Calculation Period, each Business Day (being a Business Day in Paris) of such Calculation Period;

Compounding Period means, in respect of a Calculation Period, each period from and including a Compounding Date to but excluding the immediately following Compounding Date during that Calculation Period;

Compounding Period Amount means, in respect of a Compounding Period, the product of (a) the Adjusted Calculation Amount, (b) the Compounding Rate and (c) the Day Count Fraction;

Compounding Rate means, in respect of a Compounding Period Amount, the interbank overnight rate in the Specified Currency as determined by the Calculation Agent on the first day of the relevant Compounding Period; notwithstanding this, the Compounding Rates related to the last four Compounding Periods (or in respect of Uncertificated Swedish Notes or Uncertificated Finnish Notes, the last twelve Compounding Periods) in the Calculation Period shall be that of the fifth Compounding Period (or in respect of Uncertificated Swedish Notes or Uncertificated Finnish Notes, the thirteenth

Compounding Period) before the Maturity Date; the specific Compounding Rate used in respect of a Specified Currency of the Notes shall be available at the office of the Calculation Agent for each Compounding Date;

Day Count Fraction means, for the purposes of Compounding Method above, the exact number of days in a Compounding Period (the first included and the last excluded), divided by 360;

Exceptional Event means, as determined by the Calculation Agent acting in good faith, the occurrence during the period from and including the Issue Date to and including the Last Exceptional Event Occurrence Date of one or more of Hedging Disruption, an Increased Cost of Hedging, a Change in Law, or a Merger of a Bond Issuer and Société Générale or any of its Affiliates;

Bond Final Price means, in respect of a Bond, a quotation (expressed as a percentage of the Bond Notional Amount) obtained from Quotation Dealers in the manner provided below. The Calculation Agent will determine, based on the then current market practice, whether such quotations will include or exclude accrued but unpaid interest and all quotations will be obtained in accordance with this determination. The Calculation Agent will determine from the Full Quotations, the Weighted Average Quotation, the Partial Weighted Average Quotation or the Residual Quotation Amount (each as defined below), the Bond Final Price. For the avoidance of doubt, the Bond Final Price, as determined by the Calculation Agent, is based on obtained Quotations, without any obligation by the Calculation Agent to actually realise any sale transaction in relation to such Quotations.

The Calculation Agent will require each Quotation Dealer to provide quotations to the extent reasonably practicable on the relevant day at approximately 11.00 a.m. London time or 11.00 a.m. New York time or 11.00 a.m. in any other leading market where the liquidity of such Bond may be better, as determined by the Calculation Agent, as the case may be. The Calculation Agent, may on the First Quotation Day and if applicable, on the Second Quotation Day, in its sole and absolute discretion but acting in a commercially reasonable manner, determine whether to request (i) at least one Full Quotation and/or (ii) several firm bid quotations from Quotation Dealers in order to establish a Weighted Average Quotation.

To such end:

- (i) if the Calculation Agent obtains at least one Full Quotation and/or one Weighted Average Quotation on the First Quotation Day, the Bond Final Price will be the highest Quotation of the Full Quotation(s) or Weighted Average Quotation(s) obtained (if any) by the Calculation Agent;
- (ii) if the Calculation Agent is unable to obtain at least one Full Quotation or to determine a Weighted Average Quotation on the First Quotation Day, the Calculation Agent will attempt to obtain at least one Full Quotation and/or one Weighted Average Quotation on the Second Quotation Day, and the Bond Final Price will be the highest Quotation of the Full Quotation(s) or Weighted Average Quotation(s) obtained (if any) by the Calculation Agent;
- (iii) if the Calculation Agent obtains quotations for an aggregate amount lower than the Quotation Amount on the Second Quotation Day, then on the Third Quotation Day it will

attempt to obtain several firm bid quotations from Quotation Dealers in order to establish a Partial Weighted Average Quotation in respect of an amount equal to the Residual Quotation Amount. If the Calculation Agent is unable to establish on the Third Quotation Day a Partial Weighted Average Quotation in respect of an amount equal to the Residual Quotation Amount, it will, until obtaining a Partial Weighted Average Quotation in respect of an amount equal to the Residual Quotation Amount, on each Quotation Day during the Auction Period, attempt to obtain several firm bid quotations from Quotation Dealers in order to establish a Partial Weighted Average Quotation in respect of an amount equal to the Residual Quotation Amount. For the avoidance of doubt, once a Partial Weighted Average Quotation is obtained on either the Third Quotation Day or on any Quotation Day in the Auction Period there will be no obligation on the Calculation Agent to seek a further Partial Weighted Average Quotation. The Bond Final Price will then be the weighted average of (i) the firm bid quotations obtained on the Second Quotation Day (if any) and (ii) the Partial Weighted Average Quotation (if any) for the portion equal to the Residual Quotation Amount and (iii) zero for any remaining amount for which no quotation was obtained.

3.3. **Disruption Events relating to any ETP Issuer and/or any ETP**

Upon the occurrence or the likely occurrence, as determined by the Calculation Agent, of any of the following events (each a **Disruption Event**) in respect of a Valuation Date (the **Disrupted Day**) and an ETP Issuer or ETP (the **Affected ETP**):

- A. **Calculation and/or Publication Disruption** means the occurrence of an event, beyond the control of a Hypothetical Investor (including in case of any gate, deferral, suspension or other provisions in the ETP Documents permitting the ETP Issuer to delay or refuse subscription and/or redemption orders) which precludes the calculation and/or publication of the official ETP Value by the ETP Issuer (or the ETP advisor or agent generally in charge of calculating such official ETP Value); or
- B. **ETP Settlement Disruption** means a failure by the ETP Issuer to pay in cash the full amount of the redemption proceeds on the date by which the ETP Issuer was scheduled to have paid such amount and which, in the determination of the Calculation Agent, makes it impossible or impracticable for the Calculation Agent to determine the Closing Price, including without limitation due to (a) the restriction on the amount or number of redemptions orders that the ETP Issuer (or the ETP advisor or agent generally in charge of accepting redemption orders) will accept in relation to a single date on which the ETP Issuer normally accepts redemption orders (a gate), (b) the suspension for any reason of the subscription or redemption orders by the ETP Issuer (or the ETP advisor or agent generally in charge of accepting subscription and redemption orders);
- C. **ETP Determination Disruption Event** means the occurrence of any event (beyond the control of a Hypothetical Investor) other than the events mentioned in "*Calculation and/or Publication Disruption*" in (A) above or "*ETP Settlement Disruption*" in (B) above affecting such ETP which, in the determination of the Calculation Agent, makes it impossible or impracticable for the Calculation Agent to determine the Closing Price,

the Valuation Date, in respect of the Affected ETP, shall be postponed to the immediately following Business Day (as specified to be applicable in relation to such Valuation Date in the applicable Final Terms) that is no longer affected by a Disruption Event for such Affected ETP.

If a Disruption Event has occurred or is continuing on each of the five scheduled Business Days, following the Scheduled Valuation Date or if no Business Day, that is not affected by a Disruption Event has occurred at the latest on the thirty-fifth calendar day following the Scheduled Valuation Date, then the Calculation Agent may either:

- X. determine its good faith estimate of the ETP Value which shall be deemed to be the Closing Price in respect of such Valuation Date provided that if the Calculation Agent decides to make such determination, the Valuation Date shall occur no later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of such determination (except in respect of Uncertificated Nordic Notes for which the determination shall be made pursuant to the provisions below"); or
- Y. consider such Disruption Event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In the case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or
- Z. apply one of the following methods:
 - (a) Monetisation until the Maturity Date (as defined below), or
 - (b) substitute the Affected ETP with an ETP (the New ETP) having an investment strategy and/or an economic payout similar to the investment strategy and/or the economic payout of the Affected ETP and adjust any relevant terms of the Notes to preserve the economic equivalent of the obligations of the Issuer under the Notes.

Notwithstanding the foregoing, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date; if a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) would fall after the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or Averaging Date and the Calculation Agent shall make, on that day the determinations described in (B) above at the latest as of the Valuation Time on such fourth Business Day and the good faith estimate of the value of the ETP so calculated shall be deemed the Closing Price,

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word "fourth" above shall be deemed to be references to the word "twelfth",

Upon the occurrence or the likely occurrence, as determined by the Calculation Agent, of a Maturity Disruption Event:

- A. the Issuer shall consider such extraordinary event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In the case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or
- B. apply Monetisation until the Maturity Date (as defined below).

3.5. Monetisation until the Maturity Date

Following the occurrence of an event giving rise to the Monetisation until the Maturity Date, the Issuer shall no longer be liable for the payment of (1) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date and/or (2) the Optional Redemption Amount on the Optional Redemption Date and/or (3) the Final Redemption Amount as defined in the applicable Final Terms on the Maturity Date, but instead will, in full and final satisfaction of its obligations, pay an amount described in Conditions 3.5.1, 3.5.2 and/or 3.5.3 below.

In case of the occurrence of a Hedging Disruption or an Increased Cost of Hedging relating to a Non Equity Security (the **Affected Underlying**), the Calculation Agent may:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.8 of the General Terms and Conditions of the Notes; or
- B. substitute the Affected Non Equity Security with a new underlying asset; or

Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date of a Change in Law, the Calculation Agent will decide either:

Warrant Termination Date means, in respect of a Warrant, the date on which such Warrant is cancelled or terminated as a result of a Warrant Termination Event, as determined by the Calculation Agent.

Warrant Termination Event means, in respect of a Warrant, (a) the cancellation or termination of such Warrant for any reason other than (i) by reason of its scheduled exercise by a holder thereof, (ii) its automatic exercise pursuant to its terms or (b) a specified early cancellation event occurs in respect of such Warrant in accordance with its terms.

Warrant Value means, in respect of any day, the market value of a Warrant on such day as determined by the Calculation Agent.

Warrant Value Early means the Warrant Value on the Early Redemption Valuation Date.

Warrant Value Exercise (or **Warrant Value Exercise(i)**) means the Warrant Value on the Automatic Early Redemption Valuation Date (or on the Automatic Early Redemption Valuation Date(i), as the case may be), as determined by the Calculation Agent.

Warrant Value Final means the Warrant Value on the Valuation Date(1).

Warrant Value Initial means the Warrant Value on the Valuation Date(0).

2. EARLY REDEMPTION OF WARRANT LINKED NOTES

If the Notes are specified in the applicable Final Terms as being Warrant Linked Notes, and if in the determination of the Calculation Agent an Early Redemption Event occurs, the Issuer may give notice to the Noteholders in accordance with English Law Condition 13 and will redeem all (but not some only) of the Notes, each Note to be redeemed by payment of the Early Redemption Amount as soon as reasonably practicable following the Early Redemption Valuation Date or on any other date, as specified in the applicable Final Terms.

3. AUTOMATIC EARLY REDEMPTION OF WARRANT LINKED NOTES

If the Notes are specified in the applicable Final Terms as being Warrant Linked Notes, and if an Automatic Early Redemption Event occurs, the Issuer may give notice to the Noteholders in accordance with English Law Condition 13 and will redeem all (but not some only) of the Notes, each Note to be redeemed by payment of the Automatic Early Redemption Amount as soon as reasonably practicable following the relevant Automatic Early Redemption Valuation Date (or Automatic Early Redemption Valuation Date(i), as the case may be) or on any other date, as specified in the applicable Final Terms.

DESCRIPTION OF THE COLLATERAL ARRANGEMENTS RELATING TO SECURED NOTES

The following is a description of the security and collateral arrangements in relation to Notes (such Notes being hereinafter referred to as Secured Notes) to which the Additional Terms and Conditions relating to Secured Notes are specified as being applicable in the applicable Final Terms.

Terms used but not otherwise defined in this description shall have the meaning given to them in the Additional Terms and Conditions for Secured Notes.

1. GENERAL

Each Series of Secured Notes will benefit from a pledge agreement (each a **Pledge Agreement**) which will be governed by the Luxembourg act dated 5 August 2005 on financial collateral arrangements, as amended (the **Collateral Act 2005**) granted by the Issuer. Under each Pledge Agreement, the Issuer will grant first ranking security over the Collateral Assets (as defined below) contained in one or more accounts (such accounts together being referred to as the **Collateral Account**) held by the Issuer with The Bank of New York Mellon (Luxembourg) S.A. or any successor thereto acting as collateral custodian (the **Collateral Custodian**), pursuant to the terms of a custodian agreement between, *inter alia*, the Issuer and the Collateral Custodian (the **Collateral Custodian Agreement**).

1.1 Appointment of a Security Trustee in the case of English Law Notes

In relation to each Series of English Law Notes, the security granted under each Pledge Agreement will be granted in favour of BNY Mellon Corporate Trustee Services Limited or any successor thereto as security trustee (the **Security Trustee**) on behalf of itself and the relevant Noteholders and the other relevant Secured Parties (as defined in the Additional Terms and Conditions relating to Secured Notes).

In relation to each Series of English Law Notes secured pursuant to a Pledge Agreement, the Security Trustee appointed as pledgee pursuant to such Pledge Agreement will enter into a security trust deed governed by English law (a **Security Trust Deed**). Under the terms of each Security Trust Deed, the Security Trustee will covenant that it will exercise its rights under the relevant Pledge Agreement on behalf of and as trustee for the Noteholders and will declare a trust in favour of the Noteholders and the other relevant Secured Parties over the rights granted to it under the relevant Pledge Agreement.

1.2 Appointment of a Security Agent in the case of French Law Notes

In relation to each Series of French Law Notes, the security granted under each Pledge Agreement will be granted directly in favour of the relevant Noteholders and the other relevant Secured Parties as represented by BNY Mellon Corporate Trustee Services Limited or any successor thereto as security agent (the **Security Agent**).

In relation to each Series of French Law Notes secured pursuant to a Pledge Agreement, the Terms and Conditions of such Series will provide that the Security Agent will be appointed as security agent of the relevant Noteholders in order to create, manage and enforce the relevant Pledge Agreement and the security created thereunder in their name and on their behalf pursuant to article 2328-1 of the French *Code Civil*. The subscription or purchase of French Law Notes secured by a Pledge Agreement by the Noteholders of the relevant Series will result in the appointment of the Security Agent in respect thereof. The relevant Noteholders will be deemed to have notice of the provisions of the relevant Pledge Agreement and the Security Agency Agreement (as defined below). In addition, the Security Agent under such Pledge Agreement will enter into a security agency agreement governed by French law (the **Security Agency Agreement**) governing the role of the Security Agent in relation to each Series of Secured Notes governed by French law.

2. NATURE OF COLLATERAL ASSETS

Assets held in a Collateral Account are referred to as **Collateral Assets**. The Collateral Assets held in a Collateral Account and secured pursuant to a Pledge Agreement are together referred to as the **Collateral Pool**. Collateral Assets contained in a Collateral Pool may comprise:

- cash;
- debt securities (including, but not limited to, government bonds, corporate bonds, covered bonds and asset backed securities);
- equity securities, share, units or interests in a fund and or
- any other negotiable financial instruments in book entry-form.

In order to be included in the calculation of the Collateral Value (as defined below), Collateral Assets must satisfy the eligibility criteria (the **Eligibility Criteria**) specified in the applicable Final Terms relating to such Series of Secured Notes. Collateral Assets satisfying the relevant Eligibility Criteria are referred to as **Eligible Collateral Assets**.

The Eligibility Criteria specified in the applicable Final Terms will set out the criteria which must be met for Collateral Assets to constitute Eligible Collateral Assets and may include limitations on the type of Collateral Assets that may be held, the maturity of the Collateral Assets, the liquidity of the Collateral Assets, requirements regarding the jurisdiction of the obligor of the Collateral Assets or its guarantor or the credit rating of the obligor of the Collateral Assets or its guarantor and/or any other limitations, restrictions and/or requirements concerning the Collateral Assets as may be specified in the applicable Final Terms.

In addition the collateral rules (the **Collateral Rules**) specified in the applicable Final Terms will set out the rules which must be satisfied in order for the Collateral Test (as defined below) to be satisfied. The Collateral Rules may include requirements relating to the diversification of types of Eligible Collateral Assets, the concentration of the Eligible Collateral Assets, the geographical location of the Eligible Collateral Assets or the currency of the Eligible Collateral Assets which may be held in a Collateral Pool and/or any other limitations, restrictions and/or requirements concerning the Eligible Collateral Assets contained in the relevant Collateral Pool as may be specified in the applicable Final Terms. For the avoidance of doubt, the Collateral Rules relating to a particular Collateral Pool will be satisfied to the extent that Eligible Collateral Assets with a Collateral Value (as defined below) at least equal to the Required Collateral Value (as defined below) together satisfy the Collateral Rules.

3. TYPE OF COLLATERAL POOL

A Collateral Pool may be either a Single Series Collateral Pool or a Multiple Series Collateral Pool, each as further defined below.

3.1 Single Series Collateral Pool

Where the applicable Final Terms in respect of a Series of Secured Notes specify that the Type of Collateral Pool is Single Series Collateral Pool, such Series of Secured Notes will be the only Series of Secured Notes to be secured by the relevant Collateral Pool.

3.2 Multiple Series Collateral Pool

Where the applicable Final Terms in respect of a Series of Secured Notes specify that the Type of Collateral Pool is Multiple Series Collateral Pool, such Series of Secured Notes may be secured by a Collateral Pool which secures one or more Series of Secured Notes. In such a scenario, following enforcement of the relevant Pledge Agreement, all Series of Secured Notes secured on such Collateral Pool would share in the distribution of the proceeds of realisation of the Collateral Assets constituting such Collateral Pool or Notes or, where the clause "*Physical Delivery of Collateral Assets*" is specified

as applicable in the applicable Final Terms, in the delivery of the Collateral Assets contained in such Collateral Pool.

Each Series of Secured Notes secured pursuant to a Multiple Series Collateral Pool must (i) be subject to the same governing law (i.e. exclusively either English Law Notes or French Law Notes), (ii) be exclusively either subject to or not subject to the clause "*Physical Delivery of Collateral Assets*" (as described below), (iii) be subject to the same Eligibility Criteria and Collateral Rules, (iv) be subject to the same Haircut value(s) for each type or class of Eligible Collateral Assets, and (v) have the same Collateral Test Dates.

Noteholders acquiring and holding Secured Notes in relation to a Multiple Series Collateral Pool will be deemed to acknowledge, accept and agree to the rights of existing and future Noteholders of different Series of Secured Notes to share equally in the security created over the Collateral Assets in the Multiple Series Collateral Pool.

4. SEGREGATION BETWEEN COLLATERAL POOLS, LIMITED RECOURSE AND NON-PETITION

By acquiring and holding Secured Notes, Noteholders will be deemed to acknowledge and agree that the obligations of the Issuer to the Noteholders are limited in recourse to the Collateral Assets contained in the relevant Collateral Pool securing such Series of Secured Notes both in the case of a Single Series Collateral Pool and a Multiple Series Collateral Pool. In particular, the Collateral Assets contained in any other Collateral Pool will not be available to pay amounts due in respect of any Secured Notes which are not secured by that Collateral Pool. However, in such a scenario, Noteholders will continue to be able to claim against the Guarantor for any unpaid amounts under the terms of the Guarantee.

In addition, by acquiring and holding Secured Notes, Noteholders will be deemed to acknowledge and agree that they shall not be entitled to take any steps or proceedings to procure the winding-up, administration or liquidation (or any other analogous proceeding) of the Issuer.

5. HEDGING OF ISSUER'S OBLIGATIONS

The Issuer may hedge its obligations in relation to a Series of Secured Notes in a number of different ways, including by entering into repurchase agreements (**Repurchase Agreements**) or swap agreements (**Swap Agreements**) or any other agreements (any Repurchase Agreement, Swap Agreement or any other such agreement being a **Hedging Agreement**) with a counterparty which may be Société Générale or an affiliate of Société Générale or such other entities as the Issuer deems appropriate from time to time (each such entity being a **Counterparty**). Such transactions may also include provisions for the transfer to the Issuer of assets which may be treated as Collateral Assets by the Issuer and used to fulfil its obligations in relation to the Secured Notes. Where such Hedging Agreements provide for the transfer of assets to the Issuer, such transfer shall be made with full title.

A Swap Agreement may be evidenced by a 1992 ISDA Master Agreement and Schedule or a 2002 ISDA Master Agreement and Schedule together with the confirmation entered into by the Issuer and the Counterparty in respect of the relevant Series of Secured Notes. If the Counterparty's obligations under the Swap Agreement are to be collateralised, the Swap Agreement may be supplemented by a 1995 ISDA Credit Support Annex (Bilateral Form - Transfer).

A Repurchase Agreement may be substantially in the form of a 2000 TBMA/ISMA Global Master Repurchase Agreement, a "*Convention Cadre FBF aux opérations de pensions livrées*", each as amended, supplemented or otherwise modified from time to time, or any other agreement having a similar effect.

6. VALUATION OF COLLATERAL AND SECURED NOTES

In order to ensure that a Series of Secured Notes is collateralised in accordance with its terms, the Collateral Value (as defined below) and the aggregate market value or the aggregate nominal value of Non-Waived Notes (as defined below) of each Series of Secured Notes secured by such Collateral Pool

will each be tested on the Issue Date of such Series of Secured Notes and on a periodic basis thereafter as specified in the applicable Final Terms (each such test date being a **Collateral Test Date**). The Collateral Value and the aggregate market value or the aggregate nominal value of Non-Waived Notes will be used in order to calculate the required aggregate value of Eligible Collateral Assets which must be held in a Collateral Account to secure one or more Series of Secured Notes (the **Required Collateral Value**).

6.1 Valuation of Collateral

In relation to each Series of Secured Notes, on the Issue Date of such Series of Secured Notes and on each Collateral Test Date thereafter, Société Générale or any successor thereto acting as Collateral Agent (the **Collateral Agent**) will calculate the Collateral Value pursuant to the terms of a collateral agency agreement between, *inter alia*, the Issuer and the Collateral Agent (the **Collateral Agency Agreement**).

Except if, under the Secured Notes Provisions of the applicable Final Terms, "Collateral Valuation at Nominal Value" is specified as applicable, the Collateral Value is deemed to be equal to the aggregate market value of the Collateral Assets constituting Eligible Collateral Assets (after taking into account any Haircut applied in relation thereto, as further described below), as of the relevant Valuation Point (as defined below) using such valuation method or methods as the Collateral Agent may, acting in good faith and in a commercially reasonable manner, determine in its discretion (the **Collateral Value**).

When, under the Secured Notes Provisions of the applicable Final Terms, "Collateral Valuation at Nominal Value" is specified as applicable", the Collateral Value shall be deemed to be equal to the aggregate nominal value of the Collateral Assets constituting Eligible Collateral Assets (after taking into account any Haircut applied in relation thereto, as further described below) and "Collateral Value" shall be construed accordingly throughout this document.

This Collateral Valuation at Nominal Value will mainly be used in conjunction with "NV Collateralisation" Type of Collateralisation, as described below.

The Collateral Agent shall calculate the Collateral Value as of the relevant Valuation Point (as described below) in Euro (except if another Collateral valuation currency is specified in the applicable Final Terms) (the **Collateral Valuation Currency**) using such valuation method or methods as the Collateral Agent may, acting in good faith and in a commercially reasonable manner, determine in its discretion. Where the currency of denomination of a Collateral Asset is other than the Collateral Valuation Currency, the Collateral Agent shall convert the value of such Collateral Asset at the relevant spot exchange rate.

Except if Predetermined Collateral Valuation Currency Rate of Exchange is specified as applicable in the applicable Final Terms, The relevant spot exchange rate shall be the rate displayed on the Collateral Valuation Currency Screen Page at the Collateral Valuation Currency Specified Time, each as specified in the applicable Final Terms or, if no such Collateral Valuation Currency Screen Page is specified in the applicable Final Terms or is not available, the relevant spot rate shall be the rate determined by the Collateral Agent, acting in good faith and in a commercially reasonable manner.

If Predetermined Collateral Valuation Currency Rate of Exchange is specified as applicable in the applicable Final Terms, the relevant spot exchange rate shall be the predetermined rate specified in the applicable Final Terms.

When calculating the Collateral Value in respect of Eligible Collateral Assets, the Collateral Agent will, if so specified in the applicable Final Terms, take into account the Haircut (being a percentage amount by which the value of each type or class of Collateral Assets in a Collateral Pool is discounted) (as defined in the Additional Terms and Conditions relating to Secured Notes) specified in the applicable Final Terms. In performing its calculations as described in the section "*Verification by Collateral Monitoring Agent*" below, the Collateral Monitoring Agent will also use the relevant Haircut value(s) and, as the case may be, the specific method of Collateral Valuation specified in the applicable Final Terms.

6.2 Valuation of Secured Notes

In addition, on each Collateral Test Date for each Series of Secured Notes (other than Series where NV Collateralisation is specified as being applicable in the applicable Final Terms), Société Générale or any successor thereto (the **Note Valuation Agent**) will, pursuant to the terms of a note valuation agency agreement between, *inter alia*, the Issuer and the Note Valuation Agent (the **Note Valuation Agency Agreement**), calculate one market value applicable to each Secured Note of such Series (the **Secured Note Market Value**) and will provide such value to the Collateral Agent and the Collateral Monitoring Agent. The Secured Note Market Value shall be the market value of the relevant Secured Note determined by the Note Valuation Agent as of the Valuation Point on the basis of such valuation method as the Note Valuation Agent may, acting in good faith and in a commercially reasonable manner and in accordance with the terms of the Note Valuation Agency Agreement, determine in its discretion.

For the avoidance of doubt, the Secured Note Market Value determined by the Note Valuation Agent can differ from the Market Value determined by the Calculation Agent in accordance with Condition 5.8 of the General Terms and Conditions of the Notes and from the price proposed, as the case may be, by Société Générale or any affiliate of Société Générale or any other entities acting as market maker on the secondary market for a Note.

Unless otherwise specified in the applicable Final Terms, the Valuation Point shall be the Collateral Business Day (as defined in the Additional Terms and Conditions relating to Secured Notes) immediately preceding the Issue Date or the relevant Collateral Test Date, as the case may be, or, if a valuation of the relevant Collateral Asset or Secured Note, as applicable, is not available on such date, the date of the last available valuation of such Collateral Asset or Secured Note.

7. WAIVER OF RIGHTS TO COLLATERAL ASSETS

If "*Waiver of Rights*" is specified as applicable in the applicable Final Terms, certain Noteholders intending to hold Secured Notes (including, but not limited to, in their capacity as a market maker) may waive their rights to receive the proceeds of realisation of the Collateral Assets securing such Secured Notes (or where the clause "*Physical Delivery of Collateral Assets*" is specified as being applicable in the applicable Final Terms, delivery of the Collateral Assets) following the enforcement of the relevant Pledge Agreement (any such Secured Notes being **Waived Notes**). As a consequence, in such circumstances when calculating the Required Collateral Value in accordance with the provisions described below, the Collateral Agent and the Collateral Monitoring Agent shall only take into account the value of the Secured Notes that have not been subject to such waiver (any such Notes being **Non-Waived Notes**).

Each holder of Waived Notes shall be required to (i) inform by written notice and, upon request from the Collateral Agent, provide evidence to, the Collateral Agent of the number of Waived Notes that he holds on the Issue Date and on each Collateral Test Date and (ii) notify the Collateral Agent following any transfer of Waived Notes. The Collateral Business Day following such notification will be deemed to be a Collateral Test Date and the Collateral Agent shall notify the Collateral Monitoring Agent of the same.

Notwithstanding the above, all Secured Notes held by Societe Generale or one or more of its affiliates, including, but not limited to, in its capacity as market maker, will be deemed to be Waived Notes, unless otherwise notified in writing by Societe Generale or one or more of its affiliates to the Collateral Agent.

On each Collateral Test Date, the Collateral Agent shall notify the Issuer and the Collateral Monitoring Agent of the number of Waived Notes. Upon request of the Issuer or the Collateral Monitoring Agent, the Collateral Agent shall request a holder of Waived Notes to provide evidence of the number of Waived Notes that he holds and to provide a copy of such evidence to the Issuer or the Collateral Monitoring Agent, as applicable.

None of the Issuer, the Guarantor, the Collateral Agent, the Collateral Monitoring Agent, the Security Trustee or the Security Agent shall be responsible for any incorrect, inaccurate or incomplete information relating to the number of Waived Notes relating to any one or more Series of Secured Notes

that may have been provided to the Collateral Agent by or on behalf of any holder of Waived Notes and none of the Issuer, the Guarantor, the Collateral Agent, the Collateral Monitoring Agent, the Security Trustee or the Security Agent shall be under any duty to verify or otherwise confirm the number of Waived Notes so held.

Holders of Waived Notes shall also be deemed to waive their rights to give written notice to the Issuer and the Guarantor that the Waived Notes are immediately due and repayable at their Early Redemption Amount on the occurrence of an Event of Default following the delivery of a Required Collateral Default Notice (as described below).

8. REQUIRED COLLATERAL VALUE

In relation to a Single Series Collateral Pool, the Required Collateral Value will be calculated by the Collateral Agent on the Issue Date and on each relevant Collateral Test Date as follows:

- (i) where "*MV Collateralisation*" is specified as being the Type of Collateralisation applicable in the applicable Final Terms relating to a Series of Secured Notes, the Required Collateral Value shall be equal to the product of (a) the Collateralisation Percentage, (b) the Secured Note Market Value and (c) the number of Non-Waived Notes of such Series;
- (ii) where "*NV Collateralisation*" is specified as being the Type of Collateralisation applicable in the applicable Final Terms relating to a Series of Secured Notes, the Required Collateral Value shall be equal to the product of (a) the Collateralisation Percentage and (b) the total aggregate nominal value of the Non-Waived Notes of such Series;
- (iii) where "*Min (MV, NV) Collateralisation*" is specified as being the Type of Collateralisation applicable in the applicable Final Terms relating to a Series of Secured Notes, the Required Collateral Value shall be equal to the lower of (a) the product of (1) the Collateralisation Percentage, (2) the Secured Note Market Value and (3) the number of Non-Waived Notes or (b) the product of (1) the Collateralisation Percentage and (2) the total aggregate nominal value of the Non-Waived Notes of such Series; or
- (iv) where "*Max (MV, NV) Collateralisation*" is specified as being the Type of Collateralisation applicable in the applicable Final Terms relating to a Series of Secured Notes, the Required Collateral Value shall be equal to the greater of (a) the product of (1) the Collateralisation Percentage, (2) the Secured Note Market Value and (3) the number of Non-Waived Notes or (b) the product of (1) the Collateralisation Percentage and (2) the specified proportion of the total aggregate nominal value of the Non-Waived Notes of such Series.

The Collateralisation Percentage relating to a Series of Secured Notes will be specified in the applicable Final Terms and may be a fixed percentage or a percentage determined by applying a predetermined formula. The applicable Final Terms may also specify that the Collateralisation Percentage may vary during the term of the Notes, after a certain date, following the occurrence of a trigger event or following a unanimous decision of the Noteholders.

For the avoidance of doubt, except in the case of sub-paragraph 8(ii) above, the Collateral Agent will be required to use the Secured Note Market Value determined by the Note Valuation Agent in determining the Required Collateral Value.

In relation to a Multiple Series Collateral Pool, the Required Collateral Value will be determined by the Collateral Agent on the Issue Date and on each relevant Collateral Test Date as the sum of the amounts calculated pursuant to each relevant sub-paragraph 8(i), 8(ii), 8(iii) or 8(iv) above in respect of each Series of Secured Notes secured by the relevant Collateral Pool.

In determining the Required Collateral Value, where the Specified Currency of any Secured Note is other than the Collateral Valuation Currency, the Collateral Agent shall convert the Secured Note Market Value and/or the nominal value, as the case may be, of such Secured Note at the relevant spot exchange rate. Except if Predetermined Collateral Valuation Currency Rate of Exchange is specified as

applicable in the applicable Final Terms, The relevant spot exchange rate shall be the rate displayed on the Collateral Valuation Currency Screen Page at the Collateral Valuation Currency Specified Time, each as specified in the applicable Final Terms or, if no such Collateral Valuation Currency Screen Page is specified in the applicable Final Terms or such Collateral Valuation Currency Screen Page is not available, the relevant spot rate shall be the rate determined by the Collateral Agent in good faith and in a commercially reasonable manner.

If Predetermined Collateral Valuation Currency Rate of Exchange is specified as applicable in the applicable Final Terms, the relevant spot exchange rate shall be the predetermined rate specified in the applicable Final Terms.

9. ADJUSTMENTS TO COLLATERAL POOL AND COLLATERAL TEST NOTICE

On each Collateral Test Date relating to a relevant Series of Secured Notes the Collateral Agent will determine whether (i) the Collateral Rules applicable to such Collateral Pool are satisfied and (ii) the Collateral Value is greater than or equal to 97 per cent of the Required Collateral Value for such Collateral Pool (taking into account any Haircut value(s) to be applied to the Collateral Assets and the aggregate value of any Waived Notes) (limbs (i) and (ii) above being referred to as the **Collateral Test**). When determining whether the Collateral Test is satisfied, Collateral Assets for which instructions for the transfer to the relevant Collateral Account have been provided on or before such Collateral Test Date will be included for the purposes of such determination and Collateral Assets for which instructions for the removal from the relevant Collateral Account have been provided on or before such Collateral Test Date will be excluded for the purposes of such determination.

If on a Collateral Test Date the Collateral Agent determines that the Collateral Test is not satisfied for a specific Collateral Pool, the Collateral Agent on behalf of the Issuer will select the type and quantity of Collateral Assets to be deposited in the Collateral Account (or will select existing Collateral Assets to be replaced with other Collateral Assets), in order that after such adjustment the Collateral Test will be satisfied.

If on a Collateral Test Date the Collateral Agent determines that the Collateral Test is satisfied for a specific Collateral Pool and, if on such date, the Collateral Value is greater than the Required Collateral Value, the Collateral Agent on behalf of the Issuer shall be entitled to select Collateral Assets to be removed from the Collateral Account (or shall be entitled to select existing Collateral Assets to be replaced with other Collateral Assets), provided that after such adjustment the Collateral Test continues to be satisfied.

On each Collateral Business Day, if the Collateral Agent on behalf of the Issuer intends to make adjustments to the Collateral Assets held in a Collateral Pool (including, but not limited to, adjustments in order to ensure that the Collateral Test will be satisfied), the Collateral Agent will send or cause to be sent a notice (a **Collateral Test Notice**) to the Collateral Monitoring Agent and the Collateral Custodian (copied to the Issuer and the Guarantor, as the case may be) specifying the adjustments to be made to the Collateral Pool (including *inter alia* the type and quantity of any Collateral Assets to be deposited and/or removed).

10. VERIFICATION BY COLLATERAL MONITORING AGENT

On each Collateral Test Date, The Bank of New York Mellon, London Branch acting as Collateral monitoring agent (the **Collateral Monitoring Agent**) or any successor thereto shall, pursuant to the terms of a collateral monitoring agency agreement between, *inter alia*, the Issuer and the Collateral Monitoring Agent (the **Collateral Monitoring Agency Agreement**), calculate the Collateral Value and the Required Collateral Value and verify that the Collateral Test is satisfied. For the avoidance of doubt, the Secured Note Market Value determined by the Note Valuation Agent as described above and the aggregate number of Waived Notes notified to the Collateral Monitoring Agent shall bind the Collateral Monitoring Agent in its determination of the Required Collateral Value.

If on the relevant Collateral Test Date:

- (i) a Collateral Test Notice has been delivered by the Collateral Agent and the Collateral Monitoring Agent determines that the Collateral Test will not be satisfied (including after taking into account any adjustments specified in such Collateral Test Notice); or
- (ii) no Collateral Test Notice has been delivered by the Collateral Agent but the Collateral Monitoring Agent has determined that adjustments need to be made to the Collateral Assets so that the Collateral Test be satisfied,

then the Collateral Monitoring Agent shall, on the Collateral Business Day immediately following the relevant Collateral Test Date, notify the Collateral Agent in writing providing details of why it considers that the Collateral Test is or will not be satisfied (such notice being hereafter referred to as a **Collateral Monitoring Agent Notice**).

Following receipt of a Collateral Monitoring Agent Notice, the Collateral Agent will determine whether it is in agreement with the contents of the Collateral Monitoring Agent Notice. Should the Collateral Agent agree with the contents of a Collateral Monitoring Agent Notice, the Collateral Agent shall on the Collateral Business Day immediately following receipt of a Collateral Monitoring Agent Notice send or cause to be sent a revised Collateral Test Notice (a **First Level Revised Collateral Test Notice**) to the Collateral Monitoring Agent and the Collateral Custodian (copied to the Issuer and the Guarantor, as the case may be) specifying the agreed adjustments to be made to the Collateral Pool (including *inter alia* the type and quantity of any Collateral Assets to be deposited and/or removed) such that the Collateral Test will be satisfied.

If the Collateral Agent disputes the contents of a Collateral Monitoring Agent Notice, it shall on the Collateral Business Day immediately following receipt of a Collateral Monitoring Agent Notice notify the Collateral Monitoring Agent of such dispute in writing (a **Dispute Notice**) and the Collateral Monitoring Agent and the Collateral Agent shall consult with each other in good faith in an attempt to resolve the dispute.

If the Collateral Agent and the Collateral Monitoring Agent are able to resolve the dispute following such consultation by the second Collateral Business Day following delivery of the Dispute Notice, the Collateral Agent shall send or cause to be sent a revised Collateral Test Notice (a **Second Level Revised Collateral Test Notice**) to the Collateral Monitoring Agent and the Collateral Custodian (copied to the Issuer and the Guarantor, as the case may be) specifying the agreed adjustments to be made to the Collateral Pool (including *inter alia* the type and quantity of any Collateral Assets to be deposited and/or removed) such that the Collateral Test will be satisfied.

If the Collateral Agent and the Collateral Monitoring Agent fail to resolve the dispute by the second Collateral Business Day following delivery of the Dispute Notice, then the Collateral Agent (on behalf of the Issuer) shall notify the Collateral Monitoring Agent in writing (such notice being a **Dispute Resolution Procedure Notice**) that it will commence the following dispute resolution procedure (the **Collateral Test Dispute Resolution Procedure**) to determine the adjustments to be made to the Collateral Pool:

- (i) utilising any calculations, rules or criteria which the Collateral Agent and the Collateral Monitoring Agent have agreed are not in dispute;
- (ii) if such dispute relates to the satisfaction of the Eligibility Criteria or the Collateral Rules, appointing an independent third person (acting as an expert and not as an arbitrator) selected by the Collateral Agent and approved by the Collateral Monitoring Agent (such approval not to be unreasonably withheld) to determine whether such Eligibility Criteria and Collateral Rules are satisfied with the determination of any such person being final and binding upon the Collateral Agent and the Collateral Monitoring Agent; and
- (iii) calculating the value of those Collateral Assets the value of which is in dispute by using reasonable endeavours to seek four actual, firm and executable quotations at mid-market for such Collateral

Assets with contract sizes approximately equal to the value of such Collateral Assets from leading dealers in assets of the type of the Collateral Assets who are committed to trade with the Issuer or the Counterparty, which may include Société Générale, as selected by the Collateral Agent in its sole discretion acting in a commercially reasonable manner, and taking the weighted average of those obtained; provided that if four quotations are not available for a particular Collateral Asset, then fewer than four quotations may be used for that Collateral Asset, and if no quotations are available for a particular Collateral Asset, then the Collateral Agent's original calculations will be used for the Collateral Asset.

Following a recalculation pursuant to the Collateral Test Dispute Resolution Procedure, the Collateral Agent shall issue a **Post Dispute Collateral Test Notice** to the Collateral Monitoring Agent and the Collateral Custodian (copied to the Issuer and the Guarantor, as the case may be) containing the Collateral Value, Required Collateral Value and any adjustments to be made to the Collateral Pool such that the Collateral Test will be satisfied, in each case determined in accordance with the Collateral Test Dispute Resolution Procedure, as soon as possible but in any event not later than the 30th Collateral Business Day following delivery of the Collateral Monitoring Agent Notice. A Post Dispute Collateral Test Notice issued following the conclusion of a Collateral Test Dispute Resolution Procedure shall be binding on the Collateral Agent and the Collateral Monitoring Agent and shall not be subject to further verification by the Collateral Monitoring Agent. For the avoidance of doubt, the determination of the Collateral Value, Required Collateral Value and the adjustments to be made to a Collateral Pool in accordance with the Collateral Test Dispute Resolution Procedure will not constitute an Event of Default.

11. REQUIRED SETTLEMENT PERIOD

The delivery of the Collateral Assets for the adjustments to be made to the Collateral Pool in accordance with a Collateral Test Notice, First Level Revised Collateral Test Notice, Second Level Revised Collateral Test Notice or Post Dispute Collateral Test Notice, as applicable, shall be settled on or before the tenth Collateral Business Day following delivery of such Collateral Test Notice or, where such Collateral Test Notice is followed by a Collateral Monitoring Agent Notice, such delivery shall be settled on or before the tenth Collateral Business Day following delivery of the First Level Revised Collateral Test Notice, Second Level Revised Collateral Test Notice or Post Dispute Collateral Test Notice, as applicable (such period the **Required Settlement Period**); provided however that this ten Collateral Business Day period may be extended up to a maximum additional period of sixty Collateral Business Days (i) if the adjustments to be made to the Collateral Pool have not been settled as a result of an event beyond the control of the Collateral Agent, the Collateral Monitoring Agent and the Issuer (including, but not limited to, as a result of a failure or inability of the relevant clearing system to clear the relevant Collateral Assets) (an **External Event**) or (ii) in relation to Collateral Assets for which the regular settlement period is greater than ten Collateral Business Days under normal market conditions ((i) and (ii) being referred to as a **Collateral Settlement Disruption**). During the above additional sixty Collateral Business Day period, the Collateral Agent may propose the replacement of the affected Collateral Assets by other Collateral Assets complying with the Collateral Rules and the Eligibility Criteria, or propose any other relevant measures so that the Collateral Test is satisfied. If at the end of the sixty Collateral Business Day period (i) the External Event(s) continue(s) to exist or (ii) the Collateral Assets for which the regular settlement period is greater than ten Collateral Business Days under normal market conditions have not been settled, this shall constitute a Collateral Disruption Event.

12. COLLATERAL SUBSTITUTION

If "*Collateral Substitution*" is specified as being applicable in the applicable Final Terms, the Issuer (or the Collateral Agent on its behalf) may withdraw and/or replace Collateral Assets from any Collateral Account provided that following such adjustment the Collateral Test continues to be satisfied. The Issuer (or the Collateral Agent on its behalf) will send or cause to be sent a Collateral Test Notice to the Collateral Monitoring Agent and the Collateral Custodian (copied to the Issuer and the Guarantor, as the case may be) specifying the adjustments to be made to the Collateral Pool (including *inter alia* the type and quantity of any Collateral Assets to be deposited and/or removed). The Collateral Business Day immediately following a day on which such Collateral Test Notice is given by the Issuer (or the Collateral

Agent on its behalf) for the substitution of Collateral Assets as described above will be deemed to be a Collateral Test Date.

13. NOTIFICATION OF SETTLEMENT FAILURE

The Collateral Custodian shall notify the Issuer, the Collateral Agent and the Collateral Monitoring Agent if the settlement of any transfer of Collateral Assets has not completed within the common market practice timeframe for settlement of the type of Collateral Asset being so transferred. For the avoidance of doubt, such notification shall be taken into account when assessing whether settlement has occurred during the Required Settlement Period described above.

14. EARLY REDEMPTION FOLLOWING THE OCCURRENCE OF A COLLATERAL DISRUPTION EVENT

If the Issuer or the Collateral Agent determines that a Collateral Disruption Event has occurred, the Issuer may in its sole and absolute discretion redeem or cancel, as applicable, all of the relevant Secured Notes at the Early Redemption Amount following the occurrence of a Collateral Disruption Event calculated on the basis of the Market Value (as defined Condition 5.8 of the General Terms and Conditions of the Notes), as specified in the applicable Final Terms.

Collateral Disruption Events are defined in the Conditions and include, but are not limited to, the Issuer being unable, after using commercially reasonable efforts, to acquire the necessary Collateral Assets or being subject to materially increased costs in acquiring Collateral Assets or the Issuer being unable, after using commercially reasonable efforts, to find a suitable substitute or replacement Collateral Arrangement Party (as defined below) following the termination of the relevant agreements or resignation or removal, for any reason, of any Collateral Arrangement Party.

For the avoidance of doubt, the occurrence of a Collateral Disruption Event will not constitute an Event of Default.

15. DEFAULT IN PROVISION OF COLLATERAL ASSETS

The Issuer shall be deemed to have defaulted in relation to its obligation to provide the required level of Collateral Assets in relation to a particular Collateral Pool if:

- (i) following receipt of a Collateral Monitoring Agent Notice which indicates that the Collateral Test is not satisfied (or will not be satisfied after taking into account any adjustments specified in a Collateral Test Notice):
 - (A) no First Level Revised Collateral Test Notice or Dispute Notice has been sent; or
 - (B) no Second Level Revised Collateral Test Notice or Dispute Resolution Procedure Notice has been sent; or
 - (C) no Post Dispute Collateral Test Notice has been sent,in each case on or before the fifth Collateral Business Day following the date on which the Collateral Agent had the obligation to send such notice to the Collateral Monitoring Agent; or
- (ii) except in the case of a Collateral Settlement Disruption, the Issuer or the Collateral Agent (on behalf of the Issuer) fails to deliver the additional necessary Collateral Assets within the Required Settlement Period and such failure results in the Collateral Test not being satisfied for 5 consecutive Collateral Business Days following the end of such Required Settlement Period (when determining whether the Collateral Test has been so satisfied, only Collateral Assets which have been actually been transferred to the relevant Collateral Account shall be taken into account). For the avoidance of doubt, in the case of a Collateral Settlement Disruption, if at the end of the 60 Collateral Business Day period (i) the External Event(s) continue(s) to exist or (ii) the Collateral Assets for which the regular settlement period is greater than 10 Collateral Business Days under normal market

conditions have not been settled, this shall constitute a Collateral Disruption Event and not an Event of Default.

The occurrence of an event specified in paragraph 15(i) or 15(ii) above is hereinafter referred to as a **Required Collateral Default**.

Following the occurrence of a Required Collateral Default, the Collateral Monitoring Agent will send a notice (a **Required Collateral Default Notice**) to the Issuer, the Guarantor, the Collateral Agent, the Collateral Custodian, the Security Trustee or the Security Agent (as the case may be), specifying that a Required Collateral Default has occurred as soon as reasonably practicable and in any case within two Collateral Business Days. The Issuer or failing which the Security Trustee (in the case of English Law Notes) or the Security Agent (in the case of French Law Notes) shall give notice as soon as reasonably practicable to all relevant Noteholders if a Required Collateral Default Notice has been received.

16. EVENTS OF DEFAULT, GUARANTEE AND COLLATERAL ENFORCEMENT

Secured Notes will be subject to the same Events of Default as are applicable to Unsecured Notes. In addition, Secured Notes will be subject to an additional Event of Default if the Collateral Monitoring Agent delivers a Required Collateral Default Notice in relation to a Collateral Pool securing such Secured Notes.

Following the occurrence of an Event of Default in relation to a Series of Secured Notes, a Noteholder (or the Representative of the Masse in the case of French Law Notes acting pursuant to the request of a Noteholder) may give written notice to the Issuer, the Guarantor and the Security Trustee (in the case of English Law Notes) or the Security Agent (in the case of French Law Notes) that the Notes held by such Noteholder (or by a Noteholder represented by the Representative of the Masse in the case of French Law Notes) are immediately due and repayable at their Early Redemption Amount (as defined in the General Terms and Conditions of the Notes) (the delivery of such a notice being hereafter referred to as a **Secured Note Acceleration Event**). If a Secured Note Acceleration Event occurs in relation to one or more Secured Notes (such Notes being **Accelerated Secured Notes**), all Secured Notes which are secured by the same Collateral Pool as the one securing such Accelerated Secured Note(s) will also become immediately due and repayable at their Early Redemption Amount. This applies both in the case of a Single Series Collateral Pool and in the case of a Multiple Series Collateral Pool. The Issuer or failing which the Security Trustee (in the case of English Law Notes) or the Security Agent (in the case of French Law Notes) shall give notice as soon as reasonably practicable to all relevant Noteholders if a Secured Note Acceleration Event has occurred in relation to one or more Secured Notes which are secured by the same Collateral Pool as the relevant Accelerated Secured Notes.

Following the occurrence of a Secured Note Acceleration Event, all Noteholders whose Notes have become immediately due and payable will first be entitled to claim for any outstanding amounts due to them under the terms of the Guarantee. If neither the Issuer nor the Guarantor (pursuant to the terms of the Guarantee) has paid all amounts due to Noteholders within a period of 3 Collateral Business Days following the occurrence of a Secured Note Acceleration Event, Noteholders (or the Representative of the Masse in the case of French Law Notes acting pursuant to the request of a Noteholder) may send a notice in writing (a **Collateral Enforcement Notice**) to the Security Trustee (in the case of English Law Notes) or the Security Agent (in the case of French Law Notes) requesting that the relevant Pledge Agreement be enforced in accordance with the terms thereof.

Following receipt of a Collateral Enforcement Notice, the Security Trustee (in the case of English Law Notes) or the Security Agent (in the case of French Law Notes) will enforce the relevant Pledge Agreement relating to the Collateral Pool in accordance with the terms thereof and the Additional Terms and Conditions for Secured Notes (as completed by the applicable Final Terms) and will either (i) liquidate or realise or will give instructions to The Bank of New York Mellon, London Branch, acting as disposal agent (the **Disposal Agent**) or any successor, pursuant to the terms of a disposal agency agreement between, *inter alia*, the Issuer and the Disposal Agent (the **Disposal Agency Agreement**) to

liquidate or realise the Collateral Assets in the Collateral Pool in relation to which a Collateral Enforcement Notice has been delivered and subsequently distribute the relevant Collateral Enforcement Proceeds Share (as defined in the Additional Terms and Conditions for Secured Notes) to the relevant Noteholders or (ii) where the clause "*Physical Delivery of Collateral Assets*" applies in the applicable Final Terms, arrange for delivery of the relevant Collateral Assets Entitlement (as defined in the Additional Terms and Conditions for Secured Notes) to the relevant Noteholders, in each case in accordance with the Order of Priority specified in the applicable Final Terms. The payment of any Collateral Enforcement Proceeds Share or the delivery of any Collateral Assets Entitlement, may, at the request of the Security Trustee or the Security Agent, as the case may be, be undertaken by the Substitute Paying Agent (as defined below) or any replacement entity thereof.

For the avoidance of doubt, following the payment of any Collateral Enforcement Proceeds Share or the delivery of any Collateral Assets Entitlement, Noteholders will continue to be able to claim under the terms of the Guarantee against the Guarantor for any due and unpaid amounts.

Although the Pledge Agreement relating to a particular Collateral Pool may only be enforced following a failure by the Issuer or the Guarantor to pay accelerated amounts due after the occurrence of a Secured Note Acceleration Event within the 3 Collateral Business Days period referred to above, the security provided pursuant to the Pledge Agreement remains security granted by the Issuer in relation to the Issuer's payment obligations under the Secured Notes and does not secure the payment obligations of the Guarantor under the Guarantee.

17. PHYSICAL DELIVERY OF COLLATERAL ASSETS DISRUPTION EVENT

Where "*Physical Delivery of Collateral Assets*" is specified as applicable in the applicable Final Terms, in certain circumstances, if, in the opinion of the Substitute Paying Agent, the Security Trustee or the Security Agent, as the case may be, delivery of all or some of the Collateral Assets forming part of the Collateral Assets Entitlement is not possible for a specified period of time, then the Security Trustee or the Security Agent, as the case may be, or the Disposal Agent on their behalf, in lieu of physical settlement, shall sell or realise such undeliverable Collateral Assets and deliver the proceeds thereof to Noteholders.

18. REPLACEMENT OF PROGRAMME PARTIES

Each of the Collateral Agency Agreement, the Collateral Monitoring Agency Agreement, the Collateral Custodian Agreement, the Note Valuation Agency Agreement, the Substitute Paying Agency Agreement, the Disposal Agency Agreement and the Security Agency Agreement contain, and each Pledge Agreement and Security Trust Deed will contain, provisions for the termination of such agreement and, as the case may be, the removal and/or replacement of the role of any party appointed thereunder (each a **Collateral Arrangement Party**). Any such termination, removal and/or replacement will be effected in accordance with the provisions of such agreements and the Additional Terms and Conditions for Secured Notes and may be effected without the consent of Noteholders. In accordance with the terms of such agreements and/or the Additional Terms and Conditions for Secured Notes, the Issuer shall be required to give notice to Noteholders of any such termination, removal and/or replacement.

In particular, the replacement of the Collateral Custodian may only be effected when certain conditions relating to the substitute Collateral Custodian are fulfilled. Such conditions include, but are not limited to a requirement that the substitute Collateral Custodian is:

- (i) incorporated in an Organisation for Economic Co-operation and Development (OECD) member country,
- (ii) a fully licensed credit institution in Luxembourg,

- (iii) , in the reasonable opinion of the Issuer and the Arranger, able to act as Collateral Custodian and fulfil the obligations and duties expressed to be binding on it pursuant to the terms of the Collateral Custodian Agreement and
- (iv) chosen from a pre-established list of entities (including BBH, Citi, HSBC, JP Morgan, Northern Trust, RBC Dexia Investor Services, BP2S, State Street or Wells Fargo & Company Inc) or otherwise is a custodian of similar repute and good standing.

19. SUBSTITUTE PAYING AGENT

The Issuer has appointed The Bank of New York Mellon, London Branch or any successor thereto as substitute paying agent in relation to both English Law Notes and French Law Notes (the **Substitute Paying Agent**) pursuant to the terms of a substitute paying agency agreement (the **Substitute Paying Agency Agreement**) between, *inter alia*, the Issuer and the Substitute Paying Agent. Following the delivery of a Collateral Enforcement Notice, the Substitute Paying Agent shall act as agent pursuant to the terms of the Substitute Agency Agreement solely for the purposes of assisting with the payment of any Collateral Enforcement Proceeds Share or the delivery of any Collateral Assets Entitlement to Noteholders (if so requested by the Security Trustee (in the case of English Law Notes) or the Security Agent (in the case of French Law Notes)).

ADDITIONAL TERMS AND CONDITIONS RELATING TO SECURED NOTES

The provisions of these Additional Terms and Conditions for Secured Notes apply if the applicable Final Terms specify that the clause “*Secured Notes Provisions*” is stated as being “*Applicable*”.

The terms and conditions applicable to Secured Notes shall comprise (a) either (i) the Terms and Conditions of the English Law Notes and Uncertificated Notes or (ii) the Terms and Conditions of the French Law Notes and (b) these Additional Terms and Conditions, in each case subject to completion and/or amendment in the applicable Final Terms.

In the event of any inconsistency between the Terms and Conditions of the English Law Notes and Uncertificated Notes or the Terms and Conditions of the French Law Notes on the one hand and these Additional Terms and Conditions on the other hand, these Additional Terms and Conditions shall prevail.

In the event of any inconsistency between (i) the Terms and Conditions of the English Law Notes and Uncertificated Notes or the Terms and Conditions of the French Law Notes and/or these Additional Terms and Conditions (ii) the applicable Final Terms, the applicable Final Terms shall prevail.

3.2 Single and Multiple Series Collateral Pools

A Collateral Pool may be either a Single Series Collateral Pool or a Multiple Series Collateral Pool. Where the applicable Final Terms in respect of a Series of Secured Notes specify that "Single Series Collateral Pool" will be applicable to the Series of Secured Notes, such Series of Secured Notes will be the only Series of Secured Notes to be secured by the relevant Collateral Pool. Where the applicable Final Terms specify that "Multiple Series Collateral Pool" will be applicable to the relevant Series of Secured Notes, such Series of Secured Notes may be secured by a Collateral Pool which secures more than one Series of Secured Notes.

Noteholders acquiring and holding Secured Notes where "Multiple Series Collateral Pool" is specified as being applicable in the applicable Final Terms will, by acquiring and holding such Secured Note, be deemed to acknowledge, accept and agree to the rights of other Noteholders of different Series of Secured Notes to share equally in the security created over the Collateral Assets in the Multiple Series Collateral Pool.

3.3 Initial Collateral Assets

On the Issue Date of a Series of Secured Notes, SG Issuer will deposit Collateral Assets in the relevant Collateral Account such that the Collateral Test is satisfied on such Issue Date.

Following receipt of a Collateral Test Notice, First Level Revised Collateral Test Notice, Second Level Revised Collateral Test Notice or Post Dispute Collateral Test Notice, as applicable, from the Collateral Agent which indicates that the Collateral Test is not satisfied, the Collateral Agent on behalf of SG Issuer will, as soon as reasonably practicable following receipt of such Collateral Test Notice or, where such Collateral Test Notice is followed by a Collateral Monitoring Agent Notice, the First Level Revised Collateral Test Notice, Second Level Revised Collateral Test Notice or Post Dispute Collateral Test Notice, as applicable, and in any event within the Required Settlement Period, deliver, or procure the delivery of, additional or replacement Collateral Assets to or from the Collateral Account such that after such adjustment of Collateral Assets the Collateral Test will be satisfied.

3.5 Substitution of Collateral Assets

If "Collateral Substitution" is specified as applicable in the applicable Final Terms, SG Issuer (or the Collateral Agent on its behalf) may withdraw and/or replace Collateral Assets from the relevant Collateral Account provided that following such adjustment the Collateral Test continues to be satisfied. SG Issuer (or the Collateral Agent on its behalf) will send or cause to be sent a notice to the Collateral Monitoring Agent and the Collateral Custodian (copied to SG Issuer and the Guarantor, as the case may be) specifying the adjustments to be made to the Collateral Pool (including *inter alia* the type and quantity of any Collateral Assets to be deposited and/or removed). The Collateral Business Day immediately following a day on which such notice is given by SG Issuer (or the Collateral Agent on its behalf) for the substitution of Collateral Assets as described above will be deemed to be a Collateral Test Date.

3.6 Delegation to Collateral Agent

SG Issuer may, pursuant to the terms of the Collateral Agency Agreement, delegate to the Collateral Agent the role of managing each Collateral Pool to comply with the requirements of these Additional Terms and Conditions (including, but not limited to, compliance with Conditions 3.4 and 3.5).

Following the occurrence of a Required Collateral Default, the Collateral Monitoring Agent will be required to send a Required Collateral Default Notice to SG Issuer, the Guarantor, the Collateral Agent, the Collateral Custodian, the Security Trustee and the Security Agent, specifying that a Required Collateral Default has occurred. SG Issuer or failing which the Security Trustee or the Security Agent shall give notice in accordance with Condition 13 of the General Terms and Conditions of the Notes, as applicable, as soon as reasonably practicable to all relevant Noteholders if a Required Collateral Default Notice has been received.

In relation to each issue of Secured Notes, the Collateral Agent, Collateral Monitoring Agent and Note Valuation Agent act solely as agents of SG Issuer, and do not assume any obligation or duty to, or any relationship of agency or trust for or with, the Noteholders.

All calculations and determinations made in respect of the Secured Notes by the Collateral Agent, Collateral Monitoring Agent and Note Valuation Agent shall (save in the case of manifest error) be final, conclusive and binding on SG Issuer, the Guarantor, the Noteholders and the Security Trustee or the Security Agent.

Each of the Collateral Agent, Collateral Monitoring Agent and Note Valuation Agent may, with the consent of SG Issuer, delegate any of their obligations and functions to a third party as provided for in the Collateral Agency Agreement, Collateral Monitoring Agency Agreement and Note Valuation Agency Agreement, as applicable.

5. DEFAULT, ENFORCEMENT AND REALISATION

5.1 Default and Enforcement of Collateral

If a Secured Note Acceleration Event occurs, all Secured Notes which are secured by the same Collateral Pool as the one securing the relevant Accelerated Secured Note will also become immediately due and repayable at their Early Redemption Amount. SG Issuer or failing which the Security Trustee or the Security Agent shall give notice in accordance with Condition 13 of the General Terms and Conditions of the Notes, as applicable, as soon as reasonably practicable to all relevant Noteholders if a Secured Note Acceleration Event has occurred in relation to one or more Secured Notes which are secured by the same Collateral Pool as such Noteholders.

Following the occurrence of a Secured Note Acceleration Event in relation to a Secured Note, the Pledge Agreement relating to the Collateral Pool securing such Series of Secured Notes will not become immediately enforceable but instead Noteholders whose Notes have become immediately due and repayable in accordance with this Condition 5.1 will initially be entitled to claim for any outstanding amounts due to them under the terms of the Guarantee.

If neither SG Issuer nor the Guarantor has paid all amounts due to Noteholders of a Series of Notes in relation to which a Secured Note Acceleration Event has occurred within a period of 3 Collateral Business Days following notification to Noteholders of the occurrence of a Secured Note Acceleration Event, any holder of Notes of such Series (or the Representative of the Masse in the case of French Law Notes acting pursuant to the request of a holder of Notes of such Series) will be entitled to send a Collateral Enforcement Notice to the Security Trustee or the Security Agent requesting that the relevant Pledge Agreement be enforced in accordance with the terms thereof.

The Security Trustee or the Security Agent shall, following receipt of a Collateral Enforcement Notice, promptly give notice of the same to SG Issuer, the Guarantor, the Collateral Agent, the Collateral Custodian and the other Noteholders whose Notes are secured on the Collateral Pool in relation to which such Collateral Enforcement Notice relates.

5.2 Enforcement and Realisation of Collateral Assets

Upon receipt of a Collateral Enforcement Notice, the Security Trustee or the Security Agent will enforce the relevant Pledge Agreement relating to the relevant Collateral Pool in accordance with the terms thereof and these Additional Terms and Conditions (as completed by the applicable Final Terms) and will (i) give instructions to the Disposal Agent to liquidate or realise the Collateral Assets in each Collateral Pool which secures a Series of Secured Notes in accordance with Condition 5.6 and subsequently distribute the relevant Collateral Enforcement Proceeds Share to relevant Noteholders in accordance with Condition 5.5 or (ii) where Physical Delivery of Collateral Assets is specified as applicable in the applicable Final Terms, arrange for delivery of the relevant Collateral Assets Entitlement to the relevant Noteholders in accordance with Condition 5.8, in each case after payment of any amounts payable to the Secured Parties ranking prior to the holders of the Non Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms (such amounts to be paid either out of the proceeds of such liquidation or realisation of Collateral Assets or out of the proceeds transferred by the Noteholders in accordance with Condition 5.8)).

5.3 Liability of the Security Trustee and the Security Agent

Neither the Security Trustee nor the Security Agent will, in the absence of negligence, fraud and wilful misconduct, have any liability as to the consequence of any enforcement or realisation action and neither will have regard to the effect of such action on individual Noteholders.

5.4 Enforcement and Realisation by Noteholders

No Noteholder or the Representative of the Masse in the case of French Law Notes shall be entitled to enforce a Pledge Agreement or to proceed directly against SG Issuer to enforce the other provisions of a Pledge Agreement unless the Security Trustee or the Security Agent, having become bound to so

enforce or proceed, fails so to do within a reasonable time and such failure is continuing or the Security Trustee or the Security Agent is prevented from enforcing a Pledge Agreement by any court order.

5.5 Application and distribution of proceeds of enforcement

Unless "*Physical Delivery of Collateral Assets*" is specified in the applicable Final Terms, in connection with the enforcement of a Pledge Agreement, after the realisation and liquidation in full of all the Collateral Assets in a Collateral Pool in accordance with Condition 5.6, the Security Trustee or the Security Agent shall use the proceeds of such realisation and liquidation of the Collateral Assets to make payment of any amounts payable to the Secured Parties ranking prior to the holders of Non Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms. Following such payment the Security Trustee or the Security Agent shall determine the Collateral Enforcement Proceeds Share in respect of each Secured Note and shall notify such amounts to the Noteholders in accordance with Condition 13 of the General Terms and Conditions of the Notes, as applicable.

Subject as provided below, the remaining proceeds from the realisation of the Collateral Assets in a Collateral Pool will then be applied in meeting the claims of Noteholders under the Secured Notes which are secured by the relevant Collateral Pool (taking into account any amounts which have been paid to Noteholders by the Guarantor pursuant to the terms of the Guarantee) *pro rata* to the Collateral Enforcement Proceeds Share of each such Secured Note. Such claim will be adjusted in accordance with the following rules:

- If the Collateral Enforcement Proceeds Share for a particular Secured Note is greater than the Owed Amount defined as the difference between (A) the amount due to such Noteholder, by the Issuer in respect of the Notes, or by the Guarantor under the terms of the Guarantee and (B) any amounts which have been paid to such Noteholder by the Issuer or the Guarantor in respect of this particular Secured Note, then such excess amount will not be distributed to such Noteholder but will be distributed to the Secured Parties ranking after the holders of Non-Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms;
- otherwise, if the Collateral Enforcement Proceeds Share for a particular Secured Note is lower than, the Owed Amount then, in accordance with Condition 6 below, such Noteholder shall not be entitled to any further recourse against the Issuer for such shortfall amount, but may claim any payment of such shortfall amount from the Guarantor under the terms of the Guarantee.

5.6 Method of realisation of Collateral Assets

Subject as may otherwise be provided for in these Additional Terms and Conditions or the applicable Final Terms, in effecting the sales, the Security Trustee, the Security Agent or, in either case, the Disposal Agent on their behalf may sell the Collateral Assets in one single tranche or in smaller tranches as it considers appropriate in order to attempt reasonably to maximise the proceeds from such sale. The Security Trustee, the Security Agent or, in either case, the Disposal Agent on their behalf may effect sales of the Collateral Assets (i) on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted, (ii) in the over-the-counter market or (iii) in transactions otherwise than on such exchanges or in the over-the counter market.

In general the Security Trustee and the Security Agent shall be able to exercise any right regarding the realisation of the Collateral Assets in accordance with article 11 of the Collateral Act 2005 including but not limited to the appropriation of the Collateral Assets at their value as determined by the Collateral Agent as at the most recent Collateral Test Date.

Where the Security Trustee, the Security Agent or, in either case, the Disposal Agent on their behalf is required or requested to dispose of any Collateral Assets other than on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted then, in compliance with the relevant provisions of the Collateral Act 2005:

- (a) the Security Trustee, the Security Agent or, in either case, the Disposal Agent on their behalf shall seek firm bid quotations from at least three independent dealers in assets similar in nature to the relevant Collateral Assets (and, for such purpose, it may seek quotations in respect of such Collateral Assets in their entirety or in respect of designated tranches thereof, as it considers appropriate in order to maximise the proceeds of the sale of such Collateral Assets);
- (b) for the purposes of obtaining the quotations referred to in (a) above, the Security Trustee, the Security Agent or, in either case, the Disposal Agent on their behalf may itself provide a bid in respect of the relevant Collateral Assets or any tranche thereof; and
- (c) the Security Trustee, the Security Agent or, in either case, the Disposal Agent on their behalf shall be authorised to accept in respect of each relevant tranche or, as applicable, the entirety of the relevant Collateral Assets the highest quotation so obtained (which may be a quotation from the Security Trustee, the Security Agent or, in either case, the Disposal Agent on their behalf (when providing such quotations themselves, the Security Trustee, the Security Agent or the Disposal Agent shall act in a commercially reasonable manner).

5.7 Inability to realise Collateral Assets

If the Security Trustee, the Security Agent or, in either case, the Disposal Agent on their behalf is unable to sell the Collateral Assets on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted or obtain the three quotations required for the sale of one or more Collateral Assets, in each case pursuant to Condition 5.6, for a period of one year from the date of the relevant Secured Note Acceleration Event (such Collateral Assets being **Non-Realised Collateral Assets**), then in lieu of cash settlement of such Non-Realised Collateral Assets and notwithstanding any other provision hereof, the Security Trustee or the Security Agent shall be entitled to Deliver, or procure the Delivery of, such Non-Realised Collateral Assets to the relevant Noteholders in accordance with Condition 5.8 and the Order of Priority specified in the applicable Final Terms.

If Delivery of any Non-Realised Collateral Assets is not possible due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event for a period of greater than 20 Collateral Business Days, the Security Trustee, the Security Agent or the Disposal Agent on their behalf, shall be entitled to either (i) sell such Non-Realised Collateral Assets by accepting the first available price for such Non-Realised Collateral Assets or (ii) Deliver such Non-Realised Collateral Assets if Delivery subsequently becomes possible.

5.8 Physical Delivery of Collateral Assets

Where "*Physical Delivery of Collateral Assets*" is specified in the applicable Final Terms, following enforcement of a Pledge Agreement, the Security Trustee or the Security Agent will determine the Collateral Assets Entitlement (based on the valuations of the relevant Collateral Assets by the Collateral Monitoring Agent on the Collateral Test Date immediately preceding the delivery of the Collateral Enforcement Notice) in respect of each Secured Note and shall notify such amounts to the Noteholders in accordance with Condition 13 of the General Terms and Conditions of the Notes, as applicable.

Subject as provided below, the Security Trustee or the Security Agent will either:

- realise and liquidate sufficient Collateral Assets in accordance with Condition 5.6, to ensure payment of any amounts payable to the Secured Parties ranking prior to the holders of Non Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms, or
- upon transfer of sufficient funds by the Noteholders, pay any such amount payable to the Secured Parties ranking prior to the holders of Non Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms.

Following such payment, the Security Trustee or the Security Agent will notify Noteholders of the relevant Collateral Delivery Date and will Deliver the Collateral Assets Entitlement to the Noteholders of

the Secured Notes secured by the relevant Collateral Pool in accordance with the method of transfer of Collateral Assets specified in the applicable Final Terms, subject to the following provisions:

- If the value of the Collateral Assets contained in a Collateral Assets Entitlement (based on the valuations of such assets by the Collateral Monitoring Agent on the Collateral Test Date immediately preceding the delivery of the Collateral Enforcement Notice) for a particular Secured Note is greater than the Owed Amount defined as the difference between (A) the amount due to such Noteholder, by the Issuer in respect of the Notes, or by the Guarantor under the terms of the Guarantee and (B) any amounts which have been paid by the Issuer or the Guarantor to such Noteholder in respect of this particular Secured Note, then assets from the Collateral Assets Entitlement for a value equal to such excess amount will be liquidated and the proceeds thereof will then be distributed to the Secured Parties ranking after the holders of Non-Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms;
- otherwise, when the value of the Collateral Assets contained in a Collateral Assets Entitlement (based on the valuations of such assets by the Collateral Monitoring Agent on the Collateral Test Date immediately preceding the delivery of the Collateral Enforcement Notice) for a particular Secured Note is lower than the Owed Amount, then, in accordance with Condition 6 such Noteholder shall not be entitled to any further recourse against the Issuer for such shortfall amount, but may claim any payment of such shortfall amount from the Guarantor under the terms of the Guarantee.

5.9 Physical Delivery of Collateral Assets Disruption Event

- 5.9.1** If, in the opinion of the Substitute Paying Agent, the Security Trustee or the Security Agent, Delivery of all or some of the Collateral Assets forming part of the Collateral Assets Entitlement using the method of delivery specified in the applicable Final Terms, or such other commercially reasonable manner as the Substitute Paying Agent, the Security Trustee or the Security Agent has determined, is not practicable by reason of a Physical Delivery of Collateral Assets Disruption Event having occurred and continuing on any Collateral Delivery Date, then such Collateral Delivery Date shall be postponed to the first following Collateral Business Day in respect of which there is no such Physical Delivery of Collateral Assets Disruption Event, provided that the Substitute Paying Agent, the Security Trustee or the Security Agent may elect in its sole discretion to Deliver the Collateral Assets forming part of the Collateral Assets Entitlement in such other commercially reasonable manner as it may select and in such event the Collateral Delivery Date shall be such day as the Substitute Paying Agent, the Security Trustee or the Security Agent deems appropriate in connection with delivery of the Collateral Assets forming part of the Collateral Assets Entitlement in such other commercially reasonable manner.

For the avoidance of doubt, where a Physical Delivery of Collateral Assets Disruption Event affects some but not all of the Collateral Assets forming part of the Collateral Assets Entitlement due to be delivered to a Noteholder, the Collateral Delivery Date for those Collateral Assets forming part of the Collateral Assets Entitlement which are able to be Delivered will be the Collateral Delivery Date on which such Collateral Assets are delivered.

- 5.9.2** If Delivery of any Collateral Assets forming part of the Collateral Assets Entitlement is not possible due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event for a period of greater than 20 Collateral Business Days (or such other period specified in the applicable Final Terms), then in lieu of physical settlement and notwithstanding any other provision hereof, the Security Trustee or the Security Agent, or, in either case, the Disposal Agent on their behalf, shall sell or realise the Undeliverable Collateral Assets and deliver the proceeds thereof to Noteholders in the manner set out in Conditions 5.5 and 5.6.
- 5.9.3** If the Security Trustee, the Security Agent or, in either case, the Disposal Agent on their behalf is unable to either (i) sell the Collateral Assets on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted or obtain the three quotations required for the sale of the Collateral Assets, in each case pursuant to Condition 5.6 or (ii) Deliver such Collateral Assets due to the

continuation of a Physical Delivery of Collateral Assets Disruption Event, for a period of one year from the date of the relevant Secured Note Acceleration Event, the Security Trustee, the Security Agent or the Disposal Agent shall be entitled to accept the first available price for such Collateral Assets.

The Security Trustee or the Security Agent or the Substitute Paying Agent on their behalf, shall give notice as soon as practicable to the Noteholders in accordance with Condition 13 of the General Terms and Conditions of the Notes, as applicable, that a Physical Delivery of Collateral Assets Disruption Event has occurred. No Noteholder shall be entitled to any payment in respect of the relevant Secured Notes in the event of any delay in the Delivery of the Collateral Assets forming part of the Collateral Assets Entitlement due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event and no liability in respect thereof shall attach to SG Issuer, the Guarantor, the Security Trustee or the Security Agent.

5.10 Use of Substitute Paying Agent

The payment of any Collateral Enforcement Proceeds Share or the delivery of any Collateral Assets Entitlement, may, at the request of the Security Trustee or the Security Agent, be undertaken by the Substitute Paying Agent pursuant to the terms of the Substitute Paying Agency Agreement.

6. SEGREGATION OF COLLATERAL POOLS AND LIMITED RECOURSE AND NON-PETITION

6.1 Limited Recourse against SG Issuer

By acquiring and holding Secured Notes, Noteholders will be deemed to acknowledge and agree that the obligations of SG Issuer to the Noteholders are limited in recourse to the Collateral Assets contained in the relevant Collateral Pool securing such Series of Secured Notes. If:

- (a) there are no relevant Collateral Assets in the relevant Collateral Pool remaining which are capable of being realised or otherwise converted into cash;
- (b) all amounts available from the relevant Collateral Assets in the relevant Collateral Pool have been applied to meet or provide for the relevant obligations specified in, and in accordance with, the provisions of the relevant Pledge Agreement and these Additional Terms and Conditions; and
- (c) there are insufficient amounts available from the relevant Collateral Assets in the relevant Collateral Pool to pay in full, in accordance with the provisions of the relevant Pledge Agreement and these Additional Terms and Conditions, amounts outstanding under the Secured Notes (including payments of principal, premium (if any) and interest),

then the Noteholders of such Secured Notes shall have no further claim against SG Issuer in respect of any amounts owing to them which remain unpaid (including, for the avoidance of doubt, payments of principal, premium (if any) and/or interest in respect of the Notes). In particular, no Noteholder shall be entitled to have recourse to the Collateral Assets contained in a Collateral Pool other than the Collateral Pool which secures the Notes held by such Noteholder.

For the avoidance of doubt, in such a scenario, Noteholders will continue to be able to claim under the terms of the Guarantee against the Guarantor for any unpaid amounts.

6.2 Non-petition

By acquiring and holding Secured Notes, Noteholders will be deemed to acknowledge and agree that no Noteholder shall be entitled to take any steps or proceedings to procure the winding-up, administration or liquidation (or any other analogous proceeding) of SG Issuer.

7. COLLATERAL DISRUPTION EVENTS

Upon the occurrence, as determined by SG Issuer or the Collateral Agent, in each case acting in good faith, of a Collateral Disruption Event, SG Issuer may at its option and in its sole discretion consider such

event as an event triggering an early redemption of the relevant Secured Notes at the Early Redemption Amount following occurrence of a collateral disruption event specified in the applicable Final Terms.

FORM OF DEED OF GUARANTEE

THIS DEED OF GUARANTEE is made on [●] 2014 by Société Générale (the **Guarantor**) in favour of the Noteholders (as defined in the Programme Agreement (as defined below)) and the holders for the time being of interest coupons (if any) appertaining to the Notes (the **Coupons**, which expression shall include the receipts for the repayment of principal in instalments (if any) appertaining to the Notes), the Coupons being attached on issue to Definitive Bearer Note(s) (as defined below). Each Noteholder and each holder of a Coupon is a **Holder**.

WHEREAS:

1. SG Issuer, SGA Société Générale Acceptance N.V. and SG Option Europe (the **Issuers** and each an **Issuer**) and the Guarantor have entered into a Programme Agreement dated 29 April 2014 (the **Programme Agreement**, which expression includes the same as it may be amended, supplemented or restated from time to time) with the Dealers named therein under which, each Issuer proposes from time to time to issue Debt Instruments (the **Notes**, such expression to include each Definitive Bearer Note, each Definitive Bearer SIS Note, each Definitive Registered Note, each Global Note, each Uncertificated Note, each Registered Note, each Materialised Note and each Dematerialised Note issued by an Issuer (the terms "Definitive Bearer Note", "Definitive Registered Note", "Global Note", "Uncertificated Note" and "Registered Note" have the meanings ascribed thereto in the Terms and Conditions of the English Law Notes and the Uncertificated Notes (as set out in the base prospectus dated 29 April 2014 (the **Base Prospectus**)), and the terms "Materialised Note" and "Dematerialised Note" have the meanings ascribed thereto in the Terms and Conditions of the French Law Notes (as set out in the Base Prospectus), and to include any receipts issued in respect of Notes repayable in instalments);
2. each Issuer has executed a Deed of Covenant (the **Deed of Covenant**) dated 29 April 2014 relating to Global Notes (other than Permanent Global SIS Notes) issued by that Issuer pursuant to the Programme Agreement; with effect from the date hereof, this Deed of Guarantee (the **Deed of Guarantee**) will apply only in relation to Notes issued on or after such date;
3. the Issuers and the Guarantor have entered into an Agency Agreement dated 29 April 2014 in relation to the English Law Notes and a French Law Agency Agreement dated 29 April 2014 in relation to the French Law Notes (respectively, the **Agency Agreement** and the **French Law Agency Agreement** and together, the **Agency Agreements**, which expressions include the same as they may be amended, supplemented or restated from time to time) with the Fiscal Agent, the Registrar and other parties named therein.

NOW THIS DEED WITNESSES as follows:

1. **Guarantee**

Subject as provided herein, the Guarantor irrevocably and unconditionally guarantees by way of deed poll to each Holder that, if for any reason, the relevant Issuer does not pay any sum payable by it to such Holder in respect of any Note or Coupon or (if applicable) under the Deed of Covenant (including any premium or any other amounts of whatever nature or additional amounts which may become payable under any of the foregoing), as and when the same shall become due under any of the foregoing, the Guarantor will pay to such Holder on demand the amount payable by the relevant Issuer to such Holder as if such payment was made by the Issuer in accordance with the terms and conditions of the Notes.

Notes issued before [●] 2014 continue to have the benefit of any previous deed of guarantee applicable thereto made by the Guarantor prior to this Deed of Guarantee. Notes issued prior to 19 December 2003 by SG Australia Limited (ABN 72 002 093 021) shall continue to have the benefit of any deed of guarantee applicable thereto made by the Guarantor prior to such date.

2. Guarantor as Principal Debtor

This Guarantee is one of payment and not of collection. Without affecting the relevant Issuer's obligations, the Guarantor will be liable under this Guarantee as if it were the sole principal debtor and not merely a surety. Accordingly, it will not be discharged, nor will its liability be affected, by anything which would not discharge it or affect its liability if it were the sole principal debtor (including (a) any time, indulgence, waiver or consent at any time given to the relevant Issuer or any other person, (b) any amendment to any Note, any Coupon or (if applicable) the Deed of Covenant or to any security or other guarantee or indemnity, (c) the making or absence of any demand on the relevant Issuer or any other person for payment, (d) the enforcement or absence of enforcement of any Note, any Coupon, (if applicable) the Deed of Covenant or of any security or other guarantee or indemnity, (e) any contractual defences such as set-off, recoupment and counterclaim not available to the Issuer, (f) the release of any such security, guarantee or indemnity, (g) the dissolution, amalgamation, reconstruction or reorganisation of the relevant Issuer or any other person or (h) the illegality, invalidity or unenforceability of or any defect in any provision of any Note, any Coupon or (if applicable) the Deed of Covenant or any of the relevant Issuer's obligations under any of them).

3. Guarantor's Obligations Continuing

The Guarantor's obligations under this Guarantee are and will remain in full force and effect by way of continuing security until no sum remains payable under any Note, any Coupon or (if applicable) the Deed of Covenant. Any amendments to this Deed of Guarantee prejudicial to the interest of the Noteholders shall only apply to Notes issued after the date of such amendments. Furthermore, these obligations of the Guarantor are additional to, and not instead of, any security or other guarantee or indemnity at any time existing in favour of a Holder, whether from the Guarantor or otherwise. The Guarantor irrevocably waives all notices and demands whatsoever.

4. Repayment to the Issuer

If any payment received by a Holder is, on the subsequent liquidation or insolvency of the relevant Issuer, avoided under any laws relating to liquidation or insolvency, such payment will not be considered as having discharged or diminished the liability of the Guarantor and this Guarantee will continue to apply as if such payment had at all times remained owing by the relevant Issuer.

5. Indemnity

As a separate and alternative stipulation, the Guarantor unconditionally and irrevocably agrees that any sum expressed to be payable by the relevant Issuer under any Note, any Coupon or (if applicable) the Deed of Covenant but which is for any reason (whether or not now known or becoming known to the relevant Issuer, the Guarantor or any Holder) not recoverable from the Guarantor on the basis of a guarantee will nevertheless be recoverable from it as if it were the sole principal debtor and will be paid by it to the Holder on demand. This indemnity constitutes a separate and independent obligation from the other obligations in this Guarantee, gives rise to a separate and independent cause of action and will apply irrespective of any indulgence granted by any Holder.

6. Status of Guarantee

In respect of any Notes, the obligation of the Guarantor under this Guarantee constitutes a direct, unconditional, unsecured and general obligation of the Guarantor and ranks and will rank *pari passu* with all other existing and future direct, unconditional, unsecured and general obligations of the Guarantor, including those in respect of deposits.

7. Incorporation of Conditions

So long as any of the Notes remains outstanding (as defined in the Agency Agreements) the Guarantor will comply with the provisions applicable to it in the Conditions of the Notes as though the same were set out in full herein.

8. Power to execute

The Guarantor hereby warrants, represents and covenants with each Holder that it has all corporate power, and has taken all necessary corporate or other steps, to enable it to execute, deliver and perform this Guarantee, and that this Guarantee constitutes a legal, valid and binding obligation of the Guarantor in accordance with its terms, subject to any obligations mandatorily preferred by law.

9. Deposit of Guarantee

This Guarantee shall take effect as a deed poll for the benefit of the Holders from time to time and for the time being. This Guarantee shall be deposited with and held by Société Générale Bank & Trust, for the benefit of the Holders until all the obligations of the Guarantor have been discharged in full.

10. Production of Guarantee

The Guarantor hereby acknowledges the right of every Holder to the production of, and the right of every Holder to obtain (upon payment of a reasonable charge) a copy of, this Guarantee, and further acknowledges and covenants that the obligations binding upon it contained herein are owed to, and shall be for the account of, each and every Holder, and that each Holder shall be entitled severally to enforce the said obligations against the Guarantor.

11. Subrogation

Until all amounts which may be payable under the Notes, the Coupons and/or (if applicable) the Deed of Covenant have been irrevocably paid in full, the Guarantor shall not by virtue of this Guarantee be subrogated to any rights of any Holder or claim in competition with the Holders against the relevant Issuer.

12. Transfer/assignment

Upon any Substitution pursuant to the terms and conditions of the Notes, this Guarantee shall remain in full force and effect and thereafter be construed as if each reference herein to the Issuer were a reference to the Substituted Debtor.

13. Contracts (Rights of Third Parties) Act 1999

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Guarantee, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

14. Governing Law and Jurisdiction

This Guarantee and any non-contractual obligations arising out of or in connection with it are governed by and shall be construed in accordance with English law. The Guarantor irrevocably agrees for the benefit of each Holder that the courts of England are to have jurisdiction to settle any dispute which may arise out of or in connection with this Guarantee (including any dispute relating to any non-contractual obligations arising out of or in connection with this Guarantee) and that accordingly any suit, action or proceedings (together referred to as **Proceedings**) arising out of or in connection with this Guarantee (including any Proceedings relating to any non-contractual obligations arising out of or in connection with this Guarantee) may be brought in the courts of England.

The Guarantor irrevocably waives any objection which it may have now or hereafter to the laying of the venue of any Proceedings in the courts of England and irrevocably agrees that a final judgment in any Proceedings brought in the courts of England shall be conclusive and binding upon the Guarantor and may be enforced in the courts of any other jurisdiction. Nothing contained in this Clause shall limit any right to take Proceedings against the Guarantor in any other court of competent jurisdiction, nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction, whether concurrently or not.

The Guarantor hereby appoints Société Générale, London Branch (SGLB), currently of SG House, 41, Tower Hill, London EC3N 4SG, as its agent for service of process in England in respect of any Proceedings and undertakes that in the event of SGLB ceasing so to act, it will appoint another person as its agent for that purpose.

IN WITNESS whereof this Guarantee has been executed and delivered as a deed on behalf of the Guarantor.

Lyxor AM (the “**Index Advisor**”) advises the scientific committee of the Index, composed of Index Sponsor and Index Advisor representatives, as to certain parameters of the Index, such as the composition of the underlying basket.

1.2 Mechanism

1.2.1 Index Composition

The Index is composed of a dynamic basket of indices and funds (each, a “**Basket Component**”, together the “**Underlying Basket**”) where the weightings are determined on a monthly basis by the Index Advisor in accordance with a methodology described under 1.2.2 below.

In order to keep the risks associated with the Index under a certain limit, the Index also includes a volatility control mechanism, where the exposure of the Index to such Underlying Basket varies on a daily basis in accordance with input parameters described under 1.2.3 below.

1.2.2 Composition and Monthly Review of the Underlying Basket

The composition and allocation of the Underlying Basket is reviewed on a monthly basis according to a proprietary model based on a momentum filter and the Equal-Risk Contribution methodology developed by the Index Advisor. The resulting weightings are applied to the Basket Components so as to determine the composition of the Underlying Basket. The non-Euro-denominated Basket Components are hedged against currency risk on a daily basis. The allocation of the Underlying Basket as of 29 April 2014 is displayed in Appendix 1.

1.2.3 Daily “Vol Target” Mechanism

The Index is constructed pursuant to a daily Vol Target process where the deemed exposure of the Index to the Underlying Basket (the “**Exposure**”) is based on a formula using the following input parameters:

- (i) the short term historical volatility of the Underlying Basket;
- (ii) a target volatility of 6%; and
- (iii) the historical volatility of the Index itself;

so that, in most cases:

- when the volatility of the Underlying Basket exceeds 6%, the Exposure will generally be less than 100% (subject to a minimum Exposure of 0%) and the Index will be exposed to money market instruments referencing the Euribor Rate for the difference between 100% and the Exposure.
- when the volatility of the Underlying Basket falls below 6%, the Exposure will generally be greater than 100% (subject to a maximum Exposure of 150%), such leveraged Exposure being obtained at a rate based on the Euribor Rate.

1.3 Index Fees and Costs

The Index is calculated net of the following fees and costs:

Index Advisory Fees:	0.20% per annum accrued daily calculated on the Index Level
Replication Costs:	As per Appendix 1 under RC(i,t)
Transaction Costs:	As per Appendix 1 under TC(i,t)

Such fees and costs may be modified by the Index Sponsor from time to time based on prevailing market conditions.

The Index Level is in respect of Calculation Date (t), calculated by the Index Calculation Agent at the Valuation Time, subject to the occurrence or existence of an Index Disruption Event or an Index Extraordinary Event, according to the following formula:

$$IL(t) = IL(t-1) \times [1 + E(t-1) \times (UBL(t) / UBL(t-1) - 1) + (1 - E(t-1)) \times ER(t-1) \times ACT(t-1,t) / 360] \times (1 - IAF \times ACT(t-1,t) / 360) - TC(t-1)$$

2.7 Determination of the Underlying Basket Level “UBL(t)”

For any $t \neq t_0$:

$$UBL(t) = \left[1 + \sum_{i=1}^{11} W(i, t_R) \times \left(\frac{BCLNTRE(i, t)}{BCLNTRE(i, t_R)} - 1 \right) \right] \times UBL(t_R)$$

2.8 Determination of the Basket Component Level Net TR Euro, “BCLNTRE(i,t)”

For any Calculation Date (t) and any Basket Component (i), the Basket Component Level Net TR Euro is determined as follows:

(i) if the Basket Component Currency is the same as the Index Currency:

$$BCLNTRE(i,t) = BCLNTR(i,t)$$

(ii) if the Basket Component Currency is different from the Index Currency:

$$BCLNTRE(i,t) = BCLNTRE(i,t-1) \times [1 + (BCLNTR(i,t) / BCLNTR(i,t-1) - 1 - BCRATE(i,t-1) \times ACT(t-1,t) / 360) \times FX(i,t) / FX(i,t-1) + UBRATE(t-1) \times ACT(t-1,t) / 360]$$

2.9 Determination of the Basket Component Level Net TR, “BCLNTR(i,t)”

For any Calculation Date (t) and any Basket Component (i), the Basket Component Level Net TR is determined as follows:

(i) if the Basket Component Return Type is TR:

$$BCLNTR(i,t) = BCLNTR(i,t-1) \times (FNAV(i,t) / FNAV(i,t-1) - RC(i,t) \times ACT(t-1,t) / 360)$$

b) if the Basket Component is an Underlying Index or an ETF

$$BCLNTR(i,t) = BCLNTR(i,t-1) \times (CP(i,t) / CP(i,t-1) - RC(i,t) \times ACT(t-1,t) / 360)$$

(ii) if the Basket Component Return Type is PR:

The Index Calculation Agent calculates daily total return series using net cash dividends reinvested (including special cash dividends or any other cash distributions). Net reinvested return reflects the return to an investor where dividends are reinvested after the deduction of a withholding tax. The tax rate applied is the rate to non-resident institutions that do not benefit from double taxation treaties. The net reinvested return series approximate the returns available to an investor based in Luxembourg and reflect the minimum possible dividend reinvestment as the highest tax rates are theoretically applied to Luxembourg-based investors. The rates applied are the current effective rates and are sourced from Ernst & Young’s Worldwide Corporate Tax Guide and the Economic Intelligence Unit. These rates are maintained and updated to reflect any ongoing changes.

a) if the Basket Component Type is a Fund

$$BCLNTR(i,t) = BCLNTR(i,t-1) \times [(FNAV(i,t) + Div(i,t)) / FNAV(i,t-1) - RC(i,t) \times ACT(t-1,t) / 360]$$

b) if the Basket Component is an Underlying Index or an ETF

$$BCLNTR(i,t) = BCLNTR(i,t-1) \times [(CP(i,t) + Div(i,t)) / CP(i,t-1) - RC(i,t) \times ACT(t-1,t) / 360]$$

“Div(i,t)” means the aggregate net cash dividend after the deduction of withholding tax if any, (including special cash dividend or any other cash distribution) attached to the Basket Component (i) or its components and for which Calculation Date (t) is the ex-dividend date; such dividend is reinvested on the basis of the Basket Component Level on Calculation Date (t-1).

If an ex-dividend date occurs on a date that is not a Calculation Date, such ex-dividend date is deemed to occur on the first Calculation Date immediately following such date.

2.10 Determination of the Historical Volatility “HV(t)”

For any k>0:

$$NUBL(t, t-k) = \left[1 + \sum_{i=1}^{11} W(i, t_{Rev}) \times \left(\frac{BCLNTRE(i, t-k)}{BCLNTRE(i, t-k-1)} - 1 \right) \right] \times NUBL(t, t-k-1)$$

$$IHV(t) = \sqrt{\frac{1}{N(t_0, t) - 2} \times \sum_{k=0}^{N(t_0, t) - 3} \left(\sqrt{\frac{365}{ACT(t-k-3, t-k)}} \times \ln \left(\frac{IL(t-k)}{IL(t-k-3)} \right) \right)^2}$$

Where,

“ln” means the logarithm to the base e.

$$E(t) = \text{Min}(\text{TV} / \text{HV}(t-2) \times VAF(t-2), 150\%)$$

Where,

“TV” means the Target Volatility;

“HV(t)” means in respect of Calculation Date (t), the Historical Volatility on such date; and

“VAF(t)” means in respect of Calculation Date (t), the Volatility Adjustment Factor on such date;

2.15 Determination of the Aggregate Transaction Cost, “TC(t)”

The Aggregate Transaction Cost in respect of a Calculation Date (t) is determined as follows:

$$TC(t) = \sum_{i=1}^{11} \left[TC(i, t_{R+}) \times \text{ABS} \left(E(t) \times IL(t) \times W(i, t_{R+}) \times \frac{BCLNTR E(i, t)}{BCLNTR E(i, t_{R+})} \times \frac{UBL(t_{R+})}{UBL(t)} - E(t-1) \times IL(t-1) \times W(i, t_{R-}) \times \frac{BCLNTR E(i, t)}{BCLNTR E(i, t_{R-})} \times \frac{UBL(t_{R-})}{UBL(t-1)} \times Z(i, t) \right) \right]$$

Where,

For any Calculation Date (t) and any Index Component (i) :

3. REVIEW OF THE BASKET COMPONENTS WEIGHTS

3.1 Weights Optimization

3.1.1 General Principle

The optimization process (ERC approach) employed draws on the principles of the Modern Portfolio Theory set out by Markowitz, Lintner and Sharpe in 1950s and 1960s. However, even though it can be analyzed in the mean-variance framework, the ERC approach is more derived from the techniques of

risk-budgeting. The objective the ERC portfolio (**ERC Portfolio**) is to find a risk-balanced allocation such that the risk contribution of each asset in the portfolio is equal. As a consequence, unlike the traditional mean-variance portfolio, the ERC Portfolio does not require an assumption about the expected returns of each asset and thus the only inputs needed to build an ERC Portfolio is the covariance matrix (the **Covariance Matrix**) of the ERC Portfolio’s components.

3.1.2 Determination of the Marginal Risk Contributions

The Marginal Risk Contribution (**MRC**) corresponds to the change in the volatility of the Index induced by a small increase in the weight of each Basket Component. It is calculated by the following formula:

$$\partial_{x_i} \sigma(I) = \frac{\partial \sigma(I)}{\partial x_i}$$

Where,

$\partial_{x_i} \sigma(I)$ means the MRC of Basket Component i to the volatility of the Index

$\sigma(I)$ means the volatility of the Index

x_i means the weight considered for Basket Component i

3.1.3 Determination of the Covariance Matrix

The Covariance Matrix is computed by the Index Advisor on the Review Date using 3-day returns for each Basket Component over the last 262 trading days according to the following formula:

$$\Sigma(i, j) = \frac{1}{n} \sum_{k=1}^n (r_{i,k} - \bar{r}_i)(r_{j,k} - \bar{r}_j)$$

Where:

n means the number of 3-day returns considered for the calculation of the Covariance Matrix

$r_{i,k}$ means the kth 3-day return of Basket Component i

\bar{r}_i means the average of the n 3-day returns of Basket Component i considered for the calculation of the Covariance Matrix

For the purpose of the aforementioned, the calculation of the returns “over the last 262 trading days” shall be interpreted as the returns calculated using daily adjusted prices from the first Scheduled Calculation Date following the day that is 262 Scheduled Calculation Dates before the Review Date (included) up to the Review Date.

3.1.4 Determination of the ERC Portfolio weights

The ERC Portfolio weights are determined by the Index Advisor on the Review Date under the following constraints:

- the MRC of each portfolio constituent must be equal
- the weighting of each portfolio constituent shall be strictly positive
- the sum of the weightings of the portfolio constituents must be equal to 1

The solution of this problem is endogenous as the weights that satisfy the equal MRC objective require the calculation of the portfolio risk which is itself a function of the weights of each portfolio component. The solution can then be found using a sequential quadratic programming algorithm that seeks to minimize the following utility function:

$$f(x) = \sum_{i=1}^n \sum_{j=1}^n (x_i(\Sigma x)_i - x_j(\Sigma x)_j)^2$$

3.2 Underlying Basket Composition

The weights resulting from optimization process described in 3.1 above define the ERC Portfolio.

The final allocation used on the relevant Review Date to constitute the Underlying Basket will be determined according to a further optimization on weights based on a trend following analysis, whereby the past best (resp. worst) performing constituents tend to be overweighted (resp. underweighted) under the following constraints :

- the weighting of each Basket Component must be strictly positive
- the sum of the weightings of the Basket Components must be equal to 1
- the weighting of each Basket Component must not exceed the Maximum Weight (as defined in Appendix 1) applicable to it as per its Basket Component Asset Class
- the tracking error of the resulting allocation vs the ERC Portfolio shall remain close to or below 3%

The composition of the Underlying Basket shall be implemented on the close of the subsequent Rebalancing Date, effective on the immediately following Scheduled Calculation Date.

4. INDEX DISRUPTION EVENTS

4.1 Index Disruption Remedies

If an Index Disruption Event occurs on a Scheduled Calculation Date (a **Disrupted Day**), then the Index Calculation Agent, after instruction from the Index Sponsor, shall not calculate the Index Level on such Disrupted Day. The next Calculation Date shall be the first succeeding Scheduled Calculation Date that is not a Disrupted Day for any Index Component as determined by the Index Calculation Agent, after instruction from the Index Sponsor, unless each of the five Scheduled Calculation Dates immediately following the initial Disrupted Day is also a Disrupted Day for any Index Component, in which case:

- (i) the fifth Scheduled Calculation Date following the initial Disrupted Day, and each Scheduled Calculation Date that is a Disrupted Day thereafter, shall be deemed to be a Calculation Date (each, a **Disrupted Calculation Date**), notwithstanding the existence of an Index Disruption Event on such date and only for the purpose of determining an estimate of the Index Level; and
- (ii) on that fifth Scheduled Calculation Date and on each Disrupted Calculation Date thereafter, the Index Calculation Agent shall calculate the Index Level based on the following levels or prices:

 - (y) the level of each of the Market Data as described in the definition of such Market Data on the relevant date(s) of determination as if no Index Disruption Event existed;
 - (b) if the Index Disruption Event is a Market Data Disruption Event in relation to one or some of the Market Data only (such Market Data the **Affected Market Data**):
 - (x) the level or price of each Basket Component as described in the definition of such Basket Component(s), on the relevant date(s) of determination as if no Index Disruption Event existed; and

Upon receipt of such notification, the Index Sponsor shall modify its decision or, as the case may be, convene a new meeting of the Index Scientific Committee in order to adopt a new resolution, in a manner which would allow the calculation of the Index by the Index Calculation Agent provided that it preserves the economic construction of the Index (the **New Decisions**). Once made by the Index Sponsor or adopted by the Index Scientific Committee as the case may be, such New Decisions shall be sent to the Index Calculation Agent and be conclusive and binding.

II. Harmonia Index (EUR – Excess Return)

1.1 Index Summary Description:

a) Index description

The SGI Harmonia Index – EUR Excess Return (the “**Index**”) is designed to provide the excess return of the SGI Harmonia Index – EUR Net Total Return (the “**Sub-Index**”) over the Euribor 3-Month Rate (the “**EURIBOR Rate**”).

b) Sub-Index description

The Sub-Index is designed to track the performance of a dynamic exposure to a Euro-hedged multi asset allocation (the “**Underlying Basket**”) of indices and funds (each a “**Sub-Index Component**”), where weights are determined in order to make the risk contribution of each component of the Underlying Basket equal.

The allocation of the Underlying Basket is reviewed on a monthly basis according to a systematic allocation model as provided by Lyxor Asset Management (the “**Sub-Index Advisor**”). The Sub-Index is constructed pursuant to a variable exposure to the Underlying Basket used to optimize, under certain circumstances, the exposure to the Underlying Basket while keeping the risk level of the Sub-Index close to a pre-defined target level. The exposure to the Underlying Basket, through the use of the hypothetical borrowing, can reach a maximum of 150% of the level of the Sub-Index.

Certain parameters of the Sub-Index, like *inter alia* the composition of the Underlying Basket, may be reviewed periodically by a scientific committee (the “**Sub-Index Scientific Committee**”).

The Sub-Index Scientific Committee will comprise three (3) members: two (2) of whom shall be a representative of Société Générale (the “**Sub-Index Sponsor**”) and one (1) of whom shall be a representative of the Sub-Index Advisor.

In addition, the rules of Sub-Index (the “**Sub-Index Rules**”) may, by decision of the Sub-Index Scientific Committee pursuant to the Sub-Index Scientific Committee Governance (as specified in the Index Rules), be supplemented, amended or revised in whole or in part, which may lead to changes in the way the Sub-Index is compiled and calculated or affect the Sub-Index in another way.

The Sub-Index level is determined net of

- advisory and administration fees of 0.20% per annum;
- transaction costs; and
- replication costs

The initial transaction costs and replication costs are displayed in Appendix 1.

These costs may be reviewed by the Sub-Index Sponsor to reflect a change in market conditions.

c) Sub-Index and Underlying Basket strategy

Sub-Index strategy

The constituents of the Sub-Index are (a) the Underlying Basket, (b) a hypothetical deposit based on the 3-Month Euro Interbank Offered Rate (the “**EURIBOR Rate**”) and (c) a hypothetical borrowing based on the EURIBOR Rate. The deemed percentage exposure of the Sub-Index to the Underlying Basket (the “**Exposure**”) is determined based on formulas (defined in the Sub-Index Rules) using the following input parameters:

- (i) the short term historical volatility of the Underlying Basket;

- (ii) a target volatility of 6%;
- (iii) the historical volatility of the Sub-Index itself;

such that, in most cases, when the short-term historical volatility of the Underlying Basket increases, the deemed exposure to the Underlying Basket decreases, and when the short-term historical volatility of the Underlying Basket decreases, the deemed exposure to the Underlying Basket increases.

The Exposure is capped at 150% of the Sub-Index Level and can be as low as 0%.

If the short-term historical volatility is greater than the Target Volatility, then the Exposure of the Sub-Index to the Underlying Basket will be less than 100%. If the Exposure is less than 100%, (a) a percentage of the Sub-Index’s level is deemed invested in the Underlying Basket in an amount equal to the product of (i) the Exposure and (ii) the Sub-Index Level; and (b) the remaining percentage of the Sub-Index’s level is deemed invested in the hypothetical deposit based on the EURIBOR Rate.

If the short-term historical volatility is equal to the Target Volatility, then the Exposure of the Sub-Index to the Underlying Basket will be 100%. If the Exposure is equal to 100%, then 100% of the Sub-Index’s level is deemed invested in the Underlying Basket and no portion of the Sub-Index’s level is deemed invested in the hypothetical deposit based on the EURIBOR Rate.

If the short-term historical volatility is less than the Target Volatility, then the Exposure of the Sub-Index to the Underlying Basket will be greater than 100% (subject to a maximum Exposure of 150%). If the Exposure of the Sub-Index to the Underlying Basket is greater than 100%, then 100% of the Sub-Index’s level is deemed invested in the Underlying Basket and no portion of the Sub-Index’s level is deemed invested in the hypothetical deposit based on the EURIBOR Rate. Furthermore, (a) the Sub-Index is deemed to have invested an additional amount into the Underlying Basket equal to the product of (i) the Sub-Index Level and (ii) the difference of the Exposure and 100% (the “**Additional Exposure**”) and (b) the Sub-Index is deemed to have borrowed funds equal to the product of (i) the Sub-Index Level and (ii) the Additional Exposure at a rate based on the EURIBOR Rate. The deemed additional investment in the Underlying Basket will increase the Sub-Index’s exposure to the Underlying Basket, while the deemed borrowing will reduce the level of the Sub-Index.

Underlying Basket strategy

The Underlying Basket Index reflects the performance of an optimized allocation across the Sub-Index Components. Each month, this allocation is reviewed according to the Equal-Risk Contribution (“ERC”) methodology developed by the quantitative research team of the Sub-Index Advisor. The resulting weighting scheme is applied to the Sub-Index Components to determine the composition of the Sub-Index for the following month.

The non Euro-denominated Sub-Index Components are hedged against currency risk using 1-month FX forward swaps.

The initial allocation of the Underlying Basket is displayed in Appendix 1.

2.3 Determination of the Index Level "IL(t)":

The Index Level is in respect of Calculation Date (t), calculated by the Index Calculation Agent at the Valuation Time, subject to the occurrence or existence of an Index Disruption Event or an Index Extraordinary Event, according to the following formula:

$$IL(t) = IL(t-1) \times [SIL(t) / SIL(t-1) - ER(t-1) \times ACT(t-1, t) / 360]$$

1.3. Review of the Sub-Index Components**3.1 Weights Optimization****3.1.1 General Principle**

The optimization process (ERC approach) employed draws on the principles of the Modern Portfolio Theory set out by Markowitz, Lintner and Sharpe in 1950s and 1960s. However, even though it can be analyzed in the mean-variance framework, the ERC approach is more derived from the techniques of risk-budgeting. The objective the ERC portfolio ("**ERC Portfolio**") is to find a risk-balanced allocation such that the risk contribution of each asset in the portfolio is equal. As a consequence, unlike the traditional mean-variance portfolio, the ERC Portfolio does not require an assumption about the expected returns of each asset and thus the only inputs needed the build an ERC Portfolio is the covariance matrix (the "**Covariance Matrix**") of the portfolio's components.

3.1.2 Determination of the Marginal Risk Contributions

The Marginal Risk Contribution ("MRC") corresponds to the change in the volatility of the Index induced by a small increase in the weight of each Sub-Index Component. It is given by the following formula:

$$\partial_{x_i} \sigma(I) = \frac{\partial \sigma(I)}{\partial x_i}$$

With

$\partial_{x_i} \sigma(I)$ means the MRC of Sub-Index Component i to the volatility of the Index

$\sigma(I)$ means the volatility of the Index

x_i means the weight considered for Sub-Index Component i

3.1.3 Determination of the Covariance Matrix

The Covariance Matrix is computed by the Sub-Index Sponsor on the Review Date using 3-(as defined in the Sub-Index rules) day returns for each Sub-Index Component over the last 262 trading days according to the following formula :

$$\Sigma(i, j) = \frac{1}{n} \sum_{k=1}^n (r_{i,k} - \bar{r}_i)(r_{j,k} - \bar{r}_j)$$

With

n means the number of 3-day returns considered for the calculation of the Covariance Matrix

$r_{i,k}$ means the kth 3-day return of Sub-Index Component i

\bar{r}_i means the average of the n 3-day returns of Sub-Index Component i considered for the calculation of the Covariance Matrix

For the purpose of the aforementioned, the calculation of the returns “over the last 262 trading days” shall be interpreted as the returns calculated using daily adjusted prices from the first Scheduled Valuation Day following the day that is 262 Scheduled Valuation Days before the Review Date (included) up to the Review Date.

3.1.4 Determination of the ERC Portfolio weights

The ERC Portfolio weights are determined by the Index Advisor on the Review Date under the following constraints:

- the MRC of each portfolio constituent must be equal
- the weighting of each portfolio constituent shall be strictly positive
- the sum of the weightings of the portfolio constituents must be equal to 1

The solution of this problem is endogenous as the weights that satisfy the equal MRC objective require the calculation of the portfolio risk which is itself a function of the weights of each portfolio component. The solution can then be found using a sequential quadratic programming algorithm that seeks to minimize the following utility function:

$$f(x) = \sum_{i=1}^n \sum_{j=1}^n (x_i (\Sigma x)_i - x_j (\Sigma x)_j)^2$$

3.2 Index Composition

The weights resulting from optimization process described in 3.1 above define the ERC Portfolio.

The final allocation used on the relevant Review Date to constitute the Underlying Basket will be determined according to a further optimization on weights based on a trend following analysis, whereby the past best (resp. worst) performing constituents tend to be overweighted (resp. underweighted) under the following constraints :

- the weighting of each Sub-Index Component must be strictly positive
- the sum of the weightings of the Sub-Index Components must be equal to 1
- the weighting of each Sub-Index Component must not exceed the Maximum Weight (as defined in Appendix 1) applicable to it as per its Sub-Index Component Asset Class
- the tracking error of the resulting allocation vs the ERC portfolio shall remain close to or below 3%

The composition shall be implemented on the close of the subsequent Rebalancing Date, (as defined in the Sub-Index rules), effective on the immediately following Scheduled Valuation Day.

4. Index Disruption Event Remedies:

If an Index Disruption Event occurs on a Scheduled Valuation Day (a “**Disrupted Day**”), then the Index Calculation Agent, after instruction from the Index Sponsor, shall not calculate the Index Level on such Disrupted Day. The next Calculation Date shall be the first succeeding Scheduled Valuation Day that is not a Disrupted Day for any Index Component as determined by the Index Calculation Agent, after instruction from the Index Sponsor, unless each of the five Scheduled Valuation Days immediately following the initial Disrupted Day is also a Disrupted Day for any Index Component, in which case:

- (i) the fifth Scheduled Valuation Day following the initial Disrupted Day, and each Scheduled Valuation Day that is a Disrupted Day thereafter, shall be deemed to be a Calculation Date (each, a “**Disrupted Calculation Date**”), notwithstanding the existence of an Index Disruption Event on such date and only for the purpose of determining an estimate of the Index Level; and
- (ii) on that fifth Scheduled Valuation Day and on each Disrupted Calculation Date thereafter, the Index Calculation Agent shall calculate the Index Level based on the following levels or prices:

- (a) if the Index Disruption Event is a Sub-Index Disruption Event in relation to the Sub-Index only:

- (x) the level or price of the Sub-Index using (α) the level or price of such Sub-Index last in effect prior to the occurrence of the relevant Sub-Index Disruption Event and (β) relevant market indicators on the relevant date(s) of determination, in each case as determined in good faith, after instruction from the Index Sponsor; and
 - (y) the level of each of the EURIBOR Rate as described in the definition of such EURIBOR Rate on the relevant date(s) of determination as if no Index Disruption Event existed;
- (b) if the Index Disruption Event is a EURIBOR Disruption Event in relation to the EURIBOR Rate only:
- (x) the level or price of the Sub-Index as described in the definition of such Sub-Index, on the relevant date(s) of determination as if no Index Disruption Event existed; and
 - (y) the level of the EURIBOR Rate determined in good faith, after instruction from the Index Sponsor, using relevant market indicators on the relevant date(s) of determination; or
- (c) If the Index Disruption Event is a Sub-Index Disruption Event in relation to the Sub-Index and a EURIBOR Disruption Event in relation to the EURIBOR Rate:
- (x) the level or price of the Sub-Index using (α) the level or price of such Sub-Index last in effect prior to the occurrence of the relevant Sub-Index Disruption Event and (β) relevant market indicators on the relevant date(s) of determination, in each case determined in good faith, after instruction from the Index Sponsor; and
 - (y) the level of the EURIBOR Rate determined in good faith, after instruction from the Index Sponsor, using relevant market indicators on the relevant date(s) of determination.

Notwithstanding the foregoing Section 4.1, on any day from the first Disrupted Calculation Date but no later than the twentieth Scheduled Valuation Day following the initial Disrupted Day, if an Index Disruption Event has been continuing on each such days, the Index Sponsor will decide to (each a “**Index Disruption Remedy**”):

- a. adjust any relevant terms of the Index Rules in a manner that preserves the economic characteristics of the Index; or
- b. continue the determination of the Index Level pursuant to section 4.ii for another maximum period of twenty Scheduled Valuation Days (a “**Disruption Period Extension**”), provided that after such period, the Index Sponsor shall decide again between the Index Disruption Remedies, including a renewal of the Disruption Period Extension, subject to a maximum of three such extensions, including the first one; or
- c. permanently cancel the Index if neither of the Index Disruption Remedies (i) and (ii) above constitute suitable remedies for such Index Disruption Event, as determined by the Index Sponsor.

5. Extraordinary Event Remedies:

If an Index Extraordinary Event or an Additional Extraordinary Event occurs on a Scheduled Valuation Day (an “**Extraordinary Event Day**”), then the Index Calculation Agent, after instruction from the Index Sponsor, may suspend the calculation of the Index Level on such Extraordinary Event Day, in which case the next Calculation Date shall be the first succeeding Scheduled Valuation Day on which the Index Extraordinary Event or Additional Extraordinary Event has been remedied as follows; provided that no later than the twentieth Scheduled Valuation Day following the initial Extraordinary Event Day, the Index Sponsor shall decide to (each, an “**Extraordinary Event Remedy**”):

- (a) adjust any relevant terms of the Index Rules (including, without limitation, a reduction of the weight of or a full removal of the relevant Index Component) in a manner that preserves the economic characteristics of the Index; or
- (b) replace the relevant Index Component with a new component of similar characteristics: or
- (c) permanently cancel the Index if neither of the Extraordinary Event Remedies provided in sections (i) and (ii) above constitute suitable remedies for such Index Extraordinary Event, as determined by the Index Sponsor.

For the purposes of this Section:

“**Index Extraordinary Event**” means a Sub-Index Extraordinary Event or a EURIBOR Extraordinary Event, as defined hereinbelow.

Sub-Index Extraordinary Event:

“**Sub-Index Extraordinary Event**” means, in respect of the Sub-Index, the occurrence of any of the following events:

- B. a “**Change of Underlying Index**” means that the Sub-Index is (i) replaced by a successor index or (ii) merges with another index to constitute a merged index.
- C. a “**Modification to Underlying Index**” means that the sponsor of the Sub-Index announces that it will make a material change in the formula for or the method of calculating such Sub-Index or in any other way materially modifies that Sub-Index (other than a modification prescribed in that formula or method to maintain that Underlying Index in the event of changes in constituent stock and capitalization and other routine events).
- D. a “**Cancellation of Underlying Index**” means that the sponsor of the Sub-Index announces that it will permanently cancel such Sub-Index.

EURIBOR Extraordinary Event

“**EURIBOR Extraordinary Event**” means, in respect of the EURIBOR Rate, the occurrence of any of the following events:

“**Hedging Disruption**” means, in respect of the Sub-Index, that the Hypothetical Replicating Party is unable or likely to be unable, after using commercially reasonable efforts, to either (a) acquire, substitute, or dispose of any transaction(s) or asset(s) it deems necessary with respect to the Sub-Index in order to replicate the performance of the Underlying Basket ; or (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of the sale of such the Sub-Index as the case may be between accounts within the jurisdiction where such the Sub-Index is listed (the “**Affected Jurisdiction**”) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction.

“**Increased Cost of Hedging**” means, in respect of the Sub-Index, that the Hypothetical Replicating Party would incur a materially increased (as compared with circumstances existing on the Index Launch Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, substitute, hold, or dispose of such any transaction(s) or asset(s) it deems necessary with respect to the Sub-Index in order to replicate the performance of the Underlying Basket or (b) freely realize, recover or remit the proceeds of such Sub-Index.

“**Hypothetical Replicating Party**” means any party investing in the Underlying Basket for the purpose of hedging products linked to the performance of the Index, including Société Générale and any of its affiliates.

6. Additional Provision:

In circumstances where the Index Sponsor makes various decisions, or where a resolution is adopted by the Index Scientific Committee as the case may be (together the “Decisions”), with respect to the methodology of calculation and/or the allocation of the Index, and the Index Calculation Agent determines that it can no longer calculate the Index to obtain the Index Level according to the Index Rules as amended by such Decisions, the Index Calculation Agent shall notify the Index Sponsor of such impossibility together with the grounds thereof. Upon receipt of such notification, the Index Sponsor shall modify its decision or, as the case may be convene a new meeting of the Index Scientific Committee in order to adopt a new resolution, in a manner which would allow the calculation of the Index by the Index Calculation Agent provided that it preserves the economic construction of the Index (the “New Decisions”). Once made by the Index Sponsor or adopted by the Index Scientific Committee as the case may be, such New Decisions shall be sent to the Index Calculation Agent and be conclusive and binding.

The Harmonia Index (EUR – Excess Return) is the exclusive property of SG. SG has contracted with S&P to maintain and calculate the index. S&P shall have no liability for errors or omissions in calculating the index.

III. SGI Pan Africa

1. Index Rules Summary

1.1 Index Description

The SGI Pan Africa (the “**Index**”) aims to capture the performance of stocks listed in Africa or predominantly exploring African assets. The Index is evenly exposed to three zones: South-Africa, Northern Africa (including Morocco and Egypt) and Sub-Sahara excluding South-Africa. The Index is calculated and published by S&P Opco, LLC (a subsidiary of S&P Dow Jones Indices LLC) (the “**Index Calculation Agent**”) and is sponsored by Société Générale (the “**Index Sponsor**”).

3. REVIEW, REBALANCING AND CALCULATION OF THE INDEX LEVEL

3.1 Eligible Components

The list of eligible shares (each, an “**Eligible Component**”) that may be included in the Index comprises:

- (i) Shares of Companies that derive the largest part of their revenues and/or have exploring assets in South-Africa, Northern Africa including Egypt and Morocco and Sub-Sahara excluding South Africa (each a “**Zone**”);
- (ii) Shares listed on the Exchanges specified under Appendix 1; where Shares traded on the Johannesburg Exchange are only Shares issued by Companies headquartered in South-Africa.

3.2 Index Composition

The Shares in the Index are then selected by the Index Sponsor among the Eligible Components pursuant to a two-step process:

Step 1 – Components Selection

For each Zone, the Index Sponsor ranks the Eligible Components according to (1) their free-float market capitalization and (2) their average daily volume, and selects the 10 highest ranked Shares, provided that at least 10 Eligible Components exist for such Zone.

Step 2 – Components Weighting

The Index Sponsor determines the weighting of each Share in order to maximize the diversification and liquidity of the Index, pursuant to the following process:

- (i) Inside each Zone, the Shares are initially weighted according to their relative free float market capitalization;
- (ii) The Share weightings are then adjusted in order to match the following constraints while minimizing the variation relative to the initial weightings:
 - a. each Share weighting shall not exceed 10% of the Index;
 - b. each Share weighting shall not exceed 10 times the average daily volume divided by EUR 200 million (the “**Index Capacity**”);
 - c. each Zone shall represent a weighting close to 33.33% of the Index.

3.3 Index Review and Rebalancing

The list of Eligible Components is reviewed quarterly by the Index Sponsor and the Share selection and their weighting in the Index are reviewed accordingly in order to ensure the continuous relevance of the composition of the Index and to maintain the Index.

On each Scheduled Review Date and Scheduled Rebalancing Date, the Index Sponsor may revise the number of components, the Index Capacity and the Zone breakdown to be able to match the diversification and liquidity constraints defined by the systematic allocation process described above, provided however that no Zone may represent less than 25% and more than 50% of the Index.

3.4 Index Level Calculation and Adjustment

THE INDEX SHALL BE CALCULATED AND ADJUSTED BY THE INDEX CALCULATION AGENT AS PER THE RELEVANT PROVISIONS OF THE S&P DOW JONES INDICES – INDEX MATHEMATICS METHODOLOGY DATED DECEMBER 2012, AS AMENDED FROM TIME TO TIME THEREAFTER (THE “**INDEX CALCULATION AGENT METHODOLOGY**”), AVAILABLE FROM THE INDEX CALCULATION AGENT WEBSITE AT THE FOLLOWING ADDRESS :

The withholding tax applicable to dividends is determined pursuant to the reference Index Calculation Agent reference table “Withholding Tax Rates” as amended from time to time thereafter, available from the Index Calculation Agent website at the following address: <http://us.spindices.com/resource-center/index-policies/>

Modified Market Capitalization Weighted Indices

Definition

A modified market cap weighted index is one where index constituents have a user-defined weight in the index. This methodology is typically used for indices where some constituents are confined to a maximum weight, and the excess weight is distributed proportionately among the remaining index constituents. Between index rebalancings, corporate actions generally have no effect on index weights, as they are fixed through the processes defined below. As stock prices move, the weights will shift and the modified weights will change. Therefore, as in the case of an equal-weighted index, a modified market cap weighted index must be rebalanced from time to time to re-establish the proper weighting.

The overall approach to calculate modified market cap weighted indices is the same as in the cap-weighted indices; however, the constituents' market values are re-defined to be values that will achieve the user-defined weighting at each rebalancing. Recall two basic formulae:

$$\text{Index Level} = \frac{\text{Index Market Value}}{\text{Divisor}} \quad (17)$$

and

$$\text{Index Market Value} = \sum_i P_i * \text{Shares}_i * \text{IWF}_i * \text{FxRate} \quad (18)$$

To calculate a modified market cap weighted index, the market capitalization for each stock used in the calculation of the index is redefined so that each index constituent has the appropriate user-defined weight in the index at each rebalancing date.

In addition to being the product of the stock price, the stock's shares outstanding, and the stock's float factor (IWF), as written above – and the exchange rate when applicable – a new adjustment factor is also introduced in the market capitalization calculation to establish the appropriate weighting.

$$\text{Adjusted Stock Market Value}_i = P_i * \text{Shares}_i * \text{IWF}_i * \text{FxRate}_i * \text{AWF}_i \quad (19)$$

where AWF_i is the adjustment factor of stock i assigned at each index rebalancing date, t , which adjusts the market capitalization for all index constituents to achieve the user-defined weight, while maintaining the total market value of the overall index.

The *AWF* for each index constituent, *i*, on rebalancing date, *t*, is calculated by:

$$AWF_{i,t} = \frac{Z}{FloatAdjustedMarketValue_{i,t}} * W_{i,t} \quad (20)$$

where *Z* is an index specific constant set for the purpose of deriving the *AWF* and, therefore, each stock's share count used in the index calculation (often referred to as modified index shares). *W_{i,t}* is the user-defined weight of stock *i* on rebalancing date *t*.

The index divisor is defined based on the index level and market value from equation (17). The index level is not altered by index rebalancings. However, since prices and outstanding shares will have changed since the last rebalancing, the divisor will change at the rebalancing.

So:

$$(Divisor)_{after\ rebalancing} = \frac{(Index\ Market\ Value)_{after\ rebalancing}}{(Index\ Value)_{before\ rebalancing}} \quad (20a)$$

where,

$$Index\ Market\ Value = \sum_i P_i * Shares_i * IWF_i * FxRate_i * AWF_i \quad (20b)$$

Corporate Actions and Index Adjustments

The tables below shows the necessary adjustments to the index and the divisor for managing a modified market cap weighted index. *For more information on the treatment of corporate actions, please refer to the S&P Dow Jones Indices' Corporate Actions Policies & Practices Methodology. For more information on the specific treatment within an index family, please refer to that index methodology.*

Delisting, acquisition or any other corporate action resulting in a constituent deletion.	The stock is dropped from the Index	Yes
Share changes between quarterly share adjustments	None. The adjustment factor is changed to keep the index weight the same.	None
Quarterly share changes	There is no direct adjustment.	None

Corporate Actions

S&P Dow Jones Indices' Parent Index Action	Adjustment Made to the Modified Market Cap Weighted Index	Divisor Adjustment for the Index?
Spin-off	The price is adjusted to the Price of the Parent Company minus (the Price of Spin-off company/Share Exchange Ratio). The adjustment factor changes according to Equation 20, to maintain the weight to be the same as the company had before the spin-off.	None
Rights Offering	The price is adjusted to the Price of the Parent Company minus (the Price of Rights Offering/Rights Ratio). The adjustment factor changes according to Equation 20, to maintain the weight to be the same as the company had before the rights offering.	None
Stock Split	Shares are multiplied by and the price is divided by the split factor.	None
Share Issuance or Share Repurchase	None.	None
Special Dividends	The price of the stock making the special dividend payment is reduced by the per share special dividend amount after the close of trading on the day before the ex-date.	A divisor adjustment is made to ensure the index level remains the same.
Merger or acquisition	If the surviving company is already an index member, it is retained in the index. If the surviving company does not meet index criteria, it is removed.	Yes, if there is a removal.

Total Return Calculations

The preceding discussions were related to price indices where changes in the index level reflect changes in stock prices. In a total return index changes in the index level reflect both movements in stock prices and the reinvestment of dividend income. A total return index represents the total return earned in a portfolio that tracks the underlying price index and reinvests dividend income in the overall index, not in the specific stock paying the dividend.

The total return construction differs from the price index and builds the index from the price index and daily total dividend returns. The first step is to calculate the total dividend paid on a given day and convert this figure into points of the price index:

$$TotalDailyDividend = \sum_i Dividend_i * Shares_i \quad (40)$$

Where *Dividend* is the dividend per share paid for stock *i* and *Shares* are the shares. This is done for each trading day. *Dividend_i* is generally zero except for four times a year when it goes ex-dividend for the quarterly dividend payment. Some stocks do not pay a dividend and *Dividend* is always zero. *TotalDailyDividend* is measured in dollars. This is converted to index points by dividing by the divisor for the underlying price index:

$$IndexDividend = \frac{TotalDailyDividend}{Divisor} \quad (41)$$

The next step is to apply the usual definition of a total return from a financial instrument to the price index. Equation (40) gives the definition, equation (41) applies it to the index:

$$Total\ Return = \left(\frac{P_t + D_t}{P_{t-1}} \right) - 1 \quad (42)$$

and

$$DTR_t = \left(\frac{IndexLevel_t + IndexDividend_t}{IndexLevel_{t-1}} - 1 \right) \quad (43)$$

where the *TotalReturn* and the daily total return for the index (*DTR*) is stated as a decimal. The *DTR* is used to update the total return index from one day to the next:

$$Total\ Return\ Index_t = (Total\ Return\ Index_{t-1}) * (1 + DTR_t) \quad (44)$$

4. Index Disruption Events

4.1 Index Disruption Remedies

If an Index Disruption Event occurs on a Scheduled Calculation Date (a “**Disrupted Day**”), then the Index Calculation Agent, after instruction from the Index Sponsor, shall not calculate the Index Level on such Disrupted Day in which case the next Calculation Date shall be the first succeeding Scheduled Calculation Date that is not a Disrupted Day for any Index Component as determined by the Index Calculation Agent, after instruction from the Index Sponsor, unless each of the five Scheduled Calculation Dates immediately following the initial Disrupted Day is also a Disrupted Day for any Index Component, in which case:

- (i) the fifth Scheduled Calculation Date following the initial Disrupted Day, and each Scheduled Calculation Date that is a Disrupted Day thereafter, shall be deemed to be a Calculation Date (each, a “**Disrupted Calculation Date**”), notwithstanding the existence of an Index Disruption Event on such date and only for the purpose of determining the Index Level; and
- (ii) on that fifth Scheduled Calculation Date and on each Disrupted Calculation Date thereafter, the Index Calculation Agent shall calculate the Index Level based on following levels and prices:
 - (a) if the Index Disruption Event is a Basket Component Disruption Event in relation to one or more of the Basket Component(s) only (such Basket Component(s) the “**Affected Basket Component(s)**”):
 - (x) the level or price of the Affected Basket Component(s) using the level or price of such Affected Basket Component(s) last in effect prior to the occurrence of the relevant Basket Component Disruption Event; and
 - (y) the level of each of the Market Data as described in the definition of such Market Data on the relevant date(s) of determination as if no Index Disruption Event existed;
 - (b) if the Index Disruption Event is a Market Data Disruption Event in relation to one or more of the Market Data only (such Market Data the “**Affected Market Data**”):

- d. adjust any relevant terms of the Index Rules in a manner that preserves the economic characteristics of the Index; or

- e. continue the determination of the Index Level pursuant to section 4.1.ii for another maximum period of twenty Scheduled Calculation Dates (a “**Disruption Period Extension**”), provided that after such period, the Index Sponsor shall decide again between the Index Disruption Remedies, including a renewal of the Disruption Period Extension, subject to a maximum of three such extensions, including the first one.

5. INDEX EXTRAORDINARY EVENTS

5.1 Extraordinary Event Remedies

If an Index Extraordinary Event occurs in respect of one or more Index Component(s) on a Scheduled Calculation Date (an “**Extraordinary Event Day**”), then the Index Calculation Agent, after instruction from the Index Sponsor, may suspend the calculation of the Index Level on such Extraordinary Event Day, in which case the next Calculation Date shall be the first succeeding Scheduled Calculation Date on which the Index Extraordinary Event has been remedied as follows; provided that as soon as possible but no later than the twentieth Scheduled Calculation Date following the initial Extraordinary Event Day, the Index Sponsor shall permanently cancel the Index on such twentieth Scheduled Calculation Date, unless the Index Sponsor decides that one of the following remedies (a) and (b) (each, an “**Extraordinary Event Remedy**”) constitutes a suitable remedy for such Index Extraordinary Event:

- (i) adjust any relevant terms of the Index Rules (including, without limitation, a reduction of the weight of or a full removal of the relevant Index Component(s)) in a manner that preserves the economic characteristics of the Index; or

DESCRIPTION OF THE PREFERENCE SHARE ISSUER AND THE PREFERENCE SHARES

The following is a summary description of the Preference Share Issuer and the Preference Shares.

1. THE PREFERENCE SHARE ISSUER

Solentis Investment Solutions PCC (the **Preference Share Issuer**) is a protected cell company, incorporated with limited liability in Jersey under the Companies (Jersey) Law 1991 on 13 May 2010 with registered number 105685 and established as an unregulated exchange listed fund pursuant to the Collective Investment Funds (Unregulated Funds) (Jersey) Order 2008, notice of which has been provided to the Registrar of Companies in Jersey pursuant to that order. Its registered office is at 22 Grenville Street, St. Helier, Jersey, JE4 8PX.

The Preference Share Issuer is authorised to issue an unlimited number of no par value shares designated as ordinary shares and to create an unlimited number of protected cells.

Each protected cell will be authorised to issue ordinary shares of no par value and preference shares of no par value. The ordinary shares are held by or on behalf of The Solentis Investment Solutions Charitable Trust on trust for charitable purposes. The assets and liabilities of each cell are segregated from assets and liabilities of other cells and any non-cellular assets and liabilities of the Preference Share Issuer.

The Preference Shares of a cell may be offered and issued to investors pursuant to the terms agreed with the Preference Share Issuer. Societe Generale acts as cell sponsor in respect of each cell as well as determination agent and collateral manager in respect of the preference shares. Other service providers act as investment manager, custodian, principal paying agent, registrar and corporate administrator to the Preference Share Issuer or in respect of the preference shares as applicable.

2. DOCUMENTS FOR INSPECTION

Copies of the Preference Share Issuer's constitutional documents will be available for inspection at the registered office of the Preference Share Issuer (acting in respect of the Preference Share Issuer and each relevant cell (as applicable)), in each case during normal business hours on any weekday (Saturdays, Sundays and public holidays excepted) for 14 days following the date of each supplemental memorandum. The private placement memorandum and any applicable class specific supplemental memorandum can be obtained by any interested investors from Societe Generale.

3. DOCUMENTS ON DISPLAY

Copies of the Memorandum and Articles of Association (and, after publication thereof, the annual accounts) may be obtained from the corporate administrator at its registered office (the address for which can be obtained from Societe Generale) on request subject to payment of a reasonable sum.

4. THE PREFERENCE SHARES

The Preference Share Issuer is authorised to issue an unlimited number of redeemable preference shares (the **Preference Shares**) of no par value, designated as ordinary shares and create unlimited number of protected cells, issued in the form of a single Series of Preference Shares. Each Series of Preference Shares may comprise one or more classes of Preference Shares as specified in the relevant supplemental memorandum. Each class of Preference Shares may have different features.

The Preference Share Issuer may issue redeemable preference shares linked to a specified index or basket of indices, share or basket of shares, currency or basket of currencies, debt instrument or basket of debt instruments, commodity or basket of commodities, fund unit or share or basket of fund units or shares (each a **Preference Share Underlying**) and on such terms as may be determined by the Preference Share Issuer and specified in the applicable terms and conditions of the relevant series of preference shares (the **Preference Share Terms**). The Preference Share Terms, and any non-

contractual obligations arising out of or in connection with the Preference Share Terms and any non-contractual obligations arising out of or in connection with them, are governed by and construed in accordance with Jersey law.

The Preference Share Terms provide that the Preference Shares will be redeemable on their final redemption date (or otherwise in accordance with the Preference Share Terms). On redemption, the Preference Shares will carry preferred rights to receive an amount calculated by reference to the performance of the Preference Share Underlying.

The Preference Share Terms also provide that the Preference Share Issuer may redeem the Preference Shares early if:

- (a) the calculation agent in respect of the Preference Shares determines that for reasons beyond the Preference Share Issuer's control, the performance of the Preference Share Issuer's obligations under the Preference Shares has become illegal or impractical in whole or in part for any reason; or
- (b) any event occurs in respect of which the provisions of the Preference Share Terms relating to any adjustment, delay, modification, cancellation or determination in relation to the Preference Share Underlying, the valuation procedure for the Preference Share Underlying or the Preference Shares provide that the Preference Shares may be redeemed; or
- (c) a change in applicable law or regulation occurs that in the determination of the Preference Share Calculation Agent results, or will result, by reason of the Preference Shares being outstanding, in the Preference Share Issuer being required to be regulated by any additional regulatory authority, or being subject to any additional legal requirement or regulation or tax considered by the Preference Share Issuer to be onerous to it; or
- (d) the Preference Share Issuer is notified that the Preference Share Linked Notes have become subject to early redemption.

The value of the Preference Shares will be published on each Business Day with respect to any city or place, a day on which commercial banks and foreign exchange markets settle payments and are open for business (including dealings in foreign exchange and foreign currency deposits) in such city or place or as defined in the relevant supplemental memorandum for each Series of Preference Shares.

5. THE PREFERENCE SHARE UNDERLYING

The performance of the Preference Shares depends on the performance of the Preference Share Underlying to which the relevant Preference Shares are linked.

Investors should review the Preference Share Terms and the Preference Share Issuer's private placement memorandum, relevant supplemental memorandum and other constitutional documents and consult with their own professional advisers if they consider it necessary.

BOOK ENTRY CLEARANCE SYSTEMS

*The information set out below is subject to any change in or reinterpretation of the rules, regulations and procedures of DTC, Euroclear, Clearstream, Luxembourg, EUI or SIX SIS SA (together, for the purposes of this section, the **Clearing Systems**) currently in effect. The information in this section concerning the Clearing Systems has been obtained from sources that the Issuer and the Guarantor believe to be reliable.*

Such information has been accurately reproduced, and as far as the Issuers and Guarantor are aware and are able to ascertain from information published by such Clearing Systems, no facts have been omitted which would render the reproduced information inaccurate or misleading.

None of the Issuer, the Guarantor nor any Dealer takes any responsibility for the accuracy thereof.

Investors wishing to use the facilities of any of the Clearing Systems are advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Clearing System. None of the Issuer, the Guarantor nor any other party to the Agency Agreement will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Notes held through the facilities of any Clearing System or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

1. BOOK ENTRY SYSTEMS

1.1 DTC

DTC has advised the Issuer that it is a limited purpose trust company organised under the New York Banking Law, a "banking organisation" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to Section 17A of the Exchange Act. DTC holds securities that its participants (**Participants**) deposit with DTC. DTC also facilitates the settlement among Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerised book-entry changes in Participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organisations (**Direct Participants**). DTC is a wholly owned subsidiary of The Depository Trust & Clearing Corporation (**DTCC**). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC System is also available to others such as securities brokers and dealers, banks and trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (**Indirect Participants**).

Under the rules, regulations and procedures creating and affecting DTC and its operations (the **Rules**), DTC makes book-entry transfers of Registered Notes among Direct Participants on whose behalf it acts with respect to Notes accepted into DTC's book-entry settlement system (**DTC Notes**) as described below and receives and transmits distributions of principal and interest on DTC Notes. The Rules are on file with the Securities and Exchange Commission. Direct Participants and Indirect Participants with which beneficial owners of DTC Notes (**Owners**) have accounts with respect to the DTC Notes similarly are required to make book-entry transfers and receive and transmit such payments on behalf of their respective Owners. Accordingly, although Owners who hold DTC Notes through Direct Participants or Indirect Participants will not possess Registered Notes, the Rules, by virtue of the requirements described above, provide a mechanism by which Direct Participants will receive payments and will be able to transfer their interest in respect of the DTC Notes.

Purchases of DTC Notes under the DTC system must be made by or through Direct Participants, which will receive a credit for the DTC Notes on DTC's records. The ownership interest of each actual purchaser of each DTC Note (**Beneficial Owner**) is in turn to be recorded on the Direct and Indirect

Participant's records. Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct Participant or the Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the DTC Notes are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in DTC Notes, except in the event that use of the book entry system for the DTC Notes is discontinued.

To facilitate subsequent transfers, all DTC Notes deposited by Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of DTC Notes with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the DTC Notes; DTC's records reflect only the identity of the Direct Participants to whose accounts such DTC Notes are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to Cede & Co. If less than all of the DTC Notes within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. will consent or vote with respect to DTC Notes. Under its usual procedures, DTC mails an Omnibus Proxy to the Issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the DTC Notes are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal and interest payments on the DTC Notes will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the Issuer or the Agent, on payable date in accordance with their respective holdings shown on DTC's records unless DTC has reason to believe that it will not receive payment on the due date. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such Participant and not of DTC, the Agent or the Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest to DTC is the responsibility of the Issuer, disbursement of such payments to Direct Participants is the responsibility of DTC, and disbursement of such payments to the Beneficial Owners is the responsibility of Direct and Indirect Participants.

Under certain circumstances set out in the Global Notes, DTC will exchange the DTC Notes for Definitive Registered Notes, which it will distribute to its Participants in accordance with their proportionate entitlements and which, if representing interests in a Rule 144A Global Note, will be legended as set forth in the section headed "*Subscription, Sale and Transfer Restrictions*".

Since DTC may only act on behalf of Direct Participants, who in turn act on behalf of Indirect Participants, any Owner desiring to pledge DTC Notes to persons or entities that do not participate in DTC, or otherwise take actions with respect to such DTC Notes, will be required to withdraw its Registered Notes from DTC as described below.

1.2 Euroclear and Clearstream, Luxembourg

Euroclear and Clearstream, Luxembourg each hold securities for their customers and facilitate the clearance and settlement of securities transactions by electronic book-entry transfer between their

respective account holders. Euroclear and Clearstream, Luxembourg provide various services including safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear and Clearstream, Luxembourg also deal with domestic securities markets in several countries through established depository and custodial relationships. Euroclear and Clearstream, Luxembourg have established an electronic bridge between their two systems across which their respective participants may settle trades with each other.

Euroclear and Clearstream, Luxembourg customers are world-wide financial institutions, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Indirect access to Euroclear and Clearstream, Luxembourg is available to other institutions that clear through or maintain a custodial relationship with an account holder of either system.

1.3 SIX SIS SA

SIX SIS SA has been part of SIX Group since January 2008. SIX Group was formed at the beginning of 2008 through the merger of SWX Group, SIS Group and Telekurs Group.

As both a central securities depository and an international central securities depository SIX SIS SA offers banks and other financial market participants the safe custody of securities, a full range of custody services and the settlement of securities transactions. SIX SIS SA settles securities transactions worldwide, including transactions in uncertificated securities.

In the Swiss market, SIX SIS SA is part of the so-called Swiss value chain. The links to SIX Swiss Exchange SA and the payment systems SIC/euroSIC, ensure fully automated settlement in central bank money.

2. BOOK-ENTRY OWNERSHIP OF AND PAYMENTS IN RESPECT OF DTC NOTES

The Issuer may apply to DTC in order to have any Tranche of Notes represented by a Registered Global Note accepted in its book-entry settlement system. Upon the issue of any such Registered Global Note, DTC or its custodian will credit, on its internal book entry system, the respective nominal amounts of the individual beneficial interests represented by such Registered Global Note to the accounts of persons who have accounts with DTC. Such accounts initially will be designated by or on behalf of the relevant Dealer. Ownership of beneficial interests in such a Registered Global Note will be limited to Direct Participants or Indirect Participants, including, in the case of any Regulation S Global Note, the respective depositories of Euroclear and Clearstream, Luxembourg. Ownership of beneficial interests in a Registered Global Note accepted by DTC will be shown on, and the transfer of such ownership will be effected only through, records maintained by DTC or its nominee (with respect to the interests of Direct Participants) and the records of Direct Participants (with respect to interests of Indirect Participants).

Payments in U.S. dollars of principal and interest in respect of a Registered Global Note accepted by DTC will be made to the order of DTC or its nominee as the registered holder of such Note. In the case of any payment in a currency other than U.S. dollars, payment will be made to the Exchange Agent on behalf of DTC or its nominee and the Exchange Agent will (in accordance with instructions received by it) remit all or a portion of such payment for credit directly to the beneficial holders of interests in the Registered Global Note in the currency in which such payment was made and/or cause all or a portion of such payment to be converted into U.S. dollars and credited to the applicable Participants' account.

The Issuer expects DTC to credit accounts of Direct Participants on the applicable payment date in accordance with their respective holdings as shown in the records of DTC unless DTC has reason to believe that it will not receive payment on such payment date. The Issuer also expects that payments by Participants to beneficial owners of Notes will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers, and will be the responsibility of such Participant and not the responsibility of DTC, the Fiscal Agent, the Registrar or the Issuer. Payment of principal, premium, if any, and interest, if any, on Notes to DTC is the responsibility of the Issuer.

3. TRANSFERS OF NOTES REPRESENTED BY REGISTERED GLOBAL NOTES

Transfers of any interests in Notes represented by a Registered Global Note within DTC, Euroclear and Clearstream, Luxembourg will be effected in accordance with the customary rules and operating procedures of the relevant clearing system. The laws in some States within the United States require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer Notes represented by a Registered Global Note to such persons may depend upon the ability to exchange such Notes for Notes in definitive form. Similarly, because DTC can only act on behalf of Direct Participants in the DTC system who in turn act on behalf of Indirect Participants, the ability of a person having an interest in Notes represented by a Registered Global Note accepted by DTC to pledge such Notes to persons or entities that do not participate in the DTC system or otherwise to take action in respect of such Notes may depend upon the ability to exchange such Notes for Notes in definitive form. The ability of any holder of Notes represented by a Registered Global Note accepted by DTC to resell, pledge or otherwise transfer such Notes may be impaired if the proposed transferee of such Notes is not eligible to hold such Notes through a Direct Participant or Indirect Participant in the DTC system.

Subject to compliance with the transfer restrictions applicable to the Registered Notes described in the section headed "*Subscription, Sale and Transfer Restrictions*", cross-market transfers between DTC, on the one hand, and directly or indirectly through Clearstream, Luxembourg or Euroclear accountholders, on the other, will be effected by the relevant clearing system in accordance with its rules and through action taken by the Registrar, the Fiscal Agent and any custodian (**Custodian**) with whom the relevant Registered Global Notes have been deposited.

On or after the Issue Date for any Series, transfers of Notes of such Series between accountholders in Clearstream, Luxembourg and Euroclear and transfers of Notes of such Series between participants in DTC will generally have a settlement date three business days after the trade date (T+3). The customary arrangements for delivery versus payment will apply to such transfers.

Cross-market transfers between accountholders in Clearstream, Luxembourg or Euroclear and DTC participants will need to have an agreed settlement date between the parties to such transfer. Because there is no direct link between DTC, on the one hand, and Clearstream, Luxembourg and Euroclear, on the other, transfers of interests in the relevant Registered Global Notes will be effected through the Registrar, the Fiscal Agent and the Custodian receiving instructions (and, where appropriate, certification) from the transferor and arranging for delivery of the interests being transferred to the credit of the designated account for the transferee. In the case of cross-market transfers, settlement between Euroclear or Clearstream, Luxembourg accountholders and DTC participants cannot be made on a delivery versus payment basis. The securities will be delivered on a free delivery basis and arrangements for payment must be made separately.

DTC, Clearstream, Luxembourg and Euroclear have each published rules and operating procedures designed to facilitate transfers of beneficial interests in Registered Global Notes among participants and accountholders of DTC, Clearstream, Luxembourg and Euroclear. However, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued or changed at any time. None of the Issuer, the Guarantor, the Agents or any Dealer will be responsible for any performance by DTC, Clearstream, Luxembourg or Euroclear or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations and none of them will have any liability for any aspect of the records relating to or payments made on account of beneficial interests in the Notes represented by Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial interests.

4. CREST AND CREST DEPOSITORY INTERESTS

4.1 EUI or CREST

EUI Notes will be held in registered uncertificated form in accordance with the Uncertificated Securities Regulations 2001, including any modification or re-enactment thereof for the time being in force (the

Regulations) and as such are dematerialised and not constituted by any physical document of title. The EUI Notes are participating securities for the purposes of the Regulations. Other than in the case of Uncertificated SIS Notes, title to the EUI Notes is recorded on the relevant Operator register of corporate securities. The EUI Agent on behalf of the Issuer shall, in relation to the EUI Notes, maintain a record of uncertificated corporate securities in accordance with the records of Euroclear UK & Ireland Limited (**EUI** or **CREST**) (formerly known as CRESTCo Limited) (the **Record**) and shall procure that the Record is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator. Subject to this requirement, (i) each person who is for the time being shown in the Record as the holder of a particular number of EUI Notes shall be treated by the Issuer and the EUI Agent as the holder of such number of EUI Notes for all purposes (and the expression **EUI Holder** and related expressions shall be construed accordingly), and (ii) neither the Issuer, the Guarantor nor the EUI Agent shall be liable in respect of any act or thing done or omitted to be done by it or on its behalf in reliance upon the assumption that the particulars entered in the Record which the EUI Agent maintains are in accordance with particulars entered in the Operator register of corporate securities relating to the EUI Notes.

4.2 **CREST Depository Interests**

Following their delivery into Euroclear and Clearstream, Luxembourg, interests in Notes may be delivered, held and settled in CREST by means of the creation of dematerialised depository interests representing the interests in the relevant Notes.

Pursuant to the CREST Reference Manual Notes held in global form by the Common Depository may be settled through the CREST system, and the CREST Depository will issue CREST Depository Interests (**CDIs**). The CDIs will be independent securities, constituted under English law which may be held and transferred through the CREST system.

The CDIs will be created pursuant to and issued on the terms of a deed poll executed by the CREST Depository in favour of the holders of the CDIs from time to time (the **CREST Deed Poll**). Prospective holders of CDIs should note that they will have no rights against CRESTCo or its subsidiaries in respect of the underlying Notes, interests therein, or the CDIs representing them.

Interests in the underlying Notes will be credited to the CREST nominee's account with Euroclear and the CREST nominee will hold such interests as nominee for the CREST Depository which will issue CDIs to the relevant CREST participants.

Each CDI will be treated as one underlying Note, for the purposes of determining all rights and obligations and all amounts payable in respect thereof. The CREST Depository will pass on to holders of CDIs any interest or other amounts received by it as holder of the underlying Notes on trust for such CDI holder. CDI holders will also be able to receive from the CREST Depository notices of meetings of holders of underlying Notes and other relevant notices issued by the Issuer.

Transfers of interests in underlying Notes by a CREST participant to a participant of Euroclear or Clearstream, Luxembourg will be effected by cancellation of the CDIs and transfer of an interest in such underlying Notes to the account of the relevant participant with Euroclear or Clearstream, Luxembourg.

The CDIs will have the same international security identification number (ISIN) as the underlying Notes and will not require a separate listing on the Official List.

Prospective subscribers for Notes represented by CDIs are referred to Chapter 3 of the CREST Reference Manual which contains the form of the CREST Deed Poll to be entered into by the CREST Depository.

The rights of the holders of CDIs will be governed by the arrangements between CREST, Euroclear, Clearstream, Luxembourg and the Issuer including the CREST Deed Poll (in the form contained in Chapter 3 of the CREST International Reference Manual (which forms part of the CREST Reference Manual)) executed by the CREST Depository. These rights may be different from those of holders of Notes which are not represented by CDIs.

TAXATION

THE FOLLOWING SECTION PROVIDES INFORMATION, AS OF THE DATE OF THIS PROGRAMME, ON TAXES ON THE INCOME FROM THE NOTES WITHHELD AT SOURCE IN RESPECT OF (I) THE COUNTRY OF THE REGISTERED OFFICE OF EACH ISSUER AND (II) THE COUNTRIES WHERE OFFERS OF NOTES MAY BE MADE OR ADMISSION TO TRADING MAY BE SOUGHT. SUCH INFORMATION IS NOT INTENDED TO PROVIDE AN EXHAUSTIVE DESCRIPTION OF THE POTENTIAL TAX ISSUES ASSOCIATED WITH THE NOTES. ACCORDINGLY, ANY INVESTOR CONSIDERING AN INVESTMENT IN THE NOTES SHOULD OBTAIN INDEPENDENT TAX ADVICE ON THE TAXATION IMPLICATIONS FOR IT, IN EACH RELEVANT JURISDICTION, OF PURCHASING, OWNING OR DISPOSING OF ANY NOTE.

1. EUROPEAN UNION

On 3 June 2003, the Council of the European Union adopted the Directive 2003/48/EC on taxation of savings income (the **Savings Directive**). Pursuant to the Savings Directive, Member States are required to provide to the tax authorities of other Member State details of certain payments of interest or similar income paid or secured by a person established in a Member State to, or for the benefit of, an individual resident in another Member State or certain limited types of entities established in another Member State.

On 24 March 2014, the Council of the European Union adopted a Council Directive amending and broadening the scope of the requirements described above. Member States are required to apply these new requirements from 1 January 2017. The changes will expand the range of payments covered by the Savings Directive, in particular to include additional types of income payable on securities. The Savings Directive will also apply a “look through approach” to certain payments where an individual resident in a Member State is regarded as the beneficial owner of that payment for the purposes of the Savings Directive. This approach may apply to payments made to or by, or secured for or by, persons, entities or legal arrangements (including trusts), where certain conditions are satisfied, and may in some cases apply where the person, entity or arrangement is established or effectively managed outside of the European Union.

For a transitional period, Luxembourg and Austria are required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments. The rate of such withholding tax equals 35 per cent.. The changes referred to above will broaden the types of payments subject to withholding in those Member States which still operate a withholding system when they are implemented. In April 2013, the Luxembourg Government announced its intention to abolish the withholding system with effect from 1 January 2015, in favour of automatic information exchange under the Savings Directive.

The transitional period will end at the end of the first full fiscal year following the later of (i) the date of entry into force of an agreement between the European Community, following a unanimous decision of the Council, and the last of several jurisdictions (Switzerland, Liechtenstein, San Marino, Monaco and Andorra), providing for the exchange of information upon request as defined in the OECD Model Agreement on Exchange of Information on Tax Matters released on 18 April 2002 (the **OECD Model Agreement**) with respect to interest payments within the meaning of the Savings Directive, in addition to the simultaneous application by those same jurisdictions of a withholding tax on such payments and (ii) the date on which the Council unanimously agrees that the United States of America is committed to exchange of information upon request as defined in the OECD Model Agreement with respect to interest payments within the meaning of the Savings Directive. A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

2. JURISDICTIONS OF THE ISSUERS AND THE GUARANTOR

2.1 France

2.1.1 Withholding Tax

2.1.1.1 Payments made by Société Générale or SG Option Europe as Issuers

The following is an overview of certain withholding tax considerations that may be relevant to holders of the Notes who do not concurrently hold shares of the Issuer and who are not otherwise affiliated with the Issuer within the meaning of Article 39,12 of the *Code général des impôts*. Persons who are in doubt as to their tax position should consult a professional advisor.

2.1.1.1.1 Notes issued by Société Générale or SG Option Europe which are not consolidated (assimilables for the purposes of French law) and do not form a single series with Notes issued before 1 March 2010.

Following the introduction of the French *loi de finances rectificative pour 2009 n°3* (n° 2009-1674 dated 30 December 2009) (the **Law**), payments of interest and other revenues made by Société Générale or SG Option Europe with respect to Notes (other than Notes (as described below) which are consolidated (*assimilables* for the purpose of French law) and form a single series with Notes issued prior to 1 March 2010 having the benefit of article 131 *quater* of the *Code général des impôts*) will not be subject to the withholding tax set out under article 125 A III of the *Code général des impôts* unless such payments are made outside France in a non-cooperative State or territory (*Etat ou territoire non coopératif*) within the meaning of article 238-0 A of the *Code général des impôts* (a **Non-Cooperative State**). If such payments under the Notes are made in a Non-Cooperative State, a 75 per cent. withholding tax will be applicable (subject to certain exceptions) by virtue of article 125 A III of the *Code général des impôts*.

Furthermore, according to article 238 A of the *Code général des impôts*, interest and other revenues on such Notes will not be deductible from the Issuer's taxable income if they are paid or accrued to persons domiciled or established in a Non-Cooperative State or paid in such a Non-Cooperative State (the **Deductibility Exclusion**). Under certain conditions, any such non-deductible interest and other revenues may be recharacterised as constructive dividends pursuant to article 109 of the *Code général des impôts*, in which case such non-deductible interest and other revenues may be subject to the withholding tax set out under article 119 *bis* 2 of the *Code général des impôts*, at a rate of 30 per cent. or 75 per cent., subject to the more favourable provisions of an applicable double tax treaty, if any.

Notwithstanding the foregoing, the Law provides that neither the 75 per cent. withholding tax set out under article 125 A III of the *Code général des impôts* nor the Deductibility Exclusion will apply in respect of a particular issue of Notes if the relevant Issuer can prove that the principal purpose and effect of such issue of Notes was not that of allowing the payments of interest or other revenues to be made in a Non-Cooperative State (the **Exception**). Pursuant to the *Bulletin officiel des Finances Publiques – Impôts BOI-INT-DG-20-50-20140211*, *BOI-RPPM-RCM-30-10-20-40-20140211*, *BOI-IR-DOMIC-10-20-20-60-20140211* and *BOI-ANNX-000364-20120912*, an issue of Notes will benefit from the Exception without the Issuer having to provide any proof of the purpose and effect of such issue of Notes, if such Notes are:

- (i) offered by means of a public offer within the meaning of article L.411.1 of the *Code monétaire et financier* or pursuant to an equivalent offer in a State other than a Non-Cooperative State. For this purpose, an "equivalent offer" means any offer requiring the registration or submission of an offer document by or with a foreign securities market authority; or
- (ii) admitted to trading on a regulated market or on a French or foreign multilateral securities trading system provided that such market or system is not located in a Non-Cooperative State, and the operation of such market is carried out by a market operator or an investment services provider, or by such other similar foreign entity, provided further that such market operator, investment services provider or entity is not located in a Non-Cooperative State; or

- (iii) admitted, at the time of their issue, to the clearing operations of a central depository or of a securities clearing and delivery and payments systems operator within the meaning of article L.561-2 of the *Code monétaire et financier*, or of one or more similar foreign depositories or operators provided that such depository or operator is not located in a Non-Cooperative State.

2.1.1.1.2 Notes issued by Société Générale or SG Option Europe which are consolidated (assimilables for the purposes of French law) and form a single series with Notes issued before 1 March 2010

Payments of interest and other revenues with respect to Notes which are consolidated (*assimilables* for the purpose of French law) and form a single series with Notes issued before 1 March 2010 with the benefit of article 131 *quater* of the *Code général des impôts* will be exempt from the withholding tax set out under article 125 A III of the *Code général des impôts*, even if payments are made outside France in a Non-Cooperative State.

Notes issued before 1 March 2010, whether denominated in Euro or in any other currency, and constituting *obligations* under French law, or *titres de créances négociables* within the meaning of the *Bulletin officiel des Finances Publiques – Impôts* BOI-RPPM-RCM-30-10-30-30-20140211, respectively, or other debt securities issued under French or foreign law and considered by the French tax authorities as falling into similar categories, are deemed to be issued outside the Republic of France for the purpose of article 131 *quater* of the *Code général des impôts*.

In addition, interest and other revenues paid by the relevant Issuer on Notes issued from 1 March 2010 and which are to be consolidated (*assimilables* for the purpose of French law) and form a single series with Notes issued before 1 March 2010 will not be subject to the Deductibility Exclusion, and hence will not be subject to the withholding tax set out in article 119 *bis* 2 of the *Code général des impôts* solely on account of their being paid in a Non-Cooperative State or accrued or paid to persons established or domiciled in a Non-Cooperative State.

2.1.1.2 Payments made by the Guarantor

There is no direct authority under French law on the withholding tax status of payments by the Guarantor under the Guarantee. Hence, the statements below are based on the interpretation of general French tax principles and any future legislative, judicial or administrative development may affect, potentially with retroactive effect, such statements.

2.1.12.1 Payments in respect of Notes issued by SG Issuer and SGA Société Générale Acceptance N.V.:

Under one interpretation of French tax law, payments made by the Guarantor of any amount due by SG Issuer or SGA Société Générale Acceptance N.V., as the case may be, to a Noteholder which is a non-French tax resident and which is not acting through a French establishment or branch may be treated as a payment in lieu of payments to be made by SG Issuer or SGA Société Générale Acceptance N.V., as the case may be, with respect to the Notes. Accordingly, under this interpretation, payments made by the Guarantor of any amounts due by SG Issuer or SGA Société Générale Acceptance N.V., as the case may be, under the Notes should not be subject to the withholding tax set out under article 125 A III of the *Code général des impôts*, to the extent that interest payments made or to be made by SG Issuer or SGA Société Générale Acceptance N.V., as the case may be, would not be subject to withholding tax by reason of SG Issuer or SGA Société Générale Acceptance N.V., as the case may be, not being resident of, or otherwise established in, France.

Under another interpretation, any such payment may be treated as a payment independent from the payments to be made by SG Issuer or SGA Société Générale Acceptance N.V., as the case may be, with respect to the Notes. In the absence of any specific provision in article 125 A III of the *Code général des impôts*, such payments should not be subject to the withholding tax set out under article 125 A III of the *Code général des impôts*.

In the improbable case that none of the two above interpretations would prevail and if the payments by the Guarantor under the Guarantee would qualify as interest payments paid by a French debtor within the meaning of article 125 A III of the *Code général des impôts*, such payments would not be subject to

the 75 per cent. withholding tax referred to above, unless such payments are made outside France in a Non-Cooperative State (see below “Payments made by Société Générale or SG Option Europe as Issuers”).

2.1.12.2 *Payments in respect of Notes issued by SG Option Europe:*

In accordance with a first interpretation of French tax law, payments made by the Guarantor of any amount due by SG Option Europe to a Noteholder which is a non-French tax resident and which is not acting through a French establishment or branch may be treated as a payment in lieu of payments to be made by SG Option Europe with respect to the Notes. Accordingly, under this interpretation, payments made by the Guarantor of any amounts due by SG Option Europe under the Notes should not be subject to the 75 per cent. withholding tax referred to above, unless such payments are made outside France in a Non-Cooperative State.

In accordance with the second interpretation, any payment made by the Guarantor in respect of the Notes issued by SG Option Europe may be treated as a payment independent from the payments to be made by SG Option Europe with respect to the Notes. In the absence of any specific provision in article 125 A III of the *Code général des impôts*, such payments should not be subject to the withholding tax set out under article 125 A III of the *Code général des impôts*.

In the improbable case that none of the two above interpretations would prevail and if the payments by the Guarantor under the Guarantee would qualify as interest payments paid by a French debtor within the meaning of article 125 A III of the *Code général des impôts*, such payments would not be subject to the 75 per cent. withholding tax set out under Article 125 A III of the *Code générale des impôts*, unless such payments are made outside France in a Non-Cooperative State (see below “Payments made by Société Générale or SG Option Europe as Issuers”).

2.1.2 **Savings Directive**

The Savings Directive was implemented into French law under article 242 *ter* of the *Code général des impôts* which imposes on paying agents based in France an obligation to report to the French tax authorities certain information with respect to interest payments made to beneficial owners domiciled in another Member State, including, among other things, the identity and address of the beneficial owner, the total amount of interest paid to that beneficial owner and the total amount of the proceeds from sale, redemption or refund of debt claims of every kind realised by the beneficial owner during the calendar year.

2.1.3 **Transfer taxes and other taxes**

Please note that the following may be relevant in connection with Notes which are settled, redeemed or otherwise repaid by way of physical delivery of certain French listed shares (or certain assimilated securities).

Pursuant to Article 235 *ter* ZD of the *Code général des impôts*, a financial transaction tax (the **Financial Transaction Tax**) applies to any acquisition for consideration, resulting in a transfer of ownership, of an equity security (*titre de capital*) within the meaning of Article L 212-1 A of the *Code monétaire et financier*, or of an assimilated equity security, within the meaning of Article L 211-41 of the *Code monétaire et financier*, admitted to trading on a recognised stock exchange when the said security is issued by a company whose registered office is situated in France and whose market capitalisation exceeds €1 billion on 1 December of the year preceding the year in which the acquisition occurs (the **French Shares**). The rate of the Financial Transaction Tax is 0.2% of the acquisition value of the securities. There are a number of exemptions from the Financial Transaction Tax and investors shall revert to their counsel to identify whether they can benefit from them.

If the Financial Transaction Tax applies to an acquisition of shares, this transaction is exempt from transfer taxes (*droits de mutation à titre onéreux*) which generally apply at a rate of 0.1% to the sale of shares issued by a company whose registered office is situated in France, provided that in case of

shares listed on a recognised stock exchange, transfer taxes are due only if the transfer is evidenced by a written deed or agreement.

2.2 Curaçao

SGA Société Générale Acceptance N.V. has been advised that, under present Curaçao law, payments in respect of the Notes held by persons not resident in, or engaged in trade or business through a permanent establishment in, Curaçao and gains realised on the sale or redemption thereof by such persons will not be subject to Curaçao taxes and that no inheritance tax arises in Curaçao on the death of a Noteholder not domiciled in Curaçao at the time of death.

As far as the Noteholders are EU residents, no withholding tax is due on interest payments (as defined in the Curaçao Savings Tax Act) as long as these Noteholders will agree to exchange of information if this obligation from the Curaçao Savings Tax Act is applicable.

As far as SGA Société Générale Acceptance N.V. is granted an exemption on the basis of the Regulation Foreign Exchange Transaction (*Regeling Deviezenverkeer Curaçao en Sint Maarten*), no bank license fee of 1% will be due on payments from SGA Société Générale Acceptance N.V.

Curaçao has concluded Tax Information Exchange Agreements with several countries.

2.3 Luxembourg

The following description is of a general nature only and is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. The information contained within this section is limited to Luxembourg withholding tax issues and prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a tax of a similar nature, or to any other concepts, refers to Luxembourg tax law and/or concepts only.

2.3.1 Withholding Tax

2.3.1.1 Non-resident holders of Notes

Under Luxembourg general tax laws currently in force and subject to the laws of 21 June 2005 as amended (the **Savings Laws**), there is no withholding tax on payments of principal, premium or interest made to non-resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by non-resident holders of the Notes.

Under the Savings Laws implementing the European Council Directive 2003/48/EC on taxation of savings income in the form of interest payments (the **Savings Directive**) and ratifying the treaties entered into by Luxembourg and certain dependent and associated territories of EU Member States (the **Territories**), payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner or a residual entity, (within the meaning of the Savings Laws), resident in, or established in, an EU Member State (other than Luxembourg) or one of the Territories will be subject to a withholding tax unless the relevant recipient has adequately instructed the relevant paying agent to provide details of the relevant payments of interest or similar income to the fiscal authorities of his/her/its country of residence or establishment, or, in the case of an individual beneficial owner, has provided a tax certificate issued by the tax authorities of the beneficiary's country of residence in the required format to the relevant paying agent. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Notes coming within the scope of the Savings Laws will at present be subject to a withholding tax of 35%.

In April 2013, the Luxembourg Government announced its intention to abolish the withholding system with effect from 1 January 2015, in favour of automatic information exchange under the Savings Directive.

2.3.1.2 Resident holders of Notes

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005, as amended (the **Relibi Law**), there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by Luxembourg resident holders of the Notes.

Under the Relibi Law payments of interest or similar income made or ascribed by a paying agent established in Luxembourg an individual beneficial owner who is a resident of Luxembourg or to a residual entity (within the meaning of the Saving Laws) established in an EU Member State (other than Luxembourg) or one of the Territories and securing such payments for the benefit of such individual beneficial owner will be subject to a withholding tax of 10 %. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Notes coming within the scope of the Relibi Law will be subject to a withholding tax at a rate of 10%.

3. OTHER JURISDICTIONS

Any terms defined in this section 3, in connection with a particular jurisdiction, relate only to the information provided in connection with that jurisdiction.

3.1 Austria

The following is a brief summary of certain Austrian tax aspects in connection with the Notes. It does not claim to fully describe all Austrian tax consequences of the acquisition, ownership, disposition or redemption of the Notes. In some cases a different tax regime may apply. Further, this summary does not take into account or discuss the tax laws of any country other than Austria nor does it take into account the investors' individual circumstances. Prospective investors are advised to consult their own professional advisors to obtain further information about the tax consequences of the acquisition, ownership, disposition, exchange, exercise, settlement or redemption of the Notes. Only personal advisors are in a position to adequately take into account special tax aspects of the particular Notes in question as well as the investor's personal circumstances and any special tax treatment applicable to the investor.

This summary is based on Austrian Law as in force when drawing up this Prospectus Supplement. The Austrian tax laws have substantially changed due to the entry into force of capital gains tax related provisions on 1 April 2012 and additional changes entered into force on 1 January 2013. The Austrian Federal Ministry of Finance has moreover issued and published Guidelines on the Taxation of Investment Income dated 7 March 2012 relating to the application of the new tax laws. Relating to the new tax laws, there is currently neither case law nor a secure practice applied by the paying agents and/or securities account keeping agents so that deviations may result from the factual implementation and practice as compared to the legal situation described herein. The laws and their interpretation by the tax authorities may change and such changes may also have retroactive effect. Prospective investors are therefore explicitly advised to consult their own professional advisers to obtain further information about the tax consequences of the acquisition, ownership, disposition, exchange, exercise, settlement or redemption of the Notes.

This summary does not describe the tax consequences for a holder of Notes that are redeemable in exchange for, or convertible into, shares or other securities or rights or which in other way provide for physical settlement, or the consequences of the exchange, exercise, physical settlement or redemption

of such Notes and/or any tax consequences after the moment of exchange, exercise, physical settlement or redemption.

3.1.1 Austrian Resident Taxpayers

Income derived by individuals having a domicile or their habitual abode in Austria or corporations having their corporate seat or place of management in Austria ("residents") is taxable pursuant to the Austrian Income Tax Act (*Einkommensteuergesetz*) or the Austrian Corporate Income Tax Act (*Körperschaftsteuergesetz*).

3.1.1.1 Risk of requalification of Notes as foreign investment fund units

- a) The Issuers are of the opinion that the Notes do not qualify as units or shares of an alternative investment fund (AIF) whose home member state is not Austria, as defined in the Alternative Investment Fund Managers Act, due to the lacking of a collective investment undertaking, of pooled investor assets and of a defined investment policy.
- b) Certain Notes such as non-capital guaranteed basket or index linked notes might be re-qualified by the tax authorities as units of an undertaking subject to foreign law investing in accordance with the principles of risk-spreading under certain conditions. Pursuant to the Austrian Investment Fund Act, any undertaking subject to foreign law whose assets are invested in accordance with the principles of risk-spreading is qualified as foreign investment fund for tax purposes, without regard to its legal form (substance over form approach), if one of the following requirements are fulfilled:
 - (i) the undertaking is neither directly nor indirectly subject to a tax in the foreign country comparable to Austrian corporation tax;
 - (ii) the profits of the undertaking are in the foreign country subject to a tax comparable to Austrian corporation tax the applicable rate of which is more than 10%-points lower than the Austrian corporation tax;
 - (iii) the undertaking is subject to a comprehensive tax exemption in the foreign state.

Income from investment funds is taxed at the level of the investors and includes distributions as well as retained earnings of the fund deemed to be distributed to the investor ("ausschüttungsgleiche Erträge"). Such retained earnings are deemed to be distributed to the investor for tax purposes to the extent of the share interest of the investor no later than four months after the end of the business year of the investment fund in which the earnings were derived by the fund. If no Austrian tax representative is appointed for the fund and the retained earnings of the fund deemed to be distributed to the investor are also not reported to the securities account keeping agent by the investors themselves, the non-Austrian fund will be qualified a "black fund" and the retained earnings of the fund deemed to be distributed each calendar year will be determined on a lump-sum basis which will result in a tax base of 90 per cent. of the difference between the first and the last redemption price of the fund units fixed in a calendar year, but will be minimum 10 per cent. of the last redemption price of the fund units fixed in a calendar year. As the applicable tax rate is 25 per cent. for corporate investors as well as, in general, for individuals, this minimum lump sum tax base results in a minimum tax of 2.5 per cent. per year on the last redemption price (NAV) in any calendar year before maturity.

In the case of sales or redemptions of black foreign investment fund units, the whole difference amount between the sale price of the fund unit on the one hand and its acquisition cost plus already taxed retained earnings of the fund deemed to be distributed to the investor on the other hand will be subject to Austrian withholding tax of 25%.

Pursuant to the Investment Fund Guidelines 2008 published by the Austrian Federal Ministry of Finance a requalification of index and other reference linked notes into fund units requires, inter alia, (i) that an investment is effected in line with the principle of risk diversification and (ii) that the Issuer (or a trustee mandated by the Issuer) factually and predominantly acquires the (underlying) securities or that the investment qualifies as actively managed portfolio. This should, inter alia, exclude capital guaranteed notes and notes with less than six underlyings from requalification. Pursuant to the Investment Fund Guidelines 2008 "directly held index linked certificates should not be requalified as foreign investment

fund units, irrespective, whether the underlying index is a recognized or individually composed, fixed or flexible index". Therefore index linked notes should also be prevented from a requalification as foreign investment fund units.

In the following we assume that the Notes do not qualify as foreign investment funds for income tax purposes.

3.1.1.2 Resident Individuals

Generally for Notes held as private assets, income arising from the Notes qualifies as investment income (*Einkünfte aus Kapitalvermögen*). Index (and other underlying) and formula linked Notes bearing interest or bearing index (and other underlying) or formula linked interest are treated as debt type claims (*Kapitalforderungen jeder Art*), whereas index (and other underlying) linked certificates without interest are treated as (securitized) derivatives (*verbriefte Derivate*) under the new Austrian income tax law. Investment income from the Notes comprises:

- (i) income from the provision of capital (*Überlassung von Kapital*) including interest payments on the Notes (*Zinserträge*),
- (ii) realised capital gains (*Einkünfte aus realisierten Wertsteigerungen*) derived from assets which may generate income from the provision of capital, and
- (iii) for Notes bearing no interest and structured as index (or other underlying) linked certificates, income from derivatives including income from the sale, pay-off or redemption of (securitized) index (or other underlying) linked Notes.

Hence, not only interest payments but also realized capital gains will, irrespective of the period of time the Notes have been held for, qualify as investment income (*Einkünfte aus Kapitalvermögen*) and be subject to income tax at a special rate of 25% provided that the realisation of capital gains or of income from derivatives does not form a focus of a business investor's activities. Investment income includes income derived from the sale, redemption or other pay-off of the Notes and, in the case of derivative financial instruments, from any other settlement of the Notes. The tax base is, in general, the difference between (a) the amount realized (e.g., the sale proceeds or, the redemption or other pay-off amount) and (b) the acquisition costs, in all cases including accrued interest, if any. Expenses which are directly connected with income subject to the special tax rate of 25% are non-deductible. For Notes held as private assets, the acquisition costs shall not include incidental acquisition costs. For the calculation of the acquisition costs of Notes held within the same account and having the same identification number which are acquired at different points in time, an average price applies.

If an Austrian securities account keeping agent or an Austrian paying agent is involved and pays out or settles the realization of the income or capital gain, income tax will be deducted by applying a 25% withholding tax. The 25% withholding tax deduction will result in a final income taxation for private investors (holding the Notes as private assets) provided that the investor has evidenced the factual acquisition costs of the Notes to the securities account keeping agent.

Withdrawals (*Entnahmen*) and other transfers of Notes from the securities account will be treated as dispositions (sales), unless specified exemptions are fulfilled like the transfer of the Notes to a securities account owned by the same taxpayer (i) with the same Austrian bank, (ii) with another Austrian bank if the account holder instructs the transferring bank to disclose the acquisition costs to the receiving bank or (iii) with a non-Austrian bank, if the account holder instructs the transferring bank to transmit the pertaining information to the competent tax office or (iv) with a non-Austrian bank, if the Notes are transferred from another non-Austrian bank and the account-holder himself notifies the competent Austrian tax office within a month; or further like the gratuitous transfer to a securities account held by another taxpayer, if the gratuitous transfer is evidenced to the securities account keeping agent or the agent is instructed to inform the Austrian tax office thereof or if the taxpayer himself notifies the competent Austrian tax office within a month.

To the extent that no withholding tax deduction will be effected due to the lacking of an Austrian paying agent and of an Austrian securities account keeping agent, the investment income derived from the Notes will have to be included into the income tax return in line with the provisions of the Austrian Income Tax Act.

Taxpayers, whose regular personal income tax rate is lower than 25% may opt for taxation of the income derived from the Notes at such regular personal income tax rate. Such application for opting into taxation at the regular personal income tax rate must, however, include all income subject to the special 25% tax rate. Expenses in connection with income subject to final taxation or to the special 25% income tax rate and incurred by the investor are also not deductible for persons having opted for taxation at the regular personal income tax rate.

Losses from Notes held as private assets may only be set off with other investment income (excluding, *inter alia*, interest income from bank deposits and other claims against banks) and must not be set off with any other income. The Austrian Federal Budget Supplement Act 2012 provides for a mandatory set-off of losses by the Austrian securities account keeping agent to investment income achieved in all securities accounts at the same agent qualifying as private assets but excluding joint securities accounts and fiduciary securities accounts at the same agent. A carry-forward of such losses is not permitted.

Income (including capital gains) derived from the Notes which are held as business assets will also be subject to the special tax rate of 25% deducted by way of a withholding tax provided that the realisation of capital gains or of income from derivatives does not form a focus of a business investor's activities. However, capital gains and income from derivatives, contrary to the income from the provision of capital (*i.e.* interest income), have to be included in the tax return. Write-downs to the going concern-value and losses derived from the sale, redemption or other pay-off regarding the Notes held as business assets must primarily be set off against positive income from realized capital gains of financial instruments within one and the same business and only half of the remaining loss may be set off or carried forward against any other income.

For income derived from Notes which have upon issue not been offered to the public as referred to in the Austrian Income Tax Act, the general income tax rate (as opposed to the 25% special tax rate) will apply.

3.1.1.3 Resident Corporations

Corporate investors deriving business income from the Notes may avoid the application of withholding tax by filing a declaration of exemption (*Befreiungserklärung*) with the Austrian entity obliged to deduct the withholding tax. Income including any capital gain derived from the Notes by corporate investors is subject to corporate income tax at the general rate of 25 per cent. There is, *inter alia*, a special tax regime for Private Foundations established under Austrian law (*Privatstiftungen*).

3.1.1.4 Certain aspects of the tax treatment of certain notes

Any income and capital gain from the sale or redemption of Notes acquired against consideration will be subject to income tax of 25% and the tax will be deducted by way of a withholding tax, if an Austrian paying agent or an Austrian securities account keeping agent will be involved. The tax base is, in general, the difference between (a) the amount realized (*e.g.*, the sale proceeds or, the redemption or other pay-off amount) and (b) the acquisition costs, in all cases including accrued interest, if any. Please also refer to the above described tax laws applying to "Resident Individuals" (1.2).

Zero coupon Notes, index linked and credit linked Notes bearing interest (including index linked interest) and callable yield notes will qualify as notes under the new taxation rules but be subject to the taxation, as described above, of the difference between (a) the amount realized (*e.g.*, the sales price, the redemption amount) including accrued interest, if any and (b) the acquisition costs (including accrued interest) and therefore subject to 25% withholding tax if paid out by an Austrian securities account keeping agent or an Austrian paying agent. If held as business assets, interest upon redemption of the zero coupon Notes is not subject to final taxation, but taxed like capital gains.

Index certificates (not bearing interest) and credit linked notes without interest, discount certificates, leveraged certificates (*Hebelzertifikate*) and other derivative securities will qualify as (securitized) derivative financial instruments and be subject to the 25% withholding tax on capital gains and other income from such financial instruments.

3.1.2 **Non-Residents**

Income including any capital gain derived from the Notes by individuals who have neither a domicile nor their habitual abode in Austria or corporate investors who have neither their corporate seat nor their place of management in Austria ("non-residents") is not taxable in Austria provided the income is not attributable to a permanent establishment in Austria (for withholding tax under the EU Savings Directive see below).

Thus, non-resident investors in case they receive income from the Notes through a paying agent or a securities account keeping agent located in Austria may avoid the application of Austrian withholding tax if they evidence their non-resident-status vis-à-vis the entity obliged to deduct the Austrian withholding tax by disclosing information as required in the Austrian income tax guidelines. The provision of evidence that the investor is not subject to Austrian withholding tax is the responsibility of the investor. If any Austrian withholding tax is deducted by the agent, the tax withheld shall be refunded to the non-resident investor upon his application, which has to be filed with the competent Austrian tax authority within five calendar years following the date of the imposition of the withholding tax.

Where non-residents receive income from the Notes as part of business income taxable in Austria (permanent establishment), they will be, in general, subject to the same tax treatment as resident investors.

3.1.3 **EU Council Directive on Taxation of Savings Income**

EU Council Directive 2003/48/EC on taxation of savings income in the form of interest payments ("**EU Savings Tax Directive**") provides for an exchange of information between the authorities of EU member states regarding interest payments made in one member state to beneficial owners who are individuals and resident for tax purposes in another member state. Austria has implemented the Savings Directive by way of the EU Withholding Tax Act (*EU-Quellensteuergesetz*) which provides for a withholding tax as an alternative to an exchange of information if the investor decides to remain anonymous. Such EU Withholding tax is levied on interest payments within the meaning of the EU Withholding Tax Act made by a paying agent located in Austria to an individual resident for tax purposes in another member state of the European Union or certain dependent associated territories. The EU Withholding Tax rate amounts to 35%.

Withholding tax will be deducted upon actual or deemed interest payments as well as upon sale, refund or redemption of debt claims. Further, withholding tax will be deducted - on a *pro rata temporis* basis - in case of changes of the individual's withholding tax status such as changes of his country of residence or transfer of his securities to a non Austrian account.

Deduction of EU Withholding Tax can be avoided if the EU-resident investor provides the paying agent with a certificate drawn up in his name by the tax office of his member state of residence. Such certificate has to indicate, *inter alia*, the name and address of the paying agent as well as the account number of the investor or the identification of the Notes.

The scope of the definition of interest payments for EU Withholding Tax purposes may differ from the scope of interest payments for Austrian income and withholding tax purposes. For example, under certain conditions and subject to the guidelines and information issued by the Austrian Ministry of Finance income from share linked notes, index linked notes or fund linked notes may not be considered as interest for EU Withholding Tax purposes while being interest for Austrian tax purposes. Subject to the guidelines and information issued by the Austrian Ministry of Finance the treatment of structured

notes (certificates) for EU Withholding tax purposes depends on the underlying as well as whether or not the Notes are capital guaranteed. Generally, interest payments are subject to EU Withholding tax, whereas the gains realised upon the redemption or sale are treated as follows:

Notes without capital guarantee (the term "capital guarantee" for such tax purposes is deemed to include guaranteed interest payments) are treated as follows: Interest payments are subject to EU Withholding Tax. Gains from Notes linked to shares, share indices, metals, currencies, exchange rates and the like which are not in advance guaranteed are not subject to EU Withholding Tax. If such gains are derived from Notes linked to bonds or bond indices they are not subject to EU Withholding Tax if the index or basket is comprised of minimum five different bonds of different issuers, if the portion of a single bond does not exceed 80% of the index and, with regard to dynamic Notes, the 80%-threshold is complied with throughout the entire term of the Notes. With regard to Notes linked to funds or fund indices, the difference amounts do not qualify as interest within the meaning of the EU Withholding Tax Act, if the index/fund is composed of minimum five different funds and a portion of each fund does not exceed 80%; in the case of dynamic notes the 80%-threshold must be complied with during the entire term of the Notes. If Notes are linked to mixed indices composed of funds as well as of bonds, gains do not qualify as interest within the meaning of the EU Withholding Tax Act, if the index is composed of minimum five bonds and five funds of different issuers and a portion of a single bond or a single fund does not exceed 80% of the pertaining index.

Relating to capital guaranteed Notes, factually paid interest amounts, whether guaranteed or not, are subject to EU Withholding Tax. Guaranteed parts of difference amounts (between issue price and redemption price respectively sale price) are subject to EU Withholding Tax on the basis of the yield upon issue. Other non-guaranteed income (difference between issuance amount or higher guaranteed part of redemption amount and non-guaranteed parts of redemption amount/sales proceeds) is treated as follows: If the underlying qualifies as bond, interest rate or inflation rate, then the income will qualify as interest within the meaning of the EU Withholding Tax Act and be subject to EU Withholding Tax. If shares, share indices, share baskets, metals, currencies and commodities are referred to as underlyings, the income is not subject to EU Withholding Tax. If funds and fund indices are referred to as underlying, the income is not subject to EU Withholding Tax, provided that the funds do not generate interest income within the meaning of the EU Withholding Tax Act. Should the underlyings qualify as certificates or other securities the proceeds of which do not qualify as interest subject to EU Withholding Tax, then the income derived therefrom is not subject to EU Withholding Tax, too.

As far as Notes are linked to credit events or credit default swaps, such notes should be treated for EU Withholding Tax purposes, in a substance over form approach, by analogy to notes linked to bonds or bond indices.

3.1.4 Other Taxes

There is no transfer tax, registration tax or similar tax payable in Austria by holders of bearer Notes as a consequence of the acquisition, ownership, disposition or redemption of the Notes. The sale and purchase of bearer securities as well as the redemption of Notes is in general not subject to Austrian stamp duty.

The Austrian inheritance and gift tax (*Erbschafts- und Schenkungssteuer*) has been abolished as of August 1, 2008. No such tax is levied anymore upon a transfer of assets by way of inheritance or gifts occurring after July 31, 2008. However, according to the Gift Notification Act 2008 (*Schenkungsmitteilungsgesetz 2008*) gifts have to be notified to the tax authorities within a three-month notification period. There are certain exemptions from such notification obligation, e.g., for gifts among relatives that do not exceed EUR 50,000 within a year or gifts among unrelated persons that do not exceed EUR 15,000 within five years."

3.2 Belgium

Set out below is a summary of certain Belgian tax consequences of acquiring, holding and selling the Notes. This summary is not intended to be an exhaustive description of all relevant Belgian tax considerations and investors should consult their own tax advisers regarding such considerations in relation to their own particular circumstances. The description of certain Belgian taxes set out below is for general information only and does not purport to be comprehensive.

This summary is based on current legislation, published case law and other published guidelines and regulations as in force at the date of this Base Prospectus and remains subject to any future amendments, which may or may not have retroactive effect.

3.2.1 Belgian income tax

For Belgian tax purposes, interest includes any interest paid on the Notes as well as any amount paid in excess of the initial price upon redemption or purchase by the Issuer.

3.2.1.1 *Belgian resident individuals*

For individuals subject to Belgian personal income tax who are not holding Notes as professional investors, all interest payments (as defined in the Belgian Income Tax Code) will be subject to the tax regime described below.

If interest is paid through a Belgian intermediary, such intermediary must levy withholding tax. The current applicable withholding tax rate is 21 per cent (applicable as from January 1, 2012). In addition, a supplementary contribution of 4% is applicable for investors who have received dividend and certain interest income exceeding an aggregate annual total of 13 675 EUR (2012 indexed amount : 20 020 EUR). The investor may opt for withholding of this supplementary contribution. In that case, the withholding tax increased by the supplementary contribution amounts to 25% and can be the final tax. If the investor does not request for the withholding of this supplementary contribution of 4 per cent, the investor will have to report this interest payment in his or her yearly personal income tax return. Application of the local surcharge on interest reported in the yearly personal income tax return is currently subject to discussions and no further comments can be provided in this regard at the time of drafting this summary. If no Belgian intermediary is involved in the interest payment, the investor must report this interest as movable income in his or her personal income tax return. Such income will, in principle, be taxed separately, currently at a rate of 21 per cent (plus the abovementioned supplementary contribution of 4%, if any, and the local surcharge if applicable).

Any capital gain upon a sale of Notes, not allocated to the professional activity of the individual, to a party other than the Issuer, except for that part of the sale price attributable to the pro rata interest component, is in principle tax exempt (unless the tax authorities can prove that the capital gain does not result from the normal management of a non-professional investment). The investor must report the interest as income in his or her personal income tax return. Such income will in principle be taxed separately, currently at a rate of 21 per cent. (plus the abovementioned supplementary contribution of 4%, if any, according to the same conditions as described above, and the local surcharge if applicable), unless it can be demonstrated that such income will be subject to the 21 per cent Belgian withholding tax together with the supplementary contribution of 4% upon maturity.

If a levy has been applied according to European Council Directive 2003/48/EC on taxation of savings income in the form of interest payments (the **Savings Directive**), this levy does not free the Belgian individual from the obligation to declare the interest income in the personal income tax return. However, this levy will be credited against personal income tax, and any excess amount will be refunded. The levy can also apply to interest paid through paying agents of certain dependent or associated territories, including, as the case may be, Curaçao.

Losses on the Notes held as a non-professional investment cannot usually be deducted.

3.2.1.2 *Belgian companies*

Interest paid through an intermediary established in Belgium to a Belgian company subject to corporate income tax will generally be subject to Belgian withholding tax (the current applicable withholding tax rate is 21 per cent.). However, an exemption may apply provided that certain formalities are complied with. For zero or capitalization bonds, the above exemption will not apply, unless the Belgian company and the Issuer are associated companies. If Belgian withholding tax is applicable, Belgian companies are, in principle, entitled to set off Belgian withholding tax against their corporate income tax liability provided certain conditions are fulfilled.

For any Belgian company subject to Belgian corporate income tax, all interest and any gain on a sale of the Notes will form part of that company's taxable profit. The current nominal corporate income tax rate in Belgium is 33.99 per cent.

Losses on the Notes are, in principle, tax deductible.

3.2.1.3 *Other Belgian legal entities subject to the legal entities income tax*

For other Belgian legal entities subject to the legal entities income tax, all interest payments (as defined by the Belgian Income Tax Code) will be subject to withholding tax, currently at a rate of 21 per cent.

If this interest is paid through a Belgian intermediary, such intermediary will have to levy withholding tax, currently at the rate of 21 per cent. No other legal entities income tax will be levied on this income. If no Belgian intermediary is involved, the withholding tax must be declared and paid by the legal entity itself.

Any capital gain on a sale of the Notes to a party not being the Issuer will, in principle, be tax exempt, except for that part of the sale price attributable to the pro rata interest component. Such interest is subject to withholding tax, currently at the rate of 21 per cent. This withholding tax must be paid by the legal entity itself, unless it can demonstrate that the withholding tax will be paid at maturity.

3.2.2 **Tax on stock exchange transactions**

The sale and acquisition of the Notes will be subject to a tax on stock exchange transactions if executed in Belgium through a professional intermediary. The tax is generally due at a rate of 0.09 per cent. on each sale and acquisition separately, with a maximum of €650 per taxable transaction. Exemptions apply for certain categories of institutional investors and non-residents. Transactions on the primary market are no longer subject to the tax on stock exchange transactions.

3.2.3 **EU Savings Directive**

Under the Savings Directive, Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories including Switzerland have adopted similar measures.

The European Commission has proposed certain amendments to the Directive, which may, if implemented, amend or broaden the scope of the requirements described above.

Belgium also entered into an agreement with the Kingdom of the Netherlands in respect of Curaçao concerning the automatic exchange of information regarding savings income in the form of interest payments. Individual investors should seek professional advice to verify what obligation a paying agent in Curaçao is under to withhold any tax from the interest payable by the agent on the Notes under the aforementioned agreement.

3.3 Croatia

The statements herein regarding taxation are based on the laws in force in Croatia and are subject to any subsequent changes in law occurring after such date, which changes could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Notes and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. Prospective purchasers of the Notes are advised to consult their own tax advisers concerning the overall tax consequences of their interest in the Notes.

3.3.1. Taxation of individuals

Tax obligor is a natural person - income earner and heir to all tax obligations arising from income earned by the decedent until his death. The heir is at the same time tax obligor to income accrued from inherited sources of income.

Sources of income are:

- (i) income from salaried employment,
- (ii) income from self-employment,
- (iii) income from property and property rights,
- (iv) income from capital,
- (v) income from insurance,
- (vi) other income.

Resident is a natural person whose residence or habitual abode is in the Republic of Croatia. Resident is also a natural person not having the place of residence or habitual abode in the Republic of Croatia and is employed with a governmental office of the Republic of Croatia and receives salary on that basis.

Non-resident is a natural person not having the place of residence or habitual abode in the Republic of Croatia and earning income in the Republic of Croatia which is taxable according to the Income Tax Act.

Taxable basis i.e. tax base:

- a. for a resident is the total amount of income gained from salaried employment, self-employment, property and property rights, capital, income from insurance and other income gained by the resident in the country and abroad (world income principle) less resident's personal deduction,
- b. for a non-resident is the total amount of income from salaried employment, self-employment, property and property rights, capital, income from insurance and other income gained by the non-resident in the country (domicile land principle) less non-resident's personal deduction depending whether the non-resident is an EU/EEA resident or not.

Income from capital (capital gains) are deemed receipts from interests, withdrawals of assets and use of services charged against income of the current period and shares in profit realised from allocation or option purchase of treasury shares, which are realised in the tax period.

Specifically, as income from capital are deemed gains from dividends and profit sharing on the basis of shares in capital exceeding HRK 12,000 annually. Income tax prepayments on the basis of receipts from dividends or profit sharing on the basis of shares in capital are payable at source at the rate of 12% (up to 40 % depending on the taxable basis) without recognition of personal allowance referred to in Article 36 of the Income Tax Act and non-taxable part of income referred to in Article 10 item 19 of the Income Tax Act (HRK 12,000 annually). Dividend prepayments and prepayment on profit sharing on the basis of shares in capital are taxable at source. The company, payer of dividends or shares in profit is obliged to

assess, withhold and prepay tax simultaneously with the payment of dividends or profit. It should be noted that on top of income tax the income tax surcharge is levied which is defined in the city or municipal regulations depending on the place of residence or habitual abode of the tax obligor. The tax basis for surcharge tax is the assessed income tax and the payer of the receipts is obliged to assess, withhold and prepay tax simultaneously with the payment of receipts.

If the resident receives income from capital from abroad, he is obliged to prepay tax within 8 days from the payment of the receipts at the tax rate of 25%. The amount of income tax paid by the resident abroad is deducted from the income tax in the domicile country unless provided for otherwise by the double tax agreement or multilateral international treaties and agreements. The tax amount paid abroad may be deducted only if it corresponds to the domicile income tax, in which case it is deducted up to the amount of the assessed domicile tax for income earned abroad. The tax paid by the resident abroad may be deducted from the annual assessment of tax on the basis of a tax return filed to the tax authority, on the basis of a foreign tax authority's confirmation of the tax paid abroad. The amounts of income and tax paid abroad are converted into HRK by applying the mean exchange rate of the Croatian National Bank on tax payment date.

If domicile payers pay receipts to non-residents having their place of residence or habitual abode in the countries with which the Republic of Croatia applies a double taxation treaty (residents of treaty countries) then the domicile payers of receipts are obliged to assess, withhold and pay income tax simultaneously with the payment of income in conformity with the provisions of the treaty if the residents of the treaty countries provided to them the required forms duly completed prior to the payment of income.

3.3.2 EU Savings Directive

EU Savings Directive has been implemented by the Croatian General Tax Act and has come into force on 1st July 2013 which is expressly provided in Article 1 of the General Tax Act (Official Gazette 147/08, 18/11, 78/12, 136/12, 73/13).

3.3.3 No gross-up for taxes withheld

Purchasers of the Notes should note that according to the Terms and Conditions neither the Issuer nor any other person will assume any liability for taxes withheld from payments under the Notes, nor make any additional payments in regard of these taxes, i.e. no gross-up will apply if a withholding tax is imposed.

3.3.4 EU Financial Transaction Tax

On the European Union level negotiations are underway in order to implement a harmonized financial transaction tax which might have a negative impact on the receipts deriving from the Notes.

3.3.5 Other Taxes

No stamp, issue or registration taxes or duties will be payable in Croatia in connection with the issuance, delivery or execution of the Notes.

3.3.6 Taxation of corporations

Corporate (profit) tax obligors are:

1. companies and other legal entities and natural persons residing in the Republic of Croatia that are self-employed and perform operations permanently and for the purpose of making the profit, income or revenues or other valuable commercial benefits;
2. local business units of a foreign entrepreneur (non-resident);
3. tax obligor is also a natural person gaining income according to income tax regulations if he/she declares that he/she will pay corporate (profit) tax instead of income tax;

4. tax obligor is also an entrepreneur-natural person, receiving income from trade and operations comparable to trade:

- if the total turnover in the previous tax period exceeded HRK 2,000,000, or
- if the income earned in the previous tax period exceeded HRK 400,000, or
- if the value of his long-term assets exceeds HRK 2,000,000, or
- if he in the previous tax period had more than 15 employees on average;

5. exceptionally, government administration bodies, regional self-administration bodies, local self-administration bodies, Croatian National Bank, institutions of regional self-administration units, institutions of local self-administration units, state institutes, religious communities, political parties, trade unions, chambers, associations, artists associations, voluntary fire-fighting societies, technical culture communities, tourist communities, sports clubs, sports societies and associations, trusts and funds, if they perform commercial activities whose non-taxation would lead to unjustified advantages on the market (they are subject to corporate (profit) tax for such commercial activities). The tax authority will at own initiative or at the proposal of other tax obligors declare in its decision that the above stated persons are obliged to pay corporate (profit) tax for such commercial activities;

6. each entrepreneur not counted to entrepreneurs counted in items 1 through 5 who is not an income tax obligor according to the income tax regulations and whose profit is not taxable elsewhere.

Withholding tax obligors are payers of interests, dividends, shares in profit, royalties for copyrights and other intellectual property rights (copyrights, patents, licences, trademarks, designs or models, production processes, production formulae, drawings, plans, industrial or scientific experience and similar rights) to foreign persons other than natural persons. Withholding tax is also paid on payments for market research services, tax and business consulting or audit services to foreign persons and any other kinds of services paid to persons having their registered seats or places of actual administration or supervision in a non EU Member State in which a general or average nominal corporate (profit) tax rate is less than 12.5% and the state is listed in the List of States passed by the finance minister.

The subject of taxation is the profit determined according to accounting regulations as difference between income and expenses before profit tax, increased or decreased according to the Profit Tax Act.

In case of withholding tax the subject of taxation is the gross amount of payment paid by a payer in the country to a non-resident - foreign recipient.

Corporate (profit) tax rate is 20% and withholding tax rate 15%, except for dividends and shares in profit for which the withholding tax rate is 12%, and 20% for all kinds of services paid to persons having their registered seat or place of actual administration or supervision in a state considered to be a tax haven or a financial centre, except EU Member States and states with which the Republic of Croatia has entered into and is applying a double taxation treaty and the state is listed in the List of States passed by the finance minister.

From the admission of the Republic of Croatia to the European Union the withholding tax for dividends and shares in profit is not payable if dividends or shares in profit are paid to companies having a form to which applies a consolidated taxation system which applies to parent companies and affiliated companies from different EU Member States provided that the relevant recipient of dividends or shares in profit holds in an uninterrupted period of 24 months at least 10% share in the capital of the company that pays dividends or shares in profit.

3.4 Czech Republic

3.4.1 General

The information set out relates only to Czech withholding tax and does not deal with any other Czech tax consequences of the purchase, holding and disposal of the Notes and it does not purport to be a complete analysis of all Czech tax considerations relating to the Notes that may be relevant to a decision to purchase the Notes and, therefore, each prospective investor should consult a professional tax adviser with respect to the tax consequences of an investment in the Notes.

This information is based on tax legislation, published case law, treaties, regulations and published policy, in each case as in force as of the date of this Base Prospectus, and does not take into account any developments or amendments thereof after that date whether or not such developments or amendments have retroactive effect.

For the purposes of this information, it has been assumed that (i) neither of the Issuers has been, as of the date hereof, and the Issuers shall not, after the date of this Base Prospectus, become resident in the Czech Republic for tax purposes and (ii) the interest on the Notes will not be paid through a permanent establishment of an Issuer in the Czech Republic.

3.4.2 Interest Income

3.4.2.1 Czech residents

Legal entities, which are residents of the Czech Republic, generally tax the capital gains in general corporate income tax base (currently at 19% rate for corporations, 5% for mutual, investment and pension funds). Losses on the sale of debt securities are fully tax deductible (except for promissory notes).

Individuals, which are Czech residents, tax the capital gains (defined as the difference between the proceeds from the sale of an item and the cost of its acquisition) as ordinary income. If the securities have been held for more than 6 months, the capital gain is exempt from taxation (provided the securities were not part of the individual's entrepreneurial assets). The capital loss is tax non-deductible.

3.4.2.2 Czech non residents

Income realised by an individual who is not for tax purposes treated as a resident of the Czech Republic or by a person other than an individual who is not for tax purposes treated as a resident of the Czech Republic (**Non-Czech Holders**), whether holding the Notes through a permanent establishment in the Czech Republic or not, from the sale of the Notes to an individual who is for tax purposes treated as a resident of the Czech Republic or to a person (other than an individual) who is for tax purposes treated as a resident of the Czech Republic or to an organisational unit of the Czech state (**Czech Holders**) or to a Non-Czech Holder acquiring the Notes through a permanent establishment in the Czech Republic, will generally be subject to taxation in the Czech Republic, unless:

- (A) the Non-Czech Holder realising that income is resident in a country within the meaning of a double taxation treaty concluded between that country and the Czech Republic, pursuant to the terms of which the right to tax that income is conferred exclusively to the former country;
- (B) the income realised by a Non-Czech Holder is exempt from tax which, in the case of a Non-Czech Holder who is an individual, is generally true if the Notes have been held by the Non-Czech Holder for more than six months prior to their sale and have not been held in connection with a business activity of such Non-Czech Holder.

If income realised by a Non-Czech Holder, whether holding the Notes through a permanent establishment in the Czech Republic or not, from the sale of the Notes is subject to taxation in the Czech Republic (as discussed in the previous paragraph), the Czech Holder or a permanent establishment in the Czech Republic of a Non-Czech Holder paying the income, will be obliged to withhold an amount of one per cent. on a gross basis representing tax security, unless the Non-Czech Holder is for tax purposes a resident of a Member State of the European Union or the EEA, or unless the obligation to withhold is waived or the percentage is reduced based on the tax authority's decision. The tax security withheld is generally creditable against the final tax liability of a Non-Czech Holder with any amount in excess of such liability constituting a tax overpayment which is, subject to certain conditions, refundable to a Non-Czech Holder.

3.4.3 EU Savings Directive

Under European Council Directive 2003/48/EC on the taxation of savings income (Directive), Member States (including the Czech Republic which implemented the Directive into Section 38fa (Paying Agent)

of the Czech Income Tax Act) are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments¹ (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories including Switzerland have adopted similar measures.

The European Commission has proposed certain amendments to the Directive which may, if implemented, amend or broaden the scope of the requirements described above.

3.5 Denmark

The following relates only to Danish withholding tax and does not deal with any other Danish tax implications of acquiring, holding or disposing of the Notes.

As the Issuer is not resident in Denmark, payments of interest or principal on the Notes will not be subject to Danish withholding tax.

As a matter of Danish domestic tax law, payments of interest or principal made by a Danish borrower to a creditor under a loan are, as a rule, not subject to any Danish withholding tax.

However, interest payments and certain principal payments made by a Danish borrower pursuant to an intra-group loan to an affiliated foreign company (as defined in Section 3B of the Danish Tax Control Act of 27 June 2011, as amended) are subject to a Danish withholding tax of 25 per cent., unless they fall under at least one of the following categories under Danish tax law:

- the affiliated foreign creditor has a permanent establishment in Denmark to which such interest income is attributed;
- withholding tax must be waived or reduced under the Interest/Royalty Directive (2003/49/EU), provided that the Danish borrower and the foreign creditor are associated as defined under this Directive for a consecutive period of a minimum of one year, during which the interest payments are effected;
- withholding tax must be waived or reduced under a tax treaty to which Denmark is a party;
- the affiliated foreign creditor is directly or indirectly controlled by a Danish parent company as defined in Section 31 C of the Danish Company Taxation Act for a consecutive period of minimum one year, during which the interest payments are effected;
- the affiliated foreign creditor is controlled by an entity resident in a country that has concluded a tax treaty with Denmark, provided that such entity is subject to CFC taxation on the interest payments pursuant to the CFC taxation rules of that country; or
- the affiliated foreign creditor can demonstrate that the foreign taxation of the interest payments corresponds to at least three-quarters of the Danish corporate tax rate and it does not forward payments of interest to another foreign company which is taxed on such interest payments at a rate of less than three-quarters of the Danish corporate tax rate.

Payments may be subject to Danish withholding tax irrespective of the above if the beneficiary of the payments is not the beneficial owner (e.g. if the beneficiary of the payments reassigns the payments to a person or entity resident in a jurisdiction other than Denmark).

¹ Belgium previously also operated a transitional withholding system but has now opted, by two Royal Decrees dated 27 September 2009 and published in the Belgian State Gazette on 1 October 2009, to provide details of payments of interest in accordance with the EC Council Directive 2003/48/EC, as from 1 January 2010.

3.6 Federal Republic of Germany

The following discussion of certain German tax consequences of buying, holding or disposing of the Notes is based on tax laws, regulations, decisions, judgments and administrative decrees currently in effect, which may be amended or construed differently, potentially with retroactive or retrospective effect. However, this section does not refer to all possible tax considerations which are relevant to the decision of any potential purchaser with respect to buying, holding or disposing of a Note; in particular, it does not refer to specific circumstances which may be relevant to certain purchasers such as church tax (Kirchensteuer) or individual tax privileges. This means that the following text exclusively refers to Notes as an investment as such (unless expressly indicated otherwise) and does not address any persons in their specific tax situation. The information contained in the following section is not intended as and does not purport to be legal or tax advice.

Potential investors in the Notes are therefore advised to consult their own tax advisers as to the German and other tax consequences of buying, holding or disposing of the Notes.

As each Tranche of Notes may be subject to a different tax treatment due to the specific terms of such Tranche of Notes as set out in the respective Final Terms, the following section only provides some very general information on the possible tax treatment. If necessary, the prospectus regarding the respective Tranche of Notes will contain more specific but also general information on the possible tax treatment of the respective Notes. Potential investors should therefore always review the respective Final Terms also with respect to additional tax information.

3.6.1 German taxation of residents

3.6.1.1 Notes held as a private asset

Taxation of interest income

Under German tax law, payment of interest on the Notes to persons who are tax residents of Germany (including persons whose residence, habitual abode, statutory seat or place of management is located in Germany, a "German Holder") and who held the Note as a private asset is subject to German income tax as capital income in the meaning of § 20 German Income Tax Act. From the year 2009, a final taxation ("Abgeltungsteuer") is charged on capital income at an amount of 25% plus 5.5% solidarity surcharge ("Solidaritätszuschlag") thereon, resulting in a total final taxation of 26.375%. Taxable base is the received interest without any deduction of expenses actually incurred. The total capital income of the individual will be deducted by a personal annual exemption ("Sparer-Pauschbetrag") of EUR 801 (EUR 1,602 for married couples filing their tax return jointly). The personal income tax liability regarding the capital income is, in principle, settled by the tax withheld. If no withholding tax was charged on the payment of the interest, the German Holder will have to include this interest income in its tax return. The final taxation will then be charged by way of assessment. The German Holder may also apply for assessment of the capital income based on the general rules if the personal income tax rate of the German Holder is lower than the final taxation rate. In such assessment, the withholding tax will be credited.

Withholding tax on interest income

If the Notes are held in a custodial account maintained by a German Holder with a German branch of a German or foreign bank or financial services institution (a "German Disbursing Agent"), which pays or credits the interest, a 25% withholding tax ("Kapitalertragsteuer") on interest payments, plus a 5.5% solidarity surcharge ("Solidaritätszuschlag") thereon will be levied, resulting in a total withholding tax charge of 26.375% on the gross amount of interest paid. Accrued Interest paid by a German Holder upon the purchase of the Notes may be set-off against the amount of interest income received by such German Holder and, under certain circumstances, may reduce the amount subject to withholding tax.

If the Noteholder is an individual to whom income from the Notes constitutes income from a capital investment and such Noteholder has filed a certificate of exemption ("Freistellungsauftrag") with the German Disbursing Agent, no tax will be withheld by the German Disbursing Agent to the extent that the

interest income derived from the Notes together with other investment income administered by the German Disbursing Agent does not exceed the maximum exemption amount shown on this certificate. Similarly, no tax will be withheld if the Noteholder submits to the German Disbursing Agent a certificate of non-assessment ("*Nichtveranlagungsbescheinigung*") issued by the competent local tax office.

Disposal or redemption of the Notes

Capital gains resulting from the disposal or redemption of Notes (or, as the case may be, from the payment at maturity of the Notes) realised by individual German Holders holding the Notes as private assets are taxable as capital gains. They are also subject to the final taxation ("*Abgeltungsteuer*") at an amount of 25% plus 5.5% solidarity surcharge ("*Solidaritatzuschlag*") thereon, resulting in a total final taxation of 26.375%.

Base for this taxation is the capital gain, which is in general the difference between the proceeds from the disposal or redemption after deduction of expenses directly related to the disposal and the cost of acquisition. The taxable capital gains from Notes issued in a currency other than Euro also include any currency gains (and losses). In case of a physical settlement of certain Notes which grant the Issuer or the individual Noteholder the right to opt for a physical delivery of a predetermined number of underlying securities instead of a (re)payment in cash, generally no taxable capital gain may result, because the acquisition costs of the Notes are regarded as acquisition costs of the underlying securities received by the individual Noteholder upon physical settlement. Therefore, only losses can arise from the deduction of directly related expenses.

Capital losses in respect of the Notes held as a private asset may only be set-off against capital income within the same financial year and in subsequent years. However, if losses result from Notes held in a custodial account maintained by a German Disbursing Agent, initially the German Disbursing Agent will take these losses into account when calculating the withholding tax. In case the losses can not be compensated in the current year the losses will be set off against the income of the subsequent year. Upon request of the German Holder the German Disbursing Agent will provide a certificate of all losses, which could not be set off during the current year within the custodial account. This certificate enables the German Holder to claim a deduction within the assessment of capital income.

Withholding tax on disposal or redemption of the Notes

Like the treatment of interest income a withholding tax at an amount of 25%, plus a 5.5% solidarity surcharge ("*Solidaritatzuschlag*") thereon (in total 26.375%) will be levied on capital gains from disposal or redemption of the Notes, if the Note is held in a custodial account maintained by a German Disbursing Agent. A withholding tax will not be charged if the German Holder has provided a certificate of exemption ("*Freistellungsauftrag*") or a certificate of non-assessment ("*Nichtveranlagungsbescheinigung*") to the German Disbursing Agent.

Base for this taxation is again the difference between the proceeds from the disposal or redemption after deduction of expenses directly related to the disposal and the cost of acquisition. However, in case the Notes have not been kept in a custodial account with the same German Disbursing Agent since the time of acquisition, upon the disposal, redemption or repayment the withholding applies to 30% of the disposal proceeds, unless the current Disbursing Agent has been notified of the actual acquisition costs of the Notes by the previous Disbursing Agent or by a statement of a bank or financial services institution within the EEA or certain other countries in accordance with art. 17 para. 2 of the European Council Directive 2003/48/EC. Furthermore, the special provision for a physical settlement of certain Notes applies for purposes of the withholding. Therefore, in principle, redemption accompanied by physical settlement may not result in a withholding tax.

3.6.1.2 Notes held as business assets or by a corporate body

If the Notes are held as business assets or by a corporate body all income received from the Notes (interest as well as capital gains) is subject to German income tax or German corporate income tax. The income from the Notes will be taxed at the German Noteholder's individual tax rate. The income tax or the corporate income tax is not settled by the tax withheld. Withholding tax and the solidarity surcharge

thereon might be credited as prepayments against the German Holder's final tax liability for German personal or corporate income tax purposes and the respective solidarity surcharge, or, if in excess of such final tax liability, refunded upon application.

If the Notes are held in a German business establishment for trade tax purposes, interest income derived from the Notes will also be subject to trade tax on income, which is a municipal tax levied whose effective tax rate depends on the trade tax factor applied by the relevant municipality.

The taxation of the investment in the Notes might be calculated on an accruals basis. The income might therefore be taxed before the German Holder receives a payment from the Notes.

In general, withholding tax will be deducted in accordance with the same provisions as the withholding with respect to Notes held as private assets. The withholding tax on capital gains might not apply under certain circumstances and for certain capital income if the Notes are held by a tax resident corporate or if the Notes are held by an individual or by a partnership as part of the business assets as long as the German Holder provides the German Disbursing Agent with a certificate of the character of the Notes as business assets.

3.6.2 German taxation of non-residents

Income derived from the Notes by persons who are not tax residents of Germany (**Non-German Holders**) is in general exempt from German income or corporate income taxation, and no withholding tax shall be withheld (even if the Notes are held with a German Disbursing Agent), provided (i) the Notes are not held as business assets of a German permanent establishment of the Non-German Holder, including a permanent representative, or fixed base of the Noteholder, (ii) the income derived from the Notes does not otherwise constitute German source income (such as income from the letting and leasing of certain German situs property), (iii) the Notes or coupons are not presented for payment at the offices of a German branch of a German or foreign bank or financial services institution, that do not hold in custody or manage the Notes, in an over-the-counter-transaction ("*Tafelgeschäft*") by a person who is not a foreign bank or financial service institution and, (iv) in the event that the Notes are held in a custodial account maintained by a German Disbursing Agent, the Noteholder complies with the applicable procedural rules under German law and provides evidence of the fact that the Notes are not subject to taxation in Germany. Unjustified retained withholding tax shall be refunded upon request to the Local Tax Office ("*Finanzamt*") to whom the withholding tax was paid.

If the interest is subject to German taxation (for example, if the Notes are held as business assets of a German permanent establishment of a Non-German Holder), such holder is subject to a tax treatment similar to that described above under the caption "German Taxation of Residents". The withholding tax may be refunded based on an assessment to tax or under an applicable tax treaty.

If the Notes are offered by the Issuer other than in the Federal Republic of Germany, information relating to withholding tax may be disclosed in the applicable Final Terms or, in the event of an offer which is made after completion of the applicable Final Terms, in a supplement to this Base Prospectus.

3.6.3 European Union Directive on the Taxation of Savings Income

On 3 June 2003 the Council of the European Union (**ECOFIN**) approved a directive regarding the taxation of interest income. Accordingly, each EU Member State must provide to the tax authorities of the other Member States details of the payment of interest made by a person in its jurisdiction to any individual resident in the other relevant EU Member State. The directive has to be applied by the Member States since 1 July 2005. The directive came into effect in German law on 1 July 2005.

For a transitional period, Austria and Luxembourg may opt instead to withhold tax from interest payments within the meaning of the directive at a rate of 20% till 30 June 2011 and 35% from 1 July 2011 onwards. As of 1 January 2010, Belgium applies the automatic exchange of information under the Savings Directive instead of withholding taxes.

3.6.4 Gift or Inheritance Taxation

No estate, inheritance or gift taxes with respect to any Notes will arise under the laws of Germany, if, in the case of estate and inheritance taxes, both the decedent and the beneficiary, and, in the case of gift taxes, both the donor and the donee, are tax non-residents and are not deemed to be a tax resident of Germany at the time of the transfer and such Notes are not attributable to a permanent establishment in Germany. In the case of a decedent, donor or heir who is a German national, this only applies if such person has been a non-resident of Germany for more than five consecutive years.

3.6.5 Stamp Duty

No stamp, issue, registration or similar taxes or duties will be payable in Germany in connection with the issuance, delivery or execution of the Notes. Currently, net assets tax is not levied in Germany.

3.7 Finland

The following is a summary based on current Finnish tax laws relating only to persons who are generally tax liable in Finland (i.e. residents of Finland for tax purposes) and regarding the Finnish withholding tax treatment of payments in respect of the Notes. Investors are advised to seek professional advice relating to tax consequences in respect of acquiring, holding or disposal of Notes.

As the Issuer is not resident in Finland for tax purposes, there is no Finnish withholding tax (*fi. lähdevero*) applicable to the payments made by the Issuer in respect of the Notes. However, Finland operates a system of preliminary taxation (*fi. ennakonpidätysjärjestelmä*) to secure payment of taxes in certain circumstances. In the context of the Notes, a tax of 30 per cent will be deducted and withheld from all payments that are treated as interest or as compensation comparable to interest (normally including also gains arising from the redemption (but not the disposal) of the Notes), when such payments are made to individuals by certain Finnish financial institutions when acting as Paying Agents. Such preliminary tax (*fi. ennakonpidätys*) will be used for the payment of the individual's final taxes (i.e. they will be credited against the individual's final tax liability).

3.8 Hungary

The following is a general discussion of certain Hungarian tax consequences relating to the acquisition and ownership of Notes. It does not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase Notes, and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. It is based on laws currently in force in Hungary and as applied on the date of this Base Prospectus, which are subject to change, possibly with retroactive effect. Prospective purchasers of Notes are advised to consult their own tax advisers as to the tax consequences of the purchase, ownership and disposition of Notes, including the effect of any state or local taxes, under the tax laws of Hungary and each country of which they are residents.

3.8.1 Withholding tax (foreign resident individual Noteholders)

Payments of interest on and capital gains realised upon the redemption or sale of publicly offered and traded Notes (**Interest Income**) are taxed at 16 per cent. Notes listed on a regulated market of an EEA Member State are considered publicly offered and traded Notes.

The proceeds paid on privately placed Notes which are not listed on a regulated market of an EEA Member State is considered as other income (**Other Income**) which is part of the individual's aggregated income and is taxed at 20.32 per cent. and may also be subject to a health care contribution of 27 per cent. Capital gains realised on the sale of such Notes is considered, as a general rule, capital gains income (**Capital Gains Income**). The tax rate applicable to Capital Gains Income is 16 per cent. while a health care contribution of 14 per cent. (capped at 450,000 Hungarian Forint (**HUF**)) may also be payable on the basis of Capital Gains Income. Subject to certain conditions, individual Noteholders realising Capital Gains Income in a transaction entered into with a Hungarian or EEA investment firm can opt to treat their Capital Gains Income from such transaction as 'Income from controlled capital

market transaction' which is subject to Hungarian personal income tax at a rate of 16 per cent. and no health care contribution is payable.

Foreign resident individual Noteholders are subject to tax in Hungary if they realise interest income from Hungarian sources or income that is otherwise taxable in Hungary if the international treaty or reciprocity so requires. Interest income should be treated as having a Hungarian source where:

- (1) the Issuer is resident in Hungary for tax purposes;
- (2) the Issuer has a permanent establishment in Hungary and interest income realised on the basis of the Notes is paid by the Hungarian permanent establishment of the Issuer;
- (3) the foreign resident individual Noteholder has a permanent establishment in Hungary to which the interest income is attributable.

The tax on payments of the Interest Income, Capital Gains Income and Other Income is to be withheld by the "Payor" (*kifizető*) (as defined below).

Pursuant to Act XC11 of 2003 on the Rules of Taxation (**ART**) a payor (**Payor**) means a Hungarian resident legal person, organization, or private entrepreneur who provides taxable income, irrespective of whether such payment is made directly or through an intermediary (post office, credit institution). In respect of interest, Payor shall mean the borrower of a loan or, the issuer of a note, including, the investment service provider or credit institution providing the interest instead of it. In respect of revenues originating from a transaction concluded with the involvement of a licensed stockbroker, Payor shall mean such stockbroker. The Hungarian permanent establishment of a foreign resident entity is also considered as a Payor.

Please note that the provisions of applicable treaties on the avoidance of double taxation, if any, should be considered when assessing the Hungarian tax liabilities of a foreign resident individual Noteholder. Such treaty may fully exempt Noteholders from withholding tax or may reduce the applicable withholding tax rate.

Interest, as defined by Schedule 7 of the ART (which implements the provisions of the Savings Directive), realised on Notes by citizens of any other Member State of the European Union is not subject to Hungarian tax where a paying agent based in Hungary provides data to the Hungarian state tax authority on the basis of Schedule 7 of the ART.

Subject to the applicable treaty on the avoidance of double taxation, a foreign resident individual Noteholder who does not have a permanent establishment in Hungary is not subject to tax in Hungary on the basis of realising Capital Gains Income or 'Income from controlled capital market transaction' from Hungary since such income is not considered as Hungarian source income.

3.8.2 Withholding tax (foreign resident corporate Noteholders)

Interest on Notes paid to foreign resident corporate Noteholders, who do not have a permanent establishment in Hungary, by resident legal entities or other persons and any capital gains realised by such foreign resident Noteholders on the sale of Notes are not subject to tax in Hungary.

The tax liability of a foreign resident corporate Noteholder, which has a permanent establishment in Hungary is limited, in general, to the income from business activities realised through its Hungarian permanent establishment.

3.8.3 Taxation of Hungarian resident individual Noteholders

Act CXVII of 1995 on Personal Income Tax (the **Personal Income Tax Act**) applies to the tax liability of Hungarian and foreign private individuals. The tax liability of Hungarian resident private individuals covers the worldwide income of such persons.

According to the provisions of the Personal Income Tax Act, in the case of individual Noteholders, Interest Income is the income paid as interest and the capital gains realised upon the redemption or the sale of publicly offered and publicly traded debt securities. Notes listed on a regulated market of an EEA Member State are considered publicly offered and traded Notes. The withholding tax on Interest Income is currently 16 per cent.

The proceeds paid on privately placed Notes which are not listed on a regulated market of an EEA Member State are considered as Other Income which is taxable as part of the individual's aggregated income and is taxed at 20.32 per cent. and may also be subject to a health care contribution of 27 per cent. Capital gains realised on the sale or redemption of such Notes is considered, as a general rule, Capital Gains Income. The tax rate applicable to Capital Gains Income is 16 per cent., while a health care contribution of 14 per cent. (capped at HUF450,000) may also be payable on the basis of Capital Gains Income.

Subject to certain conditions, individual Noteholders realising Capital Gains Income in a transaction entered into with a Hungarian or EEA investment firm can opt to treat their Capital Gains Income from such transaction as 'Income from controlled capital market transaction' which is subject to Hungarian personal income tax at a rate of 16 per cent. and no health care contribution is payable in relation to such Capital Gains Income.

The rules of the Personal Income Tax Act may in certain circumstances impose a requirement upon the "Payor" (*kifizető*) (as defined below) to withhold tax on the interest payments to individual Noteholders.

Pursuant to the ART the definition of a Payor covers a Hungarian resident legal person, other organisation, or private entrepreneur that (who) provides taxable income, irrespective of whether such payment is made directly or through an intermediary (post office, credit institution). In respect of interest, Payor shall mean the borrower of a loan or the issuer of a note including, the investment service provider or credit institution providing the interest instead of it. In respect of revenues originating from a transaction concluded with the involvement of a licensed stockbroker, Payor shall mean such stockbroker. In respect of income that is earned in a foreign country and taxable in Hungary, Payor shall mean the "paying agent" (*megbízott*) (legal person, organization, or private entrepreneur) having tax residency in Hungary, except in cases where the role of a financial institution is limited to performing the bank transfer or payment

3.8.4 Taxation of Hungarian resident corporate Noteholders

Under Act LXXXI of 1996 on Corporate Tax and Dividend Tax (the **Corporation Tax Act**), Hungarian resident taxpayers have a full, all-inclusive tax liability. In general, resident entities are those established under the laws of Hungary (i.e. having a Hungarian registered seat). Foreign persons having their place of management in Hungary are also considered as Hungarian resident taxpayers.

In general, interest and capital gains realised by Hungarian resident corporate Noteholders on Notes are taxable in the same way as the regular profits of the relevant Noteholders. The general corporation tax rate in Hungary is 10 per cent. up to the first HUF500 million of the taxpayer's annual profit and 19 per cent. for the part above this threshold.

Financial institutions, financial enterprises, insurance companies and investment enterprises may be subject to local business tax and innovation tax on the basis of the proceeds realised on Notes.

3.9 Ireland

The following is a summary of the principal Irish withholding tax consequences of ownership of the Notes for individuals who are resident and ordinarily resident in Ireland for tax purposes and for companies that are resident in Ireland for tax purposes. It is based on the laws and practice of the Revenue Commissioners currently in force in Ireland as in effect on the date of this Base Prospectus and may be subject to change. The statements in this summary are based on the understanding that the Notes will be treated as debt for Irish tax purposes. It deals with Noteholders who beneficially own their Notes as an investment. Particular rules not discussed below may apply to certain classes of taxpayers holding Notes, including dealers in Notes and trusts. The summary does not constitute tax or legal advice and the comments below are of a general nature only. Prospective investors in the Notes should consult their professional advisers on the tax implications of the purchase, holding, redemption or sale of the Notes and the receipt of payments thereon under any laws applicable to them.

3.9.1 Irish Withholding Tax

Tax at the standard rate of income tax (currently 20 per cent.) is required to be withheld from payments of Irish source interest. The Issuer will not be obliged to withhold Irish income tax from payments of interest on the Notes so long as such payments do not constitute Irish source income. Interest paid on the Notes should not be treated as having an Irish source unless:

- (i) the Issuer is resident in Ireland for tax purposes; or
- (ii) the Issuer has a branch or permanent establishment in Ireland, the assets or income of which is used to fund the payments on the Notes; or
- (iii) the Issuer is not resident in Ireland for tax purposes but the register for the Notes is maintained in Ireland or (if the Notes are in bearer form) the Notes are physically held in Ireland.

It is anticipated that, (i) the Issuer is not and will not be resident in Ireland for tax purposes; (ii) the Issuer will not have a branch or permanent establishment in Ireland; (iii) that bearer Notes will not be physically located in Ireland; and (iv) the Issuer will not maintain a register of any registered Notes in Ireland.

3.9.2 Encashment Tax

In certain circumstances, Irish tax will be required to be withheld at the standard rate of income tax (currently 20 per cent.) from any interest paid on Notes issued by a company not resident in Ireland, where such interest is collected or realised by a bank or encashment agent in Ireland on behalf of any Noteholder who is Irish resident. Encashment tax does not apply where the Noteholder is not resident in Ireland and has made a declaration in the prescribed form to the encashment agent or bank.

3.10 Italy

The statements herein regarding taxation are based on the laws in force in Italy as at the date of this Programme and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Notes and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. Prospective purchasers of the Notes are advised to consult their own tax advisers concerning the overall tax consequences of their ownership of the Notes.

3.10.1 Tax treatment of the Notes

Legislative Decree No. 239 of 1 April 1996, as subsequently amended (**Decree 239**), provides for the applicable regime with respect to the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price) from notes falling within the category of

bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) issued, *inter alia*, by non-Italian resident issuers.

3.10.1.1 Italian resident Noteholders

Where an Italian resident Noteholder is (a) an individual not engaged in an entrepreneurial activity to which the Notes are connected (unless he has opted for the application of the "*risparmio gestito*" regime – see under "*Capital gains tax*", below); (b) a non-commercial partnership; (c) a non-commercial private or public institution; or (d) an investor exempt from Italian corporate income taxation, then interest, premium and other income relating to the Notes, accrued during the relevant holding period, are subject to a withholding tax referred to as *imposta sostitutiva*, levied at the rate of 20 per cent. If the Noteholders described under (a) and (c) above are engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* applies as a provisional tax.

Where an Italian resident Noteholder is a company or similar commercial entity or a permanent establishment in Italy of a foreign company to which the Notes are effectively connected and the Notes are deposited with an authorised intermediary, interest, premium and other income from the Notes will not be subject to *imposta sostitutiva*, but must be included in the relevant Noteholder's income tax return and are therefore subject to general Italian corporate taxation (and, in certain circumstances, depending on the "status of the Noteholder, also to IRAP – the regional tax on productive activities).

Under the current regime provided by Law Decree No. 351 of 25 September 2001 converted into law with amendments by Law No. 410 of 23 November 2001, as clarified by the Italian Ministry of Economic Affairs and Finance through Circular No. 47/E of 8 August 2003, payments of interest premium or other proceeds in respect of the Notes made to Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and article 14-bis of Law No. 86 of 25 January 1994 are subject neither to substitute tax nor to any other income tax in the hands of a real estate investment fund.

If the investor is resident in Italy and is an open-ended or closed-ended investment fund (the **Fund**) or a SICAV, subjects to supervisory measures, and the Notes are held by an authorised intermediary, interest, premium and other income accrued during the holding period on the Notes will not be subject to *imposta sostitutiva*, but must be included in the management results of the Fund accrued at the end of each tax period.'

Where an Italian resident Noteholder is a pension fund (subject to the regime provided for by Article 17 of the Legislative Decree No. 252 of 5 December 2005) and the Notes are deposited with an authorised intermediary, interest, premium and other income relating to the Notes and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to an 11 per cent. substitute tax.

Pursuant to Decree 239, *imposta sostitutiva* is applied by banks, SIMs, fiduciary companies, SGRs, stockbrokers and other entities identified by a decree of the Ministry of Economy and Finance (each an **Intermediary**).

An Intermediary must (a) be resident in Italy or be a permanent establishment in Italy of a non-Italian resident financial intermediary; and (b) intervene, in any way, in the collection of interest or in the transfer of the Notes. For the purpose of the application of the *imposta sostitutiva*, a transfer of Notes includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Notes or in a change of the Intermediary with which the Notes are deposited.

Where the Notes are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any entity paying interest to a Noteholder.

Where an Italian resident Noteholder is a company or similar commercial entity and the Notes are deposited with an authorised intermediary, interest, premium and other income from the Notes will not

be subject to *imposta sostitutiva*, but must be included in the relevant Noteholder's income tax return and are therefore subject to general Italian corporate taxation.

3.10.1.2 *Non-Italian resident Noteholders*

No Italian *imposta sostitutiva* is applied on payments to a non-Italian resident Noteholder of interest or premium relating to the Notes provided that, if the Notes are held in Italy, the non-Italian resident Noteholder declares itself to be a non-Italian resident according to Italian tax regulations.

3.10.2 *Atypical securities*

Interest payments relating to Notes that are not deemed to fall within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli simili alle obbligazioni*) may be subject to a withholding tax, levied at the rate of 20 per cent. For this purpose, debentures similar to bonds are securities that incorporate an unconditional obligation to pay, at maturity, an amount not lower than their nominal value.

The 20 per cent. withholding tax mentioned above does not apply to interest payments made to a non-Italian resident Noteholder and to an Italian resident Noteholder which is (a) a company or similar commercial entity (including the Italian permanent establishment of foreign entities), (b) a commercial partnership, or (c) a commercial private or public institution.

3.10.3 *Certificates*

Pursuant to Italian Legislative Decree 21st November, 1997, No. 461 payments in respect of Notes falling within the category of Certificates, qualifying as securitised derivative financial instruments, received by noteholders as well as capital gains realised by Italian resident individuals (not engaged in entrepreneurial activities to which the Italian Certificates are connected) on any sale or transfer for consideration of the Notes or redemption or exercise thereof are subject to a 20% capital gain tax ("*imposta sostitutiva*").

It must however be noted that, according to a different interpretation of the applicable provisions in force, the Certificates, in case representing debt instruments implying a "use of capital", could be qualified as "atypical security".

3.10.4 *Payments made by a non resident Guarantor*

With respect to payments made to Italian resident Noteholders by a non Italian resident guarantor, in accordance with one interpretation of Italian tax law, any such payment made by the Italian non resident guarantor could be treated, in certain circumstances, as a payment made by the relevant Issuer and would thus be subject to the tax regime described in the previous paragraphs of this section.

3.10.5 *Capital gains tax*

Any gain obtained from the sale or redemption of the Notes would be treated as part of the taxable income (and, in certain circumstances, depending on the "status" of the Noteholder, also as part of the net value of production for IRAP purposes) if realised by an Italian company or a similar commercial entity (including the Italian permanent establishment of foreign entities to which the Notes are connected) or Italian resident individuals engaged in an entrepreneurial activity to which the Notes are connected.

Where an Italian resident Noteholder is an individual not holding the Notes in connection with an entrepreneurial activity and certain other persons, any capital gain realised by such Noteholder from the sale or redemption of the Notes would be subject to an *imposta sostitutiva*, levied at the current rate of 20 per cent. Noteholders may set off losses with gains.

In respect of the application of the *imposta sostitutiva*, taxpayers may opt for one of the three regimes described below.

Under the tax declaration regime (*regime della dichiarazione*), which is the default regime for Italian resident individuals not engaged in entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss, realised by the Italian resident individual Noteholder holding Notes not in connection with an entrepreneurial activity pursuant to all sales or redemptions of the Notes carried out during any given tax year. Italian resident individuals holding Notes not in connection with an entrepreneurial activity must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance of income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years.

As an alternative to the tax declaration regime, Italian resident individual Noteholders holding the Notes not in connection with an entrepreneurial activity may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale or redemption of the Notes (the *risparmio amministrato* regime). Such separate taxation of capital gains is allowed subject to (a) the Notes being deposited with Italian banks, SIMs or certain authorised financial intermediaries, and (b) an express election for the *risparmio amministrato regime* being punctually made in writing by the relevant Noteholder. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of the Notes (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Noteholder or using funds provided by the Noteholder for this purpose. Under the *risparmio amministrato regime*, where a sale or redemption of the Notes results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the *risparmio amministrato regime*, the Noteholder is not required to declare the capital gains in its annual tax return.

Any capital gains realised by Italian resident individuals holding the Notes not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including the Notes, to an authorised intermediary and have opted for the so-called "*risparmio gestito*" regime will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 20 per cent. substitute tax, to be paid by the managing authorised intermediary. Under the *risparmio gestito* regime, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the *risparmio gestito regime*, the Noteholder is not required to declare the capital gains realised in its annual tax return.

Any capital gains realised by a Noteholder which is an Italian Open ended or a closed-ended investment fund or a SICAV, subjects to supervisory measures, will be included in the result of the relevant portfolio accrued at the end of the tax period..

Any capital gains realised by a Noteholder which is an Italian pension fund (subject to the regime provided for by Article 17 of the Legislative Decree No. 252 of 5 December 2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 11 per cent. substitute tax.

Capital gains realised by Italian resident real estate funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998 or pursuant to Article 14-bis of Italian Law No. 86 of 25 January 1994, on the Notes are not taxable at the level of the real estate funds.

Capital gains realised by non-Italian resident Noteholders from the sale or redemption of the Notes are not subject to *imposta sostitutiva*, provided that the Notes (i) are transferred on regulated markets, or (ii) if not transferred on regulated markets, are held outside Italy.

3.10.6 *Inheritance and gift taxes*

Pursuant to Law Decree No. 262 of 3 October 2006, converted into Law No. 286 of 24 November 2006, as subsequently amended, the transfers of any valuable asset (including shares, bonds or other securities) as a result of death or donation are taxed as follows:

- (a) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent. on the value of the inheritance or the gift exceeding EUR1,000,000;
- (b) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree are subject to an inheritance and gift tax at a rate of 6 per cent. on the entire value of the inheritance or the gift. Transfers in favour of brothers/sisters are subject to the 6 per cent. inheritance and gift tax on the value of the inheritance or the gift exceeding EUR100,000; and
- (c) any other transfer is, in principle, subject to an inheritance and gift tax applied at a rate of 8 per cent. on the entire value of the inheritance or the gift.

3.10.7 *Registration tax*

Contracts relating to the transfer of securities are subject to the registration tax as follows: (i) public deeds and notarised deeds are subject to fixed registration tax at rate of €168; and (ii) private deeds are subject to registration tax only in case of use or voluntary registration.

3.10.8 *Financial Transaction Tax*

Art 1, § 491 to § 500 of Law 24 December 2012 n. 228 published in the Italian Official Gazette on 29 December 2012, introduced a tax on the transfer of Italian shares, and on the conclusions of derivatives and the transfer of securitised derivatives (such as covered warrants, warrants and certificates) whose underlying is mainly represented by Italian shares.

With respect to derivatives, (i) transactions in derivatives instruments, as defined by Art. 1(3) of Legislative Decree No. 58 of 24 February 1998 (the “**Italian Financial Act**”), connected to or the value of which is mainly linked to shares and other equity-like financial instruments issued by the Italian resident companies (collectively, the “**Italian Shares**”); and (ii) the transfer of securities, as defined by Art.1(1-bis), letter c) and d) of the Italian Financial Act, giving right to the holders to acquire or sell mainly Italian Shares or which determine a cash settlement mainly by reference to Italian Shares, are subject, to the tax.

Tax applies at fixed rates that vary depending on the financial instrument and on the value of the transaction. The fixed rate tax is applied regardless of where the transaction is executed and the residence of the parties. In case of physical settlement, the tax is also payable upon the transfer of ownership rights on the underlying instruments (if Italian Shares), in accordance with rules provided for equities instruments.

The above mentioned tax shall apply with respect to derivatives transactions as of 1 July 2013 and is due by each of the counterparties to the transaction.

3.10.9 *EU Savings Directive*

Under EC Directive 2003/48/EC on the taxation of savings income (the **EU Savings Directive**), Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories including Switzerland have adopted similar measures.

The European Commission has proposed certain amendments to the Directive, which may, if implemented, amend or broaden the scope of the requirements described above.

Implementation in Italy of the EU Savings Directive

Italy has implemented the Savings Directive through Legislative Decree No. 84 of 18 April 2005 (Decree No. 84). Under Decree No. 84, subject to a number of important conditions being met, in the case of interest paid to individuals which qualify as beneficial owners of the interest payment and are resident for tax purposes in another Member State, Italian qualified paying agents shall not apply the withholding tax and shall report to the Italian Tax Authorities details of the relevant payments and personal information on the individual beneficial owner. Such information is transmitted by the Italian tax authorities to the competent foreign tax authorities of the State of residence of the beneficial owner.

3.11 Norway

The following is a summary of certain Norwegian tax consequences for holders of the Notes who are resident in Norway for tax purposes. The summary is based on legislation as at the date of this document and is intended to provide general information only. The tax treatment of each Noteholder partly depends on the holder's specific situation. Each investor should consult a tax adviser as to the tax consequences relating to their particular circumstances resulting from holding Notes.

Any changes to applicable tax laws may have a retrospective effect.

3.11.1 Taxation of Noteholders resident in Norway

3.11.1.1 Taxation of return on the Notes prior to disposal or redemption

Any kind of return received on the Notes prior to disposal or redemption is taxable as "ordinary income" subject to the flat rate of 27 per cent. For taxpayers with a statutory obligation to keep accounting records interest is taxed on an accruals basis (i.e. regardless of when the return is actually paid). For other taxpayers accrued interest is as the main rule taxed when the interest is actually paid.

3.11.1.2 Taxation upon disposal or redemption of the Notes

Redemption at the end of the term as well as prior disposal is treated as realisation of the Notes and will trigger a capital gain or loss. Capital gains will be taxable as "ordinary income", subject to the flat rate of 27 per cent. Losses will be deductible in the Noteholder's "ordinary income", taxed at the same tax rate.

Any capital gain or loss is computed as the difference between the amount received by the Noteholder on realisation and the cost price of the Notes. The taxable gain is calculated in Norwegian kroner. The amounts received are converted to Norwegian kroner at the foreign exchange rate at the time of realisation. The cost price is equal to the price for which the Noteholder acquired the Notes, at the foreign exchange rate at the time of acquisition. Costs incurred in connection with the acquisition and realisation of the Notes may be deducted from the Noteholder's taxable income in the year of the realisation.

3.11.1.3 Taxation of gains and deduction of losses regarding foreign currency exchange

Any gains or losses derived from foreign currency exchange are taxable in the income year of realisation of the Note.

Special rules regarding deduction of unrealised losses on foreign currency claims apply for taxpayers with a statutory obligation to keep accounting records. For short dated Notes, with a maturity date within less than a year, and long-term Notes, with a maturity date of more than a year, any unrealised loss is tax deductible. The loss is calculated as fair market value less the cost price. For long-term Notes such taxpayer shall enter as income any unrealised foreign exchange gains related to the Note, to the same extent that the taxpayer has deducted a unrealised foreign exchange loss on the same Note in previous years. Gains or loss are calculated as fair market value less the cost price.

3.11.1.4 Tax credit

If the Note issuer's resident state applies withholding tax on interest payments, and the application of such withholding tax is not in conflict with a tax treaty between the Note issuer's resident state and Norway, the holder of the Note may claim tax credit in Norway, i.e. deduct taxes paid in that other state from taxes payable in Norway. Limitations may apply.

3.11.1.5 Net wealth taxation

The value of the Notes at the end of each income year will be included in the computation of the Noteholder's taxable net wealth for municipal and state net wealth tax purposes. Listed bonds are valued at their quoted value on 1 January in the assessment year, while non-listed bonds are valued at their estimated market value on 1 January in the assessment year. The marginal tax rate is currently 1.0 per cent.

Limited companies and similar entities are not subject to net wealth taxation.

3.11.1.6 Transfer taxes etc. – VAT

There are currently no Norwegian transfer taxes, stamp duty or similar taxes connected to purchase, disposal or redemption of the Notes. Further, there is no VAT on transfer of the Notes.

3.12 Poland

The following summary is not intended to be a complete analysis of the tax consequences under Polish law as a result of the acquisition, ownership, sale, redemption or transfer without consideration of the Notes by investors. This statement must not be understood to be tax advice. It is based on the Polish tax law and its interpretation in effect as of the date of this prospectus that may be subject to changes. Such changes may be enacted also retroactively and may negatively affect the tax treatment as described below. This description does not purport to be complete with respect to the tax information that may be relevant for investors due to their personal circumstances. Potential investors should, therefore, consult their professional tax advisers on the tax consequences of such acquisition, ownership, sale, redemption or transfer without consideration, including specifically the tax consequences under Polish law, the law of their jurisdiction of residence and any tax treaty between Poland and their jurisdiction of residence.

The following is a brief summary of the principal Polish tax consequences for the Noteholders.

3.12.1 Corporate - residents

Income earned by a Polish resident corporate, whether interest or proceeds from the sale of the Notes, would be accumulated with other incomes and losses in the given tax year and, as ordinary income, subject to the general 19 per cent. income tax rate. As a rule, for Polish income tax purposes interest is recognised as revenue on a cash basis, i.e. when received and not when accrued. In respect of the capital gains, the costs of acquisition of securities will be recognised at the time the revenue is achieved.

The proceeds are not subject to Polish withholding tax.

Any withholding tax incurred outside Poland (including countries which have not concluded any tax treaty with Poland – e.g. Curaçao), up to an amount equal to the tax paid abroad, but not higher than 19 per cent. of the interest amount, can be deducted from the Polish tax liability.

According to the Double Tax Treaty concluded between Poland and France, as a rule, there is no French withholding tax on interest payable from France to a Polish entity. Also capital gains earned in France by a Polish resident should, in principle, be taxable only in Poland.

3.12.2 Natural persons - residents

Income – other than interest – earned by Polish resident natural persons from financial instruments held as non-business assets, should not be accumulated with other, general incomes, but should be treated as derived from a specific source of income – income from capital investments– which is subject to 19 per cent. flat rate personal income tax. In principle, this income should be settled by the taxpayer by 30 April of the following year. However, due to ambiguous wording of Art. 40 of the PIT Act, certain individuals (referred to in Arts. 31, 33, 34 and 25 of the PIT Act, i.e. primarily people who also obtain income from employment or pensions) are encouraged to seek professional advice regarding the timing of the tax settlement.

If interest or discount (i.e. the difference between the redemption price paid by the issuer and the purchase price of the Notes paid by the investor) is paid by a Polish qualified entity (e.g. a bank or a brokerage house), in principle, the entity should withhold the 19 per cent. tax. If interest is paid by a foreign entity, further to currently prevailing interpretations the entity would not be obliged to withhold Polish income tax. If tax is not withheld by the entity making the payment (whether foreign or Polish) the tax should be settled by the individual. Potentially the foreign entity could make withholdings pursuant to laws of other jurisdictions and any relevant double tax treaty. Withholding tax incurred outside Poland (including countries which have not concluded any tax treaty with Poland), up to an amount equal to the tax paid abroad, but not higher than 19 per cent. tax on the interest amount, could be deducted from the Polish tax liability.

Interest income does not cumulate with the general income subject to the progressive tax rate but is subject to the 19 per cent. tax.

Income earned on the Notes by individuals within the scope of their business activity should be treated as any other income from the business activity and subject to the flat rate 19% income tax or the progressive (18% - 32%) income tax rate depending on meeting the relevant conditions and the choice of the taxpayer.

According to the Double Tax Treaty concluded between Poland and France, as a rule, there is no French withholding tax on interest payable from France to a Polish person. Also capital gains earned in France by a Polish resident, should in principle be taxable only in Poland.

3.12.3 Non-resident corporate entities and natural persons

Non-Polish residents are only subject to taxation in respect of income derived from Poland.

In principle, interest earned from the Notes should not be classified as income originating from the territory of Poland, and as such, it should be not subject to Polish withholding tax.

This should also be the case with respect to the sale of the Notes. However, certain doubts could arise if the Notes are sold within the territory of Poland. According to the Ministry of Finance, if securities are sold on a Warsaw Stock Exchange, the relevant income is earned in Poland. If this is the case, exemption from Polish income tax could potentially be achieved on the grounds of the relevant Double Tax Treaty. Most of the tax treaties concluded by Poland provide that such capital income should only be taxed in the income recipient's country of the residence.

3.12.4 Stamp Duty

In principle, no stamp duty should be payable upon a transfer of Notes in Poland, unless the following conditions apply jointly: (i) Notes are transferred to a Polish individual or entity other than an investment firm, (ii) the sale or exchange agreement is concluded in Poland; (iii) the transaction is not concluded on an organised market (iv) the transaction is not concluded with intermediation of an investment firm; and (v) the transaction is not considered to be a VAT-exempt financial service or any other transaction subject to VAT within any EU country.

3.12.5 EU Savings Directive

Under European Council Directive 2003/48/EC on the taxation of savings income (Directive), Member States (including Poland) are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State.

3.13 Portugal

The following is a summary of the principal Portuguese tax issues at the date hereof in relation to certain aspects of Portuguese taxation on payments of principal and interest in respect of the Notes. The statements do not deal with other Portuguese tax aspects regarding the Notes and relate only to the position of persons who are absolute beneficial owners of the Notes. The following is a general guide, does not constitute tax or legal advice and should be treated with appropriate caution. Noteholders who are in any doubt as to their tax position should consult their professional advisers.

Noteholders who may be liable to taxation in jurisdictions other than Portugal in respect of their acquisition, holding or disposal of the Notes are particularly advised to consult their professional advisers as to whether they are so liable (and if so under the laws of which jurisdictions). In particular, Noteholders should be aware that they may be liable to taxation under the laws of Portugal and of other jurisdictions in relation to payments in respect of the Notes even if such payments may be made without withholding or deduction for or on account of taxation under the laws of Portugal.

The references to "interest", "investment income" and "capital gains" in the paragraphs below means "interest", "investment income" and "capital gains" as understood in Portuguese tax law. The statements below do not take any account of any different definitions of "interest" or "investment income" which may prevail under any other law or which may be created by the Conditions or any related documentation.

3.13.1 Noteholder's Income Tax

Income generated by the holding (distributions) and transfer of the Notes is generally subject to the Portuguese tax regime for debt securities (*obrigações*).

Economic benefits derived from interest, amortisation, reimbursement premiums and other types of remuneration arising from the Notes are designated as investment income for Portuguese tax purposes.

3.13.1.1 Withholding tax and autonomous taxation arising from the Notes

Payments of principal on the Notes are not subject to Portuguese withholding tax. For these purposes, principal shall mean all payments carried out without any remuneration component.

Corporate entities

Under current Portuguese law, investment income payments in respect of the Notes made to Portuguese tax resident companies and by non-resident legal persons with a permanent establishment in Portugal to which the investment income is attributable are included in their taxable income and are subject to corporate tax at a rate of 25 per cent. A municipal surcharge ("*derrama municipal*") of up to 1.5 per cent. may also be due over the Noteholders taxable profits. A State Surcharge ("*derrama estadual*") is due at a rate of 3 per cent due on the part of the Noteholders taxable profits exceeding € 1.500.000 up to € 10.000.000 and of 5 per cent on the part of the taxable profits exceeding € 10.000.000.

Individuals

As regards investment income on the Notes made to Portuguese tax resident individuals, they are subject to personal income tax which shall be withheld at the current final withholding rate of 25 per cent. if there is a Portuguese resident paying agent, unless the individual elects to include it in his taxable income, subject to tax at progressive rates of up to 46.5 per cent. In this case, the tax withheld is

deemed to be a payment on account of the final tax due. An additional income tax rate of 2.5 per cent that will be due on the part of the taxable income exceeding € 153.300.

Interest payments due by non resident entities to Portuguese tax resident individuals are subject to an autonomous taxation at a rate of 25 per cent. whenever those payments are not subject to Portuguese withholding tax.

Investment income paid or made available (*colocado à disposição*) to accounts in the name of one or more accountholders acting on account of unidentified third parties is subject to a final withholding tax at 30 per cent., unless the beneficial owner of the income is identified and as a consequence the applicable tax rates to such beneficial owner will apply.

A final withholding tax at a rate of 30 per cent. applies in case of investment income payments made by an entity resident in a country, territory or region subject to a clearly more favourable tax regime included in the "low tax jurisdictions" list approved by Ministerial order (Portaria) no. 150/2004 of 13 February, amended by Ministerial Order (Portaria) 292/2011, November 8 2011, which are made available (*colocado à disposição*) to individuals by a Portuguese resident paying agent.

Investment income payments made by an entity resident in a country, territory or region subject to a clearly more favourable tax regime included in the "low tax jurisdictions" list approved by Ministerial order (Portaria) no. 150/2004 of 13 February, amended by Ministerial Order (Portaria) 292/2011, November 8 2011 are subject to an autonomous taxation at a rate of 30 per cent. whenever those payments are not subject to Portuguese withholding tax.

3.13.1.2 *Capital gains arising from the transfer of Notes*

Corporate entities

Capital gains obtained with the transfer of the Notes by legal persons resident for tax purposes in Portugal and by non-resident legal persons with a permanent establishment in Portugal to which the capital gains are attributable are included in their taxable income and are subject to corporate tax at a rate of 25 per cent. A municipal surcharge ("*derrama municipal*") of up to 1.5 per cent. may also be due over the Noteholders taxable profits. A State Surcharge ("*derrama estadual*") is due at a rate of 3 per cent due on the part of the taxable profits exceeding € 1.500.000 up to € 10.000.000 and of 5 per cent on the part of the taxable profits exceeding € 10.000.000.

Individuals

Capital gains obtained by Portuguese resident individuals on the transfer of Notes are taxed at a special tax rate of 25 per cent. levied on the positive difference between the capital gains and capital losses of each year. In this respect, an income tax exemption applies if the annual positive difference obtained with the transfer of shares, bonds and other debt securities does not exceed €500. Accrued interest does not qualify as capital gains for tax purposes.

3.13.1.3 *Stamp tax*

Corporate entities

The acquisition through gift or inheritance of Notes by a Portuguese resident legal person or non-resident acting through a Portuguese permanent establishment although not subject to stamp tax is subject to corporate income tax at a rate of 25 per cent. A municipal surcharge ("*derrama municipal*") of up to 1.5 per cent. may also be due over the Noteholders taxable profits. A State Surcharge ("*derrama estadual*") is due at a rate of 3 per cent due on the part of the taxable profits exceeding € 1.500.000 up to € 10.000.000 and of 5 per cent on the part of the taxable profits exceeding € 10.000.000.

Individuals

No stamp tax applies to the acquisition through gift or inheritance of Notes by an individual.

3.13.2 *EU Savings Directive*

Portugal has implemented the European Council Directive 2003/48/EC of 3 June 2003 on taxation savings income into the Portuguese law through Decree-Law no 62/2005, of 11 March 2005, as amended by Law no 39-A/2005, of 29 July 2005.

3.14 **Spain**

The following summary is of a general nature and is included herein solely for information purposes. It is based on the laws presently in force in Spain (applicable in Spain mainland, except Basque Country and Navarra), though it is not intended to be, nor should it be construed to be, legal or tax advice. This section does not constitute a complete description of all the tax issues that may be relevant in making the decision to invest in the Notes or of all the tax consequences that may derive from the subscription, acquisition, holding, transfer, redemption or reimbursement of the Notes and does not purport to describe the tax consequences applicable to categories of investors subject to special tax rules. Prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Spanish tax law, to which they may be subject.

3.14.1 **Individuals with Tax Residence in Spain**

3.14.1.1 *Personal Income Tax*

Personal Income Tax is levied on an annual basis on the worldwide income obtained by Spanish resident individuals, whatever the source is and wherever the relevant payer is established. Therefore any income that Spanish holders of the Notes may receive under the Notes will be subject to Spanish taxation.

Both interest periodically received and income arising on the disposal, redemption or reimbursement of the Notes obtained by individuals who are tax resident in Spain will be regarded as financial income for tax purposes (i.e. a return on investment derived from the transfer of own capital to third parties).

Both types of income will be included in the savings part of the taxable income subject to Personal Income Tax at the rate of 19% on the first EUR 6,000, and on a 21% rate on any excess. However, for tax years 2012 and 2013, the tax rates are increased to 21% on the first EUR 6,000, to 25% on income between EUR 6,000.01 and EUR 24,000 and to 27% on any excess income.

Spanish holders of the Notes shall compute the gross interest obtained in the savings part of the taxable base of the tax period in which it is due, including amounts withheld, if any.

Income arising on the disposal, redemption or reimbursement of the Notes will be calculated as the difference between: (a) their disposal, redemption or reimbursement value; and (b) their acquisition or subscription value. Costs and expenses effectively borne on the acquisition and transfer of the Notes may be taken into account for calculating the relevant taxable income, provided that they can be duly justified.

Losses that may derive from the transfer of the Notes cannot be offset if the investor acquires homogeneous securities within the two-month period prior or subsequent to the transfer of the Notes, until he/she transfers such homogeneous securities.

Additionally, tax credits for the avoidance of international double taxation may apply in respect of taxes paid outside Spain on income deriving from the Notes, if any.

3.14.1.2 *Wealth Tax*

Individuals who are Spanish tax residents are subject to an annual Wealth Tax on their total net wealth on 31 December, regardless of the location of their assets (such as the Notes) or of where their rights may be exercised. However, according to Law 4/2008 of 23 December, taxpayers benefit from a 100 per cent allowance on their Wealth Tax liability as from 2008. Nevertheless only for 2011, 2012 and 2013 tax years the Wealth Tax has been restated. However certain autonomies have maintained the

allowance so that in practical terms this means that taxpayers from those territories are effectively tax exempt from Wealth Tax.

3.14.1.3 *Inheritance and Gift Tax*

Inheritance and Gift Tax is levied on individuals' heirs and donees resident in Spain for tax purposes. It is calculated taking into account several circumstances, such as the age and previous net worth of the heir or donee and the kinship with the deceased person or donor. The applicable tax rate currently ranges between 7.65 and 34 per cent depending on the particular circumstances, although the final tax payable may increase up to 81.6 per cent. This is nevertheless subject to the specific rules passed by the relevant Spanish regions with respect to this tax.

3.14.2 ***Legal Entities with Tax Residence in Spain***

3.14.2.1 *Corporate Income Tax*

Both interest periodically received and income arising on the disposal, redemption or reimbursement of the Notes obtained by entities which are resident for tax purposes in Spain shall be computed as taxable income of the tax period in which they accrue.

The general tax rate for limited liability companies is currently 30 per cent. However, small sized companies (those companies whose net business income is lower than €10,000,000) can benefit from the reduced tax rate of 25 per cent on the first €300,000 of their taxable profits. In addition to this and for the tax period starting in 2011, 2012 and 2013, companies with a net business income lower than €5,000,000 and an average staff of fewer than 25 employees could benefit from the reduced rate of 20 per cent on the first €300,000 of their taxable profits, being the rest of the taxable profits subject to a tax rate of 25 per cent. Special rates apply in respect of certain types of entities (such as qualifying collective investment institutions).

Tax credits for the avoidance of international double taxation may apply in respect of taxes paid outside Spain on income deriving from the Notes, if any.

3.14.3 ***Individuals and legal entities with no Tax Residence in Spain***

A non-resident holder of Notes, who has a permanent establishment in Spain to which such Notes are attributable, is subject to Spanish Non-Residents' Income Tax on any income under the Notes, including both interest periodically received and income arising on the disposal, redemption or reimbursement of the Notes. In general terms, the tax rules applicable to individuals and legal entities with no tax residence in Spain but acting through a permanent establishment in Spain are the same as those applicable to Corporate Income taxpayers.

3.14.4 ***Spanish withholding tax***

Where a financial institution (either resident in Spain or acting through a permanent establishment in Spain) acts as depositary of the Notes or intervenes as manager in the collection of any income under the Notes, such financial institution will be responsible for making the relevant withholding on account of Spanish tax on any income deriving from the Notes. The current withholding tax rate in Spain is 21 per cent (the withholding tax rate applicable has been increased from 19% to 21% as from January 1, 2012 and until December 31, 2013). Amounts withheld in Spain, if any, can be credited against the final Spanish Personal Income Tax liability, in the case of Spanish tax resident individuals, or against final Spanish Corporate Income Tax liability, in the case of Spanish corporate, or against final Non-Residents' Income Tax, in the case of a Spanish permanent establishment of a non-resident holder of the Notes. However, holders of the Notes who are Corporate Income Taxpayers or Non-Residents' Income Taxpayers acting through a permanent establishment in Spain to which the Notes are attributable can benefit from a withholding tax exemption when the Notes are listed in an OECD official stock exchange. This will be the case as the Notes are expected to trade on the Luxembourg Stock Exchange's regulated market.

Furthermore, such financial institution may become obliged to comply with the formalities set out in the Regulations on Spanish Personal Income Tax (Royal Decree 439/2007, of 30 March) and Corporate Income Tax (Royal Decree 1777/2004, of 30 July) when intervening in the transfer or reimbursement of the Notes.

3.14.5 Indirect taxation

As a general rule, the acquisition, transfer, redemption, reimbursement and exchange of the Notes will be exempt from Transfer Tax and Stamp Duty as well as Value Added Tax.

3.15 Sweden

The following summary of certain tax issues that may arise as a result of holding Notes is based on current Swedish tax legislation and is intended only as general information for holders of Notes who are resident in Sweden for tax purposes, unless otherwise indicated. This description does not deal comprehensively with all tax consequences that may occur for holders of Notes. For instance, it does not cover the specific rules where Notes are held by a partnership or as current assets in a business operation. Special tax consequences that are not described below may also apply for certain categories of taxpayers, including investment companies and mutual funds. Prospective applicants for Notes should consult their own tax advisers for information with respect to the special tax consequences that may arise as a result of holding Notes, including the applicability and effect of foreign income tax rules, provisions in double taxation treaties and other rules which may be applicable.

3.15.1 Taxation of Individuals Resident in Sweden

Capital Gains and Losses

Individuals who sell their Notes, or have their Notes redeemed or bought back, are subject to capital gains tax. The tax rate is 30%.

The capital gain or loss is calculated as the difference between the sales (or redemption) proceeds, after deduction of sales costs, and the Notes' acquisition cost for tax purposes. The acquisition cost is determined according to the "average method". This means that the costs of acquiring all Notes of the same type and class as the sold Notes are added together and the average acquisition cost is calculated collectively, with respect to changes to the holding.

Gains or losses on currency exchange rate fluctuations may arise in relation to Notes where the sales proceeds received are in a foreign currency. However, no special calculations are required if the sales proceeds are exchanged into SEK within 30 days from the time of disposal. In such case, the exchange rate on the date of exchange shall be used when calculating the value of the sales proceeds. The exchange rate on the date of acquisition is generally used when determining the acquisition cost for tax purposes.

The Notes could be defined as;

- (a) listed shares and other listed securities that are taxed in the same manner as shares (Sw. *delägar rätt*);
- (b) receivables (Sw. *fordrings rätt*); or
- (c) non-financial items (Sw. *andra tillgångar*).

As a general rule, 70% of a capital loss is deductible against any other taxable income from capital. However, capital losses on listed Swedish receivables are fully deductible in the income from capital category. According to Swedish case law, full deductibility also applies to capital losses on listed foreign receivables.

Capital losses on listed shares and other listed securities that are taxed in the same manner as shares (except for listed shares in mutual funds containing only Swedish receivables), are fully deductible

against taxable gains on such assets and on non-listed shares in Swedish limited liability companies and foreign legal entities. On non-listed shares in Swedish limited liability companies and foreign legal entities only five sixths of capital losses are deductible. If capital losses pertain to both listed and non-listed shares, the losses pertaining to the listed shares are deductible prior to the losses on the non-listed shares. 70% of any excess amount is deductible according to the general rule or five sixths of 70% is deductible if the capital loss relates to non-listed shares. Capital losses on listed shares in mutual funds containing only Swedish receivables are fully deductible in the income from capital category.

If a deductible deficit arises in the income from capital category, a reduction of the tax on income from employment and from business operations, as well as the tax on real estate and the municipal real estate fee, is allowed. The tax reduction is 30% of any part of the deficit not exceeding SEK 100,000 and 21% of any part of the deficit in excess of SEK 100,000. Deficits may not be carried forward to a subsequent fiscal year.

Interest/Dividends

Any interest or dividend income received by an individual holder during the life of a financial instrument is subject to Swedish tax at a tax rate of 30% in the income from capital category. Interest and dividends are taxable when the income can be disposed of.

There are no specific Swedish tax rules defining what constitutes debt or equity, nor is there a definition of interest. However, where a payment during the life of the instrument is made at the discretion of the Issuer, such payment should generally be considered a dividend. It is further generally held, that where the terms and conditions of the instrument provide for payments to be made under predetermined circumstances established by the terms and conditions and no shareholder meeting is required to determine the payment, such payment should be considered interest.

3.15.2 Taxation of Swedish Legal Entities

Limited liability companies and other legal entities (except partnerships and estates of deceased persons) are normally taxed on all income (including income from the sale, redemption or repayment of the Notes) as income from business operations at a flat rate of 22% (the tax rate is 26.3% for fiscal years commencing prior to 1 January 2013).

Regarding the calculation of capital gains or losses, see section "Taxation of Individuals Resident in Sweden" above. However, for legal entities, interest income and currency exchange fluctuations are normally taxable, or deductible, as the case may be, on an accrual basis. Note that capital losses on non-financial items (Sw. *annan tillgång*) are fully deductible for tax purposes when the holder is a legal entity.

Tax deductible capital losses on receivables incurred by a limited liability companies and certain other legal entities are normally fully deductible against any taxable income.

Specific rules may apply to Notes held as a hedge for foreign currency exposure.

3.15.3 Taxation of holders of Notes residing outside of Sweden

Payments of any principal amount or any amount that is considered to be interest or dividends for Swedish tax purposes to holders of Notes who are not fiscally resident in Sweden and who are not engaged in trade or business in Sweden through permanent establishments are not subject to Swedish income tax. An individual is resident in Sweden for Swedish tax purposes if he/she (a) is domiciled in Sweden; (b) has its habitual abode in Sweden; or (c) has been domiciled earlier in Sweden and, after having moved abroad, continues to have an essential connection with Sweden.

Swedish withholding tax, or Swedish tax deduction, is not imposed on payments of any principal amount or any amount that is considered to be interest for Swedish tax purposes to a non-resident holder of Notes.

Unless an exemption applies, Swedish dividend withholding tax (Sw. *kupongskatt*) at a rate of 30% is payable on dividends paid by companies incorporated and duly registered in Sweden under the Swedish Companies Act to non-resident shareholders who are entitled to receive the dividends. Depending on the shareholder's circumstances and residency, it may be possible to reduce the withholding tax rate or exempt dividends from withholding tax under Swedish domestic law or the applicable tax treaty.

A reduction of share capital by redemption of shares resulting in a payment to shareholders is as a main rule deemed to be a dividend for Swedish withholding tax purposes. This applies also to buy back schemes where the offer to buy back has been made to all shareholders. The withholding tax can be recovered from the Swedish Tax Agency and an application must be filed with the Tax Agency. The withholding tax is calculated as an amount corresponding to the difference between the repayment to the shareholder and the shareholder's acquisition cost for the redeemed shares. In case of listed shares, the acquisition cost may be set to 20% of the amount repaid to the shareholder.

Holders of Notes who are not fiscally resident in Sweden and who are not carrying on business operations from a permanent establishment in Sweden are generally not liable for Swedish capital gains taxation on the disposal of Notes. The holders may be subject to tax in their country of residence.

As far as non-resident individuals are concerned, capital gains on the sale of certain securities may in some cases be subject to Swedish tax if the individual has been resident or permanently stayed in Sweden at any time during the calendar year of the sale or any of the ten preceding calendar years. The application of this provision is, in many cases, limited by tax treaties for the avoidance of double taxation, which Sweden has concluded with other countries.

3.15.4 Other

Sweden does not levy any net wealth tax and there are no transfer taxes on transfers of financial instruments.

3.16 Switzerland

The following is a summary based on legislation as of the date of this Base Prospectus. It does not aim to be a comprehensive description of all the Swiss tax considerations that may be relevant for a decision to invest in the Notes. The tax treatment for each investor depends on the particular situation. All investors are advised to consult with their professional tax advisers as to the respective Swiss tax consequences of the purchase, ownership, disposition, lapse, exercise or redemption of Notes in light of their particular circumstances.

3.16.1 Stamp taxes

3.16.1.1 Swiss federal securities turnover tax

Dealings in Notes which classify as pure derivative financial instruments (such as pure call and put options, including low exercise price options with a maturity not exceeding twelve months, pure futures with a maximal pre-financing of 25 per cent., static certificates replicating an index or a basket of at least five shares and with a fixed maturity or an annual redemption right) are not subject to the Swiss federal securities turnover tax.

Dealings in Notes which have been issued by an issuer outside of Switzerland and which classify as structured instruments, share-like instruments (including low exercise price options on shares with a maturity exceeding twelve months) or fund-like instruments are subject to Swiss federal securities turnover tax of 0.3 per cent. on the consideration paid, however, only if a Swiss securities dealer (as defined in the Swiss federal stamp tax act) is a party or an intermediary to the transaction and no exemption applies.

The delivery of an underlying security at exercise or redemption to the holder of the Notes is subject to Swiss federal securities turnover tax of 0.3 per cent. in case a security issued by an issuer outside Switzerland is delivered and of 0.15 per cent. in case a security issued by a Swiss domestic issuer is

delivered, however, in each case, only if a Swiss domestic securities dealer (as defined in the Swiss federal stamp tax act) is a party or an intermediary to the transaction and no exemption applies.

3.16.1.2 *Swiss withholding tax*

Payments on a Note are not subject to Swiss federal withholding tax provided that the respective Issuer is at all times resident and managed outside Switzerland for Swiss tax purposes.

3.16.2 **Income taxation**

3.16.2.1 *Non-Swiss resident holders*

A holder of a Note who is not resident in Switzerland and who during the taxation year has not engaged in trade or business carried on through a permanent establishment or a fixed place of business in Switzerland, and who is not subject to income taxation in Switzerland for any other reason, will not be subject to any income tax in Switzerland.

3.16.2.2 *Notes held as private assets by a Swiss resident holder*

Structured derivative financial instruments:

If a Note classifies as a structured derivative financial instrument, its income taxation depends on whether the bond and the derivative financial instrument(s) embedded therein are recorded separately from each other and whether the Note classifies as a structured instrument with or without a predominant one-time interest payment:

Non-transparent structured derivative financial instruments:

If the embedded bond is not recorded separately from the embedded derivative financial instrument(s), the Note classifies as non-transparent structured instrument and any return over the initial investment classifies as a taxable interest payment. Non-transparent derivative financial instruments generally include a predominant one-time interest payment and are taxed in accordance with the principles set forth below under "Bonds with a predominant one-time interest payment".

Transparent structured derivative financial instruments without a predominant one-time interest payment:

If the embedded bond is recorded separately from the embedded derivative financial instrument(s) and the yield-to-maturity predominantly derives from periodic interest payments and not from a one-time interest payment (see below "—Transparent structured derivative financial instruments with a predominant one-time interest payment"), then any periodic interest payment and the one-time interest payment are taxed when payable to the holder of the Note. A gain, including interest accrued, or a loss, respectively, realised on the sale of a Note is a tax-free private capital gain, or a non-tax-deductible private capital loss, respectively.

Transparent structured derivative financial instruments with a predominant one-time interest payment:

If the embedded bond is recorded separately from the embedded derivative financial instrument(s) and the yield-to-maturity predominantly derives from a one-time interest payment such as an original issue discount or a repayment premium and not from periodic interest payments, then any periodic interest payments and, in addition, on the sale or redemption of the Note, the difference between the value of the embedded bond at redemption or sale, as applicable, and its value at issuance or secondary market purchase, as applicable, converted, in each case, into Swiss Francs at the exchange rate prevailing at the time of redemption or sale, issuance or purchase, respectively (modified differential taxation method) constitutes taxable income. A value decrease on the embedded bond respectively realised on the sale or redemption of the Note may be offset against any gains (including periodic interest payments) realised within the same taxation period from all instruments with a predominant one-time interest

payment. Any residual return realised on the embedded derivative financial instrument(s) is a tax-free private capital gain, and any residual loss is a non-tax-deductible private capital loss, respectively.

Bonds without a predominant one-time interest payment:

If a Note classifies as a pure bond without a predominant one-time interest payment (the yield-to-maturity predominantly derives from periodic interest payments and not from a one-time interest payment), Swiss resident private investors will be taxed on the periodic and on the one-time interest payments, each converted into Swiss Francs at the exchange rate prevailing at the time they become due. A gain, including interest accrued, or a loss, respectively, realised on the sale of a Note is a tax-free private capital gain, or a non-tax-deductible private capital loss, respectively.

Bonds with a predominant one-time interest payment:

If a Note classifies as a pure bond with a predominant one-time interest payment (the yield-to-maturity predominantly derives from a one-time-interest-payment such as an original issue discount or a repayment premium and not from periodic interest payments), Swiss resident private investors will be taxed on any gain, including capital and foreign exchange gains, realised on the Notes (differential taxation method).

Pure derivative financial instruments:

A capital gain realised by an individual on the sale or redemption of a Note which classifies as a pure derivative financial instrument (such as pure call and put options, including low exercise price options with a maturity not exceeding one year, pure futures with a maximum pre-financing of 25 per cent., static certificates replicating an index or a basket of at least five shares and with a fixed maturity or an annual redemption right) and which is held as part of their private assets constitutes a tax-free private capital gain. A capital loss realised analogously on the sale or redemption of a Note cannot be set off against taxable income. Periodic and one-time dividend equalisation payments on a Note which is a pure derivative financial instrument constitute taxable investment income.

Low Exercise Price Options (LEPOs):

According to the current practice of the Swiss federal tax administration low exercise price options are given if the underlying of a call option has been pre-financed by at least 50 per cent. at the time of issuance. For low exercise price options with a maturity exceeding one year the interest component of the low exercise price option (i.e. issue discount) constitutes taxable investment income. Notes replicating an index or a basket of less than five shares are for Swiss tax purposes regarded as LEPOs.

Fund-like instrument:

A Note classified as a fund-like instrument will be considered a pass-through instrument for Swiss tax purposes if dividend and interest income (less attributable costs) from, and capital gains and losses (less attributable costs) realised on, the underlying investments, are reported and distributed separately. Under such conditions, an individual holding a fund-like instrument as part of his private assets only receives taxable income (which he or she must report annually) over such portion of the distributions (in case the fund is distributing the income realised on the underlying investments) or earnings credits (in case the fund is reinvesting the income realised on the underlying investment) as derived from dividends and interest (less attributable costs) on the underlying instruments. Any distributions or credits deriving from capital gains realised on the underlying investments constitute a tax-free private capital gain, and any respective loss a non-tax-deductible private capital loss. Any gain or loss realised within a taxation period on the sale of a fund-like instrument (including accrued dividends and interest) is exempt from income taxation as non-taxable private capital gain or non-tax-deductible private capital loss.

3.16.2.3 *Instruments held as assets of a Swiss business*

Corporate entities and individuals who hold Notes as part of a trade or business in Switzerland, in the case of residents abroad carried on through a permanent establishment or a fixed place of business in Switzerland, are required to recognise any payments on, and any capital gains or losses realised on the

sale or redemption of, such Notes (irrespective of their classification) in their income statement for the respective taxation period and will be taxed on any net taxable earnings for such period.

The same taxation treatment also applies to Swiss-resident individuals who, for income tax purposes, are classified as "professional securities dealers" for reasons of, *inter alia*, frequent dealing and leveraged investments in securities.

3.16.3 *EU Savings Directive*

An interest payment on a Note made by a Swiss paying agent to an individual resident in an EU Member State is subject to the EU savings tax. The tax is withheld at a rate of 35 per cent. on interest payments made, with the option of the individual to have the paying agent and Switzerland to provide to the tax authorities of the EU Member State the details of the interest payments in lieu of the withholding. The individual may be entitled to a tax credit or refund of the withholding, provided that he or she is the beneficial owner of the interest payments and certain other conditions are met.

3.16.4 Bilateral agreements (*Quellensteuerabkommen*)

Switzerland has signed agreements on a final withholding tax (*Quellensteuerabkommen*) with the United Kingdom and with Austria. Furthermore, it is expected that Switzerland will sign similar agreements with other countries in the near future. According to these agreements, the Swiss depository bank levies a final withholding tax on any investment income derived from a Note held with such Swiss depository bank, either directly or indirectly, by an individual resident in the a contracting state. The applicable final withholding tax rate may vary depending on the applicable tax rate in the relevant contracting state and the type of realised investment income (dividend, interest, capital gain, etc.). Furthermore, the calculation of the income subject to a final withholding tax may vary depending on the applicable agreement. A person subject to a final withholding tax ("Relevant Person") may avoid such final withholding tax by expressly allowing its Swiss depository bank to report to the foreign tax authorities in the state of residence of the Relevant Person, amongst others, the identity of the Relevant Person and the amount the realised investment income in a certain period.

3.17 **The Netherlands**

3.17.1 General

The following summary outlines the principal Netherlands tax consequences of the acquisition, holding, settlement, redemption and disposal of the Notes, but does not purport to be a comprehensive description of all Netherlands tax considerations in relation thereto. This summary is intended as general information only for holders of Notes who are residents or deemed residents of the Netherlands for Netherlands tax purposes. Each prospective investor should consult a professional tax adviser with respect to the tax consequences of an investment in the Notes.

This summary is based on current tax legislation, published case law, tax treaties, regulations and published policy, in each case as in force as of the date of this Prospectus, and does not take into account any developments or amendments thereof after that date whether or not such developments or amendments have retroactive effect.

This summary does not address the Netherlands tax consequences for:

- (i) holders of Notes holding a substantial interest (*aanmerkelijk belang*) or deemed substantial interest (*fictief aanmerkelijk belang*) in one of the Issuers and holders of Notes of whom a certain related person holds a substantial interest in one of the Issuers. Generally speaking, a substantial interest in one of the Issuers arises if a person, alone or, where such person is an individual, together with his or her partner or (blood) relative in a straight line (statutory defined terms), directly or indirectly, holds or is deemed to hold (i) an interest of 5% or more of the total issued capital of an Issuer or of 5% or more of the issued capital of a certain class of shares of an Issuer, (ii) rights to acquire, directly or indirectly, such interest or (iii) certain profit sharing rights in an Issuer;

- (ii) investment institutions (*fiscale beleggingsinstellingen*); and
- (iii) pension funds, exempt investment institutions (*vrijgestelde fiscale beleggingsinstellingen*) or other entities that are exempt from Netherlands corporate income tax.

Where this summary refers to a holder of Notes, such reference is restricted to a holder holding legal title as well as an economic interest in such Notes.

For the purpose of the Netherlands tax consequences described herein, it is assumed that none of the Issuers is a resident or deemed to be a resident of the Netherlands for Netherlands tax purposes.

3.17.2 Netherlands withholding tax

All payments made by an Issuer under the Notes may be made free of withholding or deduction for any taxes of whatsoever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein.

3.17.3 Netherlands corporate and individual income tax

If a holder is a resident or deemed to be a resident of the Netherlands for Netherlands tax purposes and is fully subject to Netherlands corporate income tax or is only subject to Netherlands corporate income tax in respect of an enterprise to which the Notes are attributable, income derived from the Notes and gains realised upon the redemption, settlement or disposal of the Notes are generally taxable in the Netherlands (standard corporate income tax rate is 25% but a tax rate of 20% applies to the first € 200,000 of the taxable income).

If an individual holder is a resident or deemed to be a resident of the Netherlands for Netherlands tax purposes (including an individual holder who has opted to be taxed as a resident of the Netherlands), income derived from the Notes and gains realised upon the redemption, settlement or disposal of the Notes are taxable at progressive rates (up to a maximum rate of 52%) under the Netherlands income tax act 2001 (*Wet inkomstenbelasting 2001*), if:

- (i) the holder is an entrepreneur (*ondernemer*) and has an enterprise to which the Notes are attributable or the holder has, other than as a shareholder, a co-entitlement to the net worth of an enterprise (*medegerechtigde*), to which enterprise the Notes are attributable; or
- (ii) such income or gains qualify as income from miscellaneous activities (*resultaat uit overige werkzaamheden*), which include the performance of activities with respect to the Notes that exceed regular, active portfolio management (*normaal, actief vermogensbeheer*).

If neither condition 3.8.3(i) nor condition 3.8.3(ii) applies to the holder of the Notes, taxable income with regard to the Notes must be determined on the basis of a deemed return on income from savings and investments (*sparen en beleggen*), rather than on the basis of income actually received or gains actually realised. This deemed return on income from savings and investments have been fixed at a rate of 4% of the individual's yield basis (*rendementsgrondslag*) at the beginning of the calendar year, insofar as the individual's yield basis exceeds a certain threshold (in 2013 amounts to EUR 21,139 per person per annum). The individual's yield basis is determined as the fair market value of certain qualifying assets held by the holder of the Notes less the fair market value of certain qualifying liabilities on 1st January. The fair market value of the Notes will be included as an asset in the individual's yield basis. The 4% deemed return on income from savings and investments will be taxed at a rate of 30%.

3.17.4 Netherlands gift and inheritance tax

Generally, gift and inheritance tax will be due in the Netherlands in respect of the acquisition of the Notes by way of a gift by, or on behalf of, or on the death of, a holder that is a resident or deemed to be a resident of the Netherlands for the purposes of Netherlands gift and inheritance tax at the time of the gift or his or her death. A gift made under a condition precedent is deemed to be made at the time the condition precedent is fulfilled and is subject to Dutch gift and inheritance tax if the donor is a (deemed) resident of the Netherlands at that time.

A holder of Dutch nationality is deemed to be a resident of the Netherlands for the purposes of the Netherlands gift and inheritance tax if he or she has been resident in the Netherlands and dies or makes a donation within ten years after leaving the Netherlands. A holder of any other nationality is deemed to be a resident of the Netherlands for the purposes of the Netherlands gift tax if he or she has been resident in the Netherlands and makes a donation within a twelve months period after leaving the Netherlands. The same twelve-month rule may apply to entities that have transferred their seat of residence out of the Netherlands.

3.17.5 Netherlands value added tax

In general, no value added tax will arise in respect of payments in consideration for the issue of the Notes or in respect of a cash payment made under the Notes, or in respect of a transfer of Notes.

3.17.6 Other Netherlands taxes and duties

No registration tax, customs duty, transfer tax, stamp duty or any other similar documentary tax or duty will be payable in the Netherlands by a holder in respect of or in connection with the subscription, issue, placement, allotment, delivery or transfer of the Notes.

3.17.7 EU Savings Directive

Under European Council Directive 2003/48/EC on the taxation of savings income, Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories including Switzerland have adopted similar measures.

The European Commission has proposed certain amendments to the Directive, which may, if implemented, amend or broaden the scope of the requirements described above.

3.18 United Kingdom

The following applies only to persons who are the beneficial owners of Notes and is a summary of the Issuer's understanding of current law and practice in the United Kingdom relating only to certain aspects of United Kingdom taxation. The United Kingdom tax treatment of prospective Noteholders and investors depends on their individual circumstances and may be subject to change in the future. Prospective Noteholders who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

3.18.1 Payment of interest on the Notes

Payments of interest on the Notes may be made by the relevant Issuer without withholding or deduction for or on account of United Kingdom income tax where such interest is not regarded as having a United Kingdom source for United Kingdom tax purposes. This will depend on the terms of the relevant Notes and prospective Noteholders should therefore take legal advice on the question of whether any particular Notes carry a right to United Kingdom source interest. In the case of interest on Notes which is regarded as having a United Kingdom source such payments of interest may be made by the Issuer without deduction of or withholding on account of United Kingdom income tax in the following circumstances:

- a) where the Notes are listed on a "recognised stock exchange", within the meaning of section 1005 of the Income Tax Act 2007. The Luxembourg Stock Exchange is a recognised stock exchange. The Notes will satisfy this requirement if they are officially listed in Luxembourg in accordance with provisions corresponding to those generally applicable in EEA states and are admitted to trading on

the Luxembourg Stock Exchange. Provided, therefore that the Notes remain so listed, interest on the Notes will be payable without withholding or deduction on account of United Kingdom tax;

- b) where interest on the Notes is paid by a company and, at the time the payment is made, the Issuer reasonably believes (and any person by or through whom interest on the Notes is paid reasonably believes) that the beneficial owner is within the charge to United Kingdom corporation tax as regards the payment of interest; provided that HM Revenue and Customs (HMRC) has not given a direction (in circumstances where it has reasonable grounds to believe that the above exemption is not available in respect of such payment of interest at the time the payment is made) that the interest should be paid under deduction of tax;
- c) where the maturity of the Notes is less than 365 days and those Notes do not form part of a scheme or arrangement of borrowing intended to be capable of remaining outstanding for more than 364 days.

In other cases, an amount must generally be withheld from payments of interest on the Notes on account of United Kingdom income tax at the basic rate (currently 20%). However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Noteholder, HMRC can issue a notice to the Issuer to pay interest to the Noteholder without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty). HMRC has powers, in certain circumstances, to obtain information about: payments derived from securities (whether income or capital); certain payments of interest (including the amount payable on the redemption of a deeply discounted security); and securities transactions.

The persons from whom HMRC can obtain information include: a person who receives (or is entitled to receive) a payment derived from securities; a person who makes such a payment (received from, or paid on behalf of another person); a person by or through whom interest is paid or credited; a person who effects or is a party to securities transactions (which includes an issue of securities) on behalf of others; registrars or administrators in respect of securities transactions; and each registered or inscribed holder of securities.

The information HMRC can obtain includes: details of the beneficial owner of securities; details of the person for whom the securities are held, or the person to whom the payment is to be made (and, if more than one, their respective interests); information and documents relating to securities transactions; and, in relation to interest paid or credited on money received or retained in the United Kingdom, the identity of the security under which interest is paid. HMRC is generally not able to obtain information (under its power relating solely to interest) about a payment of interest to (or a receipt for) a person that is not an individual. This limitation does not apply to HMRC's power to obtain information about payments derived from securities.

HMRC has indicated that it will not use its information-gathering power on interest to obtain information about amounts payable on the redemption of deeply discounted securities which are paid before 6 April 2015.

In certain circumstances the information which HMRC has obtained using these powers may be exchanged with tax authorities in other jurisdictions.

3.19 United States

TO ENSURE COMPLIANCE WITH U.S. INTERNAL REVENUE SERVICE CIRCULAR 230, WE INFORM YOU THAT ANY TAX DISCUSSION HEREIN WAS NOT WRITTEN AND IS NOT INTENDED TO BE USED AND CANNOT BE USED BY ANY TAXPAYER FOR THE PURPOSES OF AVOIDING U.S. FEDERAL INCOME TAX PENALTIES THAT MAY BE IMPOSED ON THE TAXPAYER. ANY SUCH TAX DISCUSSION WAS WRITTEN TO SUPPORT THE PROMOTION OR MARKETING OF THE PROPOSALS DESCRIBED HEREIN. EACH TAXPAYER SHOULD SEEK ADVICE BASED ON THE TAXPAYER'S PARTICULAR CIRCUMSTANCES FROM AN INDEPENDENT TAX ADVISER.

The following is a summary of certain material U.S. federal income tax consequences of the ownership and disposition of the Notes by holders, but is not purported to be a complete analysis of all potential tax effects. This summary is based upon the Code, existing and proposed U.S. Treasury regulations promulgated thereunder, and published rulings and court decisions, all as in effect and existing on the date of this Base Prospectus and all of which are subject to change at any time with retrospective or prospective effect. This summary does not address the material U.S. federal income tax consequences of every type of Note which may be issued under the Programme, and the applicable Final Terms may contain additional or modified disclosure concerning the material U.S. federal income tax consequences relevant to such type of Notes as are issued thereunder.

This summary is for general information only and does not address all of the tax consequences that may be relevant to holders. In addition, except to the extent explicitly provided below, this summary does not address any of the tax consequences to holders that may be subject to special rules, such as financial institutions, tax-exempt organisations, Non-U.S. Holders (as defined below), insurance companies, regulated investment companies, real estate investment trusts, personal holding companies, controlled foreign corporations, passive foreign investment companies, broker-dealers in securities or currencies, traders in securities that elect to use the mark-to-market method of accounting for their securities, U.S. Holders (as defined below) whose functional currency is not the U.S. dollar, entities classified as partnerships for U.S. federal income tax purposes, and non-resident alien individuals who have lost their U.S. citizenship or who have ceased to be treated as U.S. resident aliens. Further, this summary does not address:

- the U.S. federal income tax consequences to shareholders in, or partners or beneficiaries of, an entity that is a holder of the Notes;
- the U.S. federal gift or alternative minimum tax consequences of the acquisition, ownership or disposition of the Notes;
- persons that will hold the Notes as part of a position in a "straddle" or as part of a "constructive sale" or a "hedging," "conversion" or other integrated transaction;
- any tax consequences arising under any state, municipality, foreign country or other taxing jurisdiction; or
- holders that own, directly, indirectly or constructively, 10 per cent. or more of the voting shares of the Issuer.

A "U.S. Holder" means a beneficial owner of a Note that, for U.S. federal income tax purposes, is:

- (a) an individual who is a citizen or individual resident of the United States, as defined in Section 7701(b) of the Code;
- (b) a corporation, including any entity treated as a corporation for U.S. federal income tax purposes, created or organised in or under the laws of the United States, any state thereof or the District of Columbia;
- (c) an estate the income of which is subject to U.S. federal income tax without regard to its source; or
- (d) a trust if: (i) a court within the United States is able to exercise primary supervision over the administration of the trust, and one or more United States persons have the authority to control all substantial decisions of the trust; or (ii) such trust has a valid election in effect under applicable U.S. Treasury regulations to be treated as a United States person.

The term "Non-U.S. Holder" means a beneficial owner of a Note that is not a partnership, and that is, for U.S. federal income tax purposes, not a U.S. Holder. If a partnership holds the Notes, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. Partners of partnerships holding the Notes should consult their tax advisers regarding the U.S. federal income tax consequences of acquiring, owning, exchanging and disposing of the Notes.

Prospective investors should consult their tax advisers regarding the U.S. federal, state, local and foreign tax consequences (and reporting requirements) of acquiring, owning and disposing of the Notes in light of such investor's own circumstances, including such investor's status as a

U.S. Holder or Non-U.S. Holder, as well as any other estate, gift, or other tax consequences (or reporting requirements) that may arise under the laws of any state, local, foreign or other taxing jurisdiction.

The Issuer generally intends to treat the Notes issued under the Programme as debt for U.S. federal tax purposes, unless otherwise indicated in the applicable Final Terms. Certain Notes, however, such as Index Linked Notes or Notes with maturities in excess of 30 years, may be treated as equity or as financial contracts for U.S. federal income tax purposes. The tax treatment of Notes, to which a treatment other than as debt for U.S. federal tax purposes may apply, will be discussed in the applicable Final Terms.

The applicable Final Terms for an issue of Notes may specify with respect to the issue of Notes to which it relates (and where relevant) the potential U.S. federal income tax consequences of the purchase, ownership, disposition, lapse and exercise of the Notes.

Holders may be subject to a variety of U.S. tax consequences depending on the subject and the terms of the Notes. Holders should consult their advisers about the tax consequences of purchasing Notes, particularly whether the Notes being acquired could be treated for U.S. tax purposes as debt instruments or as another type of financial instrument.

3.19.1 U.S. Holders

3.19.1.1 Payment of Interest

Interest on a Note, whether payable in U.S. dollars or a currency, composite currency or basket of currencies other than U.S. dollars (a **foreign currency**), other than interest on a "Discount Note" that is not "qualified stated interest" (each as defined below under "*Original Issue Discount —General*"), will be taxable to a U.S. Holder as ordinary income at the time it is received or accrued, depending on the holder's method of accounting for tax purposes. Interest paid by the Issuer on the Notes and OID (as defined below), if any, accrued with respect to the Notes (as described below under "*Original Issue Discount*") generally will constitute income from sources outside the United States subject to the rules regarding the U.S. foreign tax credit allowable to a U.S. Holder (and the limitations imposed thereon). Prospective purchasers should consult their tax advisers concerning the U.S. foreign tax credit implications of any payment of foreign taxes.

3.19.1.2 Original Issue Discount

General:

The following is a summary of the principal U.S. federal income tax consequences of the ownership of Notes issued with original issue discount (**OID**). The following summary does not discuss Notes that are characterised as contingent payment debt instruments for U.S. federal income tax purposes.

A Note, other than a Note with a term of one year or less (a **Short Term Note**), will be treated as issued with OID (a **Discount Note**) if the excess of the Note's "stated redemption price at maturity" over its issue price is equal to or more than a *de minimis* amount (0.25 per cent. of the Note's stated redemption price at maturity multiplied by the number of complete years to its maturity). Generally, the issue price of a Note will be the first price at which a substantial amount of Notes included in the issue of which the Note is a part is sold to persons other than bond houses, brokers, or similar persons or organisations acting in the capacity of underwriters, placement agents, or wholesalers. The stated redemption price at maturity of a Note will be the total of all payments to be made on the Note that are not payments of "qualified stated interest." A qualified stated interest payment is generally any one of a series of stated interest payments on a Note that are unconditionally payable at least annually at a single fixed rate, or a variable rate (as described below under "*Variable Interest Rate Notes*"), applied to the outstanding principal amount of the Note. Solely for the purpose of determining whether a Note has OID, the Issuer will be deemed to exercise any call option that has the effect of decreasing the yield on the Note, and the U.S. Holder will be deemed to exercise any put option that has the effect of increasing the yield on the Note. If a Note has *de minimis* OID, a U.S. Holder must include the *de minimis* amount in income as

stated principal payments are made on the Note, unless the holder makes the election described below under "*Election to Treat All Interest as Original Issue Discount*".

In general, unless U.S. Holders of Discount Notes make a special election to treat all interest on the Discount Notes (including qualified stated interest) as OID, U.S. Holders of Discount Notes must include OID in gross income throughout the term of the Discount Notes (and in advance of the receipt of cash attributable to the income) using the "constant-yield method". Under the "constant yield method", the amount of OID to be included in income by a U.S. Holder of Discount Notes is the sum of the "daily portions" of OID with respect to the Discount Notes for each day during the taxable year or portion of the taxable year on which the U.S. Holder holds the Discount Notes (**accrued OID**). The daily portion is determined by allocating to each day in any accrual period a pro rata portion of the OID allocable to that accrual period. The accrual period is generally selected by the holder, provided that no accrual period may be longer than one year and each scheduled payment of interest or principal on the note must occur on either the first or final day of an accrual period. The amount of OID allocable to an accrual period other than the final accrual period equals the excess of (a) the product of the Discount Note's "adjusted issue price" at the beginning of the accrual period and the Discount Note's "yield to maturity" (determined on the basis of compounding at the close of each accrual period and properly adjusted for the length of the accrual period) over (b) the sum of the payments of qualified stated interest on the Note allocable to the accrual period.

The "adjusted issue price" of a Discount Note at the beginning of any accrual period is the issue price of the Note increased by (x) the amount of accrued OID for each prior accrual period and decreased by (y) the amount of any payments previously made on the Note that were not qualified stated interest payments. The Discount Note's "yield to maturity" is the discount rate that, when used in computing the present value of all principal and interest payments to be made under the Discount Note, produces an amount equal to the issue price of the Discount Note. The U.S. holder may compute the amount of OID allocable to an initial short accrual period by using any reasonable method if all other accrual periods, other than a final short accrual period, are of equal length.

The amount of OID allocable to the final accrual period is equal to the difference between (x) the amount payable at the maturity of the Discount Note (other than any payment of qualified stated interest), and (y) the Discount Note's adjusted issue price as of the beginning of the final accrual period.

Under these rules, a U.S. holder generally will have to include in income increasingly greater amounts of OID in successive accrual periods.

Acquisition Premium:

A U.S. Holder that purchases a Discount Note for an amount less than or equal to the sum of all amounts payable on the Note after the purchase date, other than payments of qualified stated interest, but in excess of its adjusted issue price (any such excess being **acquisition premium**) and that does not make the election described below under "*Election to Treat All Interest as Original Issue Discount*", is permitted to reduce the daily portions of OID by a fraction, the numerator of which is the excess of the U.S. Holder's adjusted basis in the Discount Note immediately after its purchase over the Discount Note's adjusted issue price, and the denominator of which is the excess of the sum of all amounts payable on the Note after the purchase date, other than payments of qualified stated interest, over the Discount Note's adjusted issue price.

Market Discount:

A Note, other than a Short Term Note, generally will be treated as purchased at a market discount (a **Market Discount Note**) if the Note's stated redemption price at maturity or, in the case of a Discount Note, the Note's "revised issue price", exceeds the amount for which the U.S. Holder purchased the Note by at least 0.25 per cent. of the Note's stated redemption price at maturity or revised issue price, respectively, multiplied by the number of complete years to the Note's maturity (or, in the case of a Note that is an instalment obligation, the Note's weighted average maturity). If this excess is not sufficient to cause the Note to be treated as a Market Discount Note, then the excess constitutes "de minimis market discount". For this purpose, the "revised issue price" of a Note generally equals its issue price,

increased by the amount of any OID that has accrued on the Note and decreased by the amount of any payments previously made on the Note that were not qualified stated interest payments.

Any gain recognised on the maturity or disposition of a Market Discount Note (including any payment on a Note that is not qualified stated interest) will be treated as ordinary income to the extent that the gain does not exceed the accrued market discount on the Note. Alternatively, a U.S. Holder of a Market Discount Note may elect to include market discount in income currently over the life of the Note. This election shall apply to all debt instruments with market discount acquired by the electing U.S. Holder on or after the first day of the first taxable year to which the election applies. This election may not be revoked without the consent of the IRS. A U.S. Holder of a Market Discount Note that does not elect to include market discount in income currently will generally be required to defer deductions for interest on borrowings incurred to purchase or carry a Market Discount Note that is in excess of the interest and OID on the Note to be included in the U.S. Holder's income, to the extent that this excess interest expense does not exceed the portion of the market discount allocable to the days on which the Market Discount Note was held by the U.S. Holder.

Market discount will accrue on a straight-line basis unless the U.S. Holder elects to accrue the market discount on a constant-yield method. This election applies only to the Note with respect to which it is made and is irrevocable.

Election to Treat All Interest as Original Issue Discount:

A U.S. Holder may elect to include in gross income all interest that accrues on a Note using the constant-yield method described above under "*Original Issue Discount — General*" with certain modifications. For the purposes of this election, interest includes stated interest, OID, de minimis OID, market discount, *de minimis* market discount and unstated interest, as adjusted by any amortisable bond premium (described below under "Notes Purchased at a Premium") or acquisition premium. If a U.S. Holder makes this election for the Note, then, when the constant-yield method is applied, the issue price of the Note will equal the U.S. Holder's cost, the issue date of the Note will be the date the U.S. Holder acquired it, and no payments on the Note will be treated as payments of qualified stated interest. This election will generally apply only to the Note with respect to which it is made and may not be revoked without the consent of the IRS. However, if the Note has amortisable bond premium, the U.S. Holder will be deemed to have made an election to apply amortisable bond premium against interest for all debt instruments with amortisable bond premium, other than debt instruments the interest on which is excludable from gross income, held as of the beginning of the taxable year to which the election applies or any taxable year thereafter. If the election to apply the constant-yield method to all interest on a Note is made with respect to a Market Discount Note, the electing U.S. Holder will be treated as having made the election discussed above under "Market Discount" to include market discount in income currently over the life of all debt instruments with market discount held or thereafter acquired by the U.S. Holder. A U.S. Holder may not revoke any election to apply the constant yield method to all interest on a Note or the deemed elections with respect to amortizable bond premium or Market Discount Notes without the consent of the IRS. U.S. Holders should consult their tax advisers concerning the propriety and consequences of this election.

Variable Interest Rate Notes:

Notes that provide for interest at variable rates (**Variable Interest Rate Notes**) generally will bear interest at a "qualified floating rate" and thus will be treated as "variable rate debt instruments" under U.S. Treasury regulations governing accrual of OID. A Variable Interest Rate Note will qualify as a "variable rate debt instrument" if (a) its issue price does not exceed the total non-contingent principal payments due under the Variable Interest Rate Note by more than a specified de minimis amount and (b) it provides for stated interest, paid or compounded at least annually, at: (i) one or more qualified floating rates; (ii) a single fixed rate and one or more qualified floating rates; (iii) a single objective rate; or (iv) a single fixed rate and a single objective rate that is a qualified inverse floating rate.

A "qualified floating rate" is any variable rate where variations in the value of the rate can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds in the currency in

which the Variable Interest Rate Note is denominated. A fixed multiple of a qualified floating rate will generally constitute a qualified floating rate only if the multiple is greater than 0.65 but not more than 1.35, whether or not a variable rate is increased or decreased by a fixed rate. A variable rate that would otherwise constitute a qualified floating rate but which is subject to one or more restrictions such as a maximum numerical limitation (i.e., a cap) or a minimum numerical limitation (i.e., a floor), may, under certain circumstances, fail to be treated as a qualified floating rate unless the cap or floor is fixed throughout the term of the Note.

An "objective rate" is a rate that is not itself a qualified floating rate but which is determined using a single fixed formula and which is based on objective financial or economic information (e.g., one or more qualified floating rates or the yield of actively traded personal property). A rate will not qualify as an objective rate if it is based on information that is within the control of the Issuer (or a related party) or that is unique to the circumstances of the Issuer (or a related party), such as dividends, profits or the value of the Issuer's stock (although a rate does not fail to be an objective rate merely because it is based on the credit quality of the Issuer).

A qualified floating rate or objective rate in effect at any time during the term of the instrument must be set at a "current value" of that rate. A **current value** of a rate is the value of the rate on any day that is no earlier than three months prior to the first day on which that value is in effect and no later than one year following that first day.

A Variable Interest Rate Note that provides for stated interest at either a single qualified floating rate or a single objective rate throughout the term thereof and that qualifies as a "variable rate debt instrument", will generally not be treated as having been issued with OID unless the Variable Interest Rate Note is issued at a "true discount" (i.e. at a price below the Note's stated principal amount) in excess of a specified *de minimis* amount. OID on a Variable Interest Rate Note arising from true discount is allocated to an accrual period using the constant yield method described above.

In general, any other Variable Interest Rate Note that qualifies as a "variable rate debt instrument" will be converted into an equivalent fixed rate debt instrument for purposes of determining the amount and accrual of OID and qualified stated interest on the Variable Interest Rate Note. Such a Variable Interest Rate Note must be converted into an equivalent fixed rate debt instrument by substituting any qualified floating rate or qualified inverse floating rate provided for under the terms of the Variable Interest Rate Note with a fixed rate equal to the value of the qualified floating rate or qualified inverse floating rate, as the case may be, as of the Variable Interest Rate Note's issue date. Any objective rate (other than a qualified inverse floating rate) provided for under the terms of the Variable Interest Rate Note is converted into a fixed rate that reflects the yield that is reasonably expected for the Variable Interest Rate Note. In the case of a Variable Interest Rate Note that qualifies as a "variable rate debt instrument" and provides for stated interest at a fixed rate in addition to either one or more qualified floating rates or a qualified inverse floating rate, the fixed rate is initially converted into a qualified floating rate (or a qualified inverse floating rate, if the Variable Interest Rate Note provides for a qualified inverse floating rate). Under these circumstances, the qualified floating rate, or qualified inverse floating rate that replaces the fixed rate, must be such that the fair market value of the Variable Interest Rate Note as of the Variable Interest Rate Note's issue date is approximately the same as the fair market value of an otherwise identical debt instrument that provides for either the qualified floating rate or qualified inverse floating rate rather than the fixed rate. Subsequent to converting the fixed rate into either a qualified floating rate or a qualified inverse floating rate, the Variable Interest Rate Note is converted into an equivalent fixed rate debt instrument in the manner described above.

Once the Variable Interest Rate Note is converted into an equivalent fixed rate debt instrument pursuant to the foregoing rules, the amount of OID and qualified stated interest, if any, are determined for the equivalent fixed rate debt instrument by applying the general OID rules to the equivalent fixed rate debt instrument, and a U.S. Holder of the Variable Interest Rate Note will account for the OID and qualified stated interest as if the U.S. Holder held the equivalent fixed rate debt instrument. In each accrual period, appropriate adjustments will be made to the amount of qualified stated interest or OID assumed to have been accrued or paid with respect to the equivalent fixed rate debt instrument in the event that

these amounts differ from the actual amount of interest accrued or paid on the Variable Interest Rate Note during the accrual period.

If a Variable Interest Rate Note, such as a Note the payments on which are determined by reference to an index, does not qualify as a "variable rate debt instrument", then the Variable Interest Rate Note will be treated as a contingent payment debt instrument. Prospective purchasers should consult with their tax advisers concerning the proper U.S. federal income tax treatment of Variable Interest Rate Notes that are treated as contingent payment debt.

Short Term Notes:

In general, an individual or other cash basis U.S. Holder of a Short Term Note is not required to accrue OID (calculated as set forth below for the purposes of this paragraph) for U.S. federal income tax purposes unless it elects to do so (but may be required to include any stated interest in income as the interest is received). Accrual basis U.S. Holders and certain other U.S. Holders are required to accrue OID on Short Term Notes on a straight-line basis or, if the U.S. Holder so elects, under the constant-yield method (based on daily compounding). In the case of a U.S. Holder not required and not electing to include OID in income currently, any gain realised on the sale or other disposition of the Short Term Note will be ordinary income to the extent of the OID accrued on a straight-line basis (unless an election is made to accrue the OID under the constant-yield method) through the date of sale or other disposition. U.S. Holders who are not required and do not elect to accrue OID on Short Term Notes will be required to defer deductions for interest on borrowings allocable to Short Term Notes in an amount not exceeding the deferred income until the deferred income is realised.

For purposes of determining the amount of OID subject to these rules, all interest payments on a Short Term Note, including stated interest, are included in such note's stated redemption price at maturity. A U.S. Holder may elect to determine OID on a Short Term Note as if such note had been originally issued to the U.S. Holder as the U.S. Holder's purchase price for the Short Term Note. This election shall apply to all obligations with a maturity of one year or less acquired by the U.S. Holder on or after the first day of the first taxable year to which the election applies, and may not be revoked without the consent of the IRS.

3.19.1.3 Notes Purchased at a Premium

A U.S. Holder that purchases a Note for an amount in excess of its principal amount or for a Discount Note, its stated redemption price at maturity, may elect to treat the excess as "amortisable bond premium", in which case the amount required to be included in the U.S. Holder's income each year with respect to interest on the Note will be reduced by the amount of amortisable bond premium allocable (based on the Note's yield to maturity) to that year. Any election to amortise bond premium shall apply to all bonds (other than bonds the interest on which is excludable from gross income for U.S. federal income tax purposes) held by the U.S. Holder at the beginning of the first taxable year to which the election applies or thereafter acquired by the U.S. Holder, and is irrevocable without the consent of the IRS. A U.S. Holder that does not elect to take bond premium (other than acquisition premium) into account currently will recognise a capital loss when the Note matures.

3.19.1.4 Purchase, Sale or Other Dispositions of Notes

A U.S. Holder will generally recognise gain or loss on the sale, redemption, or other disposition of a Note equal to the difference between the amount realised (other than amounts attributable to accrued but unpaid interest, which will be taxed as interest income to the extent not previously so taxed) on the sale, redemption, or other disposition and the U.S. Holder's adjusted tax basis in the Note. A U.S. Holder's adjusted tax basis in a Note will generally be equal to the amount that such U.S. Holder paid for the Note, (i) increased by the amount of any OID or market discount included in the U.S. Holder's income with respect to the Note and the amount, if any, of income attributable to de minimis OID and de minimis market discount included in the U.S. Holder's income with respect to the Note, and (ii) reduced by the amount of any payments that are not qualified stated interest payments and the amount of any amortisable bond premium applied to reduce interest on the Note. Except to the extent described above under "*Original Issue Discount—Market Discount*" or "*Original Issue Discount—Short Term Notes*" or

attributable to accrued but unpaid interest or changes in exchange rates (as discussed below), gain or loss recognised on the sale or other disposition of a Note will be capital gain or loss and generally will be treated as from U.S. sources for purposes of the U.S. foreign tax credit limitation and may be taxable at reduced rates in the case of a U.S. Holder that is an individual, estate or trust, if the Notes are held for more than one year. The deductibility of capital losses is subject to limitations.

3.19.1.5 Foreign Currency Notes

Interest:

If an interest payment is denominated in, or determined by reference to, a foreign currency, the amount of income recognised by a cash basis U.S. Holder will be the U.S. dollar value of the interest payment, based on the exchange rate in effect on the date of receipt, regardless of whether the payment is in fact converted into U.S. dollars.

An accrual basis U.S. Holder may determine the amount of income recognised with respect to an interest payment denominated in, or determined by reference to, a foreign currency in accordance with either of two methods. Under the first method, the amount of income accrued will be based on the average exchange rate in effect during the interest accrual period (or, in the case of an accrual period that spans two taxable years of a U.S. Holder, the part of the period within the taxable year).

Under the second method, the U.S. Holder may elect to determine the amount of income accrued on the basis of the exchange rate in effect on the last day of the accrual period (or, in the case of an accrual period that spans two taxable years, the exchange rate in effect on the last day of the part of the period within the taxable year). Additionally, if a payment of interest is actually received within five business days of the last day of the accrual period, an electing accrual basis U.S. Holder may instead translate the accrued interest into U.S. dollars at the exchange rate in effect on the day of actual receipt. Any such election will apply to all debt instruments held by the U.S. Holder at the beginning of the first taxable year to which the election applies or thereafter acquired by the U.S. Holder, and will be irrevocable without the consent of the IRS.

Upon receipt of an interest payment (including a payment attributable to accrued but unpaid interest upon the sale or other disposition of a Note) denominated in, or determined by reference to, a foreign currency, the U.S. Holder may recognise U.S. source exchange gain or loss (taxable as ordinary income or loss) equal to the difference between the amount received (translated into U.S. dollars at the spot rate on the date of receipt) and the amount previously accrued, regardless of whether the payment is in fact converted into U.S. dollars.

OID:

OID for each accrual period on a Discount Note that is denominated in, or determined by reference to, a foreign currency, will be determined in the foreign currency and then translated into U.S. dollars in the same manner as stated interest is accrued by an accrual basis U.S. Holder, as described above under "*Foreign Currency Notes—Interest*". Upon receipt of an amount attributable to OID (whether in connection with a payment on the Note or a sale or other disposition of the Note), a U.S. Holder may recognise U.S. source exchange gain or loss (taxable as ordinary income or loss) equal to the difference between the amount received (translated into U.S. dollars at the spot rate on the date of receipt) and the amount previously accrued, regardless of whether the payment is in fact converted into U.S. dollars.

Bond Premium:

Bond premium (including acquisition premium) on a Note that is denominated in, or determined by reference to, a foreign currency, will be computed in units of the foreign currency, and any such bond premium that is taken into account currently will reduce interest income in units of the foreign currency.

On the date bond premium offsets interest income, a U.S. Holder may recognise U.S. source exchange gain or loss (taxable as ordinary income or loss) measured by the difference between the spot rate in effect on that date and on the date the Notes were acquired by the U.S. Holder.

Purchase, Sale or Other Dispositions of Foreign Currency Notes:

As discussed above under "*Purchase, Sale or Other Dispositions of Notes*", a U.S. Holder will generally recognise gain or loss on the sale or other disposition of a Note equal to the difference between the amount realised on the sale or other disposition and its tax basis in the Note. A U.S. Holder's tax basis in a Foreign Currency Note will be determined by reference to the U.S. dollar cost of the Note. The U.S. dollar cost of a Note purchased with foreign currency will generally be the U.S. dollar value of the purchase price on the date of purchase or, in the case of Notes traded on an established securities market, as defined in the applicable Treasury Regulations, that are purchased by a cash basis U.S. Holder (or an accrual basis U.S. Holder that so elects), on the settlement date for the purchase.

The amount realised on a sale or other disposition for an amount in foreign currency will be the U.S. dollar value of this amount on the date of sale or other disposition or, in the case of Notes traded on an established securities market, as defined in the applicable U.S. Treasury regulations, sold by a cash basis U.S. Holder (or an accrual basis U.S. Holder that so elects), on the settlement date for the sale. Such an election by an accrual basis U.S. Holder must be applied consistently from year to year and cannot be revoked without the consent of the IRS.

A U.S. Holder will recognise U.S. source exchange rate gain or loss (taxable as ordinary income or loss) on the sale or other disposition of a Note equal to the difference, if any, between the U.S. dollar values of the U.S. Holder's purchase price for the Note (or, if less, the principal amount of the Note): (a) on the date of sale or other disposition; and (b) the date on which the U.S. Holder acquired the Note. Any such exchange rate gain or loss will be realised only to the extent of total gain or loss realised on the sale or other disposition.

Disposition of Foreign Currency:

Foreign currency received as interest on a Note or on the sale, redemption or other disposition of a Note will generally have a tax basis equal to its U.S. dollar value at the time the interest is received or at the time of the sale or other disposition. Foreign currency that is purchased will generally have a tax basis equal to the U.S. dollar value of the foreign currency on the date of purchase. Any gain or loss recognised on a sale or other disposition of a foreign currency (including its use to purchase Notes or upon exchange for U.S. dollars) will be U.S. source ordinary income or loss.

3.19.1.6 Medicare Surtax

For taxable years beginning after 31st December, 2012, a United States person that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, will be subject to a 3.8 per cent. tax on the lesser of (1) such person's "net investment income" for the relevant taxable year and (2) the excess of such person's modified gross income for the taxable year over a certain threshold (which in the case of individuals will be between U.S.\$125,000 and U.S.\$250,000, depending on the individual's circumstances). A U.S. holder's net investment income will generally include its interest income and its net gains from the disposition of Notes, unless such interest payments or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). If a holder is a United States person that is an individual, estate or trust, such holder is urged to consult tax advisors regarding the applicability of the Medicare tax to such holder's income and gains in respect of investment in the Notes.

3.19.1.7 Foreign Financial Asset Reporting

Under recently enacted legislation, individuals that own "specified foreign financial assets" (which will generally include the Notes) with an aggregate value in excess of U.S.\$50,000 in taxable years beginning after 18th March, 2010 will generally be required to file an information report with respect to such assets with their tax returns. "Specified foreign financial assets" include any financial accounts maintained by foreign financial institutions, as well as any of the following, but only if they are not held in accounts maintained by financial institutions: (i) stocks and securities issued by non-United States persons, (ii) financial instruments and contracts held for investment that have non-United States issuers

or counterparties and (iii) interests in foreign entities. U.S. holders that are individuals are urged to consult their tax advisors regarding the application of this legislation to their ownership of the Notes.

3.19.1.8 FATCA

FATCA imposes a new withholding and information reporting regime on certain non-U.S. financial institutions (FFIs) that are not deemed to be in compliance or otherwise exempt. The intent of FATCA is to prevent cross-border tax evasion by U.S. Persons by forcing FFIs to disclose information on its United States account holders to the U.S. Internal Revenue Service (IRS) or otherwise face a potential 30% penalty withholding tax with respect to certain payments made to it, provided that those payments have a jurisdictional nexus to the United States.

Under final FATCA regulations, an FFI can become FATCA compliant and thus avoid the penalty withholding tax by entering into an agreement with the IRS to become a "participating FFI". If the FFI becomes a participating FFI it will agree to, among other things, undertake a due diligence operation to identify its United States account holders, provide information annually with respect to those account holders, and to withhold on "passthru payments" that it makes to non-participating FFIs and to recalcitrant account holders (each a **Recalcitrant Holder**). The term **passthru payments** include both "withholdable payments" and "foreign passthru payments". Withholdable payments are, in general, limited to payments from sources within the United States. Under a controversial notice, the term **foreign passthru payments** would have included an amount equal to the payment multiplied by a passthru payment percentage, which would be a percentage based on the payor's U.S. assets divided by its total assets. However, the final FATCA regulations did not adopt this approach and the definition of the term foreign passthru payments is currently reserved.

In general, the new withholding regime will be phased in beginning 1 July 2014 for withholdable payments and may also apply to foreign passthru payments, but in no event earlier than 1 January 2017. FATCA Withholding will potentially be required unless the withholding agent can reliably associate the payment with applicable documentation requirements certifying that the payee is exempt from FATCA withholding (e.g., Forms W-8 and W-9 or other suitable or successor forms). Additionally, no amount is required to be withheld on instruments that are "grandfathered obligations" even if payments are made on that instrument after 30 June 2014. Grandfathered obligations include (i) any obligation that is outstanding on 1 July 2014 and, (ii) solely for purposes of a foreign passthru payment, any obligation that is executed on or before the date that is six (6) months after the date on which final regulations defining the term foreign passthru payment are filed with the Federal Register. In this paragraph, the term "**obligation**" includes instruments treated as indebtedness for U.S. Federal income tax purposes, but does not include instruments treated as equity for U.S. Federal income tax purposes. If an obligation is materially modified on or after the grandfathering date and is deemed to be reissued under certain income tax regulations issued by the IRS, the previously discussed exemptions relating to grandfathered obligations would not apply.

The United States and a number of other jurisdictions (such as France and Luxembourg) have announced their intention to negotiate intergovernmental agreements (**IGAs**) to facilitate the implementation of FATCA. Pursuant to FATCA and the "Model 1" and "Model 2" IGAs released by the United States, an FFI in an IGA signatory country could be treated as a **Reporting FI** not subject to withholding under FATCA on any payments it receives. Further, an FFI in a Model 1 IGA jurisdiction generally would not be required to withhold under FATCA or an IGA (or any law implementing an IGA) from payments it makes (unless it has agreed to do so under the U.S. "qualified intermediary", "withholding foreign partnership" or "withholding foreign trust" regimes). The Model 2 IGA leaves open the possibility that a Reporting FI might in the future be required to withhold as a participating FFI on payments made to recalcitrant account holders in certain instances and on foreign passthru payments. A Reporting FI governed by a Model 2 IGA may also have to withhold on payments made to noncompliant (or "non-participating FFIs"). Under each Model IGA, a Reporting FI would still be required to report certain information in respect of its account holders and investors to its home government or to the IRS. Pursuant to an anti-abuse rule in the case of significant non-compliance by a Reporting FI, the United States reserves the right to deny the benefits of an IGA to that institution. The United States have signed

agreements with France (the **US-France IGA**) and with Luxembourg based largely on the Model 1 IGA. The United States and Luxembourg have also signed an agreement based largely on the Model 1 IGA.

The Issuer expects to be treated as a Reporting FI pursuant to the US-France IGA and does not anticipate being required to deduct amounts in respect of FATCA withholding on payments it makes. However, there can be no assurance that the Issuer will be treated as a Reporting FI, or that it would in the future be exempt from FATCA withholding on payments it makes. For example, the Issuer and financial institutions through which payments on the Notes are made could potentially be subject to FATCA withholding if (i) the payments are deemed to be from U.S. sources; (ii) one financial institution in the chain of payments is a FATCA withholding agent (e.g., a participating FFI); and (iii) any subsequent FFI through or to which payment on such Notes is made is not a participating FFI, a Reporting FI, or otherwise exempt from or in deemed compliance with FATCA (i.e., not exempt from FATCA withholding) or an investor is a Recalcitrant Holder. If an amount in respect of FATCA withholding were to be deducted or withheld from interest, principal or other payments made in respect of the Notes, neither the Issuer nor any paying agent nor any other person would, pursuant to the conditions of the Notes, be required to pay additional amounts as a result of the deduction or withholding. As a result, investors may receive less interest or principal than expected.

The above discussion is based in part on existing regulations and other forms of guidance, all of which are subject to change. Thus, Noteholders should consult their own tax advisor to obtain a detailed explanation of FATCA and to learn how this legislation might affect their investment in their particular circumstances.

TO ENSURE COMPLIANCE WITH IRS CIRCULAR 230, EACH TAXPAYER IS HEREBY NOTIFIED THAT: (A) ANY TAX DISCUSSION HEREIN IS NOT INTENDED OR WRITTEN TO BE USED, AND CANNOT BE USED BY THE TAXPAYER FOR THE PURPOSE OF AVOIDING U.S. FEDERAL INCOME TAX PENALTIES THAT MAY BE IMPOSED ON THE TAXPAYER; (B) ANY SUCH TAX DISCUSSION WAS WRITTEN TO SUPPORT THE PROMOTION OR MARKETING OF THE TRANSACTIONS OR MATTERS ADDRESSED HEREIN; AND (C) THE TAXPAYER SHOULD SEEK ADVICE BASED ON THE TAXPAYER'S PARTICULAR CIRCUMSTANCES FROM AN INDEPENDENT TAX ADVISER.

3.19.1.9 *Backup Withholding and Information Reporting*

In general, payments of interest and accrued OID on, and the proceeds of a sale, redemption or other disposition of, the Notes, payable to a U.S. Holder within the United States or by a U.S. paying agent or certain other U.S.-related intermediaries, will be reported to the IRS and to the U.S. Holder as may be required under applicable regulations. Backup withholding may apply to these payments and to accruals of OID if the U.S. Holder fails to provide an accurate taxpayer identification number or certification of exempt status or otherwise to comply with the applicable backup withholding requirements. Certain U.S. Holders are not subject to information reporting or backup withholding. U.S. Holders should consult their tax advisers as to their qualification for exemption from information reporting and/or backup withholding and the procedure for obtaining an exemption.

3.19.1.10 *Disclosure Requirements*

U.S. Treasury regulations intended to require the reporting of certain tax shelter transactions (**Reportable Transactions**) could be interpreted to cover transactions generally not regarded as tax shelters, including certain foreign currency transactions. Under the U.S. Treasury regulations, certain transactions may be characterised as Reportable Transactions including, in certain circumstances, a sale, exchange, retirement or other taxable disposition of a Foreign Currency Note and/or a Note issued with OID. Persons considering the purchase of such Notes should consult with their tax advisers to determine the tax return obligations, if any, with respect to an investment in such Notes, including any requirement to file IRS Form 8886 (Reportable Transaction Disclosure Statement).

3.19.2 **Excise tax**

Where TEFRA C or TEFRA D is specified in the applicable Final Terms, subject to certain exceptions, Section 4701 of the US Internal Revenue Code imposes an excise tax on non-US issuers of bearer

obligations. The amount of the excise tax is one percent of the principal amount of the obligation, multiplied by the number of calendar years until the obligation reaches maturity. The Hiring Incentives to Restore Employment Act of 2010 (the **HIRE Act**) repealed the TEFRA C rules and TEFRA D rules for Notes issued after 18 March 2012. Based on Notice 2012-20, the US Department of Treasury and the US Internal Revenue Service intend to provide in regulations that rules identical to the TEFRA C rules and TEFRA D rules will apply for purposes of establishing an exemption from the excise tax. Consequently, Bearer Notes issued after 18 March 2012 in accordance with the TEFRA C rules or TEFRA D rules should continue to be treated as "foreign targeted obligations" that are exempt from the excise tax.

3.20 LIECHTENSTEIN

There are no Liechtenstein taxes on the income from the securities withheld at source apart from the case specified below.

Under the Agreement of 7 December 2004 between the European Community and the Principality of Liechtenstein Providing for Measures Equivalent to Those Laid Down in the European Council Directive 2003/48/EC on Taxation of Savings Income in the Form of Interest Payments and the law implementing this agreement, payments of interest or similar income made or ascribed by a paying agent established in Liechtenstein to or for the immediate benefit of an individual beneficial owner resident in an EU Member State will be subject to withholding tax unless the relevant recipient has adequately instructed the relevant paying agent to provide details of the relevant payments of interest or similar income to the fiscal authorities of his/her country of residence. Where withholding tax is applied, it will be levied at a rate of 35 per cent..

SUBSCRIPTION, SALE AND TRANSFER RESTRICTIONS

The Dealers have in a programme agreement dated 29 April 2014 (the **Programme Agreement**, which expression includes the same as it may be updated or supplemented from time to time), agreed with the Issuers and the Guarantor a basis upon which they (or any one of them) may from time to time agree to purchase Notes. Any such agreement will extend to those matters stated under "*Form of the Notes*" and in the Terms and Conditions of the Notes above. In the Programme Agreement, the Issuers have jointly and severally agreed to reimburse the Dealers for certain of their expenses in connection with the establishment and any future update of the Programme and the issue of Notes under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith.

The following selling restrictions may be modified by the relevant Issuer and the relevant Purchaser(s) following a change in the relevant law, regulation or directive and in certain other circumstances as may be agreed between the relevant Issuer and the relevant Purchaser(s). Any such modification will be set out in the syndication agreement (if applicable) in respect of the Tranche to which it is related or in a Supplement to this Base Prospectus.

1. UNITED STATES TRANSFER RESTRICTIONS

As a result of the following restrictions, purchasers of Notes in the United States are advised to consult legal counsel prior to making any purchase, offer, sale, resale or other transfer of such Notes.

Each purchaser of Registered Notes, or person wishing to transfer an interest from one Registered Global Note to another or from global to definitive form or vice versa, will be deemed or required, as the case may be, to acknowledge, represent and agree as follows (terms used in this paragraph shall have the meanings assigned to them in Rule 144A or in Regulation S, as applicable):

- (a) that either: (i) it (a) is a QIB and a QP purchasing (or holding) the Notes for its own account or for the account or benefit of one or more QIBs that are also QPs, in each case for investment and not with a view to, or for, sale or in connection with, any distribution thereof, (b) is not a broker dealer which owns and invests on a discretionary basis less than U.S.\$25 million in securities of unaffiliated issuers, (c) is not a participant directed employee plan, such as a 401(k) plan, (d) is not formed for the purpose of investing in the Notes or the Issuer, (e) and each account for which it holds Notes, will hold and transfer not less than U.S.\$100,000 (or its foreign currency equivalent) principal amount of the Notes and (f) is aware, and each beneficial owner of such Notes has been advised, that the seller of such Notes may be relying on the exemption from the provisions of Section 5 of the Securities Act provided by Rule 144A; or (ii) it is outside the United States and is not a U.S. Person;

To the extent that a Note constitutes an offshore derivatives instrument (**ODI**) (as such term is defined for the purposes of the Securities and Exchange Board of India (Foreign Institutional Investors) Regulation 1995 and notifications, circulars, rules and guidelines of the Securities and Exchange Board of India issued from time to time) (collectively referred to as the **FII Regulations**), the following selling restrictions shall apply to such Note:

2.9.1 By the purchase of any Notes, on the date of purchase and on each day the Notes are being held, each

Noteholder will be deemed to represent and warrant that its purchase of the Notes is in full compliance with the following selling restrictions and it undertakes and agrees to the selling restrictions below:

(1) The Notes shall not be offered, sold or transferred to (i) a "person resident in India" (as such term is defined in the Foreign Exchange Management Act, 1999, as may be amended or supplemented from time to time), or, (ii) a "non-resident Indian" (as such term is defined in the Foreign Exchange Management (Deposit) Regulations, 2000 as may be amended or supplemented from time to time), (each a **Restricted Entity**).

(2) The Notes shall not be offered, sold or transferred to any person/entity whose controller is a Restricted Entity.

For the purposes of this representation, a **controller** means any person or group of persons (acting pursuant to any agreement or understanding (whether formal or informal, written or otherwise)) who:

Notwithstanding the foregoing definition, in the case only where an entity's investments are being managed on a discretionary basis by an investment manager, such investment manager shall not be deemed to be such entity's controller for the purposes of this representation by reason only of it being able to control decision-making in relation to the entity's financial, investment and /or operating policies.

(3) The Notes shall only be purchased by a principal for its own account and not as an agent, nominee, trustee or representative of any other person and no agreement for the issuance of a back-to-back ODI (as such term is defined for the purposes of the FII Regulations) can be entered into against the Notes. For the purpose of this paragraph 2.7.1 ((3), a "back-to-back ODI" shall not include the issue of any ODI issued by a party who has disclosed the terms and parties to such back-to-back ODI in the form and manner prescribed by the Securities and Exchange Board of India pursuant to the FII Regulations (in particular, under Regulation 20A of the FII Regulations).

(4) The Notes shall only be offered to a "person regulated by an appropriate foreign regulatory authority" (as such term and/or requirements relating thereto are defined or otherwise interpreted for the purposes of Regulation 15A of the FII Regulations) (a **Regulated Entity**). Sovereign Wealth Funds/Foreign Government Bodies (SWF/FGB) are deemed to be eligible to be issued ODIs under the existing provisions of regulation 15A.

(5) The Notes shall not be purchased with the intent of circumventing or otherwise avoiding any requirements applicable under the FII Regulations (including, without limitation, any restrictions applying to foreign institutional investors in relation to their issuances and/or other dealings in the Notes with, Restricted Entities and persons/entities who are not Regulated Entities).

(6) The Notes cannot be sold, transferred, assigned or novated or otherwise disposed of and no back-to-back ODIs may be entered into and no agreement with respect to any of the foregoing may be entered into by the Noteholder nominees, associates or affiliates (each, a **Transfer**) with, an entity which is a Restricted Entity or an entity which is not a Regulated Entity. For the purpose of this paragraph 2.7.1(6), a "back-to-back ODI" shall not include the issue of any ODI issued by a party who has disclosed the terms and parties to such back-to-back ODI in the form and manner prescribed by the Securities and Exchange Board of India pursuant to the FII Regulations (in particular, under Regulation 20A of the FII Regulations).

2.9.2 Further, by the purchase of any Notes, each purchaser of the Notes is deemed to have agreed and undertaken as follows (and for the avoidance of doubt, such agreements and undertakings shall survive the maturity or expiration date of such Notes):

- (1) It will, in the case where it or its nominees, associates or affiliates sell, transfer, assign, novate or otherwise dispose of the Notes to, or enter into any back-to-back ODIs or enter into an agreement with respect to any of the foregoing with any party:
 - (a) provide notice of these "Indian Selling Restrictions" to any person to whom a Transfer was made (the **Transferee**); and
 - (b) issue a written notice to the Issuer in such form as the Issuer may determine within two (2) Hong Kong business days after the Transfer.

For the purpose of this paragraph 2.7.2(1), a "back-to-back ODI" shall not include the issue of any ODI to be issued by a party who makes monthly or periodic disclosure of ODI transactions to the Securities and Exchange Board of India and will disclose the terms and parties to such back-to-back ODI in the form and manner prescribed by the Securities and Exchange Board of India pursuant to the FII Regulations (in particular, under Regulation 20A of the FII Regulations).

- (2) The Issuer and its associates/affiliates are authorised to provide information in their possession regarding it, any Transferee, each of the nominees or associates/affiliates of it and/or the Transferee, the Notes and any breach of these representations, warranties, agreements and undertaking to any Indian governmental or regulatory authorities (each an **Authority**) as the Issuer or its associates/affiliates reasonably deems necessary or appropriate in order to comply with regulations or requests of such Authority from time to time, including but not limited to disclosures in periodic reportings made by the Issuer or its associates/affiliates to any Authority.
- (3) It will and shall procure its nominees or associates/affiliates to, provide the Issuer or its associates/affiliates (as the case may be) promptly with such additional information that the Issuer or its associates/affiliates (as the case may be) reasonably deems necessary or appropriate in order to comply with regulations or requests of any Authority from time to time.
- (4) It acknowledges that non-compliance with, or breach, violation or contravention of, the obligations under these "Indian Selling Restrictions" (including, without limitation, any restrictions with respect to a Transfer) (**ODI Holder Obligations**) may result in non-compliance with, or breach, violation or contravention of, applicable laws, regulations, governmental orders or directions, regulatory sanctions against the Issuer and/or its associates/affiliates and cause irreparable harm to the Issuer and/or its associates/affiliates. Accordingly, it further acknowledges that, in the event of any non-compliance with, or breach, violation or contravention of the ODI Holder Obligations by it, the Issuer and/or its associates/affiliates may notify the Authority of the breach, violation or contravention and exercise any rights and take any measures available to the Issuer and/or its associates/affiliates under the terms of the Notes including these "Indian Selling Restrictions", or any other measures to prevent, avoid, mitigate, remedy or cure such non-compliance, breach, violation or contravention, including but not limited to termination or compulsory redemption of the Notes by the Issuer or its associates/affiliates.
- (5) It will promptly notify the Issuer or its associates/affiliates should any of the representations, warranties, agreements and undertakings given by it change or no longer hold true.

2.10 United States

The Notes and any Guarantee have not been and will not be registered under the Securities Act and may only be offered, sold or delivered (a) outside of the United States in an offshore transaction in compliance with Rule 903 or Rule 904 under the Securities Act to persons that are not U.S. Persons or (b) directly or indirectly within the United States or to, or for the account or benefit of, U.S. Persons in accordance with Rule 144A under the Securities Act or pursuant to an exemption from the registration requirements of the Securities Act, in each case in a transaction that will not cause the Issuer to become required to register as an investment company under the Investment Company Act, as more fully

described under the heading "Subscription, Sale and Transfer Restrictions". Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Any offers and sales in the United States will only be made by dealers that are registered broker-dealers under Section 15 of the Exchange Act, as amended. Each Dealer has represented and agreed, and each further Dealer appointed under the Programme and each other Purchaser will be required to agree, that it will not offer, sell or deliver Notes (other than Permanently Restricted Notes) (a) as part of their distribution at any time or (b) otherwise until the day immediately following 40 days after the completion of the distribution of all Notes of the Tranche of which such Notes are a part, as determined and certified by the Fiscal Agent to such Dealer or Purchaser (as the case may be) or, in the case of an issue of Notes on a syndicated basis, the relevant lead manager within the United States or to, or for the account or benefit of, U.S. Persons except in compliance with Rule 144A under the Securities Act and that it will not at any time offer, sell or deliver Permanently Restricted Notes, or any interest therein, within the United States or to, or for the benefit or account of, U.S. Persons, and it will have sent to each Dealer or Purchaser to which it sells Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. Persons. In addition, until the day immediately following 40 days after the commencement of the offering, an offer or sale of Notes within the United States by any Dealer or Purchaser (whether or not participating in the offering) may violate the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Dealers may arrange for the resale of Notes (other than Permanently Restricted Notes) to QIBs that are also QPs pursuant to Rule 144A and each such purchaser of Notes is hereby notified that the Dealers may be relying on the exemption from the registration requirements of the Securities Act provided by Rule 144A. The minimum aggregate principal amount of Notes which may be purchased by a QIB that is also a QP pursuant to Rule 144A is U.S.\$100,000 (or the approximate equivalent thereof in any other currency). To the extent that the Issuer is not subject to or does not comply with the reporting requirements of Section 13 or 15(d) of the Exchange Act or the information furnishing requirements of Rule 12g3-2(b) thereunder, the Issuer has agreed to furnish to holders of Notes and to prospective purchasers designated by such holders, upon request, such information as may be required by Rule 144A(d)(4).

Each issue of Index Linked Notes and Dual Currency Notes may be subject to such additional U.S. selling restrictions as the Issuer and the relevant Purchaser may agree, as indicated in the applicable Final Terms. Each Dealer has agreed and each other Purchaser will be required to agree that it will offer sell or deliver such Notes only in compliance with such additional U.S. selling restrictions. The Dealers may require prospective purchasers of the Notes to provide a certificate substantially in the form attached to the Operating and Administrative Procedures Memorandum evidencing such purchaser's eligibility to purchase such Notes and compliance with the relevant selling restrictions.

French law Dematerialised Notes and Uncertificated Notes which are, in each case, designated in the applicable Final Terms as Permanently Restricted Notes, or any interest therein, may not at any time be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, a U.S. Person and any offer, sale, resale, trade, pledge, redemption, transfer or delivery made, directly or indirectly, within the United States or to, or for the account or benefit of, a U.S. Person will not be recognised. French Law Notes and Uncertificated Notes may not be legally or beneficially owned at any time by any U.S. Person and accordingly are being offered and sold outside the United States to persons that are not U.S. Persons in reliance on Regulation S.

French law Materialised Notes and French law Dematerialised Notes and Uncertificated Notes which are, in each case, not designated as Permanently Restricted Notes, or any interest therein, may not be offered or sold in the United States or to, or for the account or benefit of, U.S. Persons except pursuant to an exemption from the registration requirements of the Securities Act in a transaction that will not cause the Issuer or the Guarantor, as the case may be, to become required to register under the Investment Company Act.

If the applicable Final Terms specify that the clause "*Permanently Restricted Notes*" is "Yes":

The Notes described herein are designated as Permanently Restricted Notes. As a result, they may not be legally or beneficially owned at any time by any U.S. Person (as defined in Regulation S) and accordingly are being offered and sold outside the United States to persons that are not U.S. Persons in reliance on Regulation S.

By its purchase of a Note, each purchaser will be deemed or required, as the case may be, to have agreed that it may not resell or otherwise transfer any Note held by it except outside the United States in an offshore transaction to a person that is not a U.S. Person.

If the applicable Final Terms specify that the clause "*Permanently Restricted Notes*" is "No":

The Notes have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the Securities Act), or with any securities regulatory authority of any state or other jurisdiction of the United States and may not be offered or sold within the United States or for the account or benefit of U.S. persons (as defined in Regulation S under the Securities Act), except in certain transactions exempt from the registration requirements of the Securities Act.

In addition in respect of Bearer Notes where TEFRA D is specified in the applicable Final Terms:

- (i) except to the extent permitted under U.S. Treas. Reg. Section 1.163-5(c)(2)(i)(D) (the **D Rules**), each Dealer (i) represents that it has not offered or sold, and agrees that during the restricted period it will not offer or sell, Notes in bearer form to a person who is within the United States or its possessions or to a United States person, and (ii) represents that it has not delivered and agrees that it will not deliver within the United States or its possessions definitive Notes in bearer form that are sold during the restricted period;
- (ii) each Dealer represents that it has and agrees that throughout the restricted period it will have in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Notes in bearer form are aware that such Notes may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person, except as permitted by the D Rules;
- (iii) if it is a United States person, each Dealer represents that it is acquiring Notes in bearer form for purposes of resale in connection with their original issuance and if it retains Notes in bearer form for its own account, it will only do so in accordance with the requirements of U.S. Treas. Reg. Section 1.163-5(c)(2)(i)(D)(6); and
- (iv) with respect to each affiliate that acquires Notes in bearer form from a Dealer for the purpose of offering or selling such Notes during the restricted period, such Dealer repeats and confirms the representations and agreements contained in subclauses (i), (ii) and (iii) above on such affiliate's behalf.

Terms used in this subclause have the meanings given to them by the U.S. Internal Revenue Code of 1986 and Treasury regulations promulgated thereunder, including the D Rules.

In respect of Bearer Notes where TEFRA C is specified in the applicable Final Terms, such Notes must be issued and delivered outside the United States and its possessions in connection with their original issuance. Each Dealer has represented and agreed that it has not offered, sold or delivered, and will not offer, sell or deliver, directly or indirectly, such Notes within the United States or its possessions in connection with their original issuance. Further, each Dealer has represented and agreed in connection with the original issuance of such Notes that it has not communicated, and will not communicate, directly or indirectly, with a prospective purchaser if such purchaser is within the United States or its possessions and will not otherwise involve its U.S. office in the offer or sale of such Notes.

1.2 SG Issuer

1.3 SGA Société Générale Acceptance N.V.

2. CREDIT RATINGS

SG Issuer and SG Option Europe are not rated.

At the date of this Base Prospectus, Société Générale is rated:

"AA (low) par DBRS: The DBRS® long-term rating scale provides an opinion on the risk of default on a scale of 'AAA' to 'D'. 'AA' ratings denote superior credit quality. The capacity for payment of financial obligations is considered high. Credit quality differs from 'AAA' only to a small degree. Unlikely to be significantly vulnerable to future events. All rating categories other than 'AAA' and 'D' also contain subcategories "(high)" and "(low)". The absence of either a "(high)" or "(low)" designation indicates the rating is in the middle of the category.

"A" par Fitch Ratings: An Issuer Default Rating at Fitch Ratings provides an ordinal ranking of issuers, on a scale of 'AAA' to 'D', based on the agency's view of their relative vulnerability to default, rather than a prediction of a specific percentage likelihood of default. 'A' ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings. The modifiers "+" or "-" may be appended to a rating to denote relative status within major rating categories.

"A2" par Moody's Investors Services: Ratings assigned on Moody's global long-term and short-term rating scales are forward-looking opinions of the relative credit risks of financial obligations issued by financial institutions on a scale of 'Aaa' to 'C'. Obligations rated 'A' are judged to be upper-medium grade and are subject to low credit risk. Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from 'Aa' through 'Caa'. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

"A" par Standard and Poor's: A Standard & Poor's issue credit rating is a forward-looking opinion on a scale of 'AAA' to 'D' about the creditworthiness of an obligor with respect to a specific financial obligation, a specific class of financial obligations, or a specific financial program. The opinion reflects Standard & Poor's view of the obligor's capacity and willingness to meet its financial commitments as they come due, and may assess terms, such as collateral security and subordination, which could affect ultimate payment in the event of default. An obligation rated 'A' is somewhat more susceptible to the

adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong. The ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

As at the date of this Base Prospectus, each of Moody's France S.A.S., Fitch France S.A.S. and Standard & Poor's Credit Market Services S.A.S. is established in the European Union and is registered under Regulation (EC) No 1060/2009 of the European Parliament and of the Council dated 16 September 2009, as amended by Regulation (EU) No 513/2011 of the European Parliament and of the Council dated 11 May 2011 and is included in the list of registered credit rating agencies published at the website of the European Securities and Markets Authority (www.esma.europa.eu).
